PROVIDENT FINANCIAL HOLDINGS, INC.
REPORTS FIRST QUARTER EARNINGS

Edgar Filing: PROVIDENT FINANCIAL HOLDINGS INC - Form 8-K

Preferred Loans Increase to 36% of Loans Held for Investment

Gain on Sale of Real Estate Contributes Approximately \$0.20 Per Diluted Share

Riverside, Calif. - October 23, 2006 - Provident Financial Holdings, Inc. ("Company"), NASDAQ GSM: PROV, the holding company for Provident Savings Bank, F.S.B. ("Bank"), today announced first quarter earnings for the fiscal year ending June 30, 2007.

For the quarter ended September 30, 2006, the Company reported net income of \$5.26 million, or \$0.77 per diluted share (on 6.79 million weighted-average shares outstanding), compared to net income of \$4.93 million, or \$0.71 per diluted share (on 6.93 million weighted-average shares outstanding), in the comparable period a year ago. The decrease in weighted-average shares outstanding primarily reflects the activity in the Company's stock repurchase program.

"Our community banking business continues to grow primarily through preferred loans but has been adversely affected by very aggressive deposit pricing," said Craig G. Blunden, Chairman, President and Chief Executive Officer of the Company. "Our mortgage banking business has improved compared to the third and fourth quarters of fiscal 2006 in terms of loan sale margin although the environment remains highly competitive."

Page 1 of 14

<PAGE>

Return on average assets for the first quarter of fiscal 2007 was 1.28 percent, compared to 1.22 percent for the same period of fiscal 2006. Return on average stockholders' equity for the first quarter of fiscal 2007 was 15.25 percent, compared to 15.80 percent for the comparable period of fiscal 2006.

On a sequential quarter basis, net income for the first quarter of fiscal 2007 increased by \$1.44 million to \$5.26 million, or 38 percent, from \$3.82 million in the fourth quarter of fiscal 2006; and diluted earnings per share increased \$0.21 to \$0.77, or 38 percent, from \$0.56 in the fourth quarter of fiscal 2006. Return on average assets increased 32 basis points to 1.28 percent for the first quarter of fiscal 2007 from 0.96 percent in the fourth quarter of fiscal 2006 and return on average equity increased 405 basis points to 15.25 percent for the first quarter of fiscal 2007 from 11.20 percent in the fourth quarter of fiscal 2006.

Net interest income before provision for loan losses decreased by \$214,000, or two percent, to \$10.76 million in the first quarter of fiscal 2007 from \$10.97 million for the same period in fiscal 2006. Non-interest income increased \$1.44 million, or 24 percent, to \$7.39 million in the first quarter of fiscal 2007 from \$5.95 million in the comparable period of fiscal 2006. Non-interest expense increased \$81,000, or one percent, to \$8.23 million in the first quarter of fiscal 2007 from \$8.15 million in the comparable period in fiscal 2006.

The average balance of loans outstanding increased by \$84.4 million to \$1.38 billion in the first quarter of fiscal 2007 from \$1.30 billion in the same quarter of fiscal 2006, and the average yield increased by 48 basis points to 6.34 percent in the first quarter of fiscal 2007 from an average yield of 5.86 percent in the same quarter of fiscal

Page 2 of 14

<PAGE>

2006. The increase in the average loan yield was primarily attributable to higher interest rates on newly originated loans and the repricing of existing adjustable rate loans in the loans held for investment portfolio. Total loans originated for investment (including loans purchased for investment of \$35.5 million) in the first quarter of fiscal 2007 were \$110.1 million, which consisted primarily of single-family, multi-family, commercial real estate and construction loans. This compares to total loans originated for investment (including loans purchased for investment of \$3.2 million) of \$166.1 million in the first quarter of fiscal 2006. The outstanding balance of "preferred loans" (multi-family, commercial real estate, construction and commercial business loans) increased by \$157.3 million, or 49 percent, to \$479.3 million at September 30, 2006 from \$322.0 million at September 30, 2005. The ratio of preferred loans to total loans held for investment increased to 36 percent at September 30, 2006 compared to 28 percent at September 30, 2005. Loan prepayments in the first quarter of fiscal 2007 were \$78.4 million, compared to \$143.8 million in the same quarter of fiscal 2006.

Average deposits decreased by \$25.0 million to \$911.9 million and the average cost of deposits increased by 85 basis points to 2.96 percent in the first quarter of fiscal 2007, compared to an average balance of \$936.9 million and an average cost of 2.11 percent in the same quarter last year. Transaction account balances (core deposits) decreased by \$100.6 million, or 21 percent, to \$374.0 million at September 30, 2006 from \$474.6 million at September 30, 2005. The decrease is primarily attributable to a \$74.9 million, or 31 percent, decline in savings account balances. Time deposits increased by \$52.5 million, or 11 percent, to \$541.0 million at September 30, 2006 as compared to \$488.5 million at September 30, 2005. The increase in time deposits is primarily

Page 3 of 14

<PAGE>

attributable to the Company's time deposit marketing campaigns and depositors switching from savings deposits to time deposits.

The average balance of borrowings, which primarily consists of Federal Home Loan Bank of San Francisco advances, increased \$43.7 million to \$570.0 million and the average cost of advances increased 57 basis points to 4.61 percent in the first quarter of fiscal 2007, compared to an average balance of \$526.3 million and an average cost of 4.04 percent in the same quarter of fiscal 2006. The increase in the average cost of borrowings was primarily the result of higher interest rates on short-term advances.

The net interest margin during the first quarter of fiscal 2007 decreased 12 basis points to 2.68 percent from 2.80 percent during the same quarter last year. On a sequential quarter basis, the net interest margin in the first quarter of fiscal 2007 decreased 14 basis points from 2.82 percent in the fourth quarter of fiscal 2006.

During the first quarter of fiscal 2007, the Company recorded a loan loss provision of \$637,000, compared to \$65,000 during the same period of fiscal 2006. The provision was primarily attributable to an increase in loans held for investment, partly offset by a decrease in classified assets. Total classified assets (including assets designated as special mention) improved by \$602,000 to \$8.7 million at September 30, 2006 from \$9.3 million at June 30, 2006. Loans held for investment increased \$43.1 million (primarily in preferred loans) to \$1.31 billion at September 30, 2006 from \$1.26 billion at June 30, 2006. The allowance for loan losses is considered sufficient by management to absorb potential losses inherent in loans held for investment.

Non-performing assets increased to \$4.43 million, or 0.26 percent of total assets, at September 30, 2006, compared to \$1.81 million, or 0.11 percent of total assets, at

Page 4 of 14

<PAGE>

September 30, 2005. The increase in non-performing assets was primarily attributable to five single-family loans (\$1.99 million) placed on non-accrual status during the quarter ended September 30, 2006, three single-family loans (\$351,000) repurchased from investors during the quarter and one foreclosure (\$414,000) during the quarter.

The allowance for loan losses was \$10.8 million at September 30, 2006, or 0.82 percent of gross loans held for investment, compared to \$9.3 million, or 0.82 percent of gross loans held for investment at September 30, 2005.

The increase in non-interest income in the first quarter of fiscal 2007 compared to the same period of fiscal 2006 was primarily the result of the gain on sale of real estate, partly offset by a decrease in the gain on sale of loans. The gain on sale of real estate of \$2.31 million (approximately \$1.34 million, net of statutory taxes) resulted from the sale of approximately six acres of land located in Riverside, California (previously announced on July 31, 2006). The gain on sale of loans decreased \$901,000, or 21 percent, to \$3.49 million for the quarter ended September 30, 2006 from \$4.39 million in the comparable quarter last year. The average loan sale margin for mortgage banking was 111 basis points for the quarter ended September 30, 2006, down 12 basis points from 123 basis points in the comparable quarter last year. The decrease in the loan sale margin was primarily attributable to the more competitive mortgage banking environment.

On a sequential quarter basis, the average loan sale margin for mortgage banking in the first quarter of fiscal 2007 increased by 16 basis points to 111 basis points from 95 basis points in the prior quarter.

The volume of loans originated for sale decreased to \$319.5 million in the first quarter of fiscal 2007 from \$389.3 million during the same period last year. Total loan

Page 5 of 14

<PAGE>

originations (including loans originated for investment, loans purchased for investment and loans originated for sale) were \$429.7 million in the first quarter of fiscal 2007, a decrease of \$125.7 million from \$555.4 million in the same quarter of fiscal 2006. The decline in loan originations was primarily attributable to lower loan demand resulting from a general rise in interest rates, a decline in real estate sales and a more competitive environment.

In the first quarter of fiscal 2007, the fair-value adjustment of derivative financial instruments pursuant to Statement of Financial Accounting Standards ("SFAS") No. 133 on the Consolidated Statements of Operations was a gain of \$319,000, unchanged from the gain in the same period last year. The fair-value adjustment for SFAS No. 133 is derived from changes in the market value of commitments to extend credit on loans to be held for sale, forward loan sale agreements and option contracts. The SFAS No. 133 adjustment is relatively volatile and results in timing differences in the recognition of income, which may have an adverse impact on future earnings.

The increase in non-interest expense was primarily the result of an increase in compensation expense, the result of lower deferred compensation attributable to the application of SFAS No. 91. On July 1, 2006 the Bank lowered the SFAS No. 91 deferred compensation allocated to each loan originated after completing the annual review and analysis of SFAS No. 91. Additionally, fewer loans were originated during the first quarter of fiscal 2007 in comparison to the same quarter last year, which also reduced deferred compensation. The increase in compensation expense was partly offset by a decrease in professional expenses.

Page 6 of 14

<PAGE>

The Company's efficiency ratio improved to 45 percent in the first quarter of fiscal 2007 from 48 percent in the first quarter of fiscal 2006.

The effective income tax rate for the first quarter of fiscal 2007 remained unchanged at 43.3 percent, as compared to the same quarter last year. The Company believes that the effective income tax rate applied in the first quarter of fiscal 2007 reflects its current income tax obligations.

The Company repurchased 111,185 shares of its common stock during the quarter ended September 30, 2006 at an average cost of \$30.35 per share. As of September 30, 2006, the Company has repurchased 37 percent of the shares authorized by the May 2006 Stock Repurchase Program, leaving 220,044 shares available for future repurchase activity.

The Bank currently operates 12 retail/business banking offices in Riverside County and San Bernardino County (Inland Empire) along with 14 Provident Bank Mortgage ("PBM") loan production offices located throughout Southern California and one PBM loan production office located in Northern California.

The Company will host a conference call for institutional investors and bank analysts on Tuesday, October 24, 2006 at 9:00 a.m. (Pacific Time) to discuss its financial results. The conference call can be accessed by dialing (800) 288-8967 and requesting the Provident Financial Holdings Earnings Release Conference Call. An audio replay of the conference call will be available through Tuesday, October 31, 2006 by dialing (800) 475-6701 and referencing access code number 844111.

Safe-Harbor Statement

Certain matters in this News Release and the conference call noted above may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to, among others, expectations of the business environment in which the Company operates, projections of future performance, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. The Company's actual results, performance, or achievements may differ materially from those suggested, expressed, or implied by forward-looking statements as a result of a wide range of factors including, but not limited to, the general business environment, interest rates, the California real estate market, competitive conditions between banks and non-bank financial services providers, regulatory changes, and other risks detailed in the Company's reports filed with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended June 30, 2006.
