(f) Floating rate

note obligations

related to

securities held

The Fund enters

into

transactions in

which it

transfers to

Dealer Trusts

( Dealer Trusts ),

fixed rate bonds

in exchange for

cash and

residual

interests in the

Dealer Trusts

assets and cash

flows, which are

in the form of

inverse floating

rate

investments. The

Dealer Trusts

fund the

purchases of the

fixed rate bonds

by issuing

floating rate

notes to third

parties and

allowing the

Fund to retain

residual interest

in the bonds.

The Fund enters

into shortfall

agreements with

the Dealer

Trusts which

commit the

Fund to pay the

Dealer Trusts,

in certain

circumstances,

the difference

between the

liquidation

value of the

fixed rate bonds

held by the

Dealer Trusts

and the

liquidation

value of the

floating rate

notes held by

third parties, as

flows. The

residual

interests held by

the Fund

(inverse floating

rate

*investments*)

include the right

of the Fund

(1) to cause the

holders of the

floating rate

notes to tender

their notes at

par at the next

interest rate

reset date, and

(2) to transfer

the municipal

bond from the

Dealer Trusts to

the Fund,

thereby

collapsing the

Dealer Trusts.

The Fund

accounts for the

transfer of

bonds to the

Dealer Trusts as

secured

borrowings,

with the

securities

transferred

remaining in the

Fund s

investment

assets, and the

related floating

rate notes

reflected as

Fund liabilities.

The notes issued

by the Dealer

Trusts have

interest rates

that reset

weekly and the

floating rate

note holders

have the option

to tender their

notes to the

Dealer Trusts

for redemption

at par at each

reset date. At

February 28,

2009, Fund

investments with

a value of

\$11,189,792 are

held by the

Dealer Trusts

and serve as

collateral for

the \$6,010,000

#### MS Municipal Income Opportunities Trust Notes to the Portfolio of Investments FAS 157 02/28/2009

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), effective June 1, 2008. In accordance with SFAS 157, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. SFAS 157 establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Fund s investments. The inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical investments

Level 2 other significant observable inputs (including quoted prices for similar

investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Funds own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities and the determination of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to each security.

The following is a summary of the inputs used as of February 28, 2009 in valuing the Fund s investments carried at value:

Fair Value Measurements at February 28, 2009 Using

**Investments in Securities** 

<u>Valuation of Investments</u> (1) portfolio securities are valued by an outside independent pricing service approved by the Trustees. The pricing service uses both a computerized grid matrix of tax-exempt securities and and evaluations by its staff, in each case based on information concerning market transactions and quotations from dealers which reflect the mean between the last reported bid and asked price. The portfolio securities are thus valued by reference to a combination of transactions and quotations for the same or other securities believed to be comparable in quality, coupon, maturity, type of issue, call provisions, trading characteristics and other features deemed to be relevant. The Trustees believe that timely and reliable market quotations are generally not readily available for purposes of valuing tax-exempt securities and that the valuations supplied by the pricing service are more likely to approximate the fair value of such securities; (2) futures are valued at the latest sale price on the commodities exchange on which they trade unless it is determined that such price does not reflect their market value, in which case they will be valued at

their fair value as determined in good faith under procedures established by and under the supervision of the Trustees; (3) interest rate swaps are marked- to-market daily based upon quotations from market makers; (4) investments in open-end mutual funds, including the Morgan Stanley Institutional Liquidity Funds, are valued at the net asset value as of the close of each business day; and (5) short-term debt securities having a maturity date of more than sixty days at time of purchase are valued on a mark-to-market basis until sixty days prior to maturity and thereafter at amortized cost based on their value on the 61st day. Short-term debt securities having a maturity date of sixty days or less at the time of purchase are valued at amortized cost.

#### Item 2. Controls and Procedures.

(a) The Fund s principal executive officer and principal financial officer have concluded that the Fund s disclosure controls and procedures are sufficient to ensure that information required to be disclosed by the Fund in this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s rules and forms, based upon such officers evaluation of these controls and procedures as of a date within 90 days of the filing date of the report.

(b) There were no changes in the Fund s internal control over financial reporting that occurred during the registrant s fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Fund s internal control over financial reporting.

#### Item 3. Exhibits.

(a) A separate certification for each principal executive officer and principal financial officer of the registrant are attached hereto.

2

#### **SIGNATURES**
