PRESS RELEASE

**TELECOM ITALIA: BOARD REITERATES DECISION TO LODGE URGENT APPEAL AGAINST
ANTITRUST AUTHORITY RULING**

*Board of Directors considers the Antitrust Authority's ruling to be prejudicial to the company and, more importantly,
to the market*

Milan, November 23, 2004 At today's meeting the Telecom Italia Board of Directors, chaired by Marco Tronchetti Provera, examined the measures taken by the Antitrust Authority. After hearing the opinion of the Internal Auditing Committee all of whose members are independent directors the Board has reiterated its decision to appeal to the Lazio TAR Court Of Appeal to overturn the decision, and petition for an urgent suspension of the measure.

The Board considers that the company's commercial policy has never had any intention to exclude; rather, it has always been oriented towards making offers that cater to customer demand, in observance of the principles established to protect competition and the market.

Offerings to business customers do not contain clauses to bolster customer loyalty. Independent economic experts confirm that efficient competitors are capable of replicating the technical and economic terms of such offerings.

Though it shall implement the ruling in compliance with the law, it is the Board's belief that the Antitrust Authority's ruling distorts market dynamics by deterring competitors from striving for efficiencies, and will have a negative impact on end service prices. This will ultimately prove detrimental to consumers, the interests of whom should be paramount to the Competition Authority.

The Board has no doubt that the commitments Telecom Italia voluntarily made prior to the Authority's final ruling were not sufficiently taken into account by the Antitrust Authority itself, despite the fact that, according to the Italian Communications Authority (AGCom), they may significantly impact competitive market conditions, and appear likely to alter assessments regarding the seriousness of the disputed practices.

In view of substantial precedents set in recent rulings made both by the Antitrust Authority and by the European Commission, and taking into consideration opinions expressed by the Regulatory Authority, the Board stresses that the amount of the penalty laid appears to be unwarranted and of an excessive size.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability of the Telecom Italia Group to achieve its projected results is dependant on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

Edgar Filing: TELECOM ITALIA S P A - Form 6-K

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
- the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- the impact of regulatory decisions and changes in the regulatory environment;
- the impact of the slowdown in Latin American economies and the slow recovery of economies generally on the international business of the Telecom Italia Group focused on Latin America and on its foreign investments and capital expenditures;
- the continuing impact of rapid changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to continue the implementation of its 2002-2004 Industrial Plan, including the rationalization of its corporate structure and the disposition of Telecom Italia's interests in various companies;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- Telecom Italia's ability to successfully implement its internet strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the group will achieve its projected

results.
