In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December

31, 2011, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1 – Description of the Plan

The following description of the Intertape Polymer Corp. USA Employees' Stock Ownership and Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Intertape Polymer Group Inc. and its participating subsidiaries (the "Company") established the Intertape Polymer Group Inc. Employees' Stock Ownership and Retirement Savings Plan effective November 29, 1994. As of January 1, 2001, the Plan was amended and operates as an employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") of 1986 as amended and is subject to the applicable provisions of the Employee Retirement Security Act of 1974, as amended ("ERISA"). As of January 1, 2008, the Plan's name was changed to Intertape Polymer Corp. USA Employees' Stock Ownership and Retirement Savings Plan. All other aspects of the plan remained unchanged.

Eligibility

To be eligible to enter the Plan, participants must complete 90 consecutive days of service with the Company and have attained the age of 18.

Contributions

Participants may contribute up to 25 percent of their pretax annual compensation, subject to Internal Revenue Service ("IRS") limitations based upon the participant's compensation level. The Company may elect to match a portion of elective contributions if a participant is credited with at least 180 service days during the Plan year and the participant is employed on the last day of the year. Matching contributions are generally based upon management's discretion, but cannot exceed 6% of compensation. In addition, the Board of Directors, at its discretion, may make an ESOP contribution.

Participant Accounts and Voting Rights

Each participant's account is credited with the participant's contributions, Company contributions, and an allocation of the Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan. Each participant is entitled to the vested portion of their account. Participants may direct the investment of their account balances into various investment options offered by the Plan.

1 – Description of the Plan (continued)

Each participant is entitled to exercise voting rights attributable to the Company's common stock allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 20 percent vested after each year and 100 percent vested after the earlier of five years of service, upon reaching normal retirement age, death, or becoming totally and permanently disabled.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the vested portion of the participant's account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of one point above the prime borrowing rate, defined in the Plan document as the prime rate of interest as published in the Wall Street Journal on the date of the loan commitment. Principal and interest repayments are made ratably through payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence in which case the loan terms may exceed five years, up to a maximum loan term of 15 years. Interest rates for loans outstanding at December 31, 2011 range from 4.25% to 9.25%. The Plan Administrator will suspend loan repayments for a military service leave of absence. During 2010, the Plan was amended to allow for participants to have up to two loans outstanding at any one time.

Payment of Benefits

Upon separation of service due to death, disability, or retirement, a participant is entitled to receive their benefits as a lump-sum amount equal to the value of the participant's vested interest in his or her account, or any portion thereof. Certain in-service withdrawals are allowed by the Plan, in accordance with IRS limitations, for participants meeting minimum age requirements. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

2 – Summary of Significant Accounting Policies

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The guidance is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and International Financial Reporting Standards. The guidance is effective for annual periods beginning after December 15, 2011. The adoption of this new accounting guidance will not have a significant effect on the financial statements.

Forfeited Accounts

When certain terminations of participation in the Plan occur, the non-vested portion of the participant’s account, as defined in the Plan, represents a forfeiture. Forfeitures are used to offset employer contributions.

Unallocated Accounts

Prior to 2009, the Company made contributions to the Plan that have not been allocated to participants and have been recorded in unallocated accounts. Funds available in these unallocated accounts are used to offset employer contributions. See Note 3, Employer Contributions, and Forfeited and Unallocated Accounts.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (“US GAAP”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets available for benefits and the reported amounts of additions and deductions from assets available for benefits during the reported period. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

2 – Summary of Significant Accounting Policies (continued)

Administrative Expenses

Plan administrative expenses are paid by the Company. Participant-related fees and expenses are paid by the Plan through charges to participant accounts.

Valuation of Investments, Notes Receivable from Participants and Income Recognition

The Plan's investments are stated at fair value. Investments in mutual funds and bond funds are based on published market quotations on national exchanges. The fair value of the collective trust is calculated based on the net asset value per share derived from the audited financial statements times the number of shares held by the Plan. The fair value of the common trust fund is calculated based on the net asset value per share of the Company's common stock from the published market quotation plus cash and cash equivalents. Purchases and sales of securities are recorded on a trade confirmation-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. See Note 6 for disclosures regarding fair value measurements.

The Plan's investment in the collective trust fund is carried at fair value (See Note 5). However, the Stable Asset Fund invests in fully benefit-responsive investment contracts which it has adjusted to contract value in its statement of assets and liabilities. Contract value is the relevant measurement attribute for the collective trust fund because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Therefore, an adjustment has been made on the Statements of Net Assets Available for Benefits to reflect the Plan's investment in the collective trust at contract value. The Statements of Changes in Net Assets Available for Benefits are prepared and presented on a contract value basis.

Notes receivable from participants are valued at amortized cost plus accrued interest. Delinquent loans are treated as distributions pursuant to the terms of the Plan document.

Reclassifications

In the statement of changes in net assets available for benefits for the year ended December 31, 2010, interest on notes receivable from participants of \$137,316 was reclassified to a separate line item to conform to the 2011 presentation.

Subsequent Events

The Plan's management evaluated its December 31, 2011 financial statements for subsequent events through June 27, 2012, the date the financial statements were issued.

Balances at December 31, 2011	\$66,657	\$ 118,080	\$ 184,737

In 2010 for the 2009 plan year, the Company matched at a rate of 45% of a participant's contributions up to 6% of the participant's eligible salary and made a profit sharing contribution of 1% of participants' eligible salaries. These contributions were funded by funds available in unallocated and forfeited accounts. The Company made no matching or profit-sharing contribution in 2011 for the 2010 plan year.

For the 2011 plan year, the Company's management approved a matching contribution at a rate of 45% of participants' contributions up to 6% of eligible salaries. The Company's Board of Directors also approved a profit-sharing contribution of 1% of participant's eligible salaries. The total contribution of \$1,680,782 was funded in February 2012 by use of \$66,657 of forfeiture accounts, \$110,260 of unallocated accounts, and cash contributions by the Company totaling \$1,503,865 which is classified as employer contributions receivable in the accompanying statement of net assets available for benefits as of December 31, 2011.

4 – Investments

The Plan's investments are held by the trustee of the Plan and invested for the benefit of the Plan's participants. Bank of America, N.A. ("Bank of America") is the trustee of the Plan.

Total net appreciation in fair value	\$904,221	\$2,689,689

At December 31, 2011 and 2010, the Plan held 898,691 shares (average cost per share of \$1.178; market value per share of \$3.170) and 1,057,291 shares (average cost per share of \$1.090; market value per share of \$1.150), respectively, of Company common stock in the common trust fund, all of which was allocated to participant accounts. The common trust fund also had cash and cash equivalents at December 31, 2011 and 2010 of \$86,261 and \$68,243, respectively.

5 – Collective Trust Funds

In 2010 and until August, 2011, the Plan invested in the Stable Asset Fund with Bank of America, the trustee of the Plan. Starting in August, 2011, the Plan invests in the Wells Fargo Stable Value Fund O. Funds of this type primarily invest in a variety of investment contracts such as Guaranteed Investment Contracts (GICs) issued by financial institutions and other investment products (separate account contracts and synthetic GICs) with similar characteristics.

Intertape Polymer Corp. USA
 Employees' Stock Ownership and Retirement Savings Plan
 Notes to Financial Statements
 December 31, 2011 and 2010

5 – Collective Trust Funds (continued)

The traditional GICs are backed by the general credit of the issuer. The fund deposits a lump sum with the issuers and receives a guaranteed interest rate for a specified time.

The guaranteed rates for the years ended December 31, 2011 and 2010 varied depending on the issuer and contract. Separate account GICs are similar in structure to traditional GICs, except that the underlying assets are held in a separate account for the benefit of the fund. A synthetic GIC is an investment contract issued by an insurance company or bank, backed by a portfolio of bonds that are owned by the fund. These assets underlying the wrap contract are maintained separate from the contract issuer's general assets, usually by a third party custodian. The wrapper contracts are obligated to provide an interest rate of not less than zero.

The issuers of these investment contracts guarantee that all qualified participant withdrawals will occur at contract value. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers.

Average yields for the year ended December 31, 2011:	
Based on actual earnings	1.56 %
Based on interest rates credited to participants	2.33 %
Average yields for the year ended December 31, 2010:	
Based on actual earnings	1.44 %
Based on interest rates credited to participants	2.96 %

6 – Fair Value Measurements

The Financial Accounting Standards Board Accounting Standards Codification (the "Codification") provides a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under this guidance are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

- 11 -

Notes to Financial Statements
December 31, 2011 and 2010

6 – Fair Value Measurements (continued)

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability; or

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds/Bond Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective trust fund: Valued based on contractual terms of the underlying investment contracts.

Common trust fund: Valued at the fair value of the underlying assets of the fund, which includes cash and Company common stock valued at the closing price reported on the active market on which the Company's common stock is traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

 - (m) See Note 5 for description of a Collective Trust Fund's investment strategy.

The funds have no redemption restrictions.

7 – Party-In-Interest Transactions

As of December 31, 2011 and 2010 and for the years then ended, the Plan's investments were managed by Bank of America, the Plan's trustee. Certain Plan investments include or have included shares of mutual funds managed by Bank of America. For the periods described above, all transactions by the Plan with mutual funds managed by Bank of America are considered to be party-in-interest transactions.

Transactions by the Plan with the common trust fund and notes receivable from participants qualify as parties-in-interest transactions.

8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

9 – Tax Status

The IRS issued a favorable opinion letter dated November 9, 2001, in regards to the Plan. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, in all material respects. As such, no provision for income taxes has been included in the Plan's financial statements. In February 2009, the Plan requested an updated determination letter from the IRS, whose response is pending.

10 – Risks and Uncertainties

The Plan invests in various securities including mutual funds, bond funds, collective trust funds and a common trust fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

11 – Reconciliation of Financial Statement to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31,
