Report of Independent Registered Public Accounting Firm

To the Audit Committee of  
Cheviot Savings Bank 401(k) Plan & Trust

We have audited the accompanying statements of net assets available for benefits of the Cheviot Savings Bank 401(k) Plan & Trust as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of the Plan's internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

Cheviot Savings Bank 401(k) Plan & Trust  
Notes to Financial Statements  
December 31, 2014 and 2013

## 1. DESCRIPTION OF PLAN:

The following description of the Cheviot Savings Bank 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

Cheviot Savings Bank (the "Bank" and "Employer") maintains the Cheviot Savings Bank 401(k) Plan & Trust which is a qualified, tax-exempt profit sharing plan with a salary deferral feature under Section 401(k) of the Internal Revenue Code (the "Code"). Employees who have attained age 21 and have completed one year of employment are eligible to participate. Employees are entitled to enter the Plan on the first January 1 or July 1 occurring after the employee becomes eligible to participate in the Plan.

### Contributions

Under the Plan, participants may elect to defer a percentage of their compensation each year instead of receiving that amount in cash equal to the lesser of (i) a maximum percentage of compensation as indicated in a notice received from the Plan administrator or (ii) an indexed dollar amount set by the Internal Revenue Service, which was \$17,500 for 2014. In addition, for participants that are age 50 or older by the end of any taxable year, the participant may elect to defer additional amounts (called "catch-up contributions") to the Plan. The additional amounts may be deferred regardless of any other limitations on the amount that a participant may defer to the Plan. The maximum catch-up contribution that a participant can make in 2014 was \$5,500.

Each plan year (a calendar year), Cheviot Savings Bank will contribute to the Plan the following amounts: (a) the total amount of the salary reduction a participant elected to defer; (b) in the discretion of Cheviot Savings Bank, a matching contribution equal to a percentage of the amount of the salary reduction a participant elected to defer; and (c) a discretionary amount equal to 3% of a participant's plan compensation (generally the sum of a participant's Form W-2 wages and other compensation for the year plus a participant's before-tax contributions to the Plan and any other benefit plans of Cheviot Savings Bank, up to a legal limit (which was \$260,000 for 2014) for the year plus 3% of a participant's plan compensation for the year in excess of 50% of the Social Security Taxable Wage Base for old-age retirement benefits for the year (\$58,500 for 2014) plus any additional amount that does not match a participant's salary reduction and that is determined by Cheviot Savings Bank in its discretion.

### Participant accounts

Each participant's account is credited with the participant's contributions and the Bank matching contributions, as well as allocations of the Bank's additional discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Bank's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Cheviot Savings Bank 401(k) Plan & Trust  
Notes to Financial Statements  
December 31, 2014 and 2013

#### Payment of benefits

Plan benefits will be paid to each participant in the form of a single cash payment at normal retirement age unless earlier payment is selected. If a participant dies prior to receipt of the entire value of his or her Plan accounts, payment will generally be made to the beneficiary in a single cash payment as soon as possible following the participant's death. Payment will be deferred if the participant had previously elected a later payment date. If the beneficiary is not the participant's spouse, payment will be made within one year of the date of death. If the spouse is the designated beneficiary, payment will be made no later than the date the participant would have attained age 70 1/2. Normal retirement age under the Plan is age 65. Early retirement age is age 59.5 with six years of service.

#### Forfeited accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$1,139 and \$15,917, respectively. These balances are added to the employer discretionary contribution allocated to eligible participants in the Plan after the end of the plan year.

## 2. SUMMARY OF ACCOUNTING POLICIES:

#### Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

#### Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### Payment of benefits

Benefits are recorded when paid.

#### Expenses

Certain expenses of maintaining the Plan are paid directly by the Bank and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

#### Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

Cheviot Savings Bank 401(k) Plan & Trust  
 Notes to Financial Statements  
 December 31, 2014 and 2013

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

2014	2013		
American Funds Income Fund of America		\$ 503,801	510,840
American Funds Growth Fund of America		907,854	846,890
American Funds American Balanced Fund		614,296	574,425
American Funds Target Date 2020		492,218	447,568
Cheviot Financial Corp. common stock		3,290,624	2,254,536
Cheviot Savings Bank certificate of deposit fund		1,092,342	1,205,042

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$918,891 as follows:

Mutual funds	\$ 52,907
Certificate of deposit fund	(78,926)
Common stock	944,910
	\$ 918,891

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Cheviot Savings Bank 401(k) Plan & Trust  
 Notes to Financial Statements  
 December 31, 2014 and 2013

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Certificate of deposit fund: The fair value of the certificates of deposit fund was calculated using a discounted cash flow analysis that calculates the present value of the projected cash flows from the portfolio. Interest rates used were based on current market rates of comparable instruments.

The following table sets forth by level, within the fair value hierarchy, the plan's investments at fair value as of December 31, 2014 and 2013:

Investments at fair value as of December 31, 2014

Level 1	Level 2	Level 3	Total
