Committees and Meeting Data

During 2009, the full Board of Directors held five meetings. The Company's Board of Directors has established a process whereby shareholders may send communications to the board. That process is set forth in the Policy for Shareholder Communications with Board Members, a copy of which is attached as Exhibit A.

The Audit Committee of the board currently consists of Messrs. Collins, Constantino, and Gould, all of whom are independent as defined under SEC rules. The Audit Committee, which met six times during the year, appoints and oversees the work of the Company's independent auditors, overseeing the establishment and maintenance by the Corporation of reliable accounting policies, financial reporting and disclosure, and performing such other duties as are set forth in its Charter, a copy of which is attached as Exhibit B. The board has determined that the Company does not have an Audit Committee Financial Expert, as that term is defined by SEC rules, serving on the Audit Committee. However, the members of the board have reviewed the criteria necessary to be named an Audit Committee Financial Expert, and believe that the Audit Committee members collectively possess such attributes. Furthermore, the board has determined that each member of the Audit Committee possesses the financial expertise necessary to review and analyze the Company's financial statements and to fulfill his other duties in accordance with the terms of the Audit Committee Charter.

The Compensation Committee of the board currently consists of Messrs. Collins and Constantino, both of whom are independent as defined by SEC rules. The Compensation Committee, which met four times during the year, reviews and sets compensation for the Chief Executive Officer (CEO), all other executive officers of the Company and members of the Company's Board of Directors, establishes compensation, incentive and benefit plans for the CEO and all other executive officers and directors of the Company and approves payments under such incentive plans. The Charter of the Compensation Committee is attached as Exhibit C.

The Nominating Committee consists of all members of the board who are independent as defined by SEC rules. Currently, those individuals are Messrs. Collins, Constantino, and Gould. The Nominating Committee identifies the slate of director nominees for election to the Company's board, recommends candidates to fill vacancies occurring between annual shareholder meetings, and otherwise establishes and oversees the process for nominations for election to the Company's Board, in accordance with applicable laws, rules, and its charter. The Nominating Committee officially met twice separately from regular Board meetings. In addition, when circumstances necessitated, matters pertaining to nominees and vacancies were reviewed and discussed as part of scheduled Board meetings. The Charter of the Nominating Committee is attached as Exhibit D.

The Nominating Committee will consider candidates recommended by shareholders and determine the procedures to be followed by shareholders in submitting such recommendations. The Nominating Committee continually seeks to identify qualified candidates for nomination to the Company's board; however, it has not established any formal procedure in that regard. All candidates identified as potential nominees for election to the board, whether identified by a shareholder or otherwise, are evaluated in the same manner. Although neither the board nor the Nominating Committee has established any minimum qualifications for director nominees, any potential nominee must have sufficient experience, knowledge, ability and time to fulfill the obligations of a member of the Company's board. The current practice has resulted in a broad range of experience and qualifications among the Company's Board of Directors.

The Company encourages all directors to attend annual meetings, but has not established any formal policy with respect to such attendance. All members of the Company's board attended last year's annual meeting.

During 2009, all directors nominated for reelection attended no less than 75% of the total number of meetings of the Board of Directors and any board committee on which he served.

Table of Contents

The Board's Leadership Structure

The leadership responsibilities of the Board are shared among the Chairs of the Board's three standing Committees and our Chairman of the Board. The current Board is comprised of three independent Directors and a single management Director. The single management Director is Anthony C. Mazzullo, who serves as President, Chief Executive Officer, and Chairman of the Board.

Our governance processes and the decisions of our Board are managed and controlled by our independent Directors. All members of the three standing Committees of the Board are independent Directors, and all members sit on at least two committees. Mr. Mazzullo may be invited to attend Committee meetings, but he does not have a vote on any Committee matter.

Our Board believes this governance structure is well suited to our Company. Our classification as a smaller reporting company, and our focused target market, favors having a governance structure that is nimble and overlapping, thus encouraging the transfer of information, rather than a complex governance structure that can be overbearing, particularly for a company that is attempting to move beyond its current target market.

We believe the Company benefits from combining the position of Chief Executive Officer and Chairman of the Board. As the only member of the Company's management on the Board, it provides the Chief Executive Officer with a status and visibility that we believe enhances his ability to communicate the concerns, opinions, and recommendations of management to the various Board members.

The Board's Role in the Oversight of Risk

The Board recognizes that the Company is subject to various strategic, operational, and financial risks that can affect the Company's performance, including its ability to provide value to its shareholders. While the Audit Committee is primarily responsible for overseeing the policies of the Company, with respect to risk assessment, the Board as a whole takes a role in assessing the strategic and operational risks of the Company.

The Board reviews strategic and operational plans in great length, not only during the budget process, but during the course of the year, as they review corporate performance each quarter. Those reviews include not only an assessment of the potential opportunities afforded the Company, but also include discussion of the potential risks and hazards the Company may face.

Audit Committee Report.

The Audit Committee of the Board of Directors is responsible for providing independent, objective oversight of the Company's accounting functions and policies, internal controls, and the selection and oversight of the Company's independent accountants, and overseeing that the Company has established and maintained processes for assuring that the Company has complied with applicable laws, regulations, policies, and established processes, relating to the Company's accounting and reporting practices and relating to the quality and integrity of the Company's financial reports. The Audit Committee is currently composed of three directors, Messrs. Constantino, Gould, and Collins, each of whom is independent as defined in the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated hereunder. The Audit Committee operates under a written charter approved by the Board of Directors, a copy of which is attached as Exhibit B.

Management is responsible for the Company's financial reporting process including its system of internal control, and for the preparation of financial statements in accordance with accounting principles generally accepted in the United States (GAAP). The Company's independent auditors are responsible for auditing those financial statements. The Committee's responsibility is to monitor and review these processes. It does not have the duty or responsibility to conduct auditing or accounting reviews or procedures. Members of the Committee are not employees of the Company and may not be, nor may they represent themselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, the Committee has relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with GAAP and on the representations of the independent auditors included in their report on the Company's financial statements. The Committee's oversight does not provide it with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with GAAP and applicable laws and regulations. Furthermore, its considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with GAAP, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

In this context, the Audit Committee reviewed and discussed with management the Company's audited financial statements as of and for the year ended December 31, 2009. The Audit Committee also met with representatives of the Company's auditors to discuss and review the results of the independent auditors' examination of the financial statements for the year ended December 31, 2009 and the matters required to be discussed by the Statement on Auditing Standards No. 114 (The Auditor's Communication With Those Charged With Governance). In addition, the Audit Committee reviewed with management and representatives of the Company's auditors, each Quarterly Report on Report 10-Q prior to its filing with the SEC.

The Audit Committee has also received from the Company's auditors the written disclosures required pursuant to the Independence Standards Board Standard No. 1 (Independent Discussions with Audit Committees) addressing all relationships between the auditors and the Company that might bear on the auditors' independence and has discussed the same with representatives of the Company's auditors.

Based upon the Audit Committee's discussions with management and the independent auditors, and the Audit Committee's review of the representations of management and the report of the independent auditors to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, for filing with the SEC.

December 31, 2007. The significant change in pension value shown above for 2008, is the result of a change in the discount rate used to determine the value of the pension assets, and not the result of an increase of the expected future payout to Mr. Lundy. In 2004 and for a number of years prior, each outside director received an annual option grant to purchase 10,000 shares of the Company's common stock at a price based upon the closing price of the Common Stock on the last trading day of the prior year. Additionally, in 2003, each outside director received a one-time option grant to acquire 30,000 shares of the Company's common stock at a price based upon the closing price on the date of grant, vesting ratably over a three-year period. A similar one-time option grant was provided to directors who joined the board in 2004 or 2005. Since 2005, in lieu of the annual grant of 10,000 options, each outside director receives an annual retainer of \$10,000, payable quarterly, in addition to fees for each meeting attended. Outside directors receive \$1,000 for each regular board meeting attended and \$200 for each committee meeting attended. In 2006, the one-time grant of 30,000 options to new directors was reduced to 10,000 shares. Since 2008, a non-officer chairperson receives and additional retainer of \$10,000 payable quarterly. In 2005, the Board of Directors adopted a Directors' Deferred

Compensation Plan, pursuant to which a director may elect to defer any portion of the annual retainer and meeting fees. Deferred amounts, until paid pursuant to the plan, will earn interest quarterly at the same rate as the Company earns on its invested cash during the same period.

PROPOSAL NO. 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee has appointed EFP Rotenberg LLP as independent auditors for the fiscal year ending December 31, 2010. EFP Rotenberg LLP, as successor by merger to Rotenberg & Co., LLP, effective October 1, 2009, acted as the independent auditors for the fiscal years ending December 31, 2004 through December 31, 2009. Representatives of EFP Rotenberg LLP are expected to be present at the Meeting. They will be available to respond to appropriate questions and will have an opportunity to make a statement if they so desire.

Although the appointment of independent auditors is not required to be submitted to a vote by shareholders, the Audit Committee believes as a matter of policy that it is appropriate that the shareholders ratify the Board's appointment. If the shareholders should not ratify the appointment of EFP Rotenberg LLP, the Audit Committee will consider other certified public accountants for appointment.

Audit Fees. During fiscal years 2009 and 2008, the aggregate fees billed to the Company by its independent auditors were \$74,190 and \$74,000, respectively, for the annual audit of the financial statements and review of the financial statements included in the Company's Quarterly Reports on Form 10-Q.

Audit Related Fees. During fiscal years 2009 and 2008, the aggregate fees billed to the Company by its independent auditors were \$5,000 and \$5,000, respectively, for the annual audit of the Veramark Technologies, Inc. 401K Plan and the preparation of its annual report on Form 5500.

Tax Fees. The aggregate fees billed to the Company by its independent auditors for professional services rendered to the Company during fiscal years 2009 and 2008, other than the audit services referred to above, were \$7,500 and \$7,000, respectively, all of which was for tax preparation and tax consulting fees.

The Audit Committee of the Board of Directors has considered whether provision of the non-audit related services described above is compatible with maintaining the independent accountants' independence and has determined that those services have not adversely affected EFP Rotenberg LLP's independence.

It is the Audit Committee's policy, as reflected in its Charter, to pre-approve all audit and non-audit services performed by the Company's independent auditors. Following a presentation by management to the Audit Committee describing the types of services to be performed in connection with, and the projected budget for, a particular engagement, the Audit Committee informs management whether it approves the engagement and the budget.

VERAMARK TECHNOLOGIES, INC.
Compensation Committee of the Board of Directors
CHARTER

Overview of Role

The Compensation Committee of the Board (the "Compensation Committee") sets compensation levels for the Chief Executive Officer ("CEO"), all other executive officers of the Company and members of the Company's Board of Directors, establishes compensation, incentive and benefit plans for such individuals and approves payments under such incentive plans.

The Compensation Committee is also responsible for selecting the recipients of stock options, establishing the timing of grants, and setting the option exercise price within the terms of the Option Plan.

The Compensation Committee's compensation policies are designed to attract and retain highly skilled individuals, reward outstanding individual performance, encourage cooperative team efforts and provide an incentive to enhance long term stockholder value.

In establishing salaries for the Company's Chief Executive Officer, other executive officers and directors, consideration is given to salary ranges for comparable positions in similar size companies. Data for such comparisons is obtained from nationwide surveys conducted by independent compensation consulting firms and from reviewing other companies' compensation information included in their proxy statements.

In setting salaries within competitive ranges, the Compensation Committee considers performance related factors including the Company's overall results during the past year and its performance relative to a budgeted plan or stated objectives. Consideration also is given to an individual's contribution to the Company and the accomplishments of departments for which that officer has management responsibility. Potential for future contributions to the Company is also taken into account for all executive officers and directors.

Membership

The membership of the Compensation Committee consists of at least three directors, each of whom is independent as defined under Section 10A(m)(3) of the Securities Exchange Act of 1934, and the rules and regulations promulgated by the Securities and Exchange Commission ("SEC"), as well as applicable NASDAQ rules.

The members of the Compensation Committee are elected by the Board at its annual meeting held in conjunction with the annual shareholders meeting. Members of the Compensation Committee shall hold their office until their successors shall be duly elected and qualified, or until such member's earlier resignation or removal. The Board shall have the power at any time to remove from or add the membership of the Compensation Committee and to fill vacancies, subject to the independence requirements referred to above. Code of Business Conduct and Ethics

1. Purpose of Code. The purpose of this Code is to establish guidelines for:

- (a) Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- (b) Avoidance of conflicts of interest, including disclosure to an appropriate person or persons identified in the Code of any material transaction or relationship that reasonably could be expected to give rise to such a conflict;
- (c) Full, fair, accurate, timely, and understandable disclosure in reports and documents that a registrant files with, or submits to, the Securities and Exchange Commission and in other public communications made by the Company;
- (d) Compliance with applicable governmental laws, rules and regulations;
- (e) The prompt internal reporting to an appropriate person or persons identified in the Code of violations of the Code; and
- (f) Accountability for adherence to the Code.

2. Complying With Law. All employees, officers and directors of the Company should respect and comply with all of the laws, rules and regulations of the United States, foreign countries, and the states, counties, cities and other jurisdictions, in which the Company conducts its business, or laws, rules and regulations of which are applicable to the Company.

While this Code does not summarize all laws, rules and regulations applicable to the Company and its employees, officers and directors, certain laws are summarized below. Please consult with your supervisor or the Company's legal counsel and the various guidelines which the Company has prepared on specific laws, rules and regulations.

Insider Trading. The Company and its employees, officers and directors must comply with the insider trading prohibitions applicable to the Company and its employees, officers and directors. Generally, employees, officers and directors who have access to or knowledge of confidential or non-public information from or about the Company are not permitted to buy, sell or otherwise trade in the Company's securities, whether or not they are using or relying upon that information. This restriction extends to sharing or tipping others about such information especially since the individuals receiving such information might utilize such information to trade in the Company's securities. In addition, the Company has implemented trading restrictions to reduce the risk, or appearance, of insider trading.

Company employees, officers and directors are directed to the Company's Insider Trading Policy or the Company's legal counsel if they have questions regarding the applicability of such insider trading prohibitions.

Foreign Corrupt Practices. The U.S. Foreign Corrupt Practices Act prohibits giving anything of value, directly or indirectly, to foreign government officials or foreign political candidates in order to obtain or retain business. It is strictly prohibited to make illegal payments to government officials of any country. In addition, the U.S. government has a number of laws and regulations regarding business gratuities which may be accepted by U.S. government personnel. The promise, offer or delivery to an official or employee of the U.S. government of a gift, favor or other gratuity in violation of these rules would not only violate Company policy but could also be a criminal offense. State and local governments, as well as foreign governments, may have similar rules. Your supervisor or the Company's legal counsel can provide guidance to you in this area.

Licensed Third Party Software. Unauthorized duplication of copyrighted computer software violates the law and is contrary to the Company's standards of conduct. The Company disapproves of such copying and recognizes the following principles as a basis for preventing its occurrences:

The Company will neither engage in nor tolerate the making or using of unauthorized software copies under any circumstances.

The Company will provide legally acquired software to meet its legitimate software needs in a timely fashion and in sufficient quantities for all of the Company's computers.

The Company will comply with all license or purchase terms regulating the use of any software the Company acquires or uses.

The Company will enforce strong internal controls to prevent the making or using of unauthorized software copies, including effective measures to verify compliance with these standards and appropriate disciplinary measures for violation of these standards.

It is the Company's policy that third party developed software may be used to conduct Company business only if it is (i) authorized and licensed for use by the Company; or (ii) is in the public domain and available for use without royalty by the Company. This policy applies to all Company employees and to all contractors working on the Company's premises or computers.

All software licensed for Company use must be ordered through the Company's purchasing department or approved in writing in advance. Employees will not be reimbursed for software purchased or obtained through other channels.

3. Conflicts Of Interest. All employees, officer and directors of the Company should be scrupulous in avoiding a conflict of interest with regard to the Company's interests. A conflict of interest exists whenever an individual's private interest interferes or conflicts in any way (or even appear to interfere or conflict) with the interest of the Company. A conflict situation can arise when an employee, officer or director takes actions or has interests that make it difficult to perform his or her Company work objectively and effectively. Conflict of interest may also arise when an employee, officer or director, or members of his or her family, receives improper personal benefits as a result of his or her position in the Company, whether received from the Company or a third party. Loans to, or guarantees of obligations of, employees, officers and directors and their respective family members may create conflicts of interest. Federal Law prohibits loans to directors and executive officers under certain circumstances.

The purpose of business entertainment and gifts in a commercial setting is to create good will and sound working relationships, not to gain unfair advantage with customers. No gift or entertainment should be offered, given, provided or accepted by any Company employee, family member or an employee or agent unless it: (a) is not a cash gift, (b) is consistent with customary business practices, (c) is not excessive in value, (d) cannot be construed as a bribe or payoff; and (e) does not violate any laws or regulations. Please discuss with your supervisor or the Company's legal counsel any gifts or proposed gifts which you are not certain are appropriate.

It is almost always a conflict of interest for a Company employee to work simultaneously for a competitor, customer or supplier. You are not allowed to work for a competitor, as a consultant or board member. The best policy is to avoid any direct or indirect business connection with the Company's customers, suppliers or competitors, except on the Company's behalf.

Conflicts of interest are prohibited as a matter of Company policy, except under guidelines approved by the Board of Directors or committees of the Board. Conflicts of interest may not always be clear-cut, so if you have a question, you should consult with your supervisor or the Company's legal counsel.

Employees, officers and directors owe a duty to the Company to advance its legitimate interest when the opportunity to do so arises.

5. Confidentiality. Employees, officers and directors of the Company must maintain the confidentiality of confidential information entrusted to them by the Company or its suppliers or customers, except when disclosure is authorized by the Company's legal counsel or required by laws, regulations or legal proceedings. The Company seeks to outperform its competition fairly and honestly. The Company seeks competitive advantages through superior performance, never through unethical or illegal business practices. Stealing proprietary information, possessing trade secret information that was obtained without the owner's consent, or inducing such disclosures by past or present employees of other companies is prohibited.

7. Protection And Proper Use Of Company Assets. All employees, officers and directors should protect the Company's assets and ensure their efficient use. 8. Accounting Matters. The Company's policy is to comply with all applicable financial reporting and accounting regulations applicable to the Company.

All of the Company's books, records, accounts and financial statements must be maintained in reasonable detail, must appropriately reflect the Company's transactions and must conform both to applicable legal requirement and to the Company's system of internal controls. Unrecorded or off the books funds or assets should not be maintained unless permitted by applicable law or regulation.

Records should always be retained or destroyed according to the Company's record retention policies. In accordance with those policies, in the event of litigation or governmental investigation please consult with your supervisor or the Company's legal counsel.

If any employee, officer or director of the Company has concerns of complaints regarding questionable accounting or auditing matters of the Company, then he or she is encouraged to submit those concerns or complaints (anonymously, confidentially or otherwise) to the Board of Directors of the Company as set forth in the **Section 10 Reporting Any Violations**.
