An Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2010, is being mailed together with this Proxy Statement to all stockholders entitled to vote at the Annual Meeting. The Annual Report, however, is not a part of the proxy solicitation material.

**Important Notice Regarding the Availability of Proxy Materials for
the Stockholder Meeting to be Held on May 4, 2011**

This Proxy Statement and the Annual Report to Stockholders are available at <http://www.insulet.com/proxy>.

As more fully described in this Proxy Statement, the purposes of the Annual Meeting are to:

- (i) elect three (3) Class I directors nominated by the Board of Directors, each to serve for a three-year term and until his or her successor has been duly elected and qualified or until his or her earlier resignation or removal;
- (ii) approve, on a non-binding, advisory basis, the compensation of certain executives as more fully described in this Proxy Statement;
- (iii) approve, on a non-binding, advisory basis, a resolution regarding the frequency of future non-binding, advisory votes on the Company's executive compensation;
- (iv) ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2011; and
- (v) consider and vote upon such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof.

Proposal 1 relates solely to the election of three (3) Class I directors nominated by the Board of Directors and does not include any other matters relating to the election of directors, including without limitation, the election of directors nominated by any stockholder of the Company.

Only stockholders of record at the close of business on March 10, 2011 (the Record Date) are entitled to notice of and to vote at the Annual Meeting and at any adjournments or postponements thereof. As of that date, 45,675,273 shares of common stock, par value \$0.001 per share, of the Company were issued and outstanding, and there were 25 stockholders of record. The holders of the Company's common stock are entitled to one vote per share on any proposal

presented at the Annual Meeting. You may vote in one of the following three ways whether or not you plan to attend the Annual Meeting: (1) by completing, signing and dating the accompanying proxy card and returning it in the postage-prepaid envelope enclosed for that purpose, (2) by completing your proxy using the toll-free telephone number listed on the proxy card, or (3) by completing your proxy on the Internet at the address listed on the proxy card. Votes made by phone or on the Internet must be received by 11:59 p.m., local time, on May 3, 2011. If you attend the Annual Meeting, you may vote in person even if you have previously returned your proxy card or completed your proxy by phone or on the Internet.

Table of Contents

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (a) filing with the Secretary of the Company, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy, (b) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the Annual Meeting, or (c) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Insulet Corporation, 9 Oak Park Drive, Bedford, Massachusetts 01730, Attention: Secretary, before the taking of the vote at the Annual Meeting.

The representation in person or by proxy of at least a majority of the outstanding shares of the Company's common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

For Proposal 1, the election of Class I directors, the nominees receiving the highest number of affirmative votes of the shares present or represented by proxy and entitled to vote on such matter at the Annual Meeting shall be elected as directors. For Proposal 2, the approval of a non-binding, advisory resolution on the Company's executive compensation, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. For Proposal 3, the approval of a non-binding, advisory resolution regarding the frequency of future non-binding advisory votes on the Company's executive compensation, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. For Proposal 4, the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2011, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. Abstentions are included in the number of shares present or represented and voting on each matter. Broker non-votes are not considered voted for the particular matter and have the effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

The persons named as attorneys-in-fact in the proxies, Duane DeSisto and R. Anthony Diehl, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted **FOR** the election of the director nominees, **FOR** the approval, on a non-binding, advisory basis, of the compensation of certain executives as more fully described in this Proxy Statement, **FOR** the approval, on a non-binding, advisory basis, of a resolution regarding the frequency of future non-binding, advisory votes on the Company's executive compensation, and **FOR** the ratification of the appointment of Ernst & Young LLP.

Aside from the election of directors, approval, on a non-binding, advisory basis, of the compensation of certain executives as more fully described in this Proxy Statement, approval, on a non-binding advisory basis, of a resolution regarding the frequency of future non-binding advisory votes on the Company's executive compensation, and ratification of the appointment of Ernst & Young LLP, the Board of Directors knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

PROPOSAL 1

ELECTION OF DIRECTORS

The Company's Board of Directors currently consists of seven members. The Company's certificate of incorporation divides the Board of Directors into three classes. One class is elected each year for a term of three years. The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has nominated Sally Crawford, Regina Sommer and Joseph Zakrzewski and recommends that each be elected to the Board of Directors as a Class I director, each to hold office until the Annual Meeting of Stockholders to be held in the year 2014 and until his or her successor has been duly elected and qualified or until the earlier of his or her death, resignation or removal. Ms. Crawford, Ms. Sommer and Mr. Zakrzewski are currently Class I directors whose terms expire at this Annual Meeting.

The Board of Directors is also composed of: (i) two Class II directors (Ross Jaffe, M.D. and Charles Lianos), whose terms expire upon the election and qualification of directors at the Annual Meeting of Stockholders to be held in 2012; and (ii) two Class III directors (Duane DeSisto and Steven Sobieski), whose terms expire upon the election and qualification of directors at the Annual Meeting of Stockholders to be held in 2013.

The Board of Directors knows of no reason why any of the nominees would be unable or unwilling to serve, but if any nominee should for any reason be unable or unwilling to serve, the proxies will be voted for the election of such other person for the office of director as the Board of Directors may recommend in the place of such nominee. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below.

Executive Officers

Executive officers of the Company are elected by the Board of Directors on an annual basis and serve until their successors have been duly elected and qualified.

Board of Directors

The business and affairs of the Company are managed under the direction of its Board of Directors. The Company's Board of Directors currently consists of seven members. The Company's certificate of incorporation divides the Board of Directors into three classes. One class is elected each year for a term of three years. The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. Each committee has a charter that has been approved by the Board of Directors. Each committee is required to review the appropriateness of its charter at least annually. Additional details concerning the role and structure of the Board of Directors are contained in the Board's Corporate Governance Guidelines which can be found in the Corporate Governance section of the Company's website at <http://www.insulet.com>.

The members of the Company's Board of Directors possess a wealth of executive leadership experience derived from their service as executives in many settings, including as chief executive officers or chief financial officers of comparable corporations. They also all bring extensive board experience. The process undertaken by the Nominating and Corporate Governance Committee in recommending qualified director nominees is described below under Policies Governing Director Nominations. While the Nominating and Corporate Governance Committee does not have a formal policy with respect to diversity, the Company, the Board of Directors and the Nominating Committee believe that it is essential to have diversity on the Board of Directors. As a result, the Board of Directors and the Nominating and Corporate Governance Committee may and do consider the diversity of background and experience of a director nominee, such as diversity of knowledge, skills, experience, geographic location, age, gender, and ethnicity, in order to recruit an appropriate mix of knowledge, skills and experience for the needs of the Company's business.

Independence of Members of the Board of Directors

The Board of Directors and the Nominating and Corporate Governance Committee have determined that our director nominees, Sally Crawford, Regina Sommer and Joseph Zakrzewski, and each of our other non-management directors (Dr. Jaffe and Steven Sobieski) are independent within the meaning of the director

Table of Contents

independence standards of both The Nasdaq Stock Market, Inc. (Nasdaq) and the SEC, including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended (the Exchange Act).

Board Leadership Structure

The Board has designated Ms. Crawford to serve as the Company's lead independent director. As lead director, Ms. Crawford performs many of the same functions and duties as a Chairman of the Board. Pursuant to the Company's Corporate Governance Guidelines, the lead director is responsible for coordinating with the chief executive officer in the creation of the agenda for each meeting, ensuring that topics at each meeting are effectively covered, chairing executive sessions of the Board of Directors and acting as the principal liaison between the independent directors and management. The Board of Directors believes that having a lead director ensures a greater role for the independent directors in the oversight of the Company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of the Board of Directors.

The Company does not currently have a designated Chairman of the Board and does not have a policy as to whether the same person should serve as both the chief executive officer and the Chairman of the Board. The Board believes that it should have the flexibility to make these determinations at any given point in time in the way that it believes provides the most appropriate leadership for the Company at that time. Given the Company's size and principal focus on a single market and product, the Company believes that this leadership structure has been effective thus far and does not feel it is necessary to appoint a Chairman of the Board. The Company recognizes that depending on the circumstances, different board leadership structures may be appropriate; however, the Company believes its current board leadership structure remains the optimal board leadership structure for the Company.

Executive Sessions of Independent Directors

Non-management members of the Board of Directors meet without the employee director of the Company following most regularly scheduled in-person meetings of the Board of Directors. These executive sessions include only those directors who meet the independence requirements promulgated by Nasdaq, and Ms. Crawford, as lead director, has been responsible for chairing these executive sessions.

Meeting Attendance

The Board of Directors met ten times during the fiscal year ended December 31, 2010. Each of the directors attended at least 75% of the aggregate of the total number of meetings of the Board of Directors and the total number of meetings of all committees of the Board of Directors on which he or she served during the fiscal year ended December 31, 2010.

The Company's policy is that all directors are encouraged to attend the Company's Annual Meeting of Stockholders. This is our fourth Annual Meeting of Stockholders since the Company consummated its initial public offering on May 15, 2007. All of the Directors attended the Annual Meeting of Stockholders held in 2010.

Risk Oversight

The Board of Directors is responsible for overseeing the Company's risk assessment and management function, considering the Company's major financial risk exposures and evaluating the steps that the Company's management has taken to monitor and control such exposures. For example, the Board of Directors receives regular reports from senior management on areas of material risk to the Company, including operational, financial, legal and regulatory, and reputational risks. The Company believes that the leadership structure of the Board of Directors supports effective oversight of risk assessment and management.

committee, the entire board of directors) of another entity, one of whose executive officers served as a director of the Company.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee of the Board of Directors currently consists of Ross Jaffe, M.D., who is the Chairman of the Nominating and Corporate Governance Committee, Sally Crawford and Regina Sommer. The Board of Directors has determined that each member of the Nominating and Corporate Governance Committee meets the independence requirements promulgated by Nasdaq. The purposes of the Nominating and Corporate Governance Committee are to, among other functions, identify individuals qualified to become board members, recommend that our Board of Directors selects the director nominees for election at each annual meeting of stockholders and periodically review and recommend to our Board of Directors any changes to our corporate governance guidelines.

The Nominating and Corporate Governance Committee met three times during the year ended December 31, 2010. The Nominating and Corporate Governance Committee operates under a written charter adopted by the Board of Directors and reviewed by the Nominating and Corporate Governance Committee on an annual basis, a current copy of which is available at the Corporate Governance section of the Company's website at <http://www.insulet.com>.

Policies Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current make-up of the Board of Directors. The Nominating and Corporate Governance Committee must be satisfied that each committee-recommended nominee shall have high personal and professional integrity, demonstrated exceptional ability and judgment, a broad experience base or an area of particular expertise or experience that is important to the long-term success of the Company, a background that is complementary to that of existing directors so as to provide management and the Board with a diversity and freshness of views, a level of self-confidence and articulateness to participate effectively and cooperatively in Board discussions, the willingness and ability to devote the necessary time and effort to perform the duties and responsibilities of Board membership, and the experience and ability to bring informed, thoughtful and well-considered opinions for the benefit of all stockholders to the Board and management. In addition to these minimum qualifications, the Nominating and Corporate Governance Committee will recommend that the Board of Directors select persons for nomination to help ensure that a majority of the Board of Directors shall be independent, in accordance with the standards established by Nasdaq, that at least one member of the Audit Committee shall have such experience, education and other qualifications necessary to qualify as an audit committee financial expert, as defined by SEC rules, that the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee each shall be comprised entirely of independent directors, and that each member of the Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. Finally, in addition to any other standards the Nominating and Corporate Governance Committee may deem appropriate from time to time for the overall structure and composition of the

Board of Directors, the Nominating and Corporate Governance Committee may consider whether a nominee has direct experience in the industry or in the markets in which the Company operates.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for approving nominees to the Board. Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by members of the Board of Directors, stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, background checks or other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Directors' approval as director nominees for election to the Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to the Board of Directors for appointment to the committees of the Board of Directors.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation opportunity for our executive management team through a combination of base salary, cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. For each individual, the amount of pay that is actually realized will be primarily driven by the performance of the Company and each individual's contribution to the performance. We believe this construct is a key underpinning of our pay for performance philosophy.

This Compensation Discussion and Analysis explains the following as they relate to 2010:

our compensation objectives;

our executive compensation process; and

our Company policies, practices, and actions with respect to each compensation element.

Included in each description above will be the rationale for compensation decisions made in 2010 with respect to our Chief Executive Officer, our Chief Financial Officer, the other three most highly-compensated executive officers who were employed with the Company as of December 31, 2010, and Luis Malavé, our former Chief Operating Officer, who resigned in August 2010. We have determined the individuals to be included in this discussion and analysis in accordance with applicable SEC rules, and these individuals are collectively referred to as the named executive officers.

Executive Summary

Our overall compensation goal is to reward our executive officers in a manner that supports our strong pay-for-performance philosophy while maintaining an overall level of compensation that we believe is reasonable and competitive. We believe we accomplish this goal through the following principles and processes that we follow in establishing compensation:

Benchmarking. We benchmark executive officer compensation annually against an established executive compensation comparison group that the Compensation Committee reviews each year in order to ensure that our compensation programs are within the competitive range of comparative norms. Our executive compensation comparison group is identified based on industry focus, revenue, number of employees, market value and financial profile.

Target Compensation. We strive to establish our total target compensation between the 50th and 75th percentiles of the executive compensation comparison group. In making executive compensation decisions, our Compensation Committee reviews, among other things, individual performance, past compensation levels of each of our named executives, existing levels of equity ownership, and general trends in executive compensation.

Base Salaries. In 2010, base salaries were increased for the first time since 2008, with increases ranging from 3.2% to 5% across the named executive officer group.

Short-Term Incentives. Corporate financial goals were awarded at 85% of the revenue goal, 80% of the EBIT goal, and 100% of the customer retention goal. The total bonus amounts awarded to our named executive officers for 2010 ranged from 83% to 91% of target.

Long-Term Equity Incentives. In 2010, we modified our annual long-term equity incentive compensation structure by reducing the number of shares awarded subject to stock options and issuing restricted stock units (RSU s). The Compensation Committee determined that a combination of stock options and restricted stock units was an appropriately balanced and competitive retention tool.

Performance-Based Compensation. A significant portion of total direct compensation is in the form of performance-based cash compensation linked directly to company performance and increased stockholder value. This approach ensures that there is an appropriate balance between our long- and short-

Table of Contents

term performance as well as a balance between the achievement of annual operating objectives and long-term delivery of stockholder return. Maintaining this pay mix results in a pay-for-performance orientation for our named executive officers, which is aligned to our stated compensation philosophy of providing compensation commensurate with overall delivery of corporate performance.

Employee Benefits. We do not offer guaranteed retirement pension benefits or other significant perquisite benefits. Instead, we provide all full-time employees, including our named executive officers, with the opportunity to participate in a competitive health and welfare benefit program.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

attract and retain talented and experienced executives in the highly competitive and dynamic medical device industry;

motivate and reward executives whose knowledge, skills and performance are critical to our success;

align the interests of our executives and stockholders by motivating executives to increase stockholder value and rewarding executives when stockholder value increases;

provide a competitive compensation opportunity in which a significant portion of actual realized pay is determined by Company and individual results and the creation of stockholder value;

ensure fairness among the executive management team by recognizing the contributions each executive makes to our success;

foster a shared commitment among executives by coordinating their Company and individual performance goals; and

motivate our executives to manage our business to meet our short- and long-term objectives, and reward them for meeting these objectives.

Our Executive Compensation Process

The Compensation Committee of our Board of Directors is primarily responsible for determining compensation for our executives. The Board of Directors has determined that each member of the Compensation Committee is independent as that term is defined in the applicable Nasdaq rules. In addition, each member of the Compensation Committee is an outside director as defined in Section 162(m) of the Internal Revenue Code and a non-employee director as defined under the Section 16 of the Exchange Act.

Our Compensation Committee retains an independent compensation consultant to assist the Committee in its deliberations. Prior to October 2010, our Compensation Committee had engaged Towers Watson (formerly Watson Wyatt) in this role. As of October 2010, our Compensation Committee appointed Radford Consulting as its independent compensation consultant. Our independent compensation consultant's role is to assist the Committee in reviewing our executive compensation programs and practices from a market perspective. Our independent compensation consultant's involvement is generally to provide market assessments regarding compensation levels and programs, as well as to provide opinion and commentary with respect to proposed actions or changes. We expect to continue to rely on our independent compensation consultant and other more formal market data regarding

comparable companies executive compensation programs and amounts in determining executive compensation in the future.

Radford also provides us and our Compensation Committee with its Global Technology Survey, a survey of compensation data from over 1200 domestic and international technology companies. Our Human Resources Department uses the survey data to compile compensation data for Company positions which are comparable to positions listed in the survey.

Table of Contents

In connection with its market assessments, Towers Watson, with input from our Compensation Committee, developed an executive compensation comparison group for use in developing and setting 2010 executive compensation. Companies included in the comparison group were identified based on industry comparability, annual revenue, market value, number of employees, total shareholder return and development stage. The 2010 executive compensation comparison group identified by Towers Watson consisted of the following companies: ABIOMED, Inc., Acorda Therapeutics, Inc., Cyberonics, Inc., DexCom, Inc., Genomic Health, Inc., Genoptix, Inc., MAKO Surgical Corp., Micrus Endovascular, NxStage Medical, Inc., Orthovita, Inc., Phase Forward Incorporated, Salix Pharmaceutical, Inc., and Stereotaxis, Inc. This group was used by our Compensation Committee to assist in assessing and establishing 2010 executive compensation levels and programs.

In October 2010, based on Radford's market assessment, with input from the Compensation Committee, the executive compensation comparison group was revised to consist of the following companies: ABIOMED, Inc., AGA Medical Corporation, AngioDynamics, Conceptus, Inc., Cyberonics, Inc., DexCom, Inc., Endologix, Inc., Exactech, Inc., Genomic Health, Inc., Genoptix, Inc., HeartWare International, Inc., MAKO Surgical Corp., Micrus Endovascular, NxStage Medical, Inc., Orthovita, Inc., Stereotaxis, Inc., SurModics, Inc., Vascular Solutions, Inc., and Volcano Corporation. These companies were identified based on industry focus, revenue, number of employees, market value and financial profile. This revised group was used by our Compensation Committee to assist it in assessing and establishing 2011 executive compensation levels and programs as well in determining the final amount of the 2010 cash incentive bonuses.

Based on the 2010 executive compensation comparison group, we targeted our total direct compensation for our executive officers to be between the 50th and 75th percentiles of the comparable compensation paid by the group. Since our executives did not earn their entire cash incentive bonuses for 2010, the actual amount of total direct compensation paid for 2010 to our named executive officers as a group was at the 57th percentile of 2009 compensation paid to the executives of the companies included in the 2010 executive compensation comparison group identified by Towers Watson. This percentile was calculated excluding Mr. Malavé as he was not bonus eligible for 2010. In addition, for purposes of this calculation, we extrapolated Mr. Lucidi's bonus as if he was eligible for a full year bonus payment.

In making executive compensation decisions, our Compensation Committee reviews, among other things:

the past compensation levels of each of our executives and of our executives as a group;

current compensation for consistency with benchmarks and previous compensation decisions;

alignment with our overall compensation philosophy;

relative compensation levels among our executives;

existing levels of stock and option ownership among our executives, previous grants of stock options and restricted stock units to our executives and the vesting schedules of previously granted options and restricted stock units to ensure executive retention and alignment with stockholder interests;

the basis for management recommendations; and

general trends in executive compensation.

The general process our Compensation Committee undertakes is to review the recommendations of our Chief Executive Officer with respect to our named executive officers, excluding himself, and then to make an independent

decision on compensation for each executive. The Compensation Committee bases its performance assessment on a number of subjective and objective factors, including the achievement of pre-established Company and individual performance goals.

Our Executive Compensation Programs

Our executive compensation primarily consists of base salary, cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. Overall, we designed our executive compensation programs to achieve the objectives described above. In particular, we place significant emphasis on performance-based incentive compensation that focuses our executives' efforts on delivering short-term and long-term value for our stockholders without encouraging excessive risk taking.

Table of Contents

Within the context of the overall objectives of our compensation programs, we determined the specific amounts of compensation, both targeted and realized, for each of our executives in 2010 based on a number of factors including:

- our understanding of the amount of compensation paid by our executive compensation comparison group to their executives with similar roles and responsibilities;
- our executives' performance during 2010 in general and as measured against predetermined performance goals;
- the need to avoid excessive risk taking;
- the roles and responsibilities of our executives;
- the individual experience and skills of, and expected contributions from, our executives;
- the amounts of compensation being paid to our other executives;
- our executives' historical compensation at our Company; and
- any contractual commitments we have made to our executives regarding compensation.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2010 under each of these elements. In the descriptions below, we highlight particular compensation objectives that we have designed and specific elements of our executive compensation program to address those objectives; however, it should be noted that we have designed the specific elements of our compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that each element of our executive compensation program to a greater or lesser extent serves each of our objectives.

We consider our total direct cash compensation, defined as base salary and cash incentive bonus, to be competitive compared to our executive compensation comparison group as defined by Towers Watson.

Base Salary

We pay our executives a base salary, which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Base salaries are generally established in part based on the executive's experience, skills and expected contributions during the coming year as well as our executive's performance during the prior year.

In setting the executive's 2010 base salaries, we were mindful of the fact that we froze 2009 base salaries at 2008 levels due to the severe recession and financial turmoil affecting the U.S. and global economies at the time. For 2010, we increased the annual base salaries of our named executive officers as follows: Mr. DeSisto's base salary increased from \$375,000 to \$386,000; Mr. Roberts' base salary increased from \$280,000 to \$294,000; Mr. Devlin's base salary increased from \$275,000 to \$280,000; Mr. Malavé's base salary increased from \$285,000 to \$294,000; and Mr. Diehl's base salary increased from \$230,000 to \$240,000. Mr. Lucidi was hired in May 2010 with a base salary of \$210,000 per year.

Cash Incentive Bonuses

Consistent with our emphasis on performance-based incentive compensation programs, our executives are eligible to receive cash incentive bonuses primarily based upon their performance as measured against predetermined incentive goals established by us, including corporate financial measures and the achievement of specific strategic objectives. We establish the target amount of our cash incentive bonuses at levels that represent a meaningful portion of our executives' base salaries, and set additional threshold and maximum

Table of Contents

performance levels below and above these target levels. In establishing these levels, in addition to considering the incentives that we want to provide to our executives, we have historically considered target bonus levels for comparable positions at companies in our executive compensation comparison group. In addition to market referencing, we also typically consider our historical practices and any contractual commitments that we have relating to executive bonuses.

In 2010, we set our named executive officer's target bonus compensation as a percentage of base salary as follows: Mr. DeSisto's target bonus remained at 60% in 2010; Mr. Roberts' target bonus increased from 45% in 2009 to 50% in 2010; Mr. Devlin's target bonus remained at 50% in 2010; Mr. Malavé's target bonus increased from 45% in 2009 to 50% in 2010; and Mr. Diehl's target bonus increased from 30% in 2009 to 40% in 2010. Mr. Lucidi was hired in May of 2010 with a target bonus equal to 30% of his base salary.

A specified percentage of the cash incentive bonus was payable based on the achievement of each of the different performance goals, and for each goal the executive generally had the ability to earn between 0% and 125% of the target bonus amount. Each of our named executive officers' bonuses are measured and paid on an annual basis.

Our cash incentive bonuses are designed to motivate and reward our named executive officers for meeting our short-term objectively-determinable Company and individual performance goals. The objective Company goals for each of our named executive officers consist of a combination of: (1) the Company achieving a specified annual revenue target; (2) the Company achieving a specified annual level of earnings before interest and taxes (EBIT); and (3) the Company achieving an annual customer retention rate above a specified threshold.

The objective performance goals for our named executive officers are established based on predetermined, executive-specific performance metrics which encourage avoiding excessive risk taking and are described in the table below.

In addition, we believe that there are important aspects of executive performance that are not capable of being specifically quantified in a predetermined incentive goal. Thus, for certain executives, a portion of their cash incentive bonuses is based on the achievement of subjective management objectives specifically set for each officer and measured annually. Accordingly, in 2010, we reserved a portion of Mr. DeSisto's cash incentive bonus to be paid at the discretion of our Board of Directors based on his strategic leadership of our Company, a portion of Mr. Roberts' cash incentive bonus to be paid based upon partnering with Mr. DeSisto in the leadership strategy of our Company, a portion of Mr. Diehl's cash incentive bonus to be paid based upon his strategic legal counsel and development and execution of a CMS program, and a portion of Mr. Lucidi's cash incentive to be paid based upon his efforts in identifying and improving the IT infrastructure.

Table of Contents

For 2010, the mix of objective corporate financial goals, objective performance goals and subjective performance goals for each of our named executive officers is set forth in the table below:

	Objective Company Goals	Objective Performance Goals	Subjective Performance Goals
Duane DeSisto(1)	25% Revenue 25% EBIT		40%
Brian Roberts(2)	10% Retention Rate 30% Revenue 30% EBIT	20%	10%
Peter Devlin(3)	10% Retention Rate 40% Revenue 20% EBIT	30%	
Luis Malavé(4)	10% Retention Rate 20% Revenue 20% EBIT	50%	
R. Anthony Diehl(5)	10% Retention Rate 25% Revenue 25% EBIT		40%
Paul Lucidi(6)	10% Retention Rate 25% Revenue 25% EBIT 10% Retention Rate		40%

- (1) For 2010, Mr. DeSisto's subjective performance goals were based on the continued development of a strong and cohesive organization able to capitalize on market opportunities in line with our strategic goals, in addition to coordinating talent management efforts.
- (2) For 2010, Mr. Roberts' objective performance goals were based on the achievement of billing, collections and patient conversion ratios. His subjective goal was based on his partnership with Mr. DeSisto in the leadership strategy of our Company.
- (3) For 2010, Mr. Devlin's objective performance goals were based on patient conversion ratios, new patient shipments within the US and the management of the commercial expenses as a percent of revenue.
- (4) For 2010, Mr. Malavé's objective performance goal was based on the achievement of a specified per unit cost of goods sold target.
- (5) For 2010, Mr. Diehl's subjective performance goals were based on providing effective and strategic legal counsel to our Company in addition to the development and execution of a strategic plan for CMS.
- (6) For 2010 Mr. Lucidi's subjective performance goal was based the strategic leadership of the information technology infrastructure.

The achievement level of each of the objective and subjective performance goals for our named executive officers was measured after the end of fiscal 2010. For each target goal, we use a sliding performance scale to determine the percentage of each target attained and related payout. Although we cannot always predict the different events that will impact our business during an upcoming year, we set our performance goals for the target amount of cash incentive bonuses at levels that we believe will be achieved by our executives during years of strong performance. Our maximum and threshold levels for these performance goals are determined in relation to our target levels, are intended to provide for correspondingly greater or lesser incentives in the event that performance is within a specified range above or below the target level, and are correspondingly harder or easier to achieve. We set the performance goals for the maximum amount at a level that we believe will be achieved in some years, but will not be achieved a majority of the time.

The 2010 bonus program for each of our named executive officers includes bonuses tied to the achievement of corporate financial measures based on our annual revenues, EBIT and rate of customer retention. Early in 2010, we set our 2010 revenue goal at \$100 million and our 2010 EBIT goals at a negative \$31.1 million. In conjunction with the completion of the audit of our 2010 financial statements, we reviewed

Table of Contents

our performance against these goals. Our actual 2010 revenues were \$97 million; as a consequence, each named executive officer earned 85% of that portion of his bonus tied to the revenue goal. Our actual EBIT for 2010 were a negative \$38.5 million. This amount included a \$3.4 million non-cash impairment charge incurred in the fourth quarter of 2010. This impairment charge was identified by management in connection with its evaluation of manufacturing processes and equipment and related to manufacturing equipment no longer in use. In assessing the executives' performance against this goal, we determined that it was appropriate to exclude this non-cash impairment charge from the calculation of the EBIT goal as it was one-time in nature and considered separate from our performance. Accordingly, each named executive officer earned 80% of that portion of his bonus tied to our EBIT goal.

At a meeting held on February 2, 2011, our Compensation Committee determined that each of the named executive officers was entitled to receive 85% of the targeted payout for achievement of the revenue goal, 80% of the targeted payout for EBIT, and 100% of the targeted payout for the rate of customer retention. In addition, our Compensation Committee determined that Mr. DeSisto met a portion of his subjective performance goals and was therefore entitled to receive 87% of his targeted payout on these goals; Mr. Roberts exceeded his objective performance goals and therefore was entitled to 113% of his targeted payout on these objective goals; Mr. Roberts also made significant progress towards the achievement of his subjective goal and was therefore entitled to receive 90% of his targeted payout on this subjective goal; Mr. Devlin made progress towards the achievement of his objective performance goals and was therefore entitled to 75% of his targeted payout; Mr. Diehl made significant progress towards the achievement of his subjective goal and was therefore entitled to receive 93% of his targeted payout on this goal; and Mr. Lucidi made significant progress towards the achievement of his subjective performance goal and was therefore entitled to receive 90% of his target payout.

As a result, the named executive officers received the following cash incentive bonuses for 2010:

Name	Cash Incentive Bonus Amount for 2010:			
	Objective Company Goals	Objective Performance Goals	Subjective Performance Goals	Total
Duane DeSisto	\$ 118,695	N/A	\$ 84,534	\$ 203,229
Brian Roberts	\$ 87,465	\$ 33,075	\$ 13,230	\$ 133,770
Peter Devlin	\$ 84,000	\$ 31,500	N/A	\$ 115,500
Luis Malavé	\$ 0	\$ 0	N/A	\$ 0
R. Anthony Diehl	\$ 49,200	N/A	\$ 35,520	\$ 84,720
Paul Lucidi	\$ 20,180	N/A	\$ 14,175	\$ 34,355

Long-Term Equity Incentive Compensation

We grant long-term equity incentive compensation in the form of stock options and restricted stock units to executives as part of our total compensation package. Consistent with our emphasis on performance-based incentive compensation programs, these awards represent a significant portion of total executive compensation. We use long-term equity incentive compensation in order to align the interests of our executives and our stockholders by providing our executives with strong incentives to increase stockholder value and a significant reward for doing so. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or

promotion by our Company.

Stock option awards provide our executive officers with the right to purchase shares of our common stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our Company. Stock options are earned on the basis of continued service to us and have generally vested over four years, beginning with one-fourth vesting one year after the date of grant, then pro-rata vesting monthly or quarterly thereafter. Prior to our initial public offering, all stock option awards were made pursuant to our 2000 Stock Option and Incentive Plan. Following the closing of our initial public offering in May 2007, option awards have generally been made pursuant to our 2007 Stock Option and Incentive Plan.

Table of Contents

The exercise price of each stock option granted under our 2000 Stock Option and Incentive Plan or our 2007 Stock Option and Incentive Plan is equal to the fair market value of our common stock on the grant date. Leading up to our initial public offering, the fair market value of our common stock for purposes of determining the exercise price of stock options was determined by our Board of Directors based on independent appraisals by an outside valuation consultant. Since our initial public offering, all stock options continue to be granted with an exercise price equal to the fair market value of our common stock on the date of grant, but fair market value is defined as the closing market price of a share of our common stock on the date of grant. We do not have any program, plan or practice of setting the exercise price based on a date or price other than the fair market value of our common stock on the grant date.

We have generally granted all of our stock options to executives as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, subject to the volume limitations contained in the Internal Revenue Code. Generally, for stock options that do not qualify as incentive stock options, we are entitled to a tax deduction in the year in which the stock options are exercised equal to the spread between the exercise price and the fair market value of the stock for which the stock option was exercised. The holders of the stock options are generally taxed on this same amount in the year of exercise. For stock options that qualify as incentive stock options, we do not receive a tax deduction and the holder of the stock option may receive more favorable tax treatment than he or she would for a non-qualified stock option. Historically, we have granted primarily incentive stock options in order to provide these potential tax benefits to our executives, particularly given the limited expected benefits to our Company of the tax deductions as a result of our historical net losses.

Beginning in 2010, we modified our annual long-term equity incentive compensation structure by reducing the number of shares subject to stock options and issuing restricted stock units (RSUs). RSUs are contractual rights to receive shares of our common stock when and if the RSUs vest. The RSUs awarded to our named executive officers in 2010 vest, subject to continued employment with the Company, in equal annual installments on each of the first three anniversaries of their date of grant. For federal income tax purposes, the executive will generally be deemed to have received compensation income on each vesting date equal to the fair market value of the shares vesting on such date, and the Company will be entitled to a tax deduction for such amount as compensation expense.

We have made grants of both stock options and restricted stock units to our named executive officers on a periodic, but not necessarily annual, basis. In 2010, we considered a number of factors in determining what, if any, stock options and restricted stock units to grant to our executives, including:

- the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our executives;

- the vesting schedule of the unvested stock options held by our executives;

- the amount and percentage of our total equity on a diluted basis held by our executives; and

- market reference points from our executive compensation comparison group on long-term incentive compensation.

As a result of these considerations, our Compensation Committee determined that a combination of stock options and restricted stock units was an appropriate and competitive retention tool which is consistent with the executive compensation comparison group as defined by Towers Watson.

On March 1, 2010, we granted Mr. DeSisto options to purchase 40,000 shares of our common stock and awarded him 40,000 restricted stock units; we granted Mr. Roberts options to purchase 24,000 shares of our common stock and awarded him 24,000 restricted stock units; we granted Mr. Devlin options to purchase 20,000 shares of our common

stock and awarded him 20,000 restricted stock units; we granted Mr. Malavé options to purchase 24,000 shares of our common stock and awarded him 24,000 restricted stock units; and we granted Mr. Diehl options to purchase 16,000 shares of our common stock and awarded him 16,000 restricted stock units. In each case, the exercise price of the options was \$15.16 per share, which was the closing price of our common stock on the grant date. Upon his hire, we granted Mr. Lucidi options to purchase

Table of Contents

35,000 shares of our common stock at an exercise price of \$14.48 per share (the closing price of our common stock on the grant date) and awarded him 10,000 restricted stock units.

Broad-Based Benefits Programs

All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance, employee stock purchase plan and our 401(k) plan.

Severance and Change in Control Programs

Our Amended and Restated Executive Severance Plan, which was established on May 8, 2008, amended and restated on November 14, 2008 and further amended on December 16, 2010, provides for certain severance and change of control benefits to all of our executive officers. For a detailed description of these potential payments, see the sections below entitled Discussion of Summary Compensation and Grants of Plan Based Awards Tables Amended and Restated Executive Severance Plan and Potential Payments Upon Termination or Change-in-Control.

Conclusion

The Compensation Committee is satisfied that the executive officers of the Company are dedicated to achieving significant improvements in the long-term financial performance of the Company and that the compensation policies and programs implemented and administered have contributed and will continue to contribute towards achieving that goal.

Table of Contents**Compensation Related Risk Assessment**

The Compensation Committee carefully considered whether our compensation policies and practices were reasonably likely to have a material adverse effect on the Company. It was the judgment of the Compensation Committee that the mix and design of our executive compensation plans and policies do not encourage management to assume excessive risks and are not reasonably likely to have a material adverse effect on the Company. In making this determination, the Compensation Committee considered a number of matters, including the following elements of our executive compensation plans and policies:

The Company's base salary component of compensation does not encourage risk taking because it is a fixed amount.

The Company sets performance goals that it believes are reasonable in light of good performance and market conditions.

The time based vesting over three to four years for the Company's long-term incentive awards ensures that the executives' interests align with those of its stockholders for the long-term performance of the Company.

Assuming achievement of at least a minimum level of performance, payouts under the Company's performance based bonus plans result in some compensation at levels below full target achievement, rather than an all or nothing approach, which could engender excessive risk taking.

A majority of the payouts under the Company's bonus plan are based on multiple individual performance and company based metrics which mitigates the risk of an executive over emphasizing the achievement of one or more individual performance metrics to the detriment of company based metrics.

Certain payouts under the Company's bonus plan include subjective consideration, which restrain the influence of formulae or objective factors on excessive risk taking.

Summary of Executive Compensation

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below.

Employment Agreements

Amended and Restated Executive Severance Plan

On May 8, 2008 we enacted the Executive Severance Plan, which was amended and restated on November 14, 2008 and further amended on December 16, 2010. All named executive officers of the Company are provided the benefit of the Amended and Restated Executive Severance Plan. In the event that any of our named executive officers employment is terminated by us without cause, resigns for good reason or is terminated as a result of a change in control, as defined in the Amended and Restated Executive Severance Plan, they will be entitled to twelve months of their base salary with the exception of Mr. DeSisto who will be entitled to twenty-four months of his base salary. If the named executive officer's employment is terminated prior to a change of control, such amounts are payable over twelve months (twenty-four months in the case of Mr. DeSisto). If the named executive officer's employment is terminated after a change of control, such amounts are payable in a lump sum. Additionally, these named executive officers will be entitled to a pro-rata bonus, continued health, dental and life insurance coverage, reimbursement for outplacement services not to exceed \$15,000, provided that such expenses are incurred by the executive within twelve months of the termination, and payment for any accrued unused vacation time. Notwithstanding the foregoing, our obligation to make these severance payments to any of these named executive officers is subject to the executive's delivery of a release of claims in favor of the Company and that executive's continued compliance with the confidentiality, non-compete and non-solicitation obligations under his or her non-competition and non-solicitation agreement and employee non-disclosure and developments agreement with us. In the instance that the termination occurs within twelve months after the effective date of a change in control, all outstanding stock options and other stock-based awards held by the executive will accelerate to become fully exercisable or nonforfeitable as of the executive's termination date.

2010 Offer Letter

We entered into an offer letter with Paul Lucidi, which was signed May 12, 2010 and effective on May 17, 2010, to hire him as our Vice President of Information Technology and subsequently changed his title to Chief Information Officer in October. For 2010, we agreed to pay Mr. Lucidi an annual base salary of \$210,000 and a target bonus of 30% of his base salary. In connection with the commencement of Mr. Lucidi's employment, we granted him incentive stock options to purchase 35,000 shares of our common stock at an exercise price of \$14.48 per share (the closing price of our common stock on the grant date) and awarded him 10,000 restricted stock units. This stock option award will vest over four years with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. The restricted stock units will vest, subject to continued employment with the Company, in

Table of Contents

equal annual installments on each of the first three anniversaries of the grant date. As a condition to his employment, Mr. Lucidi was required to enter into our standard form of non-disclosure and developments agreement and our standard form of non-competition and non-solicitation agreement. Mr. Lucidi will also be covered by our Amended and Restated Executive Severance Plan.

Other Agreements

Each of our named executive officers has entered into a non-competition and non-solicitation agreement and an employee non-disclosure and developments agreement with us, which provide for protection of our confidential information, assignment to us of intellectual property developed by our executives and non-compete and non-solicitation obligations that are effective while the executive is employed by us and for a period of twelve months thereafter.

2010 Cash Incentive Bonuses

In 2010, we established target cash incentive bonuses for each of our named executive officers as a percentage of that executive's base salary, as follows: Mr. DeSisto 60%; Mr. Roberts 50%; Mr. Devlin 50%; Mr. Malavé 50%; Mr. Diehl 40%; and Mr. Lucidi 30%. Any bonus amounts paid based on the achievement of subjective performance goals are reported as Bonus in the Summary Compensation Table. The remainder of the bonuses were paid based on the executives' achievement of a number of objective company goals and objective performance goals, as described above under Our Executive Compensation Programs Cash Incentive Bonuses. Generally, for each goal, the executive had the ability to earn between 0% and 125% of the target bonus amount based on the level of achievement of that goal. The bonuses paid upon the achievement of these predetermined performance goals are reported as Non-Equity Incentive Plan Compensation in the Summary Compensation Table and are described in detail above under Our Executive Compensation Programs Cash Incentive Bonuses.

Additionally, in the 2010 Grants of Plan-Based Awards table, the Estimated Future Payouts under Non-Equity Incentive Plan Awards column for each of the executives relates to the portion of our cash incentive bonuses that was payable upon the achievement of these predetermined performance goals. The threshold payouts represent the payout that would have been received if each performance goal was met at the minimum level, the target represents the payout that would have been received if each performance goal was met at the target level and the maximum represents the payout that would have been received if each performance goal was met at the maximum level.

2010 Stock Option and Restricted Stock Unit Awards

In 2010, we granted Mr. DeSisto options to purchase 40,000 shares of our common stock and awarded him 40,000 restricted stock units, we granted Mr. Roberts options to purchase 24,000 shares of our common stock and awarded him 24,000 restricted stock units, we granted Mr. Devlin options to purchase 20,000 shares of our common stock and awarded him 20,000 restricted stock units, we granted Mr. Malavé options to purchase 24,000 shares of our common stock and awarded him 24,000 restricted stock units and we granted Mr. Diehl options to purchase 16,000 shares of our common stock and awarded him 16,000 restricted stock units. In each case, the exercise price of the options was \$15.16 per share (the closing price of our common stock on the grant date). In addition, upon his hire, we granted Mr. Lucidi options to purchase 35,000 shares of our common stock at an exercise price of \$14.48 per share (the closing price of our common stock on the grant date) and awarded him 10,000 restricted stock units.

These stock options have a term of ten years, subject to continued employment with the Company, and may be exercised at any time after they vest and prior to their expiration for all or a portion of such option shares. These stock options vest over four years, beginning with 25% vesting one year after the date of grant then the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters.

These restricted stock units are contractual rights to receive shares of our common stock when and if the restricted stock units vest. The restricted stock units awarded to our named executive officers in 2010 vest, subject to continued employment with the Company, in equal annual installments on each of the first three

Table of Contents

anniversaries of their date of grant. For federal income tax purposes, the executive will generally be deemed to have received compensation income on each vesting date equal to the fair market value of the shares vesting on such date, and the Company will be entitled to a tax deduction for such amount as compensation expense. Vesting of these stock options and restricted stock units is also subject to acceleration in connection with a change-in-control as described in Potential Payments Upon Termination or Change-in-Control below.

2000 Stock Option and Incentive Plan

Our 2000 Stock Option and Incentive Plan was initially adopted by our Board of Directors and approved by our stockholders in October 2000. Following our initial public offering in May 2007, no additional grants have been or will be made under our 2000 Stock Option and Incentive Plan.

As a matter of practice, most stock options issued under our 2000 Stock Option and Incentive Plan were issued as incentive stock options, subject to the volume limitations contained in the Internal Revenue Code, and subject to a four-year vesting period, with 25% of the total award vesting after one year and the remainder vesting in equal monthly installments each month thereafter for 36 months. Additionally, most of the stock options granted under our 2000 Stock Option and Incentive Plan, including all stock options issued prior to December 20, 2006, allow for the exercise of unvested options at any time after the options were issued, provided that the vesting terms will continue to apply to the shares acquired upon such an exercise and any unvested shares will be subject to repurchase by us at the exercise price paid to acquire the shares. After termination of an optionee, he or she may exercise his or her vested options for the period of time stated in the stock option agreement issued under our 2000 Stock Option and Incentive Plan. Generally, if termination is due to death or disability, the vested option will remain exercisable for 180 days; if termination is for cause, the option may no longer be exercised; and, in all other cases, the vested options will remain exercisable for three months. In addition, each stock option we have granted under our 2000 Stock Option and Incentive Plan generally expires ten years after the issuance of such option, regardless of whether the optionee has been terminated.

2007 Stock Option and Incentive Plan

Background. Our 2007 Stock Option and Incentive Plan was adopted by our Board of Directors and approved by our stockholders in April 2007. At the annual meeting of stockholders held on May 8, 2008, our stockholders approved an amendment to our 2007 Stock Option and Incentive Plan to increase the aggregate number of shares of our common stock authorized for issuance by 600,000.

Administration. The Compensation Committee of our Board of Directors is responsible for administering our 2007 Stock Option and Incentive Plan. Under our 2007 Stock Option and Incentive Plan, the plan administrator has the power to determine the terms of the awards, including the officers, employees, non-employee directors and key persons (including consultants and prospective employees) who will receive awards, the exercise price, the number of shares subject to each award, the vesting schedule and exercisability of awards and the form of consideration payable upon exercise of an option.

Eligibility. All of our officers, employees, non-employee directors and key persons (including consultants and prospective employees) are eligible to be granted awards under our 2007 Stock Option and Incentive Plan.

Number of Shares Available for Issuance. The maximum number of shares of our common stock that are authorized for issuance under our 2007 Stock Option and Incentive Plan currently is 4,035,000 shares, which amount will be increased on January 1, 2012, by a number of shares equal to 3% of the number of shares of our common stock outstanding as of the immediately preceding December 31, up to the maximum increase of 725,000 additional shares per year. In addition, each share of deferred stock, restricted stock, unrestricted stock or performance shares awarded

under the 2007 Stock Option and Incentive Plan will count as 1.5 shares against the total pool of shares available for issuance under the plan. Shares issued under the 2007 Stock Option and Incentive Plan may be authorized but unissued shares or shares reacquired by us. Any shares subject to awards that are forfeited, canceled, held back upon exercise of an option or settlement of an

Table of Contents

award to cover the exercise price or tax withholding, reacquired by us prior to vesting, satisfied without the issuance of shares or otherwise terminated (other than by exercise) shall be added back to the shares available for issuance under the 2007 Stock Option and Incentive Plan. Upon the occurrence of a merger, consolidation, recapitalization, reclassification, stock split, stock dividend, combination of shares or the like, the plan administrator will make an appropriate or proportionate adjustment in the shares reserved for issuance under, and the number of shares or exercise price applicable to any award which will remain outstanding under, the 2007 Stock Option and Incentive Plan.

Types of Awards. The plan administrator may grant the following types of awards under our 2007 Stock Option and Incentive Plan: stock options; stock appreciation rights; deferred stock awards; restricted stock; unrestricted stock; cash based awards; performance share awards; or dividend equivalent rights. Stock options awarded under our 2007 Stock Option and Incentive Plan may be nonqualified stock options or incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended. With the exception of incentive stock options, the plan administrator may grant, from time to time, any of the types of awards under our 2007 Stock Option and Incentive Plan to our officers, employees, non-employee directors and key persons (including consultants and prospective employees). Incentive stock options may only be granted to our employees.

Stock Options. A stock option is the right to acquire shares of our common stock at a fixed price for a fixed period of time and generally is subject to a vesting requirement. We typically grant options subject to a four-year vesting period, with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. In the event we are acquired or are otherwise subject to a change in control, all of the outstanding options granted under our 2007 Stock Option and Incentive Plan will become fully vested. A stock option will be in the form of a nonqualified stock option or an incentive stock option. The exercise price is set by the plan administrator, which is our Board of Directors or our Compensation Committee, but cannot be less than 100% of the fair market value of our common stock on the date of grant, or, in the case of incentive stock options granted to an employee who owns 10% or more of total combined voting power of our common stock, or a 10% owner, the exercise price cannot be less than 110% of the fair market value of our common stock on the date grant. The term of a stock option may not exceed ten years (or five years in the case of incentive stock options granted to a 10% owner). After an optionee's employment with us is terminated, he or she may exercise his or her vested options for the period of time stated in the stock option agreement. Generally, if termination is due to death or disability, any outstanding stock options become fully vested, and will remain exercisable for twelve months; if termination is for cause, the option may no longer be exercised; and, in all other cases, the vested options will remain exercisable for three months. However, an option may not be exercised later than its expiration date.

Restricted Stock Units. Restricted Stock Units (RSUs) are contractual rights to receive shares of our common stock when and if the RSUs vest. The RSUs awarded to our named executive officers in 2010 vest, subject to continued employment with the Company, in equal annual installments on each of the first three anniversaries of their date of grant. For federal income tax purposes, the executive will generally be deemed to have received compensation income on each vesting date equal to the fair market value of the shares vesting on such date, and the Company will be entitled to a tax deduction for such amount as compensation expense.

Amendment and Discontinuance; Term. Our Board of Directors may at any time amend or discontinue our 2007 Stock Option and Incentive Plan, and the plan administrator may at any time amend or cancel any outstanding award for the purpose of satisfying changes in law or for any other lawful purpose, but no such action will adversely affect rights under any outstanding awards without the holder's consent. To the extent required by applicable laws or rules, plan amendments may be subject to stockholder approval. Unless terminated earlier, our 2007 Stock Option and Incentive Plan will expire on the tenth anniversary of its effective date.

2007 Employee Stock Purchase Plan

Our 2007 Employee Stock Purchase Plan was adopted by our Board of Directors and approved by our stockholders in April 2007 and became effective upon the closing of our initial public offering in May 2007.

Table of Contents

Our 2007 Employee Stock Purchase Plan authorizes the issuance of up to a total of 380,000 shares of our common stock to participating employees.

All of our employees who have been employed by us for at least six months and whose customary employment is for more than 20 hours a week are eligible to participate in our 2007 Employee Stock Purchase Plan. Any employee who owns 5% or more of the voting power or value of our stock is not eligible to purchase shares under our 2007 Employee Stock Purchase Plan.

We will make one or more offerings each year to our employees to purchase stock under our 2007 Employee Stock Purchase Plan. The first offering began on the date of the closing of our initial public offering and ended on December 31, 2007. Subsequent offerings generally start on each January 1 and July 1 and continue for six-month periods, referred to as offering periods.

Each employee who is a participant in our 2007 Employee Stock Purchase Plan may purchase shares by authorizing payroll deductions of up to 10% of his or her cash compensation during an offering period. Unless the participating employee has previously withdrawn from the offering, his or her accumulated payroll deductions will be used to purchase common stock on the last business day of the offering period at a price equal to 85% of the fair market value of the common stock on the last day of the offering period. Under applicable tax rules, an employee may purchase no more than \$25,000 worth of common stock, valued at the start of the purchase period, under our 2007 Employee Stock Purchase Plan in any calendar year.

The accumulated payroll deductions of any employee who is not a participant on the last day of an offering period will be refunded. An employee's rights under our 2007 Employee Stock Purchase Plan terminate upon voluntary withdrawal from the plan or when the employee ceases employment for any reason.

Our 2007 Employee Stock Purchase Plan may be terminated or amended by our Board of Directors at any time. An amendment that increases the number of shares of our common stock that is authorized under our 2007 Employee Stock Purchase Plan and certain other amendments require the approval of our stockholders.

Option Exercises and Stock Vested

The following table shows information regarding option exercises and vesting of stock awards during the year ended December 31, 2010 under our equity incentive plans and the corresponding amounts realized by each named executive officer.

Name	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#)	Value Realized on Exercise (\$)(1)	Number of Shares Acquired on Vesting (#)	Value Realized on Vesting (\$)

- (2) Mr. Malavé resigned his position of Chief Operating Officer effective August 31, 2010. Mr. Malavé is included in the Option Exercises and Stock Vested for Fiscal Year 2010 Table above and elsewhere in this Proxy Statement because his total compensation exceeds that of certain of our other named executive officers.

Potential Payments Upon Termination or Change-in-Control

During 2008, all pre-existing employment agreements with our named executive officers expired, or were terminated, and were replaced on May 8, 2008 with the Executive Severance Plan, which was amended and restated on November 14, 2008 and further amended on December 16, 2010. The Amended and Restated Executive Severance Plan provides for certain severance and change of control benefits to all of our executive officers.

In the event that any of our named executive officers' employment is terminated by us without cause, resigns for good reason or is terminated as a result of a change in control, as defined in the Amended and Restated Executive Severance Plan they will be entitled to twelve months of their base salary with the exception of Mr. DeSisto who will be entitled to twenty-four months of his base salary. If the named executive officer's employment is terminated prior to a change of control, such amounts are payable over twelve months (twenty-four months in the case of Mr. DeSisto). If the named executive officer's employment is terminated after a change of control, such amounts are payable in a lump sum. Additionally, these named executive officers will be entitled to a pro-rata bonus, continued health, dental and life insurance coverage, reimbursement for outplacement services not to exceed \$15,000 provided that such expenses are incurred by the executive within twelve months of the termination, and payment for any accrued unused vacation time. Notwithstanding the foregoing, our obligation to make these severance payments to any of these named executive officers is subject to the executive's delivery of a release of claims in favor of the Company and that executive's continued compliance with the confidentiality, non-compete and non-solicitation obligations under

Table of Contents

his or her non-competition and non-solicitation agreement and employee non-disclosure and developments agreement with us. We agreed to provide severance payments to these executives in these circumstances based on the terms of the Amended and Restated Executive Severance Plan in order to provide a total compensation package that we believed to be competitive.

Cause means any of the following: the failure or refusal of the named executive officer to render services to us in connection with the performance of their duties; disloyalty, gross negligence, dishonesty or breach of fiduciary duty or breach of the other agreements executed in connection therewith; the commission by the named executive officer of an act of fraud, embezzlement or disregard of our rules or policies or the commission by the named executive officer of any other action which injures us; acts which, in the judgment of our Board of Directors, would tend to generate adverse publicity toward us; the commission, or plea of nolo contendere, by the named executive officer of a felony; the commission of an act which constitutes unfair competition with us or which induces any of our customers to breach a contract with us; or a breach by the named executive officer of the terms of the non-competition and non-solicitation agreement or the employee non-disclosure and developments agreement between us and the named executive officer.

Good Reason means any of the following: material diminution in the named executive officer's responsibilities, authority or duties; a material reduction in the named executive officer's base salary except for across-the-board salary reductions similarly affecting all or substantially all management employees; the relocation of the office at which the named executive officer is principally employed to a location more than 50 miles from such office.

We are not obligated to pay any tax gross-ups or similar amounts to the named executive officers with respect to amounts payable to them under the Amended and Restated Executive Severance Plan. Amounts payable to our named executive officers under the Amended and Restated Executive Severance Plan will be reduced to an amount that would cause such officer to not be subject to any excise tax under Section 4999 of the Internal Revenue Code, to the extent such officer would benefit on a net after-tax basis by doing so.

If any of our named executive officers had been terminated without cause on December 31, 2010, the approximate value of the severance benefits, assuming no unused vacation time, under the Amended and Restated Executive Severance Plan would have been as follows: Mr. DeSisto \$820,693; Mr. Roberts \$325,847; Mr. Devlin \$311,847; Mr. Diehl \$271,849; and Mr. Lucidi \$241,847. Also, any remaining unvested options granted to such named executive officer under the 2000 Stock Option and Incentive Plan and options granted under the 2007 Stock Option and Incentive Plan would have ceased vesting on that date.

If any of our named executive officers had been terminated for cause or if such named executive officer had terminated their employment for any other reason than good reason, the approximate value of the severance benefits, assuming no unused vacation time, under the Amended and Restated Executive Severance Plan for the named officers would have been \$0. Also, any remaining unvested options granted to such named executive officer under the 2000 Stock Option and Incentive Plan and the 2007 Stock Option and Incentive Plan would have ceased vesting on that date.

Upon a change-in-control, a named executive officer will be entitled to accelerated vesting for 50% of any remaining unvested options granted under the 2000 Stock Option and Incentive Plan and 100% of any unvested options granted under the 2007 Stock Option and Incentive Plan. Further, in the event that, within twelve months following a change-in-control, a named executive officer's employment is terminated without cause, he or she experiences a material negative change in his or her compensation or responsibilities or he or she is required to be based at a location more than 50 miles from his or her current work location, any remaining unvested options granted under the 2000 Stock Option and Incentive Plan will become fully vested. Change-in-control means any of the following: a sale or other disposition of all or substantially all of our assets; or a merger or consolidation after which our voting

securities outstanding immediately before the transaction cease to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction. We agreed to provide payments to these executives in these circumstances in order to provide a total compensation package that we believed to be competitive. Additionally, the primary purpose of our equity-based incentive awards is to align the interests of our executives and our stockholders and provide our executives with strong incentives to increase stockholder

Table of Contents

value over time. As change-in-control transactions typically represent events where our stockholders are realizing the value of their equity interests in our Company, we believe it is appropriate for our executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change-in-control transaction. We believe that this acceleration of vesting will also help to better align the interests of our executives with our stockholders in pursuing and engaging in these transactions.

If a change-in-control had occurred on December 31, 2010, the value of 50% of any then unvested options granted under the 2000 Stock Option and Incentive Plan and the value of 100% of any then unvested options granted under the 2007 Stock Option and Incentive Plan, in each case that would vest as a result of such change-in-control, for each named executive officer, calculated based on the spread between the exercise price of the unvested options and \$15.50, which was the closing price for our common stock on The Nasdaq Global Market on December 31, 2010, would have been approximately as follows: Mr. DeSisto \$1,127,694; Mr. Roberts \$1,432,148; Mr. Devlin \$1,207,800; Mr. Diehl \$451,718; and Mr. Lucidi \$190,700.

If a change-in-control had occurred on December 31, 2010 and on that date each named executive officer had been terminated without cause, experienced a material negative change in his or her compensation or responsibilities or was required to be based at a location more than 50 miles from his or her current work location, the value of 100% of any then unvested options granted under the 2000 Stock Option and Incentive Plan and the 2007 Stock Option and Incentive Plan, in each case that would vest as a result of such change-in-control and such termination or other circumstance, for each named executive officer, calculated based on the spread between the exercise price of the unvested options and \$15.50, which was the closing price for our common stock on The Nasdaq Global Market on December 31, 2010, would have been approximately as follows: Mr. DeSisto \$1,127,694; Mr. Roberts \$1,432,148; Mr. Devlin \$1,207,800; Mr. Diehl \$451,718; and Mr. Lucidi \$190,700.

Director Compensation

At a meeting of our Board of Directors held on May 5, 2010, our Board of Directors approved the following compensation policy for all of our non-employee directors:

an annual retainer of \$35,000;

an additional annual retainer of \$10,000 to each of the Lead Director and Audit Committee chairman;

an additional annual retainer of \$6,000 to each of the Compensation Committee chairperson and Nominating and Corporate Governance Committee chairman;

an additional annual retainer of \$7,500 to each of the audit committee members;

an additional annual retainer of \$5,000 to each of the Compensation Committee and Nominating and Corporate Governance committee members;

upon initial election to our Board of Directors, a grant of an option to purchase 25,000 shares of our common stock; and

an annual grant of an option to purchase 4,000 shares of our common stock and 4,000 restricted stock units, such grant to be made effective on the third business day following our annual stockholders meeting.

All options granted to non-employee directors will have an exercise price equal to the closing price of our common stock on the date of grant and will vest 50% on the first anniversary of the grant date and 25% on each of the second

and third such anniversaries, subject to continued service as a director. All restricted stock units granted to non-employee directors awarded in 2010 vest, subject to continued service as a director, in equal annual installments on each of the first three anniversaries of their date of grant. For federal income tax purposes, the director will generally be deemed to have received compensation income on each vesting date equal to the fair market value of the shares vesting on such date, and the Company will be entitled to a tax deduction for such amount as compensation expense.

These amounts do not represent the actual amounts paid to or realized by directors for these awards during the year ended December 31, 2010. As of December 31, 2010, our non-employee directors held options that had been granted by us as director compensation to purchase the following number of shares of our common stock: Ms. Crawford 32,000 shares and 4,000 restricted stock units; Dr. Jaffe 15,810 shares and 4,000 restricted stock units; Mr. Liamos 34,845 shares and 4,000 restricted stock units; Mr. Sobieski 34,845 shares and 4,000 restricted stock units; Ms. Sommer 32,000 shares and 4,000 restricted stock units; and Mr. Zakrzewski 32,000 shares and 4,000 restricted stock units.

PROPOSAL 2

NON-BINDING, ADVISORY VOTE ON EXECUTIVE COMPENSATION

In accordance with Section 14A of the Exchange Act, the Company is providing shareholders with the opportunity to vote on the compensation of the Company's named executive officers as disclosed in this Proxy Statement. This is commonly known as a "say-on-pay" vote. The Company is required to include this non-binding, advisory vote in its Proxy Statement no less frequently than once every three years. At the Annual Meeting, the Company is presenting to shareholders the following non-binding, advisory resolution on the approval of the compensation of the named executive officers:

RESOLVED, that the shareholders of the Company approve the compensation of the Company's named executive officers, as disclosed in this Proxy Statement pursuant to Item 402 of Regulation S-K.

The compensation of the Company's named executive officers that is the subject of the foregoing resolution is the compensation disclosed in the sections titled "Compensation Discussion and Analysis," "Executive Compensation," "Summary Compensation Table," "Grants of Plan-Based Awards," "Outstanding Equity Awards at Fiscal Year End," "Options, Exercises and Stock Vested," and "Potential Payments upon Termination or Change-in-Control." You are encouraged to carefully review these sections.

The section of this Proxy Statement titled "Compensation Discussion and Analysis" includes a detailed discussion of each of the following as it relates to the Company's named executive officers:

the objectives of the Company's compensation programs;

what the Company's compensation programs are designed to reward;

each element of compensation;

why the Company chooses to pay each element of compensation;

how the Company determines the amount (and, where applicable, the formula) for each element to pay; and

how each compensation element and the Company's decisions regarding that element fit into the Company's overall compensation objectives.

The Board of Directors unanimously recommends that shareholders approve the foregoing resolution for the same reasons that the Company decided to provide this compensation to its named executive officers as articulated in the "Compensation Discussion and Analysis" section.

Vote Required; Effect of Vote

The approval of the resolution in this Proposal 2 requires that a majority of the shares voting on this Proposal 2 vote FOR such approval. Abstentions and broker non-votes will not be treated as votes cast and, accordingly, will have no effect on the outcome of the vote on this Proposal 2.

The resolution that is the subject of this Proposal 2 is a non-binding, advisory resolution. Accordingly, the resolution will not have any binding legal effect regardless of whether it is approved or not and will not be construed as overruling a decision by the Company or the Board of Directors or to create or imply any change to the fiduciary duties of the Company or the Board of Directors or any additional fiduciary duties for the Company or the Board of Directors. Furthermore, because this non-binding, advisory resolution primarily relates to compensation of the Company's named executive officers that has already been paid or contractually committed, there is generally no opportunity for the Company to revisit those decisions. However, the Compensation Committee does intend to take the results of the vote on this Proposal 2 into account in its future decisions regarding the compensation of the Company's named executive officers.

Recommendation of our Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE *FOR* THE APPROVAL OF THIS RESOLUTION.

PROPOSAL 3

**NON-BINDING, ADVISORY VOTE ON FREQUENCY OF FUTURE NON-BINDING,
ADVISORY VOTES ON EXECUTIVE COMPENSATION**

In accordance with Section 14A of the Exchange Act, the Company is providing shareholders with the opportunity to vote to determine whether the Company should submit to shareholders a say-on-pay vote similar to Proposal 2 of this Proxy Statement every one, two or three years. The Company is required to include this non-binding, advisory vote in its proxy statement no less frequently than once every six years. At the Annual Meeting, the Company is presenting to shareholders the following non-binding, advisory resolution regarding the approval of the frequency of a say-on-pay vote:

RESOLVED, that the shareholders of the Company approve the submission by the Company of a non-binding, advisory say-on-pay resolution pursuant to Section 14A of the Exchange Act every:

one year;

two years; or

three years.

At the Annual Meeting, shareholders may cast a vote on the frequency of a say-on-pay vote by choosing the option of one year, two years, three years or abstaining from voting.

The Board of Directors believes that, of the three choices, submitting a non-binding, advisory say-on-pay resolution to shareholders every three years is the most appropriate choice. The Company believes that shareholder feedback every three years will be more useful as it will provide shareholders with a sufficient period of time to evaluate the overall compensation of the named executive officers, the components of that compensation and the effectiveness of that compensation. The amount of compensation and mix of components of such compensation in any one year may differ from year to year, and the three year period will provide shareholders with a more complete view of the amount and mix of that compensation. The triennial say-on-pay vote will provide shareholders with the benefit of assessing over a period of years whether the components of the compensation paid to the named executive officers have achieved positive results for the Company.

In particular, the three-year period will provide shareholders with the ability to assess the effectiveness of the Company's awards of long-term incentive compensation. A triennial vote will enable shareholders to evaluate the effectiveness of long-term equity incentive awards, which is a significant portion of executive compensation, in achieving these objectives over a longer period of time, which is consistent with the long-term nature of this form of compensation and the Company's corresponding long-term business strategies and objectives.

Vote Required; Effect of Vote

The approval of any of the three choices set forth in the resolution above in this Proposal 3 requires that a majority of the shares voting on this Proposal 3 vote FOR such resolution. Because there are three alternatives, it is possible that none of the three choices will receive a majority of the votes cast. In that case, applicable law provides that none of the three alternatives will have been approved. However, shareholders will still be able to communicate their preference with respect to this vote by choosing from among these three alternatives. Abstentions and broker non-votes will not

be treated as votes cast and, accordingly, will have no effect on the outcome of the vote on this Proposal 3.

The resolution that is the subject of this Proposal 3 is a non-binding, advisory resolution. Accordingly, neither the approval of one of the three choices nor the failure to approve any of the three choices will have any binding legal effect and the actions of the stockholders on this resolution will not be construed as overruling a decision by the Company or the Board of Directors or to create or imply any change to the fiduciary duties of the Company or the Board of Directors or any additional fiduciary duties for the Company or the Board of Directors. However, the Board of Directors does intend to take the results of the vote on this Proposal 3 into account in its decision regarding the frequency with which the Company submits say-on-pay votes to shareholders in the future.

Recommendation of Our Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE TO HOLD A SAY-ON-PAY VOTE EVERY THREE YEARS.

The Audit Committee charter contains procedures for the pre-approval of audit and non-audit services (the Pre-Approval Policy) to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of Ernst & Young LLP for specific audit and non-audit services, except that pre-approval of non-audit services is not required if the de minimus provisions of Section 10A(i)(1)(B) of the Exchange Act are satisfied. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by Ernst & Young LLP. All of the audit-related, tax and all other services provided by Ernst & Young LLP to the Company in fiscal 2010 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the Pre-Approval Policy. All non-audit services provided in 2010 were reviewed with the Audit Committee, which concluded that the provision of such services by Ernst & Young LLP was compatible with the maintenance of that firm's independence in the conduct of its auditing functions.
