FORWARD-LOOKING STATEMENTS

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for statements that are forward-looking and are not statements of historical facts. This Quarterly Report contains forward-looking statements. Any statements that are not statements of historical facts may be deemed to be forward-looking statements. When used in this Quarterly Report, the words may, will, could, anticipate, plan, continue, project, intend, estimate, similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such words. Forward-looking statements relate to our future plans, objectives, expectations and intentions and are not historical facts and accordingly involve known and unknown risks and uncertainties and other factors that may cause the actual results or performance to be materially different from future results or performance expressed or implied by these forward-looking statements. The following factors, among others, could cause actual results to differ materially from those contained in forward-looking statements made in this Quarterly Report, in press releases and in oral statements made by our authorized officers: fuel price volatility; the Company's failure to maintain or renew key agreements; failure to expand the Company's technological capabilities and service offerings as rapidly as

the Company's competitors; the actions of regulatory bodies, including bank regulators, or possible changes in banking regulations impacting the Company's industrial loan bank and the Company as the corporate parent; the uncertainties of litigation; the impact of foreign currency exchange rates on the Company's operations; the effects of general economic conditions on fueling patterns and the commercial activity of fleets; the effects of the Company's international business expansion efforts; the impact and range of second quarter and full year credit losses; the amount of interest rates; financial loss if the Company determines it necessary to unwind its derivative instrument position prior to the expiration of the contract; the failure to successfully expand business internationally; the failure to successfully integrate the businesses the Company has acquired; as well as other risks and uncertainties identified in Item 1A of our Annual Report for the year ended December 31, 2010, filed on Form 10-K with the Securities and Exchange Commission on February 28, 2011. Our forward-looking statements and these factors do not reflect the potential future impact of any alliance, merger, acquisition or disposition. The forward-looking statements speak only as of the date of the initial filing of this Quarterly Report and undue reliance should not be placed on these statements. We disclaim any obligation to update any forward-looking statements as a result of new information, future events or otherwise.

WRIGHT EXPRESS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(in thousands, except per share data)
(unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and notes required by generally accepted accounting principles (GAAP) for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to consolidated financial statements included in the Annual Report on Form 10-K of Wright Express Corporation for the year ended December 31, 2010. These condensed consolidated financial statements should be read in conjunction with the financial statements that are included in the Company s Annual Report filed on Form 10-K for the year ended December 31, 2010, filed with the Securities and Exchange Commission (SEC) on February 28, 2011. When used in these notes, the term Company means Wright Express Corporation and all entities included in the consolidated financial statements. In the opinion of management, all adjustments (including normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-months ended March 31, 2011, are not necessarily indicative of the results that may be expected for any future quarter(s) or the year ending December 31, 2011.

In the first quarter of 2011, consolidated stockholders' equity changed because of (i) changes in other comprehensive income reflected in comprehensive income; (ii) changes in common stock and additional paid in capital reflected in the consolidated statements of cash flows (including stock-based compensation, proceeds from stock option exercises and tax activities around share-based awards); and (iii) net income.

(unaudited)

2. Business Acquisitions*Acquisition of RD Card Holdings Australia Pty Ltd.*

On September 14, 2010, the Company, through its wholly-owned subsidiary, Wright Express Australia Holdings Pty Ltd, completed its acquisition of all of the outstanding shares of RD Card Holdings Australia Pty Ltd. from RD Card Holdings Limited and an intra-group note receivable from RD Card Holdings Limited (the ReD Transaction). This acquisition extends the Company's international presence and provides global revenue diversification. Consideration paid for the transaction was \$362,500 Australian Dollars (AUD) (which was equivalent to approximately \$339,600 U.S. dollars at the time of closing). This consideration included \$10,500 AUD the Company paid pursuant to the finalized working capital adjustments. The purchase price and related allocations for the ReD Transaction were revised during the first quarter of 2011 as the Company finalized its working capital adjustments as part of the consideration for the acquisition. The final purchase price and related allocations for the ReD Transaction have not been finalized as the Company is currently in the process of completing its valuation of acquired intangibles as well as certain liabilities assumed as part of the acquisition.

The following is a summary of the preliminary allocation of the purchase price to the assets and liabilities acquired:

	Preliminary Purchase Price Allocation	
\$ USD	March 31, 2011	December 31, 2010
Consideration paid (net of cash acquired)	\$ 339,565	\$ 339,994
Less:		
Accounts receivable	91,487	91,638
Accounts payable	(50,534)	(50,534)
Other tangible assets, net	2,203	1,970
Software	10,986	10,986
Patent	2,869	2,869
Customer relationships	73,939	73,939
Brand name	5,374	5,374
Recorded goodwill	\$ 203,241	\$ 203,752

Table of Contents

WRIGHT EXPRESS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(in thousands, except per share data)
(unaudited)

The following represents unaudited pro forma operational results as if Wright Express Australia had been included in the Company's condensed consolidated statements of operations as of the beginning of the fiscal years:

\$ USD	Three months ended March 31, 2010
Net revenue	\$ 97,992
Net income	\$ 18,014
Pro forma net income per common share:	
Net income per share basic	\$ 0.47
Net income per share diluted	\$ 0.46

The pro forma financial information assumes the companies were combined as of January 1, 2010, and includes business combination accounting effects from the acquisition including amortization charges from acquired intangible assets, interest expense for debt incurred in the acquisition and net income tax effects. The pro forma results of operations do not include any cost savings or other synergies that may result from the acquisition or any estimated costs that have been or will be incurred by the Company to integrate Wright Express Australia. The pro forma information as presented above is for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of fiscal 2010.

Acquisition of rapid! Financial Services LLC.

On March 31, 2011, the Company acquired certain assets of rapid! Financial Services LLC (rapid!) for approximately \$18,000 including an estimate of consideration for future performance milestones of \$10,000. rapid! is a provider of payroll debit cards, e-paystubs and e-W-2s, and is focused on small and medium sized businesses. The operations of rapid! will be included in the Other Payment Solutions segment. The Company has allocated the purchase price of the acquisition based upon the preliminary fair values of the assets acquired and liabilities assumed. In connection with the fair valuing of the assets acquired and liabilities assumed, management is in the process of performing assessments of intangible assets using customary valuation procedures and techniques. The purchase price and related allocations for the rapid! acquisition have not been finalized.

The following is a summary of the preliminary allocation of the purchase price to the assets and liabilities acquired:

Consideration paid (including estimated \$10,000 earn out)	\$ 18,081
--	-----------

Less:	
Accounts receivable	75
Accounts payable	(85)
Other tangible assets, net	105
Customer relationships ^(a)	3,597
Recorded goodwill	\$ 14,389

^(a) The weighted average life has not been determined at this time.

No pro forma information for 2010 has been included in these financial statements as the operations of rapid! for the period that they were not part of the Company, are immaterial to the Company's revenues, net income and earnings per share.

3. Goodwill and Other Intangible Assets*Goodwill*

The changes in goodwill during the first three months of 2011 were as follows:

	Fleet Payment Solutions Segment	Other Payment Solutions Segment	Total
Balance at December 31, 2010	\$ 510,396	\$ 26,659	\$ 537,055
Impact of foreign currency translation	2,983	247	3,230
ReD purchase price adjustment	(639)	127	(512)
Acquisition of rapid!		14,389	14,389
Balance at March 31, 2011	\$ 512,740	\$ 41,422	\$ 554,162

Other Intangible Assets

The changes in other intangible assets during the first three months of 2011 were as follows:

	Net Carrying Amount, December 31, 2010	Acquisition	Amortization	Impact of foreign currency translation	Net Carrying Amount, March 31, 2011
Definite-lived intangible assets					
Acquired software	\$ 22,640	\$	\$ (1,029)	\$ 149	\$ 21,760
Customer relationships	88,788	3,597	(4,425)	1,062	89,022
Trade name					
Patent	2,982		(111)	41	2,912
Indefinite-lived intangible assets					
Trademarks and trade names	10,317			85	10,402
Total	\$ 124,727	\$ 3,597	\$ (5,565)	\$ 1,337	\$ 124,096

The Company expects amortization expense related to the definite-lived intangible assets above to be as follows: \$17,145 for April 1, 2011 through December 31, 2011; \$17,821 for 2012; \$15,570 for 2013; \$12,844 for 2014; \$10,501 for 2015 and \$8,766 for 2016.

(unaudited)

5. Derivative Instruments

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed by using derivative instruments are interest rate risk and commodity price risk. Interest rate swap arrangements are entered into to manage interest rate risk associated with the Company's variable-rate borrowings. The Company also enters into put and call option contracts based on the wholesale price of gasoline and retail price of diesel fuel, which settle on a monthly basis, related to the Company's commodity price risk. These put and call option contracts, or fuel price derivative instruments, are designed to reduce the volatility of the Company's cash flows associated with its fuel price-related earnings exposure in North America.

Accounting guidance requires companies to recognize all derivative instruments as either assets or liabilities at fair value in the statement of financial position. The Company designates interest rate swap arrangements as cash flow hedges of the forecasted interest payments on a portion of its variable-rate credit agreement. The Company's fuel price derivative instruments do not qualify for hedge accounting treatment under current guidance, and therefore, no such hedging designation has been made. Because the derivatives are either accounting or economic hedges of operational exposures, cash flows from the settlement of such contracts are included in "Cash flows from operating activities" on the Condensed Consolidated Statements of Cash Flows.

Cash Flow Hedges

For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. As of March 31, 2011, the Company had the following outstanding interest rate swap arrangements that were entered into to hedge forecasted variable rate interest payments:

	Weighted- Average Base Rate	Aggregate Notional Amount
Interest rate swap arrangements settling through July 2011	1.35 %	\$ 50,000
Interest rate swap arrangements settling through March 2012	0.56 %	150,000

Derivatives Not Designated as Hedging Instruments

For derivative instruments that are not designated as hedging instruments, the gain or loss on the derivative is recognized in current earnings. As of March 31, 2011, the Company had the following put and call option contracts which settle on a monthly basis:

**Aggregate
Notional
Amount
(gallons) ^(a)**

Fuel price derivative instruments – unleaded fuel Option contracts settling April 2011 – September 2012	34,880
Fuel price derivative instruments – diesel Option contracts settling April 2011 – September 2012	15,671
Total fuel price derivative instruments	50,551

(a) The settlement of the put and call option contracts is based upon the New York Mercantile Exchange’s New York Harbor Reformulated Gasoline Blendstock for Oxygen Blending and the U.S. Department of Energy’s weekly retail on-highway diesel fuel price for the month.

6. Fair Value

The Company holds mortgage-backed securities, fixed income and equity securities, derivatives and certain other financial instruments which are carried at fair value. The Company determines fair value based upon quoted prices when available or through the use of alternative approaches, such as model pricing, when market quotes are not readily accessible or available. In determining the fair value of the Company's obligations, various factors are considered, including: closing exchange or over-the-counter market price quotations; time value and volatility factors underlying options and derivatives; price activity for equivalent instruments; and the Company's own-credit standing.

These valuation techniques may be based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

Level 1 Quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Instruments whose significant value drivers are unobservable.

Table of Contents

WRIGHT EXPRESS CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)
(in thousands, except per share data)
(unaudited)

Available-for-sale securities and executive deferred compensation plan trust

When available, the Company uses quoted market prices to determine the fair value of available-for-sale securities; such items are classified in Level 1 of the fair-value hierarchy. These securities primarily consist of exchange-traded equity securities.

For mortgage-backed and asset-backed debt securities and bonds, the Company generally uses quoted prices for recent trading activity of assets with similar characteristics to the debt security or bond being valued. The securities and bonds priced using such methods are generally classified as Level 2.

Fuel price derivatives and interest rate swap arrangements

The majority of derivatives entered into by the Company are executed over the counter and are valued using internal valuation techniques as no quoted market prices exist for such instruments. The valuation technique and inputs depend on the type of derivative and the nature of the underlying instrument. The principal technique used to value these instruments is a comparison of the spot price of the underlying instrument to its related futures curve adjusted for the Company's assumptions of volatility and present value, where appropriate. The fair values of derivative contracts reflect the expected cash the Company will pay or receive upon settlement of the respective contracts.

The key inputs depend upon the type of derivative and the nature of the underlying instrument and include interest rate yield curves, the spot price of the underlying instrument, volatility, and correlation. The item is placed in either Level 2 or Level 3 depending on the observability of the significant inputs to the model. Correlation and items with longer tenures are generally less observable.

7. Stock-Based Compensation

During the first quarter of 2011, the Company awarded restricted stock units and performance-based restricted stock units to employees under the 2010 Equity and Incentive Plan (the 2011 grant). Expense associated with the performance-based restricted stock units may increase or decrease due to changes in the probability of the Company achieving pre-established performance metrics. For the three months ended March 31, 2011, total stock-based compensation cost recognized was approximately \$2.2 million, of which approximately \$0.1 million was related to the 2011 grant. As of March 31, 2011, total unrecognized compensation cost related to non-vested stock options, restricted stock units, and performance-based restricted stock units under the 2011 grant was approximately \$6 million, to be recognized over the 2.9 year remaining vesting period of these awards.

8. Income Taxes

In the first quarter of 2011, management determined that future earnings generated by the Company's Australia subsidiaries will be invested indefinitely outside the United States. Accordingly, no incremental domestic tax effects have been contemplated in deferred tax balances. As of March 31, 2011, the amount of unremitted earnings designated as indefinitely invested totaled \$7.0 million USD.

9. Commitments and Contingencies

Litigation

The Company is involved in pending litigation in the usual course of business. In the opinion of management, such litigation will not have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

10. Segment Information

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is its Chief Executive Officer. The operating segments are reviewed separately because each operating segment represents a strategic business unit that generally offers different products and serves different markets.

The Company's chief operating decision maker evaluates the operating results of the Company's reportable segments based upon revenues and adjusted net income, which is defined by the Company as net income adjusted for fair value changes of derivative instruments, the amortization of purchased intangibles, the net impact of tax rate changes on the Company's deferred tax asset and related changes in the tax-receivable agreement, certain non-cash asset impairment charges and the gains on the extinguishment of a portion of the tax receivable agreement. These adjustments are reflected net of the tax impact.

The Company operates in two reportable segments, Fleet Payment Solutions and Other Payment Solutions. The Fleet Payment Solutions segment provides customers with payment and transaction processing services specifically designed for the needs of vehicle fleet customers. This segment also provides information management services to these fleet customers. The Other Payment Solutions segment provides customers with a payment processing solution for their corporate purchasing and transaction monitoring needs. Revenue in this segment is derived from our corporate charge cards, single use accounts and prepaid card products. The corporate charge card products are used by businesses to facilitate purchases of products and utilize the Company's information management capabilities. The operations from the rapid! acquisition will appear in the Other Payment Solutions segment.

Financing interest expense and net realized and unrealized losses on derivative instruments are not allocated to the Other Payment Solutions segment in the computation of segment results for internal evaluation purposes. Total assets are not allocated to the segments.

The following table presents the Company's reportable segment results for the three months ended March 31, 2011 and 2010:

	Total	Operating	Depreciation	and	Provision for	Adjusted
	Revenues	Interest	Expense	Amortization	Income	Net
					Taxes	Income

(in thousands, except per share data)
(unaudited)

The following table reconciles adjusted net income to net income:

	Three months ended	
	March 31,	
	2011	2010
Adjusted net income	\$ 29,166	\$ 23,674
Unrealized losses on fuel price derivatives	(20,818)	(6,820)
Amortization of acquired intangible assets	(5,565)	(1,372)
Tax impact of the above transactions	9,332	3,072
Net income	\$ 12,115	\$ 18,554

The tax impact of the foregoing adjustments is the difference between the Company's GAAP tax provision and a pro forma tax provision based upon the Company's adjusted net income before taxes. The methodology utilized for calculating the Company's adjusted net income tax provision is the same methodology utilized in calculating the Company's GAAP tax provision.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

*We intend for this discussion to provide the reader with information that will assist in understanding our financial statements, the changes in key items in those financial statements from year to year, and the primary factors that accounted for those changes, as well as how certain accounting estimates affect our financial statements. The discussion also provides information about the financial results of the two segments of our business to provide a better understanding of how those segments and their results affect our financial condition and results of operations as a whole. This discussion should be read in conjunction with our audited consolidated financial statements as of December 31, 2010, the notes accompanying those financial statements and management's discussion and analysis as contained in our Annual Report on Form 10-K filed with the SEC on February 28, 2011 and in conjunction with the unaudited condensed consolidated financial statements and notes in **Item 1 of Part I** of this report.*

Overview

Wright Express Corporation is a leading provider of value-based, business payment processing and information management solutions. We provide products and services that meet the needs of businesses in various geographic regions including North America, Asia Pacific and Europe. The Company's fleet and other payment solutions provide its more than 350,000 customers with security and control for complex payments across a wide spectrum of business sectors. Together with our affiliates, we market our products and services directly, as well as through more than 150 strategic relationships which include major oil companies, fuel retailers and vehicle maintenance providers.

Our Company is organized under two segments, Fleet Payment Solutions and Other Payment Solutions. The Fleet Payment Solutions segment provides customers with fleet vehicle payment processing services specifically designed for the needs of commercial and government fleets. Fleet Payment Solutions revenue, which represents a majority of our total revenue, is earned primarily from payment processing, account servicing and transaction processing, with the majority generated by payment processing.

The Other Payment Solutions segment of our business provides customers with payment processing solutions for their corporate purchasing and transaction monitoring needs through our corporate charge card, and through our prepaid and gift card products and services. Other Payment Solutions revenue is earned primarily from payment processing revenue.

Summary

Below are selected items from the first quarter of 2011:

Average number of vehicles serviced increased 21 percent from the first quarter of 2010 to approximately 5.4 million, primarily due to the acquisition of Wright Express Australia and the addition of fleets in New Zealand.

Total fleet transactions processed increased 14 percent from the first quarter of 2010 to 70.3 million. Payment processing transactions increased 14 percent to 56.0 million, while transaction processing transactions increased 13 percent to 14.3 million, over the same period in the prior year. These increases are primarily due to the third quarter 2010 acquisition of Wright Express Australia and the addition of fleet transactions in New Zealand. Domestic payment processing transaction increased 6 percent over the same period in the prior year.

Average expenditure per payment processing transaction increased 25 percent to \$69.83 from \$55.80 for the same period last year. This increase was driven by higher average retail fuel prices. The average U.S. fuel price per gallon during the three months ended March 31, 2011, was \$3.38 for North America, a 22 percent increase over the same period last year, and \$5.32 (\$USD/gal) in Australia.

Realized losses on our fuel price derivatives were \$4.4 million compared to realized gains of \$5.0 million for the first quarter of 2010.

Credit loss expense in the fleet segment was \$5.5 million for the three months ended March 31, 2011, versus \$5.7 million for the three months ended March 31, 2010.

Corporate charge card purchase volume grew \$583 million to \$1.4 billion for the three months ended March 31, 2011, an increase of 68 percent over the same period last year.

- 19 -

Table of Contents

Our effective tax rate was 36.4 percent for the three months ended March 31, 2011 and 37.5 percent for the three months ended March 31, 2010. The rate fluctuated due to changes in the mix of earnings among different tax jurisdictions including our foreign subsidiaries. Our tax rate may fluctuate due to the impacts that rate mix changes have on our net deferred tax assets.

(a) Does not include Pacific Pride vehicle information.

NM Not Meaningful

Revenues

Payment processing revenue increased \$16.9 million for the three months ended March 31, 2011, compared to the same period last year. The increase is primarily due to the 22 percent increase in the average price per gallon of fuel, representing approximately \$11.7 million of the increase. The addition of Wright Express Australia during the third quarter of the prior year represented approximately \$4.9 million of the increase in payment processing revenue.

- 21 -

Table of Contents

Account services fees increased \$5.6 million for the three months ended March 31, 2011, compared to the same period last year. The increase is primarily related to Wright Express Australia operations.

Our finance fees have increased \$1.7 million for the three months ended March 31, 2011, over the same period in the prior year. The increase in these fees is associated with higher late payments by certain customers as compared to the same period in the prior year.

Operating Expenses

The following table compares selected expense line items within our Fleet Payment Solutions segment for the three months ended March 31:

(in thousands)	2011	2010	Increase (decrease)
Expense			
Provision for credit losses	\$ 5,549	\$ 5,666	(2)%
Operating interest expense	\$ 1,020	\$ 1,228	(17)%
Service fees	\$ 4,430	\$ 3,206	38 %
Salary and other personnel	\$ 23,230	\$ 18,877	23 %
Depreciation and amortization	\$ 9,778	\$ 5,818	68 %
Other	\$ 8,256	\$ 5,636	46 %

We generally measure our credit loss performance by calculating credit losses as a percentage of total fuel expenditures on payment processing transactions (Fuel Expenditures). This metric for credit losses was 13.8 basis points of Fuel Expenditures for the three months ended March 31, 2011, compared to 20.7 basis points of Fuel Expenditures for the same period last year. We use a roll rate methodology to calculate the amount necessary for our ending receivable reserve balance. This methodology takes into account total receivable balances, recent charge off experience, recoveries on previously charged off accounts, and the dollars that are delinquent to calculate the total reserve. In addition, management undertakes a detailed evaluation of the receivable balances to help ensure further overall reserve adequacy. The expense we recognized in the quarter is the amount necessary to bring the reserve to its required level after net charge offs. The decrease in expense during the three months ended March 31, 2011, as compared to the prior quarter, is primarily due to favorable aging and related rolls rates, along with reduced bankruptcies and increased recoveries.

Operating interest expense decreased \$0.2 million for the three months ended March 31, 2011, compared to the same period in 2010. Approximately \$0.5 million of the decrease in operating interest expense is due to lower interest rates. For the first quarter of 2011, the average interest rate was 0.9 percent, as compared to an average interest rate of 1.2 percent for the first quarter of 2010. Offsetting this decrease was an increase in our total average operating debt balance, which consists of our deposits and borrowed federal funds, to \$586 million for the first quarter of this year as compared to \$463 million for the first quarter of 2010. This balance increased so that we could finance both higher volumes and higher fuel prices.

Service fees increased \$1.2 million for the three months ended March 31, 2011, compared to the same period last year. Approximately \$0.9 million of this increase is due to product service fees at our Wright Express Australia operations.

Salary and other personnel expenses increased \$4.4 million for the three months ended March 31, 2011, as compared to the same period last year. This increase was primarily due to the acquisition of Wright Express Australia, which added \$2.2 million in expense over the same period in the prior year. The remaining increase is primarily due to short term incentive and stock compensation expenses at our North America operations.

Edgar Filing: Wright Express CORP - Form 10-Q

Depreciation and amortization expenses increased \$4.0 million for the three months ended March 31, 2011, as compared to the same period in 2010. This increase is primarily due to intangible amortization related to our acquisition of Wright Express Australia during the third quarter of 2010.

Other expenses increased \$2.6 million for the three months ended March 31, 2011, compared to the same period last year. Approximately \$0.6 million of this increase is due to operations at our Wright Express Australia, acquired during the third quarter of 2010. The remaining increase is related to our North American operations, including marketing and customer service related expenses.

- 22 -

Table of Contents*Fuel price derivatives*

We own fuel price derivative instruments that we purchase on a periodic basis to manage the impact of volatility in North American fuel prices on our cash flows. These fuel price derivative instruments do not qualify for hedge accounting. Accordingly, both realized and unrealized gains and losses on our fuel price derivative instruments affect our net income. Activity related to the changes in fair value and settlements of these instruments and the changes in average fuel prices in relation to the underlying strike price of the instruments is shown in the following table:

	Three months ended March 31,	
	2011	2010
Fuel price derivatives, at fair value, beginning of period	\$ (10,877)	\$ 6,152
Net change in fair value	(25,175)	(1,780)
Cash payments (receipts) on settlement	4,357	(5,040)
Fuel price derivatives, at fair value, end of period	\$ (31,695)	\$ (668)
Collar range:		
Floor	\$ 2.97	\$ 3.25
Ceiling	\$ 3.03	\$ 3.31
Average fuel price, beginning of period	\$ 3.15	\$ 2.70
Average fuel price, end of period	\$ 3.69	\$ 2.81

Changes in fuel price derivatives for the three months ended March 31, 2011, as compared to the corresponding period a year ago are attributable to upward movements in fuel prices. The average price of fuel, as indicated above, is now in excess of the ceiling price of our derivatives, leading to an unfavorable change in their value. The losses that we actually realize on these derivatives are offset by higher payment processing revenue we receive because such revenues are dependant, in part, on the current price of fuel.

We expect that our fuel price derivatives program will continue to be important to our business model going forward, and we expect to purchase derivatives in the future. The Company currently does not plan to hedge our fuel price risk exposure for Wright Express Australia as the exposure to fuel price movements is limited and has not historically fluctuated as in the United States.

Table of Contents**Other Payment Solutions**

The following table reflects comparative operating results and key operating statistics within our Other Payment Solutions segment:

(in thousands)	Three months ended		Increase (decrease)	
	2011	March 31, 2010	Amount	Percent

(in thousands)	Three months ended		Increase (decrease)	
	2011	March 31, 2010	Amount	Percent

Key operating statistics

Payment processing revenue:				
Corporate charge card purchase volume	\$1,435,965	\$ 852,631	\$ 583,334	68 %

NM Not Meaningful

Revenues

Payment processing revenue increased \$5.5 million, as compared to the same period in the prior year, which was primarily driven by higher corporate charge card purchase volume from our single use account product in the online travel service and insurance/warranty markets and by increased market penetration with our corporate charge card product. The corporate charge card net interchange rate for the first quarter of 2011 was down 8 basis points, which equates to approximately \$1.0 million, as compared to the first quarter of last year, primarily due to contract mix and increased foreign spend.

Transaction processing revenue increased approximately \$1.9 million due to the addition of Wright Express Australia Prepaid, which was acquired during the third quarter of 2010.

Other revenue has increased \$3.5 million over the same period in the prior year, primarily from increased fees related to cross border charges.

- 24 -

Table of Contents*Operating Expenses*

The following table compares selected expense line items within our Other Payment Solutions segment for the three months ended March 31:

(in thousands)	2011	2010	Increase (decrease)
Expense			
Service fees	\$ 8,581	\$ 4,388	96 %
Salary and other personnel	\$ 2,463	\$ 743	231 %
Depreciation and amortization	\$ 1,191	\$ 55	NM

NM Not Meaningful

Service fees increased \$4.2 million during the first quarter of 2011 as compared to the same period in the prior year. Approximately \$0.2 million of this increase is due operations at Wright Express Australia Prepaid. The remaining increase is due to increased volume and cross border charges on our North America corporate charge card product.

Salary and other personnel expenses increased \$1.7 million for the three months ended March 31, 2011, as compared to the same period last year. This increase was primarily due to the acquisition of Wright Express Australia, which added \$1.4 million in expense over the same period in the prior year.

Depreciation and amortization expenses increased \$1.1 million for the three months ended March 31, 2011, as compared to the same period in 2010. This increase is primarily due assets being placed into service.

- 25 -

Table of Contents**Liquidity, Capital Resources and Cash Flows**

We focus on management operating cash as a key element in achieving maximum stockholder value, and it is the primary measure we use internally to monitor cash flow performance from our core operations. Since deposits and borrowed federal funds are used to finance our accounts receivable, we believe that they are a recurring and necessary use and source of cash. As such, we consider deposits and borrowed federal funds when evaluating our operating activities. For the same reason, we believe that management operating cash may also be useful to investors as one means of evaluating our performance. However, management operating cash is a non-GAAP measure and should not be considered a substitute for, or superior to, net cash provided by (used for) operating activities as presented on the consolidated statement of cash flows in accordance with GAAP.

While GAAP operating cash flows showed a use of \$44.5 million in the first quarter of 2011, management operating cash moved in the opposite direction providing approximately \$24.0 million inflows. These 2011 cash flows contracted to approximately \$6.3 million in favorable GAAP operating cash flows and \$5.9 million in management operating cash outflows in the first quarter of 2010.

In addition to the \$24.0 million of management operating cash we generated during the first quarter of 2011, we also increased borrowings under our revolving credit facility by \$5.8 million. The usage of management operating cash was primarily due to capital requirements for the \$8 million cash outlay for the acquisition of rapid!

Management Operating Cash

The table below reconciles net cash provided by operating activities to change in management operating cash:

	Three months ended March 31,	
	2011	2010
Net cash (used) provided by operating activities	\$ (44,528)	\$ 6,320
Net change in deposits	128,018	(17,054)
Net change in borrowed federal funds	(59,484)	4,880
Change in management operating cash	\$ 24,006	\$ (5,854)

Our bank subsidiary, Wright Express Financial Services Corporation (FSC), utilizes certificates of deposit to finance our accounts receivable. FSC issued certificates of deposit in various maturities ranging between three months and two years and with fixed interest rates ranging from 0.35 percent to 1.95 percent as of March 31, 2011. As of March 31, 2011, we had approximately \$584 million of deposits outstanding. Certificates of deposit are subject to regulatory capital requirements.

FSC also utilizes federal funds lines of credit to supplement the financing of our accounts receivable. We have approximately \$140 million in lines of credit available on our federal funds lines as of March 31, 2011.

Liquidity

We continue to have appropriate access to short-term borrowing instruments to fund our accounts receivable. Our cash balance for the period increased by approximately \$18 million, as deposits increased approximately \$128 million and our accounts receivable increased approximately \$258 million, primarily due to increased fuel prices.

We have approximately one year left on our revolving credit facility and have approximately \$335.2 million in borrowings against it. We had approximately \$91.8 million available to us under this agreement as of March 31, 2011. Our term loan has \$75 million borrowed against it and is due in the third quarter of this year. We are currently paying

a rate of LIBOR plus 70 basis points on our credit facility. We increased our financing debt by \$5.8 million during the current quarter and ended the period with a balance outstanding of \$413.1 million. We are in process of renegotiating our current credit facility.

- 26 -

Table of Contents

Our credit agreement contains various financial covenants requiring us to maintain certain financial ratios. In addition to the financial covenants, the credit agreement contains various customary restrictive covenants. FSC is not subject to certain of these restrictions. We have been, and expect to continue to be, in compliance with all material covenants and restrictions.

Management believes that we can adequately fund our cash needs during the next 12 months.

Off-balance Sheet Arrangements

Letters of credit. We are required to post collateral to secure our fuel price sensitive derivative instruments where our unrealized loss exceeds any unsecured credit granted by our counter party. At March 31, 2011, we had posted as collateral letters of credit totaling \$18 million, as our fuel price derivative instruments were in an unrealized loss position.

Purchase of Treasury Shares

We did not repurchase any shares of common stock during the quarter ended March 31, 2011.

Critical Accounting Policies and Estimates

We have no material changes to our critical accounting policies and estimates discussed in our Annual Report on Form 10-K for the year ended December 31, 2010.

Recently Adopted Accounting Standards

None

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We have no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2010.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The principal executive officer and principal financial officer of Wright Express Corporation evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report.

Disclosure controls and procedures are controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports that it files or submits under the Securities Exchange Act of 1934, within the time periods specified in the SEC's rules and forms, is recorded, processed, summarized and reported, and is accumulated and communicated to the company's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure. Based on their evaluation, the principal executive officer and principal financial officer of Wright Express Corporation concluded that the Company's disclosure controls and procedures were effective as of March 31, 2011.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2011, our most recently completed fiscal quarter, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 1. Legal Proceedings.

As of the date of this filing, we are not involved in any material legal proceedings. We also were not involved in any material legal proceedings that were terminated during the first quarter of 2011. However, from time to time, we are subject to other legal proceedings and claims in the ordinary course of business, none of which we believe are likely to have a material adverse effect on our financial position, results of operations or cash flows.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.
