Benefits Committee

Apartment Investment and Management Company

We have audited the accompanying statements of net assets available for benefits of Aimco 401(k) Retirement Plan as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Aimco 401(k) Retirement Plan at December 31, 2013 and 2012, and the changes in its net assets available for benefits for the year ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2013, and delinquent participant contributions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Aimco 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2013

1. Description of the Plan

The following description of the Aimco 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan’s provisions.

The Plan is a defined contribution plan covering all employees of Apartment Investment and Management Company (the “Company” or “Aimco”) who have completed 30 days of service and are age 18 or older, except Puerto Rico employees, who are not eligible to participate in the Plan, and certain employees covered by collective bargaining agreements who are not eligible to participate in the Plan, unless such collective bargaining agreement provides for the inclusion of such employees as participants in the Plan. The Plan is administered by Fidelity Investments Retirement Services Company and trustee by the Fidelity Management Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Each year, participants may contribute to the Plan, on a pretax basis, up to 50% of their eligible compensation, or \$17,500 (for 2013), whichever is less. Participants who have attained age 50 before the end of the Plan year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit and defined contribution plans (rollovers). The Company did not provide employer matching contributions during the Plan years ended December 31, 2013 and 2012. The Company reinstated employer matching contributions effective February 1, 2014. The Company will make matching contributions in the following manner: (1) a 25% match on participant contributions to the extent of the first 4% of the participant’s eligible compensation; and (2) an additional lump sum contribution to Plan participants at year-end if the Company outperforms on its 2014 corporate goals, or Key Performance Indicators (“KPI”) (outperformance will consist of achievement of 105% or greater on 2014 KPI). The Company’s employer matching contributions will vest fully after an employee completes three years of service.

Participants direct their contributions and any allocated employer matching contributions into the various investment options offered by the Plan and can change their investment options on a daily basis.

Each participant’s account is credited with the participant’s contributions, Company matching contributions, if any, and allocations of plan earnings and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant’s share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant’s account balances, as defined. The benefit to which a participant is entitled is their vested account balance at the time of distribution.

Participants are immediately vested in their voluntary contributions plus actual earnings and losses thereon. Certain of the Company’s historical matching contributions vested immediately and those that did not vested fully after three years of service.

Participants may borrow funds from their own account. Loans are permitted in amounts not to exceed the lesser of \$50,000 reduced by the highest outstanding loan balance for the preceding year or 50% of the value of the vested interest in the participant’s account. Three loans may be outstanding at any time; however, only one new loan is permitted during any 12-month period.

On termination of service or upon death, disability or retirement, a participant (or the participant’s beneficiary) may elect to receive a distribution equal to the vested value of his or her account, which will be paid out as soon as administratively possible. In-service withdrawals are available in certain limited circumstances, as defined by the Plan.

Although the Company has not expressed any intent to do so, it has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant will become fully vested and will receive a total distribution of his or her account.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are presented on the accrual basis of accounting. Benefits to participants are recorded when paid.

Investments

Investments other than the Plan's investment in the Fidelity Management Trust Company Managed Income Portfolio Fund (the "Fidelity MIP Fund") are valued at fair value. The Fidelity MIP Fund is a common/collective trust that invests in fully benefit-responsive investment contracts. As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 962, Plan Accounting-Defined Contribution Pension Plans, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the investments in the Fidelity MIP Fund at fair value within the investment balances, and then include an adjustment to reconcile the fair value of such investments to their contract value for purposes of reporting net assets available for benefits. The fair value of the Plan's interest in the Fidelity MIP Fund is based on information about the fund's net asset value reported by Fidelity Management Trust Company. The contract value of the Fidelity MIP Fund represents contributions plus earnings, less participant withdrawals and administrative expenses. See Note 3 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans, all of which are secured by vested account balances of borrowing participants, and are recorded at their outstanding principal balances plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants as of December 31, 2013 and 2012, represent contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") for the plan years ended December 31, 2013 and 2012, adjusted by the investment earnings or losses related to these excess contributions. These amounts have been recorded as a liability with a corresponding reduction to contributions and net appreciation/depreciation in fair value of investments. The Plan distributed the excess contributions and related investment income to the applicable participants for each of the plan years ended December 31, 2013 and 2012, prior to the annual March 15th deadline to avoid any penalties.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. The Plan's exposure to credit loss in the event of nonperformance of investments is limited to the carrying value of such instruments. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates that affect the amounts reported in the financial statements, accompanying notes, and supplemental schedule. Actual results could differ from those estimates.

Income Tax Status

The underlying volume submitter plan has received an advisory letter from the IRS dated March 31, 2008, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the "Code") and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and

therefore believes the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination

6

by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Plan Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Any administrative expenses not paid by the Plan will be paid by the Company, which has historically paid a portion of the expenses necessary to administer the Plan through forfeited or unclaimed balances of terminated participants' accounts and paid the remainder of the expenses directly. During the year ended December 31, 2013, unclaimed balances of terminated participants' accounts totaling \$1,550 were used to pay administrative expenses. At December 31, 2013 and 2012, there were \$105,062 and \$106,004, respectively, of forfeited and unclaimed balances of terminated participants' accounts available to pay future administrative expenses. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

Party-in-Interest Transactions

Certain Plan investments in mutual funds and a common collective trust are managed by Fidelity Management Trust Company. Fidelity Management Trust Company also serves as the trustee of the Plan and, therefore, Plan transactions involving these mutual funds and the common/collective trust qualify as party-in-interest transactions under ERISA and the Code. Additionally, a portion of the Plan's assets are invested in Aimco common stock. Because Aimco is the Plan sponsor, Plan transactions involving Aimco common stock qualify as party-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules under ERISA.

3. Fair Value Measurements

In accordance with GAAP, the Plan measures investments at fair value. Investments measured at fair value on a recurring basis consisted of the following classes of investments as of December 31:

	2013	2012
Level 1:		
Aimco common stock	\$2,671,384	\$3,013,690
Interest-bearing cash held by Aimco Stock Fund	1,023	1,087
Mutual funds:		
Blended investments	17,464,242	15,252,230
Fixed income	5,553,689	6,947,841
Money market	4,363,293	4,749,152
Stock investments:		
Large cap	25,362,087	20,860,365
Mid cap	4,122,267	3,490,864
Small cap	6,696,020	5,220,907
International	4,385,652	3,958,411
Specialty (real estate)	1,989,826	2,448,331
Total Level 1	72,609,483	65,942,878
Level 2:		
Managed income fund (a)	4,634,332	5,331,279
Total investments	\$77,243,815	\$71,274,157

The Fidelity MIP Fund is a common/collective trust fund designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and (a) synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. Investments in the common/collective trust fund are recorded at fair value.

The valuation methodologies used to measure the fair values of common stock and mutual funds use a market approach with quoted market prices from active markets, which are classified within Level 1 of the fair value hierarchy defined by GAAP. The fair value of the common/collective trust fund has been estimated based on the fund's net asset value provided by Fidelity Management Trust Company, which is based on the fair value of the underlying investment contracts in the fund. The fair value of the common/collective trust fund was determined based on valuation techniques that use observable inputs classified within Level 1 and Level 2 of the fair value hierarchy. The Plan has classified the common/collective trust fund within Level 2 of the fair value hierarchy based on the significance of the Level 2 inputs to the valuation.

4. Investments

The Plan's investments are held in trust by Fidelity Management Trust Company, the trustee of the Plan. The Plan's investments in the various funds (including investments bought, sold, and held during the year) appreciated in fair value for the year ended December 31, 2013, as presented in the following table:

	Net Realized and Unrealized Appreciation (Depreciation) in Fair Value During the Year
Investments in mutual funds	\$10,869,104
Investments in common stock	(108,474)
Net realized and unrealized appreciation	\$10,760,630

The Aimco Stock Fund is valued on a unitized basis and holds Aimco common stock and cash. Unitization of the fund allows for daily trades and the value of a unit reflects the combined value of the Aimco common stock and cash investments held by the fund. At December 31, 2013 and 2012, this fund held 103,102 shares and 111,371 shares of Aimco common stock with a market value of approximately \$2.7 million and \$3.0 million, respectively.

The fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31, 2013	2012
Fidelity Investment Mutual Funds:		
Growth Company Fund	\$9,781,242	\$7,944,952
Low-Priced Stock Fund	4,122,267	*
Disciplined Equity Fund	—	6,011,573
Diversified International Fund	—	3,740,212
Fidelity Freedom 2020 Fund	4,992,719	*
Fidelity Freedom 2030 Fund	6,049,799	4,243,086
Fidelity Freedom 2040 Fund	4,160,825	*
Money Market Trust Retirement Money Market Portfolio	4,363,293	4,749,152
Spartan U.S. Equity Index Fund	10,452,938	*
Other investment funds:		
Pacific Investment Management Company Total Return Fund - Administrative Class	—	4,769,400
Pacific Investment Management Company Total Return Fund - Institutional Class	3,999,492	*
Harbor International Fund	4,085,845	—
Dodge and Cox Fund	5,127,907	—
Vanguard Explorer Fund	4,972,026	*
BlackRock Large Cap Value Fund - Institutional Class	—	4,002,740
Fidelity Management Trust Company Common/Collective Trust Fund:		
Managed Income Portfolio Fund (1)	4,634,332	5,331,279

* Investment less than 5%.

(1) At December 31, 2013 and 2012, the contract value of the Plan's investments in the common/collective trust fund was \$4,564,478 and \$5,178,712, respectively.

5. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to net assets per the Plan's Form 5500:

	December 31,	
	2013	2012
Net assets available for benefits per the financial statements	\$78,320,909	\$72,402,295
Plus: Excess contributions payable	292,570	294,551
Plus: Adjustment from contract value to fair value for fully benefit-responsive investment contracts	69,854	152,567
Net assets per the Form 5500	\$78,683,333	\$72,849,413

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to net income per the Plan's Form 5500:

	December 31,
	2013
Net increase in net assets available for benefits per the financial statements	\$5,918,614
Less: Decrease in excess contributions payable	(1,981)
Less: Net change in contract value to fair value adjustment for fully benefit-responsive investment contracts	(82,713)
Net income per the Form 5500	\$5,833,920

Refunds of excess contributions are reflected in the Form 5500 as benefit payments when paid to participants and have been recorded as a liability with a corresponding reduction to contributions and net appreciation/depreciation in fair value of investments as described in Note 2. The accompanying financial statements present fully benefit-responsive investment contracts held in a common/collective trust at contract value. The Form 5500 requires fully benefit-responsive investment contracts held in a common/collective trust to be recorded at fair value. Therefore, the adjustment from fair value to contract value for fully benefit-responsive investment contracts held in a common/collective trust represents a reconciling item.
