People's Republic of China

(Name, Telephone, E-mail and/or Facsimile number and Address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act.

Name of each exchange and title of each class on which registered:

**American Depositary Shares, each representing one ordinary share, par value
US\$0.01 per share, Nasdaq Global Market**

Securities registered or to be registered pursuant to Section 12(g) of the Act.

NONE

(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act.

NONE

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report: 29,512,745 ordinary shares, par value US\$0.01 per share as of December 31, 2010.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
 Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued
by the International Accounting Standards Board

Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Sections 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

INTRODUCTION

In this annual report, unless otherwise indicated, (1) the terms we, us, our company, our and The9 refer to The9 Limited and its subsidiaries, and, in the context of describing our operations and risk factors, also includes our affiliated PRC entities, (2) the terms shares and ordinary shares refer to our ordinary shares, and ADSs refers to our American Depositary Shares, each of which represents one ordinary share, and ADRs refers to the American Depositary Receipts, which evidence our ADSs, (3) China and PRC refer to the People's Republic of China, and solely for the purpose of this annual report, excluding Taiwan, Hong Kong and Macau, (4) all references to RMB and Renminbi are to the legal currency of China and all references to U.S. dollars, dollars, US\$ and \$ are to the legal currency of the United States, (5) all discrepancies in any table between the amounts identified as total amounts and the sum of the amounts listed therein are due to rounding, and (6) all translations from RMB to U.S. dollars and from U.S. dollars to RMB in this annual report were made at a rate of RMB6.6000 to US\$1.00, the noon buying rate in effect as of December 30, 2010.

This annual report on Form 20-F includes our audited consolidated statements of operations for the years ended December 31, 2008, 2009 and 2010, and consolidated balance sheet data as of December 31, 2009 and 2010. We and certain selling shareholders of our company completed the initial public offering of 6,075,000 ADSs, each representing one ordinary share, par value US\$0.01 per share, on December 20, 2004. On December 15, 2004, we listed our ADSs on the Nasdaq Global Market, or Nasdaq, under the ticker symbol NCTY.

ITEM 3. KEY INFORMATION**A. Selected Financial Data**

The following table presents selected consolidated financial information for our company. You should read the following information in conjunction with Item 5. Operating and Financial Review and Prospects below. The selected consolidated statement of operations data for the years ended December 31, 2008, 2009 and 2010 and the selected consolidated balance sheet data as of December 31, 2009 and 2010 have been derived from our audited consolidated financial statements and should be read in conjunction with those statements, which are included in this annual report beginning on page F-1. The selected consolidated statement of operations data for the years ended December 31, 2006 and 2007 and the selected consolidated balance sheet data as of December 31, 2006, 2007 and 2008 have been derived from our audited consolidated financial statements, which are not included in this annual report.

- (1) Translation from RMB amounts into U.S. dollars was made at a rate of RMB6.6000 to US\$1.00. See Exchange Rate Information.
- (2) We adopted authoritative guidance regarding accounting for noncontrolling interests on January 1, 2009, retrospectively.
- (3) Each ADS represents one ordinary share.

Exchange Rate Information

Our business is primarily conducted in China and almost all of our revenues are denominated in RMB. This annual report contains translations of RMB amounts into U.S. dollars based on the noon buying rate in the city of New York for cable transfers of RMB, as certified for customs purposes by the Federal Reserve Bank of New York. For your convenience, this annual report contains translations of some RMB or U.S. dollar amounts for 2010 at US\$1.00: RMB6.6000, which was the noon buying rate in effect as of December 30, 2010. The prevailing rate on April 1, 2011 was US\$1.00: RMB6.5477. We make no representation that any RMB or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or RMB, as the case may be, at any particular rate, the rates stated below, or at all. The PRC government imposes control over its foreign currency reserves in part through direct regulation of the conversion of RMB into foreign currency and through restrictions on foreign exchange activities.

Table of Contents

The following table sets forth information concerning exchange rates between the RMB and the U.S. dollar for the periods indicated. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this annual report or will use in the preparation of our other periodic reports or any other information to be provided to you. The source of these rates is the Federal Reserve Bank of New York.

Period	Noon Buying Rate			
	Period End	Average⁽¹⁾	Low	High
2006	7.8041	7.9579	8.0702	7.8041
2007	7.2946	7.5806	7.8127	7.2946
2008	6.8225	6.9193	7.2946	6.7800
2009	6.8259	6.8295	6.8470	6.8176

(1) Annual averages are calculated from month-end rates. Monthly averages are calculated using the average of the daily rates during the relevant period.

B. Capitalization and Indebtedness

Not Applicable.

C. Reasons for the Offer and Use of Proceeds

Not Applicable.

D. Risk Factors

Risks Related to Our Company

We have incurred losses starting from the expiration of the license of World of Warcraft, or WoW. We may incur losses in the future and may not maintain profitability.

We incurred a net loss of RMB409.9 million in the year ended December 31, 2009 due to the non-renewal of the WoW license agreement. We incurred a net loss of RMB518.7 million (US\$78.6 million) in the year ended December 31, 2010 because we have not identified a product to replace the WoW game. We may continue to incur losses in the future. We had a gross loss of RMB0.4 million (US\$0.06 million) in the year ended December 31, 2010. We may not be able to sustain or increase our gross profitability in the future. We may not achieve net profitability in the future.

We expect our operating expenses to increase as we expand our operations. Our ability to achieve profitability depends on the competitiveness of our products and services as well as our ability to control costs and to provide new products and services to meet the demands of our customers. Due to the numerous risks and uncertainties associated with our business, we may not be able to achieve short-term or long-term profitability or at all. If we fail to achieve profitability in the future, the market price of our ADSs could decline.

Table of Contents

If we are unable to successfully establish new relationships with online game developers, and maintain a satisfactory relationship with the online game developers that have licensed games to us, our future results of operations and profitability will be materially impacted.

We rely heavily on our relationships with online game developers that have licensed games to us. Despite our effort to expand our capacity to develop our own proprietary games, we still and will continue to significantly rely on our relationships with, among others, game licensors such as Webzen, Inc., or Webzen, Ndoors Corporation, or Ndoors, and USERJOY Technology Co., Ltd., or USERJOY. The licenses of the games we now operate generally have terms ranging from three to four years, and may or may not be renewed upon expiration. As an illustration, until June 2009, we had relied heavily on our relationship with Blizzard Entertainment, Inc. which permitted our subsidiary, China The9 Interactive Limited, or C9I, to operate WoW, in China through cooperation with Shanghai The9 Information Technology Co., Ltd., or Shanghai IT, our affiliated entity. Our agreement with Blizzard Entertainment, Inc., which expired on June 7, 2009, accounted for approximately 91% of our total revenue in 2008 and approximately 88% of our total revenues in 2009. On November 22, 2010, our license agreement with HanbitSoft Inc., or HanbitSoft, and IMC Games Co., Ltd. to operate Granado Espada, or GE, expired and was not renewed. Our game licenses may also be terminated before expiration. For example, on December 2, 2010, we entered into an agreement with EA Swiss Sàrl to prematurely terminate the EA Sports FIFA Online 2 license, which would otherwise have expired in May 2012, and to cease commercial operation of the game in China. We expect that we will cease to operate the game in China in 2011. In order for our business strategy to be successful in the near term, we will need to license new online games, in addition to developing proprietary games that are attractive to users. Our results of operations and profitability will be materially impacted if we are unable to license new online games in the future. In addition, if we are unable to maintain a satisfactory relationship with the online game developers so that the licenses are not renewed or prematurely terminated, or should any of these game licensors either establish similar or more favorable relationships with our competitors in violation of their contractual arrangements with us or otherwise, our operating results and our business would be harmed because our business depends significantly upon our exclusive licenses to operate online games in China. We cannot assure you that any of our online game licensors will renew their license agreements with us, or grant us an exclusive license for any new online games that they may develop or make expansion packs for existing games available to us in the future. Any deterioration in our relationships with our online game licensors could harm our future results of operations or the growth of our business.

Our business is intensely competitive and hit driven. If we do not deliver new hit products to the market, or if consumers prefer our competitors products or services over those we provide, our operating results will suffer.

We operate in a highly competitive and dynamic market, and our future success depends not only on the popularity of our existing online games but also, in large part, on our ability to develop and introduce new games that are attractive to our customers. To achieve this, we will need to anticipate and effectively adapt to rapidly changing consumer tastes and preferences and technological advances. The development of new games can be very difficult and requires high levels of innovation. We do not have a proven track record with developing proprietary massively multiplayer online role playing games, or MMORPGs, web games, casual games, Social Networking Service, or SNS, games or other online games. While new products are regularly introduced, only a small number of hit titles account for a significant portion of total revenue in our industry. Hit products offered by our competitors may take a larger share of the market than we anticipate, which could cause revenues generated by our products to fall below expectations. If our competitors develop more successful products, or offer similar products at lower price points or pursuant to payment models viewed as offering a better value than we do, our revenues, margins and profitability will decline. Also, in order to maintain the life span of our new online games, which we believe is typically four to five years for successful online games or two to three years for most other online games, we need to continue to develop and release upgrades to our new online games. We cannot assure you that we will be able to identify appropriate games or enter into arrangements with those game developers to offer these games in China, on terms acceptable to us or at all, or that we can maintain the expected life span of our new online games. If we are not able to license, develop or acquire additional attractive online games with lasting appeal to users, our future revenues and profitability will decline.

Table of Contents***We may not be able to recover our market share and profitability as we operate in a highly competitive industry and compete against many companies.***

There are currently over 100 online game operators in China. We expect that, given the relatively low barriers to entry, more companies will enter the online game industry in China and a wider range of online games will be introduced to the Chinese market. Our competitors vary in size and include large companies, many of which have significantly greater financial, marketing and game development resources and name recognition than we have, such as Tencent Inc., Shanda Games Limited, Netease.com, Inc., Perfect World Co., Ltd., Changyou.com Limited and Giant Interactive Group. As a result, we may not be able to devote adequate resources to designing, developing or acquiring new games, undertaking extensive marketing campaigns, adopting aggressive pricing policies, paying high compensation to game developers or compensating independent game developers to the same degree as certain of our competitors. Our competitors may introduce new business methods. If these new business methods are more attractive to customers than the business methods we currently use, our customers may switch to our competitors' games, and we may lose market share. We cannot assure you that we will be able to compete successfully against new or existing competitors, or against new business methods implemented by them. In addition, the increased competition we anticipate in the online game industry may also reduce the number of our users or the growth rate of our user base or reduce the game points spending for in-game premium. All of these competitive factors could adversely affect our operational success, cash flows, operating margins and profitability and prevent us from recovering our market shares and profitability.

We are subject to securities class action lawsuits alleging that we and certain of our directors and officers disseminated or approved materially false and misleading statements and failed to disclose that we might not be able to renew the license of WoW. If the class action lawsuits are successful, they may have an adverse effect on our financial condition and operating results.

On October 21, 2009, a securities class action lawsuit, entitled Glaser v. The9 Ltd. et al., Case No. 09-Civ-8904 was filed in the United States District Court for the Southern District of New York against us, in connection with the non-renewal of the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs in this case allege that the defendants misrepresented or failed to make material disclosures regarding the likelihood that we would be renewing the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs allege federal securities law violations and seek unspecified damages. On November 4, 2009, an additional securities class action lawsuit, entitled O Dea v. The9 Ltd. et al., Case No. 09-Civ-9166 was filed in the United States District Court for the Southern District of New York against the same defendants with substantially the same allegations. The court consolidated these complaints into a single action on February 2, 2010, and the consolidated complaint was filed on March 19, 2010. We filed a motion to dismiss the consolidated complaint on May 28, 2010. The plaintiffs filed their opposition to the motion to dismiss on July 12, 2010. We filed a reply on August 11, 2010. On March 28, 2011, the court granted our motion to dismiss and ordered the case closed. The plaintiffs have thirty days from the date of the dismissal to refile their complaint.

Illegal game servers, unauthorized character enhancements and other infringements of our intellectual property rights, as well as theft of in-game goods, could harm our business and reputation and materially and adversely affect our results of operation.

With the increase in the number of online game players in China, we have faced the risks of illegal game servers, unauthorized character enhancements and other infringements of our intellectual property rights as well as the risk of theft of in-game goods purchased by our customers. Our historical results of operations were materially and adversely affected by illegal game servers. Although we have adopted a number of measures to address illegal server usage, misappropriation of our game server installation software and the establishment of illegal game servers could harm our business and reputation and materially and adversely affect our results of operations.

From time to time, we have detected a number of players who have gained an unfair advantage by installing cheating tools that facilitate character progression. We have installed software patches designed to prevent unauthorized modifications to our execution files. However, we cannot assure you that we will be able to identify and eliminate new illegal game servers, unauthorized character enhancements or other infringements of our intellectual property rights in a timely manner, or at all. The deletion of unauthorized character enhancements requires the affected players to restart

with a new character from the starting level, and may result in some of these players ceasing to play the game altogether. In addition, any of our new games may be affected by similar or other infringement of our intellectual property rights. If we are unable to eliminate illegal servers, unauthorized character enhancements or suffer other infringement of our intellectual property rights, our players' perception of the reliability of our games may be negatively impacted, which may reduce the number of players using our games, shorten the life span of our games or adversely affect our results of operations.

Table of Contents

Our business, financial condition and results of operations may be adversely affected by the downturn in the global or Chinese economy.

The global financial markets experienced significant disruptions in 2008 and the effect of the crisis still persists. China's economy has also faced challenges. To the extent that there have been improvements in some areas, it is uncertain whether such recovery is sustainable. Since we derive substantially all of our revenues from China, our business and prospects may be affected by economic conditions in China. Moreover, a slowdown in the global or Chinese economy or the recurrence of any financial disruptions may have a material and adverse impact on financings available to us. The weakness in the economy could erode investors' confidence, which constitutes the basis of the equity markets. The recent financial turmoil affecting the financial markets and banking system may significantly restrict our ability to obtain financing in the capital markets or from financial institutions on commercially reasonable terms, or at all. We are uncertain about the extent to which the recent global financial and economic crisis and slowdown of the Chinese economy may impact our business in the long term. There is a risk that our business, results of operations and prospects would be materially and adversely affected by the global economic downturn and the slowdown of the Chinese economy.

We face the risks of changing consumer preferences and uncertainty about market acceptance of our new products.

The online game industry is a relatively new and evolving industry in China. The level of demand and market acceptance of our online games is subject to a high degree of uncertainty. Our future operating results will depend on numerous factors beyond our control. These factors include:

- the popularity of new online games that we operate;
- the introduction of new online games competing with or replacing our existing online games;
- general economic conditions, particularly economic conditions adversely affecting discretionary consumer spending;
- changes in customer tastes and preferences;
- the availability of other forms of entertainment;
- critical reviews and public tastes and preferences, all of which change rapidly and cannot be predicted; and
- the acceptance by customers of the purchase of in-game items.

Our ability to plan for product development and distribution and promotional activities will be significantly affected by our ability to anticipate and adapt to relatively rapid changes in consumer tastes and preferences. Currently, one of the most popular types of online games in China is the MMORPG. However, there is no assurance that MMORPGs will continue to be popular in China or that their popularity will not be surpassed by new and different types of online or other games in the future. For example, mobile games have been gradually gaining popularity among game players since 2009. A decline in the popularity of online and mobile games in general or the MMORPGs that we operate will likely adversely affect our business and prospects.

In addition, we expect that as we introduce new MMORPGs, a certain portion of our existing customers will switch to the new games. If this transfer of players from our existing games exceeds our expectations, we may have to adjust our marketing, pricing and other business plans and, as a result, our growth and profitability could be materially and adversely affected.

Table of Contents***Future acquisitions may have an adverse effect on our ability to manage our business and our results of operations.***

Selective acquisitions form a part of our strategy to further expand our business. For example, we acquired the majority interest of Red 5 Studios, Inc., or Red 5, to further strengthen our online game development capabilities. We believe that integration of a new company's operations and personnel into ours will require significant attention of our management. The diversion of our management's attention away from our business and any difficulties encountered in the integration process could have an adverse effect on our ability to manage our business. In addition, we have been increasingly relying on our acquired subsidiaries, such as Red 5, to develop Firefall, a massively multiplayer online first-person shooter game, or MMOFPS game. We also rely on our consolidated subsidiary Hangzhou Fire Rain Network Technology Co., Ltd., or Fire Rain, to develop ShenXianZhuan, a MMORPG game. If they are unable to develop, launch and operate games that are commercially successful and have continued to appeal to game players, our future profitability and growth prospects will decline.

We intend to selectively acquire companies, technologies and personnel that are complementary to our existing business. Our ability to grow through future acquisitions, investments or organic means will depend on the availability of suitable acquisition and investment candidates at an acceptable cost, our ability to compete effectively to attract these candidates, and the availability of financing to complete larger acquisitions. We may face significant competition in acquiring new businesses or companies, which may hinder the execution of our growth strategy. Future acquisitions or investments could result in a potential dilutive issuance of equity securities or the incurrence of debt, contingent liabilities, impairment losses or amortization expenses related to goodwill and other intangible assets, each of which could adversely affect our financial condition and results of operations. The benefits of an acquisition or investment may also take considerable time to develop and we cannot be certain that any particular acquisition or investment will produce its intended benefits. Future acquisitions would also expose us to potential risks, including risks associated with the assimilation of new operations, technologies and personnel, unforeseen or hidden liabilities, the diversion of resources from our existing businesses, sites and technologies, the inability to generate sufficient revenue to offset the costs and expenses of acquisitions, and potential loss of, or harm to, our relationships with employees, customers, licensors and other suppliers as a result of the integration of new businesses.

Future equity investments may have an adverse effect on our ability to manage our business.

Selective equity investments form a part of our strategy to further expand our business. To date, we have acquired equity interests in various online game developers, operators and mobile game or application platforms. Equity investments create a unique problem in that we are often limited in our ability to manage the products and strategies of the companies in which we invest. The diversion of our management's attention away from our business and any difficulties encountered in managing our interests in the respective investees could have an adverse effect on our ability to manage our business. In addition, we may not recover our equity investments if the companies in which we invest do not perform well and equity investments could result in the incurrence of impairment losses, which could materially and adversely affect our results of operations.

Undetected programming errors or flaws in our games could harm our reputation or decrease market acceptance of our games, which would materially and adversely affect our results of operations.

Our games may contain errors or flaws, which may only be discovered after their release, particularly as we launch new games or introduce new features to existing games under tight time constraints. If our games contain programming errors or other flaws, our customers may be less inclined to continue or resume playing our games or recommend our games to other potential customers, and may switch to our competitors' games. Undetected programming errors and game defects can disrupt our operations, adversely affect the gaming experience of our users, harm our reputation, cause our customers to stop playing our games, divert our resources and delay market acceptance of our games, any of which could materially and adversely affect our results of operations.

Table of Contents***We may not be able to prevent others from infringing upon our intellectual property rights, which may harm our business and expose us to litigation.***

We regard our proprietary software, domain names, trade names, trademarks and similar intellectual properties as critical to our success. Intellectual property rights and confidentiality protection in China may not be as effective as in the United States or other countries. Monitoring and preventing the unauthorized use of proprietary technology is difficult and expensive. The steps we have taken may be inadequate to prevent the misappropriation of our proprietary technology. Any misappropriation could have a negative effect on our business and operating results. We may need to resort to court proceedings to enforce our intellectual property rights in the future. Litigation relating to our intellectual property might result in substantial costs and diversion of resources and management attention away from our business. See Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

We may need additional financing and we may not be able to obtain it on terms acceptable to us, or at all.

We believe that our current cash and cash equivalents and cash flow from operations will be sufficient to meet our anticipated cash needs for the foreseeable future. We may, however, require additional cash resources due to changes in business conditions or other future developments, including any investments or acquisitions we may decide to pursue. We have made significant financial commitments under the license agreements with the licensors of the MMORPGs we operate. With mobile social gaming platform being one of our new business directions, we expect to make significant investment to grow this business, including securing the license of mobile social gaming platform software, and expanding our research and development headcounts. If our resources are insufficient to satisfy our cash requirements, we may seek additional financing in the form of additional sales of our shares, the issuance of debt securities or through obtaining a credit facility. These forms of financing may result in dilution to our shareholders or increased debt service obligations, and could result in operating and financing covenants that would restrict our operations. We cannot assure you that any such future financing will be available to us in amounts or on terms acceptable to us, if at all.

Our sale of a significant number of equity shares to third parties may have an adverse effect on our ability to manage our business, and subsequent sales of large shareholdings by third parties may impact our share price.

We believe that our current cash and cash equivalents and cash flow from operations will be sufficient to meet our anticipated cash needs for the foreseeable future. We may, however, require additional cash resources due to changes in business conditions or other future developments, including any investments or acquisitions we may decide to pursue. The sale of a significant number of equity shares to a third party may have an adverse impact on our ability to manage our business, and the subsequent sale of a large equity shareholding by such a third party may impact our share price.

Any failure to maintain a stable and efficient distribution network could materially and adversely affect our business and results of operations. In particular, we rely on one national distributor to sell our online game points, and any delay or failure by the national distributor to successfully market our online game points could have a material adverse effect on our business.

Online payment systems in China are at an early stage of development and are not as widely available or acceptable to consumers in China as in the United States and other developed countries. See Risk Related to Doing Business in China The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected. Therefore, we rely on a network of distributors throughout China for sales of our online game services to our customers. As a result, a substantial portion of our sales are carried out via a distribution network composed of third-party distributors. Our national distributor sells its prepaid cards to over 20,000 local distributors and Internet cafés throughout China, which in turn sell the cards to end users. End users can purchase our online game points with the prepaid cards. Currently, Beijing HuiyuanNet Technology Co., Ltd. is our sole national distributor. We do not have long-term agreements with our distributor. A delay or failure by our distributor to successfully market these products may decrease our revenues and competitive advantage. We cannot assure you that we will continue to maintain favorable relationships with our distributor. If we fail to maintain a stable and efficient distribution network, our business and results of operations could be materially and adversely affected.

Table of Contents

We rely on services from third parties to carry out our businesses and to deliver our online game points to end users, and if there is any interruption or deterioration in the quality of these services, our end users may cease to use our products and services.

We rely on distributors throughout China to sell our online game points for our games. We also rely on third-party licenses for some of the software underlying our technology platform, as well as on China Telecom's Internet data centers to host our servers. See Item 4. Information on the Company B. Business Overview Pricing, Distribution and Marketing. Any interruption in our ability to obtain the services of these or other third parties or a deterioration in their performance could impair the timeliness and quality of our services. Furthermore, if our arrangements with any of these third parties are terminated or modified against our interest, we may not be able to find alternative channels of distribution on a timely basis or on terms favorable to us. If any of these events occur, our end users may cease using our products and services.

Unexpected network interruptions caused by system failures or other internal or external factors may lead to user attrition, revenue reductions and may harm our reputation.

Any failure to maintain the satisfactory performance, reliability, security and availability of our network infrastructure may cause significant harm to our reputation and our ability to attract and maintain users. The system hardware for our operations is located in several cities in China. We maintain backup system hardware in Shanghai, Beijing, Shenzhen, Chengdu, Nanjing, Qingdao, Shijiazhuang, Zhengzhou and Nantong. We also run our back-end infrastructure in Shanghai, Beijing, Shenzhen, Chengdu, Nanjing, Qingdao, Shijiazhuang, Zhengzhou and Nantong. Server interruptions, breakdowns or system failures in the cities where we maintain our servers and system hardware, including failures that may be attributable to sustained power shutdowns, or other events within or outside our control that could result in a sustained shutdown of all or a material portion of our services, could adversely impact our ability to service our users.

Our network systems are also vulnerable to damage from computer viruses, fire, flood, earthquake, power loss, telecommunications failures, computer hacking and similar events. We maintain property insurance policies covering our servers, but do not have business interruption insurance.

Our business may be harmed if our technology becomes obsolete or if our system infrastructure fails to operate effectively.

The online game industry is subject to rapid technological change. We need to anticipate the emergence of new technologies and games, assess their acceptance and make appropriate investments. If we are unable to do so, new technologies in online game programming or operations could render our games obsolete or unattractive.

We use our internally developed Pass9 system and other software systems that support nearly all aspects of our billing and payment transactions. Our business may be harmed if we are unable to upgrade our systems fast enough to accommodate future traffic levels, avoid obsolescence or successfully integrate any newly developed or acquired technology with our existing systems. Capacity constraints could cause unanticipated system disruptions and slower response times, affecting data transmission and game play. These factors could, among other things, cause us to lose existing or potential customers and existing or potential game development partners.

Our results of operations may be materially and adversely affected if our licensors cannot prevail on future intellectual property rights claims brought against them by third parties.

We expect to derive a considerable amount of our revenues and profits from our licensed online games in the near term, though we aim to derive more revenues from mobile social gaming business and our proprietary games in the future. Any of our licensors may be subject to intellectual property rights claims with respect to the one or more online games or software that it has licensed to us. If any of our licensors cannot prevail on the intellectual property rights claims brought against it, we would lose our license from such licensor and may not be able to obtain the license from the legitimate owner of the game or the software, and our results of operations could be materially and adversely affected.

Table of Contents***We have been and may be subject to future intellectual property rights claims or other claims, which could result in substantial costs and diversion of our financial and management resources away from our business.***

There is no assurance that our online games or other content posted on our websites do not or will not infringe upon patents, valid copyrights or other intellectual property rights held by third parties. We may be subject to legal proceedings and claims from time to time relating to the intellectual property of others. In addition, some of our employees were previously employed at other companies, including our current and potential competitors. We also intend to hire additional personnel to expand our product development and technical support teams. To the extent these employees have been involved in research at our company similar to research in which they have been involved at their former employers, we may become subject to claims that such employees have used or disclosed trade secrets or other proprietary information of their former employers. In addition, our competitors may file lawsuits against us in order to gain an unfair competitive advantage over us. In February 2010, Beijing Superior Court issued a judgment against us in a lawsuit filed by Beijing Founder Electronics Co., Ltd., which ruled that WoW client installation packages sold by us in 2007 contained fonts that infringe Beijing Founder Electronics Co., Ltd.'s intellectual property rights. Based on the judgment, we are required to compensate Beijing Founder Electronics Co., Ltd. an aggregate amount of RMB1,570,000 (US\$237,879). As the date of this annual report, we have appealed the judgment and the case is pending. If any such claim arises in the future, litigation or other dispute resolution proceedings may be necessary to retain our ability to offer our current and future games, which could result in substantial costs and diversion of our financial and management resources. Furthermore, if we are found to have violated the intellectual property rights of others, we may be enjoined from using such intellectual property, incur additional costs to license or develop alternative games and be forced to pay fines and damages, each of which may materially and adversely affect our business and results of operations.

We experience fluctuations in quarterly operating results.

Our quarterly operating results have fluctuated in the past and will likely fluctuate in the future. These fluctuations in operating results depend on a variety of factors, including the timing of new game launches and the expiration of existing game licenses. Other factors include the demand for our products and the products of our competitors, the level of usage of illegal game servers, the level of usage of the Internet, the size and rate of growth of the online game market, development and promotional expenses related to the introduction of new products, network interruptions and other system problems and the outbreak of contagious diseases such as avian flu or swine flu. In addition, because our game software is susceptible to unauthorized character enhancements, we may periodically delete characters that are enhanced with unauthorized modifications. This has caused some affected customers to stop playing the respective game, which, in the aggregate, may cause our operating results to fluctuate.

To a significant degree, our operating expenses are based on planned expenditures and our expectations regarding prospective customer usage. Failure to meet our expectations could disproportionately and adversely affect our operating results in any given quarter. As a result, we believe that period-to-period comparisons of operating results are not necessarily indicative of our future results.

Our business depends substantially on the continuing efforts of our senior executives, and our business may be severely disrupted if we lose their services.

Our future success depends heavily upon the continued services of our senior executives. We rely on their expertise in business operations, technology support and sales and marketing and on their relationships with our shareholders and distributors. We do not maintain key-man life insurance for any of our key executives. If one or more of our key executives are unable or unwilling to continue in their present positions, we may not be able to replace them easily or at all. As a result, our business may be severely disrupted, our financial condition and results of operations may be materially and adversely affected, and we may incur additional expense to recruit and train personnel.

Table of Contents

Each of our executive officers has entered into an employment agreement with us, which contain confidentiality and non-competition provisions. If any disputes arise between our executive officers and us, we cannot assure you the extent to which any of these agreements could be enforced in China, where these executive officers reside and hold most of their assets, in light of uncertainties with the PRC legal system. See Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

If we are unable to attract, train and retain key individuals and highly skilled employees, our business may be adversely affected.

If our business expands, we will need to hire and retain additional qualified employees, including skilled and experienced online game developers. Since our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to retain key personnel in the future. We cannot assure you that we will be able to attract or retain the qualified game developers or other key personnel that we will need to achieve our business objectives.

PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

We are a Cayman Islands company and, as such, we are classified as a foreign enterprise under PRC laws. Various regulations in China currently restrict foreign or foreign-owned entities from holding certain licenses required in China to provide online games over the Internet, including Internet content provision, or ICP, Internet culture operation and Internet publishing licenses. In light of such restrictions, we rely on Shanghai IT to hold and maintain the licenses necessary for the operation of our online games in China. Shanghai IT is a PRC company owned by Jun Zhu and Yong Wang, who are our chief executive officer and vice president, respectively.

In July 2006, the Ministry of Information Industry (which has subsequently been reorganized as the Ministry of Industry and Information Technology), or MIIT, issued a notice, or the New MII Notice, which prohibits ICP license holders from leasing, transferring or selling a telecommunications business operating license to foreign investors in any form, or providing resources, sites or facilities to any foreign investors for their illegal operation of a telecommunications business in China. The notice also requires that ICP license holders and their shareholders directly own the domain names and trademarks used by such ICP license holders in their daily operations. The notice further requires each ICP license holder to have the necessary facilities for its approved business operations and to maintain such facilities in the regions covered by its license. In addition, all value-added telecommunication service providers are required to maintain network and information security in accordance with the standards set forth under relevant PRC regulations. The local authorities in charge of telecommunications services are required to ensure that existing ICP license holders will conduct a self-assessment of their compliance with the New MII Notice and to submit status reports to MIIT before November 1, 2006. Since the New MII Notice was issued, we have transferred to Shanghai IT almost all of the domain names used in its daily operations and certain trademarks used in its daily operations, as required under the New MII Notice. All relevant transfers have been completed and relevant approvals have been obtained.

In September 2009, the General Administration of Press and Publication, or GAPP, further promulgated the Circular Regarding the Implementation of the Department Reorganization Regulation by State Council and Relevant Interpretation by State Commission Office for Public Sector Reform to Further Strengthen the Administration of Pre-approval on Online Games and Approval on Import Online Games, or the GAPP Circular, which provides that foreign investors shall not control and participate in PRC online game operation businesses indirectly or in a disguised manner by establishing joint venture companies or entering into relevant agreements with, or by providing technical supports to, such PRC online game operation companies, or by inputting the users' registration, account management, game cards consumption directly into the interconnected gaming platform or fighting platform controlled or owned by the foreign investor. It is not clear whether the regulatory authority of GAPP applies to the regulation of ownership structures of online game companies based in China and online game operation in China. Other government agencies that have regulatory jurisdiction over the online game operations in China, such as the MOC and MIIT, did not join GAPP in issuing the GAPP Circular. To date, the GAPP has not issued any interpretation of the GAPP Circular. It is not yet clear how this GAPP Circular will be implemented.

Table of Contents

If we or Shanghai IT are found to be in violation of any existing or future PRC laws or regulations, including the New MII Notice and the GAPP Circular, the relevant governmental authorities, according to the nature of the violation, would have broad discretion to adopt one or more of the following measures against us, including levying fines, confiscating our income or the income of Shanghai IT, revoking our business licenses or the business license and/or other licenses of Shanghai IT, requiring us and Shanghai IT to restructure our ownership structure or operations, and requiring us or Shanghai IT to discontinue any portion or all of our operations related to online games. Any of these actions could cause significant disruption to our business operations and may materially and adversely affect our business and financial condition and results of operations.

Subject to the interpretation and implementation of the GAPP Circular, the ownership structure and the business operation models of our PRC subsidiaries and consolidated affiliated entities comply with all applicable PRC laws, rules and regulations, and no consent, approval or license is required under any of the existing laws and regulations of China for their ownership structure and business operation models except for those which we have already obtained or which would not have a material adverse effect on our business or operations as a whole. There are, however, substantial uncertainties regarding the interpretation and application of current or future PRC laws and regulations. Accordingly, we cannot assure you that PRC government authorities will ultimately take a view that is consistent with the opinion of our PRC legal counsel.

We could also face material and adverse tax consequences if the PRC tax authorities determine that our contractual arrangements with Shanghai IT were not made on reasonable commercial terms or otherwise. If this were to occur, they may adjust our income and expenses for PRC tax purposes in the form of a transfer pricing adjustment. A transfer pricing adjustment could result in a reduction, for PRC tax purposes, of costs and expenses recorded by Shanghai IT, which could adversely affect us by: (i) increasing Shanghai IT's tax liability without reducing our PRC subsidiaries' tax liability, which could further result in late payment fees and other penalties to Shanghai IT for underpaid taxes; or (ii) limiting Shanghai IT's ability to maintain preferential tax treatments and other financial incentives.

We may not be able to get approval for renewing our current foreign games, or for licensing new foreign games, if the PRC regulatory authorities promote a policy of domestic online or mobile game development and tighten approval criteria for online or mobile game imports.

Our business depends heavily on licensing and operating foreign games and will continue to do so in the near future. In the past, such foreign games mainly included MMORPGs or casual games. With mobile social gaming being one of new businesses, our business will also depend on licensing foreign mobile games. Since 2004, relevant government authorities have promulgated several circulars, according to which the development of domestically developed online games will be strategically supported by the PRC government. In July 2005, MIIT and the Ministry of Culture issued the Opinion on Development and Management of Online Games, or the Opinion. The Opinion provided that domestic software development companies, internet service providers and content providers will be encouraged, guided and supported to develop and promote self-developed and owned online games which can take up a leading position in the domestic market and expand into the international market. The government will also encourage the development of derivative products to domestic online games. In support of this policy, GAPP may tighten approval criteria for online game imports in an effort to protect the development of domestic online game enterprises, as well as to limit the influence of foreign culture on Chinese youth. If GAPP implements such rules and policies, we may not be able to get approval for renewing our current foreign game licenses or for licensing new foreign games, and our revenue and profitability may decline.

Failure to obtain or renew approvals or filings for online games we operate may adversely affect our operations or subject us to penalties.

The Ministry of Culture has promulgated laws and regulations that require, among other things, the review and prior approval of all new online games licensed from foreign game developers and related license agreements, the review of patches and updates for approved games which introduce substantial changes, and the filing of domestically developed online games. Furthermore, online games, regardless of whether imported or domestic, will be subject to content review and approval by GAPP prior to the commencement of their operations in China. We obtained the necessary approvals from and completed necessary filing procedures with the Ministry of Culture and GAPP for operating Soul of The Ultimate Nation, or SUN, EA Sports FIFA Online 2, Atlantica,

Table of Contents

World of Fighter, Kingdom Heroes 2 Online and Winning Goal in China. We will submit new games for the required review or filing from time to time as required. If we fail to obtain or renew approvals or filings for online games we operate, we may not be able to launch our new licensed games within the expected timeframe or at all, and our business and results of operations could be materially and adversely affected. Further, we rely on certain third party licensors of certain domestically developed online games to obtain such approvals and complete filings for these games. We cannot assure you that all the required approvals have been obtained or filings have been made by such third party licensors. If such third party licensors fail to obtain the required approvals or complete the filings, we may not be able to continue the operation of such games.

We depend on Shanghai IT to hold certain operating licenses. If Shanghai IT or its shareholders violate our contractual arrangements with it, our business could be disrupted and our reputation may be harmed.

Because the PRC government restricts our ownership of Internet content provision, Internet culture operation and Internet publishing businesses in China, we depend on Shanghai IT, in which we have no ownership interest, to hold and maintain certain licenses necessary for our business operations. Our relationship with Shanghai IT is governed by a series of contractual arrangements that are intended to provide us with effective control over these entities, but these contractual arrangements may not be as effective in providing control as direct ownership of these businesses. For example, Shanghai IT could go bankrupt, suffer problems in its business, Shanghai IT or its shareholders could violate their contractual arrangement with us, or otherwise become unable to perform its contracts with us and, as a result, we may lose the licenses required for our online game operations and our reputation and business could be harmed.

The principal shareholders of Shanghai IT and Shanghai Huopu Cloud Computing Terminal Technology Co., Ltd. have potential conflicts of interest with us, which may adversely affect our business.

Our chief executive officer, Jun Zhu, and our vice president, Yong Wang, are also the principal shareholders of Shanghai IT. Our senior legal director, Junping Han, and finance director, Wei Xiong, are also the principal shareholders of Shanghai Huopu Cloud Computing Terminal Technology Co., Ltd., or Huopu Cloud. Thus, there may arise conflicts of interest between their duties to our company on the one hand and Shanghai IT and Huopu Cloud on the other hand. We cannot assure you that when conflicts of interest arise, these persons will act completely in our interests or that conflicts of interests will be resolved in our favor. In addition, these persons could violate their non-competition or employment agreements with us or their legal duties by diverting business opportunities from us to others. In any such event, we would have to rely on the PRC legal system to enforce these agreements. Any legal proceeding could result in the disruption of our business, diversion of our resources and the incurrence of substantial costs. See Risks Related to Doing Business in China Uncertainties with respect to the PRC legal system could adversely affect us.

Our subsidiaries in China are subject to restrictions on paying dividends or making other payments.

Current PRC regulations restrict our subsidiaries in China from paying dividends in the following two principal aspects: (i) our subsidiaries in China are only permitted to pay dividends out of their respective after-tax profits, if any, determined in accordance with PRC accounting standards and regulations, and (ii) these entities are required to allocate at least 10% of their respective after-tax profits each year, if any, to fund statutory reserve funds until the cumulative total of the allocated reserves reaches 50% of registered capital, and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective board of directors or shareholders. These reserves are not distributable as dividends. See Item 4. Information on the Company B. Business Overview Government regulations. Further, if these entities incur debt on their behalf in the future, the instruments governing such debt may restrict their ability to pay dividends or make other payments. Our inability to receive dividends or other payments from our PRC subsidiaries may adversely affect our ability to continue to grow our business and make cash or other distributions to the holders of our ordinary shares and ADSs. In addition, failure to comply with relevant State Administration of Foreign Exchange, or SAFE, regulations may restrict the ability of our subsidiaries to make dividend payments to us. See Risks Related to Doing Business in China PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

Table of Contents***We may not be able to successfully implement our growth strategies.***

Our objective is to become a leading operator and developer of multi-platform games in China. In order to achieve this objective, we are primarily focusing on both developing proprietary games and licensed games. We also plan to further enhance our game development capability and the diversity of our game portfolio and pipeline through selective game studio acquisitions. Since 2010, we have made investment in developing our mobile game business. We plan to primarily use licensed mobile social gaming platform software and license mobile games from other developers in the near future. We expect to rely on OpenFeint Inc. (formerly known as Aurora Feint, Inc.), or OpenFeint, for the license of our mobile social gaming platform software, and our business partners include mobile game developers, telecom carriers and cell phone manufacturers. Our business strategies may involve the development and marketing of new services and products for which there are no established markets in China or in which we lack experience and expertise. As a result, we cannot assure you that we will be able to deliver new products or services on a commercially viable basis or in a timely manner, or at all, or that we will be able to successfully implement our other growth strategies. If any of these occur, our competitiveness may be harmed and our business, financial condition and results of operations may be materially and adversely affected.

We could be liable for breaches of security on our websites and fraudulent transactions by users of our websites.

Currently, a portion of our transactions are conducted through our websites. In such transactions, secured transmission of confidential information (such as customers' credit card numbers and expiration dates, personal information and billing addresses) over public networks is essential to maintain consumer confidence. Our current security measures may not be adequate to safeguard against fraudulent transactions. Security breaches could expose us to litigation and possible liability for failing to secure confidential customer information and could harm our reputation and ability to attract customers.

Existing major shareholders have substantial control over us and could delay or prevent a change in corporate control.

Incsight Limited, or Incsight, a company wholly-owned by Jun Zhu, our chairman and chief executive officer, and Bosma Limited, or Bosma, the two largest shareholders of our company, collectively own a significant percentage of our outstanding ordinary shares. Incsight and Bosma have entered into a voting agreement to vote together with respect to the election of our directors. See Item 6. Directors, Senior Management and Employees - C. Board Practices Voting Agreement. As a result, these shareholders will continue to exert significant control over all matters requiring shareholder approval, including but not limited to, the election of directors and approval of significant corporate transactions. This voting power could delay or prevent an acquisition of our company on terms that other shareholders may desire. In addition, the rights of minority shareholders and the fiduciary obligations of directors and majority shareholders in the Cayman Islands may not be as extensive as those in the United States or elsewhere, and the ability to assert shareholder rights may be comparatively limited.

New income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer.

Our subsidiaries and affiliated entities in the PRC are subject to enterprise income tax, or EIT, on the taxable income as reported in their respective statutory financial statements adjusted in accordance with the Corporate Income Tax Law of the People's Republic of China, or CIT Law, which was approved by the National People's Congress on March 16, 2007. The CIT Law went into effect as of January 1, 2008, which unified the tax rate generally applicable to both domestic and foreign-invested enterprises in the PRC. Our subsidiaries and affiliated entities in the PRC are generally subject to EIT at a statutory rate of 25%. However, some subsidiaries that are located in the Pudong New District of Shanghai and were established before March 2007 currently enjoy five-year transitional EIT rates, which equate to phase-in rates of 18%, 20%, 22%, 24% and 25% for the five years from 2008 to 2012 according to local practice. Our subsidiaries and affiliated entities that hold a High and New Technology Enterprise, or HNTE, qualification are subject to a 15% preferential EIT rate.

Table of Contents

In April 2007, China The9 Interactive (Beijing) Limited, or C9I Beijing, received approval from certain government authorities to be classified as a HNTE. This classification entitles C9I Beijing to enjoy an EIT exemption for 2007, 2008 and 2009, and a 50% reduction of the statutory rate in the three years thereafter, for which the Beijing tax authorities have granted approval. In April 2008, certain government authorities announced the new implementation rules for application and assessment of HNTE. Every qualified HNTE needs to re-apply for this qualification according to the new implementation rules. C9I Beijing re-applied for the HNTE qualification and received approval from certain government authorities. Also, Shanghai IT received approval from certain government authorities to be classified as a HNTE. This approval entitles Shanghai IT to enjoy a 15% preferential EIT rate from 2008 to 2010. The HNTE qualification is valid for a term of three years after the issuance of the approval certificate, and the enterprise is required to apply for re-examination before the end of the term. We cannot assure you that our PRC subsidiaries or affiliated entities will meet these criteria and continue to be qualified as HNTEs by the tax authorities.

Moreover, unlike the tax regulations effective before 2008, which specifically exempted withholding taxes on dividends payable to non-PRC investors from foreign-invested enterprises in the PRC, the CIT Law and its implementation rules provide that a withholding income tax rate of 10% will be applicable to dividends payable by Chinese companies to non-PRC-resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions. While the Tax Agreement between the PRC and Hong Kong provides dividends paid by a foreign-invested enterprise in the PRC to its corporate shareholder, which is considered a Hong Kong tax resident, will be subject to withholding tax at the rate of 5% of total dividends, this is limited to instances where the corporate shareholder directly holds at least 25% of the shares of the company that is to pay dividends for at least 12 consecutive months immediately prior to receiving the dividends and meets certain other criteria prescribed by the relevant regulations. Entitlement to a lower tax rate on dividends according to tax treaties or arrangements between the PRC central government and governments of other countries or regions is further subject to approval of the relevant tax authority.

Furthermore, the State Administration of Taxation promulgated the Notice on How to Understand and Determine the Beneficial Owners in Tax Agreement in October 2009, or Circular 601, which provides guidance for determining whether a resident of a contracting state is the beneficial owner of an item of income under China's tax treaties and tax arrangements. According to Circular 601, a beneficial owner generally must be engaged in substantive business activities. An agent or conduit company will not be regarded as a beneficial owner and, therefore, will not qualify for treaty benefits. The conduit company normally refers to a company that is set up for the purpose of avoiding or reducing taxes or transferring or accumulating profits. We cannot assure you that any dividends to be distributed by our subsidiaries to us or by us to our non-PRC shareholders and ADS holders whose jurisdiction of incorporation has a tax treaty with China providing a different withholding arrangement will be entitled to the benefits under the relevant withholding arrangement.

In addition, the CIT Law deems an enterprise established offshore but having its management organ in the PRC as a resident enterprise that will be subject to PRC tax at the rate of 25% on its global income. Under the Implementation Rules of the CIT Law, the term management organ is defined as an organ which has substantial and overall management and control over the manufacturing and business operation, personnel, accounting, properties and other factors. On April 22, 2009, the State Administration of Taxation further issued a notice regarding recognizing an offshore-established enterprise controlled by PRC shareholders as a resident enterprise according to its management organ. According to this notice, a foreign enterprise controlled by a PRC company or a PRC company group shall be deemed a PRC resident enterprise, if (i) the senior management and the core management departments in charge of its daily operations are mainly located and function in the PRC; (ii) its financial decisions and human resource decisions are subject to the determination or approval of persons or institutions located in the PRC; (iii) its major assets, accounting books, company seals, minutes and files of board meetings and shareholders meetings are located or kept in the PRC; and (iv) more than half of the directors or senior management with voting rights reside in the PRC.

Although our offshore companies are not controlled by any PRC company or PRC company group, we cannot assure you that we will not be deemed to be a resident enterprise under the CIT Law and thus be subject to PRC EIT on our global income.

Table of Contents

According to the CIT Law and its implementation rules, dividends are exempted from income tax if such dividends are received by a resident enterprise on equity interests it directly owns in another resident enterprise. However, foreign corporate holders of our shares or ADSs may be subject to taxation at a rate of 10% on any dividends received from us or any gains realized from the transfer of our shares or ADSs if we are deemed to be resident enterprise or if such income are otherwise regarded as income from sources within the PRC. The CIT Law empowers the PRC State Council to enact appropriate implementing rules and measures and there is no guarantee that we or our subsidiaries will be entitled to any of the preferential tax treatments. Nor can we assure you that the tax authorities will not, in the future, discontinue any of our preferential tax treatments, potentially with retroactive effect. Any significant increase in the EIT rate under the CIT Law applicable to our PRC subsidiaries and consolidated affiliated entities, including The9 Computer Technology Consulting (Shanghai) Co., Ltd., or The9 Computer, China The9 Interactive (Shanghai) Limited, or C9I Shanghai, C9I Beijing, Jiu Jing Era Information Technology (Beijing) Limited, Jiu Tuo (Shanghai) Information Technology Limited, Shanghai Jiucheng Advertisement Co., Ltd., or Shanghai Jiucheng Advertisement, and Shanghai IT or the imposition of withholding taxes on dividends payable by our subsidiaries to us, or an EIT levy on us or any of our subsidiaries or affiliated entities registered outside the PRC, or dividends or capital gains received by our shareholders due to shares or ADSs held in us will have a material adverse impact on our results of operations and financial conditions and the value of investments in us.

Strengthened scrutiny over acquisition transactions by the PRC tax authorities may have a negative impact on our acquisition strategy.

In connection with the CIT Law, the Ministry of Finance and State Administration of Taxation jointly issued, on April 30, 2009, the Notice on Issues Concerning Process of Enterprise Income Tax in Enterprise Restructuring Business, or Circular 59. On December 10, 2009, the State Administration of Taxation issued the Notice on Strengthening the Management on Enterprise Income Tax for Non-resident Enterprises Equity Transfer, or Circular 698. Both Circular 59 and Circular 698 became effective retroactively on January 1, 2008. Under the two circulars, non-PRC-resident enterprises may be subject to income tax on capital gains generated from their transfers of equity interests in PRC resident enterprises. The PRC tax authorities have the discretion under Circular 59 and Circular 698 to make adjustments to the taxable capital gains based on the difference between the fair value of the equity interests transferred and the cost of the investment. In addition, by promulgating and implementing the circulars, the PRC tax authorities have strengthened their scrutiny over the direct or indirect transfer of equity interests in a PRC resident enterprise by a non-PRC-resident enterprise. For example, Circular 698 specifies that the PRC State Administration of Taxation is entitled to redefine the nature of an equity transfer where offshore vehicles are interposed for tax-avoidance purposes and without reasonable commercial purpose. Since we pursue acquisitions as one of our growth strategies, and have conducted and may conduct acquisitions involving complex corporate structures, the PRC tax authorities may, at their discretion, adjust the capital gains or request us to submit additional documentation for their review in connection with any of our acquisitions, thus causing us to incur additional acquisition costs.

We have adopted a shareholders rights plan, which, together with the other anti-takeover provisions of our articles of association, could discourage a third party from acquiring us, which could limit our shareholders' opportunity to sell their shares, including ordinary shares represented by our ADSs, at a premium.

On January 8, 2009, our board of directors adopted a shareholder rights plan. Under the rights plan, one right was distributed with respect to each of our ordinary shares outstanding at the close of business on January 22, 2009. In the event a person or group, or the Acquiring Person (as defined in the plan), obtains beneficial ownership of 15% or more of our voting securities (including by acquisition of our ADSs representing ordinary shares), or enters into an acquisition transaction without the approval of our board of directors, these rights entitle the holders other than the Acquiring Person to purchase, for an exercise price of \$19.50, a number of shares with a value twice that of the exercise price.

Table of Contents

This rights plan and the other anti-takeover provisions of our amended and restated memorandum and articles of association could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our existing authorized ordinary shares confer on the holders of our ordinary shares equal rights, privileges and restrictions. The shareholders have, by virtue of adoption of our third amended and restated memorandum and articles of association, authorized the issuance of shares of par value of US\$0.01 each without specifying any special rights, privileges and restrictions. Therefore, our board of directors may, without further action by our shareholders, issue ordinary shares, or issue shares of such class and attach to such shares special rights, privileges or restrictions, which may be different from those associated with our ordinary shares. Preferred shares could also be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue ordinary shares or preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

We have limited business insurance coverage in China.

The insurance industry in China is still at an early stage of development. Insurance companies in China offer limited business insurance products. As a result, we do not have any business liability or disruption insurance coverage for our operations in China. Any business disruption, litigation or natural disaster might result in our incurring substantial costs and the diversion of our resources.

Some of our subsidiaries and an affiliated entity in China engaged in certain business activities beyond the authorized scope of their respective licenses, and if they are subject to administrative penalties or fines, our operating results may be adversely affected.

Some of our subsidiaries and an affiliated entity in China engaged in business activities that were not within the authorized scope of their respective licenses. For example, in 2008, The9 Computer was engaged in the distribution of WoW-related accessories, souvenirs and other merchandise. The sales that year related to such merchandise were approximately RMB0.1 million. The distribution of such merchandise, however, was not within the authorized scope of The9 Computer's business license. Shanghai IT's current ICP license, which is requisite for its online gaming business, was issued on May 4, 2010, and is effective until May 4, 2015. Although Shanghai IT's current main business is online and mobile games, it provides ancillary bulletin board service which is mainly used for communications among online game players and do not affect the operations of Shanghai IT. Shanghai IT has not obtained approval for the license for bulletin board services. The relevant PRC authorities have the authority to impose administrative fines or other penalties for their violations, which may in turn adversely affect our operating results.

Failure to achieve and maintain effective internal controls could have a material adverse effect on our business, results of operations and the trading price of our ADSs.

We are subject to reporting obligations under the U.S. securities laws. The Securities and Exchange Commission, or the SEC, as required by Section 404 of the Sarbanes-Oxley Act of 2002, has adopted rules requiring public companies to include a report of management in its annual report that contains an assessment by management of the effectiveness of such company's internal controls over financial reporting. In addition, beginning with the year ended December 31, 2007, we have been required to receive an independent registered public accounting firm's report on the effectiveness of our company's internal controls over financial reporting.

Our management has concluded that our internal controls over financial reporting are effective as of December 31, 2010. If we fail to maintain effective internal controls over financial reporting in the future, our management and our independent registered public accounting firm may not be able to conclude that we have effective internal controls over financial reporting at a reasonable assurance level. This could result in a loss of investor confidence in the reliability of our financial conditions which in turn could negatively impact the trading price of our ADSs and result in lawsuits being filed against us by our shareholders or otherwise harm our reputation. Furthermore, we have incurred and anticipate that we will continue to incur considerable costs and use significant management time and other resources in an effort to comply with Section 404 and other requirements of the Sarbanes Oxley Act.

Table of Contents***We face risks related to health epidemics and other natural disasters.***

Our business could be adversely affected by the effects of H1N1, or swine influenza, avian flu, severe acute respiratory syndrome, or SARS, or another epidemic or outbreak. An outbreak of swine influenza in Mexico in the summer of 2009 has spread to China and there have been confirmed cases of swine influenza in China. Any prolonged recurrence of swine influenza, avian flu, SARS or other adverse public health developments in China may have a material adverse effect on our business operations. Our operations may be impacted by a number of health-related factors, including, among other things, quarantines or closures of our offices which could severely disrupt our operations, the sickness or death of our key officers and employees and closure of Internet cafés and other public areas where people access the Internet. Any of the foregoing events or other unforeseen consequences of public health problems could adversely affect our business and results of operations. We have not adopted any written preventive measures or contingency plans to combat any future outbreak of swine influenza, avian flu, SARS or any other epidemic. In addition, other major natural disasters may also adversely affect our business by, for example, causing disruptions of the Internet network or otherwise affecting access to our games, or resulting in damages to our facilities.

Risks Related to Doing Business in China***Our business may be adversely affected by public opinion and government policies in China.***

Currently, most of our recurring users are young males, including students. Due to the higher degree of user loyalty to MMORPGs, easy access to PCs and Internet cafés, and lack of more appealing forms of entertainment in China, many teenagers frequently play online games. This may result in these teenagers spending less time on, or refraining from, other activities, including education and sports. Internet cafés, which are currently the most important outlets for online games, have been criticized by the general public in China as exerting a negative influence on young people. Due primarily to such adverse public reaction, some local governments in China have tightened their regulation of Internet café operations through, among other things, limiting the number of new operating licenses to be issued and further reducing the hours during which the Internet cafés are permitted to be open for business. Also, local and higher-level governmental authorities may from time to time decide to more strictly enforce the customers' age limit and other requirements relating to Internet cafés as a result of the occurrence of, and the media attention on, gang fights, arson or other incidents in or related to Internet cafés. As a significant portion of our customers access our games from Internet cafés, any restrictions placed on Internet café operations could result in a reduction of the amount of time our customers spend on our online games or a reduction or slowdown in the growth of our customer base, thus adversely affecting our business and results of operations.

In April 2007, various governmental authorities, including GAPP, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities jointly issued a circular concerning the mandatory implementation of an anti-fatigue system in online games, which aims to protect the physical and psychological health of minors. This circular required all online games to incorporate an anti-fatigue system and an identity verification system, both of which have limited the amount of time that a minor or other user may continuously spend playing an online game. We have implemented such anti-fatigue and identification systems on all of our online games as required. Since March 2011, various governmental authorities, including MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities have jointly launched the Online Game Parents Guardianship Project for Minors, which allows parents to require online game operators to take relevant measures to limit the time spent by the minors on playing online games and the minors' access to their online game accounts. Further strengthening of these systems, or enactment by the PRC government of any additional laws to further tighten its administration over the Internet and online games or its supervision of Internet cafés may result in less time spent by customers or fewer customers playing our online games, which may materially and adversely affect our business results and prospects for future growth.

Table of Contents***Adverse changes in economic and political policies of the PRC government could have a material adverse effect on the overall economic growth of China, which could adversely affect our business.***

We conduct substantially all of our business operations in China. As the gaming industry is highly sensitive to business and personal discretionary spending levels, it tends to decline during general economic downturns. Accordingly, our results of operations, financial condition and prospects are subject to a significant degree to economic, political and legal developments in China. China's economy differs from the economies of most developed countries in many respects, including with respect to the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past 20 years, growth has been uneven across different regions and among various economic sectors of China. The PRC government has implemented various measures to encourage economic development and guide the allocation of resources. While some of these measures benefit the overall PRC economy, they may also have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations that are applicable to us. As the PRC economy is increasingly intricately linked to the global economy, it is affected in various respects by downturns and recessions of major economies around the world, such as the recent financial services and economic crises of these economies. The various economic and policy measures the PRC government enacts to forestall economic downturns or shore up the PRC economy could affect our business.

The PRC economy has been transitioning from a planned economy to a more market-oriented economy. Although the PRC government has implemented measures since the late 1970s emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China are still owned by the PRC government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies. Since late 2003, the PRC government implemented a number of measures, such as raising interest rates and bank reserve requirements to place additional limitations on the ability of commercial banks to make loans, in order to contain the growth of specific segments of China's economy that it believed to be overheating. These actions, as well as future actions and policies of the PRC government, could materially affect our liquidity and access to capital and our ability to operate our business.

The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected.

The online game industry in China is highly regulated by the PRC government. Various regulatory authorities of the PRC central government, such as the State Council, MIIT, GAPP, the Ministry of Culture and the Ministry of Public Security, are empowered to issue and implement regulations governing various aspects of the online games industry. We are required to obtain applicable permits or approvals from different regulatory authorities in order to provide online games to our customers. For example, an Internet content provider must obtain an ICP license in order to engage in any commercial ICP operations within China. In addition, an online games operator must also obtain a license from the Ministry of Culture and a license from GAPP in order to distribute games through the Internet. Furthermore, an online game operator is required to obtain approval from the Ministry of Culture in order to distribute virtual currencies for online games such as prepaid value cards, prepaid money or game points. If we fail to maintain any of these required permits or approvals, we may be subject to various penalties, including fines and the discontinuation or restriction of our operations. Any such disruption in our business operations would materially and adversely affect our financial condition and results of operations.

Table of Contents

As the online games industry is at an early stage of development in China, new laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have, and may address new issues that arise from time to time. For example, a new rule issued in June 2009 requires existing online game operators, such as our company, to obtain additional approval from the Ministry of Culture for the issuance of virtual currencies to users for online game services within three months. We obtained the approval on November 20, 2009. As a result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to the online gaming industry. However, we cannot assure you that we will be able to timely obtain any new license required in the future, or at all. While we believe that we are in compliance in all material respects with all applicable PRC laws and regulations currently in effect, we cannot assure you that we will not be found in violation of any current or future PRC laws and regulations.

Intensified government regulation of Internet cafés could limit our ability to maintain or increase our revenues and expand our customer base.

In April 2001, the PRC government began tightening its supervision of Internet cafés, closing down unlicensed Internet cafés, and required those remaining open to install software to prevent access to sites deemed subversive and required web portals to sign a pledge not to host subversive sites. Furthermore, the PRC government's policy, which encourages the development of a limited number of national and regional Internet café chains and discourages the establishment of independent Internet cafés, may slow the overall growth of Internet cafés. Currently, the issuance of Internet café licenses is subject to the overall planning of the Ministry of Culture and the local governments in respect of the total number and location of Internet cafés. Since 2004, the grant of new Internet café licenses has been suspended from time to time, and was again suspended in 2007. We have not been expressly notified of any suspensions in 2010, but the PRC government maintains strict controls on the granting of new licenses. As Internet cafés are the primary venue for users to play our games, any reduction in the number, or any slowdown in the growth of, Internet cafés in China will limit our ability to maintain or increase our revenues and expand our customer base, which will in turn materially and adversely affect our business and results of operations.

Regulation and censorship of information disseminated over the Internet in China may adversely affect our business, and we may be liable for information displayed on, retrieved from, or linked to our Internet websites.

The PRC government has adopted certain regulations governing Internet access and the distribution of news and other information over the Internet. Under these regulations, Internet content providers and Internet publishers are prohibited from posting or displaying over the Internet content that, among other things, violates PRC laws and regulations, impairs the national dignity of China, or is obscene, superstitious, fraudulent or defamatory. Failure to comply with these requirements could result in the revocation of ICP and other required licenses and the closure of the concerned websites. The website operator may also be held liable for such prohibited information displayed on, retrieved from or linked to such website.

The Ministry of Culture has promulgated laws and regulations that reiterate the government's policies to prohibit the distribution of games with violence, terror, cruelty or other elements that are believed to have the potential effect of instigating crimes, and to prevent the influx of harmful cultural products from overseas. The relevant regulations require, among other things, the review and prior approval of all new online games licensed from foreign game developers and related license agreements, the review of patches and updates for approved games which introduce substantial changes, and the filing of domestically developed online games. We obtained the necessary approvals from and completed necessary filings with the Ministry of Culture for operating Soul of The Ultimate Nation, or SUN, EA Sports FIFA Online 2, Atlantica, World of Fighter, Kingdom Heroes 2 Online and Winning Goal in China. We will submit new games for the required review or filing from time to time as required. The Ministry of Culture may find the content of our new licensed games objectionable, and we may otherwise be unable to obtain the approvals for these games in a timely manner, or at all. If this happens, we will not be able to launch our new licensed games within the expected timeframe or at all, and our business and results of operations could be materially adversely affected.

Table of Contents

In addition, MIIT has published regulations that subject website operators to potential liability for content included on their websites and the actions of users and others using their websites, including liability for violations of PRC laws prohibiting the dissemination of content deemed to be socially destabilizing. The Ministry of Public Security has the authority to order any local Internet service provider to block any Internet website maintained outside China at its sole discretion. Periodically, the Ministry of Public Security has stopped the dissemination over the Internet of information which it believes to be socially destabilizing. The State Secrecy Bureau, which is directly responsible for the protection of State secrets of the PRC government, is authorized to block any website it deems to be leaking state secrets or failing to meet the relevant regulations relating to the protection of state secrets in the dissemination of online information.

As these regulations are relatively new and subject to interpretation by the relevant authorities, it may not be possible for us to determine in all cases the type of content that could result in liability for us as a website operator. In addition, we may not be able to control or restrict the content of other Internet content providers linked to or accessible through our websites, or content generated or placed on our websites by our users, despite our attempt to monitor such content. To the extent that regulatory authorities find any portion of our content objectionable, they may require us to limit or eliminate the dissemination of such information or otherwise curtail the nature of such content on our websites, which may reduce our user traffic and have a material adverse effect on our financial condition and results of operations. In addition, we may be subject to significant penalties for violations of those regulations arising from information displayed on, retrieved from or linked to our websites, including a suspension or shutdown of our operations.

Future movements in exchange rates between the U.S. dollar and the RMB may adversely affect the value of our ADSs.

We are exposed to foreign exchange risk arising from various currency exposures. Our payments to overseas game developers and a portion of our financial assets are denominated in U.S. dollars while almost all of our revenues are denominated in RMB, the legal currency in China. We have not used any forward contracts or currency borrowings to hedge our exposure to foreign currency risk. The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions and China's foreign exchange policies. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the RMB to the U.S. dollar. Under the new policy, the RMB is permitted to fluctuate within a managed band based on market supply and demand and by reference to a basket of certain foreign currencies. This change in policy has resulted in an approximately more than 20% appreciation of the RMB against the U.S. dollar over the following five years.

Our revenues and costs are mostly denominated in RMB, while a portion of our financial assets are denominated in U.S. dollars. We rely substantially on dividends and other fees paid to us by our subsidiaries and affiliated entities in China. Any significant appreciation of RMB against the U.S. dollar may adversely affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. For example, an appreciation of RMB against the U.S. dollar would make any new RMB denominated investments or expenditures more costly to us, to the extent that we need to convert U.S. dollars into RMB for such purposes.

Restrictions on currency exchange in China limit our ability to utilize our revenues effectively, make dividend payments and meet our foreign currency denominated obligations.

Because substantially all of our revenues are in RMB, restrictions on currency exchange in China limit our ability to utilize revenue generated in RMB to fund our business activities outside China, make dividend payments in U.S. dollars, or obtain and remit sufficient foreign currency to satisfy our foreign currency-denominated obligations, such as paying license fees and royalty payments. The principal regulation governing foreign currency exchange in China is the Foreign Currency Administration Rules (1996), as amended. Under such rules, the RMB is freely convertible for trade and service-related foreign exchange transactions, but not for direct investment, loans or investment in securities outside China unless the prior approval of SAFE is obtained. Although the PRC government regulations now allow greater convertibility of RMB for current account transactions, significant restrictions still remain. For example, foreign exchange transactions under our PRC subsidiaries' capital account, including principal payments in respect of foreign currency-denominated obligations, remain subject to significant foreign exchange controls and the approval of SAFE. These limitations could affect our ability to obtain foreign exchange for capital expenditures. We cannot be

certain that the PRC regulatory authorities will not impose more stringent restrictions on the convertibility of the RMB, especially with respect to foreign exchange transactions.

Table of Contents

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries' ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

On October 21, 2005, SAFE issued the Notice on Issues Relating to the Administration of Foreign Exchange in Fund-raising and Reverse Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or Notice 75, which became effective as of November 1, 2005. According to Notice 75, prior registration with the local SAFE branch is required for PRC residents to establish or to control an offshore company for the purposes of financing that offshore company with assets or equity interests in an onshore enterprise located in the PRC. An amendment to registration or filing with the local SAFE branch by such PRC resident is also required for the injection of equity interests or assets of an onshore enterprise in the offshore company or overseas funds raised by such offshore company, or any other material change involving a change in the capital or assets of the offshore company.

Moreover, Notice 75 applies retroactively. As a result, PRC residents who have established or acquired control of offshore companies that have made onshore investments in the PRC in the past are required to complete the relevant registration procedures with the local SAFE branch by March 31, 2006. Under the relevant rules, failure to comply with the registration requirements set forth in Notice 75 or the rules implementing Notice 75 may result in restrictions being imposed on the foreign exchange activities of the relevant onshore company, including the increase of its registered capital, the payment of dividends and other distributions to its offshore parent or affiliate and the capital inflow from the offshore entity, and may also subject the relevant onshore companies and PRC residents to penalties under PRC foreign exchange administration regulations.

Since May 2007, SAFE has further issued relevant guidance to its local branches with respect to the operational process for SAFE registration, which standardized more specific and stringent supervision on the registration relating to Notice 75 and imposed obligations on onshore subsidiaries of offshore special purpose companies to coordinate with and supervise the beneficial owners of the offshore entity who are PRC residents to complete the SAFE registration process and to disclose or make reports to SAFE for such shareholdings of PRC residents in certain circumstances.

We have requested all of our shareholders who, based on our knowledge, are PRC residents or whose ultimate beneficial owners are PRC residents to comply with all applicable SAFE registration requirements. However, we have no control over our shareholders. We cannot assure you that the PRC beneficial owners of our company and our subsidiaries have completed the required SAFE registrations or complied with other related requirements. Nor can we assure you that they will be in full compliance with the SAFE registration in the future. Any non-compliance by the PRC beneficial owners of our company and our subsidiaries may subject us or such PRC resident shareholders to fines and other penalties. It may also limit our ability to contribute additional capitals to our PRC subsidiaries and our subsidiaries' ability to distribute profits or make other payments to us.

Uncertainties with respect to the PRC legal system could adversely affect us.

We conduct our business primarily through our subsidiaries and affiliated entities incorporated in China. These entities are generally subject to laws and regulations applicable to foreign investment in China and, in particular, laws applicable to wholly-foreign owned enterprises. In addition, we depend on Shanghai IT to honor its service agreement with us. Almost all of these agreements are governed by PRC law and disputes arising out of these agreements are expected to be decided by arbitration in China. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value. Since 1979, PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China. However, since the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involves uncertainties, which may limit legal protections available to us. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention.

Table of Contents***The limited use of personal computers in China and the relatively high cost of Internet access with respect to per capita gross domestic product may limit the development of the Internet in China and impede our growth.***

Although the use of personal computers in China has increased in recent years, the penetration rate for personal computers in China is significantly lower than in the United States and other developed countries. Furthermore, despite a decrease in the cost of Internet access in China due to a decrease in the cost of personal computers and the introduction and expansion of broadband access, the cost of Internet access in China still remains relatively high compared to the average per capita income. The limited use of personal computers in China and the relatively high cost of Internet access may limit the growth of our business. In addition, there is no assurance that there will not be any increase in Internet access or telecommunication fees in China. If that happens, the number of our users may decrease and the growth of our user base may be materially impeded.

The continued growth of China's Internet market depends on the establishment of adequate telecommunications infrastructure.

Although private sector Internet service providers currently exist in China, almost all access to the Internet is maintained through state-owned telecommunication operators under the administrative control and regulatory supervision of China's MIIT. In addition, the national networks in China connect to the Internet through government-controlled international gateways. These government-controlled international gateways are the only channel through which a domestic PRC user can connect to the international Internet network. We rely on this infrastructure to provide data communications capacity primarily through local telecommunications lines. Although the government has announced plans to aggressively develop the national information infrastructure, we cannot assure you that this infrastructure will be developed as planned or at all. In addition, we will have no access to alternative networks and services, on a timely basis if at all, in the event of any infrastructure disruption or failure. The Internet infrastructure in China may not support the demands necessary for the continued growth in Internet usage.

Risks Related to Our Shares and ADSs***We were a passive foreign investment company for the taxable year ended December 31, 2010, which could result in adverse United States federal income tax consequences to U.S. Holders of our ADSs or ordinary shares.***

Based on the market price of our ADSs and the value and composition of our assets, we believe we were a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for our taxable year ended December 31, 2010. In addition, it is likely that one or more of our subsidiaries were also PFICs for such year. A non-U.S. corporation will be a PFIC for any taxable year if either (1) at least 75% of its gross income for such year is passive income, or (2) at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income. We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the PFIC test will generally be determined by reference to the market price of our ADSs or ordinary shares, our PFIC status will depend in large part on the market price of the ADSs or ordinary shares, which may fluctuate significantly. Because we believe we were a PFIC for the taxable year ended December 31, 2010, certain adverse U.S. federal income tax consequences could apply to U.S. Holders (as defined in Item 10. Additional Information E. Taxation United States Federal Income Taxation) of our ADSs or ordinary shares with respect to any excess distribution received from us and any gain from a sale or other disposition of the ADSs or ordinary shares. See Item 10. Additional Information E. Taxation United States Federal Income Taxation Passive Foreign Investment Company.

Table of Contents

The future sales or issuance of a substantial number of our ADSs or ordinary shares could adversely affect the price of our ADSs.

If our shareholders sell substantial amounts of our ADSs, including those issued upon the exercise of outstanding options, in the public market, the market price of our ADSs could fall. Such sales also might make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate. If any existing shareholder or shareholders sell a substantial amount of ordinary shares, the prevailing market price for our ADSs could be adversely affected.

In addition, we may issue additional ordinary shares or ADSs for future acquisitions. If we pay for our future acquisitions in whole or in part with additionally issued ordinary shares or ADSs, your ownership interest in our company would be diluted and this, in turn, could have a material adverse effect on the price of our ADSs.

The market price for our ADSs may be volatile.

The market price for our ADSs is likely to be highly volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly operating results;
- announcements of new games by us or our competitors;
- changes in financial estimates by securities analysts;
- price fluctuations of publicly traded securities of other China-based companies engaging in Internet-related services or other similar businesses;
- conditions in the Internet or online game industries;
- changes in the economic performance or market valuations of other Internet or online game companies;
- announcements by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- fluctuations in the exchange rates between the U.S. dollar and the RMB;
- addition or departure of key personnel; and
- pending and potential litigation.

In addition, the securities market has from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our ADSs.

You may face difficulties in protecting your interests, and our ability to protect our rights through the U.S. federal courts may be limited, because we are incorporated under Cayman Islands law.

Our corporate affairs are governed by our memorandum and articles of association and by the Companies Law (2010 Revision) and common law of the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedents in the United States. In particular, the Cayman Islands has a less developed body of securities laws as compared to the United States, and provides significantly less protection to investors. Therefore, our public shareholders may have more difficulties protecting their interests in the face of actions by our management, directors or controlling shareholders than would shareholders of a corporation incorporated in a jurisdiction in the United States. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action before the federal courts of the United States. As a result, our shareholders may not be able to protect their interests if they are harmed in a manner that would otherwise enable them to sue in a United States federal court.

Table of Contents

Your ability to bring an action against us or against our directors and officers, or to enforce a judgment against us or them, will be limited because we are incorporated in the Cayman Islands, because we conduct a substantial portion of our operations in China and because the majority of our directors and officers reside outside of the United States.

We are incorporated in the Cayman Islands, and we conduct a substantial portion of our operations through our wholly-owned subsidiaries and affiliated entities in China. Most of our directors and officers reside outside of the United States and most of the assets of those persons are located outside of the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the Cayman Islands or in China in the event that you believe that your rights have been infringed under the securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers.

You may not be able to exercise your right to vote.

As a holder of ADSs, you may instruct the depository of our ADSs to vote the shares underlying your ADSs but only if we ask the depository to request your instruction. Otherwise, you will not be able to exercise your right to vote unless you withdraw the shares. However, you may not know about a shareholders' meeting enough in advance to withdraw the shares. Pursuant to our amended and restated memorandum and articles of association, a shareholders' meeting may be convened by us on seven business days' notice. If we ask for your instructions, the depository will notify you of the upcoming vote and arrange to deliver our voting materials to you. We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depository to vote your shares. Pursuant to the amended and revised Deposit Agreement dated November 2010 that we entered into with our depository, if after complying with the procedures set forth in the agreement, the depository does not receive instructions from the owner of a receipt on or before the instruction date, the depository shall vote such deposited securities in accordance with the recommendations of our board of directors as advised by our company in writing. In addition, the depository and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions, if any such action or nonaction is in good faith. This means that you may not be able to exercise your right to vote and there may be nothing you can do if the shares underlying your ADSs are not voted as you request.

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register the rights and the securities to which the rights relate under the Securities Act of 1933, as amended, or the Securities Act, or an exemption from the registration requirements is available. Also, under the deposit agreement, the depository bank will not make rights available to you unless the distribution to ADS holders of both the rights and any related securities are either registered under the Securities Act, or exempt from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. The depository may, but is not required to, sell such undistributed rights to third parties in this situation. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

Table of Contents

You may not receive distributions on ordinary shares or any value for them if it is illegal or impractical to make them available to you.

The depository of our ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian receives on ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of ordinary shares your ADSs represent. However, the depository is not responsible if it decides that it is unlawful or impractical to make a distribution available to any holders of ADSs. We have no obligation to register ADSs, ordinary shares, rights or other securities under U.S. securities laws. We also have no obligation to take any other action to permit the distribution of ADSs, ordinary shares, rights or anything else to holders of ADSs. This means that you may not receive the distribution we make on our ordinary shares or any value for them if it is illegal or impractical for us to make them available to you. These restrictions may have a material adverse effect on the value of your ADSs.

You may be subject to limitations on transfer of your ADSs.

Your ADSs represented by the ADRs are transferable on the books of the depository. However, the depository may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depository may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depository are closed, or at any time if we or the depository deem it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

ITEM 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

We were incorporated in the Cayman Islands on December 22, 1999 under the name GameNow.net Limited and were renamed The9 Limited in February 2004. We formed GameNow.net (Hong Kong) Limited, or GameNow, on January 17, 2000, as a wholly-owned subsidiary. We have historically conducted our operations in large part through The9 Computer, a direct wholly-owned subsidiary of GameNow in China.

Due to the current restrictions on foreign ownership of Internet content provision, Internet culture operation and advertising businesses in China, we rely on the following two affiliated PRC entities in holding certain licenses and approvals necessary for our business operations through a series of contractual arrangements with Shanghai IT and its shareholders:

Shanghai IT, which holds Internet content provision, Internet culture operation and Internet publishing licenses;

Shanghai Jiucheng Advertisement, whose business license permits it to conduct advertisement operations.

In December 2010, we incorporated Huopu Cloud to provide services for our online game operations and website solutions.

Shanghai IT is owned by Jun Zhu, our chairman and chief executive officer and shareholder, and Yong Wang, our vice president. Shanghai Jiucheng Advertisement is a subsidiary of Shanghai IT, and was incorporated in April 2007. Huopu Cloud is owned by Junping Han, our senior legal director, and Wei Xiong, our finance director. We do not have any ownership interest in Shanghai IT, Shanghai Jiucheng Advertisement or Huopu Cloud. However, each of the individual shareholders of Shanghai IT and Huopu Cloud has entered into a shareholder voting proxy agreement with us, under which each such shareholder has irrevocably granted us the power to exercise voting rights on all matters to which he is entitled to vote. Each such shareholder has also entered into a call option agreement with us, pursuant to which we and/or any other parties designated by us would be entitled to acquire all or part of the equity interests in Shanghai IT and Huopu Cloud to the extent permitted by the then-effective PRC laws and regulations, for the minimum

Table of Contents

amount of consideration permissible under applicable PRC laws and regulations. From 2001 to May 2005, we extended interest-free loans in an aggregate amount of RMB23.0 million to the shareholders of Shanghai IT, in connection with capitalizing and increasing the registered capital of Shanghai IT. In December 2010, we extended interest-free loans in an aggregate amount of RMB50.0 million to the shareholders of Huopu Cloud, in connection with capitalizing the registered capital of Huopu Cloud. These loans are repayable upon demand. The existing shareholders of Shanghai IT and Huopu Cloud, Jun Zhu and Yong Wang, Junping Han and Wei Xiong, have pledged all of their equity interests in Shanghai IT and Huopu Cloud in favor of us under an equity pledge agreement, respectively. Each of the shareholders of Shanghai IT and Huopu Cloud has registered the pledge of its equity interests with the relevant local administration for industry and commerce pursuant to the new PRC Property Rights Law. In the event of a breach of any term in the loan agreement or any other agreement by either Shanghai IT or Huopu Cloud or their shareholders, we will be entitled to enforce our rights as a pledgee under the equity pledge agreement.

Our principal executive office is located at Building No. 3, 690 Bibo Road, Zhangjiang Hi-Tech Park, Pudong New Area, Shanghai 201203, People's Republic of China, and our telephone number is +86-21-5172-9999. Our registered office in the Cayman Islands is located at the offices of CARD Corporate Services Ltd, Zephyr House, Mary Street, PO Box 709 George Town, Grand Cayman. Our agent for service of process in the United States is CT Corporation System located at 111 Eighth Avenue, New York, New York 10011.

In addition to our operational headquarters in Shanghai, we currently have small branch offices in Beijing, Chengdu, Nanjing, Shenyang, Wuhan and Xi'an.

For the list of licensed and proprietary games of our company as of the date of this annual report, see **B. Business Overview** Products and Services.

Strategic Investment in Third-Party Companies

Investment in Red 5. In April 2010, we completed the acquisition of a majority equity interests in Red 5, an online game developer based in the United States. We then continued to acquire more common stocks of Red 5 from its existing shareholders. As a result of these transactions, we now own approximately 87% of the equity interest of Red 5 on an-as-converted basis. Red 5 currently develops Firefall, a MMOFPS game.

Investment in OpenFeint. In July 2010, we strategically acquired a minority equity interest in OpenFeint, a Delaware corporation. In December 2010, we secured a five-year license from OpenFeint to use its mobile social gaming platform software in China. The software is one of the most successful mobile social gaming platform software for iOS and Android devices in the world. OpenFeint's software, SDK, is a toolkit that can be integrated in any iOS and Android-based game. More than 18,000 mobile game developers are registered to integrate OpenFeint's SDK into their games and there are over 73 million registered users and approximately 5,200 games in the Apple App Store and Google Market running on OpenFeint's platform. We expect to make full use of the OpenFeint's software to build and operate a mobile social gaming platform in China.

B. Business Overview

We primarily operate MMORPGs and other games that we own or license in China. Since February 2005, we have launched, among others, 7 MMORPGs and 4 other games. We commercially launched WoW, a MMORPG licensed from Blizzard Entertainment, Inc., in China in June 2005 through C9I Shanghai and Shanghai IT. Since WoW's commercial launch, we had relied on the game as a major source of revenue. After the non-renewal of the WoW license, we continued to operate our other licensed and proprietary games, such as SUN, Atlantica, Kingdom Heroes 2 Online, World of Fighter and Winning Goal. We will focus on and devote substantial resources to our research and development efforts to develop our proprietary games. Our goal is to further expand the size and capabilities of our development team by recruiting additional talented program developers, game designers and graphic artists. We also plan to introduce new game features and improve operations infrastructure to meet evolving customer tastes and expectations. In addition, as part of our business strategies, we will continue to explore the opportunities to acquire online game studios that have strong game development capabilities. As mobile games have become increasingly popular in China, we also plan to develop mobile social gaming platform business. In December 2010, we entered into a license agreement with OpenFeint to use its mobile social gaming platform software in China.

Table of Contents

For a description of the games we licensed or operated as of December 31, 2010, see **B. Business Overview** **Products and Services**.

We are expanding our own product development capabilities to develop a suite of proprietary online games, including MMORPGs. Because MMORPGs require a significant amount of time to master, they tend to have a high degree of user attraction, which means that users tend to spend greater amounts of time playing these games than using other Internet applications. Our proprietary game, World of Fighter, a 2D MMORPG, was commercially launched in January 2010. Our other proprietary game, Winning Goal, a web and SNS game, was commercially launched in China in July 2010. We will continue to develop other new games in the future. In addition, we are vigorously pursuing additional game acquisition, development and licensing agreement opportunities. We have been increasingly relying on our acquired subsidiaries, such as Red 5 to develop Firefall, a MMOFPS game. Since our acquisition of Red 5 in April 2010, Red 5 has been substantially devoting its operating activities to the development of Firefall. Red 5 had entered into a game development and licensing agreement with a third-party operator in February 2006, which was amended in May 2009. Pursuant to the amended agreement, the third party operator owns the rights to operate Firefall in certain countries. We also rely on our consolidated subsidiary Fire Rain to develop ShenXianZhuan, a MMORPG. We generated our online game service revenues primarily through an item-based revenue model, under which players can play the games for free, but they are charged for purchases of in-game items, such as performance-enhancing items, clothing and accessories. Our customers typically access our online games through PCs at home or in Internet cafés. They obtain in-game items primarily through purchasing our prepaid cards at various retail outlets or purchasing online points at one of the more than 100,000 Internet cafés throughout China, which have subscribed to our internally developed Pass9 system. Pass9 is a proprietary, fully integrated online membership management and payment system, which offers one-stop account management and payment services to our customers and facilitates our payment arrangements with distributors and Internet cafés.

To ensure quality customer service and seamless operations, we maintain a powerful technology platform consisting of numerous servers and network devices located in eleven internet data centers throughout China.

Products and Services

We offer online games including MMORPGs, web and SNS games, from both licensing and developing. Our other products and services include developing and maintaining games operated on internet protocol television, or IPTV, SMS, licensing of proprietary games and game operating support, website solutions and advertising services.

In a typical MMORPG, thousands of players play in the same game world at the same time. MMORPG players can select a specific character to compete with in the game with which they develop experience and enhance game attributes, which can be carried over into the next higher game levels. MMORPGs incorporate many cutting-edge technology features, including:

- sophisticated 2D, 2.5D or 3D graphics which expose players to captivating screen scenes;
- player upgrading system which allows players to attain higher game attributes with their characters as they develop experience and enhanced game capabilities over time; and
- instant messaging system which allows players to communicate with each other during the game and form groups with other players, thereby coordinating their game skills to achieve collective objectives.

Table of Contents

As of December 31, 2010, we owned or had exclusive licenses to operate the following major MMORPGs, web and SNS games and other games in China:

Game	Developer/Licensor	Description	Status
SUN	Webzen, Inc.	3D MMORPG	Commercially launched in China in May 2007
EA Sports FIFA Online 2	EA Swiss Sàrl	Casual soccer game	Commercially launched in China in May 2009
Atlantica	Ndoors Corporation	3D MMORPG	Commercially launched in China in June 2009
World of Fighter	The9	2D MMORPG	Commercially launched in China in January 2010
Kingdom Heroes 2 Online	USERJOY Technology Co., Ltd.	3D MMORPG	Commercially launched in China in May 2010
Winning Goal	The9	Web and SNS game	Commercially launched in China in July 2010
ShenXianZhuan	Hangzhou Fire Rain Network Technology Co., Ltd.	2.5D MMORPG	Preparing for beta testing
Planetside 2	Sony Online Entertainment LLC	3D MMOFPS game	In localization process
Free Realms	Sony Online Entertainment LLC	3D cartoon fairy online game	In localization process
Seoyugi	NNG Lab/ CJ Internet Corporation	2D MMORPG	In localization process

Our license agreement with HanbitSoft and IMC Games Co., Ltd. to operate GE expired in November 2010. Our license agreement with T3 Entertainment Co., Ltd. for Audition 2 was terminated in November 2010.

License of SUN from Webzen. In December 2005, we entered into an agreement with Webzen, a video game developer in South Korea, pursuant to which we obtained an exclusive license from Webzen to operate SUN, a 3D MMORPG, in mainland China. SUN was commercially launched in May 2007. Our license to operate SUN was renewed on May 24, 2010.

License of Atlantica from Ndoors. In April 2008, we entered into an agreement with Ndoors pursuant to which we obtained an exclusive license from Ndoors to operate the Atlantica game, a 3D MMORPG, in mainland China. The game was commercially launched in mainland China in June 2009.

Licensing to Third-Parties of World of Fighter. In May 2009, we entered into a license agreement for World of Fighter, which entitles a game operator to operate the game in Taiwan. We also licensed the game to game operators in South Korea in December 2009, in Vietnam in March 2010 and in Thailand in June 2010. The game was commercially launched in mainland China in January 2010. We also prepare for the operation of the game in the United States through our wholly-owned subsidiary, The9 Interactive, Inc., a Delaware corporation.

Table of Contents

License of Kingdom Heroes 2 Online from USERJOY. In July 2009, we entered into an agreement with USERJOY an online game developer in Taiwan, pursuant to which we obtained an exclusive license from USERJOY to operate Kingdom Heroes 2 Online in mainland China. The game was commercially launched in China in May 2010.

License of ShenXianZhuan from Fire Rain and Investment in Fire Rain. In February 2009, we invested, through Shanghai IT, in Fire Rain and obtained a 20% equity interest. We have a call option to acquire part or all of the other 80% equity interest at a pre-determined price within 24 months from the commercial launch of the games developed by Fire Rain. Pursuant to our agreement with Fire Rain, we obtained an exclusive license from Fire Rain to operate ShenXianZhuan, a 3D MMORPG, in mainland China. In January 2010, we entered into an agreement with the founders of Fire Rain to acquire an additional 5% equity interest to increase our shareholding in Fire Rain to 25%. In 2011, Shanghai IT transferred all its equity interests in Fire Rain and its rights relating to the license of ShenXianZhuan to Huopu Cloud.

License of Seoyugi from CJ Internet Corporation and NNG Lab. In November 2010, we entered into a license agreement with CJ Internet Corporation as licensor and NNG Lab as developer, pursuant to which we obtained an exclusive license to operate Seoyugi in mainland China.

Development of Winning Goal. We commercially launched our proprietary game Winning Goal in June 2010 in both SNS and web versions. We have licensed Winning Goal to game operators for operating the game in Germany, Japan, Korea, Poland, the United States and other countries.

License of EA Sports FIFA Online 2 from EA Swiss Sàrl. In May 2007, we obtained from EA Swiss Sàrl an exclusive license to operate the EA Sports FIFA Online 2 game in mainland China. The game was commercially launched in mainland China in May 2009. In December 2010, we entered into an agreement with EA Swiss Sàrl to prematurely terminate the EA Sports FIFA Online 2 license, which would otherwise have expired in May 2012, and to cease commercial operation of the game in China. We expect that we will cease to operate the game in China in 2011.

License of Free Realms and Planetside 2 from Sony Online Entertainment LLC. In June 2010, we obtained an exclusive license from Sony Online Entertainment LLC, an online game developer, to operate Free Realms and Planetside 2 in mainland China and Hong Kong. In February 2011, we, through our wholly-owned subsidiary, The9 Korea Co., Ltd., obtained an exclusive license from Sony Online Entertainment LLC to operate Free Realms, Planetside 2 and PoxNora, a MMORPG, in South Korea.

Web Game Platform. We also set up a web game platform www.9c.com, which enables our customers to access a wide range of web games including Winning Goal and other web games we jointly operate with other game companies.

In preparation for the commercial launch of a new game, we conduct closed beta testing of the game to resolve operational matters, which is followed by open beta testing in which we allow our registered users to play without removing their in-game data to ensure performance consistency and stability of operating systems. We can start to charge users at open beta testing or at a later stage at our discretion.

Our online games offer ongoing play experience which allows our users to play the game online 24 hours a day, seven days a week. Our users can access our online games from any location with an Internet connection. Substantially all of our users in China access the game servers either from PCs at home or at Internet café equipped with multiple personal computers that have Internet access. Currently, a significant portion of our users access the game through Internet cafés throughout China which sell prepaid game cards or prepaid game points to their customers. To offset the impact of the limited use of online and credit card payment systems in China, we have introduced a prepaid game playing time purchase and management system, Pass9. See B. Business Overview Membership Management and Payment System.

Table of Contents

Other Products and Services. Our other products and services mainly consist of internet protocol television services or IPTV services, SMS service, licensing of our proprietary games to third parties, our game operating support, website solutions and advertising services, and mobile game platform.

IPTV Services. We have contracts with several Chinese telecom carriers for development and maintenance of games operated on IPTV.

SMS. Leveraging our existing user base, we offer several different SMS products and subscription packages that enable our users to, among other things, transmit and receive SMS messages, receive password protection and other value-added services.

Licensing of Proprietary Games. In May 2009, we entered in to a license agreement for World of Fighter, which entitles a game operator in Malaysia the right to operate the game in Taiwan. We licensed World of Fighter to a game operator in Hong Kong in May 2009, giving it the right to operate the game in Hong Kong and Macau. In addition, we licensed the game to game operators in South Korea in December 2009 and in Vietnam in March 2010.

Game Operating Support, Website Solutions and Advertising Services. Our game operating support, website solutions and advertising services primarily relate to providing game operating support, including payment collection and processing and other online game related technical support.

Mobile Game Platform. We established a mobile business unit in April 2010 and started to expand our business into the mobile internet field. In July 2010, we made a strategic minority equity investment in OpenFeint, the developer and operator of a leading mobile social gaming network. In December 2010, we also entered into a license agreement with OpenFeint to use its mobile social gaming platform software in China for a five-year term.

Membership Management and Payment System

We pioneered the establishment of Pass9 in China, an integrated membership management and payment system in early 2001, which allows us to maintain a single customer database that contains each customer's profile and payment history. Pass9 provides one-stop service to our customers, distributors and developers. Pass9 provides our customers with an integrated platform to log in, pay and use any of the fee-based products and services we offer. It also allows our distributors to sell our online points to Internet cafés, and enables Internet cafés to check the balance of their points and pay us on their customers' behalf. In addition, Pass9 provides our game development partners with a simple interface to integrate their games to our system.

Our integrated membership management and payment system also incorporates a variety of community-building features, such as chat rooms, which provide registered users a platform to interact in real-time groups or one-on-one discussions, and bulletin boards which allow registered users to post notes or inquiries and respond to other users notes or inquiries. We believe these features encourage user congregation on our site and facilitate player interaction for the games we offer.

Customer Service

Since our inception, we have focused on providing excellent customer service in order to retain our existing customers as well as to attract new customers. In November 2003, we received a 9001 service quality authentication certificate from the International Organization for Standardization. We believe that we are the first online game operator in China to receive such a certificate. Our online games customers can access our customer service center via phone or e-mail at any time, or visit our visitor center in Shanghai during normal business hours.

We have in-game game masters dedicated to each of the online games that we operate. Game masters are responsible for organizing in-game events, troubleshooting and actively and continuously monitoring the online game environment. Game masters are available to respond to players' inquiries, initiate the bug reporting and removal process, as well as to identify, record and deal with players' inappropriate behavior such as cheating and fighting. We believe that our provision of game masters to monitor the gaming environment is an important element in maintaining our customer loyalty and efficiently addressing technical problems as they arise.

Table of Contents

Purchase of In-game Items

A customer can purchase in-game items through any of the following methods:

Prepaid Cards. A customer can buy prepaid cards at retail outlets including convenience stores, supermarkets and bookstores across China.

Prepaid Online Points. Over 100,000 Internet cafés across China have subscribed to our self-developed eSales System, which is part of our Pass9 system and enables an Internet café to buy prepaid online points from our distributors and in turn sell these same points to their customers.

Online Payment. A customer can access online games free of charge and buy in-game items online by charging payment directly to a credit or debit card.

Pricing, Distribution and Marketing

Pricing. We determine the pricing of a game near the end of the free testing period based on several factors, including the prices of other comparable games, the technological and other features of the game, and the targeted marketing position of the game. Our prepaid game cards are offered in a variety of denominations to provide users with maximum flexibility.

Distribution. Due to the limited availability of online payment systems in China, a substantial portion of our sales are carried out via a distribution network composed of third-party distributors. We sell our in-game items and game playing time primarily through sales of our online game points to end users via Beijing HuiyuanNet Technology Co., Ltd., a national online distributor. Beijing HuiyuanNet Technology Co., Ltd. sells its prepaid cards to over 20,000 local distributors and Internet cafés throughout China, which in turn sell them to end users. End users can purchase our online game points with the prepaid cards. In addition, we also directly sell game points through our game players online accounts.

Marketing. Our overall marketing strategy is to rapidly attract new customers and increase revenues from recurring customers. The marketing programs and promotional activities that we employ to promote our games include:

Advertising and Online Promotion. We place advertisements in many game magazines and on online game sites, which are updated regularly.

Cross-Marketing. We have cross-marketing relationships with major consumer brands, technology companies and major telecom carriers. We believe that our cross-marketing relationships with well-known companies will increase the recognition of our online game brands.

On-Site Promotion. We distribute free game-related posters, promotional prepaid cards for beginners, game-related souvenirs such as watches, pens, mouse pads and calendars at trade shows, selected Internet cafés and computer stores.

In-Game Marketing. We conduct in-game marketing programs from time to time, including online adventures for grand prizes.

Game Development and Licensing

We believe that the online game industry in China will continue its recent pattern of developing increasingly sophisticated online games tailored to the local market. In order to remain competitive, we are focusing on developing new proprietary online games. Currently, our product development team is responsible for game design, technical development and art design. We also plan to further enhance our game development capability and diversify our game portfolio and pipeline through selective game studio acquisitions.

Table of Contents

Our licensing process begins with a preliminary screening, review and testing of a game, followed by a cost analysis, negotiations and ultimate licensing of a game, including all regulatory and approval processes. A team is then designated to conduct closed beta testing of the game to resolve operational matters, followed by open beta testing during which our registered users may play the game without removing their in-game data to ensure performance consistency and stability of our operation systems. Testing generally takes three to six months, during which time we commence other marketing activities.

Technology

We aim to build a reliable and secure technology infrastructure to fully support our operations, and we maintain separate technology networks for each of our games. Our current technology infrastructure consists of the following:

servers and network devices located in eleven internet data centers throughout China as of the end of December 2010;

proprietary software, including game monitor tools, that are integrated with our websites and customer service center operations; and

hardware platform and server sites primarily consisting of Lenovo, Hewlett-Packard/Compaq, Dell and IBM servers; EMC, HP and Cisco storage systems; and H3C network equipments.

We have a network operation team responsible for the stability and security of our network. The team follows server workflow to detect, record, analyze and ultimately solve problems. In addition, we frequently upgrade our game server software to ensure the stability of our operation and to reduce hacking risks.

Competition

Our major competitors include, but are not limited to, online game operators in China. These include Shanda Games Limited (which operates Legend of Mir, Dragon Nest and Aion), NetEase (which operates WoW, Westward Journey Online and Fantasy Westward Journey), Changyou.com Limited (which operates Tian Long Ba Bu), Perfect World, Co. Ltd. (which operates Perfect World and Zhu Xian), Giant Interactive Group (which operates ZT Online and Giant Online) and Tencent (which operates Dungeon and Fighter, Cross Fire and QQ Dance.)

As we are in the process of developing our mobile social gaming platform business, we anticipate that we may also face competitions in the mobile game industry. For example, mobile service providers, handset companies or other parties may introduce a mobile platform or other business model to compete with us. We compete primarily on the basis of user base, relationships with content developer, mobile device manufacturers, mobile service providers, key technologies as well as research and development capabilities.

Our existing and potential competitors may compete with us regarding marketing activities, quality of online games and sales and distribution networks. Some of our existing and potential competitors have significantly greater financial and marketing resources than we do. For a discussion of risks relating to competition, see Item 3. Key Information D. Risk Factors Risks Related to Our Company We may not be able to recover our market share and profitability as we operate in a highly competitive industry and compete against many companies.

Intellectual Property

Our intellectual property rights include trademarks and domain names associated with the name the9 in China and copyright and other rights associated with our websites, technology platform, self-developed software and other aspects of our business. We regard our intellectual property rights as critical to our business. We rely on trademark and copyright law, trade secret protection, non-competition and confidentiality agreements with our employees, and license agreements with our partners, to protect our intellectual property rights. We require our employees to enter into agreements requiring them to keep confidential all information relating to our customers, methods, business and trade secrets during and after their employment with us and assign their inventions developed during their employment to us. Our employees are required to acknowledge and recognize that all inventions, trade secrets, works of authorship, developments and other processes made by them during their employment are our property.

Table of Contents

We have registered our domain names with third-party domain registration entities, and have legal rights over these domain names through Shanghai IT, our affiliated PRC entity. We conduct our business under the The9 Limited brand name and the9 logo.

Legal Proceedings

See Item 8. Financial Information A. Consolidated Statements and Other Financial Information Legal Proceedings.

Government Regulations

Current PRC laws and regulations impose substantial restrictions on foreign ownership of the online gaming and Internet content provision businesses in China. As a result, we conduct our online gaming and Internet content provision businesses in China through contractual arrangements with Shanghai IT, Shanghai Jiucheng Advertisement and Huopu Cloud, our affiliated PRC entities. Shanghai IT is ultimately owned by our shareholders Jun Zhu, and Yong Wang, both of whom are PRC citizens. Huopu Cloud is owned by Junping Han and Wei Xiong, both of whom are also PRC citizens.

In the opinion of our PRC counsel, Fangda Partners, subject to the interpretation and implementation of the GAPP Circular, the ownership structure and the business operation models of our PRC subsidiaries and our affiliated entities comply with all applicable PRC laws, rules and regulations, and no consent, approval or license is required under any of the existing laws and regulations of China for their ownership structure and business operation models except for those which we have already obtained or which would not have a material adverse effect on our business or operations as a whole.

As the online games industry is at an early stage of development in China, new laws and regulations may be adopted from time to time to require additional licenses and permits other than those we currently have, and address new issues that arise from time to time. As a result, substantial uncertainties exist regarding the interpretation and implementation of current and any future PRC laws and regulations applicable to the online games industry. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected.

Regulations on Internet Content Provision Service, Online Gaming and Internet Publishing

Our provision of online game-related content on our websites is subject to various PRC laws and regulations relating to the telecommunications industry, Internet and online gaming, and regulated by various government authorities, including MIIT, the Ministry of Culture, GAPP and the State Administration for Industry and Commerce. The principal PRC regulations governing the Internet content provision industry as well as online gaming services in China include:

- Telecommunications Regulations (2000);
- The Administrative Rules for Foreign Investments in Telecommunications Enterprises (2001), as amended in 2008;
- The Administrative Measures for Telecommunications Business Operating License (2009);
- The Internet Information Services Administrative Measures (2000);

Table of Contents

The Tentative Measures for Administration of Internet Culture (2003), as amended and reissued in 2011;
 The Notice on Several Issues Relating to the Implementation of The Tentative Measures for Administration of Internet Culture (2003);
 The Tentative Measures for Administration of Internet Publication (2002);
 The Tentative Measures for Administration of Online Games (2010); and
 The Foreign Investment Industrial Guidance Catalogue (2007).

In July 2006, MIIT issued a notice entitled Notice on Strengthening Management of Foreign Investment in Operating Value-Added Telecommunication Services, or the New MII Notice. The New MII Notice prohibits ICP license holders from leasing, transferring or selling a telecommunications business operating license to any foreign investors in any form, or providing any resource, sites or facilities to any foreign investors for their illegal operation of telecommunications businesses in China. The notice also requires that ICP license holders and their shareholders directly own the domain names and trademarks used by such ICP license holders in their daily operations. The notice further requires each ICP license holder to have the necessary facilities for its approved business operations and to maintain such facilities in the regions covered by its license. In addition, all the value-added telecommunication service providers are required to maintain network and information security in accordance with the standards set forth under relevant PRC regulations. The local authorities in charge of telecommunications services are required to ensure that existing ICP license holders conduct a self-assessment of their compliance with the New MII Notice and to submit status reports to MIIT before November 1, 2006. For those which are not in compliance with the above requirements and further fail to rectify the situation, the relevant governmental authorities would have broad discretion to adopt one or more measures against them, including but not limited to revoking their operating licenses. See Item 3. Key Information D. Risk Factors Risks Related to Our Company PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

Under these regulations, a foreign investor is currently prohibited from owning more than 50% of the equity interest in a PRC entity that provides value-added telecommunications services. Internet content provision services are classified as value-added telecommunications businesses, and a commercial operator of such services must obtain a value-added telecommunications business operating license for Internet content provision, or the ICP License, from the appropriate telecommunications authorities in order to carry on any commercial Internet content provision operations in China.

With respect to the online gaming industry in China, since online games fall into the definition of Internet culture products under The Tentative Measures for Internet Culture Administration (2011), a commercial operator of online games must, in addition to obtaining the ICP License, obtain an Internet culture operation license from the appropriate culture administrative authorities for its operation of online games. Furthermore, according to The Tentative Measures for Internet Publication Administration (2002), the provision of online games is deemed an Internet publication activity. Therefore, approval from the appropriate press and publication administrative authorities as an Internet publisher or cooperation with a licensed Internet publisher is required for an online game operator to carry on its online gaming businesses in China. Furthermore, online games, regardless of whether imported or domestic, must be registered with MIIT and such online games shall be subject to a content review and approval by or a filing with the Ministry of Culture and GAPP prior to commencement of operations in China.

GAPP and MIIT jointly impose a license requirement for any company that intends to engage in Internet publishing, defined as any act by an Internet information service provider to select, edit and process content or programs and to make such content or programs publicly available on the Internet. Furthermore, the distribution of online game cards and CD-keys for online gaming programs is subject to a licensing requirement. Shanghai IT holds the license necessary to distribute electronic publications, which allows it to distribute prepaid cards and CD-Keys for the games we operate. We sell our prepaid cards and CD-Keys through third-party distributors, which are responsible for maintaining requisite licenses for distributing our prepaid cards and CD Keys in China. See Item 3. Key Information D. Risk Factors Risks Related to Our Company We rely on services from third parties to carry out our businesses and to deliver our online game points to end users, and if there is any interruption or deterioration in the quality of these services, our end users may cease to use our products and services.

Table of Contents

On February 15, 2007, fourteen governmental authorities, including the Ministry of Culture, MIIT, the State Administration for Industry and Commerce, and the People's Bank of China, or the PBOC, jointly issued a circular entitled *Circular for Further Strengthening the Administration of Internet Café and Online Games*. This circular gave the PBOC administrative authority over virtual currencies issued by online game operators for use by players in online games to avoid the potential impact such virtual currencies may have on the real-world financial systems. According to this circular, the volume that may be issued and the purchase of such virtual currencies must be restricted, and virtual currency must not be used for the purchase of any physical products, refunded with a premium or otherwise illegally traded. The Notice of Strengthening the Management of Virtual Currency of Online Games promulgated by the Ministry of Culture and the Ministry of Commerce on June 4, 2009 and the Tentative Measures for Administration of Online Games promulgated by the Ministry of Culture on June 3, 2010 impose more restrictions and requirements on online game operators that issue virtual currencies. According to the above regulations, an online game operator which issues virtual currency used for online game services shall apply for approval from the Ministry of Culture. An online game operator shall further report detailed rules of issuance for virtual currencies, such as distribution scope, pricing, and terms for refunds and shall make certain periodic and supplementary filings as required by the relevant regulations. In addition, under the new rules, online game operators are prohibited from assigning game tools or virtual currency to users by way of drawing lots, random samplings or other arbitrary means in exchange for users cash or virtual currency. The new rules also require that the service agreement entered into between the online game operators and the end users shall contain general terms of standard online game service agreement issued by the Ministry of Culture.

In September 2009, GAPP further promulgated the Circular Regarding the Implementation of the Department Reorganization Regulation by State Council and Relevant Interpretation by State Commission Office for Public Sector Reform to Further Strengthen the Administration of Pre-approval on Online Games and Approval on Import Online Games, or the GAPP Circular, which provides that foreign investors are prohibited from making investment and engaging in online game operation services by setting up foreign-invested enterprises in China. Further, foreign investors shall not control and participate in PRC online game operation businesses indirectly or in a disguised manner by establishing joint venture companies or entering into agreements with or providing technical support to such PRC online game operation companies, or by inputting the users' registration, account management, game cards consumption directly into the interconnected gaming platform or fighting platform controlled or owned by the foreign investor. It is not clear whether the regulatory authority of GAPP applies to the regulation of ownership structures of online game companies based in China and online game operation in China. Other government agencies that have regulatory jurisdiction over the online game operations in China, such as the MOC and MIIT, did not join GAPP in issuing the GAPP Circular. To date, GAPP has not issued any interpretation of the GAPP Circular. It is not yet clear how this GAPP Circular will be implemented. The relevant governmental authorities have broad discretion to adopt one or more of administrative measures against companies now in compliance with these measures, including revoking relevant licenses and relevant registration. See Item 3. Key Information D. Risk Factors Risks Related to Our Company PRC laws and regulations restrict foreign ownership of Internet content provision, Internet culture operation and Internet publishing licenses, and substantial uncertainties exist with respect to the application and implementation of PRC laws and regulations.

The operation of SMS in China is classified as a value-added telecommunication business and SMS service providers shall obtain the relevant value-added telecommunication business permits.

Furthermore, MIIT has promulgated rules requiring ICP license holders that provide online bulletin board services to register with, and obtain approval from, the relevant telecommunication authorities.

Table of Contents***Regulations on Internet Content***

The PRC government has promulgated measures relating to Internet content through a number of ministries and agencies, including MIIT, the Ministry of Culture and GAPP. These measures specifically prohibit Internet activities, which includes the operation of online games that result in the publication of any content which is found to, among other things, propagate obscenity, gambling or violence, instigate crimes, undermine public morality or the cultural traditions of the PRC, or compromise State security or secrets. See Item 3. Key Information D. Risks Factors Risks Related to Doing Business in China The laws and regulations governing the online game industry in China are developing and subject to future changes. If we fail to obtain or maintain all applicable permits and approvals, our business and operations could be materially and adversely affected. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

In April 2007, various governmental authorities, including GAPP, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities jointly issued a circular concerning the mandatory implementation of an anti-fatigue system in online games, which was aimed at protecting the physical and psychological health of minors. This circular required all online games to incorporate an anti-fatigue system and an identity verification system, both of which have limited the amount of time that a minor or other user may continuously spend playing an online game. We have implemented such anti-fatigue and identification systems on all of our online games as required. Since March 2011, various governmental authorities, including the Ministry of Culture, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities have jointly launched the Online Game Parents Guardianship Project for Minors, which allows parents to require online game operators to take relevant measures to limit the time spent by the minors on playing online games and the minors' access to their online game accounts. Additional requirements for anti-fatigue and identification systems in our games, as well as the implementation of any other measures required by any new regulations the PRC government may enact to further tighten its administration of the Internet and online games, and its supervision of Internet cafés, may limit or slow down our prospects for growth, or may materially and adversely affect our business results. See Item 3. Key Information D. Risks Factors Risks Related to Doing Business in China Our business may be adversely affected by public opinion and government policies in China.

Internet content in China is also regulated and restricted from a state security standpoint. The National People's Congress, China's national legislative body, has enacted a law that may subject to criminal punishment in China any effort to: (1) gain improper entry into a computer or system of strategic importance; (2) disseminate politically disruptive information; (3) leak state secrets; (4) spread false commercial information; or (5) infringe intellectual property rights.

The Ministry of Public Security has promulgated measures that prohibit use of the Internet in ways which, among other things, result in a leakage of state secrets or a spread of socially destabilizing content. The Ministry of Public Security has supervision and inspection rights in this regard, and we may be subject to the jurisdiction of the local security bureaus. See Item 3. Key Information D. Risks Factors Risks Related to Doing Business in China Regulation and censorship of information disseminated over the Internet in China may adversely affect our business, and we may be liable for information displayed on, retrieved from, or linked to our Internet websites. If an ICP license holder violates these measures, the PRC government may revoke its ICP license and shut down its websites.

Regulations on Internet Café

Internet cafés are required to obtain a license from the Ministry of Culture and the State Administration for Industry and Commerce, and are subject to requirements and regulations with respect to location, size, number of computers, age limit of customers and business hours. Although we do not own or operate any Internet cafés, many Internet cafés distribute our virtual pre-paid cards. The PRC government has enacted laws to intensify its regulation and administration of Internet cafés, which are currently the primary venue for our users to play online games. Intensified government regulation of Internet cafés could restrict our ability to maintain or increase our revenues and expand our customer base. See Item 3. Key Information D. Risks Factors Risks Related to Doing Business in China Intensified government regulation of Internet cafés could limit our ability to maintain or increase our revenues and expand our customer base.

Table of Contents***Regulations on Privacy Protection***

PRC laws and regulations do not prohibit Internet content providers from collecting and analyzing personal information from their users. We require our users to accept a user agreement whereby they agree to provide certain personal information to us. PRC law prohibits Internet content providers from disclosing to any third parties any information transmitted by users through their networks unless otherwise permitted by law. If an Internet content provider violates these regulations, MIIT or its local bureaus may impose penalties and the Internet content provider may be liable for damages caused to its users.

Import Regulations

Our ability to obtain licenses for online games from abroad and import them into China is regulated in several ways. We are required to register with the Ministry of Commerce any license agreement with a foreign licensor that involves an import of technologies, including online game software into China. Without that registration, we may not remit licensing fees out of China to any foreign game licensor. In addition, the Ministry of Culture requires us to submit for its content review and/or approval any online games we want to license from overseas game developers or any patch or updates for such game if it contains substantial changes. If we license and operate games without that approval, the Ministry of Culture may impose penalties on us, including revoking the Internet culture operation license required for the operation of online games in China. Also, pursuant to a jointly issued notice in July 2004, GAPP and the State Copyright Bureau require us to obtain their approval for imported online game publications. Furthermore, the State Copyright Bureau requires us to register copyright license agreements relating to imported software. Without the State Copyright Bureau registration, we cannot remit licensing fees out of China to any foreign game licensor and we are not allowed to publish or reproduce the imported game software in China.

Regulations on Intellectual Property Rights

The State Council and the State Copyright Bureau have promulgated various regulations and rules relating to the protection of software in China. Under these regulations and rules, software owners, licensees and transferees may register their rights in software with the State Copyright Bureau or its local branches and obtain software copyright registration certificates. Although such registration is not mandatory under PRC law, software owners, licensees and transferees are encouraged to go through the registration process and registered software rights may receive better protection. We have registered all of our in-house developed online games with the State Copyright Bureau.

Regulations on Foreign Currency Exchange and Dividend Distribution

Foreign Currency Exchange. Foreign currency exchange regulation in China is primarily governed by the following rules:

Foreign Exchange Administration Rules (1996), as amended, or the Exchange Rules; and
Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the
Administration Rules.

Pursuant to the Exchange Rules, the RMB is freely convertible for trade and service-related foreign exchange transactions, but not for direct investment, loans, investment in securities, or other transactions through a capital account outside China unless the prior approval of SAFE is obtained. Further, foreign investment enterprises in China may purchase foreign exchange without the approval of SAFE for trade and service-related foreign exchange transactions by providing commercial documents evidencing these transactions. Foreign investment enterprises that need foreign exchange for the distribution of profits to their shareholders may effect payment from their foreign exchange account or purchase and pay foreign exchange at the designated foreign exchange banks to their foreign shareholders by producing board resolutions for such profit distribution. Under the Administration Rules, based on their needs, foreign investment enterprises are permitted to open foreign exchange settlement accounts for current account receipts and payments of foreign exchange along with specialized accounts for capital account receipts and payments of foreign exchange at certain designated foreign exchange banks.

Table of Contents

Dividend Distribution. The principal regulations governing distribution of dividends of foreign holding companies include:

The Foreign Investment Enterprise Law (1986), as amended; and
Administrative Rules under the Foreign Investment Enterprise Law (2001).

Under these regulations, foreign investment enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, foreign investment enterprises in China are required to allocate at least 10% of their respective profits each year, if any, to fund certain reserve funds until the cumulative total of the allocated reserve funds reaches 50% of an enterprise's registered capital and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective board of directors or shareholders. These reserves are not distributable as dividends.

Regulations on Foreign Exchange in Certain Onshore and Offshore Transactions

On October 21, 2005, SAFE issued the Notice on Issues Relating to the Administration of Foreign Exchange in Fund-raising and Reverse Investment Activities of Domestic Residents Conducted via Offshore Special Purpose Companies, or Notice 75, which became effective as of November 1, 2005.

According to Notice 75:

prior to establishing or assuming control of an offshore company for the purposes of financing that offshore company with assets or equity interests in an onshore enterprise in the PRC, each PRC resident must complete the overseas investment foreign exchange registration procedures with the local SAFE branch; an amendment to the registration with the local SAFE branch is required to be filed by any PRC resident that directly or indirectly holds interests in that offshore company upon either (1) the injection of equity interests or assets of an onshore enterprise in the offshore company, or (2) the completion of any overseas fundraising by such offshore company; and
an amendment to the registration with the local SAFE branch is also required to be filed by such PRC resident when there is any material change involving a change in the capital of the offshore company.

Under the relevant rules, failure to comply with the registration procedures set forth in Notice 75 or the rules implementing Notice 75 may result in restrictions being imposed on the foreign exchange activities of the relevant onshore company, including an increase of its registered capital, the payment of dividends and other distributions to its offshore parent or affiliate and the capital inflow from the offshore entity, and may also subject the relevant onshore company and PRC residents to penalties under PRC foreign exchange administration regulations.

Since May 2007, SAFE has further issued relevant guidance to its local branches with respect to the operational process for SAFE registration, which standardized more specific and stringent supervision on the registration relating to Notice 75 and imposed obligations on onshore subsidiaries of offshore special purpose companies to coordinate with and supervise the beneficial owners of the offshore entity who are PRC residents to complete the SAFE registration process.

Table of Contents

As a result of the uncertainties relating to the interpretation and implementation of Notice 75, we cannot predict how these regulations will affect our business operations or strategies. For example, our present or future PRC subsidiaries ability to conduct foreign exchange activities, such as remittance of dividends and foreign-currency-denominated borrowings, may be subject to compliance with such SAFE registration requirements by relevant PRC residents, over whom we have no control. In addition, we cannot assure you that any such PRC residents will be able to complete the necessary approval and registration procedures required by the SAFE regulations. We have requested all of our shareholders who, based on our knowledge, are PRC residents or whose ultimate beneficial owners are PRC residents to comply with all applicable SAFE registration requirements, but we have no control over our shareholders. We cannot assure you that the PRC beneficial owners of our company and our subsidiaries have completed the required SAFE registrations. Nor can we assure you that they will be in full compliance with the SAFE registration in the future. Any non-compliance by the PRC beneficial owners of our company and our subsidiaries may subject us or such PRC resident shareholders to fines and other penalties. It may also limit our ability to contribute additional capitals to our PRC subsidiaries and our subsidiaries ability to distribute profits or make other payments to us.

C. Organizational Structure

The following diagram illustrates our company s organizational structure, and the place of formation, ownership interest of each of our subsidiaries and affiliated entities that operate our major game platforms in China as of the date of this annual report. For a listing of all of our significant subsidiaries and affiliated entities, see Exhibit 8.1 filed herewith.

Table of Contents**D. Property, Plant and Equipment**

Our headquarters are located on premises comprising approximately 14,000 square meters in an office building in Shanghai, China. We purchased the office building in which our headquarters are located, and lease all of our other premises from unrelated third parties. In addition, we have small branch offices in Beijing, Nanjing, Wuhan, Xi'an, Chengdu and Shenyang, China. Our equipment consists substantially of numerous servers and network devices located in eight internet data centers throughout China.

ITEM 4A. UNRESOLVED STAFF COMMENTS

None.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following discussion of our financial condition and results of operations is based upon and should be read in conjunction with our consolidated financial statements and their related notes included in this annual report. This report contains forward-looking statements. See H. Safe Harbor. In evaluating our business, you should carefully consider the information provided under the caption Risk Factors in this annual report. We caution you that our businesses and financial performance are subject to substantial risks and uncertainties.

A. Overview

Until approximately mid-2009, we derived substantially all of our revenues through our wholly-owned subsidiary C9I and its operation of WoW in China through cooperation with Shanghai IT. In 2008 and 2009, 91% and 88% of our total revenues, respectively, were attributable to the operation of WoW in China, including game playing time, merchandise sales and other related revenues. Our license to operate the WoW game in China expired on June 7, 2009. As a result, our revenues decreased by 55.6% from RMB1,806.1 million in 2008 to RMB802.6 million in 2009 and by a further 86.5% to RMB108.5 million (US\$16.4 million) in 2010. As of the date of this annual report, we have not identified a product to replace the WoW game. Since the non-renewal of the WoW license, we have depended more on our relationships with other existing game licensors, such as EA Swiss Sàrl, Webzen, Ndoors and USERJOY, and we expect to continue to rely on the relationship with these licensors in the near future. We also expect to depend on our acquired subsidiaries, such as Red 5 and Fire Rain, to successfully develop and commercially launch new online games including Firefall and ShenXianZhuan in the near future.

To broaden our product offerings, we have obtained exclusive licenses to operate additional online games in China, including Seoyugi, Free Realms and Planetside 2. In addition, we have devoted more resources in developing our proprietary games. In 2010, we commercially launched one proprietary web and SNS game, Winning Goal, one proprietary 2D MMORPG, World of Fighter. We are also preparing for the launch of FireFall, ShenXianZhuan and our other proprietary online games.

We established a mobile business unit in April 2010 and started to expand our business into the mobile internet field. In July 2010, we made a strategic minority equity investment in OpenFeint, the developer and operator of a leading mobile social gaming network. In December 2010, we also entered into a license agreement with OpenFeint to use its mobile social gaming platform software in China for a five-year term.

The major factors affecting our results of operations and financial condition include:

- our revenue composition and sources of revenue;
- our cost of services; and
- our operating expenses.

Table of Contents

Each of these factors is discussed below.

Revenue Composition and Sources of Revenue. In 2008, 2009 and 2010, we generated substantially all of our revenues from online game services, and a minor portion of our revenues from other services. The following table sets forth the revenues generated from our online game services in China and other services, both in absolute amount and as a percentage of total revenues for the periods indicated.

	2008		For the Year Ended December 31,				
	RMB	%	2009		2010		
			RMB	%	RMB	US\$	%
	(in thousands, except percentages)						
Revenues:							
Online game operation	1,800,313	99.7	795,477	99.1	101,815	15,426	93.8
Other revenues	5,817	0.3	7,152	0.9	6,699	1,015	6.2
Total revenues	1,806,130	100.0	802,629	100.0	108,514	16,441	100.0

Online Game Services. Since we commercially launched WoW in China in June 2005 and until June 2009, we had derived substantially all of our online game service revenues from sales of WoW playing time. In 2008, 2009 and 2010, revenues from our online game services amounted to RMB1,800.3 million, RMB795.5 million and RMB101.8 million (US\$15.4 million), respectively. The decreases in revenue in 2010 and 2009 from 2008 were mainly due to revenue losses from the non-renewal of the WoW license agreement in June 2009.

We generated our online game service revenues through either time-based or item-based revenue models. We used a time-based revenue model only for WoW, under which we charged players based on the time they spent playing the game. We use an item-based revenue model for our other games under which players can play the games for free, but they are charged for purchases of in-game items, such as performance-enhancing items, clothing and accessories. As the WoW license agreement expired in June 2009, our online game operation revenues are now generated through the item-based revenue model.

In the item-based revenue model, we generate online game service revenues through the sale of in-game premium features. In this model, players can access our basic games free of charge and then may use game points to purchase in-game premium features. The distribution of points to end users is typically made through sales of prepaid game cards and prepaid online points. Fees from prepaid game cards and prepaid online points are deferred when initially received. This revenue is recognized over the life of the premium features or as the premium features are consumed. Future usage patterns may differ from the historical usage patterns on which the virtual items and services consumption model is based. We will continue to monitor the operational statistics and usage patterns affecting our recognition of these revenues.

In the time-based model, we generated online game service revenues through the sale of playing time, mostly through sales of prepaid cards and prepaid online points to distributors who in turn sold them to end users. Both prepaid cards and prepaid online points provided customers with a pre-specified length of game playing time. All prepaid fees received from distributors were initially recognized as advances from customers. Prepaid fees were recognized as deferred revenue upon the customers' online registration and activation of their cards or online points, and then recognized as revenue upon the actual usage of the game playing time by end customers or when the likelihood that we would provide further online game service to those customers was remote.

Other Revenues. Other revenues were mainly divided into (i) revenue generated from our contracts with a Chinese mobile carrier for development and maintenance of the games operated on IPTV, (ii) revenue generated from our contracts with various Chinese mobile carriers for the transmission of short messaging services, (iii) revenue generated from licensing our proprietary games developed by us to overseas game operators and (iv) revenue generated from our game operating support, website solutions and advertising services. In 2008, 2009 and 2010, revenues from our other products and services amounted to RMB5.8 million, RMB7.2 million and RMB6.7 million

(US\$1.0 million), respectively.

Table of Contents

Cost of Services. Our cost of services consists of costs directly attributable to rendering our products and services, including online game royalties, payroll, depreciation, maintenance and rental of operation sites, depreciation and amortization of computer equipment and software, production costs for prepaid game cards, intangible assets amortization and other overhead expenses directly attributable to the services we provide.

Operating Expenses. Our operating expenses consist primarily of product development expenses, sales and marketing expenses, general and administrative expenses and impairment expenses.

Product Development Expenses. Our product development expenses consist primarily of compensation to our product development personnel, outsourced research and development expenses, equipment and software depreciation charges and other expenses for the development of online games. Our other product development costs include costs that we have incurred to develop and maintain our websites. Our product development expenses amounted to RMB73.8 million, RMB114.4 million and RMB139.4 million (US\$21.1 million) for the years ended December 31, 2008, 2009 and 2010, respectively. We expect that our product development expenses will continue to increase in the near future as we further expand our game development capabilities.

Sales and Marketing Expenses. Our sales and marketing expenses primarily consist of advertising and marketing expenses to promote our games and compensation to our sales and marketing personnel. Our sales and marketing expenses amounted to RMB103.7 million, RMB112.5 million and RMB63.3 million (US\$9.6 million) for the years ended December 31, 2008, 2009 and 2010, respectively. Marketing expenses generally increase during the periods we launch our new games.

General and Administrative Expenses. Our general and administrative expenses consist primarily of compensation and travel expenses for our administrative staff, depreciation of property and equipment, entertainment expenses, provision for doubtful accounts and provision for prepayments and other current assets, administrative office expenses, as well as fees paid to professional service providers for auditing and legal services. General and administrative expenses amounted to RMB319.3 million, RMB225.1 million and RMB112.7 million (US\$17.1 million) for the years ended December 31, 2008, 2009 and 2010, respectively. We expect general and administrative expenses including share-based compensation expenses will increase with the expansion of our business.

Impairment. Impairment charges consist of our expenses associated with the impairment of certain equipment, intangible assets and goodwill. Impairment expenses amounted to RMB82.1 million, RMB78.9 million, RMB37.9 million (US\$5.7 million) for the years ended December 31, 2008, 2009 and 2010, respectively.

Impairment Provisions Related to the Non-renewal of the WoW License

As a result of the non-renewal of the WoW license agreement beyond June 7, 2009, we recorded impairment and certain other charges in our consolidated financial statements for the year ended December 31, 2008 as follows:

A provision on a receivable amounting to RMB18.0 million from a customer that purchased WoW prepaid player cards from the company for distribution, as a result of the expiration of the WoW license on June 7, 2009 and, among other things, the impact on the ongoing relationship with the customer;

A RMB3.9 million provision for prepaid royalties;

A RMB22.7 million charge to increase the valuation allowance for deferred tax assets, which represented incremental income taxes as a result of non-renewal of the WoW license prior to the evaluation and recording of impairment charges as a result of the non-renewal of the WoW license;

Table of Contents

RMB68.4 million of additional depreciation expense related to computer equipment to reflect the change to a shorter expected useful life of the underlying assets due to non-renewal of the WoW license agreement; A RMB46.5 million provision for prepayment for equipment and a RMB8.7 million provision on advances to suppliers mainly related to a vendor which had been the primary supplier of computer servers and related computer equipment. With the non-renewal of the WoW license, we evaluated a number of factors, including the status of production of the assets underlying the advance prepayments, our ability to recover the value of the advances through the possible sale of the fixed assets upon the completion of production, the ability to utilize the servers upon completion of production, as well as our ability to recover the amounts advanced to the vendor and as a result of such assessment, and concluded that a full provision in connection with such advances and prepayments was necessary;

RMB7.0 million provisions on receivable and prepayments and other current assets in connection with Game First International Corporation, or GFD, comprising: (i) a RMB5.6 million provision on prepayments and other current assets. We assessed the impact of non-renewal of the WoW license on its ongoing relationship with GFD and the resulting collectability of this receivable, and concluded collection to be unlikely; and (ii) a RMB1.4 million provision on accounts receivable; and

A RMB1.7 million provision on inventories.

As a result of the non-renewal of the WoW license agreement beyond June 7, 2009, we recorded impairment and certain other charges in our consolidated financial statements for the year ended December 31, 2009 as follows:

A RMB103.2 million provision for royalty prepayments including withholding taxes that were paid in 2009 but not consumed prior to the expiration of the WoW license on June 7, 2009;

RMB40.0 million of additional depreciation expense related to computer equipment to reflect the change to a shorter expected useful life of the underlying assets due to the non-renewal of the WoW license agreement; A RMB30.2 million impairment for goodwill which was deemed recoverable as of December 31, 2008 based on our company's impairment test that includes the operating cash flow generated from WoW operation during the period from January 1 to June 6, 2009, but was no longer recoverable following the expiration of the WoW license on June 7, 2009; and

A RMB22.1 million provision for additional cost of services related to the refund of point cards, which is the difference between the face value of the point cards and the net proceeds our company received in the sales of the respective point cards.

We did not record any impairment related to the non-renewal of the WoW license agreement for the year ended December 31, 2010.

Holding Company Structure

We are a holding company incorporated in the Cayman Islands and rely primarily on dividends and other distributions from our subsidiaries and our affiliates in China for our cash requirements. Current PRC regulations restrict our affiliated entities and subsidiaries from paying dividends in the following two principal aspects: (i) our affiliated entities and subsidiaries in China are only permitted to pay dividends out of their respective accumulated profits, if any, determined in accordance with PRC accounting standards and regulations; and (ii) these entities are required to allocate at least 10% of their respective accumulated profits each year, if any, to fund certain capital reserves until the cumulative total of the allocated reserves reach 50% of registered capital, and a portion of their respective after-tax profits to their staff welfare and bonus reserve funds as determined by their respective boards of directors. These reserves are not distributable as dividends. See Item 4. Information on the Company B. Business Overview Government Regulations. In addition, failure to comply with relevant SAFE regulations may restrict the ability of our subsidiaries to make dividend payments to us. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident shareholders or us to penalties and fines, and limit our ability to inject capital into our PRC subsidiaries, limit our subsidiaries' ability to increase their registered capital, distribute profits to us, or otherwise adversely affect us.

Table of Contents**Regulations of Internet Business in China**

The PRC government heavily regulates the Internet sector in China, including the legality of foreign investments in the PRC Internet sector, the permit requirements for companies in the Internet industry and the existence and enforcement of restrictions on Internet content and licensing. See Item 4. Information on the Company B. Business Overview Government Regulations.

In order to comply with restrictions imposed by current PRC laws and regulations on foreign ownership of Internet content provision, Internet culture operation, Internet publishing and advertising businesses in China, we operate our PRC online gaming and Internet content provision businesses through contractual arrangements with Shanghai IT, Shanghai Jiucheng Advertisement and Huopu Cloud. Shanghai IT and Shanghai Jiucheng Advertisement are ultimately owned by Jun Zhu and Yong Wang, our shareholders, both of whom are PRC citizens. Huopu Cloud is owned by Junping Han and Wei Xiong, both of whom are PRC citizens.

In April 2001, the PRC government began tightening its supervision of Internet cafés, closing down unlicensed Internet cafés, requiring those remaining open to install software to prevent access to sites deemed subversive and requiring web portals to sign a pledge not to host subversive sites. Furthermore, the PRC government's policy, which encourages the development of a limited number of national and regional Internet café chains and discourages the establishment of independent Internet cafés, may slow down the overall growth of Internet cafés. The issuance of Internet café licenses has been suspended from time to time and was suspended most recently in 2007. As Internet cafés are the primary venue for users to play our games, any reduction in the number, or any slowdown in the growth of Internet cafés in China, or any tightening of the governmental requirements relating to the customer's age, business hours and other operational aspects of Internet cafés, could limit our ability to maintain or increase our revenues and expand our customer base, which will materially and adversely affect our business and results of operations.

Furthermore, the Ministry of Culture has issued a notice to require, among other things, the review and prior approval of all new online games licensed from foreign game developers and related license agreements. The pre-approval will not be granted if the Ministry of Culture finds the content of the game objectionable or the terms of the related license agreement grossly unfairly to the Chinese licensee. There is no assurance that we will be able to obtain the pre-approvals for our new licensed foreign games in a timely manner.

In 2007, various governmental authorities, including GAPP, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities jointly issued a circular concerning the mandatory implementation of an anti-fatigue system in online games, which aimed to protect the physical and psychological health of minors. This law required all online games to incorporate an anti-fatigue system and an identity verification system, both of which have limited the amount of time that a minor or other users may continuously spend playing an online game as required. Since March 2011, various governmental authorities, including the Ministry of Culture, MIIT, the Ministry of Education, the Ministry of Public Security, and other relevant authorities have jointly launched the Online Game Parents Guardianship Project for Minors, which allows parents to require online game operators to take relevant measures to limit the time spent by the minors playing online games and the minors' access to their online game accounts. We have implemented such anti-fatigue and identification systems on all of our online games. Further strengthening of such anti-fatigue and identification systems or the implementation of any other measures required by any new regulations the PRC government may enact to further tighten its administration of the Internet and online games, and its supervision of Internet cafés, may limit or slow down our prospects for growth, or may materially and adversely affect our business results. See Item 3. Key Information D. Risks Factors Risks Related to Doing Business in China Our business may be adversely affected by public opinion and government policies in China.

Table of Contents

Certain PRC regulatory authorities have published regulations that subject website operators to potential liability for content included on their websites and the actions of users and others using their systems. As these regulations are relatively new and subject to interpretation by the relevant authorities, it may not be possible for us to determine in all cases the type of content that could result in liability for us as a website operator. To the extent PRC regulatory authorities find any portion of our content objectionable, they may require us to limit or eliminate the dissemination of such information or otherwise curtail the nature of such content on our websites, which may reduce our user traffic. In addition, we may be subject to significant penalties for violations of those regulations arising from information displayed on, retrieved from or linked to our websites, including a suspension or shutdown of our operations.

Income and Sales Taxes

The National People's Congress of the PRC adopted and promulgated the CIT Law on March 16, 2007. The CIT Law went into effect as of January 1, 2008, and unified the tax rate generally applicable to both domestic and foreign-invested enterprises in the PRC. Our company's subsidiaries and affiliated entities in the PRC are generally subject to CIT at a statutory rate of 25%. However, some subsidiaries that are located in the Pudong New District of Shanghai, including The9 Computer and C9I Shanghai, and which were established before March 2007, can enjoy five-year transitional reduced EIT rates, which refer to the phase-in rates of 18%, 20%, 22%, 24% and 25% for the five years from 2008 to 2012 according to local practice. Our subsidiaries that hold a HNTE qualification are subject to a 15% preferential EIT rate.

In April 2008, certain government authorities announced the new implementation rules for application and assessment of HNTE. Every qualified HNTE company needs to re-apply for this qualification according to the new implementation rules. C9I Beijing re-applied for the HNTE qualification, received approval from certain government authorities, and can continue to enjoy the EIT exemption for 2008 and 2009 and a 50% reduction of the statutory rate in the three years thereafter. Also, Shanghai IT received approval from certain government authorities to be classified as a HNTE. This approval, subject to annual inspection, entitles Shanghai IT to enjoy a 15% preferential EIT rate for a period of three years.

The HNTE qualification will be valid for three years after the issuance of the certificate. The enterprise shall apply for re-examination before the term expires. We cannot assure you that our PRC subsidiaries or affiliated entities will meet the criteria to be qualified as HNTEs.

In addition, under the CIT Law, enterprises organized under the laws of their respective jurisdictions outside the PRC may be classified as either non-resident enterprises or resident enterprises. Non-resident enterprises are subject to withholding tax at the rate of 20% with respect to their PRC-sourced dividend income if they have no establishment or place of business in the PRC or if such income is not related to their establishment or place of business in the PRC, unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and the governments of other countries or regions. The State Council has reduced the withholding tax rate to 10% in the newly promulgated implementation rules of the CIT Law. As we are incorporated in the Cayman Islands, we may be regarded as a non-resident enterprise. We hold The9 Computer and C9I through GameNow.net (Hong Kong) Limited, and China The9 Interactive Limited. GameNow.net (Hong Kong) Limited and China The9 Interactive Limited are companies incorporated in Hong Kong. According to the Tax Agreement between the PRC and Hong Kong, dividends paid by a foreign-invested enterprise in the PRC to its corporate shareholder in Hong Kong holding 25% or more of its equity interest may be subject to withholding tax at the maximum rate of 5% if certain criteria are met. Entitlement to such lower tax rate on dividends according to tax treaties or arrangements between the PRC central government and governments of other countries or regions is further subject to approval of relevant tax authority.

Furthermore, the State Administration of Taxation promulgated the Notice on How to Understand and Determine the Beneficial Owners in Tax Agreement in October 2009, or Circular 601, which provides guidance for determining whether a resident of a contracting state is the beneficial owner of an item of income under China's tax treaties and tax arrangements. According to Circular 601, a beneficial owner generally must be engaged in substantive business activities. An agent or conduit company will not be regarded as a beneficial owner and, therefore, will not qualify for treaty benefits. The conduit company normally refers to a company that is set up for the purpose of avoiding or reducing taxes or transferring or accumulating profits. We cannot assure you that any dividends to be distributed by our subsidiaries to us or by us to our non-PRC shareholders and ADS holders whose jurisdiction of incorporation has

a tax treaty with China providing a different withholding arrangement will be entitled to the benefits under the relevant withholding arrangement.

Table of Contents

The new law deems an enterprise established offshore but having its management organ in the PRC as a resident enterprise that will be subject to PRC tax at the rate of 25% on its global income. Under the Implementation Rules of the New Enterprise Income Tax Law, the term management organ is defined as an organ which has substantial and overall management and control over the manufacturing and business operation, personnel, accounting, properties and other factors. On April 22, 2009, the State Administration of Taxation further issued a notice regarding recognizing an offshore-established enterprise controlled by PRC shareholders as a resident enterprise according to its management organ. According to this notice, a foreign enterprise controlled by a PRC company or a PRC company group shall be deemed a PRC resident enterprise, if (i) the senior management and the core management departments in charge of its daily operations are mainly located and function in the PRC; (ii) its financial decisions and human resource decisions are subject to the determination or approval of persons or institutions located in the PRC; (iii) its major assets, accounting books, company seals, minutes and files of board meetings and shareholders meetings are located or kept in the PRC; and (iv) more than half of the directors or senior management with voting rights reside in the PRC. Although our offshore companies are not controlled by any PRC company or PRC company group, we cannot assure you that we will not be deemed to be a resident enterprise under the CIT Law and thus be subject to PRC EIT on our global income.

According to the CIT Law and its implementation rules, dividends are exempted from income tax if such dividends are received by a resident enterprise on equity interests it directly owns in another resident enterprise. However, foreign corporate holders of our shares or ADSs may be subject to taxation at a rate of 10% on any dividends received from us or any gains realized from the transfer of our shares or ADSs if we are deemed to be resident enterprise or if such income are otherwise regarded as income from sources within the PRC. The continued eligibility of such preferential tax treatments Shanghai IT, The9 Computer, C9I Shanghai and C9I Beijing enjoyed before 2008 are subject to the implementation of the CIT Law and other relevant regulations, and most of our PRC subsidiaries may no longer be entitled to such tax benefits. Under the CIT Law and related detailed implementation guidance enacted so far, C9I Beijing is entitled to continue its tax holiday of six years (including three years of exemption from CIT followed by three years of a 50% reduction in the CIT rate since 2007); Shanghai IT is entitled to enjoy a preferential EIT rate from 2008 to 2010; and C9I Beijing is entitled to enjoy a preferential EIT rate of 15% for a three year period if it can continuously be qualified as a HNTE. See Item 3. Key Information D. Risk Factors Risks Related to Our Company New income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer. Our subsidiaries in the United States are registered in California and subject to U.S. federal corporate marginal income tax rate 34% and state income tax rate of 8.84%, respectively.

Consolidation of Variable Interest Entities, or VIEs.

PRC laws and regulations, including the GAPP Circular, currently prohibit or restrict foreign ownership of Internet-related business. We applied our own assumptions, under the advice of our PRC legal counsel, to comply with these foreign ownership restrictions. We operate our business through Shanghai IT and Huopu Cloud and have entered into a series of contractual arrangements with Shanghai IT and Huopu Cloud and their equity owners. See the contractual arrangements set forth in Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions. As a result of these contractual arrangements, the shareholders of Shanghai IT and Huopu Cloud irrevocably granted us the power to exercise all voting rights to which they are entitled. In addition, we are entitled to receive service fees for services provided to Shanghai IT and Huopu Cloud. Thus, we receive the economic benefits generated by Shanghai IT and Huopu Cloud, have the ability to effectively control Shanghai IT and Huopu Cloud and we are considered the primary beneficiary of Shanghai IT and Huopu Cloud. Accordingly, Shanghai IT and Huopu Cloud are consolidated VIEs of our company.

Table of Contents

The GAPP Circular reiterates and reinforces the long-standing prohibition of foreign ownership of Internet-related publication business via direct or indirect or disguised manner. However, it is not clear whether the regulatory authority of GAPP applies to the regulation of ownership structures of online game companies based in China and online game operation in China. In addition, the GAPP Circular does not specifically invalidate VIE agreements, and we are not aware of any online game companies adopting similar contractual arrangements as ours having been penalized or ordered to terminate such arrangements since the GAPP Circular first became effective. Therefore, we believe that our ability to direct the activities of Shanghai IT that most significantly impact our economic performance is not affected by the GAPP Circular. Any changes in PRC laws and regulations that affect our ability to control Shanghai IT and Huopu Cloud might preclude us from consolidating Shanghai IT and Huopu Cloud in the future.

Critical Accounting Policies

We prepare financial statements in conformity with U.S. Generally Accepted Accounting Principles, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements, and the reported amounts of revenue and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our financial statements as their application assists management in making their business decisions.

Revenue Recognition.*Online game services*

We generate revenue primarily from the sale of our prepaid game cards and prepaid online points for our online game services products to distributors who in turn ultimately sell them to customers.

There are two consumption models for our online game services. We recognize revenues when persuasive evidence of an arrangement exists, services are delivered or performed, our price is fixed or determinable and collectability is reasonably assured.

Virtual item / service consumption model – online game services except WoW services

In the item-based revenue model, we generate online game service revenues through the sale of in-game premium features. In this model, players can access our basic games free of charge and then may use game points to purchase in-game premium features. The distribution of points to end users is typically made through sales of prepaid game cards and prepaid online points. Fees of prepaid game cards and prepaid online points are deferred when initially received. This revenue is recognized over the life of the premium features or as the premium features are consumed. For in-game premium features that are immediately consumed, revenue is recognized upon consumption. For premium features with a stated expiration time ranging from one to 90 days, revenue is recognized ratably over the period starting from when the feature is first used to the expiration time. For permanent features with no predetermined expiration, revenue is recognized ratably over the estimated average lives of the permanent features, which are typically less than one year. When estimating the average lives of the in-game permanent features, we considers the average period that players typically play the game, other player behavior patterns, and factors including the acceptance and popularity of expansion packs, promotional events launched, and market conditions. Future usage patterns of end users may differ from the historical usage patterns on which the virtual item / service consumption revenue recognition model is based. We will continue to monitor the operational statistics and usage patterns.

Table of Contents**Time consumption model – WoW services**

In the time-based model applicable to WoW, we generated online game service revenues through the sale of playing time, mostly through sales of prepaid cards and prepaid online points to distributors who in turn sold them to end users. Both prepaid cards and prepaid online points provided customers with a pre-specified length of game playing time. All prepaid fees received from distributors were initially recognized as advances from customers. Prepaid fees were recognized as deferred revenue upon the customers' online registration and activation of their cards or online points, and then recognized as revenue upon the actual usage of the game playing time by end customers or when the likelihood that we would provide further online game service to those customers was remote.

First-time game players were required to purchase CD-Key in order to register a unique code for future game playing. We determined whether an arrangement with multiple deliverables consisted of more than one unit of accounting and whether such arrangement should be allocated among the separate units of accounting. Determining whether an arrangement consisted of more than one unit of accounting and how consideration should be allocated among the separate units of accounting required significant judgment, including judgment with regard to whether the delivered item(s) had value to the customer on a stand-alone basis and the fair value of the undelivered item. Different judgments could result in different amounts and timing of revenue recognized. Such CD-Key fees received from distributors were initially recognized as advances from customers. Prior to 2008, CD-Key fees were amortized over a one-year period. Effective January 1, 2008, they were amortized over the shorter of one year or WoW's remaining license period ended on June 7, 2009, starting from the time when the game players activated the CD-Key. CD-Key fees were also recognized as revenues when the likelihood that we would provide further online game service to those customers was remote.

Other revenues

Other revenues include those generated from internet protocol television (IPTV) services, short message services, game operating support, website solutions and advertisement, licensing revenue, and sales of certain online game related software packages and accessory merchandise.

IPTV services

IPTV services revenue mainly represent revenue from contracts with a Chinese mobile carrier for development and maintenance of games operated on IPTV and licensing revenue from our self-developed game. IPTV revenue is recognized in the period in which services are performed, provided that no significant obligation remains, collection of receivables is reasonably assured and the amount can be accurately estimated.

Short message services

Our contracts with various Chinese mobile carriers for the transmission of wireless short messaging services. Revenue is recognized in the period in which services are performed, provided that no significant obligation remains, collection of receivables is reasonably assured and the amount can be accurately estimated.

Game operating support, website solutions and advertisement

Game operating support, website solutions and advertisement revenue include revenues generated from providing technical support services, including website development and construction, hardware and software support, staff training, maintenance and website advertisements, to other customers. These revenues are recognized when delivery of the website advertisement has occurred or when services have been rendered and the collection of the related fees is reasonably assured.

Table of Contents**Other revenues**

Products revenue is recognized when the products and services are delivered and the collection of the related fees is reasonably assured. Licensing revenue is recognized over the license period.

Game development and licensing

Since its acquisition by us on April 6, 2010, Red 5 has been focusing on the development of a game under a game development and license agreement entered into in 2006 with a third party game operator and amended in 2009. Subsequent to the completion of the game development, Red 5 will be obligated to provide post-contract customer support, or PCS, and localization support services to the third party operator in various countries. During the term of the exclusive and nontransferable license, the gross receipts generated from future sales of game packages, points to access the online game, and other related merchandise will be shared by Red 5 and the third party operator through royalties payable by the third party operator. The third party operator will make royalty payments initially at a reduced rate to recover its cash advances made to Red 5. We recognize game development and licensing revenue when persuasive evidence of an arrangement exists, delivery has occurred, the arrangement fee is fixed or determinable and collectability of such fee is probable.

The arrangement with the third party operator requires significant modification or customization of software and consists of multiple elements, including software development and licensing, PCS and localization support services. We determined that vendor-specific objective evidence of the fair value of PCS and localization support services as the undelivered elements does not exist. As a result, revenue is being deferred and will be recognized ratably over the period during which the localization support services are expected to be performed or the PCS period, whichever is longer, once the game has been delivered and the provision of PCS and localization support services has commenced, assuming all other revenue recognition criteria are met.

Product Development. We recognize software development costs for development of software, including online games, to be sold or marketed to customers. As such, we expense software development costs incurred prior to technological feasibility. Once a software product has reached technological feasibility, all subsequent software costs for that product are capitalized until that product is released for sale or available for marketing. After an online game is released, the capitalized product development costs are amortized over the estimated product life. The determination of whether an online game has reached technical feasibility requires significant judgment by us. To date, we have essentially completed our software development concurrently with the establishment of technological feasibility, and, accordingly, no such costs have been capitalized.

For website and internally used software development costs, we expense all costs that are incurred in connection with the planning and implementation phases of development and costs that are associated with repair or maintenance of the existing websites and software. Costs incurred in the development phase are capitalized and amortized over the estimated product life. Since our inception, the amount of costs qualifying as capitalization has been immaterial, and as a result, all website and internally used software development costs have been expensed as incurred.

Income Taxes. We account for income taxes under the asset and liability method. Deferred taxes are determined based upon the differences between the carrying value of assets and liabilities for financial reporting and tax purposes at currently enacted statutory tax rates for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period of change.

A valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that such deferred tax assets will not be realized. Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including our ability to generate taxable income within the period during which the temporary differences reverse or our tax loss carry forwards expire, the outlook for the PRC economic environment, and the overall future industry outlook. We consider these factors in reaching our conclusion on the recoverability of the deferred tax assets and determine the valuation allowances necessary at each balance sheet date.

Table of Contents

We recognize the impact of an uncertain income tax position at the largest amount that is more-likely-than- not to be sustained upon audit by the relevant tax authority. As of December 31, 2009 and 2010, we did not have any material liability for uncertain tax positions. Our policy is to recognize, if any, tax-related interest as interest expenses and penalties as income tax expenses. For the years ended December 31, 2008, 2009 and 2010, we did not have any material interest and penalties associated with tax positions.

Property, Equipment and Software. The carrying value of property, equipment and software is impacted by a number of estimates and assumptions, including estimated useful lives, residual values and impairment charges. A review of long-lived assets for impairment is required whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable from its undiscounted future cash flows. In 2008, 2009 and 2010, we recognized impairment provisions on computer equipment of RMB8.9 million, RMB21.2 million and RMB4.9 million (US\$0.7 million), respectively. Recognition of impairment charges requires significant judgment. Any material differences to the estimates that have been used could result in differences in the amount and timing of the impairment charges. Our computers and equipment for our online game operation are amortized over an estimated useful life of approximately three to four years.

In connection with the expiration and non-renewal of the WoW license, we assessed alternative uses for equipment used in connection with the operation of WoW, taking into consideration future expected game operations, as well as expected value upon the expiration date of the WoW license agreement. As a result, the expected useful life of the servers and related equipment and the expected value of the servers and related equipment upon termination of the WoW license agreement were adjusted. This change in accounting estimate was accounted for prospectively from January 1, 2008. As a result, in 2008, depreciation expense recorded as cost of services increased by approximately RMB68.4 million, both profit from operations and net income decreased by RMB68.4 million, and both basic and diluted earnings per share decreased by RMB2.47. In 2009, depreciation expense recorded as cost of services increased by approximately RMB40.0 million, both loss from operations and net loss increased by RMB40.0 million, and both basic and diluted net loss per share increased by RMB1.57.

Intangible assets. Our intangible assets consist primarily of intangible assets from business combinations and upfront licensing fees. We recognize intangible assets acquired through business combinations as assets separate from goodwill if they satisfy either the contractual-legal or separability criterion. Intangible assets with definite lives are amortized over their estimated useful lives and reviewed for impairment in accordance with relevant accounting guidance. Indefinite-lived intangible assets are tested for impairment annually or more frequently if events or changes in circumstances indicate that the assets might be impaired. Intangible assets, such as purchased technology, licenses, domain names and non-compete agreements, in-process research and development and backlog, arising from the acquisitions of subsidiaries and VIEs are recognized and measured at fair value upon acquisition. The WoW game-related intangible assets arising from a business combination transaction were amortized over the license term of the WoW game of four years. In-process research and development is indefinite-lived until completion or abandonment of the associated research and development efforts. Backlog is amortized on the straight line basis over the estimated useful economic life of seven years.

Upfront licensing fees paid to licensors are recognized as intangible assets if a game has reached technological feasibility when such payments are contractually due. Technological feasibility is met upon completion of a working model. Upfront licensing fees are amortized on a straight-line basis over the shorter of the useful economic life of the relevant online game or the license period, which range from two to four years. Amortization of the upfront licensing fees commences upon the launch of the applicable online game.

Goodwill. Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired as a result of an acquisition we make. Goodwill is not amortized, but tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired. In December of each year, we test impairment of goodwill at the reporting unit level and recognize impairment in the event that the carrying value exceeds the fair value of each reporting unit. Goodwill impairment assessment requires significant judgment, including assumptions used to determine the fair value of the reporting units. We determine the fair value of our reporting units based on the present value of estimated future cash flows of the reporting units. If the carrying amount is in excess of the fair value, step two requires the comparison of the implied fair value of the reporting unit s

goodwill with the carrying amount of the reporting unit's goodwill. Any excess of the carrying value of the reporting unit's goodwill over the implied fair value of the reporting unit's goodwill is recorded as an impairment loss. After completing our annual impairment reviews during the fourth quarters of 2008, we concluded that goodwill was not impaired in fiscal 2008. In June 2009, we assessed the recoverability of goodwill and recognized full impairment of RMB30.2 million, as a result of the non-renewal of the WoW license. After completing our annual impairment reviews during the fourth quarter of 2010, the reporting unit that was subject to the annual impairment testing had fair value which exceeded its respective carrying value by a significant margin. We concluded that goodwill was not impaired as of December 31, 2010.

Table of Contents

Share-Based Compensation. Under our Amended 2004 Stock Option Plan, we granted a total of 205,000 options to certain of our employees and directors in 2008 and no new options in 2009. On September 1, 2009, we modified the exercise price of stock options granted to certain senior officers and directors to US\$7.36 per share, the market price on the date of modification. We granted a total of 3,887,382 options to our employees and directors in 2010. We measure the cost of employee services received in exchange for stock-based compensation measured at the grant date fair value of the award. For the awards that are modified, we determine the incremental cost as the excess of the fair value of the modified award over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date. We recognize the compensation costs, net of the estimated forfeiture, on a straight-line basis over the vesting period of the award, which generally ranges from two to four years. Forfeiture rates are estimated based on historical forfeiture patterns and adjusted to reflect future changes in circumstances and facts, if any. If actual forfeitures differ from those estimates, the estimates may be revised in subsequent periods. We use historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

Determining the fair value of stock options requires significant judgment. We measure the fair value of the stock options using the Black-Scholes option-pricing model with assumptions made regarding expected term, volatility, risk-free interest rate, and dividend yield. The expected term represents the period of time that the awards granted are expected to be outstanding. The expected term is determined based on historical data on employee exercise and post-vesting employment termination behavior, or the simplified method for stock option awards with the characteristics of plain vanilla options for 2008, 2009 and 2010. Expected volatilities are based on historical volatilities of our ordinary shares and with consideration of historical volatilities of comparable companies. Risk-free interest rate is based on US government bonds issued with maturity terms similar to the expected term of the stock-based awards. While we paid a discretionary cash dividend in January 2009, we do not anticipate paying any recurring cash dividends in the foreseeable future.

Other than the options granted under our Amended 2004 Stock Option Plan, in November 2008, as approved by our board of directors, we granted equity warrants to IncSight, a company wholly-owned by Jun Zhu, our chairman and chief executive officer, to purchase 552,196 of our ordinary shares. Also, in September 2008, The9 Development Center Limited, or TDC, a wholly-owned subsidiary of our company, approved its 2008 Stock Option Plan. On October 1, 2008, TDC granted options to Jun Zhu and certain employees of TDC to purchase 18,961 ordinary shares of TDC. We recorded share-based compensation for these equity warrants and TDC options in 2008 and 2009. In addition, on December 8, 2010, we granted 1,500,000 ordinary shares to IncSight, which will only be vested if our company achieves certain income targets and the shares are not entitled to receive dividends until they become vested. We considered the grant of ordinary shares as an incentive to retain Mr. Jun Zhu's services with our company. The awarded non-vested shares would be valid for five years from December 8, 2010. The fair value of the granted non-vested shares is US\$6.48 per share, the market price on the date of grant. We recorded share-based compensation of RMB3.9 million (US\$0.6 million) for the year ended December 31, 2010. We record share-based compensation expenses for these performance-based awards based upon our estimate of the probable outcome at the end of the performance period (i.e., the estimated performance against the performance targets). We periodically adjust the cumulative share-based compensation recorded when the probable outcome for these performance-based awards is updated based upon changes in actual and forecasted operating results. Our actual performance against the performance targets could differ materially from our estimates.

Table of Contents

In February 2006, Red 5 adopted a Stock Incentive Plan, or Red 5 Stock Incentive Plan, under which Red 5 may grant to its employees, director and consultants stock option to purchase common stock or restricted stock. We granted 7,235,874 shares of common stock under the Red 5 Stock Incentive Plan from April 6, 2010 to December 31, 2010. We measure the cost of employee services received in exchange for stock-based compensation measured at the grant date fair value of the award. We measure the fair value of the stock options using the Black-Scholes option-pricing model with assumptions made regarding the fair value of the common stock, expected term, volatility, risk-free interest rate, and dividend yield.

Share-based compensation expenses of RMB52.0 million, RMB71.2 million and RMB30.2 million (US\$4.6 million) were recognized for the years ended December 31, 2008, 2009 and 2010, for options and warrants granted to our company's employees and directors, including incremental compensation cost of RMB13.4 million (US\$2.0 million) in 2009 due to modification of the option exercise price.

Impairment of Equity Investment. We assess our equity investments for other-than-temporary impairment by considering factors as well as all relevant and available information including, but not limited to, current economic and market conditions, the operating performance of the investee, including current earnings trends, and other company-specific information including recent financing rounds. Impairment provision relating to investment in an equity investee of RMB11.3 million, nil and RMB196.1 million (US\$29.7 million) was recognized in 2008, 2009 and 2010, respectively.

Impairment of Long-lived Assets and Intangible Assets. We review long-lived assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. We assess the recoverability of long-lived assets and intangible assets (other than goodwill) by comparing the carrying amount to the estimated future undiscounted cash flow associated with the related assets. We recognize impairment of long-lived assets and intangible assets in the event that the net book value of such assets exceeds the estimated future undiscounted cash flow attributable to such assets. We use estimates and judgment in our impairment tests, and if different estimates or judgments had been utilized, the timing or the amount of the impairment charges could be different. Impairment charges relating to long-lived assets amounting to RMB8.9 million, RMB21.1 million and RMB4.9 million (US\$0.7 million) were recognized in 2008, 2009 and 2010, respectively. Impairment charges relating to intangible assets amounting to RMB73.2 million, RMB27.5 million and RMB33.0 million (US\$5.0 million) were recognized in 2008, 2009 and 2010, respectively.

Noncontrolling interest. A noncontrolling interest in our subsidiary or VIE represents the portion of the equity (net assets) in the subsidiary or VIE not directly or indirectly attributable to us. This pronouncement requires noncontrolling interests to be presented as a separate component of equity in the consolidated balance sheet and requires that earnings and other comprehensive income to be attributed to controlling and noncontrolling interest. The presentation regarding noncontrolling interest was retrospectively applied for all the periods presented.

Table of Contents**Results of Operations**

The following table sets forth a summary of our consolidated statements of operations as a percentage of net revenues for the periods indicated.

	Year Ended December 31,		
	2008 %	2009 %	2010 %
Revenues:			
Online game services	105.2	104.6	99.0
Other revenues	0.3	0.9	6.5
Sales taxes	(5.5)	(5.5)	(5.5)

Year 2010 Compared to Year 2009

Revenues. Our revenues decreased by 86.5% from RMB802.6 million in 2009 to RMB108.5 million (US\$16.4 million) in 2010, primarily due to the expiration of the WoW license, and that we have not identified a product to replace the WoW game.

Online Game Services. Our revenues from our online game services decreased by 87.2% from RMB795.5 million in 2009 to RMB101.8 million (US\$15.4 million) in 2010 primarily due to the expiration of the WoW license.

Other Revenues. Revenues generated from other products and services decreased by 6.4% from RMB7.2 million in 2009 to RMB6.7 million (US\$1.0 million) in 2010. The decrease is mainly due to the decrease in SMS service income.

Cost of Services. Cost of services decreased by 85.5% from RMB712.5 million in 2009 to RMB103.3 million (US\$15.6 million) in 2010. The decrease was primarily due to the expiration of the WoW license.

Operating Expenses. Operating expenses decreased by 33.4% from RMB530.9 million in 2009 to RMB353.4 million (US\$53.5 million) in 2010, primarily attributable to the expiration of the WoW license.

Product Development Expenses. Product development expenses increased by 21.8% from RMB114.4 million in 2009 to RMB139.4 million (US\$21.1 million) in 2010. The increase was primarily due to additional research and development costs incurred by Red 5.

Sales and Marketing Expenses. Sales and marketing expenses decreased by 43.8% from RMB112.5 million in 2009 to RMB63.3 million (US\$9.6 million) in 2010. The decrease in sales and marketing expenses in 2010 compared to 2009 was primarily attributable to the decrease in advertising expenses of FIFA online 2 and Atlantica and the expiration of the WoW license.

General and Administrative Expenses. General and administrative expenses decreased by 49.9% from RMB225.1 million in 2009 to RMB112.7 million (US\$17.1 million) in 2010. The decrease was primarily due to the expiration of the WoW license, saving the related labor cost, legal cost and taxes, and the decrease in share-based compensation.

Table of Contents

Impairment of equipment, intangible assets and goodwill. Impairment provision was RMB37.9 (US\$5.7 million) in 2010, compared to RMB78.9 million in 2009. The 2010 figure included impairment on certain license obtained and fixed assets.

Interest Income. Net interest income decreased by 23.9% from RMB30.5 million in 2009 to RMB23.2 million (US\$3.5 million) in 2010, mainly due to decrease of the balance of cash in bank.

Other Income (Expense). Other income decreased by 68.8% from RMB61.8 million in 2009 to RMB19.3 million (US\$2.9 million) in 2010, primarily attributable to the decrease of subsidies received.

Income Tax Benefit (Expenses). Income tax expenses was RMB7.4 million (US\$1.1 million) in 2010, compared to income tax benefit of RMB5.5 million in 2009. The change was primarily due to the change in deferred tax.

Gain on Investment Disposal. In 2010, we had a gain on investment disposal of RMB6.8 million (US\$1.0 million), primarily due to our sale of an equity investment in June 2010 with a proceed of US\$1 million. That investment had been written off in a prior impairment test.

Impairment Loss on Investment. In 2010, we recorded an impairment provision of RMB196.1 million (US\$29.7 million) as loss on investment, compared to RMB22.4 million in 2009. Impairment provisions in 2010 mainly related to our equity investment in a Korean online game developer and operator.

Net Income (Loss) Attributable to Holders of Ordinary Shares. As a result of the cumulative effect of the above factors, net loss attributable to our holders of ordinary shares was RMB499.6 million (US\$75.7 million) in 2010, compared to net income of RMB405.2 million in 2009.

Year 2009 Compared to Year 2008

Revenues. Our revenues decreased by 55.6% from RMB1,806.1 million in 2008 to RMB802.6 million in 2009, primarily due to reduced sales of online game services resulting from the non-renewal of the WoW license.

Online Game Services. As a result of the non-renewal of the WoW license, our revenues from our online game services decreased by 55.8% from RMB1,800.3 million in 2008 to RMB795.5 million in 2009. Our revenues generated from WoW decreased from RMB1,651.1 million in 2008 to RMB710.3 million in 2009.

Other Revenues. Revenues generated from other products and services increased by 23.0% from RMB5.8 million in 2008 to RMB7.2 million in 2009. The increase is mainly due to an increase in revenue from short message services in 2009.

Cost of Services. Cost of services decreased by 28.6% from RMB997.9 million in 2008 to RMB712.5 million in 2009. The decrease was primarily due to a reduction in royalty payments in connection with online game sales, and a decrease in server depreciation, intangible assets amortization and internet data center costs relating to WoW. The percentage decrease in cost of services was lower than the decrease in revenues because certain WoW-related prepaid royalties, deferred costs and related prepaid withholding taxes of RMB103.2 million were written off and additional depreciation expense of RMB40.0 million relating to WoW-related property, equipment and software were recorded during 2009 to reflect the change to a shorter expected useful life of the underlying assets due to non-renewal of the WoW license agreement. In addition, we announced a refund plan in connection with unactivated WoW game point cards, which were recorded as advance from customers. According to the plan, unactivated WoW game point card holders are eligible to receive a cash refund from us. In connection with the settlement of both unactivated points cards and activated but unconsumed point cards, the maximum refund we may potentially make amounts to approximately RMB200.4 million, of which RMB4.0 million was refunded in 2009. The difference between the face value of the point cards and the net proceeds we received in the sales of the respective point cards was recorded as additional cost of services, amounting to RMB22.1 million for the year ended December 31, 2009. In addition, due to weaker than expected operating performance of certain games other than WoW, we recognized an impairment loss for prepaid royalties and deferred cost of RMB60.9 million and RMB0.4 million, respectively in 2009.

Table of Contents

Operating Expenses. Operating expenses decreased by 8.3% from RMB579.0 million in 2008 to RMB530.9 million in 2009, primarily attributable to a decrease in general and administrative expenses of RMB94.2 million, offset by an increase in product development expenses of RMB40.6 million.

Product Development Expenses. Product development expenses increased by 55.0% from RMB73.8 million in 2008 to RMB114.4 million in 2009. The increase was primarily due to our increased expenses on in-house game development and contracted game development.

Sales and Marketing Expenses. Sales and marketing expenses increased by 8.5% from RMB103.7 million in 2008 to RMB112.5 million in 2009. The increase in sales and marketing expenses in the fiscal year ended December 31, 2009 compared to the same period in 2008 was primarily attributable to an increase in marketing activities for EA Sports FIFA Online 2 and Atlantica, both of which were launched in 2009.

General and Administrative Expenses. General and administrative expenses decreased by 29.5% from RMB319.3 million in 2008 to RMB225.1 million in 2009. The decrease was primarily because we did not write off additional accounts receivable, prepayments and other current assets, prepayment for equipment and advances to suppliers in connection with the non-renewal of the WoW license in 2009, which amounted to RMB80.2 million in 2008. The decrease was also due to a decrease in sales taxes by RMB40.3 million, which related to some contractual arrangements among several of our PRC subsidiaries. The decrease in general and administrative expenses was partially offset by an increase in non-cash share-based compensation expenses of RMB19.2 million, including incremental compensation cost of RMB13.4 million due to the repricing of our stock options in September 2009.

Impairment of equipment, intangible assets and goodwill. Impairment provision was RMB78.9 in 2009, compared to RMB82.1 million in 2008. This included (i) an impairment provision for goodwill of RMB30.2 million, which was deemed recoverable as of December 31, 2008 based on our impairment test that includes the operating cash flow generated from WoW operation during the period from January 1 to June 6, 2009, but was no longer recoverable following the expiration of the WoW license on June 7, 2009, (ii) a provision of RMB27.5 million for upfront license fees due to weaker than expected operating performance of certain games, and unsatisfactory market acceptance and deteriorating operational performance of certain licensed games, which have been commercially launched in other regions, but not yet commercially launched by us in China, and (iii) a provision of RMB21.2 million for computer equipment due to weaker than expected operating performance of certain games and the low possibility of reusing idled computer equipment in the foreseeable future.

Interest Income. Net interest income decreased by 46.2% from RMB56.7 million in 2008 to RMB30.5 million in 2009, mainly due to a decrease in cash balances.

Other Income (Expense). Other income was RMB61.8 million in 2009, compared to other expenses of RMB19.0 million in 2008. This change was primarily attributable to an increase of financial subsidies received from local government and a decrease in foreign exchange losses in 2009. Financial subsidies received amounted to RMB57.0 million in 2009, compared to RMB15.8 million in 2008, and foreign exchange gain amounted to RMB1.4 million in 2009, compared to foreign exchange losses of RMB31.7 million in 2008.

Income Tax Benefit (Expenses). Income tax benefit was RMB5.5 million in 2009, compared to income tax expenses of RMB47.9 million in 2008. The change was primarily due to the loss incurred in 2009, while we earned a profit in 2008.

Impairment Loss on Investment. In 2009, we recorded an impairment provision of RMB22.4 million as loss on investment, compared to RMB25.9 million in 2008. Impairment provisions were recognized in connection with certain investments in online game companies during the respective periods in view of their unsatisfactory financial and game development status.

Table of Contents

Net Income (Loss). As a result of the foregoing, we recorded a net loss in 2009 in the amount of RMB409.9 million, compared to net income of RMB96.2 million in 2008.

Net Income (Loss) Attributable to Noncontrolling Interest. Net loss attributable to noncontrolling interest in 2009 was RMB4.8 million, compared to net loss attributable to noncontrolling interest of RMB0.7 million in 2008.

Net Income (Loss) Attributable to Holders of Ordinary Shares. As a result of the cumulative effect of the above factors, net loss attributable to our holders of ordinary shares was RMB405.2 million in 2009, compared to net income of RMB96.8 million in 2008.

B. Liquidity and Capital Resources

Cash Flows and Working Capital

Historically, we financed our operations primarily through the proceeds from the sale of our Series A convertible preferred shares in April 2000, the convertible loans received from our principal shareholders in October 2001 and October 2002, the net proceeds from our initial public offering of our ADSs in December 2004, the equity investment received from EA in May 2007 and the net cash inflow from our operating activities before 2009.

As of December 31, 2009 and 2010, we had RMB1,675.1 million and RMB1,416.2 million (US\$214.6 million) in cash and cash equivalents, respectively. The decrease of the cash and cash equivalents from 2009 to 2010 was primarily due to the cash used in our operating activities, and, to a lesser extent, the equity investments we made in certain investees. The following table sets forth the summary of our cash flows for the periods indicated:

	2008 RMB	Year Ended December 31,		
		2009 RMB	2010 RMB	US\$
		(in thousands)		
Net cash provided by (used in) operating activities	692,634	(106,086)	(247,552)	(37,508)
Net cash used in investing activities	(487,513)	(16,276)	(7,114)	(1,078)
Net cash provided by (used in) financing activities	(235,734)	(356,548)	(507)	(77)
Effect of foreign exchange rate changes on cash	(32,084)	1,405	(3,719)	(563)
Net increase (decrease) in cash and cash equivalents	(62,696)	(477,505)	(258,892)	(39,226)
Cash and cash equivalents at beginning of year	2,215,282	2,152,586	1,675,081	253,800
Cash and cash equivalents at end of year	2,152,586	1,675,081	1,416,189	214,574

Operating Activities

Net cash used in operating activities was RMB247.6 million (US\$37.5 million) in fiscal 2010, compared to net cash used in operating activities of RMB106.1 million in 2009. This increase from 2009 to 2010 was mainly due to the increase in operating losses resulting from the non-renewal of the WoW license agreement in June 2009, and that we have not identified a product to replace the WoW game. Net cash used in operating activities was RMB106.1 million in fiscal 2009, compared to net cash provided by operating activities of RMB692.6 million in 2008. This decrease from 2008 to 2009 was mainly due to a decrease in our operating income resulting from the non-renewal of the WoW license agreement in June 2009.

Investing Activities

Net cash used in investing activities was RMB7.1 million (US\$1.1 million) in fiscal 2010, compared to RMB16.3 million in fiscal 2009. The decrease in net cash used in investing activities from 2009 to 2010 was mainly due to refund of license fee of certain games, which partially offset by certain equity investments we made in 2010. Net cash used in investing activities was RMB16.3 million in fiscal 2009, compared to RMB487.5 million in fiscal 2008. The decrease in net cash used in investing activities from 2008 to 2009 was mainly due to reduced equity investments and reduced purchases of property, equipment and software.

Table of Contents***Financing Activities***

Net cash used in financing activities in fiscal 2010 amounted to RMB0.5 million (US\$0.1 million), which was primarily attributed to purchase of shares of a subsidiary from holders of noncontrolling interest. Net cash used in financing activities in fiscal 2009 amounted to RMB356.5 million, which was primarily attributed to a special and non-recurring cash dividend paid in February 2009 and cash paid according to our share repurchase program. Net cash used in financing activities in fiscal 2008 was RMB235.7 million, representing cash paid according to our share repurchase program.

As a result of the non-renewal of the WoW license on June 7, 2009, we announced a refund plan in connection with unactivated WoW game point cards, which we recorded as advance from customers. According to the plan, unactivated WoW game point card holders are eligible to receive a cash refund from us. In connection with the settlement of both unactivated points cards and activated but unconsumed point cards, the maximum refund we may potentially make amounts to approximately RMB200.4 million, of which RMB4.0 million and RMB0.4 million (US\$0.06 million) was refunded in 2009 and 2010, respectively. The difference between the face value of the point cards and the net proceeds we received in the sales of the respective point cards was recorded as additional cost of services, amounting to RMB22.1 million for year ended December 31, 2009. The advances from customers and deferred revenue relating to these WoW game point cards will be recorded as revenue after the release of legal liability to refund under the respective laws. We have engaged an agent to settle the liability with the game point card holders and game point distributors. As of December 31, 2010, the balance of the advance payment to the agent was RMB42.9 million (US\$6.5 million).

We have sufficient cash balances as of December 31, 2010 to meet our operating cash flow requirements and enable our company to meet its obligations and to pay off liabilities as and when they fall due for the coming 12 months. As of the date of this filing, we have not identified a product to replace the WoW game, which we had relied on to generate most of our revenues before June 2009. If we are unable to acquire, develop or license a product to replace the WoW game, our cash flows will continue to be adversely impacted in the next 12 months.

Capital Expenditures

Capital Expenditures. We incurred capital expenditures of RMB93.5 million, RMB44.1 million and RMB29.2 million (US\$4.4 million) in 2008, 2009 and 2010, respectively. The capital expenditures principally consisted of purchases of servers, computers and other items related to our network infrastructure and license fees. If we license new games or enter into strategic joint ventures or acquisitions, we may require additional funds for necessary capital expenditure.

C. Research and Development

Our research and development efforts are primarily focused on the development of our proprietary online games, the localization of licensed games from foreign developers, and the maintenance of our websites. We intend to increase our game development capabilities and license and localize more new games that are attractive to users in China. Our research and development expenses were RMB73.8 million, RMB114.4 million and RMB139.4 million (US\$21.1 million) in 2008, 2009 and 2010, respectively.

D. Trend Information

Other than as disclosed elsewhere in this annual report, we are not aware of any trends, uncertainties, demands, commitments or events for the period from January 1, 2010 to December 31, 2010 that are reasonably likely to have a material adverse effect on our net revenues, income, profitability, liquidity or capital resources, or that would cause the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

Table of Contents**E. Off-Balance Sheet Arrangements**

We do not have any outstanding derivative financial instruments, off-balance sheet guarantees, interest rate swap transactions or foreign currency forward contracts. We do not engage in trading activities involving non-exchange traded contracts.

F. Contractual Obligations

We have entered into leasing arrangements related to the use of certain office premises and Internet data centers. The following table sets forth our commitments under operating leases as of December 31, 2010:

	Total	Payment Due by Period		
		Less than 1 year	1-2 years (in RMB)	3-5 years More than 5 years
Operating Lease Obligations	11,200,749	8,009,544	1,729,965	1,461,240

G. Recent Accounting Pronouncements

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements, or ASU 2010-06. ASU 2010-06 amends ASC 820 (formerly SFAS 157) to add new requirements for disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The guidance in the ASU is effective for the first reporting period beginning after December 15, 2009. The adoption of the ASU did not have a material impact on our financial statements, except for the requirement to provide the Level 3 activity of purchases, sales issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. In the period of initial adoption, entities will not be required to provide the amended disclosures for any previous periods presented for comparative purposes. However, those disclosures are required for periods ending after initial adoption. Early adoption is permitted. We do not expect the adoption of the Level 3 guidance of ASU 2010-06 to have a significant impact on our consolidated financial statements.

In December 2010, the FASB issued ASU 2010-28, When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts, or ASU 2010-28. ASU 2010-28 amends guidance for Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. ASU 2010-28 is effective for fiscal years and interim periods beginning after December 15, 2010, with early adoption not permitted. We do not expect that the adoption of ASU 2010-28 will have a material impact on our financial position, results of operations, or cash flows.

In December 2010, the FASB issued ASU 2010-29, Disclosure of Supplementary Pro Forma Information for Business Combinations, or ASU 2010-29. ASU 2010-29 specifies that if a public company presents comparative financial statements, the entity should only disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, with early adoption permitted. The adoption of ASU 2010-29 will not impact our financial position, results of operations, or cash flows.

Table of Contents**H. Safe Harbor**

This annual report on Form 20-F contains statements of a forward-looking nature. These statements are made under the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify these forward-looking statements by terminology such as may, will, expects, anticipates, future, intend, plan, estimate, is/are likely to or other and similar expressions. The accuracy of these statements may be impacted by a number of risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include, but are not limited to, the following:

- our ability to successfully launch and operate additional online games licensed by us in China;
- our ability to license, develop or acquire additional online games that are attractive to users;
- the maintenance and expansion of our relationships with online game developers, including our existing licensors;
- uncertainties in and the timeliness of obtaining necessary governmental approvals and licenses for operating any new online game;
- risks inherent in the online game business;
- risks associated with our future acquisitions and investments;
- our ability to compete successfully against our competitors;
- risks associated with our corporate structure and the regulatory environment in China; and
- other risks outlined in our filings with the SEC including this annual report on Form 20-F.

These risks are not exhaustive. We operate in an emerging and evolving environment. New risk factors emerge from time to time and it is impossible for our management to predict all risk factors, nor can we assess the impact of all factors on our business or the extent to which any specific factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

We would like to caution you not to place undue reliance on forward-looking statements and you should read these statements in conjunction with the risk factors disclosed in Item 3 of this annual report, Key Information D. Risk Factors. We do not undertake any obligation to update forward-looking statements except as required under applicable law.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES**A. Directors and Senior Management**

The names of our current directors and executive officers and their respective ages and positions as of the date of this annual report are as follows:

Directors and Executive Officers⁽¹⁾	Age	Position/Title

(1) Our former president Xiaowei Chen's employment contract with the company expired on May 16, 2010. Lingdong Huang, our former vice president, resigned on August 20, 2010. Xudong He, our former vice president, resigned on November 30, 2010. Huanxin Jiang, our former vice president, resigned on January 31, 2011.

(2) Member of Compensation Committee.

(3) Member of Audit Committee.

Table of Contents

Each of our officers will hold office until such officer's successor is elected and duly qualified, or until such officer's death, bankruptcy, insanity, resignation or removal. There are no family relationships among any of the directors or executive officers of our company. For the terms of our directors, see C. Board Practices Terms of Directors.

Biographical Information

Jun Zhu is one of the co-founders of our company. He has served as the chairman of our board of directors and chief executive officer since our inception. Prior to founding The9, Mr. Zhu co-founded Flagholder New Technology Co. Ltd. in 1997, an information technology company based in China, and served as its director from 1997 to 1999. From 1993 to 1997, Mr. Zhu worked at QJ (U.S.A.) Investment, Ltd., a trading company in the United States. Mr. Zhu attended an undergraduate program at Shanghai Jiaotong University.

Cheung Kin Au-Yeung joined Morningside Group, or Morningside, in 1996 to oversee its PRC portfolio operations. While with Morningside, he served on the board of directors of Media Partners International Holdings Inc. from June 2001 to November 2005 and was seconded to Sohu.com as chief operating officer from July 1999 to December 1999. Mr. Au-Yeung has over twenty years of operating experience in mainland China, and prior to joining Morningside, he ran the greater China operations of several multinational companies for more than sixteen years as general manager. Mr. Au-Yeung holds an MBA and an MS in Physics from Indiana University.

Davin Alexander Mackenzie has served as our independent director since July 2005. Mr. Mackenzie is currently the Beijing representative of Brocade Capital Limited, a private equity advisory firm that he founded in 2009. Prior to that, from 2008 to 2009, Mr. Mackenzie was the managing director and Beijing representative of Arctic Capital Limited, a pan-Asia private equity advisory firm. Between 2000 and 2008, Mr. Mackenzie held the same positions in Peak Capital LLC, another private equity investment and advisory firm that focused on the China market. Prior to his co-founding Peak Capital, Mr. Mackenzie served seven years with the International Finance Corporation, a private sector arm of The World Bank Group, including four years as the resident representative for China and Mongolia. Mr. Mackenzie has also worked at Mercer Management Consultants in Washington, D.C, and at First National Bank of Boston in Taiwan. Mr. Mackenzie currently also serves as a member of the board of directors and the audit and compensation committee of AsiaInfo-Linkage Inc., a Nasdaq-listed company. Mr. Mackenzie is a graduate of Dartmouth College with a Bachelor's degree in Government. He received an MA degree in International Studies and an MBA degree from the Wharton School of Business at the University of Pennsylvania. Mr. Mackenzie has also completed the World Bank Executive Development Program at Harvard Business School.

Chao Y. Wang has served as our independent director since December 2004. Mr. Wang is the founding partner and chief executive officer of ChinaEquity Investment Co., a China-based independent venture capital firm which focuses on the technology, media and telecommunications sectors in China. Before founding ChinaEquity in 1999, Mr. Wang spent 12 years in the investment banking and financial services industry with Chase, Standard & Poors, Morgan Stanley and the China Development Bank. During that time, he served as the head of Morgan Stanley's Beijing operations for three years. Mr. Wang presently serves on the board of directors of several companies including Origo Sino-India Plc, Rising Tech Co. and Infront Sport Media. Mr. Wang holds a Bachelor's degree from Huazhong University of Science and Technology and an MBA degree from Rutgers University. Mr. Wang has also attended the Senior Executive Program of Harvard University and Tsinghua University.

Table of Contents

Ka Keung Yeung has served as our independent director since July 2005. Mr. Yeung is the executive vice president and chief financial officer of Phoenix Satellite Television Holdings Limited, or Phoenix, and is in charge of corporate finance and administration. He is also the company secretary and qualified accountant. Mr. Yeung joined Phoenix in March 1996 and is in charge of all of Phoenix's internal and external financial management and arrangements as well as the supervision of administration and personnel matters. Mr. Yeung graduated from the University of Birmingham and remained in the United Kingdom until 1992 after obtaining his qualification as a chartered accountant. Upon returning to Hong Kong, he worked at Hutchison Telecommunications and STAR in the fields of finance and business development.

George Lai has served as our chief financial officer since July 2008. Prior to joining The9, Mr. Lai worked for Deloitte Touche Tohmatsu since 2000. Mr. Lai worked in several different Deloitte offices, including Hong Kong, New York and Beijing. During his eight years at Deloitte, Mr. Lai played key roles in the audit function in connection with numerous IPO projects in the United States and China. He also assisted public companies in the United States, Hong Kong and China with a wide range of accounting matters. Mr. Lai received his Bachelor of Business Administration, with a focus in professional accountancy, from the Chinese University of Hong Kong. Mr. Lai holds various accounting professional qualifications, including from AICPA, FCCA and HKICPA.

Swun Woo (Tony) Park has served as our vice president since January 2007. Prior to joining us, Mr. Park served as the president of international business at HanbitSoft, a leading game developer and publisher in Korea. Since April 2002, he has served various management functions at HanbitSoft, including business development, strategic planning, marketing and brand management, game studio management, localization & technical operations, joint venture management, as well as investor relations. Prior to joining HanbitSoft, Mr. Park worked as a venture capitalist at ADL Partners from April 2000 to April 2002, and as a management consultant at Arthur D. Little from December 1998 to April 2000. Mr. Park received his Bachelor's degree in Business Administration from the Korea University.

Chris Shen has served as our vice president since January 2006. Mr. Shen joined The9 in August 2005 as our senior director of marketing and is in charge of The9's mobile social gaming platform and marketing and public relations activities. Prior to joining The9, Mr. Shen served as group account director and account director for several renowned advertising agencies in Shanghai and Taipei, mainly focused on servicing multinational brands of different industries, including fast-moving consumer goods, financial services and retail. During the past 12 years, Mr. Shen helped numerous local and international brands plan and execute various marketing initiatives, resulting in excellent performance in their respective markets. Mr. Shen received his Bachelor's degree in management science from the National Chiao Tung University in Taiwan.

Yong Wang has served as our vice president since January 2007. From 2005 to 2007, Mr. Wang served as the senior director of our customer service department. From December 2001 to April 2005, he served as the director of our sales department and led our sales department by strengthening the national distribution network for our pre-paid game cards. Prior to joining us, Mr. Wang worked as a business development manager at East Asia International Trader Company from 1999 to 2000, and as a supervisor of general business department at East Assets Trading Co., Ltd. from 1992 to 1999. Mr. Wang graduated from the Shanghai Mechanical College.

B. Compensation of Directors and Executive Officers

In 2010, the aggregate cash compensation to our executive officers was approximately RMB10.7 million (US\$1.6 million). We paid a total of RMB0.9 million (US\$0.1 million) in cash to our non-executive directors for their services in 2010. No executive officer is entitled to any severance benefits upon termination of his or her employment with our company.

Table of Contents**Amended 2004 Stock Option Plan**

Our board of directors and our shareholders have adopted and approved an Amended 2004 Stock Option Plan in order to attract and retain the best available personnel for positions of substantial responsibility, to provide additional incentive to employees, directors and consultants and to promote the success of our business. As of the date of this annual report, we have reserved 6,449,614 shares under the 2004 option plan, of which 3,903,651 ordinary shares were outstanding. The following table provides a summary of the options granted to our directors, executive officers and other individuals as a group under our Amended 2004 Stock Option Plan as of the date of this annual report and which remain outstanding.

	Total Number of Ordinary Shares Underlying Options Granted	Exercise Price Range (in US\$)	Expiration date
Jun Zhu	1,600,000	5.13	August 27, 2015 August 27, 2015 December 11, 2015
Yong Wang	*	5.13-6.07	March 6, 2012 December 11, 2015
Chris Shen	*	5.13-7.36	March 6, 2012 December 11, 2015
Chao Y. Wang	*	5.13-7.36	March 6, 2012 December 11, 2015
Ka Keung Yeung	*	5.13-7.36	March 6, 2012 December 11, 2015
Davin Alexander Mackenzie	*	5.13-7.36	November 17, 2013 December 11, 2015
Cheung Kin Au-Yeung	*	5.13-7.36	August 27, 2015 December 11, 2015
Swun Woo Park	*	5.13-6.07	November 17, 2013 December 11, 2015
George Lai	*	5.13-7.36	March 6, 2012 December 11, 2015
All Directors and Senior Executive Officers as a Group	2,685,000	5.13-7.36	March 6, 2012 December 11, 2015
Other Individuals as a Group (other than those listed above)	1,218,651	5.13-30.90	March 6, 2012 December 11, 2015

Excluding 1,746,359 options forfeited as of the date of this annual report pursuant to the terms of our Amended 2004 Stock Option Plan.

* The options held by each of these directors and officers represent less than 1% of our total outstanding shares. The following paragraphs describe the other principal terms of our Amended 2004 Stock Option Plan.

Termination of Options. Where the option agreement permits the exercise or purchase of the options granted for a certain period of time following the recipient's termination of service with us, or the recipient's disability or death, the options will terminate to the extent not exercised or purchased on the last day of the specified period or the last day of the original term of the options, whichever occurs first.

Administration. Our stock option plan is administered by our board of directors or an option administrative committee designated by our board of directors and constituted to comply with applicable laws. In each case, our board of directors or the committee it designates will determine the provisions, terms and conditions of each option grant, including, but not limited to, the option vesting schedule, repurchase provisions, forfeiture provisions, form of payment upon settlement of the award, payment contingencies and satisfaction of any performance criteria.

Vesting Schedule. Options granted under our stock option plan vest over a two to four year period following a specified vesting commencement date. In general, the options granted will vest over the vesting period on a monthly basis, subject to the recipient of the options continuing to be employed by us on each vesting date.

Table of Contents

Option Agreement. Options granted under our stock option plan are evidenced by an option agreement that contains, among other things, provisions concerning exercisability and forfeiture upon termination of employment or consulting arrangements, as determined by our board. In addition, the option agreement also provides that options granted under our stock option plan are subject to a 180-day lock-up period following the effective date of a registration statement filed by us under the Securities Act, if so requested by us or any representative of the underwriters in connection with any registration of the offering of any of our securities.

Option Exercise. The term of options granted under our stock option plan may not exceed five years from the date of grant. The consideration to be paid for our shares upon exercise of an option or purchase of shares underlying the option will be determined by the plan administrator and may include cash, check, ordinary shares, a promissory note, consideration received by us under a cashless exercise program implemented by us in connection with our stock option plan, or any combination of the foregoing methods of payment.

Third-Party Acquisition. If a third party acquires us through the purchase of all or substantially all of our assets, a merger or other business combination, all outstanding options or share purchase rights will be assumed or equivalent options or rights substituted by the successor corporation or parent or subsidiary of the successor corporation. In the event that the successor corporation refuses to assume or substitute for the options or share purchase rights, all options or share purchase rights will become fully vested and exercisable immediately prior to such transaction and all unexercised awards will terminate unless, in either case, the awards are assumed by the successor corporation or its parent.

Changes in Capitalization and Other Adjustments. If we shall at any time increase or decrease the number of outstanding shares, or change in any way the rights and privileges of our outstanding shares, by means of a payment or a stock dividend or any other distribution upon such ordinary shares, or through a stock split, subdivision, consolidation, combination, reclassification or recapitalization involving such ordinary shares, then in relation to the ordinary shares that are covered by the options granted or available under the plan and are affected by one or more of the above events, the number, rights and privileges shall be increased, decreased or changed in like manner as if such ordinary shares had been issued and outstanding, fully paid and non-assessable at the time of such occurrence.

Termination of Plan. Unless terminated earlier, our stock option plan will expire in 2024. Our board of directors has the authority to amend, alter, suspend or terminate our stock option plan. However, no such action may (i) impair the rights of any optionee unless agreed by the optionee and the stock option plan administrator, or (ii) affect the stock option plan administrator's ability to exercise the powers granted to it under our stock option plan.

C. **Board Practices**

Board of Directors

Our board of directors consists of the following five directors: Jun Zhu, Cheung Kin Au-Yeung, Chao Y. Wang, Davin Mackenzie and Ka Keung Yeung. A director is not required to hold any shares in our company by way of qualification. A director may vote with respect to any contract, proposed contract or arrangement in which he is materially interested so long as he has disclosed the nature of the interest at a meeting of the directors. A director may exercise all the powers of our company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of our company or of any third party.

Committees of the Board of Directors

Audit Committee. Our audit committee consists of Messrs. Chao Y. Wang, Davin A. Mackenzie and Ka Keung Yeung, all of whom satisfy the independence definition under Rule 5605 of the Nasdaq Stock Market, Inc. Marketplace Rules, or the Nasdaq Rules and the audit committee independence standard under Rule 10A-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act. All the members of our audit committee meet the financial expert definition of the Nasdaq Rules.

Table of Contents

The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

- selecting the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;
- reviewing and approving all proposed related-party transactions;
- discussing the annual audited financial statements with management and the independent auditors;
- annually reviewing and reassessing the adequacy of our audit committee charter;
- meeting separately and periodically with management and the independent auditors;
- reporting regularly to the full board of directors; and
- such other matters that are specifically delegated to our audit committee by our board of directors from time to time.

Compensation Committee. Our compensation committee consists of Messrs. Chao Y. Wang, Davin A. Mackenzie and Ka Keung Yeung, all of whom meet the independence definition under the Nasdaq Rules. The compensation committee assists the board in reviewing and approving the compensation structure of our executive officers, including all forms of compensation to be provided to our executive officers. The compensation committee will be responsible for, among other things:

- reviewing and determining the compensation for our five most senior executives;
- reviewing the compensation of our other employees and recommending any proposed changes to the management;
- reviewing and approving director and officer indemnification and insurance matters;
- reviewing and approving any employee loans in an amount equal to or greater than US\$60,000 (or such amount as from time to time announced by the relevant regulatory bodies as requiring the approval of the Committee); and
- reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pensions and welfare benefits plans.

Duties of Directors

Under Cayman Islands law, our directors have a statutory duty of loyalty to act honestly in good faith with a view to our best interests. Our directors also have a duty to exercise the skill they actually possess and such care and diligence that a reasonably prudent person would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association.

Terms of Directors

Our board of directors are currently divided into three classes with different terms. This provision would delay the replacement of a majority of our directors and would make changes to the board of directors more difficult than if such provision were not in place. The three independent directors were re-elected at our 2009 annual general meeting and each of them is serving a three-year term until the 2012 annual general meeting or until his successor is duly elected and qualified.

Table of Contents

Upon expiration of the term of office of each class, succeeding directors in each class will be elected for a term of three years. Directors may be removed from office by ordinary resolution of shareholders at any time before the expiration of his/her term.

Pursuant to the natural expiration of the directorial terms, elections for directors would be held on the date of the annual general meeting of shareholders. We may remove a director from office by ordinary resolution.

Voting Agreement

On November 26, 2004, IncSight and Bosma, our two largest shareholders, entered into a voting agreement with respect to the election of our board of directors. Both parties have agreed to vote their respective shares to ensure that our board of directors consists of: (i) one director designated by IncSight, so long as it holds 5% or more of our total outstanding shares, which is currently Jun Zhu; (ii) one director designated by Bosma, so long as it holds 5% more of our total outstanding shares, which is currently Cheung Kin Au-Yeung; (iii) two individuals mutually acceptable to IncSight and Bosma, but who are not otherwise affiliated with either of them, our company or any of our shareholders; and (iv) an additional individual who is not affiliated with either IncSight, Bosma, our company or any of our shareholders. Both parties agreed to vote to ensure that none of the directors elected pursuant to the voting agreement shall be removed from office, except for cause or unless by the affirmative vote of both parties. In addition, each of IncSight and Bosma agrees to elect one or two individuals designated by the other party as directors so long as each of them holds not less than 20% of the total issued shares of our company. The voting agreement shall continue until both parties mutually agree in writing to terminate it.

D. Employees

As of December 31, 2010, we had 738 employees, including 84 in management and administration, 128 in our customer service centers, 309 in game operations, sales and marketing, and 217 in product development, including supplier management personnel and technical support personnel. We consider our relations with our employees to be good.

E. Share Ownership

The following table sets forth information with respect to the beneficial ownership of our ordinary shares as of March 10, 2011, by:

- (1) each of our directors and executive officers who are also our shareholders; and
- (2) each person known to us to own beneficially more than 5% of our ordinary shares.

Table of Contents

As of March 10, 2011, there were 29,512,745 ordinary shares outstanding, which include 4,388,598 ordinary shares issued to The Bank of New York Mellon, our depository, to facilitate our future issuance of ADSs upon the exercise of options under our share incentive plan but are excluded from the balance sheet herein for accounting purposes.

Name	Ordinary Shares Beneficially Owned	
	Number ⁽¹⁾	% ⁽²⁾
Directors and executive officers:		
Jun Zhu ⁽³⁾	6,755,086	22.2%
Cheung Kin Au-Yeung	*	*
Davin Alexander Mackenzie	*	*
Chao Y. Wang	*	*
Ka Keung Yeung	*	*
George Lai	*	*
Swun Woo Park	*	*
Chris Shen	*	*
Yong Wang	*	*
All Directors and Senior Executive Officers as a Group ⁽⁴⁾	7,081,550	23.0%
Principal shareholders:		
Incsight Limited ⁽⁵⁾	6,399,530	21.3%
Bosma Limited ⁽⁶⁾	4,612,522	15.6%
CRCM Institutional Master Fund (BVI), Ltd. ⁽⁷⁾	3,100,000	10.5%
QVT Financial LP ⁽⁸⁾	1,479,788	5.0%

* Less than 1% of our total outstanding shares.

- (1) Beneficial ownership is determined in accordance with the rules of the SEC, and includes voting or investment power with respect to the securities. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to acquire within 60 days of March 10, 2011, including through the exercise of any option, warrant or other right or the conversion of any other security.
- (2) Percentage of beneficial ownership is based on 29,512,745 ordinary shares outstanding as of March 10, 2011, as well as the shares underlying share options and warrants exercisable by such person or group within 60 days from March 10, 2011.
- (3) Consists of (i) 5,847,334 ordinary shares held by Incsight Limited, a British Virgin Islands company 100% owned by Mr. Zhu, as jointly reported by Incsight Limited and Jun Zhu, (ii) options to purchase 355,556 shares held by Mr. Zhu and (iii) warrants to purchase 552,196 ordinary shares of our company that are also held by Incsight Limited. The business address for Mr. Zhu is Building No. 3, 690 Bibo Road, Zhangjiang Hi-Tech Park, Pudong New Area, Shanghai 201203, People's Republic of China.
- (4) Includes ordinary shares, ordinary shares issuable upon exercise of options and restricted shares, held by all of our directors and executive officers as a group.
- (5) Consists of (i) 5,847,334 ordinary shares held by Incsight Limited, a British Virgin Islands company 100% owned by Jun Zhu, our chairman and chief executive officer, as jointly reported by Incsight Limited and Jun Zhu, and (ii) warrants to purchase 552,196 ordinary shares of our company. The business address for Incsight Limited is Building No. 3, 690 Bibo Road, Zhangjiang Hi-Tech Park, Pudong New Area, Shanghai 201203, People's Republic of China.

Republic of China.

- (6) Consists of 4,612,522 ordinary shares held by Bosma Limited, as reported by Bosma Limited on the Schedule 13G/A filed with the SEC on February 13, 2009. Bosma Limited, a British Virgin Islands corporation, is wholly-owned by Morningside VC Limited, a British Virgin Islands corporation, which is in turn wholly-owned by The HCB Trust, an Isle of Man trust, the trustee of which is Dunn Investments Limited, an Isle of Man corporation. Dunn Investments Limited controls indirectly, through The HCB Trust, a 100% interest in Bosma Limited, and as a result has the sole power to vote and dispose of the shares of The9 Limited held by Bosma Limited. Dunn Investments Limited is controlled by its board of directors, consisting of Lorna Irene Cameron and Philip Alvaro Salazar, both of whom expressly disclaim beneficial ownership of the shares held by Bosma Limited. The address for Bosma Limited is Pasea Estate, Road Town, Tortola, British Virgin Islands.
- (7) Consists of 3,100,000 ADSs, each representing one ordinary share of our company, owned by CRCM Institutional Master Fund (BVI), Ltd., or the Fund, a British Virgin Islands company, as it reported on the Schedule 13G/A filed with the SEC on February 11, 2011. The Fund's investment manager with respect to the ADSs held by the Fund is CRCM LP, a Delaware limited partnership, which in turn has ChinaRock Capital Management Limited, a Hong Kong company limited by shares as its sub-investment adviser. CRCM LP's general partner is CRCM LLC, a Delaware limited liability company. Chun R. Ding, a United States citizen, is the managing partner of CRCM LP, the director of ChinaRock Capital Management Limited and a member of CRCM LLC, with respect to the ADSs held by the Fund. The address for CRCM is c/o Walkers (BVI) Limited, PO Box 92, Road Town, Tortola, British Virgin Islands VG1110.
- (8) Consists of 1,337,038 ordinary shares held by QVT Fund LP and 142,750 ordinary shares held by Quintessence Fund L.P., as reported by QVT Financial LP on the Schedule 13G/A filed with the SEC on February 14, 2011. QVT Financial LP is the investment manager for QVT Fund LP and Quintessence Fund LP and has the power to direct the vote and disposition of ordinary shares held by each fund. QVT Financial LP is a Delaware limited liability company, with an address at 1177 Avenue of the Americas, 9th Floor, New York, New York 10036.

Table of Contents

As of March 10, 2011, approximately 66.75% of the issued and outstanding shares were held by the record shareholders in the United States, including 19,700,346 ADSs, representing 19,700,346 ordinary shares, held by the Bank of New York Mellon, our ADS depository.

None of our shareholders has different voting rights from other shareholders as of the date of this annual report. We are currently not aware of any arrangement that may, at a subsequent date, result in a change of control of our company.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. Major Shareholders

See Item 6. Directors, Senior Management and Employees E. Share Ownership.

B. Related Party Transactions

Arrangements with Affiliated PRC Entities

Current PRC laws and regulations impose substantial restrictions on foreign ownership of entities involved in Internet content provision, Internet culture operation, Internet publishing businesses and advertising in China, which include online game operations. Therefore, we conduct part of our activities through a series of agreements with Shanghai IT. Shanghai IT holds the requisite licenses and approvals for conducting Internet content provision, Internet culture operation and Internet publishing businesses in China. Huopu Cloud holds certain assets and operate certain businesses. Shanghai IT is owned by Jun Zhu, our chairman and chief executive officer and shareholder, and Yong Wang, our vice president. Shanghai Jiucheng Advertisement, which is wholly-owned by Shanghai IT, holds the requisite business license for an advertising entity in China. Huopu Cloud is owned by Junping Han, our senior legal director, and Wei Xiong, our finance director.

We have obtained the exclusive right to benefit from Shanghai IT's licenses and approvals. In addition, through a series of contractual arrangements with Shanghai IT, Shanghai Jiucheng Advertisement, Huopu Cloud and their respective shareholders, we are able to direct and control the operation and management of Shanghai IT, Shanghai Jiucheng Advertisement and Huopu Cloud. We believe that the individual shareholders of Shanghai IT, Shanghai Jiucheng Advertisement and Huopu Cloud will not receive material personal benefits from these agreements except as shareholders or employees of The9 Limited.

We do not believe we could have obtained these agreements, taken as a whole, from unrelated third parties. Because of the uncertainty relating to the legal and regulatory environment in China, the terms of most of the agreements were not defined unless terminated by the parties thereto. According to our PRC counsel, Fangda Partners, subject to the interpretation and implementation of the GAPP Circular, these agreements, except those that have already been terminated, are valid, binding and enforceable under the current laws and regulations of China. The principal provisions of these agreements are described below.

Domain Name License Agreement. We granted Shanghai IT the right to use the domain name www.the9.com for its hosting of the9 City and its provision of Internet content in China. The relevant license agreement was terminated when we transferred the domain name to Shanghai IT.

Table of Contents

Exclusive Technical Service Agreement. We provide Shanghai IT and Huopu Cloud with technical services for the operation of computer software and related business, including the provision of systematic solutions for the operation of Internet websites, the rental of computer and Internet facilities, daily maintenance of Internet servers and databases, the development and update of relevant computer software, and all other related technical and consulting services. Shanghai IT and Huopu Cloud shall pay service fees to us based on their actual operating results. We are the exclusive provider of these services to Shanghai IT and Huopu Cloud.

Shareholder Voting Proxy Agreements. Each of the shareholders of Shanghai IT and Huopu Cloud has entered into a Shareholder Voting Proxy Agreement with us, under which each shareholder of Shanghai IT and Huopu Cloud irrevocably grants us the power to exercise all voting rights to which he is entitled as a shareholder of Shanghai IT and Huopu Cloud. We have also entered into a similar agreement with the shareholder of Shanghai Jiucheng Advertisement.

Call Option Agreements. We entered into a call option agreement with each of the shareholders of Shanghai IT and Huopu Cloud, under which the parties irrevocably agreed that, at our sole discretion, we and/or any third parties designated by us will be entitled to acquire all or part of the equity interests in Shanghai IT and Huopu Cloud, to the extent permitted by the then-effective PRC laws and regulations. The consideration for such acquisition will be the minimum amount permitted by applicable PRC law. The shareholders of Shanghai IT have also agreed not to enter into any transaction, or fail to take any action, that would substantially affect the assets, liabilities, equity or operations of Shanghai IT and Huopu Cloud without our prior written consent. We and the shareholder of Shanghai Jiucheng Advertisement have entered into a similar call option agreement.

Loan Agreements. From 2002 to May 2005, we loaned a total of RMB23.0 million to the shareholders of Shanghai IT, for the purposes of capitalizing and increasing the registered capital of Shanghai IT. In December 2010, we loaned a total of RMB50.0 million to the shareholders of Huopu Cloud, for the purposes of capitalizing the registered capital of Huopu Cloud. Such loan shall become immediately due and payable when we send a written notice to the borrowers requesting repayment. Jun Zhu and Yong Wang have pledged all of their equity interests in Shanghai IT in favor of us under an equity pledge agreement. Junping Han and Wei Xiong have pledged all of their equity interests in Huopu Cloud in favor of us under an equity pledge agreement. In the event of a breach of any term in the loan agreement or any other agreement by either Shanghai IT, Huopu Cloud or its shareholders, we will be entitled to enforce our rights as a pledgee under the agreement. We and the shareholder of Shanghai Jiucheng Advertisement have entered into a similar loan agreement.

Equity Pledge Agreements. To secure the full performance by Shanghai IT, Huopu Cloud or its shareholders of their respective obligations under the Exclusive Technical Service Agreement, the Shareholder Voting Proxy Agreement, the Call Option Agreement and the Loan Agreement, the shareholders of Shanghai IT and Huopu Cloud have pledged all of their equity interests in Shanghai IT and Huopu Cloud, respectively, in favor of us under an equity pledge agreement. Each of the shareholders of Shanghai IT and Huopu Cloud has registered the pledge of its equity interests with the relevant local administration for industry and commerce pursuant to the new PRC Property Rights Law. In the event of a breach of any term in the above agreements by either Shanghai IT, Huopu Cloud or its shareholders, we will be entitled to enforce our pledge rights over such pledged equity interests to compensate for any and all losses suffered from such breach. A similar equity pledge agreement was also entered into by and between us and the individual shareholder of Shanghai Jiucheng Advertisement.

Investments in Affiliated Companies

In July 2006, we invested US\$2 million in IAH which represented an 11.4% equity interest in IAH on an as converted basis. The convertible and redeemable preferred shares are debt securities and are recorded as available-for-sale investment. In April 2009, we loaned a total of US\$1.0 million to IAH for the purpose of increasing IAH's working capital. In late 2009, IAH went into serious financial difficulty, causing a significant decline in fair value of our investment in IAH. We wrote off our investment in IAH accordingly. In June 2010, we sold the investment in IAH, including preferred shares and convertible loan to a third party with total proceeds of US\$1 million.

Table of Contents

The9 Computer, Shanghai IT and 9Webzen Limited (Shanghai), or 9Webzen Shanghai, a company partially-owned by us, have entered into a series of agreements in connection with operating a game in China and providing services to customers jointly. The9 Computer and Shanghai IT share revenue from 9Webzen Shanghai according to the jointly services agreements. The share of revenue from 9Webzen Shanghai amounted to RMB0.7 million and RMB0.5 million for the years ended December 31, 2008 and 2009, respectively. The amounts due from 9Webzen Shanghai amounted to RMB0.6 million and RMB1.1 million as of December 31, 2008 and 2009, respectively. In 2010, due to a prolonged uncertainty on the recoverability of the amount due from 9Webzen Shanghai, we had made fully impairment on the amount due from 9Webzen Shanghai of RMB1.3 million (US\$0.2 million) as of December 31, 2010.

ITEM 8. FINANCIAL INFORMATION**A. Consolidated Statements and Other Financial Information**

We have appended consolidated financial statements filed as part of this annual report.

Legal Proceedings

In February 2010, Beijing Superior Court issued a judgment against us in a lawsuit filed by Beijing Founder Electronics Co., Ltd., which ruled that WoW client installation packages sold by us in 2007 contained fonts that infringed Beijing Founder Electronics Co., Ltd.'s intellectual property rights. Based on the judgment, we are required to compensate Beijing Founder Electronics Co., Ltd. an aggregate amount of RMB1,570,000 (US\$237,879). As of the date of this annual report, we have appealed the judgment and the case is pending.

In May 2009, our affiliated entity Shanghai IT filed a lawsuit against Blizzard Entertainment, Inc. and its subsidiary, Blizzard Software Development (Shanghai) Ltd. in Shanghai No. 1 Intermediate People's Court for unfair competition. The court held an initial hearing in March 2010. As of the date of this annual report, the case is pending.

In March 2010, we filed a lawsuit against Blizzard Entertainment, Inc. and its subsidiary, Blizzard Software Development (Shanghai) Ltd. in Shanghai No. 1 Intermediate People's Court for business secret infringement. We are currently awaiting an initial hearing date for the lawsuit.

In June 2009, our company and certain of its affiliates and subsidiaries filed a lawsuit against Blizzard Entertainment, Inc. and its subsidiary, Blizzard Software Development (Shanghai) Ltd. in Shanghai No. 1 Intermediate People's Court for pre-contractual liability. The court held a hearing in August 2010. As of the date of this annual report, the case is pending.

On October 21, 2009, a securities class action lawsuit, entitled Glaser v. The9 Ltd. et al., Case No. 09-Civ-8904 was filed in the United States District Court for the Southern District of New York against us in connection with the non-renewal of the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs in this case allege that the defendants misrepresented or failed to make material disclosures regarding the likelihood that we would be renewing the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs allege federal securities law violations and seek unspecified damages. On November 4, 2009, an additional securities class action lawsuit, entitled O'Dea v. The9 Ltd. et al., Case No. 09-Civ-9166 was filed in the United States District Court for the Southern District of New York against the same defendants with substantially the same allegations. The court consolidated these complaints into a single action on February 2, 2010, and the consolidated complaint was filed on March 19, 2010. We filed a motion to dismiss the consolidated complaint on May 28, 2010. The plaintiffs filed their opposition to the motion to dismiss on July 12, 2010. We filed a reply to their opposition on August 11, 2010. On March 28, 2011, the court granted our motion to dismiss and ordered the case closed. The plaintiffs have thirty days from the date of the dismissal to refile their complaint.

Table of Contents

Other than the foregoing, we are not currently a party to any material litigation or other legal proceeding and are not aware of any pending or threatened litigation or other legal proceeding that may have a material adverse impact on our business or operations.

Dividend Policy

We announced a special cash dividend on January 21, 2009 in an aggregate amount of US\$29,410,000, or approximately of US\$1.11 per share on our ordinary shares, based on the number of shares outstanding on the date thereof. The special cash dividend was paid on February 5, 2009 to shareholders of record as of the close of business on February 2, 2009. We currently intend to retain most, if not all, of our available funds and any future earnings for use in the operation and expansion of our business.

We rely on dividends and other fees paid to us by our subsidiaries and affiliated entities in China. In accordance with current PRC laws, regulations and accounting standards, our subsidiaries and affiliated entities in China are required to allocate to their general reserves at least 10% of their respective after-tax profits. Appropriations to these reserves are not required after these reserves have reached 50% of the registered capital of the respective companies. In addition, at the discretion of their respective board of directors or shareholders, our subsidiaries and affiliated entities in China shall allocate a portion of their respective after-tax profits to their staff welfare and bonus funds or discretionary surplus reserve. Staff welfare and bonus reserve funds may not be distributed to equity owners. Our board of directors has complete discretion as to whether we will distribute dividends in the future. Even if our board of directors determines to distribute dividends, the form, frequency and amount of our dividends will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors as the board of directors may deem relevant. Any dividend we declare will be paid to the holders of ADSs, subject to the terms of the deposit agreement, to the same extent as holders of our ordinary shares, less the fees and expenses payable under the deposit agreement. Any dividend we declare will be distributed by the depositary bank to the holders of our ADSs. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

B. Significant Changes

We have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

ITEM 9. THE OFFER AND LISTING

A. Offer and Listing Details

Our ADSs, each representing one ordinary share, have been listed on the Nasdaq Global Market since December 15, 2004. Our ADSs are traded under the symbol NCTY.

Table of Contents

The following table provides the high and low trading prices for our ADSs on the Nasdaq Global Market for the periods shown.

	Sales Price	
	High	Low
Annual Highs and Lows		
2006	32.87	15.50
2007	52.44	19.56
2008	28.50	9.97
2009	16.64	6.28
2010	8.66	3.70
Quarterly Highs and Lows		
First Quarter 2009	16.64	9.16
Second Quarter 2009	15.90	8.62
Third Quarter 2009	10.20	7.08
Fourth Quarter 2009	8.97	6.28
First Quarter 2010	8.66	6.35
Second Quarter 2010	7.33	3.70
Third Quarter 2010	5.78	3.75
Fourth Quarter 2010	7.10	5.04
First Quarter 2011	8.49	6.03
Monthly Highs and Lows		
October 2010	5.70	5.04
November 2010	7.10	5.60
December 2010	6.99	5.94
January 2011	8.49	6.63
February 2011	8.20	6.99
March 2011	7.52	6.03
April 2011 (through April 6, 2011)	6.96	6.50

ITEM 10. ADDITIONAL INFORMATION**A. Share Capital**

Not applicable.

Table of Contents**B. Memorandum and Articles of Association**

We are a Cayman Islands company and our affairs are governed by our memorandum and articles of association and the Companies Law (2010 Revision) of the Cayman Islands, which is referred to as the Companies Law below.

As of the date of this annual report, our authorized share capital is US\$2,500,000, consisting of 250,000,000 ordinary shares, par value of US\$0.01 each. The following are summaries of material provisions of our currently effective amended and restated memorandum and articles of association and the Companies Law insofar as they relate to the material terms of our ordinary shares.

Ordinary Shares

General. All of our outstanding ordinary shares are fully paid and non-assessable. Certificates representing the ordinary shares are issued in registered form. Our shareholders may freely hold and vote their shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law.

Voting Rights. Each ordinary share is entitled to one vote on all matters upon which the ordinary shares are entitled to vote. Voting at any meeting of shareholders is by show of hands unless a poll is demanded. A poll may be demanded by any shareholder or shareholders together holding at least ten percent of the shares given a right to vote at the meeting, present in person or by proxy.

A quorum required for a meeting of shareholders consists of holders of not less than one-third of all outstanding shares entitled to vote. Shareholders' meetings shall, if required by the Companies Law, be held annually. Annual general meetings and extraordinary general meetings may be convened by our board of directors on its own initiative. Extraordinary general meetings shall be convened by our board of directors upon a request to the directors by shareholders holding in aggregate at least 33% of our voting share capital. Advance notice of at least seven business days is required for the convening of our annual general meeting and other shareholders meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of not less than two-thirds of the votes attaching to the ordinary shares cast in a general meeting and includes a unanimous written resolution expressly passed as a special resolution. A special resolution is required for important matters such as a change of name, a decrease of our share capital, or amending the memorandum and articles of association. Holders of the ordinary shares may effect certain changes by ordinary resolution, including an increase of our share capital, the consolidation and division of all or any of our share capital into shares of a larger amount than our existing share capital, and the cancellation of any shares.

Transfer of Shares. Subject to the restrictions of our articles of association, as applicable, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board. The transferor shall be deemed to remain the holder of the shares until the name of the transferee is entered in the register of members in respect thereof.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares shall be distributed among the holders of the ordinary shares as the liquidator deems fair. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders proportionately.

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 days prior to the specified time and place of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Table of Contents

Redemption of Shares. Subject to the provisions of the Companies Law and our articles of association, we may issue shares on terms that are subject to redemption, at our option or at the option of the holders, on such terms and in such manner as may be determined by our board of directors.

Variation of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of the Companies Law, be varied either with the written consent of a majority of the issued shares of that class or with the sanction of an ordinary resolution passed at a general meeting of the holders of the shares of that class.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See Item 10. Additional Information H. Documents on Display.

Differences in Corporate Law

The Companies Law is modeled after that of English law but does not follow recent English law statutory enactments. In addition, the Companies Law differs from laws applicable to Delaware corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Law applicable to us and the laws applicable to Delaware corporations and their shareholders.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes:

- a merger means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company; and
- a consolidation means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company.

In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by either:

- a special resolution of the shareholders of each constituent company voting together as one class, if the shares to be issued to each shareholder in the consolidated or surviving company will have the same rights and economic value as the shares held in the relevant constituent company; or
- a shareholder resolution of each constituent company passed by a majority in number representing 75% in value of the shareholders voting together as one class.

The plan of merger or consolidation must be filed with the Registrar of Companies together with a declaration as to the solvency of the consolidated or surviving company, a list of the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and published in the Cayman Islands Gazette. Dissenting shareholders have the right to be paid the fair value of their shares if they follow the required procedures, subject to certain exceptions. The fair value of the shares will be determined by the Cayman Islands court if it cannot be agreed among the parties. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

Table of Contents

In addition, there are statutory provisions that facilitate the reconstruction and amalgamation of companies, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

- the statutory provisions as to majority vote have been met;
- the shareholders have been fairly represented at the meeting in question;
- the arrangement is such that a businessman would reasonably approve; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

When a take-over offer is made and accepted by holders of 90.0% of the shares within four months, the offerer may, within a two month period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed unless there is evidence of fraud, bad faith or collusion.

If the arrangement and reconstruction is thus approved, the dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders Suits. The Cayman Islands courts can be expected to follow English case law precedents. The Cayman Islands courts can be expected to apply and follow common law principles (namely the rule in *Foss v Harbottle* and the exceptions thereto) that permit a minority shareholder to commence a class action against the company or a derivative action in the name of the company to challenge (1) an act that is outside the company's corporate powers or that is illegal, (2) an act constituting a fraud against the minority shareholders where the wrongdoers are themselves in control of the company, and (3) an action requiring a resolution passed by a qualified or special majority that has not been obtained.

Directors Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director act in a manner he reasonably believes to be in the best interests of the corporation. He must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, a director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company—a duty to act bona fide in the best interests of the company, a duty not to make a profit out of his position as director (unless the company permits him to do so) and a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, there are indications that the English and Commonwealth courts are moving towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Table of Contents

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our articles of association provide that shareholders may approve corporate matters by way of written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings. Cayman Islands law and our articles of association allow our shareholders holding not less than 33 per cent of the paid up voting share capital of the company to requisition a shareholder's meeting.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. As permitted under Cayman Islands law, our articles of association do not provide for cumulative voting.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation may be removed with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our articles of association, directors can be removed with or without cause, but only by the vote of a majority of the holders of our shares voting at a meeting or the unanimous written resolution of all shareholders.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware public corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an interested shareholder for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or group who or which owns or owned 15% or more of the target's outstanding voting stock within the past three years. This has the effect of limiting the ability of a potential acquiror to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquiror of a Delaware public corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding Up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board. Under the Companies Law, our company may be dissolved, liquidated or wound up only by a special resolution, or by an ordinary resolution on the basis that our company is unable to pay its debts as they fall due.

Table of Contents

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under our articles of association, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class only with the written consent of the holders of at least a majority of the shares of such class or with the sanction of a resolution passed by at least a majority of the holders of such class present in person or by proxy at a separate general meeting of the holders of the shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. As permitted by Cayman Islands law, our memorandum and articles of association may be amended with the vote of at least two-third holders of our shares at a meeting or the unanimous written resolution of all shareholders.

Anti-Takeover Provisions in Memorandum and Articles of Association. Some provisions of the memorandum and articles of association may discourage, delay or prevent a change in control of our company or management that shareholders may consider favorable, including provisions that:

- authorize our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders; and

- create a classified board of directors pursuant to which our directors are elected for staggered terms, which means that shareholders can only elect, or remove, a limited number of directors in any given year.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Rights of Non-Resident or Foreign Shareholders. There are no limitations imposed by foreign law or by our memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our Memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

Inspection of Books and Records. Under the Delaware General Corporation Law, any shareholder of a corporation may for any proper purpose inspect or make copies of the corporation's stock ledger, list of shareholders and other books and records. Holders of our shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or corporate records. However, we will provide our shareholders with annual audited financial statements.

Shareholder Rights Plan

On January 8, 2009, our board of directors declared a dividend of one ordinary share purchase right, or a Right, for each of our ordinary shares outstanding at the close of business on January 22, 2009. See Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.

C. Material Contracts

We have not entered into any material contracts other than in the ordinary course of business and other than those described in Item 4. Information on the Company or elsewhere in this annual report on Form 20-F.

Table of Contents**D. Exchange Controls**

China's government imposes control over the convertibility of the RMB into foreign currencies. The conversion of RMB into foreign currencies, including U.S. dollars, has been based on rates announced by the PBOC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar. Under the new policy, the Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in an approximately more than 20% appreciation of the RMB against the U.S. dollar over the following five years. While the international reaction to the RMB revaluation has generally been positive, there remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of the RMB against the U.S. dollar.

Pursuant to the Foreign Exchange Control Regulations issued by the State Council on January 29, 1996, and effective as of April 1, 1996 (and amended on January 14, 1997 and August 5, 2008) and the Administration of Settlement, Sale and Payment of Foreign Exchange Regulations which came into effect on July 1, 1996 regarding foreign exchange control, or the Regulations, conversion of RMB into foreign exchange by foreign investment enterprises for current account items, including the distribution of dividends and profits to foreign investors of joint ventures, is permissible. Foreign investment enterprises are permitted to remit foreign exchange from their foreign exchange bank account in China on the basis of, inter alia, the terms of the relevant joint venture contracts and the board resolutions declaring the distribution of the dividend and payment of profits. On January 14, 1997, the State Council amended the Foreign Exchange Control Regulations and added, among other things, an important provision, as Article 5 provides that the state shall not impose restrictions on recurring international current account payments and transfers. Conversion of RMB into foreign currencies and remittance of foreign currencies for capital account items, including direct investment, loans and security investment, is still subject to the approval of SAFE, in each such transaction. Under the Regulations, foreign investment enterprises are required to open and maintain separate foreign exchange accounts for capital account items (but not for other items). In addition, foreign investment enterprises may only buy, sell and/or remit foreign currencies at those banks authorized to conduct foreign exchange business upon the production of valid commercial documents and, in the case of capital account item transactions, document approval from SAFE.

Currently, foreign investment enterprises are required to apply to SAFE for foreign exchange registration certificates for foreign investment enterprises (which are granted to foreign investment enterprises, upon fulfilling specified conditions and which are subject to review and renewal by SAFE on an annual basis). With such foreign exchange registration certificates and required underlying transaction documents, or with approval documents from the SAFE if the transactions are under capital account (which are obtained on a transaction-by-transaction basis), foreign-invested enterprises may enter into foreign exchange transactions at banks authorized to conduct foreign exchange business to obtain foreign exchange for their needs.

E. Taxation

The following summary of the material Cayman Islands and United States federal income tax consequences of an investment in our ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this annual report, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ADSs or ordinary shares, such as the tax consequences under state, local and other tax laws.

Cayman Islands Taxation

In the opinion of our Cayman Islands counsel, Maples and Calder, the Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. No Cayman Islands stamp duty will be payable unless an instrument is executed in, brought to, or produced before a court of the Cayman Islands. The Cayman Islands is not party to any double tax treaties which are applicable to payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Table of Contents

United States Federal Income Taxation

The following discussion describes the material U.S. federal income tax consequences to U.S. Holders (as defined below) under current law of an investment in the ADSs or ordinary shares. This discussion applies only to U.S. Holders that hold the ADSs or ordinary shares as capital assets (generally, property held for investment) and have the U.S. dollar as their functional currency. This discussion is based on the tax laws of the United States in effect as of the date of this annual report and on U.S. Treasury regulations in effect or, in some cases, proposed as of the date of this annual report, as well as judicial and administrative interpretations thereof available on or before such date. All of the foregoing authorities are subject to change, which change could apply retroactively and could affect the tax consequences described below.

The following discussion does not deal with the tax consequences to any particular investor or to persons in special tax situations such as:

- banks and other financial institutions;
- insurance companies;
- regulated investment companies;
- real estate investment trusts;
- broker-dealers;
- traders that elect to use a mark-to-market method of accounting;
- U.S. expatriates;
- tax-exempt entities;
- persons liable for alternative minimum tax;
- persons holding an ADS or ordinary share as part of a straddle, hedging, conversion or integrated transaction;
- persons that actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock;
- partnerships or other pass-through entities, or persons holding ADSs or ordinary shares through such entities; or
- persons who acquired ADSs or ordinary shares pursuant to the exercise of any employee share option or otherwise as compensation.

INVESTORS ARE URGED TO CONSULT THEIR TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL TAX RULES TO THEIR PARTICULAR CIRCUMSTANCES AS WELL AS THE STATE, LOCAL, FOREIGN AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF ADSs OR ORDINARY SHARES.

Table of Contents

The discussion below of the U.S. federal income tax consequences to U.S. Holders will apply to you if you are a beneficial owner of ADSs or ordinary shares and you are, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) organized under the laws of the United States, any State thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust that (1) is subject to the primary supervision of a court within the United States and the control of one or more U.S. persons for all substantial decisions or (2) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

If a partnership (or other entity taxable as a partnership for U.S. federal income tax purposes) is a beneficial owner of our ADSs or ordinary shares, the tax treatment of a partner in such partnership will depend on the status of such partner and the activities of such partnership.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement have been and will be complied with in accordance with their terms. If you hold ADSs, you should be treated as the holder of the underlying ordinary shares represented by those ADSs for U.S. federal income tax purposes.

The U.S. Treasury has expressed concerns that intermediaries in the chain of ownership between the holder of an ADS and the issuer of the security underlying the ADS may be taking actions that are inconsistent with the beneficial ownership of the underlying security (for example, pre-releasing ADSs to persons that do not have beneficial ownership of the securities underlying the ADSs). Accordingly, the availability of the reduced tax rate for dividends received by certain non-corporate U.S. Holders, including individual U.S. Holders (as discussed below), could be affected by actions taken by intermediaries in the chain of ownership between the holders of ADSs and our company if as a result of such actions the holders of ADSs are not properly treated as beneficial owners of underlying ordinary shares.

Passive Foreign Investment Company

Based on the market price of our ADSs and the value and composition of our assets, we believe we were a passive foreign investment company, or PFIC, for U.S. federal income tax purposes for the taxable year ended December 31, 2010. A non-U.S. corporation will be a PFIC for any taxable year if either:

- at least 75% of its gross income for such year is passive income; or
- at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income (the asset test).

We will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, at least 25% (by value) of the stock. In applying this rule, however, it is not clear whether the contractual arrangements between us and our affiliated entities will be treated as ownership of stock.

We must make a separate determination after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the asset test generally will be determined by reference to the market price of our ADSs or ordinary shares, our PFIC status will depend in large part on the market price of our ADSs or ordinary shares, which may fluctuate significantly. Based on the market price of our ADSs and our retention of a significant amount of cash during the taxable year ended December 31, 2010, we believe we were a PFIC for such year.

Table of Contents

If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares, we generally will continue to be treated as a PFIC with respect to you for all succeeding years during which you hold ADSs or ordinary shares, unless we cease to be a PFIC and you make a deemed sale election with respect to the ADSs or ordinary shares, as applicable. If such election is made, you will be deemed to have sold the ADSs or ordinary shares you hold at their fair market value and any gain from such deemed sale would be subject to the rules described in the following two paragraphs. After the deemed sale election, so long as we do not become a PFIC in a subsequent taxable year, your ADSs or ordinary shares with respect to which such election was made will not be treated as shares in a PFIC and you will not be subject to the rules described below with respect to any excess distribution you receive from us or any gain from an actual sale or other disposition of the ADSs or ordinary shares. **You are strongly urged to consult your tax advisors as to the possibility and consequences of making a deemed sale election if we cease to be a PFIC and such election becomes available to you.**

For each taxable year that we are treated as a PFIC with respect to you, you will be subject to special tax rules with respect to any excess distribution you receive and any gain you recognize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a mark-to-market election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules, if you receive any excess distribution or recognize any gain from a sale or other disposition of the ADSs or ordinary shares:

- the excess distribution or recognized gain will be allocated ratably over your holding period for the ADSs or ordinary shares;
- the amount allocated to the current taxable year, and any taxable years in your holding period prior to the first taxable year in which we were a PFIC, will be treated as ordinary income; and
- the amount allocated to each other taxable year will be subject to tax at the highest tax rate in effect for individuals or corporations, as applicable, for each such year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

The tax liability for amounts allocated to years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) from the sale or other disposition of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

If we are treated as a PFIC with respect to you for any taxable year, to the extent any of our subsidiaries are also PFICs or we make direct or indirect equity investments in other entities that are PFICs, you will be deemed to own shares in such lower-tier PFICs that are directly or indirectly owned by us in that proportion that the value of the ADSs or ordinary shares you own bears to the value of all of our ADSs or ordinary shares, and you may be subject to the rules described in the preceding two paragraphs with respect to the shares of such lower-tier PFICs that you would be deemed to own. It is likely that one or more of our subsidiaries were PFICs for the taxable year ended December 31, 2010. You should consult your tax advisors regarding the application of the PFIC rules to any of our subsidiaries.

A U.S. Holder of marketable stock (as defined below) of a PFIC may make a mark-to-market election for such stock to elect out of the PFIC rules described above regarding excess distributions and recognized gains. If you make a valid mark-to-market election for the ADSs or ordinary shares, you will include in income for each year that we are a PFIC an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You will be allowed a deduction for the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. However, deductions will be allowable only to the extent of any net mark-to-market gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as gain on the actual sale or other disposition of the ADSs or ordinary shares, will be treated as ordinary income. Ordinary loss treatment will apply to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss from the actual sale or other disposition of the ADSs or ordinary shares, to the extent that the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income

or loss amounts. If you make a mark-to-market election, any distributions that we make would generally be subject to the tax rules discussed below under Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares, except that the lower tax rate applicable to qualified dividend income would not apply.

Table of Contents

The mark-to-market election is available only for marketable stock, which is stock that is traded in greater than *de minimis* quantities on at least 15 days during each calendar quarter (regularly traded) on a qualified exchange or other market, as defined in applicable U.S. Treasury regulations. The ADSs are currently listed on Nasdaq, which is a qualified exchange or other market for these purposes. Consequently, if the ADSs remain listed on Nasdaq and are regularly traded, and you are a holder of ADSs, we expect the mark-to-market election would be available to you if we are a PFIC (as we believe we were for 2010). Because a mark-to-market election cannot be made for equity interests in any lower-tier PFICs that we own, a U.S. Holder may continue to be subject to the PFIC rules described above regarding excess distributions and recognized gains with respect to its indirect interest in any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes. You should consult your tax advisors as to the availability and desirability of a mark-to-market election, as well as the impact of such election on interests in any lower-tier PFICs.

Alternatively, a U.S. Holder of stock in a PFIC may make a qualified electing fund election with respect to such corporation to elect out of the PFIC rules described above regarding excess distributions and recognized gains. A U.S. Holder that makes a qualified electing fund election with respect to a PFIC will generally include in income such holder's *pro rata* share of the corporation's income on a current basis. However, you may make a qualified electing fund election with respect to your ADSs or ordinary shares only if we furnish you annually with certain tax information, and we currently do not intend to prepare or provide such information.

Unless otherwise provided by the U.S. Treasury, each U.S. shareholder of a PFIC is required to file an annual report containing such information as the U.S. Treasury may require. If we are a PFIC (as we believe we were for 2010), you should consult your tax advisors regarding any reporting requirements that may apply to you.

YOU ARE STRONGLY URGED TO CONSULT YOUR TAX ADVISORS REGARDING THE IMPACT OF OUR BEING A PFIC FOR 2010 ON YOUR INVESTMENT IN OUR ADSs AND ORDINARY SHARES AS WELL AS THE APPLICATION OF THE PFIC RULES AND THE POSSIBILITY OF MAKING A MARK-TO-MARKET ELECTION.

Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares

Subject to the PFIC rules discussed above, the gross amount of any distribution we make to you with respect to the ADSs or ordinary shares generally will be includible in your gross income as dividend income on the date of receipt by the depository, in the case of ADSs, or by you, in the case of ordinary shares, but only to the extent that the distribution is paid out of our current or accumulated earnings and profits (as computed under U.S. federal income tax principles). The dividends will not be eligible for the dividends-received deduction allowed to corporations in respect of dividends received from other U.S. corporations. To the extent the amount of the distribution exceeds our current and accumulated earnings and profits, such excess amount will be treated first as a tax-free return of your tax basis in your ADSs or ordinary shares, and then, to the extent such excess amount exceeds your tax basis, as a capital gain. With respect to certain non-corporate U.S. Holders, including individual U.S. Holders, for taxable years beginning before January 1, 2013, dividends will be taxed at the lower capital gains rate applicable to qualified dividend income, provided that (1) the ADSs or ordinary shares, as applicable, are readily tradable on an established securities market in the United States, or we are eligible for the benefits of a qualifying income tax treaty with the United States that includes an exchange of information program, (2) we are neither a PFIC nor treated as such with respect to you for the taxable year in which the dividend was paid and the preceding taxable year, and (3) certain holding period requirements are met. Under Internal Revenue Service authority, common or ordinary shares, or ADSs representing such shares, are considered for the purpose of clause (1) above to be readily tradable on an established securities market in the United States if they are listed on Nasdaq, as are our ADSs (but not our ordinary shares). If we are treated as a resident enterprise for PRC tax purposes under the CIT Law (see Item 3. Key Information D. Risk Factors

Risks Related to Our Company New income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), we may be eligible for the benefits of the income tax treaty between the United States and the PRC. You should consult your tax advisors regarding the availability of the lower capital gains rate applicable to qualified dividend income for dividends paid with respect to our ADSs or ordinary shares.

Table of Contents

Dividends will constitute foreign source income for foreign tax credit limitation purposes. If the dividends are taxed as qualified dividend income (as discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation will be limited to the gross amount of the dividend, multiplied by the reduced tax rate applicable to qualified dividend income and divided by the highest tax rate normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, dividends distributed by us with respect to the ADSs or ordinary shares generally will constitute passive category income but could, in the case of certain U.S. Holders, constitute general category income. If PRC withholding taxes apply to dividends paid to you with respect to our ADSs or ordinary shares (see Item 3. Key Information D. Risk Factors Risks Related to Our Company New income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), subject to certain conditions and limitations, such PRC withholding taxes may be treated as foreign taxes eligible for credit against your U.S. federal income tax liability. The rules relating to the determination of the foreign tax credit are complex, and you should consult your tax advisors regarding the availability of a foreign tax credit in your particular circumstances.

Taxation of Disposition of the ADSs or Ordinary Shares

Subject to the PFIC rules discussed above, you will recognize taxable gain or loss on any sale, exchange or other taxable disposition of an ADS or ordinary share equal to the difference between the amount realized (in U.S. dollars) for the ADS or ordinary share and your tax basis (in U.S. dollars) in the ADS or ordinary share. If the consideration you receive for the ADS or ordinary share is not paid in U.S. dollars, the amount realized will be the U.S. dollar value of the payment received. In general, the U.S. dollar value of such a payment will be determined on the date of receipt of payment if you are a cash basis taxpayer and on the date of disposition if you are an accrual basis taxpayer.

However, if the ADSs or ordinary shares, as applicable, are treated as traded on an established securities market and you are either a cash basis taxpayer or an accrual basis taxpayer who has made a special election, you will determine the U.S. dollar value of the amount realized in a foreign currency by translating the amount received at the spot rate of exchange on the settlement date of the sale. The gain or loss generally will be a capital gain or loss. If you are a non-corporate U.S. Holder, including an individual U.S. Holder, who has held the ADS or ordinary share for more than one year, you generally will be eligible for reduced tax rates. The deductibility of capital losses is subject to limitations.

Any gain or loss that you recognize on a disposition of ADSs or ordinary shares generally will be treated as U.S. source income or loss for foreign tax credit limitation purposes (in the case of loss, subject to certain limitations). However, if we are treated as a resident enterprise for PRC tax purposes and PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares (see Item 3. Key Information D. Risk Factors Risks Related to Our Company New income tax laws may increase our tax burden or the tax burden on the holders of our shares or ADSs, and tax benefits available to us may be reduced or repealed, causing the value of your investment in us to suffer), a U.S. Holder that is eligible for the benefits of the income tax treaty between the United States and the PRC may elect to treat the gain as PRC source income. You should consult your tax advisors regarding the proper treatment of gain or loss in your particular circumstances.

Information Reporting and Backup Withholding

Dividend payments with respect to ADSs or ordinary shares and proceeds from the sale, exchange or redemption of ADSs or ordinary shares will generally be subject to information reporting to the Internal Revenue Service and possible U.S. backup withholding at a current rate of 28%. Backup withholding will not apply, however, to a U.S. Holder that furnishes a correct taxpayer identification number and makes any other required certification on Internal Revenue Service Form W-9 or that is otherwise exempt from backup withholding. U.S. Holders that are exempt from backup withholding should still complete Internal Revenue Service Form W-9 to avoid possible erroneous backup withholding. Certain individuals holding ADSs or ordinary shares other than in an account at certain financial institutions may be subject to additional information reporting requirements. You should consult your tax advisors regarding the application of the U.S. information reporting and backup withholding rules.

Table of Contents

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing an appropriate claim for refund with the Internal Revenue Service and furnishing any required information in a timely manner.

Not Applicable.

H. Documents on Display

We are subject to the periodic reporting and other informational requirements of the Exchange Act. Under the Exchange Act, we are required to file reports and other information with the SEC. Copies of reports and other information, when so filed, may be inspected without charge and may be obtained at prescribed rates at the public reference facilities maintained by the SEC. The SEC also maintains a web site at www.sec.gov that contains reports, proxy and information statements, and other information regarding registrants that make electronic filings with the SEC using its EDGAR system. As a foreign private issuer, we are exempt from the rules under the Exchange Act prescribing the furnishing and content of quarterly reports and proxy statements, and officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act.

Our financial statements have been prepared in accordance with U.S. GAAP.

We will furnish our shareholders with annual reports, which will include a review of operations and annual audited consolidated financial statements prepared in conformity with U.S. GAAP.

I. Subsidiary Information

For a listing of our subsidiaries, see Item 4 Information on the Company C. Organizational Structure, as well as Exhibit 8.1 filed herewith.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk. Our exposure to interest rate risk for changes in interest rates relates primarily to the interest income generated by excess cash invested in bank deposits. We have not used any derivative financial instruments in our investment portfolio or for cash management purposes. Interest-earning instruments carry a degree of interest rate risk. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates. However, our future interest income may fall short of expectations due to changes in interest rates.

Table of Contents

Foreign Exchange Risk. We are exposed to foreign exchange risk arising from various currency exposures. Our payments to overseas developers and a portion of our financial assets are denominated in U.S. dollars while almost all of our revenues are denominated in RMB, the legal currency in China. We have not used any forward contracts or currency borrowings to hedge our exposure to foreign currency risk. The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions. The conversion of RMB into foreign currencies, including U.S. dollars, has been based on rates set by PBOC. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar. Under the new policy, the RMB is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies. This change in policy has resulted in an approximately more than 20% appreciation of the RMB against the U.S. dollar over the following five years. While the international reaction to the RMB revaluation has generally been positive, there remains significant international pressure on the PRC government to adopt an even more flexible currency policy, which could result in a further and more significant appreciation of the RMB against the U.S. dollar.

Any significant revaluation of RMB may adversely affect our cash flows and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. For example, an appreciation of RMB against the U.S. dollar would make any new RMB denominated investments or expenditures more costly to us, to the extent that we need to convert U.S. dollars into RMB for such purposes. An appreciation of RMB against the U.S. dollar would also result in foreign currency translation losses for financial reporting purposes when we translate our U.S. dollar denominated monetary assets into RMB, as the RMB is our functional and reporting currency.

Foreign exchange transactions under our capital account, including principal payments with respect to foreign currency-denominated obligations, continue to be subject to significant foreign exchange controls and the approval of SAFE. These limitations could affect our ability to obtain foreign exchange through debt or equity financing, or to obtain foreign exchange for capital expenditures. See Item 3. Key Information D. Risk Factors Risks Related to Doing Business in China Restrictions on currency exchange in China limit our ability to utilize our revenues effectively, make dividend payments and meet our foreign currency denominated obligations.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES**A. Debt Securities**

Not applicable.

B. Warrants and Rights

Not applicable.

C. Other Securities

Not applicable.

D. American Depositary Shares

The Bank of New York Mellon, our ADS depository, collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depository collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depository may collect its annual fee for depository services by deductions from cash distributions, or by directly billing investors, or by charging the book-entry system accounts of participants acting for them. The depository may generally refuse to provide fee-attracting services until its fees for those services are paid.

Persons depositing or withdrawing shares must pay:

\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs)

For:

Issuance of ADSs, including issuances resulting from a distribution of shares or rights or other property

Cancellation of ADSs for the purpose of withdrawal, including if the deposit agreement terminates

\$.02 (or less) per ADS

Any cash distribution to ADS registered holders

Table of Contents

Persons depositing or withdrawing shares must pay:

A fee equivalent to the fee that would be payable if securities distributed to you had been shares and the shares had been deposited for issuance of ADSs

\$.02 (or less) per ADSs per calendar year

Registration or transfer fees

Expenses of the depository

Taxes and other governmental charges the depository or the custodian have to pay on any ADS or share underlying an ADS, for example, stock transfer taxes, stamp duty or withholding taxes

Any charges incurred by the depository or its agents for servicing the deposited securities

The depository has agreed to reimburse us for expenses we incur that are related to the administration and maintenance of our ADS facility including, but not limited to, investor relations expenses, the annual Nasdaq Stock Market continued listing fees or any other program related expenses every year. There are limits on the amount of expenses for which the depository will reimburse us, but the amount of reimbursement available to us is not related to the amounts of fees the depository collects from investors. In 2010, we were entitled to receive US\$305,000 from the depository as reimbursement for legal fees and administrative expenses, and as of the date of this annual report we have received US\$219,614.53 for the year 2010 after deducting withholding tax.

For:

Distribution of securities distributed to holders of deposited securities that are distributed by the depository to ADS registered holders

Depository services

Transfer and registration of shares on our share register to or from the name of the depository or its agent when you deposit or withdraw shares

Cable, telex and facsimile transmissions (when expressly provided in the deposit agreement)

Converting foreign currency to U.S. dollars

As necessary

As necessary

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

Not Applicable.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

Shareholder Rights Plan

On January 8, 2009, our board of directors declared a dividend of one ordinary share purchase right, or a Right, for each of our ordinary shares outstanding at the close of business on January 22, 2009. As long as the Rights are attached to the ordinary shares, we will issue one Right (subject to adjustment) with each new ordinary share so that all such ordinary shares will have attached Rights. When exercisable, each Right will entitle the registered holder to purchase from us one ordinary share at a price of US\$19.5 per ordinary share, subject to adjustment.

The Rights will expire on January 8, 2019, subject to our right to extend such date and are exercisable only if a person or group obtains ownership of or announces a tender offer for 15% or more of our voting securities (including our company's ADSs representing ordinary shares). Upon exercise, all Rights holders except the potential acquirer will be entitled to acquire our shares or the acquirer's shares at a discount. We are entitled to redeem the Rights in whole at any time on or before the acquisition by a person or group of 15% or more of our voting securities (which for these purposes include ADSs representing ordinary shares), or exchange the Rights, in whole or in part, at an exchange ratio of one ordinary share, and of other securities, cash or other assets deemed to have the same value as one ordinary

share, per Right, subject to adjustment.

Table of Contents

The Rights were not distributed in response to any specific effort to acquire control of our company.

Use of Proceeds

Not Applicable.

ITEM 15. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and our chief financial officer, performed an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2010 based on the Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our assessment, management has concluded that our internal control over financial reporting was effective as of December 31, 2010 to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with U.S. GAAP.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as defined in Rule 13a-15(f) under the Exchange Act. Our management evaluated the effectiveness of our internal control over financial reporting, as required by Rule 13a-15(c) of the Exchange Act, based on criteria established in the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, our management has concluded that our internal control over financial reporting was effective as of December 31, 2010.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Deloitte Touche Tohmatsu CPA Ltd., our independent registered public accounting firm, has issued an attestation report on our internal control over financial reporting as of December 31, 2010. That attestation report appears below.

Attestation Report of the Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of The9 Limited:

We have audited the internal control over financial reporting of The9 Limited and its subsidiaries (the Company) as of December 31, 2010, based on the criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

Table of Contents

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2010, based on the criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements as of and for the year ended December 31, 2010 of the Company and our report dated April 7, 2011 expressed an unqualified opinion on those financial statements and included an explanatory paragraph regarding the Company's adoption of FASB Accounting Standards Codification 810-10-65, Consolidation Overall Transition and Open Effective Date Information (previously Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51), effective January 1, 2009.

/s/ Deloitte Touche Tohmatsu CPA Ltd.

Shanghai, China

April 7, 2011

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the year ended December 31, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

See Item 6 of this annual report, Directors, Senior Management and Employees – C. Board Practices.

ITEM 16B. CODE OF ETHICS

Our board of directors has adopted a code of ethics that applies to our directors, officers, employees and agents, including certain provisions that specifically apply to our chief executive officer, chief financial officer, senior finance officer, controller, vice presidents and any other persons who perform similar functions for us. We hereby undertake to provide to any person, without charge, a copy of our code of business conduct and ethics within ten working days after we receive such person's written request.

Table of Contents**ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES**

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by PricewaterhouseCoopers Zhong Tian CPAs Limited Company, our principal external auditors until September 17, 2009, and Deloitte Touche Tohmatsu CPA Ltd., our principal external auditors starting from September 28, 2009, for the periods indicated below.

	2009	2010	
	RMB	RMB	US\$
Audit fees ⁽¹⁾	7,067,896	3,754,970	568,935
Audit-related fees ⁽²⁾	1,652,614	1,078,526	163,413
Tax fees ⁽³⁾	155,030	230,786	34,968
All other fees			

- (1) Audit fees means the aggregate fees billed in each of the fiscal years listed for professional services rendered by our principal auditors for the audit of our annual financial statements.
- (2) Audit-related fees means the aggregate fees billed in each of the fiscal years listed for assurance and related services by our principal auditors that are reasonably related to the performance of the audit or review of our financial statements and are not reported under Audit fees. Services comprising the fees disclosed under the category of Audit-related fees involve principally the issue of consent letters and other audit-related services for the years ended December 31, 2009 and 2010.
- (3) Tax fees means the fees billed for tax compliance services, including the preparation of tax returns and tax consultations.

The policy of our audit committee is to pre-approve all audit and non-audit services provided by our independent registered public accounting firm, including audit services, audit-related services, tax services and other services as described above, other than those for *de minimus* services which are approved by the Audit Committee prior to the completion of the audit.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

We are in compliance with the Nasdaq corporate governance rules with respect to the audit committee.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS.

Not Applicable.

ITEM 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

Not Applicable.

ITEM 16G. CORPORATE GOVERNANCE

We are incorporated in the Cayman Islands and our corporate governance practices are governed by applicable Cayman Islands law. In addition, because our ADSs are listed on the Nasdaq Global Market, we are subject to corporate governance requirements of the Nasdaq. However, Nasdaq Marketplace Rule 5615(a)(3) permits foreign private issuers like us to follow home country practice with respect to certain corporate governance matters, and we may decide to follow the home country practice on a case-by-case basis. We are committed to a high standard of corporate governance. As such, we endeavor to comply with most of the Nasdaq corporate governance practices and believe that we are currently in compliance with the NASDAQ corporate governance practices.

Table of Contents**PART III****ITEM 17. FINANCIAL STATEMENTS**

We have elected to provide financial statements pursuant to Item 18.

ITEM 18. FINANCIAL STATEMENTS

The consolidated financial statements for The9 Limited and its subsidiaries are included at the end of this annual report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of The9 Limited:

We have audited the accompanying consolidated balance sheets of The9 Limited and subsidiaries (the Company) as of December 31, 2009 and 2010, and the related consolidated statements of operations and comprehensive loss, changes in equity, and cash flows for each of the two years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2009 and 2010, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2010, in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 2 to the consolidated financial statements, on January 1, 2009, the Company adopted FASB Accounting Standards Codification 810-10-65, Consolidation Overall Transition and Open Effective Date Information (previously Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2010, based on the criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated April 7, 2011 expressed an unqualified opinion on the Company's internal control over financial reporting.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
TO THE SHAREHOLDERS OF THE9 LIMITED:**

In our opinion, the consolidated statements of operations and comprehensive income (loss), changes in shareholders equity and cash flows for the year ended December 31, 2008 present fairly, in all material respects, the results of operations and cash flows of The9 Limited (the Company) and its subsidiaries for the year ended December 31, 2008 in conformity with accounting principles generally accepted in United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Company adopted FASB Accounting Standards Codification 810-10-65, Consolidation Overall Transition and Open Effective Date Information (previously Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51). The presentation of noncontrolling interests was retrospectively applied in the accompanying 2008 consolidated financial statements.

Shanghai Huopu Cloud Computing Terminal Technology Co., Ltd. (<i>Huopu Cloud</i>)	December-10	PRC	VIE subsidiary	None (Note 4)	

* Previously named as Shenzheng Fatiaocheng Technology Co., Limited.

The Company, its subsidiaries and VIE subsidiaries are collectively referred to as the Group. The Group is principally engaged in the development and operation of online games, and Internet and website related businesses in the People's Republic of China (the PRC).

In February 2004, the Group obtained an exclusive license to localize and promote World of Warcraft (WoW), a 3D fantasy massively multiplayer online role-playing game (MMORPG) in China and commercially launched the localized WoW in June 2005. The license term continued for four years following the commercial launch of the localized WoW. Commencing in April 2008 and through the end of March 2009, the Company and Blizzard Entertainment Inc. (Blizzard), the licensor of WoW, conducted ongoing negotiations with respect to the Company continuing as the operator of WoW in mainland China. On April 16, 2009, the Company learned that the WoW license would be licensed to another China-based online game company. The Company believed that an agreement by which the Company would continue to operate WoW beyond the expiration of the then existing license was imminent. The WoW license was not renewed upon expiration on June 7, 2009. Refer to Note 27 for impairment and certain other charges recorded relating to the expiration and non-renewal of the WoW license for the years ended December 31, 2008 and 2009.

After the expiration of WoW license, the Group continues to operate and develop online games including MMORPG, web games and social games in the PRC. In 2009, the Group commercially launched one MMORPG, Atlantica, one casual game, EA Sports™ FIFA online 2 and one web game, Jiu Zhou Zhan Ji. In 2010, the Group commercially launched two additional MMORPGs, World of Fighter and Kingdom Heroes 2 Online and one web and social game Winning Goal.

2. PRINCIPAL ACCOUNTING POLICIES

<1> Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (US GAAP). Significant accounting policies followed by the Group in the preparation of the accompanying consolidated financial statements are summarized below.

<2> Consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries and VIE subsidiaries for which the Company is the primary beneficiary. All transactions and balances among the Company, its subsidiaries and VIE subsidiaries have been eliminated upon consolidation.

VIEs are consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties.

PRC laws and regulations currently prohibit or restrict foreign ownership of Internet-related business. In September 2009, the General Administration of Press and Publication (GAPP) further promulgated the Circular Regarding the Implementation of the Department Reorganization Regulation by State Council and Relevant Interpretation by State Commission Office for Public Sector Reform to Further Strengthen the Administration of Pre-approval on Online Games and Approval on Import Online Games (the GAPP Circular). It is not clear whether the regulatory authority of the GAPP applies to the regulation of ownership structures of online game companies based in the PRC and online game operation in the PRC. While the GAPP Circular is applicable to the Group and its business in terms of publication and pre-approval of online games, to date, GAPP has not issued any interpretation of Section 4 of the GAPP Circular to specifically invalidate VIE agreements and, to the Group's knowledge, has not taken any enforcement action under Section 4 of the GAPP Circular against any of the companies that rely on contractual arrangements with VIEs to operate online games in the PRC. Therefore, the Group believes that its ability to direct the activities of Shanghai IT that most significantly impact its economic performance is not affected by the GAPP Circular. Accordingly, Shanghai IT continues to be a consolidated VIE of the Group.

Table of Contents**<3> Use of estimates**

The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affected the reported amount of the assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported revenues and expenses during the reported periods. Significant accounting estimates reflected in the Group's consolidated financial statements include allowance for doubtful accounts, the valuation of non-marketable equity investments and determination of other-than temporary impairment, revenue recognition, assessment of recoverability of long-lived assets and goodwill impairment, estimated useful life of property, equipment and software and intangible assets, share-based compensation expense, consolidation of variable interest entities, valuation allowances for deferred tax assets, refund of WoW game points, contingencies and fair value measurements related to business combination including acquired intangible assets. Such accounting policies are impacted significantly by judgments, assumptions and estimates used in the preparation of our consolidated financial statements, and actual results could differ materially from these estimates.

<4> Foreign currency translation

The Group's reporting currency is the Renminbi (RMB). The Group's functional currency with the exception of its subsidiary, Red 5, is the RMB. The functional currency of Red 5 is the United States Dollars (US\$, or US dollars). Assets and liabilities of Red 5 are translated at the current exchange rates quoted by the People's Bank of China (the PBOC) in effect at the balance sheet dates. Equity accounts are translated at historical exchange rates and revenues and expenses are translated at the average exchange rates in effect during the reporting period to RMB. Gains and losses resulting from foreign currency translation to reporting currency are recorded in accumulated other comprehensive income (loss) in the consolidated statements of changes in equity for the years presented. Transactions denominated in currencies other than functional currencies, are translated into functional currencies at the exchange rates prevailing at the dates of the transactions. Gains and losses resulting from foreign currency transactions are included in the consolidated statements of operations and comprehensive income (loss). The aggregate foreign exchange net gain (loss) was RMB(31.7) million, RMB1.4 million and RMB(4.5) million (US\$0.7 million) for the years ended December 31, 2008, 2009 and 2010, respectively. Monetary assets and liabilities denominated in foreign currencies are translated into functional currencies using the applicable exchange rates at the balance sheet dates. All such exchange gains and losses are included in other income (expense) in the consolidated statements of operations and comprehensive income (loss).

<5> Cash and cash equivalents

Cash and cash equivalents represent cash on hand and highly-liquid investments with an original maturity date of three months or less. At December 31, 2009 and 2010, cash equivalents were comprised primarily of bank deposits. Included in cash and cash equivalents as of December 31, 2009 and 2010 are amounts denominated in US Dollars totaling US\$11.4 million and US\$9.2 million, respectively.

Table of Contents

The RMB is not a freely convertible currency. The PRC State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of the RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in China's foreign exchange trading system market. The Company's aggregate amount of cash and cash equivalents denominated in RMB amounted to RMB1,596.7 million and RMB1,354.5 million (US\$205.2 million) as of December 31, 2009 and 2010, respectively.

<6> Allowance for doubtful accounts

Accounts receivable mainly consist of receivables from prepaid card distributors and royalties due from corporate customers, and are recorded net of allowance for doubtful accounts. The Group determines the allowances for doubtful accounts when facts and circumstances indicate that the receivable is unlikely to be collected. Allowances for doubtful accounts are charged to general and administrative expenses. If the financial condition of the Group's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The Company provided allowance for doubtful accounts of RMB22.2 million in 2009 and there is no change in 2010.

<7> Prepaid royalties and deferred costs

In general, there are two types of royalty payments the Group makes to its licensors:

- (i) Royalties paid to the licensors of games are initially recognized as prepaid royalties when paid and subsequently recognized as deferred costs upon the customers' online registration and activation of their cards or online points, and then ultimately recognized as cost of services in the consolidated statements of operations and comprehensive income (loss) based upon the actual usage of the game playing time by the customers or when the likelihood that the Group would provide further services to those customers becomes remote.
- (ii) Royalties payable to the licensors or receivable from collection agents upon customers' charging their accounts are initially recorded as deferred costs upon the customers' online registration and activation of their cards or online points. Deferred costs are recognized as costs of services in the consolidated statements of operations and comprehensive income (loss) based upon the actual usage of the game points by end customers.

Table of Contents**<8> Investments in equity investees**

Equity investments are comprised of investments in privately held companies. The Group uses the equity method to account for an equity investment over which it has significant influence but does not own a majority equity interest or otherwise control, generally accompanying a shareholding of between 20% and 50% of the voting rights. The Group records equity method adjustments in share of earnings and losses. Equity method adjustments include: the Group's proportionate share of investee income or loss, adjustments to recognize certain differences between the Group's carrying value and its equity in net assets of the investee at the date of investment, impairments, and other adjustments required by the equity method. For equity investments over which the Group does not have significant influence or control, cost method of accounting is used. Equity method investments only include non-marketable investments. The Group assesses its equity investments for other-than-temporary impairment by considering factors as well as all relevant and available information including, but not limited to, current economic and market conditions, the operating performance of the investees including current earnings trends, the technological feasibility of the investee's products and technologies, the general market conditions in the investee's industry or geographic area, factors related to the investee's ability to remain in business, such as the investee's liquidity, debt ratios, and cash burn rate and other company-specific information including recent financing rounds.

<9> Available-for-sale investments

Investments in debt and equity securities are, on initial recognition, classified into the three categories: held-to-maturity securities, trading securities and available-for-sale securities. Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and reported at amortized cost. Debt and equity securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities and reported at fair value, with unrealized gains and losses included in earnings. Debt and equity securities not classified as either held-to-maturity securities or trading securities are classified as available-for-sale securities and reported at fair value, with unrealized gains and losses recognized in accumulated other comprehensive income. As of December 31, 2009 and 2010, the Group did not hold any marketable securities. When there is objective evidence that an available-for-sale investment is impaired, the cumulative losses from declines in fair value that had been recognized directly in other comprehensive income are removed from equity and recognized in earnings. When the available-for-sale investment is sold, the cumulative fair value adjustments previously recognized in accumulated other comprehensive income are recognized in the current period operating results. When the Group determines that the impairment of an available-for-sale equity security is other-than-temporary, the Group recognizes an impairment loss in earnings equal to the difference between the investment's cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. When other-than-temporary impairment has occurred for an available-for-sale debt security and the Group intends to sell the security or more likely than not will be required to sell the security before recovery of its amortized cost basis less any current-period credit loss, an impairment loss is recognized in earnings equal to the difference between the investment's amortized cost basis and its fair value at the balance sheet date. The new cost basis will not be changed for subsequent recoveries in fair value. To determine whether a loss is other-than-temporary, the Group reviews the cause and duration of the impairment, the extent to which fair value is less than cost, the financial condition and near-term prospects of the issuer, and the Group's intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery of its amortized cost.

Table of Contents**<10> Property, equipment and software**

Property, equipment and software are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the following estimated useful lives:

Leasehold improvements	Respective term of the leases or the estimated useful lives of the leasehold improvements
Computer and equipment	3 to 4 years
Software	5 years
Office furniture and fixtures	3 years
Motor vehicles	5 years
Office buildings	10 to 20 years

In connection with the expiration and nonrenewal of the WoW license, the Group assessed the alternative uses for equipment used in connection with the operation of WoW as of December 31, 2008, and adjusted the expected useful life of the servers and related equipment, and the expected value of the servers and related equipment at the end of the WoW license. See Note 27 for further detail.

<11> Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired as a result of the Group's business acquisition. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. The Group completes a two-step goodwill impairment test in December of each year. The first step compares the fair value of each reporting unit to its carrying amount, including goodwill. If the fair value of a reporting unit exceeds its carrying amount, goodwill is not considered to be impaired and the second step will not be required. If the carrying amount of a reporting unit exceeds its fair value, the second step compares the implied fair value of goodwill to the carrying value of a reporting unit's goodwill. The implied fair value of goodwill is determined in a manner similar to accounting for a business combination with the allocation of the assessed fair value determined in the first step to the assets and liabilities of the reporting unit. The excess of the fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied fair value of goodwill. This allocation process is only performed for purposes of evaluating goodwill impairment and does not result in an entry to adjust the value of any assets or liabilities. An impairment loss is recognized for any excess in the carrying value of goodwill over the implied fair value of goodwill.

Table of Contents

<12> Intangible assets

Intangible assets consist primarily of in-process research and development and backlog acquired from business combinations and upfront licensing fees.

The Group recognizes intangible assets acquired through business acquisitions as assets separate from goodwill if they satisfy either the contractual-legal or separability criterion. In-process research and development is indefinite lived until completion or abandonment of the associated research and development efforts. Backlog is amortized on a straight-line basis over the estimated useful economic life of seven years.

Upfront licensing fees paid to licensors are recognized as intangible assets if the game software has reached technological feasibility when such payments are made. Technological feasibility is established upon completion of a working model. Upfront licensing fees are amortized on a straight-line basis over the shorter of the useful economic life of the relevant online game or license period, which range from two to five years. Amortization of upfront licensing fees commences upon the commercial launch of the related online game.

<13> Land use right

Land use right represents operating lease prepayments to the PRC's land bureau for usage of the parcel of land where the Group's office building is located. Amortization is calculated using the straight-line method over the estimated land use right period of 44 years.

<14> Impairment of long-lived assets

The Group evaluates its long-lived assets, including finite-lived intangible assets, for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable or that the useful life is shorter than the Group had originally estimated. The Group assesses the recoverability of the long-lived assets (other than goodwill) by comparing the carrying amount to the estimated future undiscounted cash flow expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the assets, the Group would recognize an impairment loss based on the fair value of the assets.

Indefinite-lived intangible assets are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test consists of a comparison of the fair value of the intangible asset to its carrying amount. If the carrying amount exceeds the fair value, an impairment loss is recognized equal in amount to that excess.

Table of Contents**<15>Revenue recognition***Online game services*

The Group earns revenue from provision of online game services. The Group sells its prepaid game cards and prepaid online points for its online game products to distributors who in turn ultimately sell them to end customers. There are two consumption models for the online game services. The Group recognizes revenues when persuasive evidence of an arrangement exists, services are delivered or performed, our price is fixed or determinable and collectability is reasonably assured.

Virtual item / service consumption model – online game services except WoW services

Players can access certain games free of charges but may use game points for in-game premium features. The distribution of points to end customers is typically made by sales of prepaid game cards and prepaid online points. Fees for prepaid game cards are deferred when received. Revenue is recognized over the estimated life of the premium features or as the premium features are consumed.

For in-game premium features that are immediately consumed, revenue is recognized upon consumption. For premium features with a stated expiration time ranging from one to 90 days, revenue is recognized ratably over the period starting from when the feature is first used to the expiration time. For permanent features with no predetermined expiration, revenue is recognized ratably over the estimated average lives of the permanent features, which are typically less than one year. When estimating the average lives of the in-game permanent features, the Company considers the average period that players typically play the game, other player behavior patterns, and factors including the acceptance and popularity of expansion packs, promotional events launched, and market conditions. Future usage patterns of end users may differ from the historical usage patterns on which the virtual item / service consumption revenue recognition model is based. The Group will continue to monitor the operational statistics and usage patterns.

Time consumption model – WoW services

Both prepaid cards and prepaid online points provide customers with a pre-specified length of game playing time within a specified period of time. All prepaid fees received from distributors are initially recognized as advances from customers. Prepaid fees are recognized as deferred revenue upon the customer's online registration and activation of their cards or online points, and then recognized as revenue based upon the actual usage of the game playing time by end customers or when the likelihood that it would provide further online game service to those customers is remote. First-time game players are required to purchase CD-Key in order to register a unique code for future game playing. The Group determines whether an arrangement with multiple deliverables consists of more than one unit of accounting and whether such arrangement should be allocated among the separate units of accounting. Determining whether an arrangement consists of more than one unit of accounting and how consideration should be allocated among the separate units of accounting require significant judgment, including judgment with regard to whether the delivered item(s) has value to the customer on a stand-alone basis and the fair value of the undelivered item. Different judgments may result in different amounts and timing of revenue recognized. Such CD-Key fees received from distributors are initially recognized as advances from customers. Prior to 2008, CD-Key fees are amortized over one-year period; effective January 1, 2008, they are amortized over the shorter of one year or WoW's remaining license period ended on June 7, 2009, starting from the time when the game players activate the CD-Key. CD-Key fees are also recognized as revenues when the likelihood that it would provide further online game service to those customers is remote.

Table of Contents

Other revenues

Other revenues include those generated from internet protocol television (IPTV) services, short message services, game operating support, website solutions and advertisement, licensing revenue, and sales of certain online game related software packages and accessory merchandise.

IPTV services

IPTV services revenue mainly represent revenue from contracts with a Chinese mobile carrier for development and maintenance of games operated on IPTV and licensing revenue from the Group s self-developed game. IPTV revenue is recognized in the period in which services are performed, provided that no significant obligation remains, collection of receivables is reasonably assured and the amount can be accurately estimated.

Short message services

The Group contracts with various Chinese mobile carriers for the transmission of wireless short messaging services. Revenue is recognized in the period in which services are performed, provided that no significant obligation remains, collection of receivables is reasonably assured and the amount can be accurately estimated.

Game operating support, website solutions and advertisement

Game operating support, website solutions and advertisement revenue include revenues generated from providing technical support services, including website development and construction, hardware and software support, staff training, maintenance and website advertisements, to other customers. These revenues are recognized when delivery of the website advertisement has occurred or when services have been rendered and the collection of the related fees is reasonably assured.

Other revenues

Products revenue is recognized when the products and services are delivered and the collection of the related fees is reasonably assured. Licensing revenue is recognized over the license period.

Table of Contents*Sales tax*

The Group is subject to sales tax at a rate of 5% and related surcharges on revenues earned for online game, IPTV services, short message services, game operating support, website solutions and advertisement and licensing revenue provided in the PRC. Sales tax and related charges for revenues earned from the sale of online points are recognized as sales tax in the consolidated statements of operations and comprehensive income (loss) and are deducted from gross revenues to arrive at net revenues.

Game development and licensing

Since its acquisition by the Group on April 6, 2010, Red 5 has been substantially devoting its operating activities to the development of a game under a game development and license agreement executed in 2006 as amended in 2009 with a third party game operator (Note 5). Subsequent to the completion of the game, Red 5 will be obligated to provide post-contract customer support (PCS) and localization support services to the third party operator for the hosted version of the game in various specified countries. During the term of the exclusive, nontransferable license, the gross receipts generated from future sales of game packages or points to access the online game and sales of related merchandising shall be shared by Red 5 and the third party operator through royalties payable by the third party operator at specified royalty rates with the initial payments partially reduced until the cash advance to Red 5 is fully recovered. The Group recognizes game development and licensing revenue when persuasive evidence of an arrangement exists, delivery has occurred, the arrangement fee is fixed or determinable and collectibility of such fee is probable.

The arrangement with the third party operator requires significant modification or customization of software and consists of multiple elements, including software development and licensing, PCS and localization support services. The Group determined that vendor-specific objective evidence (VSOE) of the fair value of PCS and localization support services as the undelivered elements does not exist. As a result, revenue is deferred and will be recognized ratably over the period during which the localization support services are expected to be performed or the PCS period, whichever is longer, once the game has been delivered and the provision of PCS and localization support services has commenced, assuming all other revenue recognition criteria are met.

<16>Advances from customers, deferred revenue, and deferred costs

Online points that have been sold but not activated are recognized as advances from customers. Online points that have been activated but for which online game services will be rendered in the future are recognized as deferred revenue. Deferred revenue is recognized as income based upon the actual usage of the playing time by end customers or when the likelihood that the Group would provide further online game service to those customers is remote. Direct service costs, primarily, prepaid royalties, related to deferred revenue and advances from customers are also deferred. Deferred service costs are recognized in the consolidated statements of operations and comprehensive income (loss) in the period in which the related online game s prepaid fees are recognized as revenue.

Table of Contents

<17>Cost of services

Cost of services consists primarily of online game royalties, payroll, depreciation, maintenance and rental of operation sites, depreciation and amortization of computer equipment and software, production costs for prepaid game cards, intangible assets amortization and other overhead expenses directly attributable to the services provided.

<18>Product development costs

For software development costs, including online games, to be sold or marketed to customers, the Group expenses software development costs incurred prior to reaching of technological feasibility. Once a software product has reached technological feasibility, all subsequent software costs for that product are capitalized until that product is released for marketing. After an online game is released, the capitalized product development costs are amortized over the estimated product life. To date, the Group has essentially completed its software development concurrently with the establishment of technological feasibility, and, accordingly, no costs have been capitalized.

For website and internally used software development costs, the Group expenses all costs that are incurred in connection with the planning and implementation phases of development and costs that are associated with repair or maintenance of the existing websites and software. Costs incurred in the application and infrastructure development phase are capitalized and amortized over the estimated product life. Since the inception of the Group, the amount of costs qualifying for capitalization has been immaterial and, as a result, all website and internally used software development costs have been expensed as incurred.

Product development costs consist primarily of outsourced research and development expenses, payroll, depreciation charge and other overhead expenses for the development of the Group's proprietary games. Other overhead product development costs include costs incurred by the Group to develop, maintain, monitor, and manage its websites.

<19>Sales and marketing expenses

Sales and marketing expenses consist primarily of advertising and promotional expenses, payroll and other overhead expenses incurred by the Group's sales and marketing personnel. Advertising expenses in the amount of RMB23.9 million, RMB33.1 million and RMB23.5 million (US\$3.6 million) for the years ended December 31, 2008, 2009 and 2010, respectively, were expensed as incurred.

During the year ended December 31, 2008, in connection with the Group's overall promotion for the pre-commercial launch of FIFA Online 2, the Group's licensed online soccer game, through its CEO, the Group made cash advances to certain soccer agents who helped the Group to promote the China Football Super League in different cities in China through certain soccer clubs in the China Football Super League, excluding a team owned by the CEO, in order to support and promote the soccer market in China. Total cash advances during the years ended December 31, 2008, 2009 and 2010 amounted to approximately RMB29.2 million, nil and nil, respectively. As of December 31, 2009 and 2010, there were no outstanding cash advances recorded in the accompanying balance sheets. No costs have been recorded in connection with these activities as substantially all of the advances have been repaid.

Table of Contents

<20>Government grants

Unrestricted government subsidies from local government agencies allowing the Group full discretion to utilize the funds were RMB 15.8 million, RMB57.0 million and RMB23.5 million (US\$3.6 million) for the years ended December 31, 2008, 2009 and 2010, respectively, which were recorded in other income in the consolidated statements of operations and comprehensive income (loss).

<21>Share-based compensation

The Group measures the cost of employee services received in exchange for stock-based compensation at the grant date fair value of the share-based awards. The fair value of the share awards were measured using the fair value of shares, while the fair value of the options or equity warrants were measured using the Black-Scholes option pricing model with assumptions made regarding expected term, volatility, risk-free interest rate, and dividend yield.

The expected term represents the period of time that stock-based awards granted are expected to be outstanding. The expected term of stock-based awards granted is determined based on historical data on employee exercise and post-vesting employment termination behavior. Expected volatilities are based on historical volatilities of the Company's ordinary shares and with consideration of historical volatilities of comparable companies. Risk-free interest rate is based on United States (US) government bonds issued with maturity terms similar to the expected term of the stock-based awards.

The Group recognizes compensation expense, net of estimated forfeitures, on all share-based awards on a straight-line basis over the requisite service period, which is generally a one-to-four year vesting period. Forfeiture rate is estimated based on historical forfeiture patterns and adjusted to reflect future changes in circumstances and facts, if any. If actual forfeitures differ from those estimates, the estimates may need to be revised in subsequent periods. The Group uses historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

On January 1, 2010, the Group early adopted FASB Accounting Standards Update (ASU) 2010-13,

Compensation - Stock Compensation (Topic 718): Effect of Denominating the Exercise Price of a Share-Based Payment Award in the Currency of the Market in Which the Underlying Equity Security Trades . ASU 2010-13 clarifies that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. This ASU is effective for fiscal years and interim periods within those fiscal years, beginning on or after December 15, 2010. The Group's adoption of this ASU did not have a significant impact on its consolidated financial statements.

Table of Contents

<22>Leases

Leases for which substantially all of the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases net of any incentives received by the Group from the leasing company are charged to the consolidated statements of operations and comprehensive income (loss) on a straight-line basis over the lease periods.

<23>Income taxes

Current income taxes are provided for in accordance with the laws and regulations applicable to the Group as enacted by the relevant tax authorities. Income taxes are accounted for under the asset and liability method. Deferred taxes are determined based upon differences between the financial reporting and tax bases of assets and liabilities at currently enacted statutory tax rates for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized as income in the period of change. A valuation allowance is provided on deferred tax assets to the extent that it is more likely than not that such deferred tax assets will not be realized. The total income tax provision includes current tax expenses under applicable tax regulations and the change in the balance of deferred tax assets and liabilities.

The Group recognizes the impact of an uncertain income tax position at the largest amount that is more-likely-than not to be sustained upon audit by the relevant tax authority. Income tax related interest is classified as interest expenses and penalties as income tax expense.

<24>Noncontrolling interest

On January 1, 2009, the Group adopted FASB Accounting Standards Codification (ASC) 810-10-65, Consolidations Overall Transition and Open Effective Date Information (previously Statement of Financing Accounting Standards (SFAS) No. 160, Noncontrolling Interests in Consolidated Financial Statements an amendment of ARB No. 51). A noncontrolling interest in a subsidiary or VIE of the Group represents the portion of the equity (net assets) in the subsidiary or VIE not directly or indirectly attributable to the Group. This pronouncement requires noncontrolling interests to be presented as a separate component of equity in the consolidated balance sheet and modifies the presentation of net income by requiring earnings and other comprehensive income to be attributed to controlling and noncontrolling interest. The presentation regarding noncontrolling interest was retrospectively applied for all the periods presented.

Table of Contents

On January 1, 2009, the Group also adopted the provisions of ASC 815-40-15, Derivatives and Hedging Contracts in Entity's Own Equity (previously EITF 08-8, Accounting for an Instrument (or an Embedded Feature) with a Settlement Amount That Is Based on the Stock of an Entity's Consolidated Subsidiary). This new standard requires that freestanding financial instruments (or embedded features) that are indexed to, in whole or in part, the stock of a consolidated subsidiary are considered indexed to the entity's own stock in the consolidated financial statements if (1) the requirements of ASC 815-40-55 are met and (2) the subsidiary is a substantive entity. The standard also requires an equity-classified instrument (including an embedded feature that is separately recorded in equity) within its scope be presented as a component of noncontrolling interest in the consolidated financial statements in a manner consistent with the conclusions in ASC 810-10-65. The Group applied this standard to the outstanding stock options of TDC, its wholly-owned subsidiary, and reclassified the net carrying amount of share-based compensation of RMB0.5 million in additional paid-in capital to noncontrolling interest as of January 1, 2009.

<25>Earnings (loss) per share

Basic earnings (loss) per share is computed by dividing net income (loss) attributable to the holders of ordinary shares by the weighted average number of ordinary shares outstanding during the year. Diluted earnings (loss) per share is calculated by dividing net income attributable to the holders of ordinary shares as adjusted for the effect of dilutive ordinary share equivalents, if any, by the weighted average number of ordinary shares and dilutive ordinary share equivalents outstanding during the period. Ordinary share equivalents of stock options and warrants are calculated using the treasury stock method. However, ordinary share equivalents are not included in the denominator of the diluted earnings per share calculation when inclusion of such shares would be anti-dilutive, such as in a period in which a net loss is recorded.

<26>Segment reporting

The Group has one operating segment whose business is developing and operating online games and related services. The Group's chief operating decision maker is the chief executive officer, who reviews consolidated results when making decisions about allocating resources and assessing performance of the Group. As the Group primarily generates all its revenues from customers in the PRC and almost all the Group's long lived assets and operations are located in the PRC, no geographical segments are presented.

<27>Comprehensive income (loss)

Comprehensive income (loss) is defined as the change in equity of the Group during a period from transactions and other events and circumstances excluding those resulting from investments by owners and distributions to owners. Comprehensive income (loss) includes such items as net income (loss), foreign currency translation adjustments and unrealized gain (loss) on available-for-sale investments.

Table of Contents

<28> Certain risks and concentration

Financial instruments that potentially subject the Group to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, due from related party and prepayments and other current assets. As of December 31, 2009 and 2010, substantially all of the Group's cash and cash equivalents were held by major financial institutions, which management believes are of high credit worthiness.

In the years ended December 31, 2008 and 2009, total revenue from WoW operation of RMB1,652.4 million and RMB710.3 million, respectively, including online game services and WoW-related produce sales, represented approximately 91% and 88% of the Group's total revenues, respectively.

Due to the limited availability of online payment systems in China, a substantial portion of the Group's sales are carried out via a distribution network composed of third-party distributors. The Group sells in-game items and game playing time primarily through sales of prepaid cards to its customers via Beijing HuiyuanNet Technology Co., Ltd., a national online distributor. Accounts receivable from this national online distributor represents nil and 56% of the Group's account receivable as of December 31, 2009 and 2010, respectively.

<29> Acquisition

The Group measures the consideration it transfers at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred, liabilities incurred to former owners of the acquiree, and equity instruments issued. The costs directly attributable to the acquisition are expensed as incurred. Identifiable assets acquired and liabilities assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any noncontrolling interests. Contingent consideration is measured at fair value and recorded as a liability. The excess of (i) the total cost of acquisition, fair value of the noncontrolling interests and acquisition-date fair value of any previously held equity interest in the acquiree over (ii) the fair value of the identifiable net assets of the acquiree is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statement of operations.

Table of Contents**<30>Fair value measurements**

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability. The fair value measurement guidance provides a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets that the management has the ability to access at the measurement date.

Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, inputs other than quoted prices that are observable for the asset (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).

Level 3 inputs include unobservable inputs to the valuation methodology that reflect management's assumptions about the assumptions that market participants would use in pricing the asset. The management develops these inputs based on the best information available, including their own data.

<31>Financial instruments

Financial instruments consist of cash and cash equivalents, accounts receivable, due from related parties, advances to suppliers, prepayments and other current assets, prepaid royalties, accounts payable, and advances from customers. The carrying amount of the Group's cash and cash equivalents approximates its fair value due to the short maturity of those instruments. The carrying values of accounts receivable, accounts payable, and other financial instruments approximate their market values due to the short-term nature of these instruments. The Group does not use derivative instruments to manage risks.

<32>Recent accounting pronouncements

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) - Improving Disclosures about Fair Value Measurements. The ASU amends ASC 820 (formerly SFAS 157) to add new requirements for disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. The guidance in the ASU is effective for the first reporting period beginning after December 15, 2009. The adoption of the ASU did not have a material impact on the Group's financial statements, except for the requirement to provide the Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. In the period of initial adoption, entities will not be required to provide the amended disclosures for any previous periods presented for comparative purposes. However, those disclosures are required for periods ending after initial adoption. Early adoption is permitted. The Group does not expect the adoption of the Level 3 guidance of this ASU to have a significant impact on its consolidated financial statements.

Table of Contents

In December 2010, the FASB issued ASU 2010-28, *When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts*. This ASU amends guidance for Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. ASU 2010-28 is effective for fiscal years and interim periods beginning after December 15, 2010, with early adoption not permitted. The Group does not expect that the adoption of ASU 2010-28 will have a material impact on its financial position, results of operations, or cash flows.

In December 2010, the FASB issued ASU 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations*. This ASU specifies that if a public company presents comparative financial statements, the entity should only disclose revenue and earnings of the combined entity as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period. ASU 2010-29 is effective prospectively for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2010, with early adoption permitted. The adoption of ASU 2010-29 will not impact the Group's financial position, results of operations, or cash flows.

3. CONVENIENCE TRANSLATION

The Group, with the exception of its subsidiary, Red 5, maintains its accounting records and prepares its financial statements in RMB. The United States dollar (US dollar or US\$) amounts disclosed in the accompanying financial statements are presented solely for the convenience of the readers at the rate of US\$1.00 = RMB6.6000, representing the noon buying rate in the City of New York for cable transfers of RMB, as certified for customs purposes by the Federal Reserve Bank of New York, on December 30, 2010. Such translations should not be construed as representations that the RMB amounts represent, or have been or could be converted into, United States dollars at that or any other rate.

4. VARIABLE INTEREST ENTITIES

The Group is the primary beneficiary of certain VIEs, including i) Shanghai IT and Huopu Cloud, which were designed to comply with PRC regulations that prohibit direct foreign ownership of businesses that operate online games in the PRC, and ii) Fire Rain, Wanyouyl, Nanjing Youqu Software Development Co., Limited (Nanjing Youqu) and Nanjing Star-matrix Software Information & Technology Co., Limited (Xingli Fangzhen), which are start-up research and development companies (R&D VIEs) developing games funded by the Group.

Table of Contents**Shanghai IT and Huopu Cloud**

Shanghai IT is a VIE owned by the Company's chief executive officer and shareholder. Shanghai IT holds an Internet Content Provider (ICP) license and other licenses for online game provision and collects revenue on behalf of the Group for its online games. Shanghai IT also provides other game operating support services and website solutions. Shanghai Jiucheng Advertisement was established by Shanghai IT in April 2007. The Company does not have any ownership interest in Shanghai IT, or Shanghai Jiucheng Advertisement (collectively Shanghai IT). Due to the restrictions on foreign ownership of the provision of online games in the PRC, the Company, through loans to its executive officers and shareholders, established Shanghai IT to hold the necessary licenses for the Group's operations. For the operation of WoW, subsidiaries of the Company entered into master agreements with Shanghai IT, who merely acted as the provider of domain name granted by the Company and Internet content provider. The Group's games other than WoW were operated by Shanghai IT. The9 Computer, a wholly-owned subsidiary of the Company, entered into an exclusive technical service agreement to provide technical service to Shanghai IT. In addition, The9 Computer entered into a series of agreements with the equity owners including equity pledge agreements and call option agreements which effectively assigned virtually all of the equity owners' rights to the Company, including the right to declare dividends and an option to acquire all of the equity shares of Shanghai IT.

In December 2010, Huopu Cloud was established in the PRC by two of the Company's employees. As foreign-invested companies are prohibited or restricted from providing online game services in the PRC, the Group planned to perform certain online game operation and provide website solutions through Huopu Cloud. Since the Company did not have any equity interest in Huopu Cloud, the Company, through The9 Computer, entered into a series of agreements with Huopu Cloud and its equity owners, pursuant to which the Company is entitled to receive effectively all economic benefits generated from the equity interests in Huopu Cloud. The series of agreements included (i) equity pledge agreements under which the equity owners pledged all of their equity interests in Huopu Cloud as guarantee of their obligations under the loan agreement, (ii) call option agreements under which the equity owners granted The9 Computer an option to transfer all or part of the equity interests in Huopu Cloud to The9 Computer or its designee to the extent permitted by the PRC law, (iii) shareholder voting proxy agreements which effectively assigned virtually all of the equity owners' rights to the Company, including all voting rights and the right to declare dividends, (iv) an exclusive technical service agreement under which The9 Computer shall provide technical services to Huopu Cloud exclusively for a service fee, and (v) loan agreements under which The9 Computer extended interest-free loans of a total of RMB50 million (US\$7.6 million) to the equity owners for their respective capital contributions in Huopu Cloud. The equity owners effectively acted on behalf of the Company to fund the required capital contributions from the Company into Huopu Cloud. For operation of certain games, Huopu Cloud acted as the provider of domain name granted by the Company and it may perform part of operating work.

Table of Contents

As a result of the afore-mentioned contractual arrangements, the Group has the power to direct the activities that most significantly impact the economic success of Shanghai IT and Huopu Cloud, and effectively assumes the obligation to absorb losses and has exclusive rights to receive benefits that are significant to Shanghai IT and Huopu Cloud.

Accordingly, the Group is the primary beneficiary of Shanghai IT and Huopu Cloud and has included these entities in its consolidated financial statements since their establishment.

R&D VIEs

GES was a game studio established by a Korean MMORPG development team in June 2008. Fire Rain and Wanyouyl are game studios located in different cities in the PRC, primarily engaged in the development of MMORPGs since 2009. The Group had arrangements with each of GES, Fire Rain and Wanyouyl whereby the Group provided substantial subordinated financial support or obtained equity interests in these entities. These entities are primarily involved in developing online games which the Group has acquired or has an option to acquire exclusive licenses in Mainland China or worldwide for the game under development. As of December 31, 2009 and 2010, the Group holds equity interest of 19.9% and nil of GES, 20% and 25% of Fire Rain and nil and 20% of Wanyouyl, respectively.

Nanjing Youqu and Xingli Fangzhen are game studios located in Nanjing, primarily engaged in the development of MMORPGs. The Group had arrangements to provide substantial subordinated financial support to Nanjing Youqu. Nanjing Youqu was primarily involved in developing an online game for the Group. In March 2009, the Group and the founder of Nanjing Youqu restructured the arrangements to establish Xingli Fangzhen and transfer Nanjing Youqu's business to Xingli Fangzhen. The Group provided substantial subordinated financial support and obtained equity interests in Xingli Fangzhen. Xingli Fangzhen continued the game development. The Group had an option to acquire the remaining equity interests at a pre-determined price under certain conditions. As of December 31, 2009, the Group holds 45% equity interest of Xingli Fangzhen and Nanjing Youqu.

Under the above arrangements with the R&D VIEs, the Group has the power to make decisions that significantly affect the entities' operations and effectively assumed a majority of economic risks associated with these entities, and has the obligation to absorb losses and the right to receive returns that are significant to these entities. The Group is the primary beneficiary of these entities and has included them in its consolidated financial statements since their respective dates of incorporation.

In November 2009, the Board of GES decided to dissolve GES and transfer the copyright of the game developed by GES to the Group. GES was deconsolidated as of December 31, 2009. The loss on deconsolidation of RMB6.6 million was recorded in product development expenses in 2009.

Table of Contents

In July 2010, the Board of Xingli Fangzhen and Nanjing Youqu approved the dissolution of these two companies. Nanjing Youqu and Xingli Fangzhen were deconsolidated in July 2010. The loss on deconsolidation of RMB1.1 million (US\$0.2 million) was recorded in product development expenses in 2010.

Summary financial information of the VIE subsidiaries included in the accompanying consolidated financial statements is as follows:

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Total assets	167,391,153	141,428,028	21,428,489
Total liabilities	251,945,913	265,829,394	40,277,181

	December 31, 2008 RMB	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Revenues	1,801,713,116	802,074,406	107,447,650	16,279,947
Net income(loss)	14,501,809	(79,376,759)	(72,685,391)	(11,012,938)

5. ACQUISITION

On April 6, 2010, the Group, through New Star, closed the acquisition of 39,766,589 shares of Series A convertible preferred stock of Red 5, an online game developer based in the US. The purchase price consisted of US\$1.84 million paid in January 2010 to purchase 16,229,470 shares of outstanding series A convertible preferred stock from existing shareholders and US\$15 million to purchase 23,537,119 shares of newly issued Series A convertible preferred stock, of which US\$1 million was paid in January 2010, US\$7 million was paid on April 7, 2010 and additional US\$7 million was payable before April 7, 2011. As a result, the Company owned approximately 82% of the equity interest of Red 5 on an as-converted basis and became the controlling shareholder of Red 5 as of April 6, 2010. The acquisition has been accounted for as a purchase business combination and the results of operations from the acquisition date have been included in the Group's consolidated financial statements subsequent to the acquisition date. The allocation of the purchase price of US\$16.84 million (RMB114.9 million) is as follows:

	RMB
Cash	11,876,274
Subscription receivable	95,549,799
Fixed assets	3,650,947
Identifiable intangible assets:	
In-process research and development	12,285,000
Backlog	2,730,000
Goodwill	10,870,537
Other assets	1,968,347
Liabilities assumed	(2,599,092)
Deferred tax liability	(5,981,135)
Noncontrolling interest at fair value	(15,417,870)
Total	114,932,807

Table of Contents

The excess of purchase price over tangible assets and identifiable intangible assets acquired and liabilities assumed was recorded as goodwill. The acquired goodwill is not deductible for tax purposes.

In addition, the Group is contingently liable to pay up to US\$3.65 million (RMB24.9 million) if certain former Red 5 employees fulfill employment obligations with the Company over a period of two to four years. Such amounts are recorded as compensation expense over the requisite service period.

Subsequent to April 6, 2010, the Group acquired 777,723 and 1,872,601 shares of common stock of Red 5 from the noncontrolling interest holders for US\$0.1 million (RMB0.6 million) and US\$0.2 million (RMB1.4 million) cash in 2010 and 2011, respectively. The equity interest increased to approximately 87.3% on an as-converted basis as of April 7, 2011.

As of the date of acquisition, Red 5 was in the process of fulfilling its obligations under a game development and license agreement executed in 2006 as amended in 2009 between Red 5 and a third party game operator to develop an online game in exchange for cash consideration from the third party operator. Prior to the acquisition, Red 5 received a total of US\$24.7 million cash consideration as an advance recoupable against future royalties payable to Red 5. Red 5 retained the ownership of the game and granted the third party operator an exclusive and non-transferable term license to market and distribute the game and host the game to customers in specified regions after Red 5 completes the game development. Red 5 continues to be obligated to perform its obligations under the agreement post-acquisition, including the provision of post-contract customer support for the hosted version of the game to the third party operator during the term of the license. The initial term of the agreement is from February 2006 through the fifth anniversary of the first commercial release of the initial game. Thereafter, the agreement can be renewed in two-year terms.

The Group measured the fair value of in-process research and development of the game based on multi-period excess earnings method, which is the present value of the projected cash flows that are expected to be generated by the existing intangible asset after reduction by an estimated fair rate of return on contributory assets necessary to realize the projected earnings attributable to the intangible asset. Backlog was valued using the multi-period excess earnings method based on the discounted cash flows to be generated from the rights and obligations under the agreement with the third party operator. The discounted cash flow model requires the use of significant unobservable inputs, including estimated costs to complete the game development, estimated game launch schedule, projected revenues, expenses, capital expenditures and other costs, and discount rates calculated based on the weighted average cost of capital, which includes various factors, such as risk-free rate, equity risk premium, size premium, and other risk factors.

Table of Contents

Acquisition-related costs amounted to RMB0.2 million and were included in general and administrative expenses in the consolidated statements of operations.

The following unaudited pro forma information summarizes the results of operations of the combined entity for the years ended December 31, 2009 and 2010, as if the acquisition of Red 5 has occurred on January 1, 2009 and 2010, respectively. The following pro forma financial information is not necessarily indicative of the results that would have occurred had the acquisition of Red 5 been completed at the beginning of the periods indicated, nor is it indicative of future operating results:

	Revenues RMB	Net Loss RMB
Pro forma for 2009	802,629,351	(491,679,970)
Pro forma for 2010	108,513,582	(532,673,479)

Revenue and net loss from Red 5 since the acquisition date included in the consolidated statement of operations and comprehensive income (loss) for the year ended December 31, 2010 was nil and RMB46.2 million (US\$7.0 million), respectively.

6. PREPAID ROYALTIES AND DEFERRED COSTS

Other than impairment related to WoW operation disclosed in Note 27, due to weaker than expected operating performance of certain games other than WoW, the Group also recognized an impairment loss for prepaid royalties and deferred costs of RMB60.9 million and RMB0.4 million, respectively, for the year ended December 31, 2009 and RMB5.5 million (US\$0.8 million) and nil, respectively, for the year ended December 31, 2010. The impairment charges of prepaid royalties and deferred cost were included in cost of services in the consolidated statements of operations and comprehensive income (loss).

7. INVESTMENTS IN EQUITY INVESTEEES

The Group's investments in equity investees comprise the following:

	Note	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Investments accounted for under equity method:				
Object Software Limited (Object Software)	7.1<1>	4,218,795	894,361	135,509

Balance at December 31, 2009 (RMB)	4,218,795	18,564,513		22,783,308
Investments			12,000,000	12,000,000
Share of loss in equity investments, net of taxes	(3,324,434)	(7,352,089)	(36,772)	(10,713,295)
Impairment		(11,212,424)		(11,212,424)
Balance at December 31, 2010 (RMB)	894,361		11,963,228	12,857,589
Balance at December 31, 2010 (US\$, Note 3)	135,509		1,812,610	1,948,120

<1> Object Software

On April 16, 2004, the Group invested US\$4.0 million, comprising US\$1.0 million to shareholders of Object Software, an established game developer in China, for existing shares and US\$3.0 million to Object Software for the issuance of new ordinary shares, a 20% equity interest in Object Software.

<2> BZSIT

In April 2009, the Company entered into a joint venture agreement with a PRC entity, to establish BZSIT, which was primarily engaged in developing, operating and selling electronic battle-platform games. In May 2009, the Company paid RMB20 million and obtained 49% equity interest in BZSIT according to the joint venture agreement. The Group had the right to effectively participate in significant operating and financial decisions that are expected to be made in the ordinary course of business of BZSIT and had joint control over BZSIT's operations. As the Group could exercise significant influence on BZSIT's operations, the investment was accounted for under the equity method.

Table of Contents

BZSIT went into serious financial difficulty in 2010. As of December 31, 2010, the Group assessed the recoverability of its investments in BZSIT and did not expect to recover the cost of equity investment. The Group, therefore, recognized full impairment loss of RMB11.2 million (US\$1.7 million) in the quarter ended December 31, 2010.

<3> BLT

In November 2010, the Company invested RMB12 million in BLT, a PRC entity, primarily engaged in developing and operating audio electronic books, and obtained 45% equity interest. As the Group could exercise significant influence on BLT's operations, the investment is accounted for under the equity method.

<4> 9Webzen Hong Kong

Since December 2005, the Group held 30% equity interest in 9Webzen Hong Kong. Both 9Webzen Hong Kong and its subsidiary 9Webzen Limited (Shanghai) (9Webzen Shanghai) are principally engaged in the development and operation of an online game. The Group assessed the recoverability of its investment in 9Webzen Hong Kong, and fully impaired the remaining balance of RMB1.9 million in 2008.

<5> Ideas

In January 2008, the Group purchased 245,783 common shares from the founders and key shareholders of Ideas, a Korean online game developer, and 245,783 Series A redeemable and convertible Preferred Shares of Ideas for total consideration of US\$3.4 million. The Group's investment cost of US\$3.5 million (including transaction costs of US\$0.1 million) was allocated between the common shares with a value of US\$1.5 million and preferred shares with a value of US\$2.0 million. The Group held 17% of Ideas' issued and outstanding common shares and 17% of preferred shares on an as converted basis. The Group accounts for its investment in common shares under the equity method of accounting and classified the investment in preferred shares as an available-for-sale investment (Note 8<2>). The Group recognized a full impairment charge of RMB24.0 million in 2008 for both the investment in common shares and preferred shares in Ideas, as the carrying amount of its investment in Ideas was not recoverable.

Table of Contents**7.2 Investments accounted for under the cost method****<1> SIVA**

In April 2007, the Group acquired a 1.5% stake in SIVA, a college in Shanghai, China, for a consideration of RMB10.0 million. The Group accounted for the RMB10.0 million using the cost method of accounting. The investment stake was diluted to 1.28% due to additional capital injected by new investors as of December 31, 2010.

<2> G10

In April 2008, the Group, through China Crown Technology, invested US\$38.3 million in cash to subscribe 3,031,232 preferred shares issued by G10, an established Korean online game developer and operator, which accounted for less than 20% of the equity interest in G10 on an as converted basis. The preferred shares are convertible, non-redeemable and with a liquidation preference. Considering the liquidation preference is substantive and not available to common shares, the preferred shares are not in substance common shares and equity accounting is not applicable. On the other hand, considering the preferred shares are non-redeemable, they are not debt securities. Accordingly, the Group accounted for the investment in G10 under cost method, with an amount of US\$39.5 million, including US\$1.2 million transaction cost. Pursuant to the Series B Preferred Share Subscription Agreement entered into between G10 and the Group, the purchase price will be reduced by up to US\$25.0 million if G10's consolidated net income does not reach the predetermined target for the period from July 1, 2009 to June 30, 2010. The target was not met in the predetermined period, which would result in a purchase price reduction of US\$25.0 million under the Share Subscription Agreement. After further negotiations, both parties reached a settlement agreement in November 2010 whereby the purchase price was reduced by US\$10.0 million (RMB66.2 million), payable in 26 equal monthly installments beginning in February 2011. A Korean bank issued an irrevocable guarantee to the Group up to US\$10.0 million in cover of G10's payment obligation under the settlement agreement. The adjustment to the purchase price was accounted for as a reduction in the carrying value of the underlying investment at the time of the settlement. As of December 31, 2010, RMB28.0 million (US\$4.2 million) receivable due in 2011 was recorded in prepayments and other current assets and RMB38.2 million (US\$5.8 million) receivable due in 2012 was recorded in other long-term assets.

As G10's performance was less than satisfactory, which indicates that a decrease in value of the Group's investment may be other than temporary, the Group performed an impairment assessment and recognized an impairment loss of RMB184.9 million (US\$28.0 million) for the year ended December 31, 2010. The Group measured the fair value of the investment based on a combination of discounted cash flow approach and market approach. Discounted cash flow approach is used for G10 and its non public subsidiaries. Market approach is used for its public subsidiary based on the market capitalization of the subsidiary. Key assumptions included the probabilities of liquidation and conversion, discounted cash flow and the lack of marketability discount rate. The discounted cash flow analysis requires the use of significant unobservable inputs, including estimated costs to complete game development, estimated game launch schedule, projected revenue, expenses, capital expenditures and other costs, and discount rates calculated based on the weighted average cost of capital, which including various factors, such as risk-free rate, equity risk premium, size premium, and other risk factors.

Table of Contents**<3> OpenFeint**

In July 2010, the Group, through Asian Way, invested US\$4.0 million in the form of cash to subscribe 987,654 Series 3 preferred stocks issued by OpenFeint, a San Francisco-based company that develops mobile games and operates OpenFeint, a leading mobile social platform for iphones and smart phones. The investment accounted for less than 20% of OpenFeint on an as converted basis. The preferred stocks are convertible, non-redeemable and with a liquidation preference. Considering the liquidation preference is substantive and not available to common shares, the preferred stocks are not in substance common shares and equity accounting is not applicable. On the other hand, considering the preferred shares are non-redeemable, they are not debt securities. Accordingly, the Group accounted for the investment in OpenFeint under cost method.

In December 2010, the Group entered into a software license agreement with OpenFeint for the Group to launch and operate OpenFeint and its related software for five years after commercial launch in the PRC.

8. AVAILABLE-FOR-SALE INVESTMENTS**<1> Investment in Infocomm Asia Holdings Pte Ltd. (IAH)**

In July 2006, the Group acquired 2,000,000 redeemable and convertible preferred shares of IAH, a Singapore online game operator, for a consideration of US\$2.0 million. The Group's investment represented 11.4% of IAH's equity interest on an as converted basis. The Group recorded the investment in IAH as an available-for-sale investment. As of December 31, 2008, the Group determined that the fair value of the investment in IAH approximated the carrying value of RMB29.2 million.

In April 2009, the Group entered into a convertible loan agreement with IAH. Under the agreement, IAH issued a US\$1.0 million convertible loan to the Group, which bears an interest of 3% per annum. The Group had an option to convert the loan into ordinary shares of IAH at a fixed price. The Company recorded the investment in convertible loan as an available-for-sale investment.

IAH went into serious financial difficulty in 2009, causing a significant decline in fair value of the Group's investment in IAH. In late 2009, the Group assessed the recoverability of its investments in IAH and did not expect to recover the cost of preferred shares and convertible loan. The Group determined that the decline in the fair value was other-than-temporary and recognized full impairment loss of RMB36.0 million, including preferred shares RMB29.2 million and convertible loan RMB6.8 million since the carrying amounts were not recoverable and the estimated fair value was nil. The Group recognized RMB22.4 million as an impairment loss in earnings and reversed RMB13.6 million unrealized gain that was previously recognized in other comprehensive income for the year ended December 31, 2009.

Table of Contents

In June 2010, the Group sold the investment in IAH, including preferred shares and convertible loan, to a third party with total proceeds of approximately RMB6.8 million (US\$1.0 million) and recognized a gain on disposal of the investment at the same amount for the year ended December 31, 2010.

<2> Investment in Ideas preferred shares

As stated in note 7.1<5>, in January 2008, the Group purchased 245,783 Series A Preferred Shares of Ideas and the allocated cost for these preferred shares was US\$2.0 million. The redeemable and convertible preferred shares are in the nature of debt securities and were recorded as an available-for-sale investment. The Group assessed the recoverability of its investments in Ideas in December 2008, and recognized a full impairment charge amounting to RMB9.4 million and RMB14.6 million for the investment in common shares and preferred shares in Ideas, respectively, since there was objective evidence that the investment was impaired and the estimated fair value of the investment in Ideas was nil as of December 31, 2008.

9. PROPERTY, EQUIPMENT AND SOFTWARE

Property, equipment and software and related accumulated depreciation and amortization are as follows:

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Office buildings	58,835,873	59,911,552	9,077,508
Computer and equipment	581,259,400	223,054,013	33,796,063
Leasehold improvements	6,399,643	8,860,119	1,342,442
Office furniture and fixtures	7,219,856	13,822,926	2,094,383
Motor vehicles	10,411,896	10,251,896	1,553,318
Software	13,690,415	16,366,922	2,479,837
Less: accumulated depreciation and amortization	(571,773,926)	(248,627,064)	(37,670,767)
Impairment provision	(30,065,957)	(25,578,900)	(3,875,592)
Net book value	75,977,200	58,061,464	8,797,192

Depreciation and amortization charges for the years ended December 31, 2008, 2009 and 2010 amounted to RMB207.8 million, RMB123.0 million and RMB23.9 million (US\$3.6 million), respectively.

The Group recorded impairment provision of RMB8.9 million, RMB21.2 million and RMB4.9 million (US\$0.7 million) on equipment in 2008, 2009 and 2010, respectively, as detailed at Note 13.

Table of Contents**10. GOODWILL**

The changes in the carrying amount of goodwill for the years ended December 31, 2009 and 2010 are as follows:

	Note	Gross Amount RMB	Accumulated Impairment Loss RMB	Net Amount RMB
Balance at January 1, 2009		30,199,751		30,199,751
Impairment loss recognized	27		(30,199,751)	(30,199,751)
Balance at December 31, 2009		30,199,751	(30,199,751)	
Acquisition	5	10,870,537		10,870,537
Translation difference		(322,214)		(322,214)
Balance at December 31, 2010		40,748,074	(30,199,751)	10,548,323
Balance at December 31, 2010 (US\$, Note 3)		6,173,951	(4,575,720)	1,598,231

In 2005, the Group recognized goodwill of RMB30.2 million and intangible assets of RMB283.7 million in connection with the acquisition of equity interest in C9I. There was no change in the carrying amount of goodwill from the initial recognition date to December 31, 2008. Due to the expiration of WoW license, related goodwill was fully impaired during the year ended December 31, 2009.

In 2010, the Group recognized goodwill of RMB10.9 million (US\$1.6 million) in connection with the business combination of Red 5 (Note 5).

11. INTANGIBLE ASSETS

Gross carrying amount, accumulated amortization and net book value of the intangible assets as of December 31 are as follows:

<1> Intangible assets subject to amortization

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Backlog		2,730,000	413,636
Upfront licensing fees	275,860,798	237,258,342	35,948,234
Less: Accumulated amortization	(66,779,481)	(76,791,769)	(11,635,117)
Impairment provision	(126,042,609)	(130,683,870)	(19,800,586)
Licensing fee refunds transferred to prepayments and other current assets	(31,410,422)	(26,704,800)	(4,046,182)
Translation difference		(80,920)	(12,261)
	51,628,286	5,726,983	867,724
Intangible assets from an acquisition relating to C9I	283,701,360	283,701,360	42,985,055
Less: accumulated amortization	(283,701,360)	(283,701,360)	(42,985,055)

Net book value of intangible assets subject to amortization	51,628,286	5,726,983	867,724
---	------------	-----------	---------

F-40

Table of Contents**<2> Intangible assets not subject to amortization**

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
In-process research and development		12,285,000	1,861,364
Translation difference		(364,141)	(55,173)
Net book value of intangible assets not subject to amortization		11,920,859	1,806,191

The Group and the licensors agreed to unwind certain game license agreements in 2009 and 2010. The Group reclassified upfront licensing fees of RMB31.4 million and RMB26.7 million (US\$4.0 million) to prepayments and other current assets in 2009 and 2010, respectively, for the amounts that would be refunded according to the payment schedule.

Amortization expense related to intangible assets was RMB88.9 million, RMB49.5 million and RMB10.0 million (US\$1.5 million) for the years ended December 31, 2008, 2009 and 2010, respectively. As of December 31, 2010, the estimated aggregate amortization expense from existing intangible assets for each of the five succeeding fiscal years is as follows:

	RMB	US\$ (Note 3)
2011	1,844,544	279,476
2012	1,093,913	165,744
2013	413,254	62,614
2014	377,143	57,143
2015	377,143	57,143
Total	4,105,997	622,120

The Group made impairment provision on intangible assets of RMB73.2 million, RMB27.5 million and RMB33.0 million (US\$5.0 million) in 2008, 2009 and 2010, respectively, which was recorded in the impairment of equipment, intangible assets and goodwill line item in the consolidated statements of operations and comprehensive income (loss), as detailed in Note 13.

12. LAND USE RIGHT

Gross carrying amount, accumulated amortization and net book value of land use right are as follows:

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Land use right	85,160,349	85,160,349	12,903,083
Less: accumulated amortization	(5,282,502)	(7,203,413)	(1,091,426)
Net book value	79,877,847	77,956,936	11,811,657

Amortization charge for the years ended December 31, 2008, 2009 and 2010 amounted to RMB1.9 million, RMB1.9 million and RMB1.9 million (US\$0.3 million), respectively.

Table of Contents***13. IMPAIRMENT OF LONG-LIVED ASSETS***

The expiration of the WoW license on June 7, 2009 and operating loss of certain other games were trigger events for long-lived assets impairment analyses. The Group determined its long-lived asset groups, which the Group considers to be held and used in its operations, based upon certain factors including assessing the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. The asset groups consist of the Group's operating assets for respective games and entity-wide assets such as the Group's office building and land use right.

The impairment assessment related to WoW asset group was detailed in Note 27. For asset groups related to games other than WoW, estimates of future cash flows developed during the revision of the original budgets by taking into consideration of lower than expected projected operating performance as well as market acceptance of games that have not been commercially launched and expected future game operations, indicated certain assets groups of the Company may not recover their carrying value. As a result of the Company's impairment tests, impairments were identified on the asset groups of certain games, licensing fees paid for certain games that the Group has not commercially launched and certain idle computer equipment. The impairment provision was recognized equal to the excess of the carrying value over the fair value of the associated assets. The Group determined the fair value of the assets group using the income approach. The income approach included the use of a discounted cash flow model, which required assumptions of projected revenue expenses, capital expenditures and other costs, as well as a discount rate calculated based on the risk profile of the online game industry. The impairment charges were recognized as follows:

- (i) Due to weaker than expected operating performance of certain games, the Group recognized impairment provisions on computer equipment and upfront licensing fees of RMB8.9 million and RMB7.1 million, respectively, in 2008 and RMB7.6 million and RMB26.7 million, respectively, in 2009. Impairment provisions on computer equipment and upfront licensing fees of RMB4.9 million (US\$0.7 million) and RMB21.5 million (US\$3.3 million), respectively, were recognized in 2010. A significant factor for the internally developed income approach is forecasting performance and revenue from the games. The Group continued to monitor the actual revenue performance versus forecast revenue. Due to the lower than expected market acceptance of the games and the following the content updates, certain games experienced significantly lower than expected user levels and revenue.

Table of Contents

- (ii) The Group has been monitoring its licensed games that have not commercially launched, including but not limited to their market acceptance and operational performance in other regions where they are commercially launched and operated by other operators. Such information includes ceased operation in certain regions where games were commercially launched, delayed or unsuccessful commercial launch, and user number significantly below the expectation despite the launching of patches. The Group incorporated these results and experience into its continuous evaluation of the forecasted results of the respective games and taking into account the Group's expected commercial launch and cash flows in the evaluation of impairment testing for the carrying value of upfront licensing fees. Based on the Group's impairment tests, impairment provisions on upfront licensing fees of RMB66.1 million, RMB0.8 million and RMB11.5 million (US\$1.7 million) were recognized in 2008, 2009 and 2010, respectively.
- (iii) During the year ended December 31, 2009, impairment provisions on idle computer equipment of RMB13.6 million was recognized in view of the low possibility to reuse the idle computer equipment in the foreseeable future.

14. FAIR VALUE MEASUREMENTS***Assets and Liabilities Measured at Fair Value on a Recurring Basis***

As of December 31, 2009 and 2010, the Group did not have any assets or liabilities measured at fair value on a recurring basis after initial recognition.

For recurring fair value measurements using significant unobservable inputs (Level 3), the following table presents the changes in the Group's available-for-sale investments that were measured at fair value on a recurring basis using significant Level 3 inputs for the years ended December 31, 2008 and 2009. The Group's available-for-sale investments were written down to nil as of December 31, 2009. The Group did not have other assets or liabilities measured at fair value on a recurring basis using significant Level 3 inputs during the years ended December 31, 2008, 2009, and 2010.

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3)	
	2008	2009
	RMB	RMB
Balance at the beginning of the year	29,218,400	29,218,400
Purchases	14,634,730	6,837,000
Reversal of unrealized gain previously recognized in other comprehensive income		(13,643,131)
Impairment losses included in earnings	(14,634,730)	(22,412,269)
Balance at the end of the year	29,218,400	

Table of Contents

The impairment charges were included in impairment losses on investments on the consolidated statements of operations and comprehensive income (loss) for both 2008 and 2009. Refer to Note 8 for details of the above changes.

Assets and Liabilities Measured at Fair Value on a Non-recurring Basis

The following table displays assets and liabilities measured at fair value on a non-recurring basis as of December 31, 2009:

	Note	Year Ended December 31, 2009 RMB	Fair Value Measurements at Reporting Date Using			Total Losses RMB
			Quoted Prices in Active Markets for Identical Assets (Level 1) RMB	Significant Other Observable Inputs (Level 2) RMB	Significant Unobservable Inputs (Level 3) RMB	
Computers and equipment	13					21,164,693
Upfront licensing fees	13					27,507,199
Goodwill	10					30,199,751
Total						78,871,643

The adverse changes in the Group's business due to the non-renewal of the WoW license in June 2009 and the less than satisfactory performance of other games during 2009 indicated that the carrying amounts of goodwill, intangible assets, and property and equipment may not be recoverable. The Group tested the long-lived assets and goodwill for impairment. As a result of the long-lived asset impairment tests, computers, equipment, and upfront licensing fees held and used with a carrying amount of RMB21.2 million and RMB27.5 million, respectively, were fully impaired with the resulting impairment charges included in earnings for the year ended December 31, 2009. Significant unobservable inputs (Level 3) were used in measuring the fair value of the long-lived assets based on which the impairment loss was calculated. See Note 13 for further detail. Goodwill with a carrying amount of RMB30.2 million was fully impaired with the impairment charge included in earnings for the year ended December 31, 2009.

Significant unobservable inputs (Level 3) were used in measuring the implied fair value of goodwill based on which the impairment loss was calculated. See Note 27 for further detail.

The following table displays assets and liabilities measured at fair value on a non-recurring basis as of December 31, 2010:

	Note	Year Ended December 31, 2010 RMB	Fair Value Measurements at Reporting Date Using			Total Losses RMB
			Quoted Prices in Active Markets for Identical Assets (Level 1) RMB	Significant Other Observable Inputs (Level 2) RMB	Significant Unobservable Inputs (Level 3) RMB	

Edgar Filing: The9 LTD - Form 20-F

		RMB	RMB	RMB	RMB	RMB
Investments in equity investees	7.2	24,892,921			24,892,921	196,115,321
Computers and equipment	13					4,928,991
Upfront licensing fees	13					33,020,462
Total					24,892,921	234,064,774

F-44

Table of Contents

Significant unobservable inputs (Level 3) were used in measuring the fair value of the Group's investments in equity investees based on which the other-than-temporary impairment losses were calculated. The Group measured the fair value of its investment in BZSIT as of December 31, 2010 using the income approach based on a weighted average of multiple discounted cash flow scenarios, which required the use of unobservable inputs including assumptions of projected revenue, expenses, capital spending, and other costs, as well as a discount rate calculated based on the risk profile of the online game industry and company-specific risk adjustments. As a result of the impairment test, the investment in BZSIT with a carrying amount of RMB11.2 million (US\$1.7 million) was fully impaired. Using the valuation technique described in 7.2<2>, the Group measured the fair value of its investment in G10 at RMB24.9 million (US\$3.8 million) as of December 31, 2010. The investment in G10 with a carrying amount of RMB276.0 million (US\$41.8 million), after reduction of RMB66.2 million (US\$10.0 million) receivable, was impaired by the amount of RMB184.9 million (US\$28.0 million). The above impairment charges were included in impairment loss on investments on the consolidated statement of operations and comprehensive income (loss) for the year ended December 31, 2010.

The less than satisfactory performance of certain games indicated that the carrying amounts of intangible assets and property and equipment may not be recoverable. As a result of the long-lived asset impairment tests, computers and equipment and upfront licensing fees held and used with a carrying amount of RMB4.9 million and RMB33.0 million, respectively, were fully impaired with the resulting impairment charges included in earnings for the year ended December 31, 2010. Significant unobservable inputs (Level 3) were used in measuring the fair value of the long-lived assets based on which the impairment loss was calculated. See Note 13 for further detail.

15. TAXATION*Cayman Islands and British Virgin Islands*

Under the current tax laws of the Cayman Islands and British Virgin Islands, the Company and its subsidiaries are not subject to tax on their income or capital gains. In addition, upon payment of dividends by the Company to its shareholders, no Cayman Islands withholding tax will be imposed.

Hong Kong

The Group's subsidiaries in Hong Kong did not have assessable profits that were derived in Hong Kong during the years ended December 31, 2008, 2009 and 2010. Therefore, no Hong Kong profit tax has been provided for in the years presented.

Table of Contents*The PRC*

The Group's subsidiaries and VIE subsidiaries in the PRC are subject to Enterprise Income Tax (EIT) on the taxable income as reported in their respective statutory financial statements adjusted in accordance with the Corporate Income Tax Law of the PRC (CIT Law), which went into effect as of January 1, 2008. The Group's subsidiaries and VIE subsidiaries in the PRC are generally subject to EIT at a statutory rate of 25%. However, the subsidiaries that are located in the Pudong New District of Shanghai enjoy five-year transitional EIT rates, which refer to the phase-in rates of 18%, 20%, 22%, 24% and 25% for the 5 years from 2008 to 2012 and the subsidiaries that hold a High and New Technology Enterprise qualification (HNTE) are subject to a 15% preferential EIT rate.

In April 2007, C9I Beijing received approval from certain government authorities to be classified as a HNTE. This classification, subject to annual inspection, entitles C9I Beijing to enjoy an EIT exemption for 2007, 2008 and 2009, and a 50% reduction of the statutory rate in the three years thereafter, for which the Beijing tax authorities have granted approval. In April 2008, certain government authorities announced the new implementation rules for application and assessment of HNTE. Every qualified HNTE company is required to re-apply for this qualification according to the new implementation rules. In October 2008, C9I Beijing re-applied for the HNTE qualification and received approval which was dated December of 2008 from certain government authorities. The HNTE qualification is valid for three years and every qualified HNTE company is required to re-apply for it in the three years after receiving approval. Total tax savings to C9I Beijing from the EIT exemption were RMB124,974,022, RMB35,865,045 and nil for the years ended December 31, 2008, 2009 and 2010, respectively.

In November 2008, Shanghai IT received approval from certain government authorities to be classified as a HNTE. This approval entitles Shanghai IT to enjoy a 15% preferential EIT rate from 2008 through 2010. The HNTE qualification is valid for three years and every qualified HNTE company is required to re-apply for it in the three years after receiving approval. Total tax savings to Shanghai IT were RMB1,976,984, nil and nil for the years ended December 31, 2008, 2009 and 2010, respectively.

United States

The Group's subsidiaries in the U.S. are registered in the state of California and are subject to U.S. federal corporate marginal income tax rate of 34% and state income tax rate of 8.84%, respectively.

Table of Contents*Composition of income tax benefit (expense)*

The current and deferred portions of income tax expense included in the consolidated statements of operations and comprehensive income (loss) are as follows:

	For the year ended December 31,			
	2008	2009	2010	2010
	RMB	RMB	RMB	US\$
				(Note 3)
Current income tax (expense) benefit	(13,453,655)	(1,871,215)	39,061	5,918

Reversal of valuation allowance	(8,823,927)		
Balance at December 31	118,262,649	257,127,741	38,958,749

For the years ended December 31, 2009 and December 31, 2010, additional valuation allowance of approximately RMB61.8 million and RMB138.9 million (US\$21.0 million), respectively, was provided. The Group considers

positive and negative evidence to determine whether some portion or all of the deferred tax assets will more likely than not be realized. This assessment considers, among other matters, the nature, frequency and severity of recent losses, forecasts of future profitability, the duration of statutory carry forward periods, the Group's experience with tax attributes expiring unused and tax planning alternatives. Valuation allowances have been established for deferred tax assets based on a more-likely-than-not threshold. The Group's ability to realize deferred tax assets depends on its ability to generate sufficient taxable income within the carry forward periods provided for in the tax law.

Table of Contents

As of December 31, 2010, the Group's PRC subsidiaries had net operating loss carry forwards of RMB497.7 million, of which RMB37.3 million, RMB2.8 million, RMB16.5 million, RMB126.3 million and RMB314.8 million will expire in 2011, 2012, 2013, 2014 and 2015, respectively. The Group has provided a full valuation allowance as it is not more likely than not that the net operating losses can be utilized before expiry.

As of December 31, 2010, Red 5 had net operating loss carry forwards for federal and state income tax purposes of approximately US\$20.8 million and US\$20.7 million, respectively, which will begin to expire in 2027 and 2017, respectively. Red 5 also had credits for increasing research activities available to offset future federal and state taxes payable of approximately US\$0.4 million and US \$0.3 million, respectively, that will begin to expire in 2027 for federal purposes and which have no expiration for state purposes. Red 5 had foreign tax credits for federal purposes of approximately US\$2.5 million, which begin to expire in 2017. Pursuant to US tax laws and regulations, the utilization of an acquired entity's net operating losses and credits are subject to annual limitation computed based on the fair value of the acquired entity. As a result of the limitation, the Group provided a full valuation allowance as it is not more likely than not that the net operating losses and credits carry forward can be utilized before expiry.

In accordance with the CIT Law, dividends, which arise from profits of foreign invested enterprises (FIEs) earned after January 1, 2008, are subject to a 10% withholding income tax. In addition, under certain tax treaties between the PRC and Hong Kong, if the foreign investor is incorporated in Hong Kong and qualifies as the beneficial owner, the applicable withholding tax rate is reduced to 5%, if the investor holds at least 25% in the FIE, or 10%, if the investor holds less than 25% in the FIE. A deferred tax liability should be recognized for the undistributed profits of PRC companies unless the Company has sufficient evidence to demonstrate that the undistributed dividends will be reinvested and the remittance of the dividends will be postponed indefinitely. The Group plans to indefinitely reinvest undistributed profits earned after December 31, 2007 from its China subsidiaries in its operations in the PRC. Therefore, no withholding income taxes for undistributed profits of the Company's subsidiaries have been provided as of December 31, 2008, 2009 and 2010.

Under applicable accounting principles, a deferred tax liability should be recorded for taxable temporary differences attributable to the excess of financial reporting basis over tax basis in a domestic subsidiary. However, recognition is not required in situations where the tax law provides a means by which the reported amount of that investment can be recovered tax-free and the enterprise expects that it will ultimately use that means. The Group has not recorded any such deferred tax liability attributable to the undistributed earnings of its financial interests in VIEs because these entities do not have any accumulated earnings as of December 31, 2008, 2009 and 2010.

Table of Contents

The Group made its assessment of the level of authority for each tax position (including the potential application of interests and penalties) based on the tax positions' technical merits, and measured the unrecognized benefits associated with the tax positions. The Group did not have any unrecognized tax benefits as of December 31, 2008, 2009 and 2010. The Group does not anticipate that unrecognized tax benefits will significantly increase or decrease within the next twelve months. For the years ended December 31, 2008, 2009 and 2010, the Group did not have any material interest and penalties associated with its tax positions.

According to PRC Tax Administration and Collection Law, the statute of limitations is three years if the underpayment of taxes is due to computational errors made by the taxpayer or withholding agent. The statute of limitations will be extended five years under special circumstances, which are not clearly defined (but an underpayment of tax liability exceeding RMB0.1 million is specifically listed as a special circumstance). In the case of a related party transaction, the statute of limitations is ten years. There is no statute of limitations in the case of tax evasion. From inception to 2010, the Group is subject to examination of the PRC tax authorities. Red 5's federal income tax returns and state income tax returns for 2005 through 2010 are open tax years, subject to examination by the relevant tax authorities.

16. OTHER PAYABLES AND ACCRUALS

Other payables and accruals are as follows:

	December 31, 2009 RMB	December 31, 2010 RMB	December 31, 2010 US\$ (Note 3)
Staff cost related payables	23,944,309	20,037,102	3,035,925
Professional services	16,721,169	12,761,093	1,933,499
Product development services	2,665,366	2,665,366	403,843
Marketing and promotion	2,045,100	1,034,855	156,796
Others	6,328,481	5,830,401	883,394
	51,704,425	42,328,817	6,413,457

17. SPECIAL AND NON-RECURRING CASH DIVIDENDS

On January 21, 2009, the Company declared a special and non-recurring cash dividend of US\$29.4 million, or US\$1.11 per share. On February 5, 2009, the Company paid this cash dividend of US\$29.4 million. This dividend was paid from profits earned prior to December 31, 2007.

18. SHARE REPURCHASE PROGRAM

When the Company's shares are retired, or repurchased for constructive retirement (with or without an intention to retire the stock formally in accordance with applicable laws), an excess of purchase price over par or stated value is allocated between additional paid-in capital and retained earnings.

Table of Contents

In November 2007, the Company's Board approved a share buy-back of up to US\$50 million of its ADSs, each of which represents one ordinary share. That share repurchase program ended on June 23, 2008. Under this share repurchase program, the Company spent an aggregate purchase consideration of approximately US\$24.7 million in 2008, and repurchased approximately 1.2 million of its ADSs, which were retired by the Company.

In September 2008, the Company's Board approved another buy-back of up to US\$50 million of its ADSs. This share repurchase program ended on September 12, 2009. Under this share repurchase program, the Company spent aggregate purchase consideration of approximately US\$9.7 million and US\$23.0 million in 2008 and 2009, respectively, and repurchased approximately 0.8 million and 1.7 million of its ADSs, respectively, which were retired by the Company.

19. SHAREHOLDER RIGHTS PLAN

On January 8, 2009, the Company adopted a shareholder rights plan. The shareholder rights plan is designed to protect the best interests of the Company and its shareholders by discouraging third parties from seeking to obtain control of the Company in a tender offer or similar hostile transaction. The shareholder rights plan was amended on March 9, 2009.

Pursuant to the terms of the shareholder rights plan, as amended, one right was distributed with respect to each ordinary share of the Company outstanding at the close of business on January 22, 2009. The rights will become exercisable only if a person or group (the "Acquiring Person") obtains ownership of 15% or more of the Company's voting securities (including by acquisition of the Company's ADSs representing ordinary shares) (a "Triggering Event"), subject to certain exceptions. In the case of a Triggering Event, the rights plan entitles shareholders other than the Acquiring Person to purchase, for an exercise price of US\$19.50, a number of shares with a value twice that of the exercise price. The number of shares each such shareholder will be entitled to purchase is equal to the product of (i) the number of shares then owned by such shareholder and (ii) two times the exercise price divided by the then current market price per share. The rights plan will continue in effect until January 8, 2019, unless the plan is terminated by the Company or the rights are redeemed by the Company before the plan expires.

20. EMPLOYEE BENEFITS

The full-time employees of the Company's subsidiaries and VIE subsidiaries that are incorporated in the PRC are entitled to staff welfare benefits, including medical care, welfare subsidies, unemployment insurance and pension benefits through a PRC government-mandated multi-employer defined contribution plan. These companies are required to accrue for these benefits based on certain percentages of the employees' salaries in accordance with the relevant regulations, and to make contributions to the state-sponsored pension and medical plans out of the amounts accrued for medical and pension benefits. The total amounts charged to the consolidated statements of operations and comprehensive income(loss) for such employee benefits amounted to RMB25.8 million, RMB30.5 million and RMB24.8 million (US\$3.8 million) for the years ended December 31, 2008, 2009 and 2010, respectively. The PRC government is responsible for the medical benefits and ultimate pension liability to these employees.

Table of Contents

21. SHARE-BASED COMPENSATION

21.1 Stock options granted by the Company

On December 15, 2004, in connection with its initial public offering, the Company adopted a share option plan (2004 Option Plan) that provides for the issuance of up to 1,345,430 ordinary shares. The share option plan has a term of five years unless terminated earlier by shareholders and the Board of Directors. Under the share option plan, the directors may, at their discretion, grant any senior executives (including directors) and employees of the Company, its subsidiaries and affiliated companies share options to subscribe for shares. In December 2006, the Company increased the number of ordinary shares reserved under the 2004 Option Plan to 2,449,614 shares and extended the term of plan to ten years. In November 2008, the Company increased the number of ordinary shares reserved to 4,449,614 shares. In August 2010, the Company further increased the number of ordinary shares reserved in the 2004 Option Plan to 6,449,614 shares. The maximum contractual term of the awards under this plan shall be no more than five years from the date of grant. The options granted under this plan shall be at the money on the date of grant and typically vest over a three-year period, with one third of the options to vest on the each of the anniversary after the grant date.

On September 1, 2009, the Company modified the exercise prices of certain options granted to directors and employees to US\$7.36 per share, the market price on the date of modification. The original exercise price of the modified options ranged from US\$12.04 to US\$38.54. The Company determined the incremental cost as the excess of the fair value of the modified award over the fair value of the original award immediately before its terms are modified, measured based on the share price and other pertinent factors at that date. As the options have a graded vesting schedule, RMB12.2 million incremental compensation cost was recorded immediately upon modification for the vested portion and the remaining RMB3.4 million will be amortized over the remaining vesting period of 2010 to 2011.

Table of Contents

As of December 31, 2010, options to purchase 3,995,882 ordinary shares were outstanding and options to purchase 1,397,829 ordinary shares were available for future grant under the 2004 Option Plan. The following table summarizes the Company's share option activities with its employees and directors:

	Number of Options	Weighted-Average Exercise Price	Weighted-Average Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at January 1, 2010	1,304,100	US\$ 8.07	2.63	Nil
Granted	3,887,382	US\$ 5.35		
Exercised	(2,502)	US\$ 5.13		
Forfeited	(1,193,098)	US\$ 7.33		
Outstanding at December 31, 2010	3,995,882	US\$ 5.65	4.57	US\$ 6,061,473
Vested and expected to vest at December 31, 2010	3,538,957	US\$ 5.68	4.55	US\$ 5,341,379
Exercisable at December 31, 2010	527,389	US\$ 7.37	3.57	US\$ 584,692

The options expected to vest are estimated by applying the pre-vesting forfeiture rate assumptions to total unvested options. The total intrinsic value of options exercised during the year was nil for the years ended December 31, 2008 and 2009 and US\$4,579 for year ended December 31, 2010.

The weighted-average grant-date fair value of options granted during the years 2008 and 2010 was US\$4.46 and US\$2.23, respectively. The fair value of the share options were measured on the respective grant dates based on the Black-Scholes option pricing model, with assumptions made regarding expected term and volatility, risk-free interest rate and dividend yield. No options were granted during year 2009.

	For the year ended December 31, 2008	For the year ended December 31, 2010
Risk-free interest rate	1.53%	0.77%-1.03%
Expected life (years)	2.90	3.25
Expected dividend yield		
Volatility	54%	59.24%-60.71%

Fair value of options at grant date US\$4.46 US\$2.13-US\$2.58

The fair value of certain options, of which exercise prices were modified in September 2009, were measured on the modification date based on the Black-Scholes option pricing model with the following assumptions:

	For the year ended December 31, 2009
Risk-free interest rate	0.08%-1.44%
Expected remaining life (years)	0.13-3.14

Expected dividend yield
Volatility

49%-67%

Fair value of incremental cost

US\$0.06-US\$2.03

For the years ended December 31, 2008, 2009 and 2010, the Company recorded share-based compensation of RMB49.8 million, RMB58.8 million and RMB24.0 million (US\$3.6 million), respectively, for options granted to the Company's employees and directors, including incremental compensation cost of RMB13.4 million due to modification of option exercise price in September 2009.

Table of Contents

As of December 31, 2010, there was approximately RMB44.9 million (US\$6.8 million) unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested options. This cost is expected to be recognized over a weighted-average period of 2.72 years. Total unrecognized compensation cost may be adjusted for future changes in estimated forfeitures.

21.2 Equity warrants granted to Incisight Limited (Incisight)

Incisight is a company incorporated in the British Virgin Islands and wholly owned by Mr. Zhu Jun, the Chairman of the Board and Chief Executive Officer of the Company. On November 17, 2008, as approved by the Board of Directors, the Company granted equity warrants to Incisight to purchase 552,196 ordinary shares. The Board considered the grant of equity warrants as an incentive to retain Mr. Zhu Jun's services with the Group, and the Board further noted that Mr. Zhu Jun and the Group agreed that the equity warrants would be forfeited in the event that Mr. Zhu's services with the Group is terminated voluntarily or involuntarily any time after grant and before vesting. The exercise price of the equity warrants is US\$12.04 per share, the market price on the date of grant. The equity warrants would vest over one year with 25% vested at the end of each quarter, commencing from November 17, 2008 and are exercisable no later than November 16, 2011. As of December 31, 2010, all warrants were vested, outstanding, and exercisable with no intrinsic value.

The fair value of the equity warrants granted was US\$3.68, which was measured on the grant date based on the Black-Scholes pricing model with the following assumptions:

Risk-free interest rate	1.22%
Expected life (years)	1.81
Expected dividend yield	
Volatility	57%

The Group recorded share-based compensation of RMB1.7 million, RMB12.0 million and nil for equity warrants granted for the years ended December 31, 2008, 2009 and 2010, respectively.

21.3 Ordinary shares granted to Incisight Limited (Incisight)

On December 8, 2010, as approved by the Board of Directors, the Company granted 1,500,000 ordinary shares to Incisight which are subject to performance conditions, 500,000 shares granted will vest when the Group achieves break-even and 1,000,000 shares will vest when the Group's cumulative profit reaches US\$5 million in a quarter subsequent to the quarter in which the Group breaks even. The ordinary shares granted are not entitled to receive dividends until vested. The Board considered the grant of ordinary shares as an incentive to retain Mr. Zhu Jun's services with the Group. The awarded nonvested shares would be valid for five years from December 8, 2010. It is considered probable the performance targets will be met. The fair value of the granted nonvested shares was US\$6.48 per share, the market price on the date of grant. The Group recorded share-based compensation of RMB3.9 million (US\$0.6 million) for the year ended December 31, 2010.

Table of Contents*21.4 Stock options granted by The9 Development Center Limited (TDC)*

In September 2008, TDC, a wholly-owned subsidiary of the Group, approved its 2008 Stock Option Plan (TDC Option Plan) that provides for the issuance of up to 30,000 ordinary shares. The share option plan has a term of eight years unless terminated earlier by its shareholders and Board of Directors. On October 1, 2008, TDC granted 18,961,000 options to Mr. Zhu Jun, director and certain employees of TDC to purchase 18,961 ordinary shares of TDC. Those options will vest over four years commencing from January 1, 2008. The exercise price of the options is HK\$0.1 per option. The options will expire on December 31, 2015.

The following table summarizes the TDC s share option activities with Mr. Zhu Jun and TDC employees:

	Number of Options	Weighted-Average Exercise Price per Option	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at January 1, 2010	18,901,000	HK\$ 0.10	6.0	RMB 414,915
Forfeited	(2,026,000)	HK\$ 0.10		
Outstanding at December 31, 2010	16,875,000	HK\$ 0.10	5.0	Nil
Vested and expected to vest at December 31, 2010	16,875,000	HK\$ 0.10	5.0	Nil
Exercisable at December 31, 2010	12,656,250	HK\$ 0.10	5.0	Nil

The options expected to vest are estimated by applying the pre-vesting forfeiture rate assumptions to total unvested options. The intrinsic value as of December 31, 2010 is calculated as the difference between the estimated fair value at December 31, 2010 and the exercise price of the shares.

The fair value of options granted was RMB0.11, measured on the grant date based on the Black-Scholes option pricing model with the following assumptions:

Risk-free interest rate	3.75%
Expected life (years)	5.00
Expected dividend yield	
Volatility	53%

TDC recorded share-based compensation of RMB0.5 million, RMB0.5 million and RMB0.5 million (US\$0.1 million) for options granted for the years ended December 31, 2008, 2009 and 2010, respectively. The share-based compensation was recorded as a component of noncontrolling interest in the consolidated financial statements.

Table of Contents

As of December 31, 2010, there was approximately RMB0.4 million (US\$0.1 million) of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share-based awards granted to TDC employees. This cost is expected to be recognized over one year. Total unrecognized compensation cost may be adjusted for future changes in estimated forfeitures.

21.5 Stock options granted by Red 5

In February 2006, Red 5 adopted a Stock Incentive Plan (Red 5 Stock Incentive Plan) under which Red 5 may grant to its employees, director and consultants stock option to purchase common stock or restricted stock. As of April 6, 2010 and December 31, 2010, 13,626,955 shares of common stocks were reserved under Red 5 Stock Incentive Plan. If an option shall expire or terminate for any reason without having been exercised in full, the reserved shares subject to such option shall again be available for subsequent option grants under the plan. From the inception of this plan to December 31, 2010, Red 5 granted a total of 15,701,553 options to its employees and directors at the exercise price ranging from US\$0.0001 to US\$0.2450 per share. These options vest over four years commencing from grant date. Options expire within a period of not more than ten years from the grant date. An option granted to a person who is a greater than 10% shareholder on the date of grant may not be exercisable more than five years after the grant date. As of December 31, 2010, option to purchase 8,389,872 share of common stock were outstanding and option to purchase 4,202,350 shares of common stock were available for future grant.

The following table summarizes the Red 5 s share option activities with its employees and directors starting from April 6, 2010, the date when the Group acquired Red 5:

	Number of Options	Weighted-Average Exercise Price per Option	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at April 6, 2010	3,168,201	US\$ 0.190	3.08	US\$ 85,185
Granted	7,235,874	US\$ 0.137		
Exercised	(122,355)	US\$ 0.038		
Forfeited	(1,891,848)	US\$ 0.236		
Outstanding at December 31, 2010	8,389,872	US\$ 0.136	4.86	US\$ 78,375
Vested and expected to vest at December 31, 2010	8,246,548	US\$ 0.136	4.88	US\$ 69,670
Exercisable at December 31, 2010	2,354,921	US\$ 0.136	4.05	US\$ 53,269

The options expected to vest are estimated by applying the pre-vesting forfeiture rate assumptions to total unvested options. The intrinsic value for period from April 6, 2010 to December 31, 2010 is calculated as the difference between the estimated fair value at December 31, 2010 and the exercise price of the shares. The total intrinsic value of options exercised for period from April 6, 2010 to December 31, 2010 was US\$14,141.

Table of Contents

The fair value of options granted ranged from US\$0.012 to US\$0.149, measured on the grant date based on the Black-Scholes option pricing model with assumptions made regarding expected term and volatility, risk-free interest rate and dividend yield:

Risk-free interest rate	1.70%-5.00%
Expected life (years)	5.00-6.00
Expected dividend yield	
Volatility	38.89%-69.36%

Red 5 recorded share-based compensation of RMB1.8 million (US\$0.3 million) for options granted for the period from April 6, 2010 to December 31, 2010. The share-based compensation was recorded as a component of noncontrolling interest in the consolidated financial statements.

As of December 31, 2010, there was approximately RMB2.7 million (US\$0.4 million) of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share-based awards granted to Red 5 employees. This cost is expected to be recognized over 3.19 years. Total unrecognized compensation cost may be adjusted for future changes in estimated forfeitures.

Subsequent to employee stock option exercises, the Group has no obligation to repurchase such shares, nor does the Group have any intention or history of making such share purchases. As a result, the Group accounts for stock option grants as an equity-classified award.

22. RELATED PARTY TRANSACTIONS AND BALANCES

The9 Computer, Shanghai IT and 9Webzen Shanghai, a related party of the Group, have entered into a series of agreements in connection with operating a game in China and providing services to customers jointly. The9 computer and Shanghai IT share revenue from 9Webzen Shanghai according to the joint services agreements. The share revenue from 9Webzen Shanghai amounted to RMB0.7 million and RMB0.5 million for the years ended December 31, 2008 and 2009, respectively. The amounts due from 9Webzen Shanghai amounted to RMB0.6 million and RMB1.1 million as of December 31, 2008 and 2009, respectively.

Starting from July 2010, due to long outstanding and uncertainty on the recoverability for the amount due from 9Webzen Shanghai, the Group has stopped to recognize revenue pursuant to the agreements with 9Webzen Shanghai. The amount due from 9Webzen Shanghai of RMB1.3 million (US\$0.2 million) was fully provided for as of December 31, 2010.

Table of Contents**23. EARNINGS PER SHARE**

Basic earnings per share (EPS) and diluted earnings per share are calculated as follows:

	For the year ended December 31, 2008 RMB	For the year ended December 31, 2009 RMB	For the year ended December 31, 2010 RMB	For the year ended December 31, 2010 US\$ (Note 3)
Numerator:				
Net income (loss) attributable to ordinary shareholders	96,836,036	(405,152,407)	(499,611,594)	(75,698,727)
Denominator:				
Denominator for basic earnings (loss) per share weighted-average shares outstanding	27,664,687	25,414,620	25,121,679	25,121,679
Dilutive effect of share options and warrants	39,514			
Denominator for diluted earnings (loss) per share	27,704,201	25,414,620	25,121,679	25,121,679
Earnings per share				
- Basic	3.50	(15.94)	(19.89)	(3.01)
- Diluted	3.50	(15.94)	(19.89)	(3.01)

The Company had 1,362,091, 2,122,296 and 2,633,817 weighted average stock options, warrants and nonvested shares outstanding in 2008, 2009 and 2010, respectively, which could have potentially diluted EPS in the future, but were excluded in the computation of diluted EPS in those periods, as their exercise prices were above the average market values in such periods or their effect would have been anti-dilutive due to the net loss reported in such periods.

24. RESTRICTED NET ASSETS

In accordance with the regulations in the PRC and their respective articles of association, The9 Computer, C9I Shanghai, C9I Beijing, Jiu Tuo, Jiu Jing (as foreign invested enterprises) and the Group's domestic VIE subsidiaries incorporated in the PRC are required to make an appropriation of statutory reserve from retained earnings equal to at least 10% of their respective after-tax profits, calculated in accordance with the PRC accounting standards and regulations. Appropriations are classified in the consolidated balance sheet as statutory reserves and are recorded upon board resolution on the appropriations. Appropriations to these reserves are not required after these reserves have reached 50% of the registered capital of the respective companies.

In addition, at the discretion of the respective boards of directors: (1) The9 Computer, C9I Shanghai, C9I Beijing, Jiu Tuo and Jiu Jing may allocate a portion of their after-tax profit to the enterprise expansion fund or staff welfare and bonus reserve, and (2) the above VIE subsidiaries may allocate a portion of their respective after-tax profits to discretionary surplus reserve. The use of staff welfare and bonus reserve is restricted to employee welfare benefits and is not available for distribution to equity owners except in liquidation. Appropriations to the staff welfare and bonus reserve are charged to income as general and administrative expense, and any unutilized balance is included in current liabilities.

Table of Contents

These statutory reserves are not transferable to the Company in the form of dividends, advances, or loans. There are no legal requirements in the PRC to fund these reserves by transfer of cash to any restricted accounts, and the Group does not do so. PRC regulations currently permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations. The9 Computer, C9I Shanghai, C9I Beijing, Jiu Tuo and Jiu Jing and the Company's VIE subsidiaries can only distribute dividends after they have met the PRC requirements for appropriation to statutory reserves. Additionally, as the Company does not have any direct ownership in the VIE subsidiaries, the VIE subsidiaries cannot directly distribute dividends to the Company.

In May 2008, the Board of Directors of C9I Beijing approved the appropriation of statutory reserves in a total amount of RMB3.8 million. In June 2008, the Board of Directors of Shanghai Jiucheng Advertisement approved the appropriation of statutory reserves of RMB0.3 million. In March 2009, the Board of Directors of Shanghai IT approved the appropriation of statutory reserves of RMB3.2 million. In 2010, there is no appropriation of statutory reserves.

25. Noncontrolling interest

As of December 31, 2010, the Group's noncontrolling interest mainly included equity interests in Red 5, Fire Rain and Wanyouyl and equity awards granted as compensation by the Group's subsidiaries. The following schedule shows the effects of changes in the ownership interest of The9 Limited in its subsidiaries on equity attributed to The9 Limited for the years ended December 31, 2008, 2009 and 2010.

	December 31, 2008 RMB	December 31, 2009 RMB	December 31, 2010 RMB
Net income (loss) attributable to The9 Limited	96,836,036	(405,152,407)	(499,611,594)
Transfers (to) from the noncontrolling interest			
Increase in The9 Limited's additional paid-in capital for issuance of shares by Red 5 upon stock option exercise			5,564
Increase in The9 Limited's additional paid-in capital for purchase of common stock of Red 5 from holders of noncontrolling interest			523,586
Decrease in The9 Limited's additional paid-in capital for conversion of a loan into equity of Fire Rain		(2,757,183)	
Decrease in The9 Limited's additional paid-in capital for capital contribution to Red 5, Fire Rain and Wanyouyl			(6,981,392)
Change from net income attributable to The9 Limited and transfers (to) from noncontrolling interest	96,836,036	(407,909,590)	(506,063,836)

Table of Contents**26. COMMITMENTS AND CONTINGENCIES****26.1 Operating lease commitments**

The Group has entered into operating lease arrangements relating to the use of certain premises and internet data centers. Future minimum lease payments for non-cancellable operating leases as of December 31, 2010 are as follows:

	RMB	US\$ (Note 3)
2011	8,009,544	1,213,567
2012	1,729,965	262,116
2013	1,461,240	221,400
	11,200,749	1,697,083

Total rental expenses amounted to RMB94.6 million, RMB62.1 million and RMB18.4 million (US\$2.8 million) for the years ended December 31, 2008, 2009 and 2010, respectively.

26.2 Contingencies

PRC laws and regulations currently limit foreign ownership of companies that provide Internet content services, which include operating online games. In addition, foreign invested enterprises are currently not eligible to apply for the required licenses for operating online games in the PRC. The Company is incorporated in the Cayman Islands and is considered a foreign entity under the PRC laws. Due to restrictions on foreign ownership of the provision of online games, the Company is dependent on the licenses held by Shanghai IT to conduct its online games business through its subsidiary in the PRC. Shanghai IT holds the necessary licenses and approvals that are essential for the online game business. The9 Computer has entered into contractual arrangements with Shanghai IT for use of its relevant licenses and websites. Shanghai IT is principally owned by certain shareholders of the Company. Pursuant to certain other agreements and undertakings, the Company in substance controls Shanghai IT. In the opinion of the Company's directors, the Company's current ownership structures and its contractual arrangements with Shanghai IT, and its equity owners as well as its operations, are in compliance with all existing PRC laws and regulations. However, there may be changes and other developments in the PRC laws and regulations or their interpretation. Specifically following the recent promulgation of the GAPP Circular, it is unclear whether the authorities will deem our VIE structure and contractual arrangements with Shanghai IT as an indirect or disguised way by foreign investors to gain control over or participate in domestic online game operators, and challenge our VIE structure accordingly. Accordingly, the Company cannot be assured that the PRC government authorities will not take a view in the future contrary to the opinion of the Company's directors. In addition, there are uncertainties in the PRC legal system that could limit the Group's ability to enforce these contractual agreements in the event that the consolidated VIEs or their shareholders fail to meet their contractual obligations. If the current ownership structures of the Group and its contractual arrangements with Shanghai IT are found to be in violation of any existing or future PRC laws or regulations, the Group may be required to restructure its ownership structure and operations in the PRC to comply with changing or new PRC laws and regulations.

Table of Contents

On June 18, 2007, Beijing Founder Electronics Co., Ltd. filed a lawsuit in the Beijing Superior Court against two other companies and two wholly-owned subsidiaries of the Group, alleging that the defendants had, through a game that the two subsidiaries licensed and are operating, infringed its intellectual property rights with respect to certain of its copyrighted fonts. The plaintiff in the case demanded, among others, that the defendants cease such alleged infringing use and pay RMB100 million for its alleged losses. The Group intends to assert its rights in the court of law. Based on the on-going assessment by the Group's management and external legal counsel, the management believes that the likelihood for the Group to pay compensation is probable and the amount of compensation and legal fees estimated by management and external legal counsel is measurable. The lawsuit was heard on November 26, 2009 by the Beijing Superior Court. The Group asserted its rights in the court. On February 3, 2010, the court issued a judgment against the Group and other defendants in the lawsuits for infringing certain intellectual property rights of the plaintiff. Based on the court's judgment, the Group shall pay a total of RMB1.6 million compensation to the plaintiff. Subsequently, the plaintiff filed an appeal challenging the judgment. The Group's management believes that it is most probable that the appellate court will uphold the judgment. As of December 31, 2009, the Group had accrued RMB6.1 million for this litigation, including RMB4.5 million accrued for legal fees, based on the latest development. The Group has paid RMB4.5 million (US\$0.7 million) legal fees in 2010 and accrued an additional RMB2.8 million (US\$0.4 million) legal fees relating to this litigation during the year ended December 31, 2010 pursuant to the Group's estimate, which was based on advice from its external legal counsel. The amount of compensation and legal fees is subject to the final result of the appeal, which is still in process.

On October 21, 2009, a securities class action lawsuit, entitled *Glaser v. The9 Ltd. et al.*, Case No. 09-Civ-8904 was filed in the United States District Court for the Southern District of New York against the Group in connection with the non-renewal of the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs in this case allege that the defendants misrepresented or failed to make material disclosures regarding the likelihood that we would be renewing the WoW license agreement with Blizzard Entertainment, Inc. The plaintiffs allege federal securities law violations and seek unspecified damages. On November 4, 2009, an additional securities class action lawsuit, entitled *O'Dea v. The9 Ltd. et al.*, Case No. 09-Civ-9166 was filed in the United States District Court for the Southern District of New York against the same defendants with substantially the same allegations. The court consolidated these complaints into a single action on February 2, 2010, and the consolidated complaint was filed on March 19, 2010. The Group filed a motion to dismiss the consolidated complaint on May 28, 2010. The plaintiffs filed their opposition to the motion to dismiss on July 12, 2010, to which the Group filed a reply on August 11, 2010. In March 2011, the court granted the Group's motion to dismiss and ordered the case closed. The plaintiffs have thirty days from the date of the dismissal to refile their complaint. The Group's management does not believe that the likelihood of the outcome or the financial statement impact, if any, of the outcome can be reasonably predicted. No accruals have been provided for the loss contingency as of December 31, 2010.

27. IMPAIRMENT AND CHARGES RELATED TO EXPRIRATION OF WOW LICENSE

The Group obtained an exclusive license to localize and promote World of Warcraft (WoW), a 3D fantasy massively multiplayer online role-playing game (MMORPG) in China in 2004 and commercially launched the localized WoW in 2005. Through end of March 2009, the Company and Blizzard were conducting ongoing negotiations, which formally commenced in April 2008 with respect to the Company continuing to operate WoW in mainland China. On April 16, 2009, the Company learned that the WoW license would be licensed to another China-based online game company. The Company had believed that an agreement by which the Company would continue to operate WoW beyond the expiration of the then existing license was imminent. The WoW license was not renewed upon expiration on June 7, 2009.

The Group assessed the recoverability of WoW related assets as of December 31, 2008 and recorded impairment and certain other charges in its consolidated financial statements for the year ended December 31, 2008 as follows:

A provision on a receivable amounting to RMB18.0 million from a customer that purchased WoW prepaid player cards from the Group for distribution, as a result of the expiration of the Group s WoW license on June 7, 2009 and, among other things, the impact on the ongoing relationship with the customer.

A RMB3.9 million provision for prepaid royalties.

A RMB22.7 million charge to increase the valuation allowance for deferred tax assets, which represented incremental income taxes as a result of non-renewal of the WoW license prior to the evaluation and recording of impairment charges as a result of non-renewal of the WoW license.

A RMB68.4 million additional depreciation expense related to computer equipment to reflect the change to a shorter expected useful life of the underlying assets due to non-renewal of the WoW license agreement. The Group assessed the alternative uses for equipment used in connection with the operation of WoW, taking into consideration future expected game operations, as well as expected value at the WoW license expiration date. As a result, the Group adjusted the expected useful life of the servers and related equipment, and the expected value of the servers and related equipment at the end of the WoW license. This change in accounting estimate has been accounted for prospectively from January 1, 2008. As a result, the Group recorded additional depreciation expense as a component of cost of service in the amount of RMB68.4 million in 2008 to reflect the change to a shorter expected useful life of the underlying assets. Depreciation expense relating to this change is to decrease both profit from operations and net income by RMB68.4 million, and to decrease both basic and diluted net income attributable to holders of ordinary shares per share by RMB2.47 in 2008.

Table of Contents

A full provision for prepayments to a vendor, whom had been the Group's primary supplier of computer servers and related computer equipment, in connection with its purchase of certain fixed assets, including RMB46.5 million originally recorded as prepayments for equipment and RMB8.7 million originally recorded as advances to suppliers. With the non-renewal of WoW license, the Company evaluated a number of factors, including the status of production of the assets underlying the advance prepayments, ability to recover the value of the advances through the possible sale of the fixed assets upon the completion of production, the ability to utilize the servers upon completion of production, as well as the ability to recover the amounts advanced to the vendor and as a result of such assessment, and concluded that a full provision in connection with such advances and prepayments was necessary. The provision was recorded as general and administrative expenses for the year ended December 31, 2008.

A RMB7.0 million provision on receivables and prepayments and other current assets in connection with Game First International Corporation (GFD). As of December 31, 2008, the Group's outstanding receivable from selling of 100% of its interest in Spring Asia Limited, a wholly owned subsidiary to a third party in 2006, amounted to RMB7.0 million, including RMB1.4 million recorded in accounts receivable and RMB5.6 million recorded in prepayments and other current assets. The Group assessed the impact of the non-renewal of the WoW license on its ongoing relationship with GFD, whose equity interest is 30% held by Spring Asia Limited, and resulting collectability of this receivable and concluded collection to be unlikely resulting in the recording of impairment charge in the amount of RMB7.0 million recorded in general and administrative expenses for the year ended December 31, 2008.

A RMB1.7 million provision on inventories.

The expiration of the WoW license in June 2009 was a trigger event for long-lived assets impairment analysis as of December 31, 2008. The Group determined its long-lived assets group related to WoW operation, which the Group considers to be held and used in its operations, based upon certain factors including assessing the lowest level for which identifiable cash flows are largely independent of the cash flows of other groups of assets and liabilities. Estimates of future cash flows were developed during the revision of the original budgets by taking into consideration of the non-renewal of WoW license and the operating cash flow estimated to be generated from WoW during the period from January 1 to June 6, 2009, As a result of the impairment test, no impairment was recorded on the WoW asset group, including WoW related goodwill, intangible assets and property, equipment and software as of December 31, 2008.

Table of Contents

For the year ended December 31, 2009, the Company recorded the following additional impairment and certain other charges:

The Group continued to make prepayment of royalties for WoW until the expiration of the WoW license. As a result of the non-renewal of the WoW license, the Group recognized an impairment loss for prepaid royalties, deferred cost and related prepaid withholding taxes of RMB60.7 million, RMB38.1 million and RMB4.4 million, respectively, for the year ended December 31, 2009.

As a result of change in accounting estimate on the useful life of computer equipment through the end of the WoW license, the Group recorded additional depreciation expense as a component of cost of service in the amount of RMB40.0 million in 2009. Depreciation expense relating to this change is to increase both loss from operations and net loss by RMB40.0 million, and to increase both basic and diluted net loss per share by RMB1.57 in 2009.

A RMB30.2 million impairment of goodwill following the expiration of the WoW license on June 7, 2009. The Group determined the fair value of the reporting unit related to WoW using the income approach. The income approach included the use of a discounted cash flow model, which required assumptions of projected revenue expenses, capital expenditures and other costs, as well as a discount rate calculated based on the risk profile of the online game industry. The Group does not expect any revenue from WoW reporting unit after expiration of the WoW license and assessed the fair value of the WoW reporting unit to be zero.

Accordingly, the assigned value for goodwill related to WoW was zero and a full impairment was recognized.

As a result of non-renewal of WoW license beyond June 7, 2009, the Group announced a refund plan in connection with unactivated WoW game point cards, which the Group recorded as advance from customers. According to the plan, unactivated WoW game point card holders are eligible to receive a cash refund from the Group. In connection with the settlement of both unactivated points cards and activated but unconsumed point cards, the maximum refund the Group may potentially make amounts to approximately RMB200.4 million, of which RMB4.0 million was refunded in 2009. The difference between the face value of the point cards and the net proceeds the Group received in the sales of the respective point cards was recorded as additional cost of services, amounting to RMB22.1 million for the year ended December 31, 2009. The advances from customers and deferred revenue relating to these WoW game point cards will be recorded as revenue after the release of legal liability to refund under the respective laws. The Group has engaged an agent to settle the liability with the game point card holders who have claimed a refund. As of December 31, 2009, the balance of the advance payment to the agent was RMB43.3 million. In 2010, RMB0.4 million (US\$0.1 million) was refunded to game point card holders.

As of December 31, 2009, the WoW related computer and equipment and intangible assets have been fully depreciated and no additional impairment was recognized in 2009.

For the year ended December 31, 2010, there was no additional impairment and charges provided related to the expiration of WoW license.
