NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

(in thousands, except share and per share data)

Note 1 Organization and Basis of Presentation:

Baldwin Technology Company, Inc. and its subsidiaries (Baldwin or the Company) are engaged primarily in the development, manufacture and sale of press automation equipment for the printing industry.

The accompanying unaudited consolidated financial statements include the accounts of Baldwin and have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in compliance with the rules and regulations of the Securities and Exchange Commission. These financial statements reflect all adjustments of a normal recurring nature, which are in the opinion of management, necessary to present a fair statement of the results for the interim periods. These financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's latest Annual Report on Form 10-K for the fiscal year ended June 30, 2008.

Note 2 Recently Issued Accounting Standards:

In May 2008 the FASB issued FASB Staff Position APB14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash Upon Conversion (FSP APB 14-1) which requires issuers of convertible debt that may be settled wholly or partly in cash to account for the debt and equity components separately. This FSP is effective for fiscal years beginning after December 15, 2008, which for the Company is the fiscal year beginning July 1, 2009 and must be applied retrospectively to all periods presented. We are assessing the impact, if any, which the adoption of FSP APB 14-1 will have on our financial statements.

In March 2008, the FASB issued SFAS No. 161, Disclosure about Derivative Instruments and Hedging Activities (SFAS 161). SFAS 161 requires additional derivative disclosures, including objectives and strategies for using derivatives, fair value amounts of and gains and losses on derivative instruments, and credit-risk-related contingent features in derivative agreements. The Company is in the process of analyzing the impact of SFAS 161, which is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company does not expect the adoption of SFAS 161 to have a material impact on the financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations. SFAS No. 141(R) establishes principles and requirements for how the acquirer in a business combination (a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed and any controlling interest, (b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) applies to business combinations for which the acquisition date is on or after December 15, 2008. The adoption of SFAS 141(R) will have an impact on accounting for business combinations once adopted, but the effect is dependent upon acquisitions at that time.

Table of Contents

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment to ARB No. 51. SFAS No. 160 establishes accounting and reporting standards that require (a) the ownership interest in subsidiaries held by parties other than the parent to be clearly identified and presented in the Consolidated Balance Sheets within equity, but separate from the parent's equity, (b) the amount of consolidated net income attributable to the parent and the non-controlling interest to be clearly identified and presented on the face of the Consolidated Statement of Earnings and (c) changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary to be accounted for consistently. This statement is effective for fiscal years beginning on or after December 15, 2008. The Company does not expect that the adoption of SFAS No. 160 will have a material impact on its results of operations and financial position.

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No 115, which permits entities to measure some financial assets and liabilities at fair value on an instrument-by-instrument basis. Entities that elect the fair value option will report unrealized gains and losses in earnings at each subsequent reporting date. SFAS No. 159 also establishes additional disclosure requirements. The Company adopted SFAS No. 159 effective July 1, 2008. The adoption of SFAS No. 159 did not have any material impact on the financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. The Company adopted SFAS No. 157 effective July 1, 2008. The adoption of SFAS No. 157 did not have any material impact on the financial statements. In December 2007, the FASB issued FSP FAS 157-b to defer SFAS 157's effective date for all non-financial assets and liabilities, except those items recognized or disclosed at fair value on an annual or more frequently recurring basis, until years beginning after November 15, 2008. Derivatives measured at fair value under FAS 133 were not deferred under FSP FAS 157-b. We are assessing the impact, if any, which the adoption of FSP FAS 157-b will have on our financial position, results of operations and cash flows.

The Company maintains relationships with both foreign and domestic banks, which combined have extended short and long-term credit facilities to the Company totaling \$63,553.

Table of Contents

As of September 30, 2008, the Company had \$33,216 outstanding (including Letters of Credit). The amount available under these credit facilities at September 30, 2008 is \$30,337.

Note 4 Net income per share:

Basic net income per share includes no dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted net income per share reflects the potential dilution of securities that could share in the earnings of an entity. For the three months ended September 30, 2008 and 2007, the weighted average shares outstanding used to compute diluted net income per share includes potentially dilutive securities of 179,000 and 437,000 shares, respectively. Outstanding options to purchase 584,000 and 30,000 shares, respectively, of the Company's common stock for the three months ended September 30, 2008 and 2007, respectively, are not included in the above calculation to compute diluted net income per share as their exercise prices exceeded their current market value.

Note 5 Accumulated Other Comprehensive Income (Loss):

Accumulated Other Comprehensive Income (Loss) (AOCI) is comprised of various items, which affect equity that result from recognized transactions and other economic events other than transactions with owners in their capacity as owners. AOCI is included in stockholders' equity in the consolidated balance sheets. AOCI consists of the following:

Table of Contents**Note 9 Customers:**

During the three months ended September 30, 2008 and 2007, one customer accounted for more than 10% of the Company's net sales. Koenig and Bauer Aktiengesellschaft (KBA) accounted for approximately 19% and 17% of the Company's net sales for the three months ended September 30, 2008 and 2007, respectively.

Note 10 Warranty Costs:

The Company's standard contractual warranty provisions are to repair or replace, at the Company's option, product that is proven to be defective. The Company estimates its warranty costs as a percentage of revenues on a product by product basis, based on actual historical experience within the Company. Hence, the Company accrues estimated warranty costs at the time of sale. In addition, should the Company become aware of a specific potential warranty claim, a specific charge is recorded and accounted for separate from the percent of revenue discussed above.

	(in thousands)

Note 13 Legal Proceedings:

Baldwin is involved in various legal proceedings from time to time, including actions with respect to commercial, intellectual property and employment matters. The Company believes that it has meritorious defenses against the claims currently asserted against it and intends to defend them vigorously. However, the outcome of litigation is inherently uncertain, and the Company cannot be sure that it will prevail in any of the cases currently in litigation. The Company believes that the ultimate outcome of any such cases will not have a material adverse effect on its results of operations, financial position or cash flows; however, there can be no assurances that an adverse determination would not have a material adverse effect on the Company.

Baldwin brought a patent infringement case against Siebert in 2002 before the U.S. District Court for the Northern District of Illinois, alleging infringement of several of Baldwin's U.S. Patents. During 2006, the District Court granted summary judgment of non-infringement to Siebert on Baldwin's RE35,976 Patent. During 2007, the District Court granted summary judgment of non-infringement to Siebert on Baldwin's U.S. Patent 5,974,976. Baldwin appealed both rulings to the Federal Circuit. On January 15, 2008, the United States Court of Appeals for the Federal Circuit rendered its decision in the matter of *Baldwin Graphic Systems, Inc. v. Siebert, Inc.* The Federal Circuit affirmed the lower court's decision of summary judgment on the RE35,976 Patent, reversed the summary judgment decision on Patent 5,974,976, and remanded back to the lower court for further proceedings. Siebert again moved for summary judgment, which the District Court granted on August 27, 2008, invalidating Patent 5,974,976 as obvious and indefinite. Baldwin has appealed that decision to the United States Court of Appeals for the Federal Circuit.

On November 14, 2002, the Dusseldorf Higher Regional Court (DHRC) announced its judgment in favor of Baldwin in a patent infringement dispute against its competitor, technotrans AG (Technotrans). Technotrans filed an appeal of the DHRC ruling with the German Supreme Court in Karlsruhe. Technotrans also filed to revoke the Company's patent with the Federal Patent Court in Munich, Germany. On July 21, 2004, the German Federal Patent Court upheld the validity of the Company's patent. Technotrans has also appealed that judgment to the German Supreme Court in Karlsruhe. That court has not yet reached a decision on either of those appeals. No amounts have been recorded in the consolidated financial statements with regard to the potential contingent gain from the DHRC judgment. On May 18, 2005, Baldwin Germany GmbH of Augsburg, Germany, a subsidiary of Baldwin

Technology Company, Inc. filed suit in the Regional Court of Dusseldorf, Germany against Technotrans, claiming damages of 32,672,592 Euro (approximately \$46,000,000) as a result of the patent infringement. The Dusseldorf Court suspended proceedings in the damages claim until such time as a decision is reached by the German Supreme Court in Karlsruhe on the appeal of the DHRC decision. That appeal has been suspended until the Supreme Court rules on the invalidity action, which decision is expected some time in 2009.

Note 14 Income Taxes:

The Company's effective tax rate is impacted by having significant operations outside the United States, which are taxed at rates different than the U.S. statutory rate of 34 percent. In some instances, no tax benefit is recognized for losses incurred in certain countries as realization of such benefits is not more likely than not. During the quarter ended September 30, 2007, the tax provision was negatively impacted by \$380,000, as a result of a change in tax rates in Germany and the associated effects on the Company's deferred tax assets in that country.

Note 15 Subsequent Event:

On October 29, 2008 the Company committed to the principal features of a plan (the Plan) to realign some of its existing operations. The objective of the Plan is to achieve operational efficiencies in Germany by reducing costs to better position the Company in the current competitive marketplace. Actions under the Plan commenced during October 2008 and have been completed. The costs associated with the Plan will be charged to the Company's results of operations during the second quarter of Fiscal 2009 and consist entirely of employee personnel costs. The Company expects to incur costs of approximately \$681,000, anticipated to be paid in cash primarily during Fiscal 2009. No non-cash charges are contemplated in connection with the Plan.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is management's discussion and analysis of certain factors, which have affected the consolidated financial statements of Baldwin.

Forward-looking Statements

Except for the historical information contained herein, the following statements and certain other statements contained herein are based on current expectations. Such statements are forward-looking statements that involve a number of risks and uncertainties. The Company cautions investors that any such forward-looking statements made by the Company are not guarantees of future performance and that actual results may differ materially from those in the forward-looking statements. Some of the factors that could cause actual results to differ materially include, but are not limited to the following: (i) the ability to obtain, maintain and defend challenges against valid patent protection on certain technology, primarily as it relates to the Company's cleaning systems, (ii) material changes in foreign currency exchange rates versus the U.S. Dollar, (iii) changes in the mix of products and services comprising revenues, (iv) a decline in the rate of growth of the installed base of printing press units and the timing of new press orders, (v) general economic conditions, either domestically or in foreign locations, (vi) the ultimate realization of certain trade receivables and the status of ongoing business levels with the Company's large OEM customers, (vii) competitive market influences. Additional factors are set

Critical Accounting Policies and Estimates

For further information regarding the Company's critical accounting policies, please refer to the Management's Discussion and Analysis section of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2008. There have been no material changes during the three months ended September 30, 2008.

Overview

Baldwin Technology Company, Inc. is a leading global supplier of press automation equipment for the printing and publishing industries. Baldwin offers its customers a broad range of market-leading technologies, products and systems that enhance the quality of printed products and improve the economic and environmental efficiency of printing presses. Headquartered in Shelton, CT, the Company has sales and service centers and product development and production facilities in the Americas, Asia and Europe. Baldwin's technology and products include cleaning systems and related consumables, fluid management and ink control systems, web press protection systems and drying systems.

The Company manages its business as one reportable business segment built around its core competency in accessories and controls.

Net sales as reported for the three months ended September 30, 2008 increased by \$2,008,000, or 4%, to \$55,937,000 from \$53,929,000 for the three months ended September 30, 2007. Revenue for the quarter, as discussed more fully below, has been favorably impacted by currency rate fluctuations.

Gross profit for the three months ended September 30, 2008 of \$17,335,000 (31% of net sales) was flat when compared to \$17,246,000 (32.0% of net sales) for the three months ended September 30, 2007. As described in the discussion below, gross margin was unfavorably impacted by higher material costs, product revenue mix and continued pricing pressure.

Operating income decreased to 4% of sales for the period ended September 30, 2008 from 6% of sales for the three months ended September 30 2007, primarily as a result of the gross margin decline.

Three Months Ended September 30, 2008 vs. Three Months Ended September 30, 2007

Consolidated Results

Net Sales

Net sales for the three months ended September 30, 2008 increased by \$2,008,000, or 4%, to \$55,937,000 from \$53,929,000 for the three months ended September 30, 2007. Currency rate fluctuations attributable to the Company's overseas operations increased net sales by \$3,128,000 in the current period. Excluding the effects of currency translations net sales declined \$1,121,000 or 2%.

The net sales decrease (excluding the effects of rates of exchange) reflects decreased sales in Europe of \$1,030,000. The decrease is attributable to lower deliveries of the Company's newspaper cleaning equipment reflecting reduced order and sales activity by OEM

Table of Contents

press manufacturers in Germany. In addition, newspaper cleaning system deliveries to end users in the U.K. and France in fiscal year 2008 were not repeated in fiscal year 2009. Partially offsetting these declines were increased revenue associated with the cleaning consumables and service. In Asia net sales decreased \$980,000. In the newspaper market lower demand for spray dampening equipment offset increases in cleaning equipment revenue. The slow economy reduced demand in the commercial market for cleaning equipment, water systems and more than offset the increases in demand for consumables and higher service related projects. Net Sales in the Americas increased \$889,000 and primarily reflects higher demand in the commercial market for water systems, particularly temperature control equipment, consumables, parts and service, partially offset by the decline in demand in the newspaper market.

Gross Profit

Gross profit for the three months ended September 30, 2008 was \$17,335,000 (31.0% of net sales) as compared to \$17,246,000 (32.0% of net sales) for the three months ended September 30, 2007. Currency rate fluctuations increased gross profit by \$1,097,000 otherwise gross profit would have decreased \$1,008,000. Gross margin was unfavorably impacted by higher material costs resulting from manufacturing inefficiencies primarily in Japan, product revenue mix which include a higher portion of products sourced from alliance partners and continued pricing pressure from OEM and end users.

Selling, General, and Administrative Expenses

Selling, general and administrative expenses amounted to \$10,157,000 for the three months ended September 30, 2008 as compared to \$9,678,000 for the same period in the prior fiscal year, (amounts representing 18.2% and 17.9% of respective period sales) an increase of \$479,000. Currency rate fluctuations increased these expenses by \$478,000 in the current period, otherwise, selling, general and administrative expenses would have remained flat.

Engineering and Development Expenses

Engineering and development expenses increased by \$271,000 over the same period in the prior fiscal year. Currency rate fluctuations increased these expenses by \$346,000. Excluding the effects of currency rate fluctuations, engineering and development expenses would have remained flat in the current period. As a percentage of net sales, engineering and development remained at 8.0% of sales for the three months ended September 30, 2008 and 2007.

Interest and Other

Interest expense for the three months ended September 30, 2008 was \$693,000 as compared to \$770,000 for the three months ended September 30, 2007. Currency rate fluctuations had an unfavorable effect in the current period otherwise interest expense would have decreased \$116,000. This decrease reflects the lower average debt and lower interest rates in the current period versus the period ended September 30, 2007.

Interest income amounted to \$6,000 and \$68,000 for the three months ended September 30, 2008 and 2007, respectively.

Other income (expense), net amounted to income of \$403,000 for the three months ended September 30, 2008 compared to expense of \$72,000 for the three months ended September 30, 2007. These amounts are primarily comprised of foreign exchange gains or losses.

Income Taxes

The Company recorded an income tax provision of \$997,000 (effective rate 45.2%) for the three months ended September 30, 2008 as compared to \$1,339,000 (effective rate of 56.3%) for the three months ended September 30, 2007. The effective tax rates for the three

Table of Contents

months ended September 30, 2008 and 2007 differ from the statutory rates as no benefits are recognized for losses incurred in certain countries as the realization of such benefits was not more likely than not.

In addition, the tax provision was negatively impacted in the quarter ended September 30, 2007 by approximately \$380,000, primarily is a result of a change in the tax rates in Germany and the associated effects on the Company's deferred tax assets in that country. The Company continues to assess the need for its deferred tax asset valuation allowances in the jurisdictions in which it operates. Any adjustments to the deferred tax asset valuation allowance either positive or negative would be recorded in the income statement of the period that the adjustments were determined to be required.

Net Income

The Company's net income amounted to \$1,210,000 for the three months ended September 30, 2008, compared to net income of \$1,039,000 for the three months ended September 30, 2007. Net income per share amounted to \$0.08 basic and diluted for the three months ended September 30, 2008 and \$.07 basic diluted for the three months ended September 30, 2007.

Liquidity and Capital Resources at September 30, 2008

The recent financial crisis has made the credit and capital markets volatile and unpredictable. Although continued adverse change could affect the Company's ability to access its sources of financing, the Company believes its sources of financing are currently secure. The lead bank on the major revolving credit agreement is Bank of America, and the participants are Citizens Bank (part of the Royal Bank of Scotland) and Webster Bank. Bank of America has assured the Company that its ability to borrow as needed within the covenants of the agreement is not effected by the financial crisis. The Company is well within the covenants of the credit agreement, and anticipates that the relationship with the bank group and their financial standing will support the Company's credit needs.

Cash flows from operating, investing and financing activities, as reflected in the Consolidated Statement of Cash Flows, are summarized as follows:

	2008	2007
Cash provided by (used for):		
Operating activities	\$ (2,093,000)	\$ (1,059,000)
Investing activities	(678,000)	(1,018,000)
Financing activities	3,938,000	(3,975,000)
Effect of exchange rate changes on cash	(422,000)	397,000
Net increase (decrease) in cash and cash equivalents	\$ 795,000	\$ (5,655,000)

Cash used for operating activities increased \$1,034,000 during the quarter ended September 30, 2008 versus the prior year period. The increase is primarily related to changes in cash realized from accounts and notes receivable and the timing of accounts payable. Days sales outstanding increased seven days from year end to 65 days for the current period, compared to an increase of only four days in the prior year period. Accounts payable reflects a higher usage of cash, due to the timing of payments to vendors. Reductions in other accrued liabilities includes payment of incentive compensation awards. These cash uses were offset somewhat by improvement in inventory management as evidenced by inventory turnover improving to 5.4 times, as well as higher customer deposits.

The Company utilized \$390,000 less cash for investing activities for the three months

Table of Contents

ended September 30, 2008 versus the prior year period. The primary reason is acquisition related payments in the prior period that did not reoccur in the current period.

The change in cash flow from financing activities reflects utilization of cash on hand during fiscal year 2008 to pay down debt while fiscal year 2009 reflects borrowing to meet short term liquidity needs.

The Company maintains relationships with both foreign and domestic banks, which combined have extended credit facilities to the Company totaling \$63,553,000. As of September 30, 2008, the Company had \$33,216,000 outstanding under these credit facilities. During the quarter ended September 30, 2008, the Company made long and short term debt borrowing totaling \$3,908,000 which is reflected in financing activities above.

The Company believes that its cash flows from operations, along with the available bank lines of credit and alternative sources of borrowings, if necessary are sufficient to finance its working capital and other capital requirements through the term of the credit agreement with Bank of America.

At September 30, 2008 and June 30, 2008, the Company did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance entities, special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, the Company is not exposed to any financing, liquidity, market or credit risk that could arise if the Company had engaged in such relationships.

The following summarizes the Company's contractual obligations at September 30, 2008 and the effect such obligations are expected to have on its liquidity and cash flow in future periods (in thousands):

	Fiscal Years Ending June 30,						
	Total at September 30, 2008	2009 *	2010	2011	2012	2013	2014 and thereafter

* Includes only the remaining nine months of the fiscal year ending June 30, 2009.

- (1) the anticipated future interest payments are based on the Company's current indebtedness and interest rates at September 30, 2008, with consideration given to debt reduction as the result of expected payments.

Impact of Inflation

The Company's results are affected by the impact of inflation on manufacturing and operating costs. Historically, the Company has used selling price adjustments, cost containment programs and improved operating efficiencies to offset the otherwise negative impact of inflation on its operations.

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk:

A discussion of market risk exposures is included in Part II Item 7A, Quantitative and Qualitative Disclosures About Market Risk of the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2008. There has been no material changes during the three months ended September 30, 2008.

ITEM 4: Controls and Procedures:

Evaluation of Disclosure Controls and Procedures:

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports it files or submits under the Exchange act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to its management, including the Chief Executive officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, it conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and Rule 15d-15(e) promulgated under the Exchange Act, as of the end of the period covered by this Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting:

During the quarter ended September 30, 2008, the Company has not made any changes in the internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company continues to review, document and test its internal control over financial reporting, and may from time to time make changes aimed at enhancing their effectiveness and to ensure that its systems evolve with the Company's business. These efforts will lead to various changes in its internal control over financial reporting.

Part II: Other Information

ITEM 1A. Risk Factors

The following is an update to Item 1A Risk Factors contained in the Company's Annual Report on Form 10-K for its Fiscal Year ended June 30, 2008. For additional risk factors that could cause actual results to differ materially from those anticipated, please refer to the Company's Form 10-K.

The Company's ability to access the capital and credit markets and unexpected changes in interest or foreign currency exchange rates could have a negative impact on its financial position and performance.

Recently the capital and credit markets have become increasingly volatile as a result of adverse conditions that have caused the failure and near failure of a large number of financial services companies. The significant distress experienced by financial institutions has had and

Table of Contents

may continue to have far reaching adverse consequences across many industries, including the printing and publishing industry.

If the capital and credit markets continue to experience volatility and the availability of funds remains limited, it is possible that the Company's ability to access the capital and credit markets may be limited at a time when the Company would like or need to do so (whether for acquisitions or for general business reasons) which may have an impact on the Company's ability to react to changing economic and business conditions. In addition, changes in interest and foreign currency exchange rates could have an impact on the Company's reported financial results. The Company may not be able to completely mitigate the effect of significant interest rate or foreign currency exchange rate changes.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

There has been no activity under the Company's stock repurchase program for the quarter ended September 30, 2008.

ITEM 5. Other Events**Compensation of President and Chief Executive Officer**

On November 11, 2008, as part of its annual review of the Chief Executive Officer's compensation, the Compensation Committee of the Board of Directors of the Company recommended an increase in the annual base salary of Karl S. Puehringer, President and Chief Executive Officer of the Company, from \$400,000 to \$420,000, effective July 1, 2008. In accordance with the Statement of Principles (Charter) of the Board of Directors, the Independent Directors approved this increase in Mr. Puehringer's compensation at its meeting held on November 11, 2008.

Equity Compensation Awards to Executive Officers and Directors

On November 11, 2008, the Board of Directors of the Company approved the following Class A Common Stock equity compensation awards made to the Company's executive officers and directors:

Name	Position	Award
Gerald A. Nathe	Chairman of the Board and Director	20,000 restricted shares
Karl S. Puehringer	President, Chief Executive Officer and Director	30,000 restricted shares 15,000 performance shares
John P. Jordan	Vice President, Chief Financial Officer and Treasurer	16,667 restricted shares 8,333 performance shares
Shaun J. Kilfoyle	Vice President	8,000 restricted shares 4,000 performance shares
Mark T. Becker	Director	3,000 restricted shares
Rolf Bergstrom	Director	3,000 restricted share units
Samuel B. Fortenbaugh III	Director	3,000 restricted shares
Ronald Salvagio	Director	3,000 restricted shares
Judith A. Mulholland	Director	3,000 restricted shares
Claes Warnander	Director	3,000 restricted shares

The awards of restricted shares and restricted share units and the awards of performance shares listed above were made pursuant to the Company's 2005 Equity Compensation Plan (the "Plan") which was approved by the Company's stockholders at the 2005 Annual Meeting of Stockholders held on November 8, 2005. For the Company's executive officers, restrictions lapse in three equal annual installments on the first, second and third anniversaries of the date of the award. For the Company's directors, the restrictions lapse on the restricted shares and restricted share units on the first anniversary of the date of the award. Copies of the form of restricted stock award agreement and restricted stock unit award agreement used in connection with said awards were filed with the Company's Current Report on Form 8-K dated November 20, 2006.

A Long Term Incentive Performance Share Award Program as presented to the Compensation Committee in August 2008 was confirmed by the Compensation Committee in October, 2008, and the first annual awards under the program were made to senior management on November 11, 2008. Under said Program, the Committee plans to award both performance shares and restricted shares or units annually to members of the Company's senior management team. The performance shares listed above will be deemed earned or vested and the shares issued to the participants when the Compensation Committee determines that the performance criteria for the three-year performance period ending on June 30, 2011 meet or exceed the applicable targets for such period. The performance criteria for the awards made in November 2008 relate to two specific targets which will be weighted 50% each, one for Organic Revenue and the other for Organic Operating Income as a Percent of Sales. The established targets must be met within the performance period in order for the individual to receive the shares.

lifting of Restrictions on Equity Compensation Awards to Former Directors

The Board of Directors of the Company also approved a recommendation of the Compensation Committee to lift all restrictions from the restricted shares and restricted share units previously awarded to Akira Hara and Ralph R. Whitney, Jr. directors of the Company, effective November 11, 2008; Messrs. Whitney and Hara served as directors of the Company since 1988 and 1989, respectively, and did not stand for re-election at the Company's Annual Meeting of Stockholders held on November 11, 2008.

Change in Board Compensation

The Compensation Committee recommended and the Board of Directors approved a change in the compensation of the Chair of the Committee from \$500 per quarter to \$1,000 per quarter, effective November 11, 2008, commensurate with the additional stipend paid to the Chairs of the Audit Committee and the Lead Director of the Independent Directors.

Nominating Committee

The Board of Directors established a Nominating Committee, effective November 11, 2008, composed of the Independent Directors of the Board of Directors. The Committee is responsible for recommending to the full Board nominees for election to the Board of Directors. Members of the Nominating Committee will not receive any additional compensation for service on said Committee or for attendance at meetings of said Committee.
