FORM 8-K

CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): February 4, 2017

Simpson Manufacturing Co., Inc.
(Exact name of registrant as specified in its charter)

Delaware 1-13429 94-3196943
(State or other jurisdiction of incorporation) (Commission file number) (I.R.S. Employer Identification No.)

5956 W. Las Positas Boulevard, Pleasanton, CA 94588
(Address of principal executive offices)

(Registrant's telephone number, including area code): (925) 560-9000

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-2)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

NOTE ABOUT FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements relating to events or results that may occur in the future are forward-looking statements, including, but not limited to, statements regarding the Company's future compensation payments, arrangements, plans or amendments (including those related to profit sharing and stock-based compensation). Forward-looking statements generally can be identified by words such as "estimate," "expect," "intend," "plan," "target," "continue," "change," "to be," "future," "could," "will," or similar expressions. Forward-looking statements are necessarily speculative in nature, are based on numerous assumptions, and involve known and unknown risks, uncertainties and other factors (some of which are beyond our control) that could significantly affect the Company's operations and may cause the Company's actual actions, results, financial condition, performance or achievements to be substantially different from any future actions, results, financial condition, performance or achievements expressed or implied by any such forward-looking statements. Those factors include, but are not limited to: (i) general economic and construction business conditions; (ii) changes in market conditions; (iii) changes in regulations; (iv) actual or potential takeover or other change-of-control threats; (v) the effect of merger or acquisition activities; (vi) changes in the Company's plans, strategies, targets, objectives, expectations or intentions; and (vii) other risks, uncertainties and factors indicated from time to time in the Company's reports and filings with the U.S. Securities and Exchange Commission, including, without limitation, most recently the Company's Annual Report on Form 10-K for the period ended December 31, 2015, under the heading Item 1A - "Risk Factors" and the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations." Each forward-looking statement contained in this Current Report on Form 8-K is specifically qualified in its entirety by the aforementioned factors. In light of the foregoing, investors are advised to carefully read this Current Report on Form 8-K in connection with the important disclaimers set forth above and are urged not to rely on any forward-looking statements in reaching any conclusions or making any investment decisions about us or our securities. Except as required by law, we do not intend and undertake no obligation to update, revise or publicly release any updates or revisions to any forward-looking statements hereunder, whether as a result of the receipt of new information, the occurrence of future events, the change of circumstances or otherwise.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(e) Compensation of Named Executive Officers

To better align our Named Executive Officers' short- and long-term incentives with our strategic objectives, on February 4, 2017, the Compensation and Leadership Development Committee (the "Committee") of our Board of Directors, approved certain updates to the compensatory arrangements for our named executive officers (the "Named Executive Officers") that the Company announced previously on October 19, 2016, as well as on December 6, 2016. The Committee believes that, with these updates, median Company performance will result in median compensation for our Named Executive Officers and above average performance will result in above average compensation. These arrangements as updated are set forth below.

Our Named Executive Officers are at-will employees. We do not have a written employment contract with any of them. We or each of the Named Executive Officers can terminate the employment relationship at any time, for any reason with or without cause.

2017 Salaries and Profit Sharing Trust Contributions

For each of our Named Executive Officers set forth in the table below, his or her respective 2017 annual salary and the contribution that we expect to make to his or her respective profit sharing trust account for 2017, as increased from 2016, are as follows:

	2017 Annual Salary	Estimated 2017 Profit Sharing Trust Contribution{ 1 }
Karen Colonias President and Chief Executive Officer	\$740,000	\$ 27,000
Brian J. Magstadt Chief Financial Officer, Treasurer and Secretary	500,000	27,000
Ricardo Arevalo Chief Operating Officer, Simpson Strong-Tie Company Inc.	460,000	27,000
Roger Dankel President of North American Sales, Simpson Strong-Tie Company Inc.	460,000	27,000
Jeffrey E. Mackenzie Vice President	350,000	27,000

{1} If we employ him or her on December 31, 2017, or if he or she retires after reaching the age of 60 or older during 2017, we will contribute to his or her profit sharing trust account 10% of his or her salary, with a contribution limit of \$27,000 for 2017, plus a pro rata share of forfeitures by other participants in our profit sharing trust program. The estimates in this table assume that no such forfeitures will occur. Of this 10% contribution, 7% will be paid in 2018,

and 3% will be paid quarterly in the month following the last month of each calendar quarter of 2017.

The increased 2017 salary and profit sharing trust contribution for each of the Named Executive Officers are part of a change in the mix of compensation. On the one hand, there is an increase in such fixed components, and on the other hand, there is an expected reduction in, and a cap on, the short-term variable component of the 2017 compensatory arrangements for our Named Executive Officers under the Executive Officer Cash Profit Sharing Plan (discussed below). Such arrangement, along with the updated 2017 equity awards in the form of restricted stock units to be issued under the Company's 2011 Incentive Plan

(the “Plan”), adopted on April 26, 2011, and amended and restated on April 21, 2015, is intended to balance both short- and long-term incentives for our Named Executive Officers.

The fixed components of the 2017 compensatory arrangements for each of our Named Executive Officers, including salary and profit sharing trust contribution, have not been changed from what the Company announced previously in December 2016 (see the Company’s current report on Form 8-K, dated December 6, 2016).

Amended Executive Officer Cash Profit Sharing Plan

The Company has maintained an Executive Officer Cash Profit Sharing Plan to (i) parallel the Company’s Cash Profit Sharing Plan and provide cash awards for our Named Executive Officers, and (ii) meet, at the same time, the requirements of section 162(m) of the Internal Revenue Code of 1986 for the cash awards to be fully deductible as “performance-based compensation” in excess of the \$1,000,000 limit for each of the “covered employees” under section 162(m) and regulations and interpretations promulgated thereunder.

As a result of the amendments made to our Executive Officer Cash Profit Sharing Plan in October 2016 (the “Plan Amendments”) that the Company announced previously in October 2016 (see the Company’s current report on Form 8-K, dated October 19, 2016), instead of making quarterly awards, the amended Executive Officer Cash Profit Sharing Plan allows the Committee to decide when awards will be made to the covered employees thereunder with respect to a fiscal year.

Prior to the Plan Amendments, under the Executive Officer Cash Profit Sharing Plan, no award in excess of \$2,500,000 will be paid to any covered employee with respect to any fiscal year. The Plan Amendments did not change this restriction. In addition, the Plan Amendments add an additional restriction that, with respect to a particular fiscal year, no award in excess of two times any covered employee’s targeted annual payout for that year will be paid to such employee under the Executive Officer Cash Profit Sharing Plan.

Pursuant to the Plan Amendments, any award under the Executive Officer Cash Profit Sharing Plan will be paid at such time as determined by the Committee; provided that all awards thereunder with respect to periods within a fiscal year shall be paid by March of the succeeding fiscal year. When assessing whether the \$2,500,000 cap and/or the two-times cap under the amended Executive Officer Cash Profit Sharing Plan have been crossed, all awards made to a covered employee with respect to periods within the same fiscal year will be calculated together.

The Committee determined previously in October 2016 that, subject to the approval of the Plan Amendments by the Company’s stockholders at the Company’s 2017 annual meeting, with respect to fiscal year 2017, the awards under the Executive Officer Cash Profit Sharing Plan will be made through five payments, with each of the first four payments to be made quarterly and the last payment to be made at the end of 2017 (or thereafter by March, 2018). For each of the four quarters in 2017, a Named Executive Officer will receive the awards based on 50% of his or her applicable individual percentage of the respective quarterly Qualified Amount. As for the last payment, the Named Executive Officer will receive the awards based on 50% of his or her applicable individual percentage of the annual Qualified Amount for 2017. The net effect of such five payments is to reduce the amount of quarterly awards and proportionately increase the amount of awards to be made following the end of the year, with the year-end awards contingent upon achieving the Qualified Amount for the entire year.

Under the amended Executive Officer Cash Profit Sharing Plan, the Committee will base the determination of periodic awards to a covered employee on his or her applicable individual percentage of the amount (each, a “Qualified Amount”) by which the net profit, operating income or any other performance goal (each, a “Performance Goal”) of the Company or the employee’s relevant branch or subsidiary for the applicable period exceed a qualifying level for the Company, branch or subsidiary for that same period.

The framework of the short-term variable component of the 2017 compensatory arrangements for our Named Executive Officers has not been materially changed from what the Company announced previously in December 2016 (see the Company's current report on Form 8-K, dated December 6, 2016).

On February 4, 2017, the Committee determined to use 2017 qualified operating profit of Simpson Strong-Tie Company Inc., a subsidiary of the Company, as the Performance Goal for 2017 and base the determination of periodic awards to a Named Executive Officer in 2017 under the amended Executive Officer Cash Profit Sharing Plan on his or her applicable individual percentage of the amount of that Performance Goal in excess of a specified qualifying level, a threshold amount of profit that must be exceeded before any profit-sharing payments to our Named Executive Officers are made. Such Performance Goal uses the

same methodology that was used in 2016 and prior fiscal years to measure Qualified Amounts under the Executive Officer Cash Profit Sharing Plan. Qualified operating profit of Simpson Strong-Tie Company Inc. is calculated as follows:

Income from operations

Plus: Stock compensation charges
 Certain incentive compensation and commissions
 Salaried pension contributions
 Self-insured workers' compensation costs

Equals: Qualified operating profit

The 2017 annual qualifying level was established by the Committee on February 4, 2017, to be \$130,000,000. Similarly, the 2017 quarterly qualifying level was established by the Committee on the same day to be \$32,500,000, one quarter of the annual qualifying level.

The annual targeted qualified operating profit, the annual qualifying level and the annual cash profit sharing pool for 2017 are illustrated as follows:

	Company-Wide 2017 Targeted Annual Pool
Targeted Qualified Operating Profit	\$ 228,800,000
Less: Qualifying Level	130,000,000
Targeted Cash Profit Sharing Pool	\$98,800,000

Assuming that the qualified operating profit exceeds the qualifying level for each quarter of 2017, and therefore annually for the entire year of 2017, each of our Named Executive Officers will receive 4 quarterly payouts and 1 annual payout. If the qualified operating profit is less than the qualifying level in one or more quarters of 2017, our Named Executive Officers will receive no quarterly payments for such quarters. In addition, if the qualified operating profit is less than the 2017 annual qualifying level, our Named Executive Officers will receive no annual payment following the end of 2017 but may still receive one or more quarterly payments during 2017.

The targeted annual amount and the maximum amount that may be paid out under the amended Executive Officer Cash Profit Sharing Plan for 2017 for each of our Named Executive Officers are as follows:

	2017 Targeted Annual Payout{1}	2017 Maximum Annual Payout
Karen Colonias	\$ 740,000	\$ 1,480,000
Brian J. Magstadt	250,000	500,000
Ricardo Arevalo	230,000	460,000
Roger Dankel	230,000	460,000
Jeffrey E. Mackenzie	175,000	350,000

{1}

Amounts expected to be paid for the full year of 2017 if 2017 qualified operating profit of Simpson Strong-Tie Company Inc. is \$228,800,000.

The Company expects to submit the Plan Amendments for stockholder approval at the Company's 2017 annual meeting of stockholders and include the Plan Amendments in the Company's 2017 proxy statement for such annual meeting. If the Company's stockholders approve the Plan Amendments, the amended Executive Officer Cash Profit Sharing Plan will apply to awards to be made after the end of fiscal year 2016. The first award under the amended Executive Officer Cash Profit Sharing Plan is expected to be made after the first quarter of fiscal year 2017.

In the event that the Company's stockholders do not approve the Plan Amendments, the Company's current Executive Officer Cash Profit Sharing Plan, last amended on February 25, 2008, will continue in effect with respect to awards to be made after the end of fiscal year 2016.

Changes to the CEO's and CFO's 2016 Performance-Based Restricted Stock Unit ("PSU") Awards

The Company announced previously in October 2016 (see the Company's current report on Form 8-K, dated October 19, 2016) that the Committee authorized amending the 2016 PSU awards that have been granted to our principal executive officer ("CEO") and principal financial officer ("CFO") (the "2016 PSU Amendments").

Pursuant to the 2016 PSU Amendments, our CEO's and CFO's 2016 PSU awards are subject to the original performance goals, which are based on total stockholder return ("TSR") at the Company, only for a one-year period starting on January 1, 2016 and ending on December 31, 2016 (the "First Measurement Period"), instead of the original three-year period. In addition, under the 2016 PSU Amendments, the initially targeted shares, calculated based on the achievement of the 2015 revenue goal for the Company, will be adjusted for the accounting fair value of the TSR-based performance goals at the end of the 2016 to become the adjusted targeted PSU shares under the amended 2016 PSU awards for our CEO and CFO. The 2016 PSU Amendments also provide that following the end of the First Measurement Period, the adjusted targeted PSU shares will be subject to new performance goals to be determined by the Committee and will be measured against such goals for a two-year cliff-vesting period starting on January 1, 2017 and ending on December 31, 2018 (the "Second Measurement Period").

On February 4, 2017, the Committee set the new performance goals (the "New Performance Goals") for our CEO's and CFO's 2016 PSU awards, which consist of one set of goals based on the Company's revenue growth (the "Revenue Growth Goals") and another set of goals based on return on invested capital at the Company (the "ROIC Goals"). The Committee also determined that, during the Second Measurement Period, half of our CEO's and CFO's 2016 PSU awards will be measured against the Revenue Growth Goals and the other half will be measured against the ROIC Goals, and approved a reduction of the maximum amount of PSU shares that will eventually vest in favor of our CEO or CFO following the end of the Second Measurement Period under his or her amended 2016 PSU awards from 200% to 120% of his or her adjusted targeted PSU shares.

The framework of the long-term component of the 2016 compensatory arrangements for our CEO and CFO, as amended, has not been materially changed from what the Company announced previously in October 2016 (see the Company's current report on Form 8-K, dated October 19, 2016), except for the reduction of the maximum amount of PSU shares that could eventually vest thereunder and the changes that are discussed in the "Changes to Our Named Executive Officers' Equity Grant Agreements" section below. As a result, the number of PSU shares, which will eventually vest in favor of our CEO and CFO, following the end of 2018, will be between 0% and 120% of the adjusted targeted PSU shares, depending on the extent to which the New Performance Goals will have been achieved at the end of 2018.

The number of the adjusted targeted PSU shares and the maximum amount of PSU shares that could eventually vest under each of our CEO's and CFO's amended 2016 PSU awards is as follows:

Targeted PSU Shares Under	Maximum PSU Shares Under
Amended 2016 PSU Awards{1}	Amended 2016 PSU Awards

Karen Colonias	28,990	34,788
Brian J. Magstadt	12,080	14,496

{1} As adjusted for the accounting fair value of the TSR-based performance goals at the end of the 2016.

As disclosed previously in the Company's current report on Form 8-K, dated October 19, 2016, the 2016 PSU Amendments will be effective after being executed by the Company and the respective recipient thereunder.

Changes to Our Named Executive Officers' 2017 PSU Awards

The Company announced previously in October 2016 (see the Company's current report on Form 8-K, dated October 19, 2016) that the Committee authorized changing the performance goals for the 2017 PSU awards to be granted to our Named Executive Officers. As a result, such PSU awards will be subject to new performance goals to be determined by the Committee and will be measured against such goals for a three-year cliff-vesting period starting on January 1, 2017, and ending on December 31, 2019 (the "Measurement Period").

On February 4, 2017, the Committee set the New Performance Goals for our Named Executive Officers' 2017 PSU awards, which are the same type of new performance goals applicable to our CEO's and CFO's amended 2016 PSU awards following the end of 2016, and a reduction of the maximum amount of PSU shares that could eventually vest in favor of a Named Executive Officer following the end of the Measurement Period under his or her 2017 PSU awards from 200% to 120% of his or her adjusted targeted PSU shares, which are calculated based on the achievement of the 2016 revenue goal for the Company and then adjusted for the accounting fair value of the TSR-based performance goals as of the award date. The Committee also determined that, during the Measurement Period, half of the 2017 PSU awards to be granted to each of our Named Executive Officers will be measured against the Revenue Growth Goals and the other half will be measured against the ROIC Goals.

The framework of the updated long-term component of the 2017 compensatory arrangements for our Named Executive Officers has not been materially changed from what the Company announced previously in October 2016 (see the Company's current report on Form 8-K, dated October 19, 2016), except for the reduction of the maximum amount of PSU shares that could eventually vest thereunder and the changes that are discussed in the "Changes to Our Named Executive Officers' Equity Grant Agreements" section below. Consequently, the number of PSU shares that will eventually vest in favor of a Named Executive Officer under his or her 2017 PSU awards, following the end of the Measurement Period, will be between 0% and 120% of his or her adjusted targeted PSU shares, depending on the extent to which the New Performance Goals will have been achieved at the end of 2019.

The number of the adjusted targeted PSU shares and the maximum amount of PSU shares that could eventually vest under the 2017 PSU awards to be granted to each of our Named Executive Officers is as follows:

	Targeted PSU Shares Under Amended 2017 PSU Awards{1}	Maximum PSU Shares Under Amended 2017 PSU Awards{2}
Karen Colonias{3}	35,874	43,048
Brian J. Magstadt	20,781	24,937
Ricardo Arevalo	14,541	17,449
Roger Dankel	14,541	17,449
Jeffrey E. Mackenzie	4,586	5,504

{1} As adjusted for the accounting fair value of the TSR-based performance goals as of the award date.

{2} No fractional shares will be issued or delivered pursuant to any PSU award, and therefore, any fractional shares may be forfeited or otherwise eliminated as determined by the Committee.

{3} The targeted PSU shares for our CEO calculated based on the achievement of the 2016 revenue goal for the Company is reduced by 13,784 shares as determined by the Committee before being adjusted for the accounting fair value of the TSR-based performance goals as of the award date of her 2017 PSU awards.

Changes to Our Named Executive Officers' Equity Grant Agreements

On February 4, 2017, the Committee approved changes to the grant agreements related to our Named Executive Officers' 2017 PSU awards and 2017 time-based restricted stock unit ("RSU") awards and the amendments related to our CEO and CFO's 2016 PSU awards that the Company announced previously in October, 2016 (see the Company's current report on Form 8-K, dated October 19, 2016). The changes mainly focus on two aspects: (a) accelerated

vesting and payout, and (b) change in control or asset sale.

Accelerated Vesting and Payout

Under the 2016 and prior grant agreements, the PSU or RSU awards may vest before the applicable vesting period expires if a recipient retires after reaching age 65, dies or becomes disabled. To increase the compatibility of the awards with section 409A of the Internal Revenue Code of 1986 and avoid potential negative tax implications for the recipient and the Company, the revised RSU grant agreements provide that, in case the RSU awards vest ahead of schedule and are determined by the Committee to be subject to section 409A, they may only be paid out in the enumerated situations as allowed under section 409A. In particular, in case a recipient is a specified employee under Section 409A, the RSU awards cannot be paid out until the date that is six months after the employee's separation of service, which generally is when the employee completely stops working for the Company and its subsidiaries. Similarly, the revised PSU grant agreements and amendments provide that, irrespective of when the PSU awards

7

vest, they may only be paid out following the last day of the applicable vesting period after the performance-measurement period has concluded.

In addition, while still providing for early vesting in case of death or disability, the revised grant agreements and amendments require that, for the PSU or RSU awards to vest ahead of schedule, instead of retiring at age 65, a recipient may only retire at age 55 and after having worked at the Company or its subsidiaries for 15 years (but for each year that the recipient delays his or her retirement after reaching age 55, he or she may work one year less and still retire). In case of early vesting of the PSU awards, the revised grant agreements and amendments require the PSU shares that could eventually vest in favor of the recipient to be prorated based on the early-vesting date and the date when the applicable vesting period is scheduled to expire.

Change in Control or Asset Sale

The Plan provides that on a change in control, if the surviving or resulting entity refuses to continue the PSU or RSU awards and does not substitute similar awards, and if the nature and terms of employment or engagement, including compensation and benefits, of a recipient will change significantly as a result of the change in control, then the awards will vest ahead of schedule. The Plan, however, allows individual grant agreements to alter this default arrangement.

The 2016 grant agreements do not change the default rule under the Plan but additionally provide that, in the case of an asset sale, the PSU or RSU awards will vest ahead of schedule in certain situations, including where a recipient is not subsequently employed or engaged by the surviving or resulting entity or the successor to the sold business or there is a significant change in the nature and terms of the subsequent employment or engagement of the recipient.

The revised grant agreements and amendments use a broader definition, “sale event,” to encompass both change-in-control and asset-sale situations, and therefore override the Plan with respect to any change in control of the Company affecting the awards thereunder. To provide a double-trigger mechanism as recommended by proxy advisors such as Institutional Shareholder Services, the revised grant agreements and amendments require that for the PSU or RSU awards to vest ahead of schedule upon a sale event, a recipient’s employment or engagement with the Company and its subsidiaries (or the acquiring, surviving or resulting entity) will first need to be terminated, either by the recipient for good reason or by his or her employer without cause within 2 years from the sale event. In case of early vesting of the PSU awards because of a sale event, the PSU shares thereunder will be subject to the proration described in the “Accelerated Vesting and Payout” section above.

The revised grant agreements and amendments use standard definitions for what constitutes good reason or cause that can typically be found in employment agreements. Under the revised grant agreements and amendments, before a recipient may quit for good reason, he or she will first need to provide written notice within 90 days of the underlying incident and inform his or her employer about the reason. In addition, the employer has up to 30 days to cure following such notice. Similarly, for the Company, a subsidiary thereof, or the acquiring, surviving or resulting entity to terminate a recipient with cause, which results in forfeiture of the PSU or RSU awards, the employer will need to provide notice and the recipient has up to 15 days to cure.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2018

(UNAUDITED)

1. Basis of Presentation

j2 Global, Inc., together with its subsidiaries (“j2 Global” or the “Company”), is a leading provider of internet services. Through our Cloud Services segment, we provide cloud services to consumers and businesses and license our intellectual property (“IP”) to third parties. In addition, the Cloud Services segment includes fax, voice, backup, security and email marketing products. Our Digital Media segment specializes in the technology, gaming, lifestyle and healthcare markets, offering content, tools and services to consumers and businesses.

The accompanying interim condensed consolidated financial statements include the accounts of j2 Global and its direct and indirect wholly-owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation.

The accompanying interim condensed consolidated financial statements are unaudited and have been prepared in accordance with instructions for Form 10-Q and Article 10 of Regulation S-X issued by the Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and note disclosures required by GAAP for complete financial statements although the Company believes that the disclosures made are adequate to make that information not misleading. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been reflected in these interim financial statements. It is suggested that these financial statements be read in conjunction with the audited financial statements and the related notes thereto for the year ended December 31, 2017 included in our Annual Report (Form 10-K) filed with the SEC on March 1, 2018. Accordingly, significant accounting policies and other disclosures normally provided have been omitted since such items are disclosed therein.

The results of operations for this interim period are not necessarily indicative of the operating results for the full year or for any future period.

Use of Estimates

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, including judgments about investment classifications and the reported amounts of net revenue and expenses during the reporting period. We believe that our most significant estimates are those related to the valuation of investments and assets acquired and liabilities assumed in connection with business combinations, long-lived and intangible asset impairment, contingent consideration, income taxes and contingencies and allowances for doubtful accounts. On an ongoing basis, management evaluates its estimates based on historical experience and on various other factors that the Company believes to be reasonable under the circumstances. Actual results could materially differ from those estimates.

Allowances for Doubtful Accounts

j2 Global reserves for receivables it may not be able to collect. The reserves for the Company’s Cloud Services segment are typically driven by the volume of credit card declines and past due invoices and are based on historical experience as well as an evaluation of current market conditions. The reserves for the Company’s Digital Media segment are typically driven by past due invoices based on historical experience. On an ongoing basis, management evaluates the adequacy of these reserves.

Revenue Recognition

Accounting Standard Codification (“ASC”) Topic 605, Revenue Recognition (“Topic 605”)

j2 Global recognizes revenue when persuasive evidence of an arrangement exists, services have been provided, the sales price is fixed and determinable and collection is probable.

-7-

Principal vs. Agent

The Company determines whether revenue should be reported on a gross or net basis by assessing whether the Company is acting as the principal or an agent in the transaction. If the Company is acting as the principal in a transaction, the Company reports revenue on a gross basis. If the Company is acting as an agent in a transaction, the Company reports revenue on a net basis. In determining whether the Company acts as the principal or an agent, the Company follows the accounting guidance under Topic 605 for principal-agent considerations and places the most weight on three factors: whether or not the Company (i) is the primary obligor in the arrangement, (ii) has latitude in determining pricing and (iii) bears credit risk.

ASC Topic 606, Revenue from Contracts with Customers (“Topic 606”, “ASC 606” or the “new revenue standard”)

j2 Global recognizes revenue when the Company satisfies its obligation by transferring control of the goods or services to its customers in an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services (see Note 3 - Revenues).

Principal vs. Agent

The Company determines whether revenue should be reported on a gross or net basis by assessing whether the Company is acting as the principal or an agent in the transaction. If the Company is acting as the principal in a transaction, the Company reports revenue on a gross basis. If the Company is acting as an agent in a transaction, the Company reports revenue on a net basis. In determining whether the Company acts as the principal or an agent, the Company follows the accounting guidance under Topic 606 for principal-agent considerations and assesses: (i) if another party is involved in providing goods or services to the customer and (ii) whether the Company controls the specified goods or services prior to transferring control to the customer.

Sales Taxes

The Company has made an accounting policy election to exclude from the measurement of the transaction price all taxes assessed by a governmental authority that are (i) both imposed on and concurrent with a specific revenue-producing transaction and (ii) collected by the Company from a customer.

Investments

The Company accounts for its investments in debt securities in accordance with ASC Topic No. 320, Investments - Debt Securities (“ASC 320”). Debt investments are typically comprised of corporate and governmental debt securities. j2 Global determines the appropriate classification of its investments at the time of acquisition and evaluates such determination at each balance sheet date. Trading securities are those investments that the Company intends to sell within a few hours or days and are carried at fair value, with unrealized gains and losses included in investment income. Available-for-sale securities are those investments j2 Global does not intend to hold to maturity and can be sold. Available-for-sale securities are carried at fair value with unrealized gains and losses included in other comprehensive income. Held-to-maturity securities are those investments which the Company has the ability and intent to hold until maturity and are recorded at amortized cost. All debt securities are accounted for on a specific identification basis.

The Company accounts for its investments in equity securities in accordance with ASC Topic No. 321, Investments - Equity Securities (“ASC 321”) which requires the accounting for equity investments (other than those accounted for using the equity method of accounting) generally be measured at fair value for equity securities with readily determinable fair values. For equity securities without a readily determinable fair value that are not accounted for by

the equity method, the Company measures the equity security using cost, less impairment, if any, and plus or minus observable price changes arising from orderly transactions in the same or similar investment from the same issuer. Any unrealized gains or losses will be reported in current earnings (see Note 5 - Investments).

-8-

Variable Interest Entities (“VIE”)

A VIE requires consolidation by the entity’s primary beneficiary. The Company evaluates its investments in entities in which it is involved to determine if the entity is a VIE and if so, whether it holds a variable interest and is the primary beneficiary. The Company has determined that it holds a variable interest in its investment as a limited partner in the OCV Fund I, LP (“OCV Fund”, “OCV” or the “Fund”). In determining whether the Company is deemed to be the primary beneficiary of the VIE, both of the following characteristics must be present:

- a) the Company has the power to direct the activities of the VIE that most significantly impacts the VIEs economic performance (the power criterion); and
- b) the Company has the obligation to absorb losses of the VIE, or the right to receive benefits of the VIE, that could potentially be significant to the VIE (the economic criterion).

The Company has concluded that, as a limited partner, although the obligations to absorb losses or benefit from the gains is not insignificant, the Company does not have “power” over OCV because it does not have the ability to direct the significant decisions which impact the economics of OCV. j2 believes that the OCV general partner, as a single decision maker, holds the ability to make the decisions about the activities that most significantly impacts the OCV Fund’s economic performance. As a result, the Company has concluded that it will not consolidate OCV, as it is not the primary beneficiary of the OCV Fund, and will account for this investment under the equity-method of accounting.

Fair Value Measurements

j2 Global complies with the provisions of FASB ASC Topic No. 820, Fair Value Measurements and Disclosures (“ASC 820”), in measuring fair value and in disclosing fair value measurements. ASC 820 provides a framework for measuring fair value and expands the disclosures required for fair value measurements of financial and non-financial assets and liabilities.

As of March 31, 2018, the carrying value of cash and cash equivalents, accounts receivable, interest receivable, accounts payable, accrued expenses, interest payable, customer deposits and long-term debt are reflected in the financial statements at cost. With the exception of certain investments and long-term debt, cost approximates fair value due to the short-term nature of such instruments. The fair value of the Company’s outstanding debt was determined using the quoted market prices of available debt instruments with similar terms and maturities. As of the same dates, the carrying value of other long-term liabilities approximated fair value as the related interest rates approximate rates currently available to j2 Global.

Property and Equipment

Property and equipment are stated at cost. Equipment under capital leases is stated at the present value of the minimum lease payments. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives of property and equipment range from 1 to 10 years. Fixtures, which are comprised primarily of leasehold improvements and equipment under capital leases, are amortized on a straight-line basis over their estimated useful lives or for leasehold improvements, the related lease term, if less. The Company has capitalized certain internal use software and website development costs which are included in property and equipment. The estimated useful life of costs capitalized is evaluated for each specific project and ranges from 1 to 5 years.

Debt Issuance Costs and Debt Discount

j2 Global capitalizes costs incurred with borrowing and issuance of debt securities and records debt issuance costs and discounts as a reduction to the debt amount. These costs and discounts are amortized and included in interest expense over the life of the borrowing or term of the credit facility using the effective interest method.

Contingent Consideration

j2 Global measures the contingent earn-out liabilities in connection with acquisitions at fair value on a recurring basis using significant unobservable inputs classified within Level 3 of the fair value hierarchy (see Note 6 - Fair Value Measurements). The Company may use various valuation techniques depending on the terms and conditions of the contingent consideration including a Monte-Carlo simulation. This simulation uses a probability distribution for each significant input to produce hundreds or thousands of possible outcomes, and the results are analyzed to determine probabilities of different outcomes occurring. Significant increases or decreases to these inputs in isolation would result in a significantly higher or lower liability with a higher liability capped by the contractual maximum of the contingent earn-out obligation. Ultimately, the liability will be equivalent to

-9-

the amount paid, and the difference between the fair value estimate and the amount paid will be recorded in earnings. The amount paid that is less than or equal to the liability on the acquisition date is reflected as cash used in financing activities in our consolidated statements of cash flows. Any amount paid in excess of the liability on the acquisition date is reflected as cash used in operating activities.

j2 Global reviews and re-assesses the estimated fair value of contingent consideration on a quarterly basis, and the updated fair value could be materially different from the initial estimates or prior quarterly amounts. Changes in the estimated fair value of our contingent earn-out liabilities are reported in operating income, except for the time component of the present value calculation which is reported in interest expense. Adjustments to the estimated fair value related to changes in all other unobservable inputs are reported in operating income.

Self-Insurance Program

j2 Global is self-insured for certain subsidiaries providing health and dental insurance plans to its employees through a self-insurance structure. The Company has reinsurance which is a two tiered stop-loss coverage that limits the exposure arising from any claims made. Self-insurance claims filed and claims incurred but not reported are accrued based on management's estimate of the discounted ultimate costs for self-insured claims incurred using actuarial assumptions followed in the insurance industry and historical experience. Although management believes it has the ability to reasonably estimate losses related to claims, it is possible that actual results could materially differ from recorded self-insurance liabilities.

Segment Reporting

Accounting guidance establishes standards for the way that public business enterprises report information about operating segments in their annual consolidated financial statements and requires that those enterprises report selected information about operating segments in interim financial reports. Accounting guidance also establishes standards for related disclosures about products and services, geographic areas and major customers. The Company operates as two segments: (1) Cloud Services and (2) Digital Media.

Reclassifications

Certain prior year reported amounts have been reclassified to conform to the 2018 presentation.

2.Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers, as a new Topic, Topic 606. The new revenue recognition standard provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The Company has adopted this ASU and other related ASUs as of January 1, 2018 (the "adoption date") using the cumulative effect method which applied to those contracts which were not completed as of the adoption date. Results for reporting periods beginning after the adoption date are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC 605 as noted above (see Note 3 - Revenues).

In January 2016, the FASB issued ASU No. 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this ASU modify how entities measure equity investments and present changes in the fair value of financial liabilities. Under the new guidance, entities will have to measure equity investments that do not result in consolidation and are not accounted under the

equity method at fair value and recognize any changes in fair value in net income unless the investments qualify for the practical expedient exception. An entity may elect to measure an equity security without a readily determinable fair value that does not qualify for the practical expedient to estimate fair value under ASC 820, Fair Value Measurements, and as such these investments may be measured at cost. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. The Company has adopted this ASU on a prospective basis and has determined that investments within the scope of the standard will be recorded at fair value with changes in fair value recognized in earnings which may lead to increased volatility in other expense.

-10-

In February 2016, the FASB issued ASU No. 2016-02, Leases. This ASU establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. This ASU is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company expects that the adoption of this ASU will have a material effect on its condensed consolidated balance sheet and disclosures. The Company currently has both capital and operating leases, both domestically and internationally, with varying expiration dates through 2025 in the aggregate amount of \$85.9 million for the period ended March 31, 2018.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendments in this ASU replace the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019. The adoption of this standard is not expected to have a material impact on our financial statements and related disclosures.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other than Inventory. The amendments in this ASU reduce the complexity in the accounting standards by allowing the recognition of current and deferred income taxes for an intra-entity asset transfer, other than inventory, when the transfer occurs. Historically, the income tax consequence was not recognized until the asset was sold to an outside party. This ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Early adoption is permitted. The Company has adopted this ASU on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings and has determined that there is no impact on our financial statements and related disclosures as of January 1, 2018.

In January 2017, the FASB issued 2017-01, Business Combinations (Topic 805): Clarifying the Definition of a Business. The amendments in this ASU provide a robust framework to use in determining when a set of assets and activities is a business. This ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Early adoption is permitted and the standard should be applied prospectively. The Company has adopted this ASU on a prospective basis and has determined that there is no impact on our financial statements and related disclosures.

In January 2017, the FASB issued 2017-04, Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. The amendments in this ASU simplify the subsequent measurement of goodwill by eliminating Step 2 from the goodwill impairment test and eliminating the requirement for a reporting unit with a zero or negative carrying amount to perform a qualitative assessment. Instead, under this pronouncement, an entity would perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and would recognize an impairment change for the amount by which the carrying amount exceeds the reporting unit’s fair value; however, the loss recognized is not to exceed the total amount of goodwill allocated to that reporting unit. In addition, income tax effects will be considered, if applicable. This ASU is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted and should be adopted on a prospective basis. The Company does not expect the adoption of this ASU to have a material impact on our financial statements and related disclosures.

In May 2017, the FASB issued 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. The amendments in this ASU provide guidance about which changes to the terms or conditions of share-based payment award require an entity to apply modification accounting in Topic 718. Specifically, an entity

should account for the effects of a modification unless all the following are met: (1) The fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the modified award is the same as the fair value (or calculated value or intrinsic value, if such an alternative measurement method is used) of the original award immediately before the original award is modified. If the modification does not affect any of the inputs to the valuation technique that the entity uses to value the award, the entity is not required to estimate the value immediately before and after the modification; (2) The vesting conditions of the modified award are the same as the vesting conditions of the original award immediately before the original award is modified; and (3) The classification of the modified award as an equity instrument or a liability instrument is the same as the classification of the original award immediately before the original award is modified. This ASU is effective for those fiscal years, beginning after December 15, 2017. Early adoption is permitted and should be adopted on a prospective basis. The Company has adopted this ASU on a prospective basis and has determined that there is no impact on our financial statements and related disclosures.

In February 2018, the FASB issued 2018-02, Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. The amendments in this ASU allow reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the U.S. federal tax legislation, the Tax Cuts and Jobs Act of 2017 (“2017 Tax Act”). Consequently, the amendments eliminate the stranded tax effects resulting from the 2017 Tax Act and will improve the usefulness of information reported to financial statement users. However, because the amendments only relate to the reclassification of the income tax effects of the 2017 Tax Act, the underlying guidance that requires that the effect of a change in tax laws or rates to be included in income from continuing operations is not affected. This ASU is effective for all entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted and should be applied either in the period of adoption or retrospectively to each period (or periods) in which the effect of the change in the U.S. federal corporate income tax rate in the 2017 Tax Act is recognized. The Company is currently evaluating the effect of this ASU on our financial statements and related disclosures.

In February 2018, the FASB issued 2018-03, Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this ASU clarify certain aspects of the guidance issued in ASU 2016-01, Financial Instruments - Overall. As is consistent with other clarifying standards, the amendments are not expected to have a significant effect on the current accounting practice. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods beginning after June 15, 2018. Public entities with fiscal years beginning between December 15, 2017 and June 15, 2018 are not required to adopt these amendments until the interim period beginning after June 15, 2018. Early adoption is permitted and should be adopted in conjunction with ASU 2016-01. The Company has adopted this ASU on a prospective basis and have determined that investments within the scope of the standard will be recorded at fair value with changes in fair value recognized in earnings which may lead to increased volatility in other expense.

In March 2018, the FASB issued 2018-04, Investments-Debt Securities (Topic 620) and Regulated Operations (Topic 980): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 117 and SEC Release No. 33-9273. The amendments in this ASU update SEC paragraphs pursuant to SEC Staff Accounting Bulletin 117 and better align the interpretive guidance with ASU 2016-01. The Company has adopted this ASU on a prospective basis and has determined that there is no impact on our financial statements and related disclosures.

In March 2018, the FASB issued 2018-05, Income Taxes (Topic 740): Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118 (“SAB” or “SAB 118”) (issued in December 2017). The amendments in this ASU add SEC interpretive guidance pursuant to SEC Staff Accounting Bulletin No. 118 which assists registrants address any diversity of views in applying Topic 740 in the reporting period in which the 2017 Tax Cuts and Jobs Act (“2017 Tax Act”) was enacted. Specifically, the ASU provides for a provisional one year measurement period for entities to finalize their accounting for certain income tax effects where (i) the accounting for the income tax effect of the 2017 Tax Act is complete and reported in the 2017 Tax Act’s enactment period; (ii) the accounting for the income tax effect of the 2017 Tax Act is incomplete and reported as provisional amounts based on reasonable estimates (to the extent determinable) subject to adjustments during a limited measurement period until complete; and (iii) accounting for the income tax effect of the 2017 Tax Act is not reasonably estimable (no related provisional amounts are reported in the enactment period) and entities would continue to apply accounting based on tax law provisions in effect prior to the 2017 Tax Act enactment until provisional amounts are reasonably estimable. The Company has adopted this ASU on a prospective basis and has complied with SAB 118 (see Note 10 - Income Taxes).

3.Revenues

Digital Media

Digital Media revenues are earned primarily from the delivery of advertising services and from subscriptions to services and information.

Revenue is earned from the delivery of advertising services on the Company's owned and operated websites and on those websites that are part of Digital Media's advertising network. Depending on the individual contracts with the customer, revenue for these services are recognized over the contract period when any of the following performance obligations are satisfied: (i) when an advertisement is placed for viewing, (ii) when a qualified sales lead is delivered, (iii) when a visitor "clicks through" on an advertisement or (iv) when commissions are earned upon the sale of an advertised product.

Revenue from subscriptions is earned through the granting of access to, or delivery of, certain data products or services to customers. Subscriptions cover video games and related content, health information, data and other copyrighted material. Revenues under such agreements are recognized over the contract term for use of the service. Revenues are also earned from listing fees, subscriptions to online publications, and from other sources. Subscription revenues are recognized over time.

j2 Global also generates Digital Media revenues through the license of certain assets to clients. Assets are licensed for clients' use in their own promotional materials or otherwise. Such assets may include logos, editorial reviews, or other copyrighted material. Revenues under such license agreements are recognized over the contract term for use of the asset. Technology assets are also licensed to clients. These assets are recognized over the term of the access period. The Digital Media business also generates other types of revenues, the sale and publishing of digital games, marketing and production services, and from other sources. Such other revenues are generally recognized over the period in which the products or services are delivered.

The Company records revenue on a gross basis with respect to revenue generated (i) by the Company serving online display and video advertising across its owned and operated web properties, on third-party sites or on unaffiliated advertising networks, (ii) through the Company's lead-generation business and (iii) through the Company's subscriptions. The Company records revenue on a net basis with respect to revenue paid to the Company by certain third-party advertising networks who serve online display and video advertising across the Company's owned-and-operated web properties and certain third-party sites.

Cloud Services

The Company's Cloud Services revenues substantially consist of monthly recurring subscription and usage-based fees, which are primarily paid in advance by credit card. The Company defers the portions of monthly, quarterly, semi-annually and annually recurring subscription and usage-based fees collected in advance of the satisfaction of performance obligations and recognizes them in the period earned.

Along with our numerous proprietary Cloud Services solutions, the Company also generates revenues by reselling various third-party solutions, primarily through our email security and online backup lines of business. These third-party solutions, along with our proprietary products, allow the Company to offer customers a variety of solutions to better meet their needs. The Company records revenue on a gross basis with respect to reseller revenue because the Company has control of the specified good or service prior to transferring control to the customer.

j2 Global's Cloud Services also include patent license revenues generated under license agreements that provide for the payment of contractually determined fully paid-up or royalty-bearing license fees to j2 Global in exchange for the grant of non-exclusive, retroactive and future licenses to our intellectual property, including patented technology. Patent revenues may also consist of revenues generated from the sale of patents. Patent license arrangements are evaluated to determine if they grant the customer a right to access the Company's intellectual property which is generally recognized over the life of the arrangement or a right to use the Company's intellectual property which is generally recognized at the point in time the license is granted. With regard to royalty-bearing license arrangements, the Company recognizes revenues of license fees earned during the applicable period. With regard to patent sales, the Company recognizes revenue in the period of the sale the amount of the purchase price over the carrying value of the patent(s) sold.

The Cloud Services business also generates revenues by licensing certain technology to third parties. Generally, revenue is recognized over time as the third party uses the licensed technology over the period.

The cumulative effect of the changes made to our consolidated balance sheet as of January 1, 2018 for the adoption of Topic 606 is as follows (in thousands):

	January 1, 2018	Adjustments due to ASU 2014-09	December 31, 2017
Balance Sheet			
Assets			
Accounts receivable, net	\$ 234,195	\$ —	\$ 234,195
Liabilities			
Deferred revenue, current	93,656	(1,599)	95,255
Deferred revenue, non-current	47	—	47
Equity			
Retained earnings	\$ 724,661	\$ 1,599	\$ 723,062

The following tables summarize the impact of adopting Topic 606 on the Company's consolidated financial statements (in thousands):

	March 31, 2018		
	As Reported	Adjustments	Balances Without Adoption of ASC 606
Balance Sheet			
Assets			
Accounts receivable, net	\$ 174,411	\$ —	\$ 174,411

Cloud Services		
Subscription	\$149,322	\$140,332
Other	163	1,212
Total Cloud Services revenues	149,485	141,544
Corporate	\$1	\$—
Elimination of inter-segment revenues	(24)	(6)
Total Revenues	\$280,623	\$254,669
Timing of revenue recognition		
Point in time	\$1,075	\$4,619
Over time	279,548	250,050
Total	\$280,623	\$254,669

The Company has recorded \$38.9 million of revenue in the current period included in the contract liability balance as of the adoption date. In connection with the acquisition of ThreatTrack Security Holdings, Inc. (see Note 4 - Business Acquisitions), the Company acquired \$23.9 million of deferred revenue (subject to any purchase accounting adjustments).

Performance Obligations

The Company's contracts with customers may include multiple performance obligations. For such arrangements, revenues are allocated to each performance obligation based on its relative standalone selling price.

The Company satisfies its performance obligations within the Digital Media segment upon delivery of services to its customers. Payments for these services are typically due shortly after they have been provided. In addition, the Company provides content to its advertising partners which the Company sells to its partners' customer base and receives a revenue share based on the terms of the agreement.

The Company satisfies its performance obligations within the Cloud Services segment upon delivery of services to its customers. Payment terms vary by type and location of our customers and the services offered. The term between invoicing and when payment is due is not significant. For certain services and customer types, we require payment before services are delivered to the customer. Due to the nature of the services provided, there are no obligations for returns.

Significant Judgments

In determining whether products and services are considered distinct performance obligations that should be accounted for separately versus together may require significant judgment. Judgment is also required to determine the standalone selling price for each distinct performance obligation.

Performance Obligations Satisfied Over Time

The Company's Digital Media segment consists primarily of performance obligations that are satisfied over time. This was determined based on a review of the contracts and the nature of the services offered, where the customer simultaneously receives and consumes the benefit of the services provided. Satisfaction of these performance obligations is evidenced in the following way:

Advertising

- Website reporting by the Company, the customer, or a third-party contains the delivery evidence needed to satisfy the performance obligations within the advertising contract

- Successfully delivered leads are evidenced by either delivery reports from the Company's internal lead management systems or through e-mail communication and/or other evidence of delivery showing acceptance of leads by the customer

- Commission is evidenced by direct site reporting from the affiliate or via direct confirmation from the customer

Subscription

- Evidence of delivery is contained in the Company's systems or from correspondence with the customer which tracks when a customer accepts delivery of any assets, digital keys or download links

The Company has concluded revenue is recognized based on delivery of services over the contract period for advertising and on a straight-line basis over the contract period for subscriptions. The Company believes that the methods described are a faithful depiction of the transfer of goods and services.

The Company's Cloud Services segment consists primarily of performance obligations that are satisfied over time. This has been determined based on the fact that the nature of services offered are subscription based and include fax, voice, backup, security and email marketing products where the customer simultaneously receives and consumes the benefit of the services provided regardless of whether the customer uses the services or not. As a result, the Company has concluded that the best measure of progress toward the complete satisfaction of the performance obligation over time is a time-based measure. The Company recognizes revenue on a straight-line basis throughout the subscription period and believes that the method used is a faithful depiction of the transfer of goods and services.

Performance Obligations Satisfied at a Point in Time

The Company's Digital Media segment has technology subscriptions where the performance obligations are satisfied at a point in time. This is evidenced once a digital key is delivered to the customer. Once the key is delivered to the customer, the customer has full control of the technology and the Company has no further performance obligations. The Company has concluded that revenue is recognized once the digital key is delivered. The Company believes that this method is a faithful depiction of the transfer of goods and services.

Practical Expedients

Existence of a Significant Financing Component in a Contract

As a practical expedient, the Company has not assessed whether a contract has a significant financing component because the Company expects at contract inception that the period between payment by the customer and the transfer of promised goods or services by the Company to the customer will be one year or less. In addition, the Company has determined that the payment terms that the Company provides to its customers are structured primarily for reasons

other than the provision of finance to the Company. The Company typically charges a single upfront amount for the services because other payment terms would affect the nature of the risk assumed by the Company to provide service given the costs of the customer acquisition and the highly competitive and commoditized nature of the business we operate which allows customers to easily move from one provider to another. This additional risk may make it uneconomical to provide the service.

-16-

Costs to Fulfill a Contract

The Company's revenues are primarily generated from customer contracts that are for one year or less. Costs primarily consist of incentive compensation paid based on the achievements of sales targets in a given period for related revenue streams and are recognized in the month when the revenue is earned. As a practical expedient, for amortization periods which are determined to be one year or less, the Company expenses any incremental costs of obtaining the contract with a customer when incurred. For those customer contracts greater than one year, the Company capitalizes and amortizes the expenses over the appropriate contract periods.

4. Business Acquisitions

The Company uses acquisitions as a strategy to grow its customer base by increasing its presence in new and existing markets, expand and diversify its service offerings, enhance its technology, acquire skilled personnel and enter into other jurisdictions.

The Company completed the following acquisitions during the first three months of fiscal 2018, paying the purchase price in cash in each transaction: (a) a share purchase of the entire issued capital of ThreatTrack Security Holdings, Inc., acquired on January 26, 2018, a Florida based provider of cybersecurity solutions; and (b) an other immaterial acquisition of a digital health business.

The condensed consolidated statement of income since the date of each acquisition and balance sheet as of March 31, 2018, reflect the results of operations of all 2018 acquisitions. For the three months ended March 31, 2018, these acquisitions contributed \$4.4 million to the Company's revenues. Net income contributed by these acquisitions was not separately identifiable due to j2 Global's integration activities and is impracticable to provide. Total consideration for these transactions was \$77.0 million, net of cash acquired and assumed liabilities and is subject to certain post-closing adjustments which may increase or decrease the final consideration paid.

The following table summarizes the allocation of the purchase consideration for these acquisitions (in thousands):

Assets and Liabilities	Valuation
Cash ⁽¹⁾	\$ 886
Accounts receivable	2,931
Prepaid expenses and other current assets	1,292
Property and equipment	2,335
Trade names	6,400
Customer relationships	24,076
Goodwill	59,068
Other intangibles	10,337
Accounts payable and accrued expenses	(2,920)
Other current liabilities	(286)
Deferred revenue	(23,890)
Deferred tax liability	(819)
Other long-term liabilities	(1,540)
Total	\$ 77,870

⁽¹⁾ Cash contains an immaterial amount of restricted cash associated with a pre-acquisition relationship with a vendor expected to be released during the second quarter 2018.

During the three months ended March 31, 2018, the purchase price accounting has been finalized for the following acquisitions: (i) WeCloud AB; and (ii) an other immaterial email security business. The initial accounting for all 2018 acquisitions is incomplete and subject to change, which may be significant. j2 Global has recorded provisional

amounts which may be based upon past acquisitions with similar attributes for certain intangible assets (including trade names, software and customer relationships), preliminary acquisition date working capital and related tax items.

-17-

During the three months ended March 31, 2018, the Company recorded adjustments to prior period acquisitions due to the finalization of purchase accounting in the Cloud Services segment which resulted in a net decrease in goodwill of \$(1.0) million. Such adjustments had an immaterial impact to the amortization expense within the condensed consolidated statement of income for the three months ended March 31, 2018.

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired and represents intangible assets that do not qualify for separate recognition. Goodwill recognized associated with these acquisitions during the three months ended March 31, 2018 is \$59.1 million, of which \$1.0 million is expected to be deductible for income tax purposes.

5. Investments

Investments consist of certificates of deposits, equity and debt securities.

The Company has adopted ASU 2016-01 during the first quarter 2018 (see Note 2 - Recent Accounting Pronouncements) and determined that the equity securities that were received as part of the consideration for the sale of Tea Leaves Health, LLC (“Tea Leaves”) in fiscal year 2017 are without a readily determinable fair value because these securities are privately held, not traded on any public exchanges and not an investment in a mutual fund or similar investment. As a result, management has elected to alternatively measure this investment at cost, less impairment, adjusted for subsequent observable price changes to estimate fair value. The Company will make a “reasonable effort” to identify any observable price changes for identical or similar investments with the issuer that are known or can be reasonably known. The adoption of ASU 2016-01 was done on a prospective basis and any changes in the carrying value of the equity securities will be reported in our current earnings as Other expense, net. In addition, the Company determined that the shares of redeemable preferred stock that was also received as part of the consideration for the sale of Tea Leaves are corporate debt securities and are classified as available-for-sale securities.

The following table summarizes the Company’s investments (in thousands):

	March 31, 2018	December 31, 2017
Equity securities	\$44,702	\$ 34,977
Corporate debt securities	20,245	22,745
Total	\$64,947	\$ 57,722

The following table summarizes the gross unrealized gains and losses and estimated fair values for the Company’s securities without a readily determinable fair value (in thousands):

	Cost	Impairment	Adjustments	Fair Value
March 31, 2018				
Equity securities	\$34,977	—	(3,678)) \$31,299
Total	\$34,977	—	(3,678)) \$31,299
December 31, 2017				
Equity securities	\$34,977	—	—) \$34,977
Total	\$34,977	—	—) \$34,977

During the current period, the Company recorded an unrealized loss to earnings because an observable price for a similar instrument was observed in the market at an amount that was below the original carrying price of the investment (see Note 6 - Fair Value Measurements).

The following table summarizes the gross unrealized gains and losses and fair values for investments classified as available-for-sale investments (in thousands):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
March 31, 2018				
Corporate debt securities	\$ 22,745	\$ —	—\$ (2,500)	\$20,245
Total	\$ 22,745	\$ —	—\$ (2,500)	\$20,245
December 31, 2017				
Corporate debt securities	\$ 22,745	\$ —	—\$ —	\$22,745
Total	\$ 22,745	\$ —	—\$ —	\$22,745

At March 31, 2018, the Company's available-for-sale securities are carried at fair value, with the unrealized gains and losses reported as a component of stockholders' equity.

The following table summarizes j2 Global's corporate debt securities designated as available-for-sale, classified by the contractual maturity date of the security (in thousands):

	March 31, 2018	December 31, 2017
Due within 1 year	\$—	\$—
Due within more than 1 year but less than 5 years	20,245	22,745
Due within more than 5 years but less than 10 years	—	—
Due 10 years or after	—	—
Total	\$20,245	\$22,745

Recognition and Measurement of Other-Than-Temporary Impairment

Regardless of the classification of the securities as available-for-sale or held-to-maturity, the Company has assessed each position for impairment. j2 Global regularly reviews and evaluates each investment that has an unrealized loss. An unrealized loss exists when the current fair value of an individual security is less than its amortized cost basis. Unrealized losses that are determined to be temporary in nature are recorded, net of tax, in accumulated other comprehensive income for available-for-sale securities.

Factors considered in determining whether a loss is temporary include:

- the length of time and the extent to which fair value has been below cost;
- the severity of the impairment;
- the cause of the impairment and the financial condition and near-term prospects of the issuer;
- activity in the market of the issuer which may indicate adverse credit conditions; and
- the Company's ability and intent to hold the investment for a period of time sufficient to allow for any anticipated recovery.

j2 Global's review for impairment generally entails:

- identification and evaluation of investments that have indications of possible impairment;

analysis of individual investments that have fair values less than amortized cost, including consideration of the length of time the investment has been in an unrealized loss position and the expected recovery period;
discussion of evidential matter, including an evaluation of factors or triggers that could cause individual investments to qualify as having an other-than-temporary impairment and those that would not support an other-than-temporary impairment;
documentation of the results of these analyses, as required under business policies; and
information provided by third-party valuation experts.

For these securities, a critical component of the evaluation for other-than-temporary impairments is the identification of credit impairment, where management does not expect to receive cash flows sufficient to recover the entire amortized cost basis of the security. Credit impairment is assessed using a combination of a discounted cash flow model that estimates the cash flows on the underlying securities and a market comparables method, where the security is valued based upon indications from the secondary market of what discounts buyers demand when purchasing similar securities. The cash flow model incorporates actual cash flows from the securities through the current period and then projects the remaining cash flows using relevant interest rate curves over the remaining term. These cash flows are discounted using a number of assumptions, some of which include prevailing implied credit risk premiums, incremental credit spreads and illiquidity risk premiums, among others.

Securities that have been identified as other-than-temporarily impaired are written down to their current fair value. For debt securities that are intended to be sold or that management believes it more-likely-than-not that will be required to sell prior to recovery, the full impairment is recognized immediately in earnings.

For available-for-sale and held-to-maturity securities that management has no intent to sell and believes that it more-likely-than-not that it will not be required to sell prior to recovery, only the credit loss component of the impairment is recognized in earnings, while the rest of the fair value impairment is recognized in other comprehensive income. The credit loss component recognized in earnings is identified as the amount of principal cash flows not expected to be received over the remaining term of the security.

The following tables present gross unrealized losses and fair values for those investments that were in an unrealized loss position as of March 31, 2018 and December 31, 2017, aggregated by investment category and the length of time that individual securities have been in a continuous loss position (in thousands):

	As of March 31, 2018					
	Less than 12 Months		12 Months or Greater		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Corporate debt securities	\$20,245	\$(2,500)	\$ —	—\$	—\$20,245	\$(2,500)
Total	\$20,245	\$(2,500)	\$ —	—\$	—\$20,245	\$(2,500)

	As of December 31, 2017					
	Less than 12 Months		12 Months or Greater		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Corporate debt securities	\$22,745	\$ —	\$ —	—\$	—\$22,745	\$ —
Total	\$22,745	\$ —	\$ —	—\$	—\$22,745	\$ —

As of March 31, 2018 and December 31, 2017, we did not recognize any other-than-temporary impairment losses.

On September 25, 2017, the Company entered into a commitment to invest \$200 million (approximately 66.7% of equity) in the OCV Fund. The total expected commitment to the OCV Fund is expected to be approximately \$300 million. The primary purpose of the Fund is to provide a limited number of select investors with the opportunity to realize long-term appreciation from public and private companies, with a particular focus on the technology and life science industries. The general activities of the OCV Fund is to buy, sell, hold and otherwise invest in securities of every kind and nature and rights and options with respect thereto, including, without limitation, stock, notes, bonds, debentures and evidence of indebtedness; to exercise all rights, powers, privileges and other incidents of ownership or possession with respect to securities held or owned by the OCV Fund; to enter into, make and perform all contracts

and other undertakings; and to engage in all activities and transactions as may be necessary, advisable or desirable to carry out the foregoing.

The manager and general partner of the Fund are entities with respect to which Richard S. Ressler, Chairman of the Board of Directors (the "Board") of the Company, is indirectly the majority equity holder and a related party. As a limited partner in the Fund, the Company will pay an annual management fee to the manager equal to 2.0% (reduced by 10% each year beginning with the sixth year) of capital commitments. In addition, subject to the terms and conditions of the Fund's limited partnership agreement, once the Company has received distributions equal to its invested capital, the Fund's general partner would be entitled to a carried interest equal to 20%. The Fund has a six year investment period, subject to certain exceptions. The commitment was approved by the Audit Committee of the Board in accordance with the Company's related-party transaction approval policy.

-20-

During the first quarter of 2018, the Company received capital call notices from the management of OCV Management, LLC. for \$13.4 million, inclusive of certain management fees.

The following table discloses the carrying amount for the Company’s equity method investment (in thousands):

	March 31, December 31,	
	2018	2017
Equity securities	\$ 13,403	\$ —

As a limited partner, the Company’s maximum exposure to loss is \$13.4 million and is limited to its proportional ownership in the partnership. In addition, the Company’s is not required to contribute capital in an aggregate amount in excess of its capital commitment and any expected losses will not be in excess of the Capital Account. Finally, there are no call or put options, or other types of arrangements, which limit the Company’s ability to participate in losses and returns of the Fund.

6.Fair Value Measurements

j2 Global complies with the provisions of ASC 820, which defines fair value, provides a framework for measuring fair value and expands the disclosures required for fair value measurements of financial and non-financial assets and liabilities. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or a liability. As a basis for considering such assumptions, ASC 820 establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs which are supported by little or no market activity.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company’s money market funds are classified within Level 1. The Company values these Level 1 investments using quoted market prices.

The Company’s debt securities are classified within Level 2. The Company values these Level 2 investments based on model-driven valuations using significant inputs derived from or corroborated by observable market data.

The fair value of our senior notes (8.0% senior unsecured notes at December 31, 2017 and 6.0% senior unsecured notes at March 31, 2018) (see Note 8 - Long-Term Debt) is determined using quoted market prices or dealer quotes for instruments with similar maturities and other terms and credit ratings, which are Level 2 inputs. The fair value of long-term debt at March 31, 2018 and December 31, 2017 was \$1.2 billion and \$1.2 billion, respectively.

In addition, the Convertible Notes contain terms that may require the Company to pay contingent interest on the Convertible Notes which is accounted for as a derivative with fair value adjustments being recorded to interest expense (see Note 8 - Long Term Debt). This derivative is fair valued using a binomial lattice convertible bond

pricing model using historical and implied market information, which are Level 2 inputs.

The Company classifies its contingent consideration liability in connection with acquisitions within Level 3 because factors used to develop the estimated fair value are unobservable inputs, such as volatility and market risks, and are not supported by market activity. The fair value of the contingent consideration liability was determined using option based approaches. This methodology was utilized because the distribution of payments is not symmetric and amounts are only payable upon certain earnings before interest, tax, depreciation and amortization (“EBITDA”) thresholds being reached. Such valuation approach included a Monte-Carlo simulation for the contingency since the financial metric driving the payments is path dependent. Significant

-21-

increases or decreases in either of the inputs noted above in isolation would result in a significantly lower or higher fair value measurement.

The following tables present the fair values of the Company's financial assets or liabilities that are measured at fair value on a recurring basis (in thousands):

March 31, 2018	Level 1	Level 2	Level 3	Fair Value
Assets:				
Cash equivalents:				
Money market and other funds	\$45,608	\$—	\$—	\$45,608
Corporate debt securities	—	20,245	—	20,245
Total assets measured at fair value	\$45,608	\$20,245	\$—	\$65,853

Liabilities:				
Contingent consideration	\$—	\$—	\$23,800	\$23,800
Contingent interest derivative	—	768	—	768
Total liabilities measured at fair value	\$—	\$768	\$23,800	\$24,568

December 31, 2017	Level 1	Level 2	Level 3	Fair Value
Assets:				
Cash equivalents:				
Money market and other funds	\$453	\$—	\$—	\$453
Corporate debt securities	—	22,745	—	22,745
Total assets measured at fair value	\$453	\$22,745	\$—	\$23,198

Liabilities:				
Contingent consideration	\$—	\$—	\$20,477	\$20,477
Contingent interest derivative	—	768	—	768
Total liabilities measured at fair value	\$—	\$768	\$20,477	\$21,245

During the quarter ended March 31, 2018, the Company completed a level 3 nonrecurring fair value determination of its securities without a readily determinable fair value in the amount of \$31.3 million (see Note 5 - Investments).

At the end of each reporting period, management reviews the inputs to the fair value measurements of financial and non-financial assets and liabilities to determine when transfers between levels are deemed to have occurred. For the three months ended March 31, 2018, there were no transfers that have occurred between levels.

The following table presents a reconciliation of the Company's derivative instruments (in thousands):

Amount Affected line item in the Statement of Income

Derivative Liabilities:

Level 2:

Balance as of January 1, 2018 \$ 768

Balance as of March 31, 2018 \$ 768

The following table presents a reconciliation of the Company's Level 3 financial assets or liabilities that are measured at fair value on a recurring basis (in thousands):

	Level 3	Affected line item in the Statement of Income
Balance as of January 1, 2018	\$20,477	
Total fair value adjustments reported in earnings	4,100	General and administrative
Contingent consideration payments	(777)	Not applicable
Balance as of March 31, 2018	\$23,800	

In connection with the acquisition of Humble Bundle, on October 13, 2017, contingent consideration of up to an aggregate of \$40.0 million may be payable upon achieving certain future income thresholds and had a fair value of \$23.8 million and \$19.7 million at March 31, 2018 and December 31, 2017, respectively.

In connection with the acquisition of blackfriday.com, on November 7, 2017, the Company achieved certain earnings targets and, as a result, contingent consideration of \$0.8 million was paid to the seller during the first quarter 2018 in connection with this acquisition.

During the three months ended March 31, 2018, the Company recorded an increase in the fair value of the contingent consideration of \$4.1 million and reported such increase in general and administrative expenses.

7. Goodwill and Intangible Assets

Goodwill represents the excess of the purchase price over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Intangible assets resulting from the acquisitions of entities accounted for using the acquisition method of accounting are recorded at the estimated fair value of the assets acquired. Identifiable intangible assets are comprised of purchased customer relationships, trademarks and trade names, developed technologies and other intangible assets. The fair values of these identified intangible assets are based upon expected future cash flows or income, which take into consideration certain assumptions such as customer turnover, trade names and patent lives. These determinations are primarily based upon the Company's historical experience and expected benefit of each intangible asset. If it is determined that such assumptions are not accurate, then the resulting change will impact the fair value of the intangible asset. Identifiable intangible assets are amortized over the period of estimated economic benefit, which ranges from one to 20 years.

The changes in carrying amounts of goodwill for the three months ended March 31, 2018 are as follows (in thousands):

	Cloud Services	Digital Media	Consolidated
Balance as of January 1, 2018	\$603,753	\$592,858	\$1,196,611
Goodwill acquired (Note 4)	58,033	1,035	59,068
Purchase accounting adjustments ⁽¹⁾	(1,014)	10	(1,004)
Foreign exchange translation	2,993	(147)	2,846
Balance as of March 31, 2018	\$663,765	\$593,756	\$1,257,521

(1) Purchase accounting adjustments relate to adjustments to goodwill in connection with prior year business acquisitions (see Note 4 - Business Acquisitions).

-23-

Intangible Assets with Indefinite Lives:

Intangible assets are summarized as of March 31, 2018 and December 31, 2017 as follows (in thousands):

	March 31, 2018	December 31, 2017
Trade name	\$ 27,379	\$ 27,379
Other	4,306	5,432
Total	\$ 31,685	\$ 32,811

Intangible Assets Subject to Amortization:

As of March 31, 2018, intangible assets subject to amortization relate primarily to the following (in thousands):

	Weighted-Average Amortization Period	Historical Cost	Accumulated Amortization	Net
Trade names	11.2 years	\$ 154,571	\$ 54,500	\$ 100,071
Patent and patent licenses	6.6 years	67,895	58,016	9,879
Customer relationships ⁽¹⁾	9.1 years	473,619	270,646	202,973
Other purchased intangibles	4.8 years	230,371	80,390	149,981
Total		\$ 926,456	\$ 463,552	\$ 462,904

⁽¹⁾ Historically, the Company has amortized its customer relationship assets in a pattern that best reflects the pace in which the asset's benefits are consumed. This pattern results in a substantial majority of the amortization expense being recognized in the first 4 to 5 years, despite the overall life of the asset.

As of December 31, 2017, intangible assets subject to amortization relate primarily to the following (in thousands):

	Weighted-Average Amortization Period	Historical Cost	Accumulated Amortization	Net
Trade names	11.2 years	\$ 147,997	\$ 51,429	\$ 96,568
Patent and patent licenses	6.6 years	67,724	56,853	10,871
Customer relationships ⁽¹⁾	8.9 years	447,070	253,464	193,606
Other purchased intangibles	4.8 years	218,628	66,733	151,895
Total		\$ 881,419	\$ 428,479	\$ 452,940

⁽¹⁾ Historically, the Company has amortized its customer relationship assets in a pattern that best reflects the pace in which the asset's benefits are consumed. This pattern results in a substantial majority of the amortization expense being recognized in the first 4 to 5 years, despite the overall life of the asset.

Amortization expense, included in general and administrative expense, approximated \$33.1 million and \$30.9 million for the three months ended March 31, 2018 and 2017, respectively. Amortization expense is estimated to approximate \$151.8 million, \$104.1 million, \$55.2 million, \$40.4 million and \$33.5 million for fiscal years 2018 through 2022, respectively, and \$111.1 million thereafter through the duration of the amortization period.

8. Long-Term Debt

6.0% Senior Notes

On June 27, 2017, j2 Cloud Services, LLC ("j2 Cloud") and j2 Cloud Co-Obligor (the "Co-Issuer" and together with j2 Cloud, the "Issuers"), wholly-owned subsidiaries of the Company, completed the issuance and sale of \$650 million

aggregate principal amount of their 6.0% senior notes due in 2025 (the “6.0% Senior Notes”) in a private placement offering exempt from

-24-

the registration requirements of the Securities Act of 1933. The 6.0% Senior Notes are presented as long-term debt, net of deferred issuance costs, on the condensed consolidated balance sheets as of March 31, 2018.

The 6.0% Senior Notes bear interest at a rate of 6.0% per annum, payable semi-annually in arrears on January 15 and July 15 of each year, commencing on January 15, 2018. The 6.0% Senior Notes mature on July 15, 2025, and are senior unsecured obligations of the Issuers and are guaranteed on an unsecured basis by certain subsidiaries of j2 Cloud (as defined in the Indenture agreement dated June 27, 2017, the “Indenture”). If j2 Cloud or any of its restricted subsidiaries acquires or creates a domestic restricted subsidiary, other than an insignificant subsidiary (as defined in the Indenture), after the issue date, or any insignificant subsidiary ceases to fit within the definition of insignificant subsidiary, such restricted subsidiary is required to unconditionally guarantee, jointly and severally, on an unsecured basis, the Issuers’ obligations under the 6.0% Senior Notes.

The Issuers may redeem some or all of the 6.0% Senior Notes at any time on or after July 15, 2020 at specified redemption prices plus accrued and unpaid interest, if any, to, but excluding the redemption date. Before July 15, 2020, in connection with certain equity offerings, the Issuers also may redeem up to 35% of the 6.0% Senior Notes at a price equal to 106.0% of the principal amount, plus accrued and unpaid interest, if any, to, but excluding the redemption date. In addition, at any time prior to July 15, 2020, the Issuers may redeem some or all of the 6.0% Senior Notes at a price equal to 100% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date, plus an applicable “make-whole” premium.

The Indenture contains certain restrictive and other covenants applicable to j2 Cloud and subsidiaries designated as restricted subsidiaries including, but not limited to, restrictions on (i) paying dividends or making distributions on j2 Cloud’s membership interests or repurchasing j2 Cloud’s membership interests; (ii) making certain restricted payments; (iii) creating liens or entering into sale and leaseback transactions; (iv) entering into transactions with affiliates; (v) merging or consolidating with another company; and (vi) transferring and selling assets. These covenants include certain exceptions. Violation of these covenants could result in a default which could result in the acceleration of outstanding amounts if such default is not cured or waived within the time periods outlined in the Indenture. Restricted payments, specifically dividend payments, are applicable only if j2 Cloud and subsidiaries designated as restricted subsidiaries has a leverage ratio of greater than 3.0 to 1.0. In addition, if such leverage ratio is in excess of 3.0 to 1.0, the restriction on restricted payments is subject to various exceptions, including an exception for the payment of restricted payments up to \$75 million. These contractual provisions did not, as of March 31, 2018, restrict j2 Cloud’s ability to pay dividends to j2 Global, Inc. The company is in compliance with its debt covenants as of March 31, 2018.

As of March 31, 2018, the estimated fair value of the 6.0% Senior Notes was approximately \$667.9 million and was based on the quoted market prices of debt instruments with similar terms, credit rating and maturities of the 6.0% Senior Notes which are Level 2 inputs (see Note 6 - Fair Value Measurements).

3.25% Convertible Notes

On June 10, 2014, j2 Global issued \$402.5 million aggregate principal amount of 3.25% convertible senior notes due June 15, 2029 (the “Convertible Notes”). The Convertible Notes bear interest at a rate of 3.25% per annum, payable semiannually in arrears on June 15 and December 15 of each year. Beginning with the six-month interest period commencing on June 15, 2021, the Company must pay contingent interest on the Convertible Notes during any six-month interest period if the trading price per \$1,000 principal amount of the Convertible Notes for each of the five trading days immediately preceding the first day of such interest period equals or exceeds \$1,300. Any contingent interest payable on the Convertible Notes will be in addition to the regular interest payable on the Convertible Notes.

Holders may surrender their Convertible Notes for conversion at any time prior to the close of business on the business day immediately preceding the maturity date only if one or more of the following conditions is satisfied: (i) during any calendar quarter commencing after the calendar quarter ending on September 30, 2014 (and only during such calendar quarter), if the closing sale price of j2 Global common stock for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the calendar quarter immediately preceding the calendar quarter in which the conversion occurs is more than 130% of the applicable conversion price of the Convertible Notes on each such trading day; (ii) during the five consecutive business day period following any ten consecutive trading day period in which the trading price for the Convertible Notes for each such trading day was less than 98% of the product of (a) the closing sale price of j2 Global common stock on each such trading day and (b) the applicable conversion rate on each such trading day; (iii) if j2 Global calls any or all of the Convertible Notes for redemption, at any time prior to the close of business on the business day prior to the redemption date; (iv) upon the occurrence of specified corporate events; or (v) during either the period beginning on, and including, March 15, 2021 and ending on, but excluding, June 20, 2021 or the period beginning on, and including, March 15, 2029 and ending on, but excluding, the maturity date. j2 Global will settle conversions of Convertible Notes by paying or delivering, as the case may be, cash, shares of j2 Global common stock or a combination thereof at j2 Global's election. The Company currently intends to satisfy its conversion obligation by paying and delivering a combination of cash and shares of the Company's common stock, where cash will be used to settle each \$1,000 of principal and the remainder, if any, will be settled via shares of the Company's common stock.

As of March 31, 2018, the conversion rate is 14.6153 shares of j2 Global common stock for each \$1,000 principal amount of Convertible Notes, which represents a conversion price of approximately \$68.42 per share of j2 Global common stock. The conversion rate is subject to adjustment for certain events as set forth in the indenture governing the Convertible Notes, but will not be adjusted for accrued interest. In addition, following certain corporate events that occur on or prior to June 20, 2021, j2 Global will increase the conversion rate for a holder that elects to convert its Convertible Notes in connection with such a corporate event.

j2 Global may not redeem the Convertible Notes prior to June 20, 2021. On or after June 20, 2021, j2 Global may redeem for cash all or part of the Convertible Notes at a redemption price equal to 100% of the principal amount of the Convertible Notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date. No sinking fund is provided for the Convertible Notes.

Holders have the right to require j2 Global to repurchase for cash all or part of their Convertible Notes on each of June 15, 2021 and June 15, 2024 at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest to, but excluding, the relevant repurchase date. In addition, if a fundamental change, as defined in the indenture governing the Convertible Notes, occurs prior to the maturity date, holders may require j2 Global to repurchase for cash all or part of their Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest to, but excluding, the fundamental change repurchase date.

The Convertible Notes are the Company's general senior unsecured obligations and rank: (i) senior in right of payment to any of the Company's future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; (ii) equal in right of payment to the Company's existing and future unsecured indebtedness that is not so subordinated; (iii) effectively junior in right of payment to any of the Company's secured indebtedness to the extent of the value of the assets securing such indebtedness; and (iv) structurally junior to all existing and future indebtedness (including trade payables) incurred by the Company's subsidiaries.

Accounting for the Convertible Notes

In accordance with ASC 470-20, Debt with Conversion and Other Options, convertible debt that can be settled for cash is required to be separated into the liability and equity component at issuance, with each component assigned a value. The value assigned to the liability component is the estimated fair value, as of the issuance date, of similar debt without the conversion feature. The difference between the cash proceeds and estimated fair value of the liability component, representing the value of the conversion premium assigned to the equity component, is recorded as a debt discount on the issuance date. This debt discount is amortized to interest expense using the effective interest method over the period from the issuance date through the first stated repurchase date on June 15, 2021.

j2 Global estimated the borrowing rates of similar debt without the conversion feature at origination to be 5.79% for the Convertible Notes and determined the debt discount to be \$59.0 million. As a result, a conversion premium after tax of \$37.7 million was recorded in additional paid-in capital. The aggregate debt discount is amortized as interest expense over the period from the issuance date through the first stated repurchase date on June 15, 2021, which management believes is the expected life of the Convertible Notes using an interest rate of 5.81%. As of March 31, 2018, the remaining period over which the unamortized debt discount will be amortized is 3.2 years.

-26-

The Convertible Notes are carried at face value less any unamortized debt discount and debt issuance costs. The fair value of the Convertible Notes at each balance sheet date is determined based on recent quoted market prices or dealer quotes for the Convertible Notes, which are Level 1 inputs (see Note 6 - Fair Value Measurements). If such information is not available, the fair value is determined using cash-flow models of the scheduled payments discounted at market interest rates for comparable debt without the conversion feature. As of March 31, 2018 and December 31, 2017, the estimated fair value of the Convertible Notes was approximately \$512.6 million and \$504.5 million, respectively.

Long-term debt as of March 31, 2018 and December 31, 2017 consists of the following (in thousands):

	March 31, 2018	December 31, 2017
6.0% Senior Notes	\$ 650,000	\$ 650,000
3.25% Convertible Notes	402,500	402,500
Less: Unamortized discount	(40,453)	(42,902)
Deferred issuance costs	(7,251)	(7,654)
Total long-term debt	1,004,796	1,001,944
Less: Current portion	—	—
Total long-term debt, less current portion	\$ 1,004,796	\$ 1,001,944

9. Commitments and Contingencies

Litigation

From time to time, j2 Global and its affiliates are involved in litigation and other legal disputes or regulatory inquiries that arise in the ordinary course of business. Any claims or regulatory actions against j2 Global and its affiliates, whether meritorious or not, could be time consuming and costly, and could divert significant operational resources. The outcomes of such matters are subject to inherent uncertainties, carrying the potential for unfavorable rulings that could include monetary damages and injunctive relief.

On February 17, 2011, Emmanuel Pantelakis (“Pantelakis”) filed suit against a j2 Global affiliate in the Ontario Superior Court of Justice (No. 11-50673), alleging that the j2 Global affiliate breached a contract relating to Pantelakis’s use of the Campaigner® service. The j2 Global affiliate filed a responsive pleading on March 23, 2011 and responses to undertakings on July 16, 2012. On November 6, 2012, Pantelakis filed a second amended statement of claim, reframing his lawsuit as a negligence action. The j2 Global affiliate filed an amended statement of defense on April 8, 2013. Discovery has closed. A judicial pre-trial has been set for July 27, 2018.

On January 17, 2013, the Commissioner of the Massachusetts Department of Revenue (“Commissioner”) issued a notice of assessment to a j2 Global affiliate for sales and use tax for the period of July 1, 2003 through December 31, 2011. On July 22, 2014, the Commissioner denied the j2 Global affiliate’s application for abatement. On September 18, 2014, the j2 Global affiliate petitioned the Massachusetts Appellate Tax Board for abatement of the tax asserted in the notice of assessment (No. C325426). A trial was held on December 16, 2015. On May 18, 2017, the Appellate Board decided in favor of the Commonwealth of Massachusetts. The j2 Global affiliate has requested the findings of fact and conclusions of law from the Appellate Board.

On January 21, 2016, Davis Neurology, P.A. filed a putative class action against two j2 Global affiliates in the Circuit Court for the County of Pope, State of Arkansas (58-cv-2016-40), alleging violations of the TCPA. The case was ultimately removed to the U.S. District Court for the Eastern District of Arkansas (the “Eastern District of Arkansas”) (No. 4:16-cv-00682). On June 6, 2016, the j2 Global affiliates filed a motion for judgment on the pleadings. On March

20, 2017, the Eastern District of Arkansas dismissed all claims against the j2 Global affiliates. On April 17, 2017, Davis Neurology filed a notice of appeal. On June 20, 2017, Davis Neurology filed its appeal brief. On August 4, 2017 the j2 Global affiliates filed a response brief. On August 21, 2017, Davis Neurology filed a reply brief. Oral argument was held January 11, 2018. The j2 Global affiliates submitted a supplemental letter briefing on February 8, 2018 and March 7, 2018. Davis Neurology submitted a supplemental letter brief on February 15, 2018. The appeal is pending.

j2 Global does not believe, based on current knowledge, that the foregoing legal proceedings or claims, after giving effect to existing reserves, are likely to have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows. However, depending on the amount and timing, an unfavorable resolution of some or all of these matters could have a material effect on j2 Global's consolidated financial position, results of operations, or cash flows in a particular period.

The Company has not accrued for any material loss contingencies relating to these legal proceedings because materially unfavorable outcomes are not considered probable by management. It is the Company's policy to expense as incurred legal fees related to various litigations.

Non-Income Related Taxes

As a provider of cloud services for business, the Company does not provide telecommunications services. Thus, it believes that its business and its users (by using our services) are generally not subject to various telecommunication taxes. However, several state taxing authorities have challenged this belief and have and may continue to audit and assess our business and operations with respect to telecommunications and other sales taxes. In addition, the application of other indirect taxes (such as sales and use tax, business tax and gross receipt tax) to e-commerce businesses such as j2 Global and our users is a complex and evolving issue. The application of existing, new or future laws could have adverse effects on our business, prospects and operating results. There have been, and will continue to be, substantial ongoing costs associated with complying with the various indirect tax requirements in the numerous markets in which we conduct or will conduct business.

The Company is currently under audit for indirect taxes in several states and municipalities. The Company has a \$2.0 million reserve established for these matters. It is reasonably possible that additional liabilities could be incurred resulting in additional expense, which could have a material impact our financial results.

10. Income Taxes

The Company's tax provision for interim periods is determined using an estimate of the Company's annual effective tax rate adjusted for discrete interim period tax impacts. Each quarter the Company updates its estimated annual effective tax rate and, if the estimate changes, makes a cumulative adjustment. The Company's effective tax rate was 27.1% and 26.7% for the three months ended March 31, 2018 and 2017, respectively. (Loss) income before income taxes from domestic operations of \$(8.7) million and \$0.1 million for the three months ended March 31, 2018 and 2017, respectively, and income from foreign operations of \$34.6 million and \$35.1 million for the three months ended March 31, 2018 and 2017, respectively.

The 2017 Tax Act was enacted on December 22, 2017. The 2017 Tax Act includes a number of changes to the Internal Revenue Code including a one-time transition tax on the mandatory deemed repatriation of cumulative undistributed foreign earnings and a permanent reduction in the U.S. federal statutory income tax rate from 35% to 21%, effective on January 1, 2018. The 2017 Tax Act also created a new requirement that certain income (i.e., Global Intangible Low Taxed Income ("GILTI")) earned by foreign subsidiaries must be included currently in the gross income of the U.S. shareholder. Consistent with guidance issued by SAB 118, the Company recorded provisional estimates for the income tax effects of the 2017 Tax Act in December 31, 2017. In addition, SAB 118 provides for a measurement period of one year from the enactment date to finalize the accounting for effects of the 2017 Tax Act. The Company continues to analyze the impacts of the 2017 Tax Act and refine calculations.

The Company is required to record deferred tax assets and liabilities based on the enacted tax rates at which they are expected to reverse in the future. Therefore, any U.S. related deferred taxes were re-measured from 35% down to 21% based on the recorded balances as of December 31, 2017. The analysis included a preliminary assessment on the deductibility of certain amounts for which deferred tax assets may have been recorded. As of December 31, 2017, the Company recorded an estimated tax benefit of approximately \$33.3 million. As of March 31, 2018, the Company has

not adjusted its provisional estimate related to re-measurement of its deferred tax balances.

The Company was required to calculate a one-time transition tax based on its total post-1986 foreign earnings and profits (“E&P”) that it previously deferred from U.S. income taxes. During the year ended December 31, 2017, the Company recorded a provisional estimate of the transition tax of \$49.2 million payable over an eight year period. As of March 31, 2018, the Company has not adjusted its provisional estimate of the transition tax.

-28-

The Company was unable to determine a reasonable estimate of the remaining tax liability, if any, under the 2017 Tax Act for its remaining outside basis differences or evaluate how the 2017 Tax Act will affect the Company's existing accounting position to indefinitely reinvest unremitted foreign earnings. Therefore, the Company did not include a provisional amount for this item in its financial statements for fiscal 2017. As of March 31, 2018, the Company continues to review the amount of tax due, if any, on differences in tax basis and the accounting position related to indefinite reinvestment of foreign earnings.

The Company is subject to a territorial tax system under the 2017 Tax Act, in which it is required to provide for tax on GLTI earned by certain foreign subsidiaries. Additionally, the Company is required to make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI in the year the tax is incurred as a period expense. As of March 31, 2018, the Company is still evaluating the effects of the GILTI provisions as guidance and interpretations continue to emerge. Therefore, the Company has not determined its accounting policy on the GILTI provisions. However, the standard requires that the Company reflect the impact of the GILTI provisions as a period expense until the accounting policy is finalized. Therefore, the Company has included the provisional estimate of GILTI related to current-year operations in its estimated annual effective tax rate only and will be updating the impact and accounting policy as the analysis related to the GILTI provisions is completed.

As of March 31, 2018 and December 31, 2017, the Company had \$53.3 million and \$52.2 million, respectively, in liabilities for uncertain income tax positions. Accrued interest and penalties related to unrecognized tax benefits are recognized in income tax expense on the Company's consolidated statement of income.

Cash paid for income taxes net of refunds received was \$5.4 million and \$6.5 million for the three months ended March 31, 2018 and 2017, respectively.

Certain taxes are prepaid during the year and, where appropriate, included within prepaid expenses and other current assets on the consolidated balance sheet. The Company's prepaid taxes were \$3.0 million and \$6.0 million at March 31, 2018 and December 31, 2017, respectively.

Income Tax Audits:

The Company is in various stages of audit by the U.S. Internal Revenue Service ("IRS") for its 2012 through 2014 tax years.

j2 Global is under income tax audit by the California Franchise Tax Board (the "FTB") for its tax years 2012 and 2013. The FTB, however, has agreed to suspend its audit for 2012 and 2013 pending the outcome of the IRS audit for such tax years.

The Company is under income tax audit by the New York State Department of Taxation and Finance ("NYS") for tax years 2011 through 2014.

The Massachusetts Department of Revenue notified the Company that it will commence an audit of income tax for tax years 2014 and 2015. In addition, the Georgia Department of Revenue notified the Company that it will commence an audit of income tax for tax years 2014 through 2016.

The Company is currently under audit by the French tax authorities for tax years 2011 to 2016. The audit is in the preliminary fact gathering stage.

It is reasonably possible that these audits may conclude in the next 12 months and that the uncertain tax positions the Company has recorded in relation to these tax years may change compared to the liabilities recorded for these periods. If the recorded uncertain tax positions are inadequate to cover the associated tax liabilities, the Company would be

required to record additional tax expense in the relevant period, which could be material. If the recorded uncertain tax positions are adequate to cover the associated tax liabilities, the Company would be required to record any excess as a reduction in tax expense in the relevant period, which could be material. However, it is not currently possible to estimate the amount, if any, of such change.

-29-

11. Stockholders' Equity

Common Stock Repurchase Program

In February 2012, the Company's Board of Directors approved a program authorizing the repurchase of up to five million shares of our common stock through February 20, 2013 (the "2012 Program") which was subsequently extended through February 19, 2019.

In July 2016, the Company acquired and subsequently retired 935,231 shares of j2 Global common stock in connection with the acquisition of Integrated Global Concepts, Inc. As a result of the purchase of j2 Global common stock, the Company's Board of Directors approved a reduction in the number of shares available for purchase under the 2012 Program by the same amount leaving 1,938,689 shares of j2 Global common stock available for purchase under this program. During the three month period ended March 31, 2018, we repurchased zero shares under this program. Cumulatively at March 31, 2018, 2.1 million shares were repurchased at an aggregate cost of \$58.6 million (including an immaterial amount of commission fees).

Periodically, participants in j2 Global's stock plans surrender to the Company shares of j2 Global stock to pay the exercise price or to satisfy tax withholding obligations arising upon the exercise of stock options or the vesting of restricted stock. During the three month period ended March 31, 2018, the Company purchased 7,942 shares from plan participants for this purpose.

Dividends

The following is a summary of each dividend declared during fiscal year 2018 and 2017:

Declaration Date	Dividend		
	per Common Share	Record Date	Payment Date
February 9, 2017	\$ 0.3650	February 22, 2017	March 9, 2017
May 4, 2017	\$ 0.3750	May 19, 2017	June 2, 2017
August 2, 2017	\$ 0.3850	August 14, 2017	September 1, 2017
October 31, 2017	\$ 0.3950	November 17, 2017	December 5, 2017
February 2, 2018	\$ 0.4050	February 22, 2018	March 9, 2018

Future dividends are subject to Board approval.

12. Stock Options and Employee Stock Purchase Plan

j2 Global's share-based compensation plans include the 2007 Stock Plan (the "2007 Plan"), 2015 Stock Option Plan (the "2015 Plan") and 2001 Employee Stock Purchase Plan (the "Purchase Plan"). Each plan is described below.

The 2007 Plan provides for the granting of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units and other share-based awards. 4,500,000 shares of j2 Global common stock are authorized to be used for 2007 Plan purposes. Options under the 2007 Plan may be granted at exercise prices determined by the Board of Directors, provided that the exercise prices shall not be less than the fair market value of j2 Global's common stock on the date of grant for incentive stock options and not less than 85% of the fair market value of j2 Global's common stock on the date of grant for non-statutory stock options. As of March 31, 2018, 285,996 shares underlying options and 8,840 shares of restricted units were outstanding under the 2007 Plan. The 2007 Plan terminated on February 14, 2017.

The 2015 Plan provides for the granting of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance share units and other share-based awards and is intended as a successor plan to the 2007 Stock Plan since no further grants will be made under the 2007 Stock Plan. 4,200,000 shares of j2 Global common stock are authorized to be used for 2015 Plan purposes. Options under the 2015 Plan may be granted at exercise prices determined by the Board of Directors, provided that the exercise prices shall not be less than the higher of the par value or 100% of the fair market value of j2 Global's common stock subject to the option on the date the option is granted. As of March 31, 2018, 462,000 shares underlying options and 39,154 shares of restricted stock units were outstanding under the 2015 Plan.

All stock option grants are approved by "outside directors" within the meaning of Internal Revenue Code Section 162(m).

-30-

Stock Options

The following table represents stock option activity for the three months ended March 31, 2018:

	Number of Shares	Weighted- Average Exercise Price	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2018	375,675	\$ 31.30		
Granted	400,000	75.03		
Exercised	(27,679)	21.45		
Canceled	—	—		
Outstanding at March 31, 2018	747,996	\$ 55.05	6.3	\$17,856,319
Exercisable at March 31, 2018	334,196	\$ 30.62	2.2	\$16,140,653
Vested and expected to vest at March 31, 2018	601,462	\$ 50.20	5.5	\$17,274,251

The total intrinsic values of options exercised during the three months ended March 31, 2018 and 2017 were \$1.5 million and \$1.3 million, respectively.

The Company recognized \$0.2 million and \$0.1 million of compensation expense related to stock options for the three months ended March 31, 2018 and 2017, respectively. As of March 31, 2018 and December 31, 2017, unrecognized stock compensation related to non-vested stock options granted under each of the share-based compensation plans approximated \$7.7 million and \$0.2 million, respectively. Unrecognized stock compensation expense related to non-vested stock options granted under these plans is expected to be recognized ratably over a weighted-average period of 7.6 years (i.e., the remaining requisite service period).

Fair Value Disclosure

j2 Global uses the Black-Scholes option pricing model to calculate the fair value of each option grant. The expected volatility is based on historical volatility of the Company's common stock. The Company estimates the expected term based upon the historical exercise behavior of our employees. The risk-free interest rate is based on U.S. Treasury zero-coupon issues with a term equal to the expected term of the option assumed at the date of grant. The Company uses an annualized dividend yield based upon the per share dividends declared by its Board of Directors. Estimated forfeiture rates were 10.74% and 15.31% as of March 31, 2018 and 2017, respectively.

Restricted Stock and Restricted Stock Units

j2 Global has awarded restricted stock and restricted stock units to its Board of Directors and senior staff pursuant to certain share-based compensation plans. Compensation expense resulting from restricted stock and restricted unit grants is measured at fair value on the date of grant and is recognized as share-based compensation expense over the applicable vesting period. Vesting periods are approximately one year for awards to members of the Company's Board of Directors, five years for senior staff (excluding market-based awards discussed below) and eight years for the Chief Executive Officer ("CEO").

Restricted Stock - Awards with Market Conditions

j2 Global has awarded certain key employees market-based restricted stock awards pursuant to the 2015 Plan. The market-based awards have vesting conditions that are based on specified stock price targets of the Company's common stock. Market conditions were factored into the grant date fair value using a Monte Carlo valuation model, which utilized multiple input variables to determine the probability of the Company achieving the specified stock price

targets with a 20-day and 30-day lookback (trading days). Stock-based compensation expense related to an award with a market condition will be recognized over the requisite service period using the graded-vesting method regardless of whether the market condition is satisfied, provided that the requisite service period has been completed. During the three months ended March 31, 2018 and 2017, the Company awarded 400,000 and zero market-based restricted stock awards, respectively. The per share weighted average grant-date fair values of the market-based restricted stock awards granted during the three months ended March 31, 2018 and 2017 were \$49.92 and zero, respectively.

-31-

The weighted-average fair values of market-based restricted stock awards granted have been estimated utilizing the following assumptions:

	March	
	31, 2018	
Underlying stock price at valuation date	\$75.03	
Expected volatility	28.4	%
Risk-free interest rate	2.34	%

Restricted stock award activity for the three months ended March 31, 2018 is set forth below:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2018	605,566	\$ 51.57
Granted	612,547	26.09
Vested	(15,032)	62.75
Canceled	(12,500)	83.26
Nonvested at March 31, 2018	1,190,581	\$ 37.99

Restricted stock unit award activity for the three months ended March 31, 2018 is set forth below:

	Number of Shares	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2018	38,400		
Granted	12,614		
Vested	(3,020)		
Canceled	—		
Outstanding at March 31, 2018	47,994	2.0	\$3,787,686
Vested and expected to vest at March 31, 2018	38,597	1.8	\$3,046,076

The Company recognized \$6.2 million and \$3.5 million of compensation expense related to restricted stock and restricted stock units for the three months ended March 31, 2018 and 2017, respectively. As of March 31, 2018 and December 31, 2017, the Company had unrecognized share-based compensation cost of approximately \$67.1 million and \$36.6 million, respectively, associated with these awards. This cost is expected to be recognized over a weighted-average period of 5.7 years for awards and 3.5 years for units.

Employee Stock Purchase Plan

The Purchase Plan provides for the issuance of a maximum of two million shares of the Company's common stock. Under the Purchase Plan, eligible employees can have up to 15% of their earnings withheld, up to certain maximums, to be used to purchase shares of j2 Global common stock at certain plan-defined dates. The price of the j2 Global common stock purchased under the Purchase Plan for the offering periods is equal to 95% of the fair market value of the j2 Global common stock at the end of the offering period. For the three months ended March 31, 2018 and 2017, 851 and 837 shares were purchased under the plan, respectively. Cash received upon the issuance of j2 Global common stock under the Purchase Plan was \$65,000 and \$67,000 for the three months ended March 31, 2018 and 2017, respectively. As of March 31, 2018, 1,622,392 shares were available under the Purchase Plan for future issuance.

On February 2, 2018, the Company approved an amendment (the “Amendment”) to the Company’s Amended and Restated 2001 Employee Stock Purchase Plan, to be effective May 1, 2018, such that (i) the purchase price for each offering period shall be 85% of the lesser of the fair market value of a share of common stock of the Company (a “Share”) on the beginning or the end of the offering period, rather than 95% of the fair market value of a Share at the end of the offering period, and (ii) each offering period will be six months, rather than three months.

13. Earnings Per Share

The components of basic and diluted earnings per share are as follows (in thousands, except share and per share data):

	Three Months Ended March 31,	
	2018	2017
Numerator for basic and diluted net income per common share:		
Net income attributable to j2 Global, Inc. common shareholders	\$ 18,871	\$ 25,820
Net income available to participating securities ^(a)	(217)	(309)
Net income available to j2 Global, Inc. common shareholders	\$ 18,654	\$ 25,511
Denominator:		
Weighted-average outstanding shares of common stock	47,873,007	47,463,231
Dilutive effect of:		
Equity incentive plans	123,305	242,920
Convertible debt ^(b)	710,405	1,059,880
Common stock and common stock equivalents	48,706,717	48,766,031
Net income per share:		
Basic	\$ 0.39	\$ 0.54
Diluted	\$ 0.38	\$ 0.52

^(a) Represents unvested share-based payment awards that contain certain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid).

^(b) Represents the incremental shares issuable upon conversion of the Convertible Notes due June 15, 2029 by applying the treasury stock method when the average stock price exceeds the conversion price of the Convertible Notes (see Note 8 - Long Term Debt).

For the three months ended March 31, 2018 and 2017, there were zero options outstanding, respectively, which were excluded from the computation of diluted earnings per share because the exercise prices were greater than the average market price of the common stock.

14. Segment Information

The Company’s business segments are based on the organization structure used by management for making operating and investment decisions and for assessing performance. j2 Global’s reportable business segments are: (i) Cloud Services and (ii) Digital Media.

The Company’s Cloud Services segment is driven primarily by subscription revenues that are relatively higher margin, stable and predictable from quarter to quarter with some seasonal weakness in the fourth quarter. The Cloud Services segment also includes the results of our IP licensing business, which can vary dramatically in both revenues and profitability from period to period. The Company’s Digital Media segment is driven primarily by advertising revenues, has relatively higher sales and marketing expense and has seasonal strength in the fourth quarter.

Information on reportable segments and reconciliation to consolidated income from operations is as follows (in thousands):

	Three Months Ended March 31,	
	2018	2017
Revenues by segment:		
Cloud Services	\$149,485	\$141,544
Digital Media	131,161	113,131
Elimination of inter-segment revenues	(24)	(6)
Total Revenues by segment	280,622	254,669
Corporate	1	—
Total revenues	280,623	254,669
Direct costs by segment ⁽¹⁾ :		
Cloud Services	92,594	85,244
Digital Media	134,582	116,633
Direct costs by segment ⁽¹⁾	227,176	201,877
Cloud Services operating income ⁽²⁾	56,891	56,300
Digital Media operating income	(3,421)	(3,502)
Segment operating income	53,470	52,798
Global operating costs ⁽²⁾	7,312	4,823
Income from operations	\$46,158	\$47,975

⁽¹⁾ Direct costs for each segment include cost of revenues and other operating expenses that are directly attributable to the segment, such as employee compensation expense, local sales and marketing expenses, engineering and network operations expense, depreciation and amortization and other administrative expenses.

⁽²⁾ Global operating costs include general and administrative and other corporate expenses that are managed on a global basis and that are not directly attributable to any particular segment.

	March 31,	December 31,
	2018	2017
Assets:		
Cloud Services	\$1,108,992	\$1,078,577

All other countries	76,696	80,571
Total	\$ 548,755	\$ 532,714

15. Accumulated Other Comprehensive Income

The following table summarizes the changes in accumulated balances of other comprehensive income, net of tax, for the three months ended March 31, 2018 (in thousands):

	Unrealized Gains (Losses) on Investments	Foreign Currency Translation	Total
Beginning balance	\$ —	\$ (29,090)	\$ (29,090)
Other comprehensive (loss) income	(2,500)	6,310	3,810
Net current period other comprehensive (loss) income	(2,500)	6,310	3,810
Ending balance	\$ (2,500)	\$ (22,780)	\$ (25,280)

16. Subsequent Events

On May 3, 2018, the Company's Board of Directors approved a quarterly cash dividend of \$0.4150 per share of j2 Global common stock payable on June 1, 2018 to all stockholders of record as of the close of business on May 18, 2018.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward-Looking Information

In addition to historical information, we have also made forward-looking statements in this report. These statements are based on our estimates and assumptions and are subject to risks and uncertainties. Forward-looking statements include the information concerning our possible or assumed future results of operations. Forward-looking statements also include those preceded or followed by the words "anticipates," "believes," "estimates," "hopes" or similar expressions. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including but not limited to those discussed below, the risk factors discussed in Part II, Item 1A - "Risk Factors" of this Quarterly Report on Form 10-Q (if any) and in Part I, Item 1A - "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017 (together, the "Risk Factors"), and the factors discussed in the section in this Quarterly Report on Form 10-Q entitled "Quantitative and Qualitative Disclosures About Market Risk." Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements. Readers should carefully review the Risk Factors and the risk factors set forth in other documents we file from time to time with the SEC.

Some factors that could cause actual results to differ materially from those anticipated in these forward-looking statements include, but are not limited to, our ability and intention to:

- Sustain growth or profitability, particularly in light of an uncertain U.S. or worldwide economy and the related impact on customer acquisition and retention rates, customer usage levels and credit and debit card payment declines;
- Maintain and increase our Cloud Services customer base and average revenue per user;
- Generate sufficient cash flow to make interest and debt payments and reinvest in our business, and pursue desired activities and businesses plans while satisfying restrictive covenants relating to debt obligations;
- Acquire businesses on acceptable terms and successfully integrate and realize anticipated synergies from such acquisitions;
- Continue to expand our businesses and operations internationally in the wake of numerous risks, including adverse currency fluctuations, difficulty in staffing and managing international operations, higher operating costs as a percentage of revenues or the implementation of adverse regulations;
- Maintain our financial position, operating results and cash flows in the event that we incur new or unanticipated costs or tax liabilities, including those relating to federal and state income tax and indirect taxes, such as sales, value-added and telecommunication taxes;
- Accurately estimate the assumptions underlying our effective worldwide tax rate;
- Continue to pay a comparable cash dividend on a quarterly basis;
- Maintain favorable relationships with critical third-party vendors whose financial condition will not negatively impact the services they provide;
- Create compelling digital media content causing increased traffic and advertising levels; additional advertisers or an increase in advertising spend; and effectively target digital media advertisements to desired audiences;
 - Manage certain risks inherent to our business, such as costs associated with fraudulent activity, system failure or security breach; effectively maintaining and managing our billing systems; time and resources required to manage our legal proceedings; liability for legal and other claims; or adhering to our internal controls and procedures;
- Compete with other similar providers with regard to price, service and functionality;
- Cost-effectively procure, retain and deploy large quantities of telephone numbers in desired locations in the United States and abroad;

Achieve business and financial objectives in light of burdensome domestic and international telecommunications, internet or other regulations including data privacy, security and retention;
Successfully manage our growth, including but not limited to our operational and personnel-related resources, and integration of newly acquired businesses;

-36-

Successfully adapt to technological changes and diversify services and related revenues at acceptable levels of financial return;

Successfully develop and protect our intellectual property, both domestically and internationally, including our brands, patents, trademarks and domain names, and avoid infringing upon the proprietary rights of others; and

Recruit and retain key personnel.

In addition, our financial results could be materially impacted by risks associated with new accounting pronouncements.

Overview

j2 Global, Inc., together with its subsidiaries (“j2 Global”, “the Company”, “our”, “us” or “we”), is a leading provider of internet services. Through our Cloud Services segment, we provide cloud services to consumers and businesses and license our intellectual property (“IP”) to third parties. In addition, the Cloud Services segment includes fax, voice, backup, security and email marketing products. Our Digital Media segment specializes in the technology, gaming, lifestyle and healthcare markets offering content, tools and services to consumers and businesses.

Our Cloud Services segment generates revenues primarily from customer subscription and usage fees and from IP licensing fees. Our Digital Media segment generates revenues from advertising and sponsorships, subscription and usage fees, performance marketing and licensing fees.

In addition to growing our business organically, on a regular basis we acquire businesses to grow our customer bases, expand and diversify our service offerings, enhance our technologies, acquire skilled personnel and enter into new markets.

Our consolidated revenues are currently generated from three basic business models, each with different financial profiles and variability. Our Cloud Services segment is driven primarily by subscription revenues that are relatively higher margin, stable and predictable from quarter to quarter with some seasonal weakness in the fourth quarter. The Cloud Services segment also includes the results of our IP licensing business, which can vary dramatically in both revenues and profitability from period to period. Our Digital Media segment is driven primarily by advertising revenues, has relatively higher sales and marketing expense and has seasonal strength in the fourth quarter. We continue to pursue additional acquisitions, which may include companies operating under business models that differ from those we operate under today. Such acquisitions could impact our consolidated profit margins and the variability of our revenues.

j2 Global was incorporated in 2014 as a Delaware corporation through the creation of a new holding company structure, and our Cloud Services segment, operated by our wholly-owned subsidiary, j2 Cloud Services, LLC (formerly j2 Cloud Services, Inc.), and its subsidiaries, was founded in 1995. We manage our operations through two business segments: Cloud Services and Digital Media. Information regarding revenue and operating income attributable to each of our reportable segments is included within Note 14 - Segment Information of the Notes to Condensed Consolidated Financial Statements included elsewhere in this Quarterly Report on Form 10-Q.

Cloud Services Segment Performance Metrics

The following table sets forth certain key operating metrics for our Cloud Services segment as of and for the three months ended March 31, 2018 and 2017 (in thousands, except for percentages):

	Three Months Ended March 31,	
	2018	2017
Subscriber revenues:		
Fixed	\$ 122,015	\$ 116,590
Variable	27,307	23,742
Total subscriber revenues	\$ 149,322	\$ 140,332
Other license revenues	163	1,212
Total revenues	\$ 149,485	\$ 141,544
Percentage of total subscriber revenues:		
Fixed	81.7	% 83.1
Variable	18.3	% 16.9
Total revenues:		
Number-based	\$ 98,692	\$ 93,438
Non-number-based	50,793	48,106
Total revenues	\$ 149,485	\$ 141,544
Average monthly revenue per Cloud Business Customer (ARPU) ⁽¹⁾⁽²⁾	\$ 15.65	\$ 15.03
Cancel Rate ⁽³⁾	2.2	% 2.3

(1) Quarterly ARPU is calculated using our standard convention of applying the average of the quarter's beginning and ending base to the total revenue for the quarter. We believe ARPU provides investors an understanding of the average monthly revenues we recognize associated with each Cloud Services customer. As ARPU varies based on fixed subscription fee and variable usage components, we believe it can serve as a measure by which investors can evaluate trends in the types of services, levels of services and the usage levels of those services across our Cloud Services customer base.

(2) Cloud Services customers are defined as paying direct inward dialing numbers for fax and voice services, and direct and resellers' accounts for other services.

(3) Cancel Rate is defined as cancels of small and medium business and individual Cloud Services customers with greater than four months of continuous service (continuous service includes Cloud Services customers administratively canceled and reactivated within the same calendar month), and enterprise Cloud Services customers beginning with their first day of service. Calculated monthly and expressed as an average over the three months of the quarter.

Digital Media Segment Performance Metrics

The following table sets forth certain key operating metrics for our Digital Media segment for the three months ended March 31, 2018 and 2017 (in millions):

Critical Accounting Policies and Estimates

In the ordinary course of business, we have made a number of estimates and assumptions relating to the reporting of results of operations and financial condition in the preparation of our financial statements. Actual results could differ significantly from those estimates under different assumptions and conditions. Our critical accounting policies are described in our 2017 Annual Report on Form 10-K filed with the SEC on March 1, 2018. During the three months ended March 31, 2018, there were no significant changes in our critical accounting policies and estimates, except for changes relating to our adoption of authoritative guidance associated with revenue recognition.

As of January 1, 2018, we adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606) using the modified retrospective method. In addition, we presented the cumulative effect of the changes made to our consolidated balance sheet as of January 1, 2018 and the impact of adopting Topic 606 on our condensed consolidated financial statements.

See Note 3 - Revenues to the condensed consolidated financial statements for our revenue recognition policy as of January 1, 2018.

Results of Operations for the Three Months Ended March 31, 2018

Cloud Services Segment

Assuming a stable or improving economic environment, and subject to our risk factors, we expect the revenue and profits as included in the results of operations below in our Cloud Services segment to be stable for the foreseeable future (excluding the impact of acquisitions). The main focus of our Cloud Services offerings is to reduce or eliminate costs, increase sales and enhance productivity, mobility, business continuity and security of our customers as the technologies and devices they use evolve over time. As a result, we expect to continue to take steps to enhance our existing offerings and offer new services to continue to satisfy the evolving needs of our customers. Through our IP licensing operations, which are included in the Cloud Services segment, we seek to make our IP available for license to third parties, and we expect to continue to attempt to obtain additional IP through a combination of acquisitions and internal development in an effort to increase available licensing opportunities and related revenues.

We expect acquisitions to remain an important component of our strategy and use of capital in this segment; however, we cannot predict whether our current pace of acquisitions will remain the same within this segment. In a given period, we may close greater or fewer acquisitions than in prior periods or acquisitions of greater or lesser significance than in prior periods. Moreover, future acquisitions of businesses within this segment but with different business models may impact the segment's overall profit margins. Also, as IP licensing often involves litigation, the timing of licensing transactions is unpredictable and can and does vary significantly from period to period. This variability can cause the overall segment's financial results to materially vary from period to period.

Digital Media Segment

Assuming a stable or improving economic environment, and subject to our risk factors, we expect the revenue and profits in our Digital Media segment to improve over the next several quarters as we integrate our recent acquisitions and over the longer term as advertising transactions continue to shift from offline to online. The main focus of our advertising programs is to provide relevant and useful advertising to visitors to our websites and those included within our advertising networks, reflecting our commitment to constantly improve their overall web experience. As a result, we expect to continue to take steps to improve the relevance of the ads displayed on our websites and those included within our advertising networks.

The operating margin we realize on revenues generated from ads placed on our websites is significantly higher than the operating margin we realize from revenues generated from those placed on third-party websites. Growth in advertising revenues from our websites has generally exceeded that from third-party websites. This trend has had a positive impact on our operating margins, and we expect that this will continue for the foreseeable future. However, the trend in advertising spend is shifting to mobile devices and other newer advertising formats which generally experience lower margins than those from desktop computers and tablets. We expect this trend to continue to put pressure on our margins.

We expect acquisitions to remain an important component of our strategy and use of capital in this segment; however, we cannot predict whether our current pace of acquisitions will remain the same within this segment. In a given period, we may close greater or fewer acquisitions than in prior periods or acquisitions of greater or lesser significance than in prior periods. Moreover, future acquisitions of businesses within this segment but with different business models may impact the segment's overall profit margins.

-39-

j2 Global Consolidated

We anticipate that the stable revenue trend in our Cloud Services segment combined with the improving revenue and profits in our Digital Media segment will result in overall improved revenue and profits for j2 Global on a consolidated basis, excluding the impact of any future acquisitions which can vary dramatically from period to period.

We expect operating profit as a percentage of revenues to generally decrease in the future primarily due to the fact that revenue with respect to our Digital Media segment (i) is increasing as a percentage of our revenue on a consolidated basis and (ii) has historically operated at a lower operating margin.

Revenues

(in thousands, except percentages)

	Three Months Ended March 31,		Percentage Change
	2018	2017	
Revenues	\$280,623	\$254,669	10%

Our revenues consist of revenues from our Cloud Services segment and from our Digital Media segment. Cloud Services revenues primarily consist of revenues from “fixed” customer subscription revenues and “variable” revenues generated from actual usage of our services. We also generate Cloud Services revenues from IP licensing. Digital Media revenues primarily consist of advertising revenues, fees paid for generating business leads, and licensing and sale of editorial content and trademarks.

Our revenues in 2018 have increased over the comparable three month period of 2017 primarily due to a combination of acquisitions and organic growth within both the Digital Media and Cloud Services segments.

Cost of Revenues

(in thousands, except percentages)

	Three Months Ended March 31,		Percentage Change
	2018	2017	
Cost of revenue	\$48,145	\$40,810	18%
As a percent of revenue	17%	16%	

Cost of revenues is primarily comprised of costs associated with data and voice transmission, numbers, editorial and production costs, network operations, customer service, online processing fees and equipment depreciation. The increase in cost of revenues for the three months ended March 31, 2018 was primarily due to an increase in costs associated with businesses acquired in and subsequent to the first quarter 2017 that resulted in additional editorial and production, network operations, and online processing fees.

Operating Expenses

Sales and Marketing.

(in thousands, except percentages)

	Three Months Ended March 31,		Percentage Change
	2018	2017	

Sales and Marketing	\$86,311	\$77,477	11%
As a percent of revenue	31%	30%	

Our sales and marketing costs consist primarily of internet-based advertising, sales and marketing, personnel costs and other business development-related expenses. Our internet-based advertising relationships consist primarily of fixed cost and performance-based (cost-per-impression, cost-per-click and cost-per-acquisition) advertising relationships with an array of online

-40-

service providers. Advertising cost for the three months ended March 31, 2018 was \$38.5 million (primarily consists of \$25.3 million of third-party advertising costs and \$10.6 million of personnel costs) compared to 2017 of \$31.5 million (primarily consists of \$20.7 million third-party advertising costs and \$10.0 million personnel costs). The increase in sales and marketing expenses for the three months ended March 31, 2018 versus the prior comparable period was primarily due to increased personnel costs and advertising associated with the acquisition of businesses acquired in and subsequent to the first quarter 2017 within the Digital Media segment.

Research, Development and Engineering.

(in thousands, except percentages)

	Three Months Ended March 31,		Percentage Change
	2018	2017	
Research, Development and Engineering	\$12,210	\$11,752	4%
As a percent of revenue	4%	5%	

Our research, development and engineering costs consist primarily of personnel-related expenses. The increase in research, development and engineering costs for the three months ended March 31, 2018 versus the prior comparable period was primarily due to additional personnel costs associated with acquisitions within the Cloud Services and Digital Media segments and additional expenses for professional services.

General and Administrative.

(in thousands, except percentages)

	Three Months Ended March 31,		Percentage Change
	2018	2017	
General and Administrative	\$87,799	\$76,655	15%
As a percent of revenue	31%	30%	

Our general and administrative costs consist primarily of personnel-related expenses, depreciation and amortization, changes in the fair value associated with contingent consideration, share-based compensation expense, bad debt expense, professional fees, severance and insurance costs. The increase in general and administrative expense for the three months ended March 31, 2018 versus the prior comparable period was primarily due to additional amortization of intangible assets, depreciation of fixed assets, personnel costs relating to businesses acquired in and subsequent to the first quarter 2017, severance costs associated with acquisitions, fair value adjustments to contingent consideration and professional fees.

Share-Based Compensation

The following table represents share-based compensation expense included in cost of revenues and operating expenses in the accompanying condensed consolidated statements of income for the three months ended March 31, 2018 and 2017 (in thousands):

	Three Months Ended March 31,	
	2018	2017
Cost of revenues	\$ 121	\$ 117
Operating expenses:		

Sales and marketing	365	378
Research, development and engineering	432	238
General and administrative	5,502	2,881
Total	\$6,420	\$3,614

-41-

Non-Operating Income and Expenses

Interest expense, net. Our interest expense, net is generated primarily from interest expense due to outstanding debt, partially offset by interest income earned on cash, cash equivalents and investments. Interest expense, net was \$15.8 million and \$12.4 million for the three months ended March 31, 2018 and 2017, respectively. Interest expense, net increased over the prior comparable period primarily due to increased interest expense associated with the issuance of the \$650 million 6.0% Senior Notes; partially offset by increased interest income on cash, cash equivalents and investments.

Other expense, net. Our other expense, net is generated primarily from miscellaneous items, gain or losses on currency exchange and gains or losses on investments. Other expense, net was \$4.5 million and \$0.3 million for the three months ended March 31, 2018 and 2017, respectively. Other expense, net increased due to a loss on equity securities of \$3.7 million and increased losses on currency exchange over the prior comparable period.

Income Taxes

Our effective tax rate is based on pre-tax income, statutory tax rates, tax regulations (including those related to transfer pricing) and different tax rates in the various jurisdictions in which we operate. The tax bases of our assets and liabilities reflect our best estimate of the tax benefits and costs we expect to realize. When necessary, we establish valuation allowances to reduce our deferred tax assets to an amount that will more likely than not be realized.

The 2017 Tax Cuts and Jobs Act (“2017 Tax Act”) was enacted on December 22, 2017. The 2017 Tax Act includes a number of changes to the Internal Revenue Code including a one-time transition tax on the mandatory deemed repatriation of cumulative undistributed foreign earnings and a permanent reduction in the U.S. federal statutory income tax rate from 35% to 21%, effective on January 1, 2018. The 2017 Tax Act also created a new requirement that certain income (i.e., Global Intangible Low Taxed Income (“GILTI”)) earned by foreign subsidiaries must be included currently in the gross income of the U.S. shareholder. Consistent with guidance issued by SEC Staff Accounting Bulletin No. 118 (“SAB 118”), the Company recorded provisional estimates for the income tax effects of the 2017 Tax Act in December 2017. In addition, SAB 118 provides for a measurement period of one year from the enactment date to finalize the accounting for effects of the 2017 Tax Act. We continue to analyze the impacts of the 2017 Tax Act and refine calculations.

We record deferred tax assets and liabilities based on the enacted tax rates at which they are expected to reverse in the future. Therefore, any U.S. related deferred taxes were re-measured from 35% down to 21% based on the recorded balances as of December 31, 2017. The analysis included a preliminary assessment on the deductibility of certain amounts for which deferred tax assets may have been recorded. As of December 31, 2017, we recorded an estimated tax benefit of approximately \$33.3 million. As of March 31, 2018, we did not adjust the provisional estimate related to re-measurement of deferred tax balances.

We were required to calculate a one-time transition tax based on its total post-1986 foreign earnings and profits (“E&P”) that it previously deferred from U.S. income taxes. During the year ended December 31, 2017, we recorded a provisional estimate of the transition tax of \$49.2 million payable over an eight year period. As of March 31, 2018, we have not adjusted the provisional estimate of the transition tax.

We were unable to determine a reasonable estimate of the remaining tax liability, if any, under the 2017 Tax Act for its remaining outside basis differences or evaluate how the 2017 Tax Act will affect our existing accounting position to indefinitely reinvest unremitted foreign earnings. Therefore, the Company did not include a provisional amount for this item in its financial statements for fiscal 2017. As of March 31, 2018, we continue to review the amount of tax due, if any, on differences in tax basis and the accounting position related to indefinite reinvestment of foreign

earnings.

We are subject to a territorial tax system under the 2017 Tax Act. We are required to provide for tax on GILTI earned by certain of our foreign subsidiaries. Additionally, we are required to make an accounting policy election to either recognize deferred taxes for temporary basis differences expected to reverse as GILTI in future years or provide for the tax expense related to GILTI in the year the tax is incurred as a period expense. As of March 31, 2018, we continue our evaluation of the effects of the GILTI provisions as guidance and interpretations continue to emerge. Therefore, we have not determined an accounting policy on the GILTI provisions. However, the standard requires that we reflect the impact of the GILTI provisions as a period expense until the accounting policy is finalized. Therefore, we have included the provisional estimate of GILTI related to current-year operations in its estimated annual effective tax rate only and will be updating the impact and accounting policy as the analysis related to the GILTI provisions is completed.

Provision for income taxes amounted to \$7.0 million and \$9.4 million for the three months ended March 31, 2018 and 2017, respectively. Our effective tax rate was 27.1% and 26.7% for the three months ended March 31, 2018 and 2017, respectively.

-42-

The increase in our effective income tax rate for the three months ended March 31, 2018 was primarily attributable to the following:

1. a decrease in tax benefit during 2018 related to revaluing deferred tax assets and liabilities; and
2. an increase in tax expense during 2018 due to tax law changes requiring certain income earned by foreign subsidiaries to be included in the income of the U.S. shareholder; partially offset by
3. a decrease during 2018 from the reduction in the U.S. federal statutory income tax rate from 35% to 21% effective on January 1, 2018.

Significant judgment is required in determining our provision for income taxes and in evaluating our tax positions on a worldwide basis. We believe our tax positions, including intercompany transfer pricing policies, are consistent with the tax laws in the jurisdictions in which we conduct our business. Certain of these tax positions have in the past been, and are currently being, challenged, and this may have a significant impact on our effective tax rate if our tax reserves are insufficient.

Segment Results

Our business segments are based on the organization structure used by management for making operating and investment decisions and for assessing performance. Our reportable business segments are: (i) Cloud Services; and (ii) Digital Media.

We evaluate the performance of our operating segments based on segment revenues, including both external and intersegment net sales, and segment operating income. We account for intersegment sales and transfers based primarily on standard costs with reasonable mark-ups established between the segments. Identifiable assets by segment are those assets used in the respective reportable segment's operations. Corporate assets consist of cash and cash equivalents, deferred income taxes and certain other assets. All significant intersegment amounts are eliminated to arrive at our consolidated financial results.

Cloud Services

The following segment results are presented for the three months ended March 31, 2018 and 2017 (in thousands):

	Three Months Ended March 31, 2018		Three Months Ended March 31, 2017	
External net sales	\$149,485	100.0%	\$141,544	100.0%
Inter-segment net sales	—	—	—	—
Segment net sales	149,485	100.0	141,544	100.0
Cost of revenues	31,001	20.7	29,097	20.6
Gross profit	118,484	79.3	112,447	79.4
Operating expenses	61,593	41.2	56,147	39.7
Segment operating income	\$56,891	38.1 %	\$56,300	39.8 %

Segment net sales of \$149.5 million for the three months ended March 31, 2018 increased \$7.9 million, or 5.6%, from the prior comparable period due to business acquisitions.

Segment gross profit of \$118.5 million for the three months ended March 31, 2018 increased \$6.0 million, or 5.4%, from the prior comparable period primarily due to business acquisitions.

Segment operating expenses of \$61.6 million for the three months ended March 31, 2018 increased \$5.4 million, or 9.7%, from the prior comparable period primarily due to (a) additional expense associated with businesses acquired in and subsequent to the prior comparable period (b) increased bad debt expense; and (c) an allocation of certain shared Corporate operating costs. As a result of these factors, segment operating income of \$56.9 million for the three months

ended March 31, 2018 increased \$0.6 million, or 1.0%, from the prior comparable period. Our Cloud Services segment consists of several services which have similar economic characteristics, including the nature of the services and their production processes, the type of customers, as well as the methods used to distribute these services.

-43-

Digital Media

The following segment results are presented for the three months ended March 31, 2018 and 2017 (in thousands):

	Three Months Ended March 31, 2018		Three Months Ended March 31, 2017	
External net sales	\$131,137	100.0 %	\$113,125	100.0 %
Inter-segment net sales	24	— %	6	—
Segment net sales	131,161	100.0	113,131	100.0
Cost of revenues	17,144	13.1	11,713	10.4
Gross profit	114,017	86.9	101,418	89.6
Operating expenses	117,438	89.5	104,920	92.7
Segment operating (loss) income	\$(3,421)	(2.6)%	\$(3,502)	(3.1)%

Segment net sales of \$131.2 million for the three months ended March 31, 2018 increased \$18.0 million, or 15.9%, from the prior comparable period primarily due to business acquisitions.

Segment gross profit of \$114.0 million for the three months ended March 31, 2018 increased \$12.6 million, or 12.4%, from the prior comparable period primarily due to business acquisitions.

Segment operating expenses of \$117.4 million for the three months ended March 31, 2018 increased \$12.5 million, or 11.9%, from the prior comparable period primarily due to (a) additional expense associated with businesses acquired in and subsequent to the prior comparable period comprised primarily of salary and related costs, marketing costs, changes in fair value of contingent consideration and amortization of intangible assets; and (b) an allocation of certain shared Corporate operating costs. As a result of these factors, segment operating (loss) income of \$(3.4) million for the three months ended March 31, 2018 decreased \$0.1 million, or 2.3%, from the prior comparable period.

Liquidity and Capital Resources

Cash and Cash Equivalents and Investments

At March 31, 2018, we had cash and investments of \$396.3 million compared to \$408.7 million at December 31, 2017. The decrease in cash and investments resulted primarily from business acquisitions, dividends and interest paid, and purchases of property and equipment, partially offset by cash from operations. At March 31, 2018, cash and investments consisted of cash and cash equivalents of \$331.4 million. We retain a substantial portion of our cash and investments in foreign jurisdictions for future reinvestment. As of March 31, 2018, cash and investments held within domestic and foreign jurisdictions were \$146.1 million and \$250.2 million, respectively. If we were to repatriate funds held within foreign jurisdictions, we would incur U.S. income tax on the repatriated amount at the federal statutory rate of 35% and the state statutory rate where applicable, net of a credit for foreign taxes paid on such amounts.

On February 2, 2018, the Company's Board of Directors approved a quarterly cash dividend of \$0.4050 per share of common stock payable on March 9, 2018 to all stockholders of record as of the close of business on February 22, 2018. On May 3, 2018, the Company's Board of Directors approved a quarterly cash dividend of \$0.4150 per share of j2 Global common stock payable on June 1, 2018 to all stockholders of record as of the close of business on May 18, 2018. Future dividends are subject to Board approval.

On September 25, 2017, the Board of Directors of the Company authorized the Company's entry into a commitment to invest \$200 million in an investment fund (the "Fund") over several years at a fairly ratable rate. The manager, OCV Management, LLC ("OCV"), and general partner of the Fund are entities with respect to which Richard S. Ressler, Chairman of the Board of Directors (the "Board") of the Company, is indirectly the majority equity holder. As a limited partner in the Fund, the Company will pay an annual management fee to the manager equal to 2.0% (reduced by 10% each year beginning with the sixth year) of capital commitments. In addition, subject to the terms and conditions of the Fund's limited partnership agreement, once the Company has received distributions equal to its invested capital, the Fund's general partner will be entitled to a carried interest equal to 20%. The Fund has a six year investment period,

subject to certain exceptions. The commitment was approved by the Audit Committee of the Board in accordance with the Company's related-party transaction approval policy.

During the first quarter 2018, the Company received capital call notices from the management of OCV for approximately \$13.4 million, inclusive of certain management fees.

We currently anticipate that our existing cash and cash equivalents and cash generated from operations will be sufficient to meet our anticipated needs for working capital, capital expenditure, stock repurchases and cash dividends for at least the next 12 months.

Cash Flows

Our primary sources of liquidity are cash flows generated from operations, together with cash and cash equivalents. Net cash provided by operating activities was \$103.9 million and \$51.2 million for the three months ended March 31, 2018 and 2017, respectively. Our operating cash flows resulted primarily from cash received from our customers offset by cash payments we made to third parties for their services, employee compensation and interest payments associated with our debt. The increase in our net cash provided by operating activities in 2018 compared to 2017 was primarily attributable to a decrease in accounts receivable and increased depreciation and amortization; partially offset by a decrease in accounts payable and accrued expenses. Our cash, cash equivalents and restricted cash were \$331.8 million and \$350.9 million at March 31, 2018 and December 31, 2017, respectively.

Net cash used in investing activities was \$(107.0) million and \$(13.4) million for the three months ended March 31, 2018 and 2017, respectively. For the three months ended March 31, 2018, net cash used in investing activities was primarily attributable to business acquisitions, purchase of investments, and capital expenditures associated with the purchase of property and equipment. For the three months ended March 31, 2017, net cash used in investing activities was primarily attributable to capital expenditures associated with the purchase of property and equipment, business acquisitions and the purchase of intangible assets. The increase in our net cash used in investing activities in 2018 compared to 2017 was primarily due to additional business acquisitions.

Net cash (used in) provided by financing activities was \$(20.1) million and \$25.5 million for the three months ended March 31, 2018 and 2017, respectively. For the three months ended March 31, 2018, net cash used in financing activities was primarily attributable to dividends paid, repurchases of stock and business acquisitions. For the three months ended March 31, 2017, net cash provided by financing activities was primarily attributable to proceeds from a line of credit and exercise of stock options; partially offset by dividends paid, business acquisitions, and repurchases of stock. The change in net cash used in financing activities in 2018 compared to 2017 was primarily attributable to the proceeds from the line of credit in the prior comparable period.

Stock Repurchase Program

In February 2012, the Company's Board of Directors approved a program authorizing the repurchase of up to five million shares of our common stock through February 20, 2013 (the "2012 Program") which was subsequently extended through February 19, 2019. During the three month period ended March 31, 2018, we repurchased zero shares under this program. Cumulatively at March 31, 2018, 2.1 million shares were repurchased at an aggregate cost of \$58.6 million (including an immaterial amount of commission fees).

Contractual Obligations and Commitments

The following table summarizes our contractual obligations and commitments as of March 31, 2018:

Contractual Obligations	Payments Due in						Total
	(in thousands)						
	2018	2019	2020	2021	2022	Thereafter	
Long-term debt - principal (a)	\$—	\$—	\$—	\$402,500	\$—	\$650,000	\$1,052,500
Long-term debt - interest (b)	32,581	52,081	52,081	45,541	39,000	117,000	338,284
Operating leases (c)	15,043	18,342	14,489	12,810	11,908	13,317	85,909
Capital leases (d)	230	299	185	101	—	—	815
Telecom services and co-location facilities (e)	3,128	2,488	1,535	625	230	—	8,006
Holdback payment (f)	2,652	750	750	—	—	—	4,152
Transition Tax (g)	3,807	3,807	3,807	3,807	3,807	28,553	47,588
Self-Insurance (h)	8,739	767	—	—	—	—	9,506
Other (i)	1,414	1,363	662	614	598	—	4,651
Total	\$67,594	\$79,897	\$73,509	\$465,998	\$55,543	\$808,870	\$1,551,411

(a) These amounts represent principal on long-term debt.

(b) These amounts represent interest on long-term debt.

(c) These amounts represent undiscounted future minimum rental commitments under noncancellable operating leases.

(d) These amounts represent undiscounted future minimum rental commitments under noncancellable capital leases.

(e) These amounts represent service commitments to various telecommunication providers.

(f) These amounts represent the holdback amounts in connection with certain business acquisitions.

(g) These amounts represent commitments related to the transition tax on unrepatriated foreign earnings.

(h) These amounts represent health and dental insurance plans in connection to self-insurance.

(i) These amounts represent certain consulting and Board of Directors fee arrangements, software license commitments and others.

As of March 31, 2018, our liability for uncertain tax positions was \$53.3 million. The future payments related to uncertain tax positions have not been presented in the table above due to the uncertainty of the amounts and timing of cash settlement with such authorities.

We have not presented contingent consideration associated with acquisitions in the table above due to the uncertainty of the amounts and the timing of cash settlements.

Off-Balance Sheet Arrangements

We are not party to any material off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The following discussion of the market risks we face contains forward-looking statements. Forward-looking statements are subject to risks and uncertainties. Actual results could differ materially from those discussed in forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. j2 Global undertakes no obligation to revise or publicly release the results of any revision to these forward-looking statements. Readers should carefully review the risk factors described in this document and in the other documents incorporated by reference herein, including our Annual Report on Form 10-K for the year ended December 31, 2017 as well as in other documents we file from time to time with the SEC, including the Quarterly Reports on Form 10-Q and any Current Reports on Form 8-K filed or to be filed by us in 2018.

Interest Rate Risk

Our exposure to market risk for changes in interest rates relates primarily to our investment portfolio. The primary objectives of our investment activities are to preserve our principal while at the same time maximizing yields without significantly increasing risk. To achieve these objectives, we maintain our portfolio of cash equivalents and investments in a mix of instruments that meet high credit quality standards, as specified in our investment policy. Our cash and cash equivalents are not subject to significant interest rate risk due to the short maturities of these instruments. As of March 31, 2018, the carrying value of our cash and cash equivalents approximated fair value. Our return on these investments is subject to interest rate fluctuations.

As of March 31, 2018, we had investments in debt securities with effective maturities greater than one year of approximately \$20.2 million. As of March 31, 2018 and December 31, 2017, we had cash and cash equivalent investments primarily in time deposits and money market funds with maturities of 90 days or less of \$331.4 million and \$350.9 million, respectively.

We cannot ensure that future interest rate movements will not have a material adverse effect on our future business, prospects, financial condition, operating results and cash flows. To date, we have not entered into interest rate hedging transactions to control or minimize certain of these risks.

Foreign Currency Risk

We conduct business in certain foreign markets, primarily in Canada, Australia and the European Union. Our principal exposure to foreign currency risk relates to investment and inter-company debt in foreign subsidiaries that transact business in functional currencies other than the U.S. Dollar, primarily the Australian Dollar, the Canadian Dollar, the Euro, the Hong Kong Dollar, the Japanese Yen, the New Zealand Dollar, the Norwegian Kroner and the British Pound Sterling. If we are unable to settle our short-term inter-company debts in a timely manner, we remain exposed to foreign currency fluctuations.

As we expand our international presence, we become further exposed to foreign currency risk by entering new markets with additional foreign currencies. The economic impact of currency exchange rate movements is often linked to variability in real growth, inflation, interest rates, governmental actions and other factors. These changes, if material, could cause us to adjust our financing and operating strategies.

As currency exchange rates change, translation of the income statements of the international businesses into U.S. Dollars affects year-over-year comparability of operating results, the impact of which is immaterial to the comparisons set forth in this Quarterly Report on Form 10-Q.

Historically, we have not hedged translation risks because cash flows from international operations were generally reinvested locally; however, we may do so in the future. Our objective in managing foreign exchange risk is to minimize the potential exposure to changes that exchange rates might have on earnings, cash flows and financial position.

Foreign exchange losses for the three months ended March 31, 2018 and 2017 were \$1.8 million and \$0.3 million, respectively. The increase in losses to our earnings in the current period were attributable to increased inter-company debt between periods in foreign subsidiaries that were in functional currencies other than the U.S. Dollar.

Cumulative translation adjustments, net of tax, included in other comprehensive income for the three months ended March 31, 2018 and 2017 were \$6.3 million and \$3.6 million, respectively.

We currently do not have derivative financial instruments for hedging, speculative or trading purposes and therefore are not subject to such hedging risk. However, we may in the future engage in hedging transactions to manage our exposure to fluctuations in foreign currency exchange rates.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to ensure that information required to be disclosed in the Company’s reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including the principal executive officer and the principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, j2 Global’s management, with the participation of Vivek Shah, our principal executive officer, and R. Scott Turicchi, our principal financial officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, Mr. Shah and Mr. Turicchi concluded that these disclosure controls and procedures were effective as of the end of the period covered in this Quarterly Report on Form 10-Q.

(b) Changes in Internal Controls

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) which occurred during the first quarter ended March 31, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

See Note 9 – Commitments and Contingencies of the Notes to Financial Statements (Part I, Item 1) for information regarding certain legal proceedings in which we are involved.

Item 1A. Risk Factors

In addition to the other information set forth in this report, before deciding to invest in j2 Global or to maintain or increase your investment, you should carefully consider the factors discussed in Part I, Item 1A “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017 (the “10-K Risk Factors”) as well as in other documents we file from time to time with the SEC, including the Quarterly Reports on Form 10-Q and any Current Reports on Form 8-K filed or to be filed by us in 2018. If any of these risks occur, our business, prospects, financial condition, operating results and cash flows could be materially adversely affected. The 10-K Risk Factors are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business operations. There have been no material changes from the 10-K Risk Factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) Unregistered Sales of Equity Securities

None.

(b) Issuer Purchases of Equity Securities

Effective February 15, 2012, the Company’s Board of Directors approved a program authorizing the repurchase of up to five million shares of our common stock through February 20, 2013 (the “2012 Program”) which was subsequently extended through February 19, 2019. In July 2016, the Company acquired and subsequently retired 935,231 shares of j2 Global common stock in connection with the acquisition of Integrated Global Concepts, Inc. As a result of the purchase of j2 Global common stock, the Company’s Board of Directors approved a reduction in the number of shares available for purchase under the 2012 Program by the same amount leaving 1,938,689 shares of j2 Global common stock available for purchase under this program. During the three month period ended March 31, 2018, we repurchased zero shares under this program. Cumulatively at March 31, 2018, 2.1 million shares were repurchased at an aggregate cost of \$58.6 million (including an immaterial amount of commission fees).

The following table details the repurchases that were made under and outside the 2012 Program during the three months ended March 31, 2018:

Period	Total Number of Shares Purchased ⁽¹⁾	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Program	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Program

Edgar Filing: SIMPSON MANUFACTURING CO INC /CA/ - Form 8-K

January 1, 2018 - January 31, 2018	—	\$ —	—	1,938,689
February 1, 2018 - February 28, 2018	3,801	\$ 72.81	—	1,938,689
March 1, 2018 - March 31, 2018	4,141	\$ 80.75	—	1,938,689
Total	7,942		—	1,938,689

(1) All shares purchased were surrendered to the Company to pay the exercise price and/or to satisfy tax withholding obligations in connection with employee stock options and/or the vesting of restricted stock issued to employees.

-49-

Item 3.Defaults Upon Senior Securities

None.

Item 4.Mine Safety Disclosures

Not Applicable.

Item 5.Other Information

None.

Item 6.Exhibits

31.1 Rule 13a-14(a) Certification of Principal Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Rule 13a-14(a) Certification of Principal Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Section 1350 Certification of Principal Executive Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Section 1350 Certification of Principal Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
