CAUTIONARY STATEMENT FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This Quarterly Report on Form 10-Q contains certain forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations, our economic performance and financial condition, including, in particular, statements relating to our business and growth strategy and service development efforts. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for certain forward-looking statements so long as such information is identified as forward-looking and is accompanied by meaningful cautionary statements identifying important factors that could cause actual results to differ materially from those projected in the information. When used in this Quarterly Report on Form 10-Q, the words may, might, should, estimate, project, anticipate, expect, intend, outlook, believe and other similar expressions are intended to identify forward-looking statements and information. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. These forward-looking statements are based on estimates and assumptions by our management that, although we believe to be reasonable, are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those identified under Risk Factors in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC), on March 10, 2008, and all of our subsequent filings with the SEC pursuant to the Securities Exchange Act of 1934.

We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law. Reference is also made to such risks and uncertainties detailed from time to time in our filings with the SEC.

PART I FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The consolidated financial statements of TAL International Group, Inc. (TAL or the Company) as of September 30, 2008 (unaudited) and December 31, 2007 and for the three and nine months ended September 30, 2008 (unaudited) and September 30, 2007 (unaudited) included herein have been prepared by the Company, without audit, pursuant to U.S. generally accepted accounting principles and the rules and regulations of the SEC. However, certain information and note disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements reflect, in the opinion of management, all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the results for the interim periods. The results of operations for such interim periods are not necessarily indicative of the results for the full year. These financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K filed with the SEC, on March 10, 2008, from which the accompanying December 31, 2007 Balance Sheet information was derived, and all of our other filings filed with the SEC from October 11, 2005 through the current date pursuant to the Securities Exchange Act of 1934.

TAL INTERNATIONAL GROUP, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Description of the Business, Basis of Presentation, Recently Issued Accounting Pronouncements

A. Description of the Business

TAL International Group, Inc. (TAL or the Company) was formed on October 26, 2004 and commenced operations on November 4, 2004. TAL consists of the consolidated accounts of TAL International Container Corporation, formerly known as Transamerica Leasing Inc., Trans Ocean Ltd. and their respective subsidiaries.

The Company provides long-term leases, service leases and finance leases, along with maritime container management services, through a worldwide network of offices, third party depots and other facilities. The Company operates in both international and domestic markets. The majority of the Company's business is derived from leasing its containers to shipping line customers through a variety of long-term and short-term contractual lease arrangements. The Company also provides container sales, including the resale of purchased containers and positioning services. TAL also enters into management agreements with third party container owners under which the Company manages the leasing and selling of containers on behalf of the third party owners.

B. Basis of Presentation

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of revenues and expenses during the reporting period and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

The consolidated financial statements include the accounts of the Company and its subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. Certain reclassifications have been made to the accompanying prior period financial statements and notes to conform with the current year's presentation.

C. Recently Issued Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161 (SFAS 161), *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133*. SFAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective beginning in the first quarter of 2009. The Company is currently evaluating the impact of SFAS 161 on its financial statement disclosures.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS 141R), *Business Combinations* and Statement of Financial Accounting Standards No. 160 (SFAS 160), *Noncontrolling Interests in Consolidated Financial Statements, an amendment of Accounting Research Bulletin No. 51*. SFAS 141R will change how business acquisitions are accounted for and will impact financial statements both on the acquisition date and in subsequent periods. SFAS 160 will change the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS 141R and SFAS 160 are effective beginning in the first quarter of 2009. Early adoption is not permitted. Implementation of SFAS 141R is prospective. The Company believes that the adoption of these accounting standards

will not have an impact on the Company's current consolidated results of operations and financial position.

Table of Contents

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159) which permits companies to choose to measure many financial instruments and certain other items at fair value. The Statement's objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Company adopted SFAS No. 159 on January 1, 2008 and elected not to fair value its existing financial assets and liabilities, and as a result, there was no impact on its consolidated results of operations and financial position.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157) which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under generally accepted accounting principles (GAAP). Under SFAS No. 157, there is now a common definition of fair value to be used throughout GAAP. The new standard makes the measurement of fair value more consistent and comparable and improves disclosures about those measures. The Company adopted the provisions of SFAS No. 157 on January 1, 2008, and there was no material impact on its consolidated results of operations and financial position.

Note 2 Treasury Stock and Dividends*Treasury Stock*

The Company repurchased 362,100 shares of its outstanding common stock in the open market during the nine months ended September 30, 2008 at a total cost of approximately \$8.0 million.

Dividends

The company paid the following quarterly dividends during the nine months ended September 30, 2008 and 2007 on its issued and outstanding common stock:

Record Date	Payment Date	Aggregate Payment	Per Share Payment
August 21, 2008	September 12, 2008	\$13.5 million	\$ 0.4125
May 22, 2008	June 12, 2008	\$13.4 million	\$ 0.4125
March 20, 2008	April 10, 2008	\$12.2 million	\$ 0.3750
August 15, 2007	August 29, 2007	\$12.5 million	\$ 0.3750
May 17, 2007	May 30, 2007	\$12.5 million	\$ 0.3750
February 23, 2007	March 9, 2007	\$10.0 million	\$ 0.3000

Note 3 Stock-Based Compensation Plans

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS No. 123R) requiring that compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity award).

Stock Options

Edgar Filing: TAL International Group, Inc. - Form 10-Q

The following compensation costs were reported in administrative expenses in the Company's statements of operations related to the Company's stock-based compensation plans as a result of 21,000 options granted during the year ended December 31, 2006. (dollars in thousands):

Three Months Ended September 30,		Nine Months Ended September 30,	
2008	2007	2008	2007
\$5	\$	\$16	\$12

Table of Contents

The total unrecognized compensation cost related to the stock-based compensation awards outstanding as of September 30, 2008 is approximately \$37,000 which will be recognized over the remaining vesting period of approximately 1.75 years.

Cash received from employee exercises of stock options for the nine months ended September 30, 2008 was approximately \$45,000. TAL did not recognize any tax benefits associated with these exercises.

Stock option activity under the plans from January 1, 2008 to September 30, 2008 was as follows:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Life (Yrs)	Aggregate Intrinsic Value \$ in 000 s
Outstanding January 1, 2008	615,192	\$ 18.16	7.8	
Granted				
Exercised	(2,500)	\$ 18.00		\$ 17
Canceled				
Outstanding September 30, 2008	612,692	\$ 18.16	7.1	\$ 1,677
Exercisable September 30, 2008	603,692	\$ 18.08	7.1	\$ 1,677

Restricted Stock

During the nine months ended September 30, 2008, 2,000 shares of restricted stock were granted to certain members of the Company's Board of Directors at a price of \$24.69. These shares were fully vested upon issuance, and resulted in approximately \$49,000 of compensation cost which is reflected in administrative expenses in the Company's statements of operations for the nine months ended September 30, 2008. In addition, six other members of the Company's Board of Directors elected to receive cash payments equal to the value of the restricted stock issued to the other Board members. This resulted in approximately \$148,000 of compensation cost which is reflected in administrative expenses in the Company's statements of operations for the nine months ended September 30, 2008.

During the year ended December 31, 2007, 132,000 shares of restricted stock were granted and valued with prices ranging from \$22.88 to \$27.93 per share. Of the 132,000 shares granted in 2007, 65,000 shares were granted for the 2007 benefit year (of which 1,500 shares were cancelled in 2007) and will fully vest on January 1, 2010. The remaining 68,500 shares were granted in December 2007 for the 2008 benefit year and will fully vest on January 1, 2011.

The following compensation costs were reported in administrative expenses in the Company's statements of operations related to the Company's stock-based compensation plans as a result of the restricted shares granted during the year ended December 31, 2007 (dollars in thousands):

**Three Months Ended September 30,
2008**

2007

**Nine Months Ended September 30,
2008**

2007

\$274

\$141

\$822

\$370

Total unrecognized compensation cost of approximately \$1.9 million as of September 30, 2008, related to restricted shares granted during 2007, will be recognized over the remaining vesting period of approximately 1.75 years.

Table of Contents**Note 4 Debt**

Debt consisted of the following (amounts in thousands):

	September 30, 2008	December 31, 2007
Asset backed securitization (ABS)		
Term notes Series 2006-1	\$ 515,667	\$ 566,667
Term notes Series 2005-1 (converted from warehouse facility)	401,389	379,500
Asset backed credit facility	147,400	
Revolving credit facility	67,000	98,500
Finance lease facility	49,638	49,500
2007 Term loan	35,208	20,000
Port equipment loan	12,950	15,043
Capital lease obligations	83,222	45,444
Total	\$ 1,312,474	\$ 1,174,654

Term Notes Series 2005-1 Converted from Warehouse Facility

On April 12, 2008, the Company's ABS Warehouse Facility automatically converted to a term loan, with a slightly higher interest margin, payable in equal monthly installments over nine years. The balance outstanding under the facility on the conversion date was \$425 million.

Asset Backed Credit Facility

On March 27, 2008, TAL Advantage II, LLC, an indirect wholly owned subsidiary of TAL International Group, Inc., entered into a \$125 million Asset Backed Credit Facility. The facility initially had a 15 month revolving credit period, commencing on the date of the facility, followed by a nine year term period in which the outstanding balance amortizes in equal monthly installments. The proceeds have been, and will continue to be used to support future capital expenditures. TAL has guaranteed the obligations of TAL Advantage II, LLC under the facility. On June 30, 2008, the borrowing capacity under the Asset Backed Credit Facility was increased to \$150 million. On September 15, 2008, the borrowing capacity under the Asset Backed Credit Facility was further increased to \$225 million and the revolving period was extended to June 30, 2010, on which date the facility will convert to a term facility and amortize in equal monthly installments through June 2018. The interest rate is 1.50% over LIBOR during the current revolving period, and will increase to 2.25% over LIBOR when converted to a term facility. There was \$147.4 million outstanding under this facility as of September 30, 2008.

Capital Lease Obligation

In August 2008, the Company entered into a sale-leaseback transaction for approximately 12,500 new containers for net proceeds of \$33.9 million. The lease was accounted for as a capital lease with interest expense recognized on a level yield basis over seven years, at which point there is an early purchase option.

Interest Rate Swaps

As of September 30, 2008, the Company had in place total interest rate swap contracts to fix the floating interest rates on a portion of the borrowings under its debt facilities as summarized below:

Total Notional Amount at September 30, 2008	Weighted Average Fixed Leg Interest Rate at September 30, 2008	Weighted Average Remaining Term
\$1,101 million	4.3%	3.2 years

8

Table of Contents

The fair values of the interest rate swap contracts were reflected in the consolidated balance sheets as follows (\$ in millions):

		September 30, 2008	December 31, 2007
Fair value of derivative instruments	liability	\$ 23.9	\$ 18.7
Fair value of derivative instruments	asset	\$ 1.8	\$ 0.8
Fair value of derivative instruments	net liability	\$ 22.1	\$ 17.9

Under the criteria established by SFAS No. 157, the Company performed fair value measurements of the derivative instruments, using Level 2 inputs, which are based on significant other observable inputs other than quoted prices, either on a direct or indirect basis. The Company is using valuation techniques it believes are appropriate.

The Company's unrealized losses on the interest rate swaps were reflected in its consolidated statements of operations as follows (\$ in millions):

Three Months Ended September 30,		Nine Months Ended September 30,	
2008	2007	2008	2007
\$7.4	\$16.4	\$3.3	\$8.4

These losses predominantly represent the change in fair value of the interest rate swap contracts, as well as amortization of other comprehensive income amounts previously recorded during the designation period of certain of the interest rate swaps.

Prior to April 12, 2006, the Company had designated all existing interest rate swap contracts as cash flow hedges, in accordance with Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*. On April 12, 2006, the Company de-designated its existing interest rate swap contracts, and the balance reflected in accumulated other comprehensive income due to changes in the fair value of the existing interest rate swap contracts was \$7.5 million. This amount is being recognized in income as unrealized (gain)/ loss on interest rate swaps using the interest method over the remaining life of the contracts. As of September 30, 2008, the unamortized pre-tax balance of the change in fair value reflected in accumulated other comprehensive income was \$2.3 million. The amount of other comprehensive income which will be amortized to income over the next 12 months is approximately \$0.9 million. Amounts recorded in accumulated other comprehensive income would be reclassified into earnings upon termination of these interest rate swap contracts and related debt instruments prior to their contractual maturity.

Table of Contents**Note 5 Earnings Per Share**

The following table sets forth the calculation of basic and diluted earnings per share for the three and nine months ended September 30, 2008 and 2007 (in thousands, except earnings per share):

	Three Months Ended September 30, 2008		Nine Months Ended September 30, 2008	
	2008	2007	2008	2007
Numerator:				
Net income applicable to common stockholders for basic and diluted earnings per share	\$ 14,534	\$ 3,538	\$ 51,059	\$ 35,388
Denominator:				
Weighted average shares outstanding for basic earnings per share	32,580	33,202	32,599	33,195
Dilutive stock options	183	212	170	199
Weighted average shares for diluted earnings per share	32,763	33,414	32,769	33,394
Earnings per share:				
Basic	\$ 0.45	\$ 0.11	\$ 1.57	\$ 1.07
Diluted	\$ 0.44	\$ 0.11	\$ 1.56	\$ 1.06

During the quarter and nine months ended September 30, 2008, options to purchase 6,500 shares of common stock were not included in the calculation of weighted average shares for diluted earnings per share because their effects were antidilutive. During the quarter and nine months ended September 30, 2007, 5,000 shares of restricted common stock were not included in the calculation of weighted average shares for diluted earnings per share because their effects were antidilutive.

Note 6 Segment and Geographic Information*Industry Segment Information*

The Company conducts its business activities in one industry, intermodal transportation equipment, and has two segments:

Equipment leasing the Company owns, leases and ultimately disposes of containers and chassis from its lease fleet, as well as manages leasing activities for containers owned by third parties.

Equipment trading the Company purchases containers from shipping line customers, and other sellers of containers, and sells these containers to container traders and users of containers for storage, one way shipment or other uses.

The following table presents certain segment information and the consolidated totals reported (dollars in thousands):

	Three Months Ended September 30, 2008			Three Months Ended September 30, 2007		
	Equipment Leasing	Equipment Trading	Totals	Equipment Leasing	Equipment Trading	Totals
Total revenues	\$ 81,453	\$ 26,234	\$ 107,687	\$ 73,822	\$ 13,739	\$ 87,561
Equipment trading expenses		22,972	22,972		12,368	12,368
Depreciation and amortization	28,144	5	28,149	25,754	2	25,756
Net (gain) on sale of equipment	(7,563)		(7,563)	(2,842)		(2,842)
Interest and debt expense	16,215	313	16,528	13,599	164	13,763
Income before income taxes⁽¹⁾	27,488	2,402	29,890	21,039	870	21,909

10

Table of Contents

- (1) Segment income before taxes excludes unrealized losses on interest rate swaps of \$7,371 for the three months ended September 30, 2008 and \$16,400 for the three months ended September 30, 2007.

The following table presents certain segment information and the consolidated totals reported (dollars in thousands):

	Nine Months Ended September 30, 2008			Nine Months Ended September 30, 2007		
	Equipment Leasing	Equipment Trading	Totals	Equipment Leasing	Equipment Trading	Totals
Total revenues	\$ 238,750	\$ 73,193	\$ 311,943	\$ 214,794	\$ 37,071	\$ 251,865
Equipment trading expenses		64,284	64,284		32,712	32,712
Depreciation and amortization	82,308	14	82,322	74,931	7	74,938
Net (gain) on sale of equipment	(18,059)		(18,059)	(8,343)		(8,343)
Interest and debt expense	46,104	954	47,058	37,390	479	37,869
Income before income taxes⁽²⁾	75,941	6,444	82,385	60,402	3,050	63,452
Goodwill at September 30	70,898	1,000	71,898	70,898	1,000	71,898
Total assets at September 30	1,897,331	20,796	1,918,127	1,616,403	11,189	1,627,592
Purchases of leasing equipment	354,353		354,353	266,642		266,642

- (2) Segment income before taxes excludes unrealized losses on interest rate swaps of \$3,273 for the nine months ended September 30, 2008 and \$8,351 for the nine months ended September 30, 2007.

Note: There are no intercompany revenues or expenses between segments. Additionally, certain administrative expenses have been allocated between segments based on an estimate of services provided to each segment. Equipment trading expenses include the cost of equipment sold, costs associated with the acquisition, maintenance and selling of trading inventory, such as positioning, repairs, handling, storage, and administrative costs.

Geographic Segment Information

The Company's customers use the Company's containers throughout their many worldwide trade routes. Substantially all of the Company's leasing related revenues are denominated in U.S. dollars. The following table represents the distribution of the Company's revenues for the periods indicated based on the customers' primary domicile (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Total revenues:				
United States of America	\$ 11,401	\$ 8,645	\$ 33,986	\$ 24,906
Asia	49,716	41,560	143,338	119,013
Europe	38,291	30,695	107,620	88,597
Other International	8,279	6,661	26,999	19,349
Total	\$ 107,687	\$ 87,561	\$ 311,943	\$ 251,865

Table of Contents

As substantially all of the Company's containers are used internationally, where no one container is domiciled in one particular place for a prolonged period of time, substantially all of the Company's containers are considered to be international.

Note 7 Commitments and Contingencies

During the third quarter of 2008, the Company entered into commitments for equipment residual value guarantees in connection with certain sale transactions. The guarantees represent the Company's commitment that these assets will be worth a specified amount at the end of a lease term. At September 30, 2008, the maximum potential amount of the guarantees under which the Company could be required to perform was approximately \$1.1 million. A portion of the sales proceeds (approximately \$74,000) has been deferred as the fair value of the guarantees in accordance with Financial Accounting Standards Board Interpretation No. 45 (FIN 45) *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness to Others*.

At September 30, 2008, commitments for capital expenditures totaled approximately \$23.2 million, through the remainder of 2008.

Note 8 Income Taxes

The consolidated income tax expense for the three and nine month periods ended September 30, 2008 and 2007 was determined based upon estimates of the Company's consolidated effective income tax rates for the years ending December 31, 2008 and 2007, respectively. The difference between the consolidated effective income tax rate and the U.S. federal statutory rate is primarily attributable to state income taxes, foreign income taxes and the effect of certain permanent differences.

Note 9 Comprehensive Income and Other

The following table provides a reconciliation of the Company's net income to comprehensive income (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Net income	\$ 14,534	\$ 3,538	\$ 51,059	\$ 35,388
Other comprehensive income:				
Foreign currency translation adjustments	(716)	119	(632)	238
Amortization of net unrealized gains on derivative instruments previously designated as cash flow hedges (net of tax expense of \$(113), \$(169), \$(354) and \$(547), respectively)	(204)	(307)	(641)	(989)
Total	\$ 13,614	\$ 3,350	\$ 49,786	\$ 34,637

The balance included in accumulated other comprehensive income for cumulative translation adjustments as of September 30, 2008 and December 31, 2007 was \$(238) of expense and \$394 of income, respectively.

The Company recorded \$1.4 million and \$0.6 million of unrealized foreign currency exchange losses in the quarter and nine months ended September 30, 2008, respectively. The Company recorded \$0.4 million and \$0.5 million of unrealized foreign currency exchange gains in the quarter and nine months ended September 30, 2007, respectively. These unrealized foreign currency exchange gains and losses resulted primarily from fluctuations on the Company's Euro and British Pound denominated assets, and are reported in administrative expenses in the Company's statements of operations.

Table of Contents

In April 2008, the Company entered into a foreign currency rate swap agreement to exchange Euro s for U.S. Dollars based on expected payments under its Euro denominated finance lease receivables. The foreign currency rate swap agreement expires in April 2015. The fair value of this derivative contract was \$0.8 million at September 30, 2008, and is reported as an asset in Fair Value of Derivative Instruments on the consolidated balance sheet. Under the criteria established by SFAS No. 157, the fair value measurement of the derivative instrument is based on significant other observable inputs other than quoted prices, either on a direct or indirect basis (Level 2), using valuation techniques the Company believes are appropriate.

Note 10 Subsequent Events

Quarterly Dividend

On October 30, 2008 the Company s Board of Directors approved and declared a \$0.4125 per share quarterly cash dividend on its issued and outstanding common stock, payable on December 10, 2008 to shareholders of record at the close of business on November 19, 2008.

Table of Contents

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the consolidated financial condition and results of operations of TAL International Group, Inc. and its subsidiaries should be read in conjunction with related consolidated financial data and our annual audited consolidated financial statements and related notes thereto included in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) on March 10, 2008. The statements in this discussion regarding industry outlook, our expectations regarding our future performance, liquidity and capital resources and other non-historical statements are subject to numerous risks and uncertainties, including, but not limited to, the risks and uncertainties described under Risk Factors and Forward-Looking Statements in our Form 10-K, and the risks and uncertainties described in this Quarterly Report on Form 10-Q and in our other filings with the SEC pursuant to the Securities Exchange Act of 1934. Our actual results may differ materially from those contained in or implied by any forward-looking statements.

Our Company

We are one of the world's largest and oldest lessors of intermodal containers and chassis. Intermodal containers are large, standardized steel boxes used to transport freight by ship, rail or truck. Because of the handling efficiencies they provide, intermodal containers are the primary means by which many goods and materials are shipped internationally. Chassis are used for the transportation of containers domestically.

We operate in one industry, intermodal transportation equipment, and have two business segments:

Equipment leasing — we own, lease and ultimately dispose of containers and chassis from our lease fleet, as well as manage leasing activities for containers owned by third parties.

Equipment trading — we purchase containers from shipping line customers, and other sellers of containers, and sell these containers to container traders and users of containers for storage, one way shipment or other uses.

Operations

Our operations include the acquisition, leasing, re-leasing and subsequent sale of multiple types of intermodal containers and chassis. As of September 30, 2008, our total fleet consisted of 729,518 containers and chassis, including 32,835 containers under management for third parties, representing 1,187,380 twenty-foot equivalent units (TEU). We have an extensive global presence, offering leasing services through 20 offices in 11 countries and 186 third party container depot facilities in 36 countries as of September 30, 2008. Our customers are among the largest shipping lines in the world. For the nine months ended September 30, 2008, our twenty largest customers accounted for 75% of our leasing revenue, our five largest customers accounted for 47% of our leasing revenues, and our largest customer accounted for 16% of our leasing revenues.

We lease three principal types of equipment: (1) dry freight containers, which are used for general cargo such as manufactured component parts, consumer staples, electronics and apparel, (2) refrigerated containers, which are used for perishable items such as fresh and frozen foods, and (3) special containers, which are used for heavy and oversized cargo such as marble slabs, building products and machinery. We also lease chassis, which are used for the transportation of containers domestically via rail and roads, and tank containers, which are used to transport bulk liquid products such as chemicals. We have also financed port equipment. Our in-house equipment sales group manages the sale process for our used containers and chassis from our equipment leasing fleet and buys and sells containers and chassis acquired from third parties.

Table of Contents

The following tables provide the composition of our equipment fleet as of the dates indicated below (in both units and TEU s):

	Equipment Fleet in Units								
	September 30, 2008			December 31, 2007			September 30, 2007		
	Owned	Managed	Total	Owned	Managed ⁽¹⁾	Total	Owned	Managed	Total

	Equipment Fleet in TEU s								
	September 30, 2008			December 31, 2007			September 30, 2007		
	Owned	Managed	Total	Owned	Managed ⁽¹⁾	Total	Owned	Managed	Total
Containerized	933,683	52,733	986,416	886,816	47,315	934,131	852,322	88,372	940,694
	69,020	1,047	70,067	66,625	1,436	68,061	64,864	1,545	66,409
	82,088	4,559	86,647	69,544	6,023	75,567	51,576	23,542	75,118
	1,101		1,101	110		110			110
	15,657		15,657	13,924		13,924	13,936		13,936
Equipment fleet	1,101,549	58,339	1,159,888	1,037,019	54,774	1,091,793	982,698	113,459	1,096,157
Equipment fleet	27,492		27,492	19,371		19,371	14,809		19,371
Equipment fleet	1,129,041	58,339	1,187,380	1,056,390	54,774	1,111,164	997,507	113,459	1,110,966
Percentage	95.1%	4.9%	100.0%	95.1%	4.9%	100.0%	89.8%	10.2%	89.8%

(1) The decrease in our managed equipment fleet from September 30, 2007 to December 31, 2007 is primarily due to our purchase of approximately 34,000 units or approximately 57,000 TEU of managed containers from a third party owner in October 2007. The units are included in our owned equipment fleet as of December 31, 2007.

Table of Contents

We generally lease our equipment on a per diem basis to our customers under three types of leases: long-term leases, service leases and finance leases. Long-term leases, typically with terms of three to eight years, provide us with stable cash flow and low transaction costs by requiring customers to maintain specific units on-hire for the duration of the lease. Service leases command a premium per diem rate in exchange for providing customers with a greater level of operational flexibility by allowing the pick-up and drop-off of units during the lease term. Finance leases, which are typically structured as full payout leases, provide for a predictable recurring revenue stream with the lowest daily cost to the customer because customers are generally required to retain the equipment for the duration of its useful life. As of September 30, 2008, approximately 93% of our containers and chassis were on-hire to customers, with approximately 57% of our equipment on long-term leases, approximately 10% on finance leases and approximately 26% on service leases or long-term leases whose fixed terms have expired but for which the related units remain on-hire and for which we continue to receive rental payments. In addition, approximately 5% of our fleet was available for lease and approximately 2% was available for sale. The following table provides a summary of our lease portfolio, based on units in the total fleet as of the dates indicated below:

Lease Portfolio	September 30, 2008	December 31, 2007	September 30, 2007
Long-term lease	56.8%	55.1%	55.7%
Service lease	25.5	26.6	27.1
Finance lease	10.4	9.9	9.6
Total leased	92.7	91.6	92.4
Used units available for lease	2.0	2.8	2.4
New units not yet leased	3.2	3.0	3.3
Available for sale	2.1	2.6	1.9
Total fleet	100.0%	100.0%	100.0%

Operating Performance

Our profitability is primarily determined by the extent to which our leasing and other revenues exceed our ownership, operating and administrative expenses. Our profitability is also impacted by the gain or loss that we realize on the sale of our used equipment and the net sales margins on our equipment trading activities. Our profitability for the first nine months of 2008 was supported by the growth of our owned container fleet, increased utilization in all of our major product lines, exceptional gains on the sale of used containers and strong margins for our equipment trading activity. Additionally, in the third quarter of 2008, we concluded several container portfolio sales for which we realized gains.

Our leasing revenue is primarily driven by our owned fleet size, utilization and average rental rates. Our leasing revenue is also impacted by the mix of leases in our portfolio.

As of September 30, 2008, our owned fleet included 1,129,041 TEU, an increase of 6.9% from December 31, 2007 and up 13.2% from September 30, 2007. The increase in fleet size in 2008 relative to the third quarter of 2007 was due to a high level of new container procurement as well as the purchase of approximately 57,000 TEU of previously managed containers from a third party owner in October 2007. As of September 30, 2008, our revenue earning assets (leasing equipment, net investment in finance leases, and equipment held for sale) totaled \$1,716.7 million, an increase of \$216.6 million, or 14.4% over December 31, 2007 and an increase of \$275.7 million, or 19.1% over

September 30, 2007. Our revenue earning asset growth has been higher on a dollar basis than our fleet growth has been on a TEU basis due to our large purchases of refrigerated containers, special containers and tank containers, which are more expensive than dry containers on a per TEU basis. In addition, the growth of our fleet has decreased the average age and increased the average net book value of the units in our owned fleet.

Table of Contents

Container deliveries are expected to be low in the fourth quarter, since this is typically the slow season for dry containers. Through October 31, 2008, we have accepted or placed orders for approximately 142,000 TEU of new equipment. While we have secured lease commitments for most of these ordered units, further procurement will be contingent on the pace of our success with leasing out the remaining uncommitted units.

In the third quarter of 2008, we disposed of approximately 21,000 TEU of our owned containers, or approximately 1.9% of our beginning owned container equipment leasing fleet. This annualized disposal rate of approximately 7.6% is similar to the 6-8% annual disposal rate we have been experiencing for the last few years, and generally consistent with our expected long-term average disposal rate given the 12-14 year expected useful life of our containers. Based on the age profile of our leasing fleet, scheduled lease expirations, and expectations of a reduction in global trade growth, we expect that our rate of disposals will increase in the near future and remain at an above-average level for several years before decreasing significantly for several years thereafter. During years of above-average disposals, our TEU growth rate may be constrained if we are unable to generate a sufficient number of attractive lease transactions for an expanded level of container purchases.

Our average utilization was 92.0% in the third quarter of 2008, an increase of 1.3% from the second quarter of 2008, and an increase of 1.0% from the third quarter of 2007. Ending utilization increased 1.0% from 91.7% as of June 30, 2008 to 92.7% as of September 30, 2008. The increase in our utilization in the third quarter of 2008 relative to the second quarter of 2008 was primarily driven by strong dry container on-hire activity throughout the third quarter as customers picked-up containers that had been committed to leases in the first and second quarters. Leasing demand for our refrigerated and special containers continued to be strong as well. Ending utilization, excluding new units not yet leased, was 95.8% at the end of the third quarter of 2008 compared to 95.5% as of September 30, 2007 and 94.4% as of December 31, 2007.

Leasing demand for containers and the utilization of our fleet in 2008 has been supported by continued worldwide containerized trade growth and reduced direct container purchases by our shipping line customers due to the high cost of new containers and the increased scarcity of growth capital. However, looking forward, there is growing concern that global trade growth may be slowing. A number of major shipping lines have reported that their traditional summer peak seasons were weaker than expected, and several shipping lines have started to take vessels out of service. Industry forecasters have reduced their projections for global containerized trade growth in 2008 and 2009. In their October 2008 report, Clarkson Research Studies projected that worldwide containerized trade growth will be 6.8% for 2008 and 7.2% for 2009, down from their January 2008 forecast of 9.7% for 2008 and 9.8% for 2009.

The following table sets forth our average equipment fleet utilization for the periods indicated below:

	September 30, 2008	June 30, 2008	March 31, 2008	December 31, 2007	September 30, 2007	September 30, 2008	September 30, 2007
	3 months	3 months	3 months	3 months	3 months	9 months	9 months
Average Utilization⁽¹⁾	92.0%	90.7%	90.1%	91.9%	91.0%	90.9%	91.1%

(1) Utilization is computed by dividing our total units on lease by the total units in our fleet (which includes leased units, new and used units available for lease and units available for sale).

The following tables set forth our ending fleet utilization for the dates indicated below:

	September 30, 2008	June 30, 2008	March 31, 2008	December 31, 2007	September 30, 2007
Ending Utilization	92.7%	91.7%	89.2%	91.6%	92.4%
	September 30, 2008	June 30, 2008	March 31, 2008	December 31, 2007	September 30, 2007
Ending Utilization (excluding new units not yet leased)	95.8%	95.4%	94.0%	94.4%	95.5%

Table of Contents

Average lease rates for our dry container product line in the third quarter of 2008 were slightly higher compared to the average level of the third quarter of 2007 and the second quarter of 2008. The increase in dry container lease rates was mainly due to new containers going on-hire in the third quarter at lease rates above the average lease rates in our portfolio. New container prices increased approximately 25% from the end of 2007 to the end of the third quarter of 2008, primarily due to increasing steel prices, and market lease rates increased by a corresponding amount. The price for a 20' dry container was approximately \$2,500 at the end of third quarter of 2008, though steel prices in China decreased significantly during October, and we expect container prices and market lease rates for new containers to decrease if steel prices remain at their current level through the end of the year.

Average lease rates for refrigerated containers in the third quarter of 2008 were 1.2% lower than in the third quarter of 2007, and 0.9% lower than in the second quarter of 2008. Steel makes up a smaller portion of the price for refrigerated containers, and market leasing rates for new refrigerated containers are slightly below our portfolio average rates. Average rental rates for our special containers were 1.4% higher during the third quarter of 2008 compared to the third quarter of 2007, and 1.1% lower compared to the second quarter of 2008.

During the third quarter of 2008, we concluded the sale of several small container portfolios. The containers included in these portfolio sales were generally younger containers on long-term leases with our shipping lines customers, and we will continue to be involved with and receive fees for collections and other management services. These portfolio sales were mainly undertaken to expand our network of third-party container investors and diversify our funding sources. We received total proceeds of \$40.5 million for the portfolio sales and recorded gains of approximately \$2.8 million.

During the third quarter of 2008, we recognized a \$7.6 million gain on the sale of our used containers compared to a \$2.8 million gain in the third quarter of 2007. The improvement compared to the third quarter of 2007 mainly resulted from an increase in equipment selling prices, as well as an increase in sales volume. The average selling prices for our used containers increased 16.2% from the third quarter of 2007 to the third quarter of 2008. In 2008, the sale prices for our used containers have been supported by high new container prices and high utilization of leasing company and shipping line owned containers, which decreases the supply of used containers for sale. Our used container selling prices have also been supported by the depreciation of the U.S. dollar relative to other major currencies since the majority of our used container sale transactions are structured in local currencies. We expect that the size of our gains in the fourth quarter of 2008 may decrease from the third quarter level due to lower new container prices, an expected seasonal decrease in disposal volumes and the recent strengthening of the U.S. dollar.

Our ownership expenses, principally depreciation and interest expense increased by \$5.2 million, or 13.1% in the third quarter of 2008 from the third quarter of 2007, compared to a 19.1% increase in the dollar value of our revenue earning assets over the same time. Our depreciation expense increased 9.3%, substantially less than our revenue earning asset growth. Growth in depreciation expense has been less than our asset growth due to the increasing average sale age of our containers and the resulting increase in the portion of our containers that have become fully depreciated. Interest expense increased 20.1% in the third quarter of 2008, compared to the third quarter of 2007, increasing at roughly the same rate as our revenue earning assets.

Our provision for doubtful accounts was \$1.9 million for the third quarter of 2008, up from \$0.3 million in the third quarter of 2007. The increase in the provision for doubtful accounts in the third quarter of 2008 primarily relates to a partial reserve against a finance lease for one of our customers. We are currently in the recovery process with this customer. We expect to incur recovery expenses and some container losses, and we will re-evaluate the sufficiency of our reserve against these losses and expenses during the fourth quarter of 2008.

In general, we remain concerned that we may continue to see an increase in the number and size of customer defaults due to the deteriorating financial performances of our shipping line customers combined with the constrained capital

markets that could make it difficult for our customers to finance

Table of Contents

their vessel orders and other expansion commitments. A number of major shipping lines have recently reported that they expect significant decreases in profitability during the second half of 2008. In the last few quarters at least five small shipping lines have ceased operations of which we had exposure to two. We have not yet experienced a general deterioration of our customers lease payment performance, but we are actively reviewing our portfolio to make sure we identify potential problem accounts as early as possible and we are becoming more selective in pursuing new business opportunities.

Dividends

We paid the following quarterly dividends during the nine months ended September 30, 2008 and 2007 on our issued and outstanding common stock:

Record Date	Payment Date	Aggregate Payment	Per Share Payment
August 21, 2008	September 12, 2008	\$13.5 million	\$ 0.4125
May 22, 2008	June 12, 2008	\$13.4 million	\$ 0.4125
March 20, 2008	April 10, 2008	\$12.2 million	\$ 0.3750
August 15, 2007	August 29, 2007	\$12.5 million	\$ 0.3750
May 17, 2007	May 30, 2007	\$12.5 million	\$ 0.3750
February 23, 2007	March 9, 2007	\$10.0 million	\$ 0.3000

Treasury Stock

We repurchased 362,100 shares of our outstanding common stock in the open market during the nine months ended September 30, 2008 at a total cost of approximately \$8.0 million.

Table of Contents**Results of Operations**

The following table summarizes our results of operations for the three months and nine months ended September 30, 2008 and 2007 in thousands of dollars and as a percentage of total revenues:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2008		2007		2008		2007	
	Dollars	Percent	Dollars	Percent	Dollars	Percent	Dollars	Percent

Table of Contents**Comparison of Three Months Ended September 30, 2008 to Three Months Ended September 30, 2007.**

Leasing revenues. The principal components of our leasing revenues are presented in the following table. Per diem revenue represents revenue earned under operating lease contracts; fee and ancillary lease revenue represent fees billed for the pick-up and drop-off of containers in certain geographic locations and billings of certain reimbursable operating costs such as repair, handling, and positioning expenses; and finance lease revenue represents interest income earned under finance lease contracts.

	Three Months Ended September 30, 2008 2007 (in thousands)	
Leasing revenues:		
Operating lease revenues:		
Per diem revenue	\$ 67,683	\$ 60,467
Fee and ancillary lease revenue	7,284	6,563
Total operating lease revenue	74,967	67,030
Finance lease revenue	5,412	4,728
Total leasing revenues	\$ 80,379	\$ 71,758

Total leasing revenues were \$80.4 million for the three months ended September 30, 2008, compared to \$71.8 million for the three months ended September 30, 2007, an increase of \$8.6 million, or 12.0%. The increase in leasing revenues primarily resulted from an increase in our owned fleet size and increased utilization for all of our primary equipment types.

Equipment Trading Activities. Equipment trading revenue represents the proceeds on the sale of equipment purchased for resale. Equipment trading expenses represent the cost of equipment sold, costs associated with the acquisition, maintenance and selling of trading inventory, such as positioning, repairs, handling and storage costs, and estimated direct selling and administrative costs.

	Three Months Ended September 30, 2008 2007 (in thousands)	
Equipment trading revenue	\$ 26,098	\$ 13,614
Equipment trading expenses	(22,972)	(12,368)
Equipment trading margin	\$ 3,126	\$ 1,246

The equipment trading margin increased \$1.9 million for the three months ended September 30, 2008 compared to the three months ended September 30, 2007 primarily due to higher volume and higher per unit margins on sold containers. Equipment trading margins were high in the third quarter of 2008 partially due to the upward trend in used container selling prices in 2008. We typically experience a lag of several months between the time that we buy and sell used containers, so that we benefit from inventory profits in addition to our target sales margins when prices are increasing.

Direct operating expenses. Direct operating expenses were \$6.2 million for the three months ended September 30, 2008, compared to \$6.8 million for the three months ended September 30, 2007, a decrease of \$0.6 million or 9.0%. The decrease was primarily due to less positioning and storage of equipment due to higher utilization.

Administrative expenses. Administrative expenses were \$12.4 million for the three months ended September 30, 2008, compared to \$9.5 million for the three months ended September 30, 2007, an increase of \$2.9 million or 31.4%. The increase was primarily due to an increase in incentive compensation costs related to our high level of profitability growth, as well as higher foreign currency

Table of Contents

exchange losses due to the recent strengthening of the U.S. dollar against major currencies such as the British Pound and Euro.

Depreciation and amortization. Depreciation and amortization was \$28.1 million for the three months ended September 30, 2008, compared to \$25.8 million for the three months ended September 30, 2007, an increase of \$2.3 million or 9.3%. The increase was primarily due to the increase in the dollar value of our leasing equipment, which was partially offset by a decrease due to another vintage year of older equipment becoming fully depreciated in the fourth quarter of 2007.

Provision for doubtful accounts. Provision for doubtful accounts was \$1.9 million for the three months ended September 30, 2008, compared to \$0.3 million for the three months ended September 30, 2007, an increase of \$1.6 million. The increase was primarily due to a reserve established for amounts estimated to be uncollectible under a finance lease receivable for one of our customers.

Net (gain) on sale of leasing equipment. Gain on sale of equipment was \$7.6 million for the three months ended September 30, 2008, compared to a gain of \$2.8 million for the three months ended September 30, 2007, an increase of \$4.8 million due primarily to an increase in both equipment selling prices and volume.

Net (gain) on sale of container portfolios. Gain on the sale of container portfolios was \$2.8 million for the three months ended September 30, 2008. There were no sales of container portfolios for the three months ended September 30, 2007. In the third quarter of 2008 we sold three container portfolios for total proceeds of \$40.5 million.

Interest and debt expense. Interest and debt expense was \$16.5 million for the three months ended September 30, 2008, compared to \$13.8 million for the three months ended September 30, 2007, an increase of \$2.7 million or 20.1%. The increase was primarily due to an increase in the average debt balance driven by the increase in the size of our fleet. In addition, the interest margin increased due to increases in the rate on our \$425 million 2006 securitization warehouse when the facility automatically converted to a term loan on April 12, 2008 and on borrowings pursuant to our asset based credit facility during the third quarter of 2008.

Unrealized loss on interest rate swaps. Unrealized loss on interest rate swaps was \$7.4 million for the three months ended September 30, 2008, compared to an unrealized loss of \$16.4 million for the three months ended September 30, 2007. The lower unrealized loss for the three months ended September 30, 2008 versus the three months ended September 30, 2007 was due to a smaller decrease in long-term interest rates during the three months ended September 30, 2008 as compared to the three months ended September 30, 2007.

Income tax expense. Income tax expense was \$8.0 million for the three months ended September 30, 2008, compared to an income tax expense of \$2.0 million for the three months ended September 30, 2007, and the effective tax rates were 35.5% for the three months ended September 30, 2008 and 35.8% for the three months ended September 30, 2007.

While we record income tax expense, we do not currently pay any significant federal, state or foreign income taxes due to the availability of accelerated tax depreciation for our equipment. The vast majority of the expense recorded for income taxes is recorded as a deferred income tax liability on the balance sheet. We expect the deferred income tax liability balance to grow for the foreseeable future.

Comparison of Nine Months Ended September 30, 2008 to Nine Months Ended September 30, 2007.

Leasing revenues. The principal components of our leasing revenues are presented in the following table. Per diem revenue represents revenue earned under operating lease contracts; fee and ancillary lease revenue represent fees

billed for the pick-up and drop-off of containers in certain geographic

Table of Contents

locations and billings of certain reimbursable operating costs such as repair, handling, and positioning expenses; and finance lease revenue represents interest income earned under finance lease contracts.

	Nine Months Ended September 30, 2008 2007 (in thousands)	
Leasing revenues:		
Operating lease revenues:		
Per diem revenue	\$ 196,894	\$ 175,218
Fee and ancillary lease revenue	23,307	20,242
Total operating lease revenue	220,201	195,460
Finance lease revenue	15,460	13,326
Total leasing revenues	\$ 235,661	\$ 208,786

Total leasing revenues were \$235.7 million for the nine months ended September 30, 2008, compared to \$208.8 million for the nine months ended September 30, 2007, an increase of \$26.9 million, or 12.9%. The increase in leasing revenues primarily resulted from an increase in our owned fleet size for all of our primary equipment types.

Equipment Trading Activities. Equipment trading revenue represents the proceeds on the sale of equipment purchased for resale. Equipment trading expenses represent the cost of equipment, costs associated with the acquisition, maintenance and selling of trading inventory, such as positioning, repairs, handling and storage costs, and estimated direct selling and administrative costs.

	Nine Months Ended September 30, 2008 2007 (in thousands)	
Equipment trading revenue	\$ 72,802	\$ 36,728
Equipment trading expenses	(64,284)	(32,712)
Equipment trading margin	\$ 8,518	\$ 4,016

The equipment trading margin increased \$4.5 million for the nine months ended September 30, 2008 compared to the nine months ended September 30, 2007 primarily due to an increase in volume of units sold and an increase in per unit trading margins.

Direct operating expenses. Direct operating expenses were \$20.6 million for the nine months ended September 30, 2008, compared to \$21.4 million for the nine months ended September 30, 2007, a decrease of \$0.8 million or 3.6%. The decrease was primarily due to lower positioning and storage costs and lower repair costs primarily related to our

increase in utilization.

Administrative expenses. Administrative expenses were \$34.1 million for the nine months ended September 30, 2008, compared to \$29.2 million for the nine months ended September 30, 2007, an increase of \$4.9 million or 16.7%. The increase was primarily due to an increase in incentive compensation costs related to our high level of profitability growth, as well as higher foreign currency exchange losses.

Depreciation and amortization. Depreciation and amortization was \$82.3 million for the nine months ended September 30, 2008, compared to \$74.9 million for the nine months ended September 30, 2007, an increase of \$7.4 million or 9.9%. The increase was primarily due to the increase in the dollar value of our leasing equipment, partially offset by a decrease due to another vintage year of older equipment becoming fully depreciated in the fourth quarter of 2007.

Provision for doubtful accounts. Provision for doubtful accounts was \$2.1 million for the nine months ended September 30, 2008, compared to \$0.7 million for the nine months ended September 30, 2007, an

Table of Contents

increase of \$1.4 million. The increase was primarily due to a reserve established in the third quarter of 2008 for amounts estimated to be uncollectible under a finance lease receivable for one of our customers.

Net (gain) on sale of leasing equipment. Gain on sale of equipment was \$18.1 million for the nine months ended September 30, 2008, compared to a gain of \$8.3 million for the nine months ended September 30, 2007, an increase of \$9.8 million due primarily to an increase in both equipment selling prices and volume.

Net (gain) on sale of container portfolios. Gain on the sale of container portfolios was \$2.8 million for the nine months ended September 30, 2008. There were no sales of container portfolios for the nine months ended September 30, 2007. In the third quarter of 2008 we sold three container portfolios for total proceeds of \$40.5 million.

Interest and debt expense. Interest and debt expense was \$47.1 million for the nine months ended September 30, 2008, compared to \$37.9 million for the nine months ended September 30, 2007, an increase of \$9.2 million or 24.3%. The increase was primarily due to an increase in the average debt balance driven by the increase in the size of our container fleet. In addition, the interest margin on our \$425 million 2006 securitization warehouse increased when the facility automatically converted to a term loan on April 12, 2008.

Unrealized loss on interest rate swaps. Unrealized loss on interest rate swaps was \$3.3 million for the nine months ended September 30, 2008, compared to an unrealized loss of \$8.4 million for the nine months ended September 30, 2007. The unrealized loss for the nine months ended September 30, 2008 versus the nine months ended September 30, 2007 was due to a smaller decrease in long-term interest rates during the nine months ended September 30, 2008 as compared to the nine months ended September 30, 2007.

Income tax expense. Income tax expense was \$28.1 million for the nine months ended September 30, 2008, compared to an income tax expense of \$19.7 million for the nine months ended September 30, 2007, and the effective tax rates were 35.5% for the nine months ended September 30, 2008 and 35.8% for the nine months ended September 30, 2007.

While we record income tax expense, we do not currently pay any significant federal, state or foreign income taxes due to the availability of accelerated tax depreciation for our equipment. The vast majority of the expense recorded for income taxes is recorded as a deferred income tax liability on the balance sheet. We expect the deferred income tax liability balance to grow for the foreseeable future.

Business Segments

We operate our business in one industry, intermodal transportation equipment, and in two business segments:

Equipment leasing we own, lease and ultimately dispose of containers and chassis from our lease fleet, as well as manage leasing activities for containers owned by third parties. Equipment leasing segment revenues represent leasing revenues from operating and finance leases, fees earned on managed container leasing activities, as well as other revenues. Expenses related to equipment leasing include direct operating expenses, administrative expenses, depreciation expense, and interest expense. The equipment leasing segment also includes gains and losses on the sale of owned leasing equipment.

Equipment trading we purchase containers from shipping line customers and other sellers of containers, and sell these containers to container traders and users of containers for storage, one-way shipment or other uses. Equipment trading segment revenues represent the proceeds on the sale of containers purchased for resale. Expenses related to equipment trading include the cost of containers purchased for resale that were sold and related selling costs, as well as direct operating expenses, direct and indirect administrative expenses and

interest expense.

Table of Contents

The following table lists selected revenue and expense items for our business segments for the three and nine months ended September 30, 2008 and 2007 (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2008	2007	2008	2007
Equipment leasing segment:				
Total revenues	\$ 81,453	\$ 73,822	\$ 238,750	\$ 214,794
Depreciation and amortization	28,144	25,754	82,308	74,931
Net (gain) on sale of leasing equipment	(7,563)	(2,842)	(18,059)	(8,343)
Interest and debt expense	16,215	13,599	46,104	37,390
Income before income taxes⁽¹⁾	27,488	21,039	75,941	60,402
Equipment trading segment:				
Equipment trading revenue	\$ 26,098	\$ 13,614	\$ 72,802	\$ 36,728
Equipment trading expenses	22,972	12,368	64,284	32,712
Interest and debt expense	313	164	954	479
Income before income taxes⁽¹⁾	2,402	870	6,444	3,050

(1) Income before income taxes excludes unrealized losses on interest rate swaps.

Equipment Trading Segment: Our equipment trading margin, the difference between equipment trading revenue and expense, increased by \$1.9 million for the quarter ended September 30, 2008 compared to the quarter ended September 30, 2007. However, pre-tax income for the Equipment Trading Segment increased only \$1.5 million over the same period, primarily due to an increase in allocated expenses. Our equipment trading margin increased by \$4.5 million for the nine months ended September 30, 2008 compared to the nine months ended September 30, 2007. Pre-tax income for the Equipment Trading Segment increased \$3.4 million over the same period. Corporate expenses are allocated to the Equipment Trading Segment primarily based upon the volume of units sold from the equipment trading fleet, and equipment trading sales volumes were significantly higher in the third quarter and first nine months of 2008 than they were in the third quarter and first nine months of 2007. Interest expense was also higher during the third quarter and first nine months of 2008 due to an increase in Trading inventory.

Liquidity and Capital Resources

Our principal sources of liquidity are cash flows generated from operations and borrowings under our credit facilities. Our cash flows are used to finance capital expenditures, provide working capital, meet debt service requirements, and pay dividends. We believe that cash from operations and existing cash, together with available borrowings under our credit facilities, will be sufficient to meet our working capital requirements and our scheduled interest and debt payments for at least the next twelve months. However, our ability to make future capital expenditures and implement our current growth plans is dependent on our ability to increase our lending commitments.

On March 27, 2008, we entered into a \$125 million Asset Backed Credit Facility. The facility initially had a 15 month revolving credit period, commencing on the date of the facility, followed by a nine year term period in which the outstanding balance amortizes in equal monthly installments. On June 30, 2008, the borrowing capacity was increased to \$150 million. On September 15, 2008, the borrowing capacity was further increased to \$225 million and the

revolving period was extended to June 30, 2010, on which date the facility will convert to a term facility and amortize in equal monthly installments through June 2018. The interest rate is 1.50% over LIBOR during the current revolving period, and will increase to 2.25% over LIBOR when converted to a term facility. There was \$147.4 million outstanding under this facility as of September 30, 2008.

Table of Contents

In August 2008, we entered into a sale-leaseback transaction for approximately 12,500 new containers for net proceeds of \$33.9 million. The lease was accounted for as a capital lease with interest expense recognized on a level yield basis over seven years, at which point there is an early purchase option.

We expect our existing financing facilities, together with our cash flows from operations, to enable us to meet our asset growth plans for the remainder of 2008. We continue to seek additional sources of financing to fund our growth plans beyond 2008, though disruptions in the capital markets have become more severe, and this may make it more difficult and more expensive for us to secure additional financing commitments. If we are unsuccessful in obtaining sufficient additional financing we deem suitable, we will not be able to invest in our fleet at our target level and our future growth rate and profitability will decrease.

At September 30, 2008, our outstanding indebtedness was comprised of the following (amounts in millions):

		Current Amount Outstanding	Current Maximum Commitment Level
Asset backed securitization term notes	Series 2006-1	\$ 515.7	\$ 515.7
Asset backed securitization term notes	Series 2005 -1 (converted from warehouse facility)	401.4	401.4
Asset backed credit facility		147.4	225.0
Revolving credit facility		67.0	100.0
Finance lease facility		49.6	49.6
2007 term loan		35.2	35.2
Port equipment loan		12.9	12.9
Capital lease obligations		83.2	83.2
Total debt		\$ 1,312.4	\$ 1,423.0

The maximum commitment levels depicted in the chart above may not reflect the actual availability under all of the credit facilities. Certain of these facilities are governed by borrowing bases that limit borrowing capacity to an established percentage of relevant assets.

The Company is subject to various covenant requirements under its debt facilities. At September 30, 2008, the Company was in compliance with all covenants.

Dividends

We paid the following quarterly dividends during the nine months ended September 30, 2008 and 2007 on our issued and outstanding common stock:

Record Date	Payment Date	Aggregate Payment	Per Share Payment
August 21, 2008	September 12, 2008	\$13.5 million	\$ 0.4125

Edgar Filing: TAL International Group, Inc. - Form 10-Q

May 22, 2008	June 12, 2008	\$13.4 million	\$ 0.4125
March 20, 2008	April 10, 2008	\$12.2 million	\$ 0.3750
August 15, 2007	August 29, 2007	\$12.5 million	\$ 0.3750
May 17, 2007	May 30, 2007	\$12.5 million	\$ 0.3750
February 23, 2007	March 9, 2007	\$10.0 million	\$ 0.3000

Treasury Stock

We repurchased 362,100 shares of our outstanding common stock in the open market during the nine months ended September 30, 2008 at a total cost of approximately \$8.0 million.

Table of Contents**Cash Flow**

The following table sets forth certain cash flow information for the nine months ended September 30, 2008 and 2007 (in thousands):

	Nine Months Ended September 30,	
	2008	2007
Net cash provided by operating activities	\$ 139,495	\$ 120,490
Net cash (used in) provided by investing activities:		
Purchases of leasing equipment	\$ (316,345)	\$ (229,811)
Investment in finance leases	(38,008)	(36,831)
Proceeds from sale of equipment leasing fleet, net of selling costs	63,944	44,476
Proceeds from the sale of container portfolios	40,539	
Cash collections on finance lease receivables, net of income earned	19,938	17,619
Other	330	238
Net cash (used in) investing activities	\$ (229,602)	\$ (204,309)
Net cash provided by financing activities	\$ 79,176	\$ 66,655

Operating Activities

Net cash provided by operating activities increased by \$19.0 million to \$139.5 million in the nine months ended September 30, 2008, compared to \$120.5 million in the nine months ended September 30, 2007 primarily due to an increase in profitability.

Investing Activities

Net cash used in investing activities was \$229.6 million in the nine months ended September 30, 2008, as compared to \$204.3 million in the nine months ended September 30, 2007. Cash payments for capital expenditures were \$354.4 million, including investments in finance leases of \$38.0 million, in the nine months ended September 30, 2008, compared to \$266.6 million, including investments in finance leases of \$36.8 million, in the nine months ended September 30, 2007. Cash payments for capital expenditures increased by \$87.8 million primarily due to higher per unit costs, as well as an increase in the number of new units purchased. Sales proceeds from the disposal of equipment increased \$19.4 million to \$63.9 million in the nine months ended September 30, 2008, compared to \$44.5 million in the nine months ended September 30, 2007. The increase in sales proceeds is primarily due to increased selling prices and volumes for container disposals. Proceeds from the sale of container portfolios were \$40.5 million in the nine months ended September 30, 2008 compared to \$0 in the nine months ended September 30, 2007. Cash collections on finance leases, net of income earned increased by \$2.3 million to \$19.9 million for the nine months ended September 30, 2008, compared to \$17.6 million for the nine months ended September 30, 2007 as a result of an increase in our finance lease portfolio.

Financing Activities

Net cash provided by financing activities was \$79.2 million for the nine months ended September 30, 2008, compared to net cash provided by financing activities of \$66.7 million for the nine months ended September 30, 2007. During the nine months ended September 30, 2008, we increased our borrowings under our debt facilities, the proceeds of which were primarily used to finance the purchase of new equipment. We also increased our financing activity through the use of capital lease obligations. These borrowings were partially offset by net cash used to pay down borrowings on our ABS term notes, other debt facilities and capital lease obligations. In addition, \$8.0 million in cash was used to purchase treasury shares, and we paid \$39.1 million in dividends.

Table of Contents

During the nine months ended September 30, 2007, we increased borrowings under our ABS Warehouse Facility and other debt facilities, the proceeds of which were primarily used to finance the purchase of new equipment. This was substantially offset by net cash used to pay down borrowings on our ABS term notes and revolving credit facility. Additionally, cash was used during the nine months ended September 30, 2007 to pay dividends of \$34.9 million on our common stock outstanding.

Contractual Obligations

We are party to various operating and capital leases and are obligated to make payments related to our long term borrowings. We are also obligated under various commercial commitments, including obligations to our equipment manufacturers. Our equipment manufacturer obligations are in the form of conventional accounts payable, and are satisfied by cash flows from operating and long term financing activities.

The following table summarizes our contractual obligations and commercial commitments as of September 30, 2008:

Contractual Obligations:	Contractual Obligations by Period (dollars in millions)					
	Total	Remaining 2008	2009	2010	2011	2012 and thereafter
Total debt obligations ⁽¹⁾	\$ 1,500.1	\$ 48.4	\$ 189.5	\$ 220.1	\$ 188.6	\$ 853.5
Capital lease obligations	104.4	1.9	9.8	10.1	10.2	72.4
Operating leases (mainly facilities)	5.7	0.7	2.8	1.4	0.6	0.2
Purchase obligations:						
Equipment purchases payable	63.8	63.8				
Equipment purchase commitments	23.2	23.2				
Total contractual obligations	\$ 1,697.2	\$ 138.0	\$ 202.1	\$ 231.6	\$ 199.4	\$ 926.1

(1) Amounts include actual and estimated interest for floating-rate debt based on September 30, 2008 rates and the net effect of the interest rate swaps.

Off-Balance Sheet Arrangements

At September 30, 2008, we did not have any relationships with unconsolidated entities or financial partnerships, such entities which are often referred to as structured finance or special purpose entities, which were established for the purpose of facilitating off-balance sheet arrangements. We are, therefore, not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Critical Accounting Policies

Our consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States, which require us to make estimates and assumptions that affect the amounts and disclosures reported in the consolidated financial statements and accompanying notes. Our estimates are based on historical experience and currently available information. Actual results could differ from such estimates. Our critical

accounting policies are fully discussed in our 2007 Form 10-K filed with the Securities and Exchange Commission on March 10, 2008.

Recently Issued Accounting Pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 161 (SFAS 161), *Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133*. SFAS 161 requires qualitative disclosures about

Table of Contents

objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of and gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective beginning in the first quarter of 2009. The Company is currently evaluating the impact of SFAS 161 on its financial statement disclosures.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141 (revised 2007) (SFAS 141R), *Business Combinations* and Statement of Financial Accounting Standards No. 160 (SFAS 160), *Noncontrolling Interests in Consolidated Financial Statements, an amendment of Accounting Research Bulletin No. 51*. SFAS 141R will change how business acquisitions are accounted for and will impact financial statements both on the acquisition date and in subsequent periods. SFAS 160 will change the accounting and reporting for minority interests, which will be recharacterized as noncontrolling interests and classified as a component of equity. SFAS 141R and SFAS 160 are effective beginning in the first quarter of 2009. Early adoption is not permitted. Implementation of SFAS 141R is prospective. The Company believes that the adoption of these accounting standards will not have an impact on the Company's current consolidated results of operations and financial position.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159) which permits companies to choose to measure many financial instruments and certain other items at fair value. The Statement's objective is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Company adopted SFAS No. 159 on January 1, 2008 and elected not to fair value its existing financial assets and liabilities, and as a result, there was no impact on its consolidated results of operations and financial position.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS No. 157) which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under generally accepted accounting principles (GAAP). Under SFAS No. 157, there is now a common definition of fair value to be used throughout GAAP. The new standard makes the measurement of fair value more consistent and comparable and improve disclosures about those measures. The Company adopted the provisions of SFAS No. 157 on January 1, 2008, and there was no impact on its consolidated results of operations and financial position.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in interest rates, foreign exchange rates and equity prices. Changes in these factors could cause fluctuations in results of our operations and cash flows. In the ordinary course of business, we are exposed to interest rate and foreign currency exchange rate risks. For a complete listing of all of our risk factors, refer to our 2007 Form 10-K filed with the Securities and Exchange Commission on March 10, 2008.

Interest Rate Risk

We enter into interest rate swap contracts to fix the interest rates on a portion of our debt. We assess and manage the external and internal risk associated with these derivative instruments in accordance with the overall operating goals. External risk is defined as those risks outside of our direct control, including counterparty credit risk, liquidity risk, systemic risk and legal risk. Internal risk relates to those operational risks within the management oversight structure and includes actions taken in contravention of our policy.

The primary external risk of our interest rate swap contracts is counterparty credit exposure, which is defined as the ability of a counterparty to perform its financial obligations under a derivative contract. All derivative agreements are

with major money center financial institutions rated investment grade by nationally recognized rating agencies, with our counterparties rated A or better. Credit exposures are

Table of Contents

measured based on the market value of outstanding derivative instruments. Both current exposures and potential exposures are calculated for each derivative contract to monitor counterparty credit exposure.

As of September 30, 2008, the Company had in place total interest rate swap contracts to fix the floating interest rates on a portion of the borrowings under its debt facilities as summarized below:

Total Notional Amount at September 30, 2008	Weighted Average Fixed Leg Interest Rate at September 30, 2008	Weighted Average Remaining Term
\$1,101 million	4.3%	3.2 years

Changes in the fair value on these interest rate swap contracts will be recognized in the consolidated statements of operations as unrealized gains or losses on interest rate swaps.

Since approximately 84% of our debt is hedged using interest rate swaps, our interest expense is not significantly affected by changes in interest rates. However, our earnings are impacted by changes in interest rate swap valuations which cause gains or losses to be recorded. During the nine months ended September 30, 2008, unrealized losses on interest rate swaps totaled \$3.3 million, compared to unrealized losses on interest rate swaps of \$8.4 million for the nine months ended September 30, 2007.

Foreign Currency Exchange Rate Risk

Although we have significant foreign-based operations, the U.S. dollar is the operating currency for the large majority of our leases (and company obligations), and most of our revenues and expenses in 2008 and 2007 were denominated in U.S. dollars. However we pay our non-U.S. staff in local currencies, and our direct operating expenses and disposal transactions for our older containers are often structured in foreign currencies. We recorded \$1.4 million and \$0.6 million of unrealized foreign currency exchange losses in the quarter and nine months ended September 30, 2008, respectively, and \$0.4 million and \$0.5 million of unrealized foreign currency exchange gains in the quarter and nine months ended September 30, 2007, respectively, which resulted primarily from fluctuations on our Euro and British Pound denominated assets.

In April 2008, the Company entered into a foreign currency rate swap agreement to exchange Euros for U.S. Dollars based on expected payments under its Euro denominated finance lease receivables. The foreign currency rate swap agreement expires in April 2015. The fair value of this derivative contract was \$0.8 million at September 30, 2008, and is reported as an asset in Fair Value of Derivative Instruments on the consolidated balance sheet.

ITEM 4. CONTROLS AND PROCEDURES.

Based upon the required evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (the Exchange Act)), our President and Chief Executive Officer and our Vice President and Chief Financial Officer concluded that as of September 30, 2008 our disclosure controls and procedures were adequate and effective to ensure that information was gathered, analyzed and disclosed on a timely basis.

There has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during our fiscal quarter ended September 30, 2008, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS.**

From time to time, we are a party to litigation matters arising in connection with the normal course of our business. While we cannot predict the outcome of these matters, in the opinion of our management, based on information presently available to us, we believe that we have adequate legal defenses, reserves or insurance coverage and any liability arising from these matters will not have a material adverse effect on our business. Nevertheless, unexpected adverse future events, such as an unforeseen development in our existing proceedings, a significant increase in the number of new cases or changes in our current insurance arrangements could result in liabilities that have a material adverse impact on our business.

ITEM 1A. RISK FACTORS.

For a complete listing of our risk factors, refer to our 2007 Form 10-K filed with the Securities and Exchange Commission on March 10, 2008, and all subsequent filings with the SEC.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS AND ISSUER REPURCHASES OF EQUITY SECURITIES

On March 13, 2006, our Board of Directors authorized a stock repurchase program for the repurchase of up to 1.5 million shares of our common stock. On September 5, 2007, our Board of Directors authorized a 1.0 million increase to the Company's stock repurchase program that began in March 2006. The stock repurchase program, as amended, authorizes the Company to repurchase up to 2.5 million shares of its common stock. The Company's share purchase activity during the nine months ended September 30, 2008 is summarized in the following table:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 - 31, 2008	362,100	\$ 21.97	362,100	1,725,621

There were no shares purchased by the Company during the months of February through September 2008.

ITEM 6. EXHIBITS.
