**PRESS RELEASE**

**TELECOM ITALIA TO ACQUIRE LIBERTY SURF FROM TISCALI**

*Milan, April 5, 2005* - Telecom Italia and Tiscali have signed an agreement for Telecom Italia to purchase Tiscali's 95% stake in Liberty Surf S.A., a French company listed on the Euronext in Paris.

The price agreed for Tiscali's stake is approximately 266 million euro, valuing 100% of Liberty Surf at 280 million euro. This valuation takes into account Liberty Surf's net cash of approximately 28 million euro and corresponds to an estimated Enterprise Value of 252 million euro for 100% of the company.

Once the transaction is finalized, Telecom Italia will launch a public offer for the remaining 5% of Liberty Surf's share capital, as required by law.

Finalization of the transaction is conditional on approval by the French antitrust authorities.

Liberty Surf is a leading Internet Service Provider in France, with a nationwide presence. Through its own network infrastructure, it provides services to approximately 344,000 broadband customers and approximately 700,000 dial-up customers (of which 448,000 retail). The company's 2004 revenues totalled approximately 225 million euro.

Mediobanca and Sopaf Corporate Finance were the financial advisers for Telecom Italia while Tiscali was represented by Rothschild.

Cautionary Statement for Purposes of the "Safe Harbor" Provision of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Press Release included in this Form 6-K contains certain forward looking statements and forecasts reflecting management's current views with respect to certain future events. The ability

## Edgar Filing: TELECOM ITALIA S P A - Form 6-K

of the Telecom Italia Group to achieve its projected results is dependant on many factors which are outside of management's control. Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information involves risks and uncertainties that could significantly affect expected results and are based on certain key assumptions.

The following important factors could cause the Telecom Italia Group's actual results to differ materially from those projected or implied in any forward-looking statements:

- the continuing impact of increased competition in a liberalized market, including competition from global and regional alliances formed by other telecommunications operators in the core domestic fixed-line and wireless markets of the Telecom Italia Group;
- the ability of the Telecom Italia Group to introduce new services to stimulate increased usage of its fixed and wireless networks to offset declines in its fixed-line business due to the continuing impact of regulatory required price reductions, market share loss and pricing pressures generally;
- the ability of the Telecom Italia Group to achieve cost-reduction targets in the time frame established or to continue the process of rationalizing its non-core assets;
- the impact of regulatory decisions and changes in the regulatory environment;
- the impact of the slowdown in Latin American economies and the slow recovery of economies generally on the international business of the Telecom Italia Group focused on Latin America and on its foreign investments and capital expenditures;
- the continuing impact of rapid changes in technologies;
- the impact of political and economic developments in Italy and other countries in which the Telecom Italia Group operates;
- the impact of fluctuations in currency exchange and interest rates;
- Telecom Italia's ability to continue the implementation of its 2002-2004 Industrial Plan, including the rationalization of its corporate structure and the disposition of Telecom Italia's interests in various companies;
- the ability of the Telecom Italia Group to successfully achieve its debt reduction targets;
- Telecom Italia's ability to successfully roll out its UMTS networks and services and to realize the benefits of its investment in UMTS licenses and related capital expenditures;
- Telecom Italia's ability to successfully implement its internet strategy;
- the ability of the Telecom Italia Group to achieve the expected return on the significant investments and capital expenditures it has made in Latin America and in Europe;
- the amount and timing of any future impairment charges for Telecom Italia's licences, goodwill or other assets; and
- the impact of litigation or decreased mobile communications usage arising from actual or perceived health risks or other problems relating to

## Edgar Filing: TELECOM ITALIA S P A - Form 6-K

mobile handsets or transmission masts.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. Accordingly, there can be no assurance that the group will achieve its projected results.
