Third Quarter Trading Statement 2004

Basel, Switzerland, 22 October 2004

Sales in the third quarter of 2004 increased by 17% to \$1.4bn (2003: \$1.2bn) and at constant exchange rates (CER) by 14%. Sales for the first nine months were 8% higher (CER) at \$6bn.

Crop Protection sales in the third quarter rose 12% (CER) to \$1.2bn. Sales in the low season in Europe, Africa and Middle East continued to demonstrate the strength witnessed in the first half with herbicides performing particularly well. The new season in Latin America started strongly, notably in Brazil, driven by high early demand for fungicides. Sales growth accelerated in Asia-Pacific with a good performance in Japan and India. In NAFTA, performance was driven by Professional Products, the continuing success of the CALLISTO® range and by fungicides, especially AMISTAR®. On a global basis, all product lines increased sales apart from insecticides which were slightly lower following an exceptionally strong first half. Growth in sales of new products for the quarter was \$26m; total sales of new products for the first nine months reached \$554m.

Seeds sales in the third quarter rose 28% (CER) to \$0.2bn. Field crop sales benefited from timing differences in the USA and strong early demand in Brazil. Growth in Vegetables and Flowers reflected both expanding consumer demand and the consolidation of Dulcinea Farms and Dia-Engei.

For the full year 2004, sales growth is expected to be in line with first half performance, leading to earnings per share1 growth of around 60 per cent.

Syngenta is a world-leading agribusiness committed to sustainable agriculture through innovative research and technology. The company is a leader in crop protection, and ranks third in the high-value commercial seeds
