**(1) Description of Business and Basis of Presentation**

Revlon, Inc. (and together with its subsidiaries, the Company) conducts its business exclusively through its direct wholly-owned operating subsidiary, Revlon Consumer Products Corporation and its subsidiaries (Products Corporation). The Company's vision is to provide glamour, excitement and innovation to consumers through high-quality products at affordable prices. The Company operates in a single segment and manufactures, markets and sells an extensive array of cosmetics, women's hair color, beauty tools, fragrances, skincare, anti-perspirants/deodorants and other personal care products. The Company's principal customers include large mass volume retailers and chain drug stores in the U.S., as well as certain department stores and other specialty stores, such as perfumeries, outside the U.S. The Company also sells beauty products to U.S. military exchanges and commissaries and has a licensing business pursuant to which the Company licenses certain of its key brand names to third parties for complementary beauty-related products and accessories.

Revlon, Inc. is a direct and indirect majority-owned subsidiary of MacAndrews & Forbes Holdings Inc. (MacAndrews & Forbes Holdings and, together with certain of its affiliates other than the Company, MacAndrews & Forbes), a corporation wholly owned by Ronald O. Perelman.

The accompanying Consolidated Financial Statements are unaudited. In management's opinion, all adjustments necessary for a fair presentation have been made. The Unaudited Consolidated Financial Statements include the accounts of the Company after elimination of all material intercompany balances and transactions.

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and reported amounts of revenues and expenses during the periods presented. Actual results could differ from these estimates. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the consolidated financial statements in the period they are determined to be necessary. Significant estimates made in the accompanying Unaudited Consolidated Financial Statements include, but are not limited to, allowances for doubtful accounts, inventory valuation reserves, expected sales returns and allowances, certain assumptions related to the recoverability of intangible and long-lived assets, reserves for estimated tax liabilities, restructuring costs, certain estimates and assumptions used in the calculation of the fair value of stock options issued to employees and non-employee directors and the derived compensation expense and certain estimates regarding the calculation of the net periodic benefit costs and the projected benefit obligation for the Company's pension and other post-retirement plans. The Unaudited Consolidated Financial Statements should be read in conjunction with the consolidated financial statements and related notes contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission (the SEC) on March 5, 2008.

The Company's results of operations and financial position for interim periods are not necessarily indicative of those to be expected for a full year.

***Recent Accounting Pronouncements***

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. This statement clarifies the definition of fair value of assets and liabilities, establishes a framework for measuring fair value of assets and liabilities and expands the disclosures on fair value measurements. SFAS No. 157 is effective for fiscal years beginning after

November 15, 2007. However, the FASB deferred the effective date of SFAS No. 157 until the fiscal years beginning after November 15, 2008 as it relates to the fair value measurement requirements for nonfinancial assets and liabilities that are initially measured at fair value, but not

measured at fair value in subsequent periods. These nonfinancial assets include goodwill and other indefinite-lived intangible assets which are included within other assets. In accordance with SFAS No. 157, the Company has adopted the provisions of SFAS No. 157 with respect to financial assets and liabilities effective as of January 1, 2008 and its adoption did not have a material impact on its results of operations or financial condition. The Company is assessing the impact of SFAS No. 157 for nonfinancial assets and liabilities and expects that this adoption will not have a material impact on its results of operations or financial condition.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities An Amendment of FASB Statement No. 133. This statement is intended to improve financial reporting of derivative instruments and hedging activities by requiring enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance and cash flows. The provisions of SFAS No. 161 are effective for fiscal years beginning after November 15, 2008. The Company is currently evaluating the impact that SFAS No. 161 could have on its disclosures.

Shares used in basic earnings (loss) per share are computed using the weighted average number of common shares outstanding each period. Shares used in diluted earnings (loss) per share include the dilutive effect of unvested restricted shares and outstanding stock options under the Stock Plan using the treasury stock method. At June 30, 2008 and 2007, options to purchase 20,884,509 and 22,086,889 shares, respectively, of Revlon, Inc. Class A common stock, par value of \$0.01 per share (the Class A Common Stock), and 9,821,703 and 6,081,575 shares, respectively, of unvested restricted stock were excluded from the calculation of diluted earnings (loss) per common share as their effect would be anti-dilutive.

costs was associated with the restructurings announced in 2006 (the 2006 Programs), primarily due to the charges for employee severance and other employee-related termination costs being slightly lower than originally estimated. These were partially offset by a charge of \$1.5 million for the 2008 Programs, of which \$0.8 million related to a restructuring in Canada and \$0.7 million related to the Company's decision to close and sell its manufacturing facility in Mexico and source products from the Company's other manufacturing facilities and third party suppliers. (See Note 2, Restructuring Costs and Other, Net to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on March 5, 2008.)

**(8) Derivative Financial Instruments**

The Company uses derivative financial instruments, primarily foreign currency forward exchange contracts ( FX Contracts ) to reduce the effects of fluctuations in foreign currency exchange rates and interest rate swap transactions intended to reduce the effects of floating interest rates.

***Foreign Currency Forward Exchange Contracts***

Products Corporation enters into FX Contracts primarily to hedge anticipated inventory purchases and certain intercompany payments denominated in foreign currencies. Such FX Contracts generally have maturities of less than one year. The Company does not apply hedge accounting to FX Contracts. The Company records these FX Contracts in the consolidated balance sheet at fair value and changes in fair value are immediately recognized in earnings. Fair value is determined by using observable market transactions of spot and forward rates.

The notional amount of the FX Contracts outstanding at June 30, 2008 and December 31, 2007 was \$35.3 million and \$23.6 million, respectively. At June 30, 2008, the change in the fair value of Products Corporation's unexpired FX Contracts was \$0.2 million, which gain was recognized in earnings. Also at June 30, 2008, realized losses of \$0.3 million from expired FX Contracts were recognized into earnings.

***Interest Rate Swap Transactions***

In April 2008, Products Corporation executed a floating-to-fixed interest rate swap transaction (the 2008 Interest Rate Swap ) to hedge against fluctuations in variable interest rate payments on \$150 million notional amount of Products Corporation's long-term debt under its \$840 million bank term loan facility (the 2006 Term Loan Facility ) over a period of two years. The 2008 Interest Rate Swap effectively fixed the interest rate on such notional amount at 6.66% for the 2-year term of the swap, which expires on April 16, 2010.

In September 2007, Products Corporation executed a floating-to-fixed interest rate swap transaction (the 2007 Interest Rate Swap ) and together with the 2008 Interest Rate Swap, the Interest Rate Swaps ) to hedge against fluctuations in variable interest rate payments on \$150 million notional amount of Products Corporation's long-term debt under its 2006 Term Loan Facility over a period of two years. The 2007 Interest Rate Swap effectively fixed the interest rate on such notional amount at 8.692% for the 2-year term of the swap, which expires on September 17, 2009.

**REVLON, INC. AND SUBSIDIARIES**  
**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

(except where otherwise noted, all tabular amounts in millions, except share and per share amounts)

Products Corporation's Interest Rate Swaps qualify for hedge accounting treatment under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133), and each has been designated as a cash flow hedge. Accordingly, the effective portion of the changes in the fair value of the Interest Rate Swaps are reported in other comprehensive income (loss). The ineffective portion of the changes in the fair value of the Interest Rate Swaps are recognized in current period earnings. Any unrecognized income (loss) accumulated in other comprehensive income (loss) related to the Interest Rate Swaps are recorded in the Statement of Operations, primarily in interest expense, when the underlying transactions hedged are realized. The fair value of Products Corporation's 2008 Interest Rate Swap and 2007 Interest Rate Swap was \$2.0 million and \$(2.9) million, respectively, at June 30, 2008. Fair value is determined by using the applicable LIBOR index.

**(10) Subsequent Event**

On July 28, 2008, Products Corporation consummated the sale of the Company's non-core Bozzano brand, a leading men's hair care and shaving line of products, and certain other non-core brands, such as Juvena and Aquamarine, which are sold only in the Brazilian market. The transaction was effected through the sale of the Company's Brazilian subsidiary, Ceil Comércio E Distribuidora Ltda. (Ceil) to Hypermarcas S.A., a Brazilian publicly-traded, diversified

consumer products corporation. The purchase price was approximately \$104 million in cash, plus approximately \$3 million in cash on Ceil's balance sheet. Net proceeds, after the payment of taxes and transaction costs, are expected to be approximately \$94 million. The Company is currently evaluating the most appropriate use of the net proceeds from this transaction. In the Company's results for the third quarter of 2008, the Company expects to record a one-time gain from this transaction of approximately \$50 million. **Revlon** brand color cosmetics will continue to be marketed in Brazil through the Company's current third party distributor.

In addition to **Revlon** and **Almay** brand color cosmetics, we are seeking to drive growth in other beauty care categories, including women's hair color, beauty tools and anti-perspirants/deodorants. We are implementing this strategy by developing and sustaining an innovative pipeline of new products and managing our product portfolio with the objective of profitable net sales growth over time. We intend to: 1) fully

utilize our creative, marketing and research and development capabilities; 2) reinforce clear, consistent brand positioning through effective, innovative advertising and promotion; and 3) work with our retail customers to continue to increase the effectiveness of our in-store marketing, promotion and display walls across the categories in which we compete.

**Improving the execution of our strategies and plans and providing for continued improvement in our organizational capability through enabling and developing our employees.** We are continuing to build our organizational capability primarily through a focus on recruitment and retention of skilled people, providing opportunities for professional development, as well as new and expanded responsibilities and roles for employees who have demonstrated capability and rewarding our employees for success.

**Continuing to strengthen our international business.** We are continuing to strengthen our international business through the following key strategies:

Focusing on the **Revlon** brand and our other strong national and multi-national brands in key countries;

Leveraging our **Revlon**, **Almay** and other brand marketing worldwide;

Adapting our product portfolio to local consumer preferences and trends;

Structuring the most effective business model in each country; and

Strategically allocating resources and controlling costs.

**Improving our operating profit margins and cash flow.** We are capitalizing on opportunities to improve our operating profit margins and cash flow over time, including reducing sales returns, costs of goods sold and general and administrative expenses and improving working capital management (in each case as a percentage of net sales), and we continue to focus on improving net sales growth.

**Continuing to improve our capital structure.** We intend to continue to take advantage of opportunities to reduce and refinance our debt.

The execution of this strategy includes the following recent actions:

For the second half of 2008, we have introduced an extensive lineup of new, innovative **Revlon** and **Almay** color cosmetics, which follows the extensive lineup of **Revlon** and **Almay** color cosmetics launched for the first half of 2008;

Further enhancing our brand ambassador lineup, we recently signed Academy-Award-winning actress Jennifer Connelly to represent the **Revlon** brand and Hollywood rising star, Leslie Bibb, to represent the **Almay** brand. Jennifer joins a star-studded lineup of accomplished and glamorous women who represent the **Revlon** brand namely Academy-Award-winning actress Halle Berry, actress Jessica Alba, actress Beau Garrett and newly-signed supermodel and entrepreneur Elle Macpherson. Leslie joins Elaine

Irwin-Mellencamp and Marina Theiss, who currently represent the **Almay** cosmetics brand worldwide. In addition, world-renowned makeup artist, Gucci Westman, serves as **Revlon**'s Global Artistic Director;

In April 2008, Revlon, Inc. announced a plan to effect a reverse split of its Class A and Class B common stock at a 1-for-10 split ratio. The plan has been approved by Revlon, Inc.'s Board of Directors and MacAndrews & Forbes, Revlon, Inc.'s principal stockholder, and, accordingly, no further stockholder vote or action is required. Revlon, Inc. intends to effect the reverse

Following the execution of this interest rate swap transaction and the \$150 million two-year floating-to-fixed interest rate swap transaction that Products Corporation entered into in September 2007, approximately 60% of the Company's total long-term debt is at fixed interest rates and approximately 40% is at floating interest rates.

Consolidated net sales for the first half of 2008 increased \$19.0 million, or 2.8%, to \$696.8 million, as compared with \$677.8 million for the first half of 2007. Excluding the favorable impact of foreign currency fluctuations, consolidated net sales increased by \$19.1 million and \$1.0 million, or 5.5% and 0.1%, in the second quarter of 2008 and first half of 2008, respectively.

In the United States, net sales for the second quarter of 2008 increased \$12.2 million, or 6.0%, to \$216.4 million, from \$204.2 million in the second quarter of 2007. In the first half of 2008, U.S. net sales decreased \$3.9 million, or 1.0%, to \$393.6 million, from \$397.5 million in the first half of 2007. The primary driver of U.S. second quarter 2008 net sales growth was higher shipments of **Revlon** color cosmetics, largely due to 2008 new product launches, including the initial shipments of the Company's more extensive second half 2008 new product lineup. Growth in U.S. second quarter 2008 net sales was partially offset by lower shipments of beauty care products. The slight decline in U.S. net sales for the first half of 2008 was primarily due to lower shipments of beauty care products, partially offset by higher shipments of **Revlon** color cosmetics.

In the Company's international operations, net sales for the second quarter of 2008 increased \$15.0 million, or 10.3%, to \$160.0 million, from \$145.0 million in the second quarter of 2007. Excluding the favorable impact of foreign currency fluctuations, international net sales increased by \$6.9 million and \$4.9 million, or 4.8% and 1.7%, in the second quarter of 2008 and the first half of 2008, respectively, reflecting higher shipments of **Revlon** color cosmetics products launched in 2008 and higher shipments of beauty care products. Each of the Company's international regions, namely, Asia Pacific, Europe and Latin America, experienced net sales growth in the second quarter of 2008 as compared to the year-ago quarter. Both the Asia Pacific and Latin America regions experienced net sales growth in the first half of 2008 as compared to the year-ago period. The Europe region, excluding the impact of foreign currency fluctuations, experienced a decline in net sales in the first half of 2008 as compared to the year ago period.

Consolidated net income for the second quarter of 2008 increased by \$31.2 million to \$19.9 million, as compared with a net loss of \$(11.3) million in the second quarter of 2007. In the first half of 2008, net income increased by \$63.9 million to \$17.4 million, as compared with a net loss of \$(46.5) million in the first half of 2007. The

improvement in consolidated net income in the second quarter of 2008 was primarily due to:

lower selling, general and administrative expenses ( SG&A ), primarily due to \$15.3 million of lower brand support, due to the non-recurrence of brand support expense in the second quarter of 2007 related to the launch of **Revlon Colorist** haircolor;

a favorable impact of \$4.9 million related to the sale of the Mexico facility (which is comprised of a \$6.8 million gain on the sale, partially offset by related restructuring charges of \$0.5 million, \$0.4 million of SG&A and cost of sales and \$1.0 million of taxes);

lower interest expense due to the impact of lower average borrowing rates on comparable average debt levels; and

All U.S. mass retail share and related data herein for the Company's brands are based upon dollar retail sales in the U.S. mass retail channel, which are derived from ACNielsen data. ACNielsen measures retail sales volume of products sold by retailers in the U.S. mass retail channel. Such data represent ACNielsen's estimates based upon samples of retail share data gathered by ACNielsen and are therefore subject to some degree of variance and may contain slight rounding differences. ACNielsen's data does not reflect sales volume from Wal-Mart, Inc., which is the Company's largest customer, representing approximately 24% of the Company's full year 2007 worldwide net sales, or sales volume from regional mass volume retailers, prestige, department stores, television shopping, door-to-door, specialty stores, internet, perfumeries or other distribution outlets, all of which are channels for cosmetics sales. From time to time, ACNielsen adjusts its methodology for data collection and reporting, which may result in adjustments to the categories and share data tracked by ACNielsen for both current and prior periods.

***United States******Second quarter results***

In the United States, net sales increased in the second quarter of 2008, primarily due to higher shipments of **Revlon** color cosmetics, largely due to 2008 new product launches, including initial shipments of the Company's more extensive second half new product lineup. Growth in U.S. second quarter 2008 net sales was partially offset by lower shipments of beauty care products.

***Year-to-date results***

In the United States, the decline in net sales for the first half of 2008 was primarily due to lower shipments of beauty care products, partially offset by higher shipments of **Revlon** color cosmetics, largely due to 2008 new product launches.

*International*

In the Company's international operations, foreign currency fluctuations favorably impacted net sales in the second quarter of 2008 by \$8.1 million and favorably impacted net sales in the first half of 2008 by \$18.0 million. Excluding the impact of foreign currency fluctuations, increased net sales in the second quarter and first half of 2008, as compared with the second quarter and first half of 2007, were driven primarily by higher shipments of **Revlon** color cosmetics products launched in 2008 and higher shipments of beauty care products. Each of the Company's international regions, namely Asia Pacific, Europe and Latin America, experienced net sales growth in the second quarter of 2008 as compared to the year-ago quarter. Both the Asia Pacific and Latin America regions experienced net sales growth in the first half of 2008 as

compared to the year-ago period. The Europe region, excluding the impact of foreign currency fluctuations, experienced a 3% decline in net sales in the first half of 2008 as compared to the year-ago period.

*Second quarter results by region*

In Asia Pacific, which is comprised of Asia Pacific and Africa, increased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by higher shipments of **Revlon** color cosmetics in China, Australia and in the duty-free businesses, as well as higher shipments of beauty care products in South Africa and in the duty-free businesses (which together contributed approximately 3.9 percentage points to the increase in the region's net sales in the second quarter of 2008, as compared with the second quarter of 2007).

In Europe, which is comprised of Europe, Canada and the Middle East, increased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by higher shipments of **Revlon** color cosmetics in Canada (which contributed approximately 9.3 percentage points to the increase in the region's net sales in the second quarter of 2008, as compared with the second quarter of 2007). This increase was partially offset by lower shipments of color cosmetics and fragrances in U.K., as well as lower shipments of fragrances in Italy and certain distributor markets (which together offset by approximately 3.8 percentage points the region's increase in net sales in the second quarter of 2008, as compared with the second quarter of 2007). In the second quarter of 2007, net sales of color cosmetics in the U.K. were positively impacted by close-out sales of **Vital Radiance** as well as sales of **Almay** color cosmetics (**Almay** was discontinued in the U.K. in the third quarter of 2007).

In Latin America, which is comprised of Mexico, Central America and South America, increased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by higher shipments of **Revlon** color cosmetics and beauty care products in Venezuela and Argentina (which together contributed approximately 8.5 percentage points to the increase in the region's net sales in the second quarter of 2008, as compared with the second quarter of 2007). This increase was partially offset by lower shipments in certain distributor markets (which offset by approximately 4.8 percentage points the Latin America region's increase in net sales in the second quarter of 2008, as compared with the second quarter of 2007).

*Year-to-date results by region*

In Asia Pacific, increased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by higher shipments of **Revlon** color cosmetics in China, Taiwan and in the duty-free businesses, as well as higher shipments of beauty care products in South Africa and in the duty-free businesses (which together contributed approximately 3.5 percentage points to the increase in the region's net sales in the first half of 2008, as compared with the first half of 2007).

In Europe, decreased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by lower shipments of color cosmetics and fragrances in the U.K., Italy and certain distributor markets (which together contributed approximately 8.2 percentage points to the decrease in the region's net sales in the first half of 2008, as compared with the first half of 2007). This decrease was partially offset by higher shipments of **Revlon** color cosmetics in Canada (which offset by approximately 4.6 percentage points the decrease in the region's net sales in the first half of 2008, as compared with the first half of 2007). In the first half of 2007, net sales of color cosmetics in the

U.K. were positively impacted by retail space gains related to the **Revlon** brand and sales of **Almay** color cosmetics (**Almay** was discontinued in the U.K. in the third quarter of 2007) and close-out sales of **Vital Radiance**.

In Latin America, increased net sales, excluding the favorable impact of foreign currency fluctuations, were driven primarily by the higher shipments of **Revlon** color cosmetics and beauty care products in Venezuela and Argentina (which together contributed approximately 6.9 percentage points to the increase in the region's net sales in the first half of 2008, as compared with the first half of 2007). This increase was partially offset by lower shipments in certain distributor markets (which offset by approximately 2.3 percentage points the Latin America region's increase in net sales in the first half of 2008, as compared with the first half of 2007).

lower returns and allowances, which contributed 1.0 percentage points to the increase.

Increased gross profit as a percentage of net sales for the first half of 2008, compared to the first half of 2007, was primarily due to the following:

Decreased SG&A expenses for the second quarter of 2008, as compared to the second quarter of 2007, were driven primarily by:

\$15.3 million of lower brand support in the second quarter of 2008, as compared to the second quarter of 2007, primarily due to the fact that the second quarter of 2007 included significant brand support expenses related to the launch of **Revlon Colorist** haircolor; and

\$3.0 million of lower permanent display amortization expenses in the second quarter of 2008, as compared to the second quarter of 2007;

partially offset by \$7.3 million of higher general and administrative expenses, which were primarily due to an increase in the accrual for incentive compensation due to the Company's performance, as well as unfavorability of foreign currency fluctuation of \$2.0 million.

Decreased SG&A expenses for the first half of 2008, as compared to the first half of 2007, were driven primarily by:

\$33.5 million of lower brand support in the first half of 2008, as compared to the first half of 2007, primarily due to the fact that the first half of 2007 included significant brand support expenses related to the launch of **Revlon Colorist** haircolor; and

\$8.0 million of lower permanent display amortization expenses in the first half of 2008, as compared to the first half of 2007. The first half of 2007 included accelerated display amortization expenses related to the discontinuance of the **Vital Radiance** brand;

partially offset by \$6.6 million of higher general and administrative expenses, which were primarily due to an increase in the accrual for incentive compensation due to the Company's performance, as well as an unfavorable impact of foreign currency fluctuation of \$4.1 million; and

partially offset by a \$4.4 million benefit in the first half of 2007 related to the reversal of a deferred rental liability upon exit of a portion of the Company's New York City headquarters leased space in the first half of 2007.

During the second quarter of 2008, the Company recorded income of \$5.4 million to restructuring costs and other, net, primarily due to a gain of \$6.8 million related to the sale of a facility in Mexico, partially offset by a charge of \$1.3 million for the 2008 Programs, of which \$0.8 million related to a restructuring in Canada and \$0.5 million related to the Company's decision to close and sell its manufacturing facility in Mexico and source products from the Company's other manufacturing facilities and third party suppliers.

During the first half of 2008, the Company recorded income of \$11.6 million to restructuring costs and other, net, primarily due to a gain of \$6.8 million related to the sale of a facility in Mexico and a net gain of \$5.9 million related to the sale of a non-core trademark. In addition, a \$0.4 million reversal to restructuring costs was associated with the 2006 Programs, primarily due to the charges for severance and other employee-related termination costs being slightly lower than originally estimated. These were partially offset by a charge of \$1.5 million for the 2008 Programs, of which \$0.8 million related to a restructuring in Canada and \$0.7 million related to the Company's decision to close and sell its manufacturing facility in Mexico and source products from the Company's other manufacturing facilities and third party suppliers.

During the second quarter and first half of 2007, the Company recorded charges of \$2.1 million and \$6.4 million, respectively, in restructuring for vacating leased space, employee severance and employee-related termination costs related to the 2007 Programs and the 2006 Programs.

The tax provision for the second quarter and first half of 2007 benefited from the reduction of \$5.9 million to the Company's tax reserves to reflect favorable regulatory developments resulting in the resolution of various international tax matters.

**Financial Condition, Liquidity and Capital Resources**

Net cash provided by (used in) operating activities in the first half of 2008 was \$22.9 million, as compared to \$(33.0) million in the first half of 2007. This improvement in cash provided in the first half of 2008, compared to cash used in the first half of 2007, was due to higher net income and lower permanent display spending, partially offset by changes in net working capital.

Net cash provided by (used in) investing activities was \$1.2 million and \$(5.3) million for the first half of 2008 and 2007, respectively. Net cash provided by investing activities for the first half of 2008 included \$9.3 million in net proceeds from the sale of a non-core trademark and certain other assets (which included net proceeds as a result of the sale of the Mexico facility), offset by cash used for capital expenditures. Net cash used in investing activities in the first half of 2007 was used for capital expenditures.

Net cash (used in) provided by financing activities was \$(40.2) million and \$37.3 million for the first half of 2008 and 2007, respectively. Net cash used in financing activities for the first half of 2008 included the full repayment on

February 1, 2008 of the \$167.4 million remaining aggregate principal amount of Products Corporation's 85/8% Senior Subordinated Notes, which matured on February 1, 2008, and repayments under the 2006 Revolving Credit Facility, offset by proceeds of \$170 million from the MacAndrews & Forbes Senior Subordinated Term Loan Agreement, which Products Corporation used to repay in full such 85/8% Senior Subordinated Notes, and to pay certain related fees and expenses, including the payment to MacAndrews & Forbes of a facility fee of \$2.55 million (or 1.5% of the total aggregate principal amount of such loan) upon MacAndrews & Forbes funding such loan. In addition, net cash used in financing activities in the 2008 period included \$41.6 million of net repayments under Products Corporation's 2006 Revolving Credit Facility.

Net cash used in financing activities for the first half of 2007 included net proceeds of \$98.9 million from Revlon, Inc.'s issuance of Class A Common Stock as a result of the closing of the \$100 Million Rights Offering in January 2007. Revlon, Inc.'s proceeds from the \$100 Million Rights Offering were promptly transferred to Products Corporation, which it used in February 2007 to redeem \$50.0 million aggregate

principal amount of its 85/8% Senior Subordinated Notes at an aggregate redemption price of \$50.3 million, including \$0.3 million of accrued and unpaid interest up to, but not including, the redemption date. The remainder of such proceeds was used to repay \$43.3 million of indebtedness outstanding under Products Corporation's 2006 Revolving Credit Facility, after incurring fees and expenses of \$1.3 million incurred in connection with the \$100 Million Rights Offering, with approximately \$5 million of the remaining proceeds being available for general corporate purposes.

At June 30, 2008, the Company had a liquidity position of \$161.3 million, consisting of cash and cash equivalents (net of any outstanding checks) of \$22.5 million, as well as \$138.8 million in available borrowings under the 2006 Revolving Credit Facility.

***2006 Credit Agreements***

In December 2006, Products Corporation replaced the \$800 million term loan facility under its 2004 credit agreement with the new 5-year, \$840 million 2006 Term Loan Facility pursuant to the 2006 Term Loan Agreement dated as of December 20, 2006, among Products Corporation, as borrower, the lenders party thereto, Citicorp USA, Inc., as administrative agent and collateral agent, Citigroup Global Markets Inc., as sole lead arranger and sole bookrunner, and JPMorgan Chase Bank, N.A., as syndication agent. As part of this bank refinancing, Products Corporation also amended and restated its 2004 multi-currency revolving credit facility by entering into the \$160 million 2006 Revolving Credit Agreement. The 2006 Credit Facilities mature on January 15, 2012. (For further detail regarding the 2006 Credit Agreements, as well as for detail as to Products Corporation's other debt instruments, see Note 8,

Long-Term Debt to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, filed with the SEC on March 5, 2008).

Products Corporation was in compliance with all applicable covenants under the 2006 Credit Agreements as of June 30, 2008. At June 30, 2008, the Term Loan Facility was fully drawn and availability under the \$160.0 million 2006 Revolving Credit Facility, based upon the calculated borrowing base less \$14.0 million of outstanding letters of credit and \$4.1 million then drawn on the 2006 Revolving Credit Facility, was \$138.8 million.

***MacAndrews & Forbes Senior Subordinated Term Loan Agreement***

In January 2008, Products Corporation entered into the \$170 million MacAndrews & Forbes Senior Subordinated Term Loan Agreement. On February 1, 2008, Products Corporation used the proceeds of such loan to repay in full the \$167.4 million remaining aggregate principal amount of its 85/8% Senior Subordinated Notes, which matured on February 1, 2008, and to pay certain related fees and expenses, including the payment to MacAndrews & Forbes of a facility fee of \$2.55 million (or 1.5% of the total aggregate principal amount of such loan) upon MacAndrews & Forbes funding such loan. In connection with such repayment, Products Corporation also used cash on hand to pay \$7.2 million of accrued and unpaid interest due on the 85/8% Senior Subordinated Notes up to, but not including, the February 1, 2008 maturity date. (See Note 19, Subsequent Events to the Consolidated Financial Statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2007 filed with the SEC on March 5, 2008 for detail regarding the MacAndrews & Forbes Senior Subordinated Term Loan Agreement).

***Sources and Uses***

The Company's principal sources of funds are expected to be operating revenues, cash on hand and funds available for borrowing under the 2006 Revolving Credit Facility and other permitted lines of credit.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND**  
**RESULTS OF OPERATIONS**  
**(all tabular amounts in millions, except share and per share amounts)**

The 2006 Credit Agreements, the MacAndrews & Forbes Senior Subordinated Term Loan Agreement and the indenture governing Products Corporation's 9 1/2% Senior Notes contain certain provisions that by their terms limit Products Corporation and its subsidiaries' ability to, among other things, incur additional debt.

The Company's principal uses of funds are expected to be the payment of operating expenses, including expenses in connection with the continued execution of the Company's business strategy, purchases of permanent wall displays, capital expenditure requirements, payments in connection with the Company's restructuring programs (including, without limitation, the Company's 2006 Programs, the 2007 Programs and the 2008 Programs), severance not otherwise included in the Company's restructuring programs, debt service payments and costs and regularly scheduled pension and post-retirement benefit plan contributions. The Company's cash contributions to its pension and post-retirement benefit plans in the first half of 2008 were \$5.7 million. The Company expects cash contributions to its pension and post-retirement benefit plans to be approximately \$14 million in the aggregate in the full year 2008. The Company's purchase of permanent wall displays and capital expenditures in the first half of 2008 were \$26.1 million and \$8.1 million, respectively. The Company expects purchases of permanent wall displays and capital expenditures in the full year 2008 to be approximately \$50 million and \$25 million, respectively, inclusive of amounts expended in the first half of 2008. See Restructuring Costs and Other, Net above in this Form 10-Q for discussion of the Company's expected uses of funds in connection with its various restructuring programs.

The Company has undertaken, and continues to assess, refine and implement, a number of programs to efficiently manage its cash and working capital, including, among other things, programs to carefully manage inventory levels, centralized purchasing to secure discounts and efficiencies in procurement, and providing additional discounts to U.S. customers for more timely payment of receivables and careful management of accounts payable and targeted controls on general and administrative spending.

Continuing to execute the Company's business strategy could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more brands or product lines, launching additional new products, acquiring businesses or brands, further refining the Company's approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and organizational size and structure. Any of these actions, whose intended purpose would be to contribute to the achievement of profitability and positive cash flow, could result in the Company making investments and/or recognizing charges related to executing against such opportunities.

The Company expects that operating revenues, cash on hand and funds available for borrowing under the 2006 Revolving Credit Facility and other permitted lines of credit will be sufficient to enable the Company to cover its operating expenses for 2008, including cash requirements in connection with the payment of operating expenses, including expenses in connection with the execution of the Company's business strategy, purchases of permanent wall displays, capital expenditure requirements, payments in connection with the Company's restructuring programs (including, without limitation, the Company's 2006 Programs, the 2007 Programs and the 2008 Programs), severance not otherwise included in the Company's restructuring programs, debt service payments and costs and regularly scheduled pension and post-retirement plan contributions.

However, there can be no assurance that such funds will be sufficient to meet the Company's cash requirements on a consolidated basis. If the Company's anticipated level of revenue growth is not achieved because of, for example, decreased consumer spending in response to weak economic conditions or weakness in the cosmetics category in the

mass retail channel, adverse changes in currency, decreased sales of the Company's products as a result of increased competitive activities from the Company's competitors, changes in consumer purchasing habits, including with respect to shopping channels, retailer

inventory management, retailer space reconfigurations or reductions in retailer display space, less than anticipated results from the Company's existing or new products or from its advertising and/or marketing plans, or if the Company's expenses, including, without limitation, for advertising and promotions or for returns related to any reduction of retail space, product discontinuances or otherwise, exceed the anticipated level of expenses, the Company's current sources of funds may be insufficient to meet the Company's cash requirements.

In the event of a decrease in demand for the Company's products, reduced sales, lack of increases in demand and sales, changes in consumer purchasing habits, including with respect to shopping channels, retailer inventory management, retailer space reconfigurations or reductions in retailer display space, product discontinuances and/or advertising and promotion expenses or returns expenses exceeding its expectations or less than anticipated results from the Company's existing or new products or from its advertising and/or marketing plans, any such development, if significant, could reduce Products Corporation's revenues and could adversely affect Products Corporation's ability to comply with certain financial covenants under the 2006 Credit Agreements and in such event the Company could be required to take measures, including, among other things, reducing discretionary spending. **(See also Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007, filed with the SEC on March 5, 2008 for further discussion of risks associated with the Company's business).**

If the Company is unable to satisfy its cash requirements from the sources identified above or comply with its debt covenants, the Company could be required to adopt one or more of the following alternatives:

delaying the implementation of or revising certain aspects of the Company's business strategy;

reducing or delaying purchases of wall displays or advertising or promotional expenses;

reducing or delaying capital spending;

delaying, reducing or revising the Company's restructuring programs;

refinancing Products Corporation's indebtedness;

selling assets or operations;

seeking additional capital contributions and/or loans from MacAndrews & Forbes, the Company's other affiliates and/or third parties;

selling additional Revlon, Inc. equity securities or debt securities of Revlon, Inc. or Products Corporation; or

reducing other discretionary spending.

There can be no assurance that the Company would be able to take any of the actions referred to above because of a variety of commercial or market factors or constraints in Products Corporation's debt instruments, including, without limitation, market conditions being unfavorable for an equity or debt issuance, additional capital contributions and/or loans not being available from affiliates and/or third parties, or that the transactions may not be permitted under the

terms of Products Corporation's various debt instruments then in effect, such as due to restrictions on the incurrence of debt, incurrence of liens, asset dispositions and related party transactions. In addition, such actions, if taken, may not enable the Company to satisfy its cash requirements or enable Products Corporation to comply with its debt covenants if the actions do not generate a sufficient amount of additional capital. **(See also Item 1A. Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007 filed with the SEC on March 5, 2008 for further discussion of risks associated with the Company's business).**

Revlon, Inc., as a holding company, will be dependent on the earnings and cash flow of, and dividends and distributions from, Products Corporation to pay its expenses and to pay any cash dividend or distribution on Revlon, Inc.'s Class A Common Stock that may be authorized by Revlon, Inc.'s Board of Directors. The terms of the 2006 Credit Agreements, the MacAndrews & Forbes Senior Subordinated Term Loan Agreement and the indenture governing Products Corporation's 9 1/2% Senior Notes generally restrict Products Corporation from paying dividends or making distributions, except that Products Corporation is permitted to pay dividends and make distributions to Revlon, Inc. to enable Revlon, Inc., among other things, to pay expenses incidental to being a public holding company, including, among other things, professional fees such as legal, accounting and insurance fees, regulatory fees, such as SEC filing fees, and other expenses related to being a public holding company and, subject to certain limitations, to pay dividends or make distributions in certain circumstances to finance the purchase by Revlon, Inc. of its Class A Common Stock in connection with the delivery of such Class A Common Stock to grantees under the Third Amended and Restated Revlon, Inc. Stock Plan.

As a result of dealing with suppliers and vendors in a number of foreign countries, Products Corporation enters into foreign currency forward exchange contracts and option contracts from time to time to hedge certain cash flows denominated in foreign currencies. There were foreign currency forward exchange contracts with a notional amount of \$35.3 million outstanding at June 30, 2008. The fair value of foreign currency forward exchange contracts outstanding at June 30, 2008 was \$(0.1) million.

***Interest Rate Swap Transactions***

In September 2007 and April 2008, Products Corporation executed two floating-to-fixed interest rate swap transactions (the 2007 Interest Rate Swap and the 2008 Interest Rate Swap and together the Interest Rate Swaps) each with a notional amount of \$150.0 million over a period of two years relating to indebtedness under Products Corporation's 2006 Term Loan Facility. The Company designated the Interest Rate Swaps as cash flow hedges of the variable interest rate payments on Products Corporation's 2006 Term Loan Facility. Under the terms of the 2007 Interest Rate Swap and the 2008 Interest Rate Swap, Products Corporation is required to pay to the counterparty a quarterly fixed interest rate of 4.692% and 2.66%, respectively, on the \$150.0 million notional amounts commencing in December 2007 and July 2008, respectively, while receiving a variable interest rate payment from the counterparty equal to three-month U.S. dollar LIBOR (which effectively fixed the interest rate on such notional amount at 8.692% and 6.66%, respectively, for the 2-year term of each swap). While the Company is exposed to credit loss in the event of the counterparty's non-performance, if any, the Company's exposure is limited to the net amount that Products Corporation would have received over the remaining balance of each Interest Rate Swap's two-year term. Given that the counterparty to the Interest Rate Swaps is a major financial institution, the Company does not anticipate any non-performance and, furthermore, even in the case of any non-performance by the counterparty, the Company expects that any such loss would not be material. The fair value of Products Corporation's 2007 Interest Rate Swap and 2008 Interest Rate Swap was \$(2.9) million and \$2.0 million, respectively, at June 30, 2008.

**Item 4. Controls and Procedures**

**(a) Disclosure Controls and Procedures.** The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the three-month fiscal period covered by this Quarterly Report on Form 10-Q. **Forward-Looking Statements**

This Quarterly Report on Form 10-Q for the second quarter and six months ended June 30, 2008, as well as other public documents and statements of the Company, contain forward-looking statements that involve risks and uncertainties, which are based on the beliefs, expectations, estimates, projections, forecasts, plans, anticipations, targets, outlooks, initiatives, visions, objectives, strategies, opportunities, drivers and intents of the Company's management. While the Company believes that its estimates and assumptions are reasonable, the Company cautions that it is very difficult to predict the impact of known factors, and, of course, it is impossible for the Company to anticipate all factors that could affect its results. The Company's actual results may differ materially from those discussed in such forward-looking statements. Such statements include, without limitation, the Company's expectations and estimates (whether qualitative or quantitative) as to:

- (i) the Company's future financial performance;
- (ii) the effect on sales of decreased consumer spending in response to weak economic conditions or weakness in the cosmetics category in the mass retail channel; adverse changes in currency; decreased sales of the Company's products as a result of increased competitive activities by the Company's competitors, changes in consumer purchasing habits, including with respect to shopping channels; retailer inventory management; retailer space reconfiguration or reductions in retailer display space; less than anticipated results from the Company's existing or new products or from its advertising and/or marketing plans; or if the Company's expenses, including, without limitation, for advertising and promotions or for returns related to any reduction of retail space, product discontinuances or otherwise, exceed anticipated level of expenses;
- (iii) the Company's belief that the continued execution of its business strategy could include taking advantage of additional opportunities to reposition, repackage or reformulate one or more of its brands or product lines, launching additional new products, acquiring businesses or brands, further refining its approach to retail merchandising and/or taking further actions to optimize its manufacturing, sourcing and organizational size and structure, any of which, whose intended purpose would be to contribute to the

achievement of profitability and positive cash flow, could result in the Company making investments and/or recognizing charges related to executing against such opportunities;

- (ix) matters concerning the Company's market-risk sensitive instruments, including the 2007 Interest Rate Swap and 2008 Interest Rate Swap transactions which are intended to reduce the effects of floating interest rates by hedging against fluctuations in variable interest rate payments on the applicable notional amounts of Products Corporation's long-term debt under its 2006 Term Loan Facility, as well as the Company's expectations as to the counterparty's performance, including that any loss arising from the non-performance by the counterparty would not be material;

- (ix) interest rate or foreign exchange rate changes affecting the Company and its market-risk sensitive financial instruments, including less than anticipated benefits or other unanticipated effects of the 2007 Interest Rate Swap and/or 2008 Interest Rate Swap transactions or difficulties, delays or the inability of the counterparty to perform such transactions;
