#### Chairman's statement

Our focus on growth, efficiency and acceleration has led to a significantly improved operating performance of EUR 2 bln. The increase in operating result reflects a strong contribution to revenues from our growth engines in Brazil, Italy and Asia, combined with the acceleration of our cost control initiatives. The resulting EPS of 65 euro cents from continuing operations means that we are well on our way to beating the 2007 EPS target of EUR 2.30 (excluding major disposals and restructuring charges).
