THE ANNUAL MEETING AND PROPOSALS

The 2010 Annual Meeting of Stockholders of Gartner, Inc. will be held on June 3, 2010, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders and described in greater detail below. This Proxy Statement and form of proxy, together with our 2009 Annual Report to Stockholders, are being furnished in connection with the solicitation by the Board of Directors of proxies to be used at the meeting and any adjournment of the meeting, and are first being made available to our stockholders on or around April 20, 2010. We will refer to your company in this Proxy Statement as we , us , the Company or Gartner.

The specific proposals to be considered and acted upon at the Annual Meeting, which are described in more detail in this Proxy Statement, are: Proposal One: the election of ten nominees to our Board of Directors; and Proposal Two: the ratification of the selection of KPMG LLP as our independent auditors for 2010.

INFORMATION CONCERNING PROXY MATERIALS AND THE VOTING OF PROXIES

Why Did You Receive a Notice Regarding Availability of Proxy Materials?

Securities and Exchange Commission (SEC) rules allow companies to furnish proxy materials to their stockholders via the Internet. This e-proxy process expedites stockholders receipt of proxy materials, while significantly lowering the costs and reducing the environmental impact of our annual meeting. Accordingly, on April 20, 2010, we mailed to our stockholders a notice regarding the availability of proxy materials (the Notice). If you received a Notice, you will not receive a printed copy of the proxy materials unless you request one. The Notice provides instructions on how to access our proxy materials for the 2010 Annual Meeting on a website, how to request a printed set of proxy materials and how to vote your shares. We expect to shortly mail paper copies of our proxy materials to certain stockholders who have already elected to receive printed materials.

How Can You Get Electronic Access to Proxy Materials?

The Notice provides instructions regarding how to view our proxy materials for the 2010 Annual Meeting online. As explained in greater detail in the Notice, to view the proxy materials and vote, you will need to visit: www.proxyvote.com and have available your 12-digit Control number(s) located on your Notice.

How Can You Request Paper Copies of Proxy Materials?

If you received a Notice by mail, you will not receive a printed copy of the proxy materials in the mail. If you want to receive paper copies of the proxy materials, you must request them. There is no charge for requesting a copy. To facilitate timely delivery, please make your request on or before May 20, 2010. To request paper copies, stockholders can go to www.proxyvote.com, call **1-800-579-1639** or send an email to sendmaterial@proxyvote.com. Please note that if you request materials by email, send a blank email with your 12-digit Control number(s) (located on your Notice) in the subject line.

Table of Contents

How Can You Sign Up to Receive Future Proxy Materials Electronically?

You have the option to receive all future proxy statements, proxy cards and annual reports electronically via email or the Internet. If you elect this option, the Company will only mail materials to you in the future if you request that we do so. To sign up for electronic delivery, please follow the instructions below under **How Can You Vote** to vote using the Internet and vote your shares. After submitting your vote, follow the prompts to sign up for electronic delivery.

Who Can Vote at the Annual Meeting?

Only stockholders of record at the close of business on April 8, 2010 (the **Record Date**) may vote at the Annual Meeting. As of April 8, 2010, there were 96,146,351 shares of our common stock, par value \$.0005 per share (**Common Stock**) outstanding and eligible to be voted. Treasury shares are not voted.

How Can You Vote?

You may vote using one of the following methods:

Internet. You may vote on the Internet up until 11:59 PM Eastern Time on June 2, 2010 by going to the website for Internet voting on the Notice or your proxy card (www.proxyvote.com) and following the instructions on your screen. Have your Notice or proxy card available when you access the web page. If you vote by the Internet, you should not return your proxy card.

Telephone. You may vote by telephone by calling the toll-free telephone number on your proxy card (**1-800-690-6903**), 24 hours a day and up until 11:59 PM Eastern Time on June 2, 2010, and following prerecorded instructions. Have your proxy card available when you call. If you vote by telephone, you should not return your proxy card.

Mail. If you received your proxy materials by mail, you may vote by mail by marking the enclosed proxy card, dating and signing it, and returning it in the postage-paid envelope provided or to Vote Processing, c/o Broadridge, 51 Mercedes Way, Edgewood, N.Y. 11717.

In Person. You may vote your shares in person by attending the Annual Meeting and submitting your proxy at the meeting.

All shares that have been voted properly by an unrevoked proxy will be voted at the Annual Meeting in accordance with your instructions. If you sign and submit your proxy card, but do not give voting instructions, the shares represented by that proxy will be voted as our Board recommends.

How to Revoke Your Proxy or Change Your Vote

A later vote by any means will cancel an earlier vote. You can revoke your proxy or change your vote before your proxy is voted at the Annual Meeting by:

giving written notice of revocation to: Corporate Secretary, Gartner, Inc., 56 Top Gallant Road, P.O. Box 10212, Stamford, Connecticut 06904-2212; or

submitting another timely proxy by the Internet, telephone or mail; or

attending the Annual Meeting and voting in person. If your shares are held in the name of a bank, broker or other holder of record, to vote at the Annual Meeting you must obtain a proxy executed in your favor from the holder of record and bring it to the Annual Meeting in order to vote. Attendance at the Annual Meeting will not, by itself, revoke your prior proxy.

How Many Votes You Have

Each stockholder has one vote for each share of our Common Stock that he or she owned on the Record Date for all matters being voted on.

If Your Shares Are Held in Street Name, How Will Your Broker Vote?

If your brokerage firm, bank, broker or other similar organization is the holder of record of your shares (i.e., your shares are held in street name), you will receive voting instructions from the holder of record. You must follow these instructions in order for your shares to be voted. **We urge you to instruct your broker or other nominee how to vote your shares by following those instructions.** The broker is required to vote those shares in accordance with your instructions. If you do not give instructions to the broker, the broker may not vote your shares. In this case, your shares may constitute broker non-votes. Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given.

2

Table of Contents

Quorum

A quorum is constituted by the presence, in person or by proxy, of holders of our Common Stock representing a majority of the number of shares of Common Stock entitled to vote. Abstentions and broker non-votes (described above) will be considered present to determine the presence of a quorum.

Votes Required

Election of Directors: In the election of directors, the ten persons receiving the highest number of affirmative FOR votes at the Annual Meeting will be elected. (See Proposal One: Election of Directors on page 4). Abstentions and broker non-votes are not counted for purposes of the Election of Directors.

Please note that this year the rules regarding how brokers may vote your shares have changed. Brokers may no longer vote your shares on the election of directors in the absence of your specific instructions as to how to vote, so it is important that you provide instructions to your broker regarding the voting of your shares. See If Your Shares Are Held in Street Name, How Will Your Broker Vote above.

Ratification of Auditors: The affirmative FOR vote of a majority of the votes cast is required to approve the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2010. (See Proposal Two: Ratification of Selection of Independent Auditors on page 9). Broker non-votes count as votes FOR the proposal for Ratification of Auditors.

If any other matters are brought properly before the Annual Meeting, the persons named as proxies in the enclosed proxy card will have the discretion to vote on those matters for you. If for any reason any of the nominees is not available as a candidate for director at the date of the Annual Meeting, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the board of directors. As of the date of this Proxy Statement, we were unaware of any other matter to be raised at the Annual Meeting.

What Are the Recommendations of the Board?

The Board of Directors recommends that you vote **FOR** the election of the ten nominees to our Board of Directors and **FOR** the ratification of the selection of KPMG LLP as our independent auditor for fiscal 2010.

Who Is Distributing Proxy Materials and Bearing the Cost of the Solicitation?

This solicitation of proxies is being made by the Board of Directors and we will bear the entire cost of this solicitation, including costs associated with mailing the Notice and related internet access to proxy materials, the preparation, assembly, printing, and mailing of this Proxy Statement, the proxy, and any additional solicitation material that we may provide to stockholders. Gartner will request brokerage firms, fiduciaries and custodians holding shares in their names that are beneficially owned by others to solicit proxies from these persons and will pay the costs associated with such activities. The original solicitation of proxies may be supplemented by solicitation by telephone, electronic mail and other means by our directors, officers and employees. No additional compensation will be paid to these individuals for any such services.

Where can I find the voting results of the Annual Meeting?

We will also disclose voting results on a Form 8-K filed with the SEC within four business days after the 2010 Annual Meeting, which will also be available on our investor relations website www.investor.gartner.com.

Who Can Answer Your Questions?

If you have questions about this Proxy Statement or the Annual Meeting, please call our Investor Relations Department at (203) 316-6537.

Table of Contents**COMPENSATION OF DIRECTORS**

Directors who are also employees, and directors who we are contractually obligated to appoint to the Board, receive no fees for their services as directors. All other directors receive the following compensation for their services:

Annual Fee:	\$50,000 per director and an additional \$60,000 for our non-executive chairman of the board, payable in arrears in four equal quarterly installments, on the first business day of each quarter. These amounts are paid in common stock equivalents (CSEs) granted under the Company's 2003 Long-Term Incentive Plan (2003 Plan), except that a director may elect to receive up to 50% in cash. The CSEs convert into Common Stock on the date the director's continuous status as a director terminates, unless the director elected accelerated release as provided in the 2003 Plan. The number of CSEs awarded is determined by dividing the aggregate director fees owed for a quarter on the first business day following the close of that quarter by the closing price of the Common Stock on that date.
Annual Committee Chair Fee:	\$5,000 for the chair of each of our Compensation and Governance Committees. \$10,000 for the chair of our Audit Committee. Amounts are payable in the same manner as the Annual Fee.
Annual Committee Member Fee:	\$5,000 for each of our Compensation and Governance Committee members and \$10,000 for each Audit Committee member. Committee chairs receive both a committee chair fee and a committee member fee. Amounts are payable in the same manner as the Annual Fee.
Annual Equity Grant:	\$70,000 in value of restricted stock units (RSUs), awarded annually on the date of the Annual Meeting. The number of RSUs awarded is determined by dividing \$70,000 by the closing price of the Common Stock on the award date. The restrictions lapse one year after grant subject to continued service.
Attendance Fee for Board Meetings:	None; however, we do reimburse directors for their expenses to attend meetings.

DIRECTOR COMPENSATION TABLE

This table sets forth compensation (in dollars) earned or paid in cash, and the grant date fair value of equity awards made, to our non-management directors on account of services rendered as a director in 2009. In 2009, Michael Bingle was appointed to the board pursuant to a contractual obligation (which terminated in December 2009) and, accordingly, received no compensation for his service. Mr. Hall receives no compensation for service as director.

(He was subsequently re-appointed in February 2010). The number of RSUs awarded was calculated by dividing \$70,000 by the closing price of our Common Stock on the award date (\$16.13).
- (3) In 2009, Mr. Ubben received the value of the annual director equity award in cash because he was restricted from receiving additional shares of Common Stock under our Rights Agreement due to his affiliation with ValueAct Capital. The Rights Agreement terminated by its terms in February 2010.

RECOMMENDATION OF OUR BOARD

Our Board unanimously recommends that you vote FOR management's ten nominees for election to the Board of Directors.

Table of Contents**PROPOSAL TWO: RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS**

The Audit Committee of the Board of Directors has selected KPMG LLP to serve as the Company's independent auditors for the 2010 fiscal year. Additional information concerning the Audit Committee and its activities with KPMG can be found in the Audit Committee Report and the Principal Accountant Fees and Services below.

The Audit Committee of the Board of Directors is directly responsible for the appointment, compensation and oversight of the Company's independent registered public accounting firm. Ratification by the stockholders of the selection of KPMG is not required by law, the Company's bylaws or otherwise. However, the Board of Directors is submitting the selection of KPMG for stockholder ratification to ascertain stockholders' views on the matter.

Representatives of KPMG will attend the Annual Meeting to respond to appropriate questions and to make a statement if they desire to do so.

AUDIT COMMITTEE REPORT

Pursuant to its responsibilities as set forth in the Audit Committee Charter, the Audit Committee has reviewed and discussed with management and with KPMG Gartner's audited consolidated financial statements for the year ended December 31, 2009. The Audit Committee has discussed with KPMG the matters required to be discussed by Statement on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1 AU section 380), as adopted by the Public Company Accounting Oversight Board (PCAOB) in Rule 3200T. The Audit Committee has received the written disclosures and letter from KPMG required by applicable requirements of the PCAOB regarding KPMG's communications with the Audit Committee concerning independence and has discussed with KPMG that firm's independence.

Based on the review and discussions noted above, as well as discussions regarding Gartner's internal control over financial reporting and discussions with Gartner's internal audit function, the Audit Committee recommended to the Board of Directors that the audited financial statements for the year ended December 31, 2009 be included in Gartner's Annual Report on Form 10-K for the fiscal year ended December 31, 2009 for filing with the Securities and Exchange Commission.

Our Board unanimously recommends that you vote FOR ratification of the selection of KPMG LLP as the Company's independent auditors for fiscal 2010.

Table of Contents

CORPORATE GOVERNANCE DIRECTOR INDEPENDENCE

Our Board Principles and Practices are available at www.investor.gartner.com under the Corporate Governance link and are periodically reviewed and revised as necessary by our Governance Committee and Board, most recently in October 2009. They require that our Board be comprised of a majority of directors who meet the criteria for independence from management set forth by the New York Stock Exchange (NYSE) in its corporate governance standards.

Our committee charters likewise require that our standing Audit, Compensation and Governance/Nominating Committees be comprised only of independent directors. Additionally, the Audit Committee members must be independent under Section 10A-3 of the Securities Exchange Act of 1934, as amended (the Exchange Act), and the Compensation Committee members must be independent under Rule 16b-3 promulgated under the Exchange Act and qualify as outside directors under regulations promulgated under Section 162(m) (Section 162(m)) of the Internal Revenue Code of 1986, as amended (the Code).

Utilizing all of these criteria, as well as all relevant facts and circumstances, the Board annually assesses the independence from management of all non-management directors and committee members by reviewing the commercial, financial, familial, employment and other relationships between each director and the Company, its auditors and other companies that do business with Gartner.

Any director who changes his or her primary employment must tender a resignation from the Board in order to enable the Governance Committee to determine whether the change in employment creates an actual or potential conflict of interest, lack of independence or other issue that renders the director's continued service undesirable, thereby allowing the Board to avoid removal procedures.

After analysis and recommendation by the Governance Committee, the Board determined that all of our non-management directors (i.e., Michael Bingle, Richard Bressler, Karen Dykstra, Russell Fradin, Anne Sutherland Fuchs, William Grabe, Stephen Pagliuca, James Smith and Jeffrey Ubben) are independent under the NYSE standards; that our Audit Committee members (Ms. Dykstra and Messrs. Bressler and Smith) are also independent under Section 10A-3 of the Exchange Act; and that our Compensation Committee members (Ms. Fuchs and Messrs. Fradin and Ubben) are independent under Exchange Act Rule 16b-3 and qualify as outside directors under Code Section 162(m) regulations.

The Governance Committee and the Board specifically addressed the stock ownership by ValueAct (21.6% of our Common Stock as of the date of this Proxy Statement), and the affiliation of Mr. Ubben with ValueAct. After consideration of all relevant facts and circumstances, the Board concluded that the fact of this ownership in and of itself did not impair Mr. Ubben's independence from management.

BOARD LEADERSHIP STRUCTURE

The leadership of our Board of Director rests with our independent Chairman of the Board, Mr. James C. Smith. Gartner believes that the separation of functions between the CEO and Chairman of the Board provides independent leadership of the board in the exercise of its management oversight responsibilities, increases the accountability of the CEO and creates transparency into the relationship between executive management, the board of directors and the stockholders. Additionally, in view of Mr. Smith's extensive experience as a chief executive officer of a major corporation, he is able to provide an independent point of view to our CEO on important management and operational issues.

RISK OVERSIGHT

Management, through the monthly meeting of the executive operating committee, deals with emerging operational and strategic risks facing the Company. Additionally, management believes that, through its Risk function, as well as through its review and testing of internal controls over financial reporting, it maintains robust financial statement risk assessment and risk management processes. The Risk function (which includes internal audit) conducts an annual company-wide risk assessment, from which areas of potential risk are identified and an internal audit plan is developed. Internal audit examines risk areas and

Table of Contents

makes suggestions to management to ameliorate any identified risk. Management's Disclosure Committee likewise reviews the adequacy of the Company's risk factor disclosures on a quarterly basis.

The Risk function reports directly to the Audit Committee, and provides the committee with a report each quarter. The committee reviews the results of the risk assessment process and the proposed internal audit plan. Subsequent quarterly meetings include an update on ongoing internal audit activities including results of recent audits and any changes to the audit plan and insurance updates. Risk also meets with the Audit Committee in executive session on a quarterly basis. At the Audit Committee meetings, areas of potential risk are identified and discussed by management and the committee; the committee often suggests additional areas that may warrant the attention of the Risk function.

As noted above, the Company maintains internal controls and procedures over financial reporting that are updated and tested annually. Any internal control deficiencies and the status of remediation efforts likewise are reported to the Audit Committee.

Any areas of significant risk are brought to the attention of the full board by the Audit Committee. In addition, the Company's strategic objectives and activities are discussed with the board and approved annually.

Risk Assessment of Compensation Policies and Practices

Management has conducted a risk assessment of the Company's compensation policies and practices, including all executive compensation and company-wide compensation policies and practices, as well as the many variable compensation policies applicable to our global sales force. The results of this assessment have been reported to the Compensation Committee. Management has concluded and the Compensation Committee has agreed that no Company compensation policies and practices create risks that are reasonably likely to have a material adverse effect on the Company.

BOARD AND COMMITTEE MEETINGS AND ANNUAL MEETING ATTENDANCE

Our Board held seven meetings during 2009. During 2009, all of our directors attended at least 75% of the aggregate of all Board and committee meetings held (during the periods in which such director served as a director and/or committee member.) At each Board and committee meeting, the non-management directors met in executive session. James C. Smith, our non-executive Chairman of the Board, presided over these executive sessions at the Board meetings, and each committee chairperson presided over the executive sessions at their respective committee meetings. Directors are welcome, but not required, to attend the Annual Meeting of Stockholders. In 2009, only Mr. Hall attended the Annual Meeting of Stockholders.

COMMITTEES GENERALLY AND CHARTERS

As noted above, our Board has three standing committees: Audit, Compensation and Governance/Nominating and all committee members have been determined by our Board to be independent under applicable standards. Our Board of Directors has approved a written charter for each committee which is reviewed annually and revised as appropriate, most recently in October 2009. A current copy of each charter is available at www.investor.gartner.com under the Corporate Governance link. See Miscellaneous Available Information below.

GOVERNANCE/NOMINATING COMMITTEE

Our Governance/Nominating Committee (the Governance Committee) presently consists of Ms. Fuchs and Messrs. Bingle and Grabe (Chairperson). It held four meetings during 2009. Our Governance Committee considers such matters as:

the size, composition and organization of our Board;

the independence of directors;

our corporate governance policies, including our Board Principles and Practices;

the criteria for membership as a director and the selection of individuals for election to the Board;

recommendations of committee assignments;

12

Table of Contents

recommendations concerning the form and amount of director compensation; and

the performance evaluation of our CEO, management succession planning and annual board evaluations.

In early 2010, at the recommendation of the Governance Committee, the Board resolved to reset its size at ten (10) directors. It concluded that the current membership provided an appropriate mix of talents, background and experiences that enabled the Board to effectively and efficiently carry out its responsibilities.

Candidates for Board nomination may be brought to the attention of the Governance Committee by current Board members, management, stockholders or other persons. All potential new candidates are fully evaluated by the Governance Committee, in accordance with its charter, and then considered by the entire Board for nomination.

Stockholders wishing to recommend director candidates for consideration by the committee may do so by writing to the Chairman of the Governance/Nominating Committee, c/o Corporate Secretary, Gartner, Inc., 56 Top Gallant Road, P.O. Box 10212, Stamford, CT 06904-2212, and indicating the recommended candidate's name, biographical data, professional experience and any other qualifications.

While the Governance Committee has not specified minimum qualifications for candidates it recommends, it will consider the qualifications, skills, expertise, qualities, diversity, age, availability and experience of all candidates that are presented to it for consideration. The Board utilizes a concept of diversity that extends beyond race, gender and national origin to encompass the viewpoints, professional experience and other individual qualities and attributes of candidates that will enable the Board to select candidates who are best able to carry out the Board's responsibilities and complement the mix of talent and experience represented on the Board.

Each nominee for election at the 2010 Annual Meeting of Stockholders is an incumbent director who was recommended for nomination by the Governance Committee, and nominated by the full Board for re-election.

AUDIT COMMITTEE

Gartner has a separately designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Exchange Act. Our Audit Committee presently consists of Ms. Dykstra and Messrs. Bressler (Chairperson) and Smith. Our Board has determined that both Ms. Dykstra and Mr. Bressler qualify as Audit Committee Financial Experts, as defined by the rules of the SEC, and have the requisite accounting or related financial management expertise required by the NYSE corporate governance listing standards, and that all members are financially literate as required by the NYSE corporate governance listing standards. During 2009, the Audit Committee held five meetings.

Our Audit Committee serves as an independent body to assist in Board oversight of:

the integrity of the Company's financial statements;

the Company's compliance with legal and regulatory requirements;

the independent auditor's qualifications and independence;

the Company's Risk and internal audit functions; and

the Company's independent auditors.

Additionally, the Committee:

is directly responsible for the appointment, compensation and oversight of our independent auditors;

approves the engagement letter describing the scope of the audit;

approves fees for audit and non-audit services;

provides an open avenue of communication among the independent auditors, the Risk and internal audit functions, management and the Board;

Table of Contents

resolves disagreements, if any, between management and the independent auditors regarding financial reporting for the purpose of issuing an audit report in connection with our financial statements; and

prepares the Audit Committee Report required by the SEC and included in this Proxy Statement on page 9 above.

The independent auditors report directly to the Audit Committee. By meeting with independent auditors and internal auditors, and operating and financial management personnel, the Audit Committee oversees matters relating to accounting standards, policies and practices, any changes thereto and the effects of any changes on our financial statements, financial reporting practices and the quality and adequacy of internal controls. Additionally our internal audit function reports directly to the Audit Committee. After each Audit Committee meeting, the Committee meets separately with the independent auditors and separately with the internal auditors, without management present.

The Audit Committee has established procedures for (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and (ii) the confidential, anonymous submission by employees of concerns regarding questionable accounting or auditing matters. A toll-free phone number that is managed by a third party is available for confidential and anonymous submission of concerns. All submissions are reported to the General Counsel and, in turn, to the Chairman of the Audit Committee. The Audit Committee has the power and funding to retain independent counsel and other advisors as it deems necessary to carry out its duties.

COMPENSATION COMMITTEE

Our Compensation Committee presently consists of Ms. Fuchs (Chairperson) and Messrs. Fradin and Ubben. Our Board has determined that each member of the Compensation Committee qualifies as a non-employee director under Exchange Act Rule 16b-3 and as an outside director under regulations issued under Code Section 162(m). During 2009, the Compensation Committee held six meetings.

The Compensation Committee has responsibility for administering and approving all elements of compensation for the Chief Executive Officer and other executive officers. It also approves, by direct action or through delegation, all equity awards, grants, and related actions under the provisions of our 2003 Long-Term Incentive Plan (the 2003 Plan), and administers the 2003 Plan. Consistent with the terms of the 2003 Plan, the Committee makes an annual delegation of authority to the CEO to make equity awards to certain individuals not to exceed \$100,000 in value or \$1,000,000 in aggregate value in a calendar year. This delegation does not permit any award to an employee subject to Section 16 of the Exchange Act (i.e., all executive officers) or any award which would jeopardize the 2003 Plan s qualifications under Section 162(m) or Exchange Act Rule 16b-3. The purpose of this delegation is to grant flexibility to the CEO in new hire, retention and promotion situations involving key personnel other than executive officers.

The Compensation Committee is also responsible for:

evaluating CEO performance (with the input and oversight of the Governance Committee and Chairman);

establishing CEO compensation with input from the full Board within the confines of the CEO s employment agreement;

approving the peer group established for executive compensation purposes;

approving all components of compensation paid to executive officers and directors; and

providing oversight in connection with company-wide compensation programs.

In setting CEO compensation and compensation for other executive officers, the Committee will consider the results of performance evaluations, benchmarking, the advice of our outside compensation consultant, published survey data and input from the CEO and human resources department. The CEO is responsible for reviewing the performance of all other executive officers, all of whom report directly to him, and recommending the annual salary increase, bonus program and equity award, if any, for these executive officers to the Committee for its approval. Please refer to the Compensation Discussion and Analysis on page 18 for a more detailed discussion of executive compensation. Finally, the Committee

Table of Contents

reviewed and approved the Compensation Discussion and Analysis, recommended its inclusion in this Proxy Statement (and Annual Report on Form 10-K for 2009) and issued the related report to stockholders as required by the SEC (see Compensation Committee Report on page 25 below).

Mercer (US) Inc. (Mercer) was retained by the Company to provide information, analyses, and advice regarding 2009 executive compensation and reported to the Compensation Committee chair. In the course of conducting its activities, Mercer attended four meetings of the Committee in 2009 and presented its findings and recommendations for discussion. In connection with 2009 executive compensation, Mercer:

Evaluated the competitive positioning of the Company's named executive officers' base salaries, annual incentive and long-term incentive compensation relative to its primary peers and the broader industry

Assessed the alignment of the Company compensation levels relative to performance of the Company against its peer group and relative to the Company's articulated compensation philosophy; and

Briefed the Compensation Committee and management on executive compensation trends among the Company's peers and broader industry.

All of the decisions with respect to determining the amount or form of executive compensation under the Company's executive compensation programs are made by the Committee alone and may reflect factors and considerations other than the information and advice provided by Mercer.

Compensation Committee Interlocks and Insider Participation. During 2009, no member of the Compensation Committee served as an officer or employee of the Company, was formerly an officer of the Company or had any relationship with the Company required to be disclosed under Transactions With Related Persons. Additionally, during 2009, no executive officer of the Company: (i) served as a member of the compensation committee (or full board in the absence of such a committee) or as a director of another entity, one of whose executive officers served on our Compensation Committee; or (ii) served as a member of the compensation committee (or full board in the absence of such a committee) of another entity, one of whose executive officers served on our Board.

DIRECTOR STOCK OWNERSHIP GUIDELINES

The Board believes directors should have a financial interest in the Company. Accordingly, each director is required to own at least 10,000 shares of our Common Stock. New directors also have three years from election or appointment to comply with the policy as follows: 25% within one year of election or appointment; 50% within two years of election or appointment; and 100% within three years of election or appointment. We permit directors to apply deferred but vested RSUs towards satisfying these requirements. All of our directors are in compliance with these guidelines.

CODE OF ETHICS

Gartner has adopted a CEO & CFO Code of Ethics which applies to our Chief Executive Officer, Chief Financial Officer, controller and other financial managers, a Code of Business Conduct, which applies to all Gartner officers, directors and employees, and Principles of Ethical Conduct which applies to all employees. All of these codes are available at www.investor.gartner.com under Corporate Governance. At least annually, each director and each member of senior management must affirm his or her compliance with the Code of Business Conduct. See Miscellaneous Available Information below.

**EXECUTIVE COMPENSATION
COMPENSATION DISCUSSION AND ANALYSIS**

Set forth below is a discussion of compensation awarded to, earned by, or paid to, the Company's executive officers, including our 2009 named executive officers (that is, our CEO, Eugene A. Hall, our CFO, Christopher J. Lafond, and our three most highly compensated executive officers in 2009 other than the CEO and CFO; Per Anders Waern, our SVP, Consulting; Alwyn Dawkins, our SVP, Events; and Lewis G. Schwartz, our SVP, General Counsel and Corporate Secretary). This discussion explains all principal elements of the Company's compensation of these officers, including (i) the objectives of the Company's compensation policies; (ii) what the compensation program is designed to reward; (iii) each element of compensation; (iv) why the Company chooses to pay each element; (v) how the Company determines the amount (and, where applicable, the formula) for each element to pay; and (vi) how each compensation element and the Company's decisions regarding that element fit into the Company's overall compensation objectives and affect decisions regarding other elements.

The Objectives of the Company's Compensation Policies

The objectives of our compensation policies are twofold:

to attract, motivate and retain highly talented, creative and entrepreneurial individuals by paying market-based compensation; and

to motivate our executives to maximize the performance of our Company through pay-for-performance compensation components based on the achievement of corporate performance targets that are aggressive, but attainable, given economic conditions.

What the Compensation Program Is Designed to Reward

Our guiding philosophy is that the more executive compensation is linked to corporate performance, the stronger the inducement is for management to strive to improve Gartner's performance. In addition, we believe that the design of the total compensation package must be competitive with the marketplace from which we hire our executive talent in order to achieve our objectives and attract and retain individuals who are critical to our long-term success. Our compensation program for executive officers is designed to compensate individuals for achieving and exceeding *corporate* performance objectives. We believe this type of compensation encourages outstanding team performance (not simply individual performance) which builds stockholder value.

Both short-term and long-term incentive compensation is earned by executives only upon the achievement by the Company of certain measurable performance objectives that are deemed by the Compensation Committee and management to be critical to the Company's short-term and long-term success. The amount of compensation ultimately earned will increase or decrease depending upon Company performance. Finally, we believe that the proportion of an executive's compensation attributable to corporate performance objectives should increase as the individual's business responsibilities increase.

Each Element of Compensation and Why the Company Chooses to Pay Each Element

Principal Compensation Elements. To achieve the objectives noted above, we have designed executive compensation to consist of three principal elements:

base salary,

short-term incentives (cash bonuses) and

long-term incentives (equity awards under our 2003 Long-Term Incentive Plan).

We pay competitive salaries to attract and retain the executive talent necessary to develop and implement our corporate strategy and business plan. We pay short-term and long-term incentive compensation to motivate our executives to generate outstanding performance, to align compensation paid with proven results that benefit our stockholders, and to make our executives stakeholders in the success of our Company. In addition, we provide standard perquisites to our executive officers, consistent with practices that exist elsewhere in the external marketplace.

How the Company Determines Executive Compensation Elements

In General. The severe economic conditions that arose in the fourth quarter of 2008 and the uncertain operating environment that existed in the beginning of 2009 led the Company to be conservative when planning 2009 executive compensation at the start of 2009. Target pay for executives, including base salaries, bonuses and long-term incentive awards, all were frozen at 2008 values. Throughout Gartner, merit and cost of living increases were only made to employees located in countries with high wage inflation or where increases were legally mandated; all other compensation was frozen at 2008 levels.

Performance objectives for short-term (bonuses) and long-term (equity) incentive awards were set at levels that we believed would continue to motivate performance and would be attainable given the economic outlook in early 2009, with adjustment for over- and under-achievement depending upon actual performance. The 2009 executive compensation performance objectives were pegged to the 2009 operating plan which was approved by the Board of Directors. The goal was to motivate executives and employees to achieve the operating plan despite the existence of adverse economic conditions. We believe that it is especially important to strengthen executive officer motivation to achieve the highest possible performance in difficult economic times. Consequently, the performance objectives were intended to compel the level of performance necessary to enable the Company to achieve its operating plan for 2009, despite the worst economic conditions in decades.

As in prior years, the short and long-term incentive compensation elements provided executives with an opportunity to increase their total compensation package based upon the over-achievement of corporate performance objectives; similarly, in the case of under-achievement of corporate performance objectives, the value of these incentive elements would fall below their target value. We give greater weight to the long-term incentive compensation element, as compared to the salary and short-term elements, in order to drive corporate performance and further align management to stockholder interests. We believe that long-term incentive compensation contributes more than salary and short-term incentive compensation to the retention of employees and to the delivery of top performance. Potential or actual gains or losses from previously granted long-term awards did not impact decisions pertaining to the 2009 compensation elements or the 2009 aggregate executive compensation package.

The salary, short-term and long-term incentive compensation elements for executive officers (other than the CEO) are recommended by the CEO and subject to approval by the Compensation Committee. In formulating his recommendation to the Committee, the CEO undertakes a performance review of these executives and considers input from human resources personnel at the Company, input from the compensation consultant and benchmarking data (discussed below).

The salary, short-term and long-term incentive compensation elements for the CEO's compensation are established by the Compensation Committee within the parameters of Mr. Hall's employment agreement with the Company, after evaluation, together with other independent directors, of the CEO's performance and after consideration of input from the Committee's compensation consultant and benchmarking data. See Employment Agreements with Executive Officers below for a detailed discussion of Mr. Hall's agreement.

Ultimate approval of all elements of executive officer compensation resides with the Compensation Committee.

Benchmarking. For 2009 executive compensation planning purposes, Mercer (US), Inc. (Mercer) served as our compensation consultant and undertook a competitive analysis of our 2008 executive compensation programs (the 2008 Executive Compensation Review) for use by management as one principal factor, among others, in planning our 2009 executive compensation program. The 2008 Executive Compensation Review presented comparative data on salary, short-term incentive (bonus) and long-term incentive (equity) compensation paid to individuals occupying comparable positions at a peer group of companies of similar industry and size, and was based upon 2008 proxy

statement data for this peer group, as well as certain published U.S. survey data.

For 2009 executive compensation planning purposes, management identified and reviewed with Mercer a peer group that consisted of 10 US based public companies in the high tech industry, with a particular focus on software and IT services, that approximated Gartner in terms of one or more of the following factors: revenues, net income, total assets, market capitalization and/or total employees, and

Table of Contents

that compete with Gartner for executive talent both from a hiring and a retention standpoint (the Peer Group). Notwithstanding that Gartner's sales, market capitalization and total employees were below the Peer Group 25th percentile levels for these comparator factors, we believe the Peer Group companies are appropriate for comparator purposes for the factors noted above. The Compensation Committee reviewed and approved the composition of the Peer Group, and will reconsider and revise the Peer Group as necessary each year.

For 2009 compensation planning purposes, the Peer Group was derived from the prior year's peer group and adjusted for companies that were acquired and/or no longer reported relevant data. The Peer Group consisted of the following 10 companies:

Adobe Systems, Inc.	Moody's Corporation
Autodesk, Inc.	IMS Health Incorporated
BMC Software Inc.	Intuit Inc.
Cadence Design Systems Inc.	Sybase, Inc.
Dun & Bradstreet Corp.	Verisign, Inc.

To obtain information pertaining to the five highest paid executive officers, Mercer used the most recent publicly available Peer Group proxy data. They applied consistent valuation methodologies, and calculated 25th percentile, median and 75th percentile data for base salary, target total cash compensation (salary and bonus) and target total direct compensation (salary, bonus and long-term incentive awards) by executive officer position that correlated to the top five executive officers. Additionally, Mercer utilized data from several national surveys that focused on companies in professional services, technology and general industry with revenues between \$500 million and \$2 billion, to obtain additional data for all executive officer positions.

According to the 2008 Executive Compensation Review, our 2008 executive compensation compared to that of the Peer Group (in percentiles) as follows:

Officer	Base Salary	Target Total Cash Compensation	Target Total Direct Compensation
CEO	< 25 th	< 25 th	> 25 th and < 50 th
CFO	> 25 th and < 50 th	25 th	> 25 th and < 50 th
Top 5	< 25 th	25 th	<25 th

In addition, base salary and target total cash compensation for all of our executive officers was below the 75th percentile of the published survey data; and target total direct compensation for all of our executive officers was above the 75th percentile of the published survey data. Since the national survey data was based upon data from a broader spectrum of companies, including many that are not within our industry or with which we do not compete for talent, we believe the Peer Group comparator data to be more relevant for our benchmarking purposes.

The following pie-charts illustrate the relative mix of target compensation elements for our executive officers. Long-term incentive compensation, which vests over a four year period, consists of performance-based restricted stock units (PRSUs) and stock appreciation rights (SARs), and represents a majority of the compensation we pay to our executive officers.

Table of Contents

These results reflect our belief that long-term incentive compensation contributes to a greater degree to the retention of employees and to the delivery of top performance than does cash and short-term compensation; accordingly, we allocate compensation more heavily to that element.

Base Salary. We set base salaries of executive officers when they join the Company by evaluating the responsibilities of the position, the experience of the individual and the marketplace in which we compete for the executive talent we need. In addition, where possible, we consider salary information for comparable positions for members of our Peer Group or other available benchmarking data.

In determining whether to award salary merit increases, we consider published projected U.S. salary increase data for the technology industry and generally (sources include Buck Consultants, Mercer, Towers Perrin and WorldatWork survey reports), as well as available world-wide salary increase data. Mr. Hall's salary increase is established each year by the Compensation Committee after completion of Mr. Hall's performance evaluation for the preceding year, which is undertaken by the Chairman of the Board of Directors, with the assistance of various other board members.

For 2009, due to severe economic conditions, there was no executive officer or company-wide merit increase, and salaries were frozen at 2008 levels.

Short-Term Incentive Compensation (Cash Bonuses). All bonuses to executive officers are awarded pursuant to Gartner's Executive Performance Bonus Plan. This plan is designed to motivate executive officers to achieve goals relating to the performance of Gartner, its subsidiaries or business units, or other objectively determinable goals, and to reward them when those objectives are satisfied. We believe that the relationship between proven performance and the amount of short-term incentive compensation paid promotes, among executives, decision-making that increases stockholder value and promotes Gartner's success. If certain requirements are satisfied, bonuses awarded under this plan to eligible employees will qualify as deductible performance-based compensation within the meaning of Code Section 162(m).

In 2009, we designed the annual cash bonus component of incentive compensation to align pay with our short-term (annual) performance results. For 2009, bonus targets for all executive officers, including Mr. Hall, were based solely upon achievement of company-wide financial performance objectives for 2009 (with no individual performance component). The financial objectives and weightings used for 2009 executive officer bonuses were 2009 Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA), which measures overall profitability from business operations (weighted 80%), and Contract Value (CV), which measures the annualized value attributable to all of our subscription-related research products, our largest business segment, that recognize revenue on a ratable basis, measured on a foreign exchange neutral basis (weighted 20%) at December 31, 2009. In 2009, greater weight was given to EBITDA to ensure affordability in a particularly challenging operating year. These factors, EBITDA and CV, are believed by management and the Compensation Committee to be the most significant measurements of profitability and business growth for our Company and have been used successfully for a number of years in driving business performance and determining executive compensation.

For 2009, each executive officer was assigned a bonus target that was expressed as a percentage of salary and varied from 40% to 100% of salary depending upon the executive's level of responsibility. Since salaries were not increased in 2009, target bonuses remained at 2008 levels. With respect to our named executive officers, 2009 bonus targets, as a percentage of base salary, were 100% for Mr. Hall, and 60% for each of Messrs. Lafond, Waern, Dawkins and Schwartz.

As noted above, the Company pegged target short-term incentive compensation performance objectives (EBITDA and CV) to the 2009 operating plan. Accordingly, the target performance objective amounts (achievement of which would

result in 100% payment of target bonus) were: EBITDA \$170 million and Contract Value \$755 million (measured at December 31, 2009). Final bonuses payable, as a percentage of target, could range from 0% (if EBITDA and CV were less than 80% of target) to a maximum 200% (if EBITDA and CV were at least 120% of target) depending upon the level of achievement of these objectives.

Table of Contents

In 2009, management recommended and the Compensation Committee approved, a reduction of earned bonuses for executive officers to 100% of target, even though the Company surpassed its operating plan and the performance objective amounts for short-term incentive compensation exceeded target. This decision was made based upon a balanced assessment of the Company's overall profitability and the macro-economic environment. These bonuses were paid in February 2010. See Summary Compensation Table Non-Equity Incentive Plan Compensation for the amount of cash bonuses earned by the named executive officers in 2009.

Long-Term Incentive Compensation (Equity Awards). Promoting stock ownership is a key element of our compensation program philosophy. Stock-based incentive compensation awards—especially when they are assigned a combination of performance and time-based vesting criteria—induce enhanced performance, promote retention of executive officers and align executives' personal rewards with long-term stock price appreciation, thereby integrating management and stockholder interests. We have evaluated different types of long-term incentives based on their motivational value, cost to the Company and appropriate share utilization under our stockholder-approved 2003 Long-Term Incentive Plan (2003 Plan). At the present time, our annual grants of long-term incentive awards to executives consist of stock-settled stock appreciation rights (SARs) and performance-based restricted stock units (RSUs), both of which vest 25% per year commencing one year from grant and on each anniversary thereof, subject to continued service on the vesting date. We believe that granting SARs and RSUs effectively focuses our executives on delivering long-term value growth for our stockholders.

SARs permit executives to benefit from an increase in stock price over time. SAR value can be realized only after the SAR vests. Our SARs are stock-settled and may be exercised seven years from grant. When the SAR is exercised, the executive receives shares of our Common Stock equal in value to the aggregate appreciation in the price of our Common Stock from the date of grant to the exercise date for all SARs exercised. Therefore, SARs only have value to the extent the price of our Common Stock exceeds the grant price of the SAR. In this way, SARs motivate our executives to increase stockholder value and thus align their interests with those of our stockholders.

RSUs offer executives the opportunity to receive our Common Stock contingent on the achievement of performance goals and continued service over the vesting period. RSU recipients are eligible to earn a target fixed number of shares if and to the extent stipulated one-year performance goals are achieved. They can earn more shares if the Company over-performs (up to 200% of their target number of shares), but they will earn fewer shares (potentially none) if the Company under-performs. Shares of Common Stock subject to earned RSU awards are issued to the executive on the date they vest. Released shares have value even if our Common Stock price does not increase, which is not the case with SARs. Accordingly, RSUs encourage executives to increase stockholder value while promoting executive retention over the long-term.

Consistent with weightings in prior years, 30% of each executive's long-term incentive compensation award value was granted in SARs and 70% was granted in RSUs. RSUs deliver value utilizing fewer shares since the executive can earn the full share rather than just the appreciation in value over the grant price (as is the case with SARs). Additionally, the cost efficiency of RSUs enhances the Company's ability to conservatively utilize the 2003 Plan share pool, which contributed to the decision to convey a larger portion of the 2009 overall long-term incentive compensation value in RSUs than in SARs. For purposes of determining the number of SARs awarded, the allocated SAR award value is divided by the Black-Scholes-Merton valuation on the date of grant using assumptions appropriate on that date. For purposes of determining the target number of RSUs awarded, the allocated target RSU award value is divided by the closing price of Gartner Common Stock on the date of grant as reported by the New York Stock Exchange.

The Compensation Committee approved CV as the performance measure underlying RSUs awarded in 2009. As noted above, the 2009 target CV amount (resulting in 100% of the target number of RSUs becoming eligible to vest) was pegged to the 2009 operating plan and set at \$755 million measured at December 31, 2009. CV in 2009 exceeded

the target amount, which resulted in the payout of 119.37% of the target number of PRSUs awarded. The PRSUs were adjusted by this factor in February 2010 after

22

Table of Contents

certification of the achievement of this performance measure by the Compensation Committee without any modification by the Committee. See Grants of Plan-Based Awards Table Possible Payouts Under Equity Incentive Plan Awards for the actual number of SARs and PRSUs awarded to the named executive officers in 2009.

No performance objectives for any PRSU intended to qualify under Code Section 162(m) (i.e., awards to executive officers) may be modified by the Committee. While the Committee does have discretion to modify other aspects of the awards (subject to the terms of the 2003 Plan), no modifications were made in 2009.

Consistent with other elements of 2009 executive compensation and reflective of the economic climate, the 2009 aggregate target award dollar value (PRSUs and SARs) to executive officers, individually and as a group, was the same as the 2008 aggregate and individual target award dollar value. Individual executive award values varied with increasing levels of responsibility. Mr. Hall's target award value was derived from his employment agreement. See Employment Agreements with Executive Officers for a detailed discussion of Mr. Hall's employment agreement.

Additional Compensation Elements. In order to further achieve our first objective of providing a competitive compensation package with great retention value, we provide various other benefits to our executive officers that we believe are typically available to, and expected by, persons in their senior business roles. Our basic executive perquisites program includes 35 days paid time off (PTO) annually, enhanced severance and change in control benefits (discussed below) and relocation services. For more information concerning perquisites, see Other Compensation Table and accompanying footnotes below.

Mr. Hall's perquisites, severance and change in control benefits are governed by his employment agreement with the Company, which is discussed in detail below under Employment Agreements With Executive Officers Termination and Related Payments Mr. Hall.

We also maintain a non-qualified deferred compensation plan for our highly compensated employees, including our executive officers, to assist eligible participants with retirement and tax planning by allowing them to defer compensation in excess of amounts permitted to be deferred under our 401(k) plan. This plan allows eligible participants to defer up to 50% of base salary and/or 100% of bonus to a future period. In addition, as a further inducement to participation in this plan, the Company presently matches contributions by executive officers, subject to certain limits. For more information concerning this plan, see Non-Qualified Deferred Compensation Table and accompanying narrative and footnotes below. Finally, the Company maintains an employee stock purchase plan which is available to employees in the United States and 16 other countries at the present time.

Clawback and Stock Ownership Policies

The Company has not adopted a formal clawback policy that would require the adjustment or recovery of awards or payments to executive officers if the performance measures upon which these awards or payments are based are restated or otherwise adjusted in a manner that would reduce the size of the award, although trends in this area continue to be monitored by the Compensation Committee. In the event of a restatement resulting from fraud or misrepresentation, the Committee will consider seeking the return of awards that should not have been made and pursuing all other remedies that may be available.

The Company believes that the personal interests of executive officers are aligned with the interests of our stockholders principally through our long-term incentive awards (that vest over four years). Similarly, executive officers are limited in their ability to sell Common Stock under our Insider Trading Policy and may not do so without pre-clearance from our General Counsel. For these reasons, the Company does not have a stand-alone stock ownership requirement for executive officers. Notwithstanding the absence of a formal stock ownership policy, all of our executive officers (with the exception of those recently appointed as such) hold significant amounts of Common Stock, options, PRSUs and/or SARs. See Security Ownership of Certain Beneficial Owners and Management on

page 37.

Table of Contents**Accounting and Tax Impact**

In setting compensation, the Compensation Committee and management consider the potential impact of Code Section 162(m), which precludes a public corporation from deducting on its corporate income tax return individual compensation in excess of \$1 million for its chief executive officer or any of its three other highest-paid officers. Section 162(m) also provides for certain exemptions to this limitation, specifically compensation that is performance-based (within the meaning of Section 162(m)) and issued under a stockholder-approved plan. Our 2009 short-term incentive (bonus) awards were performance-based and were made pursuant to our stockholder approved Executive Performance Bonus Plan and, therefore, are deductible under Section 162(m). The PRSU component of the 2009 long term incentive award was performance-based and issued under the 2003 Plan, which has been approved by stockholders and, therefore, is deductible under Section 162(m). Although the Compensation Committee endeavors to maximize deductibility of compensation under Section 162(m), it maintains the discretion to retain maximum flexibility in establishing compensation elements and to approve compensation that may not be deductible under Section 162(m), if the Committee believes the compensation element to be necessary or appropriate under the circumstances.

Grant of Equity Awards

The Board of Directors has a formal policy with respect to the grant of equity awards under our 2003 Plan. Equity awards may include stock options, stock appreciation rights (SARs), restricted stock awards (RSAs) and awards of restricted stock units (RSUs) and performance-based restricted stock units (PRSUs). In 2009, all such awards to named executive officers took the form of PRSUs and SARs. Pursuant to the 2003 Plan, the Committee may not delegate its authority with respect to Section 16 persons, nor in any other way which would jeopardize the plan's qualification under Section 162(m) or Exchange Act Rule 16b-3. Accordingly, our policy specifies that all awards to our Section 16 executive officers must be approved by the Compensation Committee on or prior to the award grant date, and that all such awards will be made and priced on the date of Compensation Committee approval, except in the case of new hires, which is discussed below.

Consistent with the Plan, the Compensation Committee annually approves a delegation of authority to the CEO to make equity awards under the Plan to Gartner employees on account of new hires, retention or promotion without the approval of the Compensation Committee. The current delegation of authority specifies a maximum award value of \$100,000 per individual, and a maximum aggregate award value of \$1,000,000 for the calendar year. For purposes of this computation, in the case of RSAs and RSUs, value is calculated based upon the Fair Market Value (defined in the 2003 Plan as the closing price on the date of grant as reported by the New York Stock Exchange) of a share of our Common Stock, multiplied by the number of RSAs or RSUs awarded. In the case of options and SARs, the value of the award will be the Black-Scholes-Merton calculation of the value of the award using assumptions appropriate on the award date. Any awards made under this delegated authority are reported to the Compensation Committee at the next regularly scheduled committee meeting.

As discussed above, the structure and value of annual long-term incentive awards comprising the long-term incentive compensation element of our compensation package to executive officers are established and approved by the Compensation Committee in the first quarter of each year. The specific terms of the awards (number of PRSUs and SARs and related performance criteria) are determined, and the awards are approved and made, on the same date and after the release of the Company's prior year financial results. New hire, retention and promotion awards to executive officers are recommended by the CEO to the Compensation Committee for its approval.

It is the Company's policy not to make equity awards to executive officers prior to the release of material non-public information. The 2009 long-term incentive awards to executive officers were approved by the Compensation Committee and made on February 11, 2009, after release of our 2008 financial results. The final number of PRSUs issuable on account of the 2009 award was determined by the Compensation Committee on February 11, 2010 upon final determination by the Committee of the level of achievement of the related performance criteria and after release

of our 2009 financial results. Generally speaking, awards for newly hired executives that are given as an inducement to joining the Company are

24

made on the 15th or 30th day of the month first following the executive's start date (and after approval by the Compensation Committee), and retention and promotion awards are made on the 15th or 30th day of the month first following the date of Compensation Committee approval; however, we may delay making these awards pending the release of material non-public information.

Waern and Dawkins were not named executive officers in each of the three years reported. As you can see from the table and consistent with our compensation philosophy discussed above, long term incentive compensation in the form of equity awards comprises a significant portion of total compensation.

(1) All named executive officers elected to defer a portion of their salary and/or bonus under the Company's Non-Qualified Deferred Compensation Plan. Amounts reported include the deferred portion. See Non-Qualified Deferred Compensation Table below.

(2)

Represents the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (e)) for performance restricted stock units, or PRSUs (Stock Awards), and the aggregate grant date fair value computed in accordance with FASB ASC Topic 718 (column (f)) for stock-settled stock appreciation rights (Option Awards) granted to the named executive officer in 2009. The value reported for the PRSUs is based upon the probable outcome of the performance objective as of the grant date, which is consistent with the grant date estimate of aggregate compensation cost to be recognized over the service period, excluding the effect of forfeitures, or the target grant date award value. The potential maximum value of the PRSUs, assuming attainment of the highest level of the performance conditions, is 200% of the target value. There were no forfeitures applicable to the named executive officers in 2009. For additional information concerning the related FASB ASC Topic 718 calculations, including the assumptions made in these calculations, see Note 10 Stock-Based Compensation to the Notes to Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2009.

- (1) Represents cash bonuses that could have been earned in 2009 by our named executive officers based solely upon achievement of specified financial performance objectives for 2009 and ranging from 0% (threshold) to 200% (maximum) of target (100%). Bonus targets (expressed as a percentage of base salary) were 100% for Mr. Hall, and 60% for each of Messrs. Lafond, Waern, Dawkins and Schwartz. Actual bonuses earned in 2009 by named executive officers and paid in February 2010 were equal to their target bonus, and are reported under Non-Equity Incentive Plan Compensation in the Summary Compensation Table. See *Short-Term Incentive Compensation (Cash Bonuses)* in the Compensation Discussion and Analysis for additional information.
- (2) Represents the number of performance-based Restricted Stock Units (RSUs) and stock-settled Stock Appreciation Rights (SARs) awarded on February 11, 2009 under our 2003 Long-Term Incentive Plan. The target number of RSUs (100%) originally awarded on that date was subject to adjustment ranging from 0% (threshold) to 200% (maximum) based solely upon achievement of a specified financial performance objective for 2009, and was adjusted to 119.37% of target on February 11, 2010 upon final determination by the Committee of achievement of this objective. The number of RSUs finally awarded to the named executive officers on account of the 2009 grant was as follows: Mr. Hall 433,363; Mr. Lafond 120,788; and Messrs. Waern, Dawkins and Schwartz 60,319. The number of SARs was fixed on the award date. The RSUs and SARs vest 25% per year commencing February 11, 2010, subject to continued employment on the vesting date. See *Long-Term Incentive Compensation (Equity Awards)* in the Compensation Discussion and Analysis for additional information.
- (3) Represents the closing price of our Common Stock on the New York Stock Exchange on the grant date.
- (4) Represents the aggregate grant date fair value of RSUs and SARs granted to the named executive officer in 2009. The value reported for the RSUs is based upon the probable outcome of the performance objective as

of the grant date, which is consistent with the grant date estimate of aggregate compensation cost to be recognized over the service period determined as of the date of grant under FASB ASC Topic 718, excluding the effect of estimated forfeitures, or the target grant date award value. For additional information concerning the related FASB ASC Topic 718 calculations, including the assumptions made in these calculations, see Note 10 Stock-Based Compensation to the Notes to Consolidated Financial Statements contained in our Annual Report on Form 10-K for the year ended December 31, 2009.

EMPLOYMENT AGREEMENTS WITH EXECUTIVE OFFICERS

Only our Chief Executive Officer, Mr. Hall, is a party to long-term employment agreement with the Company.

Mr. Hall Employment Agreement dated February 15, 2007. On February 15, 2007, Gartner entered into an Employment Agreement with Mr. Hall, with an effective date of January 1, 2007, pursuant to which Mr. Hall agreed to serve as chief executive officer of the Company (the CEO Agreement).

The CEO Agreement has an initial term of five years (expiring December 31, 2011), with automatic one year renewals commencing on the fifth anniversary, and continuing each year thereafter, unless either party provides the other with at least 60 days prior written notice of an intention not to extend the term. Under the CEO Agreement, Mr. Hall is entitled to:

an annual base salary (\$724,065 in 2009), subject to adjustment on an annual basis by the Compensation Committee;

an annual target bonus under the Company's executive bonus program equal to 100% of annual base salary, and payable based upon achievement of specified Company objectives. The bonus actually paid may be higher or lower than target based upon over- or under- achievement of these objectives, subject to a maximum actual bonus of 200% of base salary;

an annual long-term incentive award with an aggregate value at least equal to \$7,000,000 minus the sum of base salary and target bonus for the year of grant (the Annual Incentive Award). Each year's Annual Incentive Award will be divided between restricted stock units and stock appreciation rights, with the number of restricted stock units being subject to adjustment for over- or under- achievement of specified Company objectives. For 2009, the Annual Incentive Award had an aggregate target value of \$5,762,000 (the same target value as 2008), and vested 25% per year commencing one year from grant assuming continued service on the vesting date, with 70% of the value allocated to PRSUs and 30% allocated to SARs; and

all benefits provided to senior executives, executives and employees of the Company generally from time to time, including medical, dental, life insurance and long-term disability.

In addition, Mr. Hall is entitled to be nominated for election to the board of directors during his employment term, and is entitled to an automobile and driver during the employment term.

Termination and Related Payments Mr. Hall. Mr. Hall's employment is at will and may be terminated by him or us upon 60 days' notice. If we terminate Mr. Hall's employment involuntarily and without Business Reasons (as defined in the CEO Agreement) or a Constructive Termination (as defined in the CEO Agreement) occurs, or if we do not renew the CEO Agreement upon its expiration and Mr. Hall terminates his employment within 90 days following the expiration of the CEO Agreement, then, subject to Mr. Hall signing and not revoking a general release of claims against the Company, Mr. Hall will be entitled to receive:

base salary and paid time off (PTO) accrued through the termination date, plus continued base salary for a period of 36 months following the termination date, paid in accordance with the Company s regular payroll schedule;

any earned but unpaid bonus from the prior fiscal year which will be paid at the same time as bonuses for such fiscal year are paid to other Company executives;

300% of the average of earned annual bonuses for the three years preceding the year in which the termination date occurs, payable in a lump sum;

Table of Contents

36 months continued vesting in accordance with their terms (including achievement of applicable performance objectives) of all outstanding stock options and Annual Incentive Awards (all such awards with an exercise feature will remain exercisable for 30 days following the last day of such 36 month continued vesting period, subject to the maximum term of the award);

a lump sum payment in cash equal to 75% of any Annual Incentive Awards that have accrued, but have not been granted, prior to the termination date (i.e., in the event termination occurred after January 1 and prior to the annual award grant date in mid February in any given year); and

reimbursement for premiums incurred to continue group health benefits (or, at the Company's election, to obtain substantially similar health benefits through a third party carrier) for 36 months for Mr. Hall, his spouse and any children, provided that Mr. Hall makes the appropriate COBRA election.

Payment of severance amounts is conditioned upon execution of a release and compliance with 36 month non-competition and non-solicitation covenants set forth in the CEO Agreement, and in certain circumstances, payment may be delayed for six months following termination under Code Section 409A.

In the event of a Change In Control (defined below), Mr. Hall will be entitled to receive the following, whether or not his employment is terminated:

accrued base salary and PTO through the Change In Control date, plus three times base salary then in effect, payable upon the Change In Control;

earned but unpaid bonus from the prior fiscal year plus three times the target bonus for the fiscal year in which the Change In Control occurs, payable upon a Change In Control;

accrued but ungranted Annual Incentive Awards, granted immediately prior to the Change In Control;

continuation of group health benefits at the Company's cost pursuant to the Company's standard programs for three years following the Change In Control for Mr. Hall, his spouse and any children; thereafter, to the extent COBRA is applicable, continuation of health benefits for such persons at Mr. Hall's cost, for a period of 18 months or such longer period as may be applicable under the Company's policies then in effect, provided that Mr. Hall makes the appropriate election and payments;

automatic vesting of all outstanding stock options and Annual Incentive Awards (at target in the case of performance-based equity awards as to which the related performance adjustment has not yet occurred upon the Change In Control); and

an amount sufficient to fund the payment (Gross-Up Payments) for any excise tax imposed by Code Section 4999 on any payment received upon a Change In Control that would constitute a parachute payment within the meaning of Code Section 280G, together with any income, employment and excise taxes (including interest and penalties) imposed on the Gross Up Payment.

The CEO Agreement utilizes the 2003 Plan definition of Change In Control which currently provides that a Change In Control will occur when (i) any person becomes the beneficial owner of 50% of our voting securities, (ii) there is a merger or consolidation of Gartner with another company and our outstanding securities represent less than 50% of the voting securities of the combined entity, (iii) there is a completed sale of all or substantially all of our assets and (iv) there is a change in the composition of our Board occurring within a one year period, as a result of which fewer

than a majority of the directors on the board remain.

Single Trigger Change in Control and Excise Tax Gross-Up. The single trigger change in control and excise tax gross-up provisions in Mr. Hall's employment agreement were negotiated and agreed to in August 2004 when Mr. Hall joined the Company, and then retained in connection with the negotiation and execution of the CEO Agreement. The Compensation Committee intends not to enter into any other employment or change in control agreements which contain single trigger and/or excise tax gross-up provisions in the future.

Termination and Related Payments – Other Executive Officers. In the event of termination for cause, voluntary resignation or as a result of death, disability or retirement, no severance benefits are

Table of Contents

provided. In the event of termination without cause (including in connection with a Change in Control), each of our other executive officers will be entitled to receive the following severance benefits:

base salary then in effect for 52 weeks plus any unused PTO not to exceed 25 days (paid in accordance with the Company's regular payroll schedule); and

reimbursement for COBRA premiums to continue group health benefits pursuant to our standard programs for the executive, the executive's spouse and any children for 12 months after the termination date;

In order to receive severance benefits, the executive officers who are terminated are required to execute and comply with a separation agreement and release of claims in which, among other things, the executive reaffirms his or her commitment to confidentiality and non-competition obligations (that bind all employees for one year following termination of employment) and releases the Company from various employment-related claims. In addition, in the case of named executive officers (other than Mr. Hall), severance will not be paid to any executive who refuses to accept an offer of comparable employment from Gartner or who does not cooperate or ceases to cooperate when being considered for a new position with Gartner, in each case as determined by the Company.

In the event of a Change In Control (as defined in the 2003 Plan), if the executive is terminated without cause within 12 months after the Change In Control, all of the executive's outstanding equity awards will immediately vest in full (as and when adjusted in the case of performance-based equity awards as to which the related performance adjustment has not yet occurred on termination), and those which are exercisable can be exercised for 12 months following the termination date. Finally, under certain circumstances, payments and release of shares may be delayed for six months following termination under Code Section 409A.

Death, Disability and Retirement. In the case of termination due to death, disability or retirement, each named executive officer is entitled to immediate vesting of all options, RSUs and SARs that would have vested (assuming continued service) during the 12 months following termination, except for performance-based RSUs that will automatically vest if, when and to the extent they vest pursuant to a related performance adjustment within 12 months of termination. Additionally, options and SARs remain exercisable for the earlier of the expiration date or one year from the date of termination. In the event of termination for any other reason, any unexercised options and SARs remain exercisable for the earlier of the expiration date or 90 days from the date of termination (excluding any period during which trading is prohibited under our insider trading policy).

We use standard definitions of retirement and disability. Retirement is defined in the 2003 Plan as termination of employment if (i) on the date of termination, the employee is at least 55 years old and has at least 5 years continued service and (ii) the sum of the employee's age and years of continued service equals at least 65. None of the named executive officers, with the exception of Mr. Schwartz, qualified for a retirement benefit at December 31, 2009. Disability is defined in the 2003 Plan as total and permanent disability.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Employment Agreements With Executive Officers above contains a detailed discussion of the payments and other benefits to which our CEO and other named executive officers are entitled in the event of termination of employment or upon a Change In Control, and the amounts payable assuming termination at December 31, 2009 are set forth below. In this event, each named executive officer would also be entitled to receive the balance in his deferred compensation plan account and an accrued personal time off (PTO). See the Non-Qualified Deferred Compensation Table below for balances.

Mr. Hall, CEO. The table set forth below quantifies amounts that would be payable by the Company, and the value of shares of Common Stock that would be released, to Mr. Hall had his employment been terminated on December 31, 2009 (the Termination Date) as a result of (1) involuntary termination without cause and/or constructive termination, (2) death, disability or retirement and (3) a Change In

- (2) Represents (x) the fair market value using the closing price of our Common Stock on December 31, 2009, or \$18.04 (the Year End Price) of unvested RSUs that would have vested within 36 months following the Termination Date (as adjusted in the case of performance-based RSUs), plus (y) the spread between the Year End Price and the exercise price for all in-the-money SARs that would have vested within 36 months following the Termination Date, multiplied by the number of such SARs.
- (3) Represents (x) the fair market value using the Year End Price of unvested RSUs that would have vested within 12 months following the Termination Date (as adjusted in the case of performance-based RSUs), plus (y) the spread between the Year End Price and the exercise price for all in-the-money SARs that would have vested within 12 months following the Termination Date, multiplied by the number of such SARs. Mr. Hall was not retirement eligible (as defined by Gartner) at December 31, 2009.
- (4) Represents (x) the fair market value using the Year End Price of all unvested RSUs on the Termination Date (at target in the case of unadjusted 2009 performance-based RSUs), plus (y) the spread between the Year End Price and the exercise price of all in-the-money unvested SARs on the Termination Date, multiplied by the number of such SARs.
- (5) Had Mr. Hall been terminated on December 31, 2009 in connection with a Change In Control, no payments to Mr. Hall would have constituted excess parachute payments under Code Section 280G and regulations issued thereunder, nor would any related Gross-Up Payments been made.

Other Named Executive Officers. The table set forth below quantifies amounts that would be payable by the Company, and the value of shares of Common Stock that would be released, to our named executive officers (other than Mr. Hall) had their employment been terminated on December 31, 2009 (the Termination Date) as a result of

(1) involuntary termination without cause and/or constructive termination, (2) death, disability or retirement and (3) a Change In Control. See Outstanding Equity Awards At Fiscal Year End Table below for a list of unvested equity awards held by each named executive officer at the end of 2009.

(1) Represents 12 months base salary plus the amount of health insurance premiums for the executive, his spouse and immediate family for 12 months (at premiums in effect on the Termination Date). Since the executive must be employed on the bonus payment date (February 2010) in order to receive earned but unpaid 2009 bonus, in the event of termination on December 31, 2009, 2009 bonus would have been forfeited and, therefore, is excluded. See Non-Equity Incentive Plan Compensation in the Summary Compensation Table above for these bonus amounts.

TERMS OF AWARDS TO EXECUTIVE OFFICERS

Our Compensation Discussion and Analysis contains a detailed description of the terms of our 2009 non-equity cash incentive compensation awards to executive officers (our short-term incentive compensation, or 2009 cash bonus), and the terms of our 2009 equity incentive compensation awards to executive officers (our long-term incentive compensation, or PRSU and SAR awards) under How the Company Determines Executive Compensation Elements on page 19.

Non-equity incentive compensation. The threshold, target and maximum amounts of the non-equity short-term incentive compensation (cash bonuses) payable to the named executive officers are reported in the Grants of Plan Based Awards Table, under Possible Payouts Under Non-Equity Incentive Plan Awards. As noted in the Compensation Discussion and Analysis, in 2009 we exceeded the target attainment levels for short-term incentive compensation awards, but the Compensation Committee reduced earned bonuses for executive officers to 100% of targeted amounts and these bonuses were paid in February 2010. These amounts are reported under Non-Equity Incentive Plan Compensation in the Summary Compensation Table and in footnote (1) to the Grants of Plan Based Awards Table.

Equity incentive compensation. The threshold, target and maximum number of PRSUs, and the number of SARs, awarded to the named executive officers in 2009 are reported in the Grants of Plan Based Awards Table under Possible Payouts Under Equity Incentive Plan Awards. As noted in the Compensation Discussion and Analysis, in 2009 we exceeded the target attainment level for long-term incentive compensation awards, and the actual number of PRSUs eligible to vest, as determined by the Committee, was 119.37% of the targeted amounts and is reported in footnote (2) to the Grants of Plan Based Awards Table. The grant date fair value for each award is included in the amounts reported in the Stock Awards and Option Awards columns, respectively, of the Summary Compensation Table, and in the Grant Date Fair Value of Stock and Option Awards column of the Grants of Plan-Based Awards Table. In the case of PRSUs, the grant date fair value is based upon the probable outcome of the performance objective as of the grant date, which is consistent with the estimate of aggregate compensation cost to be recognized over the service period determined as of the grant date under FASB ASC Topic 718, excluding the risk of forfeitures, which is target grant date award value.

Table of Contents**OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END TABLE**

This table provides information on the each option (including stock appreciation rights or SARs) and stock (including restricted stock and performance restricted stock units or PRSUs) award held by each named executive officer at December 31, 2009. All performance criteria associated with these awards (except for the 2009 PRSU award (see footnote 4)) and Mr. Hall's remaining 200,000 share restricted stock award (see footnote 6)) have been fully satisfied as of December 31, 2009, and the award is fixed. The market value of the stock awards is based on the closing price of our Common Stock on the New York Stock Exchange on December 31, 2009, which was \$18.04. Upon exercise of, or release of restrictions on, these awards, the number of shares ultimately issued to each executive will be reduced on account of shares withheld by Gartner for tax purposes and/or as payment of exercise price.

The market value of the shares underlying this award is presented at target, which exceeds the level of attainment of the performance objective associated with the prior year's award.
- (5) The amounts shown under Option Awards represent SARs that will be stock-settled upon exercise; accordingly, the number of shares received upon exercise will be less than the number of stock appreciation rights held by the executive.

OPTION EXERCISES AND STOCK VESTED TABLE

This table provides information for the named executive officers for options that were exercised, and stock awards that vested and released, during 2009 on an aggregate basis, and does not reflect shares withheld by the Company for exercise price or taxes.

- (1) Represents the difference between the market price of our Common Stock at exercise and the exercise price for all options exercised during the year.
- (2) Includes restricted stock units awarded in prior years as long-term incentive compensation that released in 2009.
- (3) Represents the number of shares that released during the year multiplied by the market price of our Common Stock on the release date.

NON-QUALIFIED DEFERRED COMPENSATION TABLE

The Company maintains a Non-Qualified Deferred Compensation Plan for certain officers and key personnel whose aggregate compensation in 2009 was expected to exceed \$200,000. This plan currently allows qualified U.S.-based employees to defer up to 50% of annual salary and/or up to 100% of annual bonus earned in a fiscal year. In addition, in 2009 the Company made a contribution to the account of each named executive officer who deferred compensation equal to the amount of such executive's contribution (up to 4% of base salary and bonus), less \$6,600. Deferred amounts are deemed invested in several independently-managed investment portfolios selected by the participant for purposes of determining the amount of earnings to be credited by the Company to that participant's account. The Company may, but need not, acquire investments corresponding to the participant's designations.

Upon termination of employment for any reason, all account balances will be distributed to the participant in a lump sum, except that a participant whose account balance is in excess of \$25,000 may defer distributions for an additional year, or elect to receive the balance in 20, 40 or 60 quarterly installments. In the event of an unforeseen emergency (which includes a sudden and unexpected illness or accident of the participant or a dependent, a loss of the participant's property due to casualty or other extraordinary and unforeseeable circumstance beyond the participant's control), the participant may request early payment of his or her account balance, subject to approval.

The following table provides information (in dollars) concerning contributions to the Plan in 2009 by the participating named executive officers, the Company's matching contribution, 2009 earnings and

At December 31, 2009, there were 1,094,003 out-of-the-money SARs outstanding with exercise prices ranging from \$18.10 to \$21.85, all of which have been excluded from the table and the weighted average calculation.

As of March 31, 2010, there were 7,259,754 options and SARs outstanding, with a weighted average exercise price of \$13.31 and an average remaining term of 3.8 years. As of the same date, the number of full value shares granted and unvested was 3,855,969 and the number of shares available for future grant was 6,388,102. SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our executive officers, directors and persons who beneficially own more than 10% of our Common Stock to file reports of ownership and changes of ownership with the SEC and to furnish us with copies of the reports they file. Based solely on our review of the reports received by us, or written representations from certain reporting persons, we believe that all reports were timely filed.

TRANSACTIONS WITH RELATED PERSONS

Gartner is a provider of comprehensive research coverage of the IT industry to approximately 10,000 client organizations, including approximately 400 Fortune 500 companies across 80 countries. Because of our worldwide reach, it is not unusual for Gartner to engage in ordinary course of business transactions involving the sale of research or consulting services with entities in which one of our directors, executive officers or a greater than 5% owner of our stock, or immediate family member of any of them, may also be a director, executive officer, partner or investor, or have some other direct or indirect interest. We will refer to these transactions generally as related party transactions.

Our Governance Committee reviews all related party transactions to determine whether any director, executive officer or a greater than 5% owner of our stock, or immediate family member of any of them, has a *material* direct or indirect interest, or whether the independence from management of our directors may be compromised as a result of the relationship or transaction. Our Board Principles and Practices, which are posted on www.investor.gartner.com, require directors to disclose all actual or potential conflicts of interest regarding a matter being considered by the Board or any of its committees and to

Table of Contents

excuse themselves from that portion of the Board or committee meeting at which the matter is addressed to permit independent discussion. Additionally, the member with the conflict must abstain from voting on any such matter. The Governance Committee is charged with resolving any conflict of interest issues brought to its attention and has the power to request the Board to take appropriate action, up to and including requesting the involved director to resign. Our Audit Committee and/or Board of Directors reviews and approves all material related party transactions involving our directors in accordance with applicable provisions of Delaware law and with the advice of counsel, if deemed necessary.

The Company maintains a written conflicts of interest policy which is posted on our intranet and prohibits all Gartner employees, including our executive officers, from engaging in any personal, business or professional activity which conflicts with or appears to conflict with their employment responsibilities and from maintaining financial interests in entities that could create an appearance of impropriety in their dealings with the Company. Additionally, the policy prohibits all Gartner employees from entering into agreements on behalf of Gartner with any outside entity if the employee knows that the entity is a related party to a Gartner employee; i.e., that the contract would confer a financial benefit, either directly or indirectly, on a Gartner employee or his or her relatives. All potential conflicts of interest and related party transactions involving Gartner employees must be reported to, and pre-approved by, the General Counsel.

In 2009, there were no related party transactions in which any director, executive officer or a greater than 5% owner of our stock, or immediate family member of any of them, had or will have a direct or indirect material interest.
