CELLCOM ISRAEL ANNOUNCES A PURPORTED CLASS ACTION FILED AGAINST THE COMPANY

Netanya, Israel – May 26, 2010 – Cellcom Israel Ltd. (NYSE: CEL) (TASE: CEL) (hereinafter: the "Company"), announced today that a purported class action lawsuit against the Company and the three other Israeli cellular operators was filed in the District Court of Central Region, by four plaintiffs alleging to be subscribers of the defendants. The plaintiffs allege that the defendants unlawfully and in violation of their license and agreements with their subscribers fail to construct cell sites in a sufficient quantity, scope and coverage in order to provide cellular services in the requisite quality; fail to test, repair and notify the subscribers that non-ionizing radiation level for repaired handsets may exceed the manufacturer's specifications and the maximum level allowed by law; fail to inform and caution the subscribers of the risks related to the manner of carrying the handset and its distance from the subscriber's body; all of which increase the level of non-ionizing radiation and health risks to which the subscribers are exposed.

The total amount claimed from the Company, if the lawsuit is certified as a class action, is estimated by the plaintiffs to be approximately NIS 3.68 billion (the total amount claimed from the four defendants is estimated by the plaintiffs to be approximately NIS 12 billion).

At this preliminary stage, the Company is unable to assess the lawsuit's chances of success.
