The accompanying notes are an integral part of these unaudited condensed consolidated financial statements.

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)****1. BASIS OF PRESENTATION**

The accompanying unaudited condensed consolidated financial statements have been prepared by athenahealth, Inc. (the Company) in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial reporting and as required by Regulation S-X, Rule 10-01. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of items of a normal and recurring nature) necessary to present fairly the financial position as of June 30, 2011, and the results of operations for the three and six month periods ended June 30, 2011 and 2010 and cash flows for the six month period ended June 30, 2011 and 2010. The results of operations for the three and six month periods ended June 30, 2011 are not necessarily indicative of the results to be expected for the full year. When preparing financial statements in conformity with GAAP, the Company must make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses, and related disclosures at the date of the financial statements. Actual results could differ from those estimates.

The Company considers events or transactions that occur after the balance sheet date but before the financial statements are issued to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through the date of issuance of these financial statements. The accompanying unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements for the year ended December 31, 2010, included in the Company's Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission (SEC) on February 18, 2011.

**2. RECENT ACCOUNTING PRONOUNCEMENTS**

From time to time, new accounting pronouncements are issued by the FASB and are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company believes that the impact of other recently issued accounting pronouncements will not have a material impact on its consolidated financial position, results of operations, and cash flows, or do not apply to its operations.

**3. NET INCOME PER SHARE**

Basic net income per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing net income by the weighted average number of common shares outstanding and potentially dilutive securities outstanding during the period under the treasury stock method. Potentially dilutive securities include stock options, restricted stock units, shares to be purchased under the employee stock purchase plan, and warrants. Under the treasury stock method, dilutive securities are assumed to be exercised at the beginning of the periods and as if funds obtained thereby were used to purchase common stock at the average market price during the period. Securities are excluded from the computations of diluted net income per share if their effect would be antidilutive to earnings per share.

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)**

The following table reconciles the weighted average shares outstanding for basic and diluted net income per share for the periods indicated.

	Three Months Ended June 30, 2011	Three Months Ended June 30, 2010	Six Months Ended June 30, 2011	Six Months Ended June 30, 2010
Net income	\$ 5,186	\$ 1,298	\$ 8,437	\$ 1,575
Weighted average shares used in computing basic net income per share	34,917	34,106	34,798	34,061
Net income per share basic	\$ 0.15	\$ 0.04	\$ 0.24	\$ 0.05
Net income	\$ 5,186	\$ 1,298	\$ 8,437	\$ 1,575
Weighted average shares used in computing basic net income per share	34,917	34,106	34,798	34,061
Effect of dilutive securities	856	1,072	917	1,129
Weighted average shares used in computing diluted net income per share	35,773	35,178	35,715	35,190
Net income per share diluted	\$ 0.14	\$ 0.04	\$ 0.24	\$ 0.04

The computation of diluted net income per share does not include 1,412 and 1,161 options and restricted stock units for the three and six months ended June 30, 2011, respectively, because their inclusion would have an antidilutive effect on net income per share. The computation of diluted net income per share does not include 2,927 options for the three and six months ended June 30, 2010, because their inclusion would have an antidilutive effect on net income per share.

**4. COMPREHENSIVE INCOME**

Comprehensive income was as follows for the periods indicated:

	Three Months Ended June 30, 2011	Three Months Ended June 30, 2010	Six Months Ended June 30, 2011	Six Months Ended June 30, 2010
Net income	\$ 5,186	\$ 1,298	\$ 8,437	\$ 1,575
Unrealized holding gain (loss) on available-for-sale investments, net of tax	25	2	15	(54)
Foreign currency translation adjustment	(17)	(65)	15	(48)

Total comprehensive income	\$	5,194	\$	1,235	\$	8,467	\$	1,473
----------------------------	----	-------	----	-------	----	-------	----	-------

**5. FAIR VALUE OF FINANCIAL INSTRUMENTS**

As of June 30, 2011 and December 31, 2010, the carrying amounts of cash and cash equivalents, restricted cash, receivables, accounts payable, and accrued expenses approximated their estimated fair values because of the short-term nature of these financial instruments. All highly liquid debt instruments purchased with a maturity of three months or less at the date of acquisition are included in cash and cash equivalents. Included in cash and cash equivalents as of June 30, 2011 and December 31, 2010, are money market fund investments of \$28,932 and \$10,799, respectively, which are reported at fair value.

At December 31, 2010, the carrying amounts of the Company's debt obligations approximate fair value based upon its best estimate of interest rates that would be available to the Company for similar debt obligations. The estimated fair value of its long-term debt was determined using quoted market prices and other inputs that were derived from available market information and may not be representative of actual values that could have been or will be realized in the future.

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)**

The following table presents information about the Company's financial assets and liabilities that are measured at fair value on a recurring basis as of June 30, 2011 and December 31, 2010, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair value. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities and fair values determined by Level 2 inputs utilize quoted prices (unadjusted) in inactive markets for identical assets or liabilities obtained from readily available pricing sources for similar instruments. The fair values determined by Level 3 inputs are unobservable values which are supported by little or no market activity. Investments include \$20,266 of long-term U.S. government backed securities that have been classified in investments and other assets on the condensed consolidated balance sheet at June 30, 2011. Investments include \$3,500 of long-term U.S. government backed securities and \$2,081 of long-term corporate bonds that have been classified in investments and other assets on the condensed consolidated balance sheet at December 31, 2010.

**Fair Value Measurements At June 30, 2011,**

	<b>Level 1</b>	<b>Using Level 2</b>	<b>Level 3</b>	<b>Total</b>
Cash and cash equivalents:				
Money market	\$ 28,932	\$	\$	\$ 28,932

Commerical paper		11,099		11,099
Corporate bonds		43,939		43,939
U.S. government backed securities		22,266		22,266
Total assets	\$ 28,932	\$ 77,304	\$	\$ 106,236
Accrued contingent consideration	\$	\$	\$ (2,321)	\$ (2,321)
Total liabilities	\$	\$	\$ (2,321)	\$ (2,321)

**Fair Value Measurements as of December 31,  
2010, Using**

	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
Cash and cash equivalents:				
Money market	\$ 10,799	\$	\$	\$ 10,799
Corporate bonds		577		577
Available-for-sale investments:				
Commercial paper		29,642		29,642
Corporate bonds		40,676		40,676
U.S. government backed securities		15,494		15,494
Total assets	\$ 10,799	\$ 86,389	\$	\$ 97,188
Accrued contingent consideration	\$	\$	\$ (4,655)	\$ (4,655)
Interest rate swap derivative contract		(490)		(490)

Total liabilities	\$	\$	(490)	\$	(4,655)	\$	(5,145)
-------------------	----	----	-------	----	---------	----	---------

U.S. government backed securities, corporate bonds and commercial paper are valued using a market approach based upon the quoted market prices of identical instruments when available or other observable inputs such as trading prices of identical instruments in inactive markets or similar securities. The interest rate swap derivative contract is valued using an interest rate swap model and observable inputs at the reporting date.

It is the Company's policy to recognize transfers between levels of the fair value hierarchy, if any, at the end of the reporting period however there have been no such transfers during any periods presented.

Contingent consideration is recorded at fair value as an element of purchase price with subsequent adjustments recognized in the consolidated statement of operations. At the acquisition date and reporting date, the fair value of the accrued contingent consideration was determined using a probability-weighted income approach based on upside, downside and base case scenarios. This approach is based on significant inputs that are not observable in the market, which are referred to as Level 3 inputs. As of June 30, 2011 and December 31, 2010, the Company has accrued a liability of \$2,321 and \$4,655, respectively, for the estimated fair value of contingent

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)**

considerations estimated to be payable upon the acquired company reaching specific performance metrics over the initial three years of operation after acquisition. There are two separate elements that make up the contingent consideration.

The first potential contingent consideration ranges from zero to \$4,800 and is payable in one installment based upon operational performance for the year ended December 31, 2010. Based on the actual operational performance for the year ended December 31, 2010, the Company had accrued \$2,400 relating to the first potential contingent consideration which was paid in March of 2011.

The second potential contingent consideration ranges from zero to \$2,900 and is payable in quarterly installments based upon the cross selling of the Company's services into the acquired company's customer base for the years ended December 31, 2010 and 2011, and the six-month period ending June 30, 2012. Any amounts not earned in the first potential contingent consideration can be earned under the second potential contingent consideration in excess of the initial \$2,900 bringing the total potential contingent consideration to \$5,300. At June 30, 2011, key assumptions relating to the second potential contingent consideration include a discount rate of 20% and a probability adjusted level of 50% for the base case scenario and 25% for the upside and downside scenarios. At December 31, 2010, key assumptions relating to the second potential contingent consideration included a discount rate of 21% and a probability adjusted level of 50% for the base case scenario and 25% for the upside and downside scenarios. The change in the assumption was caused by the expected results from 2011 and 2012 operations and resulted in an increase of \$224 in the fair value of the total contingent consideration during the six months ended June 30, 2011. The Company paid \$158 during the six months ended June 30, 2011, under the terms of the second potential contingent consideration. No amounts were paid under either contingent consideration in the three months ended June 30, 2011 and, 2010.

	Three Months Ended June 30, 2011	Three Months Ended June 30, 2010	Six Months Ended June 30, 2011	Six Months Ended June 30, 2010
Balance beginning of period	\$ 2,211	\$ 5,100	\$ 4,655	\$ 5,100

Total	\$ 85,829	\$ (17)	\$ 85,812

Investments include \$3,500 of long-term U.S. government backed securities and \$2,081 of long-term corporate bonds that have been classified in investments and other assets on the condensed consolidated balance sheet at December 31, 2010.

**7. ACQUISITIONS**

On June 24, 2011, the Company purchased certain net assets of the Point Lookout facility located near Belfast, Maine for a purchase price of \$7,700, which was adjusted for certain working capital adjustments to arrive at a total cash consideration of \$6,988. The facility will serve as the Company's new client and employee training center. The valuation of the acquired land, property and equipment is not final.

*Subsequent event* On July 21, 2011, the Company entered into an agreement and plan of merger with Proxsys LLC for approximately \$28 million in cash with the potential for additional consideration of up to \$8 million based upon the achievement of certain business and financial milestones. The total value of the consideration will be subject to working capital adjustments and the fair value of the contingent consideration. The merger is expected to broaden the Company's product offerings by bringing hospital order management capabilities to the Company's service platform. The transaction is expected to close in the third quarter of 2011.

**8. LONG-TERM DEBT AND CAPITAL LEASE OBLIGATIONS**

The summary of outstanding debt and capital lease obligations is as follows:

	<b>As of June 30, 2011</b>	<b>As of December 31, 2010</b>
Term loan	\$	\$ 5,325
Capital lease obligation		3,891
		9,216
Less current portion of long-term debt and capital lease obligations		(2,909)
Long-term debt and capital lease obligations, net of current portion	\$	\$ 6,307

*2008 Term and Revolving Loans* On September 30, 2008, the Company entered into a credit agreement (the "Credit Agreement") with a financial institution. The Credit Agreement consists of a revolving credit facility in the amount of \$15,000 and a term loan facility in the amount of \$6,000 (collectively, the "Credit Facility"). The revolving credit facility may be extended by an additional \$15,000 on the satisfaction of certain conditions and includes a \$10,000 sublimit for the issuance of standby letters of credit. The revolving credit facility matures on September 30, 2011, and the term loan facility originally matured on September 30, 2013, although either facility may be voluntarily prepaid in

whole or in part at any time without premium or penalty. On September 30, 2008, the Company borrowed a total of \$6,000 under the term loan facility for general working capital purposes. The term loan has a 5 year term which is payable quarterly starting December 31, 2008, for \$75 each quarter. The Company has the option to extend the loan, subject to agreement of the lender, at the end of the 5 year term. On May 4, 2011, the Company repaid the outstanding balance of the term loan and as a result, the entire Credit Agreement now matures on September 30, 2011. As of June 30, 2011, there were no amounts outstanding under the Credit Agreement.

The obligations of the Company and its subsidiaries under the Credit Agreement are collateralized by substantially all assets.

*Capital Lease Obligations* In June 2007, the Company entered into a master lease and security agreement (the Equipment Line ) with a financing company. The Equipment Line allows for the Company to lease from the financing company eligible equipment purchases, submitted within 90 days of the applicable equipment's invoice date. Each lease has a 36 month term which is payable in equal monthly installments, commencing on the first day of the fourth month after the date of the disbursements of such

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)**

loan and continuing on the first day of each month thereafter until paid in full. The Company has accounted for these as capital leases. On May 4, 2011 the Company terminated these leases and elected to purchase the assets for \$1,103. At June 30, 2011 and December 31, 2010, the Company had \$0 and \$3,891, respectively, of outstanding capital leases. The weighted average interest rate implicit in the leases was 4.3%.

**9. INTEREST RATE SWAP**

The Company entered into a derivative instrument which has a decreasing notional value over the term to offset the cash flow exposure associated with its interest payments on certain outstanding debt. In October 2008, we entered into an interest rate swap derivative contract to mitigate the cash flow exposure associated with our interest payments on certain outstanding debt. The Company's interest rate swap is not designated as a hedging instrument. The derivative is accounted for at fair value with gains or losses reported in earnings.

The swap had a notional amount of \$5,850 to hedge changes in cash flows attributable to changes in the LIBOR rate associated with the September 30, 2008, issuance of the term loan facility due September 30, 2028. We pay a fixed rate of 4.5% and receive a variable rate based on one month LIBOR. In May 2011, in connection with the repayment on the term loan, the Company terminated the swap at its fair value. The fair value of derivatives as of June 30, 2011, and December 31, 2010, is summarized in the following table.

	Liability Derivatives Balance Sheet Location	Fair Value as of	
		June 30, 2011	December 31, 2010
Interest rate derivative contract	Interest rate derivative liability	\$	\$ 490
Total derivative		\$	\$ 490

The effect of derivative instruments on the consolidated statement of operations for the three months ended June 30, 2011 and 2010, is summarized in the following table.

Location of Loss Recognized in Earnings	Loss on interest rate derivative contract	Loss Recognized in Earnings for Three Months Ended June 30, 2011	Loss Recognized in Earnings for Three Months Ended June 30, 2010
		Interest rate contracts	

The effect of derivative instruments on the consolidated statement of operations for the six months ended June 30, 2011 and 2010, is summarized in the following table.

Location of Loss Recognized in Earnings	Loss on interest rate derivative contract	Loss Recognized in Earnings for Six Months Ended June 30, 2011	Loss Recognized in Earnings for Six Months Ended June 30, 2010
		Interest rate contracts	

Derivatives are carried at fair value, as determined using standard valuation models, and adjusted, when necessary, for credit risk and are separately presented on the balance sheet.

**10. COMMITMENTS AND CONTINGENCIES**

On March 2, 2010, a complaint was filed by Prompt Medical Systems, L.P. naming the Company and several other defendants in a patent infringement case (*Prompt Medical Systems, L.P. v. AllscriptsMisys Healthcare Solutions, Inc. et al.*, Civil Action No. 6:2010cv00071, United States District Court for the Eastern District of Texas). The complaint alleges that the Company has

**Table of Contents****athenahealth, Inc.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited amounts in thousands, except per-share amounts)**

infringed U.S. Patent No. 5,483,443 with a listed issue date of January 9, 1996, entitled Method for Computing Current Procedural Terminology Codes from Physician Generated Documentation. The complaint seeks an injunction enjoining infringement, damages, and pre- and post-judgment costs and interest. The Company and several other defendants filed motions to dismiss the complaint. On February 11, 2011, the Court issued an Order granting-in-part and denying-in-part the motions to dismiss. The Court ordered the plaintiff to replead certain claims within fourteen days of the Order.

On February 23, 2011, the plaintiff filed its amended complaint in response to the Court's February 11, 2011, order. The Company filed its answer to the amended complaint on March 9, 2011, asserting a number of defenses and counterclaiming for a declaration of non-infringement, invalidity, and unenforceability. The Company also filed a joint motion with other defendants seeking sanctions for the plaintiff's spoliation of evidence, which is now fully briefed.

On November 24, 2010, several defendants filed (i) a motion for summary judgment of invalidity against the patent-in-suit on the basis that it claims only non-patentable subject matter and (ii) a motion to stay all proceedings pending the resolution of the motion for summary judgment. The Company filed a motion to join in the motion to stay the proceedings. The motions are fully briefed and awaiting a decision by the Court. On May 18, 2011, the defendants provided notice that they wish to continue to urge the pending motion for summary judgment as to the first amended complaint.

The case is currently in the discovery phase. A claim construction hearing is scheduled for November 11, 2011. Trial is scheduled for June 11, 2012. On June 17, 2011, the defendants filed a notice of their disclosure of preliminary proposed claim constructions and extrinsic evidence.

The Company is being indemnified in this lawsuit from and against any liability and reasonable costs, including attorneys fees, incurred by the Company in its defense, pursuant to a license agreement with its vendor.

The Company believes that it has meritorious defenses to the lawsuit and continues to contest it vigorously.

On March 19, 2010, a putative shareholder class action complaint was filed in the United States District Court for the District of Massachusetts against the Company and certain of its current and former officers entitled *Casula v. athenahealth, Inc. et al.*, Civil Action No. 1:10-cv-10477. On June 3, 2010, the court appointed Waterford Township General Employees Retirement System as the lead plaintiff. On August 2, 2010, the lead plaintiff filed an amended complaint. The amended complaint alleges that the defendants violated the federal securities laws by disseminating false and misleading statements through press releases, statements by senior management, and SEC filings. The alleged false and misleading statements concern, among other things, the amortization period for deferred implementation revenues. The amended complaint seeks unspecified damages, costs, and expenses. The defendants filed a motion to dismiss the amended complaint on October 1, 2010, and a reply brief in further support of the motion to dismiss the amended complaint on December 30, 2010. The Company believes that it has meritorious defenses to the amended complaint and will contest the claims vigorously.

On March 17, 2011, a complaint was filed by PPS Data, LLC naming the Company and several other defendants in a patent infringement case (*PPS Data, LLC v. Allscripts Healthcare Solutions, Inc. et al.*, Civil Action No. 3:11-CU-273-J-99MMH-TEM, United States District Court for the Middle District of Florida). The complaint alleges that the Company has infringed U.S. Patent No. 6,343,271 with a listed issue date of January 29, 2002, entitled

Electronic Creation, Submission, Adjudication, and Payment of Health Insurance Claims. The complaint seeks an injunction enjoining infringement, damages, pre- and post-judgment costs and interest, and attorneys' fees. On April 14, 2011, the Company filed a motion to dismiss, or, in the alternative, a motion for summary judgment. On May 5, 2011, the Company filed a motion to sever and transfer the case. Both the April 14 and May 5, 2011, motions were fully briefed and the Court heard oral argument on July 12, 2011. The Court has not yet ruled on either of these motions. The Company believes that it has meritorious defenses to the complaint and will continue to contest the claims vigorously.

On May 25, 2011, a complaint was filed by Medsquire, LLC naming the Company and several other defendants in a patent infringement case (*Medsquire, LLC v. Spring Medical Systems, Inc. et al.*, Civil Action No. 2:11-CV-04504-DSF-AGR, United States District Court for the Central District of California). The complaint alleges that the Company has infringed U.S. Patent No. 5,682,526 with a listed issue date of October 28, 1997, entitled Method and System for Flexibly Organizing, Recording, and Displaying Medical Patient Care Information Using Fields in a Flowsheet. The complaint seeks damages, pre-judgment interest, and attorneys' fees. On July 18, 2011, several of the defendants, including the Company, filed a partial motion to dismiss. The Company believes that it has meritorious defenses to the complaint and will contest the claims vigorously.

On July 18, 2011, the Company filed a complaint against AdvancedMD Software, Inc. in the United States District Court for the District of Massachusetts. The complaint alleges that AdvancedMD Software, Inc. has infringed two of the Company's U.S. Patents: No. 7,617,116, which was issued on November 10, 2009, for Practice Management and Billing Automation System and No. 7,720,701, which was issued on May 18, 2010, for Automated Configuration of Medical Practice Management Systems. The Company is seeking permanent injunctive relief, damages, pre- and post-judgment costs and interest, and attorneys' fees.

On or about July 18, 2011, a complaint was filed in the Superior Court for Waldo County, Maine, against the Company entitled *Cordjia, LLC v. athenahealth, Inc.* The complaint alleges that the Company entered into a partnership with the plaintiff to purchase property in Maine, that the parties entered into a mutual non-disclosure agreement governing the sharing of confidential information between them, and that the Company subsequently terminated the partnership and purchased the property itself, using the confidential information obtained from the plaintiff to do so. The complaint purports to state claims for common-law fraud, negligent misrepresentation, breach of fiduciary duty, unjust enrichment, *quantum meruit*, promissory estoppel, breach of contract, and violation of the Maine Uniform Trade Secrets Act. The complaint seeks unspecified damages, fees and costs, and injunctive relief enjoining the Company from making further use of the plaintiff's confidential information and requiring the Company to return all confidential information in its possession to the plaintiff. The Company believes that it has meritorious defenses to the complaint and intends to contest the claims vigorously.

In addition, from time to time the Company may be subject to other legal proceedings, claims, and litigation arising in the ordinary course of business. The Company does not, however, currently expect that the ultimate costs to resolve any pending matter will have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

**Table of Contents****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.**

*This Quarterly Report on Form 10-Q contains forward-looking statements. All statements other than statements of historical fact contained in this Quarterly Report on Form 10-Q are forward-looking statements, including those regarding expanded sales and marketing efforts; changes in expenses related to operations, selling, marketing, research and development, general and administrative matters, and depreciation and amortization; liquidity issues; additional fundraising; and the expected performance period and estimated term of our client relationships, as well as more general statements regarding our expectations for future financial and operational performance, product and service offerings, regulatory environment, and market trends. In some cases, you can identify forward-looking statements by terminology such as may, will, should, expects, plans, anticipates, believes, estimates, predicts, potential, or continue ; the negative of these terms; or other comparable terminology. Forward-looking statements in this Item 2 include, without limitation, statements reflecting management's expectations for future financial performance and operating expenditures, expected growth, profitability and business outlook, increased sales and marketing expenses, increased cross-selling efforts among the Company's service offerings, expected client implementations, expected certification and regulatory approvals and the benefits of the Company's current service offerings and research and development for new service offerings and the benefits of current and expected strategic and sales and marketing relationships.*

*Forward-looking statements are only current predictions and are subject to known and unknown risks, uncertainties, and other factors that may cause our actual results, levels of activity, performance, or achievements to be materially different from those anticipated by such statements. These factors include, among other things, those set forth in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, under the heading Part I, Item 1A Risk Factors and any set forth below under Part II, Item 1A, Risk Factors.*

*Although we believe that the expectations reflected in the forward-looking statements contained in this Quarterly Report on Form 10-Q are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. Except as required by law, we are under no duty to update or revise any of such forward-looking statements, whether as a result of new information, future events, or otherwise, after the date of this Quarterly Report on Form 10-Q.*

**Overview**

athenahealth provides business services that help medical practices achieve and sustain financial health by collecting more money and exercising more control over their administrative tasks. These services are designed to reduce the administrative burden of complex billing rules, quality measurement and reporting, clinical documentation and data exchange, patient communication, and many of the related tasks that distract medical providers and staff from the practice of medicine. Our services are delivered and consumed through a single instance of our cloud-based platform, athenaNet. We differentiate our services by regularly deploying updates and improvements through athenaNet to clients without any action on the part of the client. athenaNet enables us to quickly implement our solution at a low up-front cost and to seamlessly work in tandem with our clients in real time.

The services provided through our single-instance cloud are currently packaged as three integrated components: athenaCollector for revenue cycle management, athenaClinicals for clinical cycle management, and athenaCommunicator for patient cycle management. The use of our single-instance platform allows all clients to benefit from the collective knowledge of all of our other clients through our patented billing Rules Engine and our clinical Quality Management Engine. Our clients use these rules engines to monitor and benchmark their performance with peer practices across the network. Our business intelligence application, Anodyne Analytics, also supports our clients in their pursuit of financial health by equipping users with data visualization tools and insight into their practice's performance.

Each service we provide is supported by a model comprised of three distinct components: Software, Knowledge, and Work. The cloud-based software is provided at no extra charge to users but is the primary conduit through which we exchange information between clients, payers, and our staff of experts. Knowledge is infused into each of our services via our Rules Engine as we work with clients, payers, and other partners to codify rules associated with reimbursement, clinical quality measures, and other factors related to our clients' performance. The third component to each of our services is the Work that we perform on behalf of our clients. Wherever possible, we replace manual

processes with automation, but where automation is not possible, we provide that manual labor rather than returning it to clients to be completed. This unique service model of Software, Knowledge, and Work has allowed us to align our success with our clients' performance, creating a continual cycle of improvement and efficiency. We charge clients a percentage of collections in most cases, so our financial results are a direct reflection of our ability to drive revenue to medical practices.

For the six months ended June 30, 2011, we generated revenue of \$147.8 million from the sale of our services compared to \$113.0 million for the six months ended June 30, 2010. For the three months ended June 30, 2011, we generated revenue of \$77.9 million from the sale of our services compared to \$58.6 million for the three months ended June 30, 2010. In 2010, we generated revenue of \$245.5 million from the sale of our services compared to \$188.5 million in 2009. Given the scope of our market opportunity, we have increased our spending each year on growth, innovation, and infrastructure. Despite increased spending in these areas, higher revenue and lower operating expenses as a percentage of revenue typically lead to greater operating income.

**Table of Contents**

Our revenue is predominately derived from business services that we provide on an ongoing basis. This revenue is generally determined as a percentage of payments collected by us on behalf of our clients, so the key drivers of our revenue include growth in the number of physicians working within our client accounts, the collections of these physicians, and the number of services purchased. To provide these services, we incur expenses in several categories, including direct operating, selling and marketing, research and development, general and administrative, and depreciation and amortization expense. In general, our direct operating expense increases as our volume of work increases, whereas our selling and marketing expense increases in proportion to our intended growth rate of adding new accounts to our network of physician clients. Our other expense categories are less directly related to growth of revenues and relate more to our planning for the future, our overall business management activities, and our infrastructure. As our revenues have grown, the difference between our revenue and our direct operating expense also has grown, which has afforded us the ability to spend more in other categories of expense and to experience increases in operating income. We manage our cash and our use of credit facilities to ensure adequate liquidity, in adherence to related financial covenants.

**Recent Development**

On July 21, 2011, the Company entered into an agreement and plan of merger with Proxsys LLC for approximately \$28 million in cash with the potential for additional consideration of up to \$8 million based upon achievement of certain business and financial milestones. The merger is expected to broaden the Company's product offerings by bringing hospital care order management capabilities to the Company's service platform. The transaction is expected to close in the third quarter of 2011.

**Critical Accounting Policies**

The preparation of our consolidated financial statements in conformity with GAAP requires us to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities as of the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions are used for, but are not limited to: (1) revenue recognition, including our estimated expected customer life; (2) allowance for doubtful accounts; (3) asset impairments (4) depreciable lives of assets; (5) economic lives and fair value of leased assets; (6) income tax reserves and valuation allowances; (7) fair value of stock options; (8) allocation of direct and indirect cost of sales; (9) fair value of contingent consideration and (10) litigation reserves. Future events and their effects cannot be predicted with certainty, and accordingly, our accounting estimates require the exercise of judgment. The accounting estimates used in the preparation of our consolidated financial statements will change as new events occur, as more experience is acquired, as additional information is obtained and as our operating environment changes. We evaluate and update our assumptions and estimates on an ongoing basis and may employ outside experts to assist in our evaluations. Actual results could differ from the estimates we have used.

Critical accounting policies are those policies that affect our more significant judgments and estimates used in the preparation of our condensed consolidated financial statements. We believe our critical accounting policies include our policies regarding revenue recognition, software development costs, stock-based compensation, income taxes, and contingent consideration. For a more detailed discussion of our critical accounting policies, please refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, as filed with the SEC on February 18, 2011. For recent accounting pronouncements, please refer to Note 2.

**Financial Operations Overview**

*Revenue.* We derive our revenue from two sources: from business services associated with our revenue cycle, clinical cycle, patient cycle and Anodyne Analytics offerings and from implementation and other services. Implementation and other revenue consist primarily of professional services fees related to assisting clients with the initial implementation of our services and for ongoing training and related support services. Business services accounted for approximately 97% and 96% of our total revenues for the six months ended June 30, 2011 and 2010, respectively. Business services revenue are typically 2% to 8% of a practice's total collections depending upon the services purchased, the size, complexity, and other characteristics of the practice, plus a per-statement charge for billing statements that are generated for patients. Accordingly, business services revenue is largely driven by: the number of physician practices and other service providers we serve, the number of physicians and other medical

providers working in those physician practices, the volume of activity and related collections of those physicians, the mix of our services used by those physician practices and other medical providers, and our contracted rates. We expect to increase the number of physician practices we serve through increased sales and marketing expense, and we expect our existing clients to use more of our services through cross-selling efforts and growth in the number of combined services sales. There is moderate seasonality in the activity level of physician practices. Typically, discretionary use of physician services declines in the late summer and during the holiday season, which leads to a decline in collections by our physician clients about 30 to 50 days later. Additionally, the volume of activity and related collections vary from year to year based in large part on the severity, length and timing of the onset of the flu season. While we believe that the severity, length and timing of the onset of the cold and flu season will continue to impact collections by our physician clients, there can be no assurance that our future sales of these products will necessarily follow historical patterns. Implementation revenue and other revenue are largely driven by the increase in the volume of our new business. As a result, we expect implementation and other revenue to increase in absolute terms for the foreseeable future but to remain relatively consistent as a percentage of total revenue. None of our clients accounted for more than 10% of our total revenues for the three and six months ended June 30, 2011, and 2010.

*Direct Operating Expense.* Direct operating expense consists primarily of salaries, benefits, claim processing costs, other direct expenses, and stock-based compensation related to personnel who provide services to clients, including staff who implement new clients. We expense implementation costs as incurred. We include in direct operating expense all service costs associated with athenaCollector, athenaClinicals, athenaCommunicator, ReminderCall, and Anodyne Analytics. Although we expect that direct operating expense will increase in absolute terms for the foreseeable future, the direct operating expense is expected to decline as a

**Table of Contents**

percentage of revenue over time as we increase automation. We expect to increase our overall level of automation as we become a larger operation, with higher volumes of work in particular functions, geographies, and medical specialties. We also expect these expenses to increase in absolute terms for the foreseeable future but to decline as a percentage of revenue. This decrease will also be driven by increased levels of automation and economies of scale. Direct operating expense does not include allocated amounts for rent, occupancy and other indirect costs (including building maintenance and utilities), depreciation, and amortization, except for amortization related to purchased intangible assets.

*Selling and Marketing Expense.* Selling and marketing expense consists primarily of marketing programs (including trade shows, brand messaging, and on-line initiatives) and personnel-related expense for sales and marketing employees (including salaries, benefits, commissions, stock-based compensation, non-billable travel, lodging, and other out-of-pocket employee-related expenses). Although we recognize substantially all of our revenue when services have been delivered, we recognize a large portion of our sales commission expense at the time of contract signature and at the time our services commence. Accordingly, we incur a portion of our sales and marketing expense prior to the recognition of the corresponding revenue. We have increased our sales and marketing expenses from year to year and we expect to continue to increase our investment in sales and marketing by hiring additional direct sales personnel and support personnel to add new clients and increase sales to our existing clients and expand awareness through paid search and other similar initiatives. We also plan to expand our marketing activities, such as attending trade shows, expanding user groups, and creating new printed materials. As a result, we expect that sales and marketing expense will increase in absolute terms and will likely increase as a percentage of total revenue in the near-term.

*Research and Development Expense.* Research and development expense consists primarily of personnel-related expenses for research and development employees (including salaries, benefits, stock-based compensation, non-billable travel, lodging, and other out-of-pocket employee-related expenses) and consulting fees for third-party developers. We expect that in the future, research and development expense will increase in absolute terms but not as a percentage of total revenue as new services and more mature products require incrementally less new research and development investment.

*General and Administrative Expense.* General and administrative expense consists primarily of personnel-related expense for administrative employees (including salaries, benefits, stock-based compensation, non-billable travel, lodging, and other out-of-pocket employee-related expense), occupancy and other indirect costs (including building maintenance and utilities), and insurance premiums; software license fees; outside professional fees for accountants, lawyers, and consultants; and compensation for temporary employees. We expect that general and administrative expense will increase in absolute terms as we invest in infrastructure to support our growth. Though expenses are expected to continue to rise in absolute terms, we expect general and administrative expense to decline as a percentage of total revenue over time.

*Depreciation and Amortization Expense.* Depreciation and amortization expense consists primarily of depreciation of fixed assets and amortization of capitalized software development costs, which we amortize over a two-year period from the time of release of related software code. As we grow, we will continue to make capital investments in the infrastructure of the business and we will continue to develop software that we capitalize. At the same time, because we are spreading fixed costs over a larger client base, we expect related depreciation and amortization expense to decline as a percentage of total revenue over time.

*Other Income (Expense).* Interest expense has historically consisted of interest costs related to our equipment-related term leases and our term loan and revolving loans under our credit facility, offset by interest income on investments. Interest income represents earnings from our cash, cash equivalents, and investments. The gain (loss) on the interest rate derivative contract represented the change in the fair market value of a derivative instrument that is not designated as a hedge. As we have repaid all capital leases, the term loan and terminated the interest rate derivative contract during the three months ended June 30, 2011, we expect that our interest expense will be insignificant until such time we determine that entering into new financing arrangements is appropriate.

**Results of Operations*****Comparison of the Six Months Ended June 30, 2011 and 2010***

	<b>Six Months Ended June</b>		<b>Change</b>	
	<b>2011</b>	<b>2010</b>	<b>Amount</b>	<b>Percent</b>
	30,			
	(in thousands)			
Business services	\$ 142,835	\$ 108,964	\$ 33,871	31%
Implementation and other	4,980	4,065	915	23%
<b>Total</b>	<b>\$ 147,815</b>	<b>\$ 113,029</b>	<b>\$ 34,786</b>	<b>31%</b>

*Revenue.* Total revenue for the six months ended June 30, 2011, was \$147.8 million, an increase of \$34.8 million, or 31%, over revenue of \$113.0 million for the six months ended June 30, 2010. This increase was due almost entirely to an increase in business services revenue.

**Table of Contents**

*Business Services Revenue.* Revenue from business services for the six months ended June 30, 2011, was \$142.8 million, an increase of 31%, over revenue of \$109.0 million for the six months ended June 30, 2010. This increase was primarily due to the growth in the number of physicians and medical providers using our services. The summary of changes in the physicians and active medical providers using our revenue cycle management service, athenaCollector, clinical cycle management service, athenaClinicals, and patient cycle management service, athenaCommunicator are as follows:

	As of June 30,		Change	
	2011 Amount	2010 Amount	Amount	Percent
Physicians revenue cycle management service	20,824	17,136	3,688	22%
Active medical providers revenue cycle management service	29,482	24,782	4,700	19%
Physicians clinicals cycle management service	3,444	1,548	1,896	122%
Active medical providers clinicals cycle management service	4,848	2,256	2,592	115%
Physicians patient cycle management service	1,198	442	756	171%
Active medical providers patient cycle management service	1,936	689	1,247	181%

Also contributing to this increase was the growth in related collections on behalf of these physicians and medical providers. The amount of collections processed for the six months ended June 30, 2011 was 3.4 billion, an increase of 0.7 billion, or 25%, over posted collections of 2.7 billion for the six months ended June 30, 2010.

*Implementation and Other Revenue.* Revenue from implementations and other sources was \$5.0 million for the six months ended June 30, 2011, an increase of \$0.9 million, or 23%, over revenue of \$4.1 million for the six months ended June 30, 2010. This increase was driven by new client implementations and increased professional services for our larger client base as described above. The increase in implementation and other revenue is the result of the increase in the volume of our business.

	Six Months Ended June 30,		Change	
	2011	2010	Amount	Percent
	(in thousands)			
Direct operating costs	\$56,290	\$47,620	\$8,670	18%

*Direct Operating Costs.* Direct operating expense for the six months ended June 30, 2011, was \$56.3 million, an increase of 18%, over costs of \$47.6 million for the six months ended June 30, 2010. This increase was primarily due to an increase in the number of claims that we processed on behalf of our clients and the related expense of providing services, including transactions expense and employee-related costs. The total claims submitted on behalf of clients for the six months ended June 30, 2011 was 28.0 million, an increase of 5.5 million, or 25%, over total claims submitted of 22.5 million for the six months ended June 30, 2010. Direct operating employee-related costs increased \$3.5 million from the six months ended June 30, 2010, to the six months ended June 30, 2011. This increase is primarily due to the 14% increase in headcount since June 30, 2010. We increased headcount to meet the current and anticipated demand for our services as our customer base has expanded and includes larger medical groups.

	Six Months Ended June 30,		Change	
	2011	2010	Amount	Percent
	(in thousands)			
Selling and marketing	\$ 35,756	\$ 24,753	\$ 11,003	44%

Edgar Filing: ATHENAHEALTH INC - Form 10-Q

Research and development	10,245	8,898	1,347	15%
General and administrative	23,437	23,080	357	2%
Depreciation and amortization	7,135	5,077	2,058	41%
Total	\$ 76,573	\$ 61,808	\$ 14,765	24%

*Selling and Marketing Expense.* Selling and marketing expense for the six months ended June 30, 2011, was \$35.8 million, an increase of \$11.0 million, or 44%, over costs of \$24.8 million for the six months ended June 30, 2010. This increase was primarily due to an increase in employee-related costs, stock-based compensation expense, internal sales commissions and external partner

**Table of Contents**

channel commission of \$6.3 million due to an increase in headcount and external channel partners. Our sales and marketing headcount increased by 40% since June 30, 2010, as we hired additional sales personnel to focus on adding new customers and increasing penetration within our existing markets. The increase was also due to a \$4.7 million increase in travel-related expenses, consulting and other software licenses, online marketing, offline marketing and other marketing events.

*Research and Development Expense.* Research and development expense for the six months ended June 30, 2011, was \$10.2 million, an increase of \$1.3 million or 15% over research and development expense of \$8.9 million for the six months ended June 30, 2010. This increase was due to higher employee-related costs and stock-based compensation expense of \$1.3 million as a result of the increased headcount. Our research and development headcount increased 27% since June 30, 2010, as we hired additional research and development personnel in order to upgrade and extend our service offerings and develop new technologies.

*General and Administrative Expense.* General and administrative expense for the six months ended June 30, 2011, was \$23.4 million, an increase of approximately \$0.3 million, or 2%, over general and administrative expenses of \$23.1 million for the six months ended June 30, 2010. General and administrative expense for the six months ended June 30, 2011, included an increase of \$0.9 million due to higher employee-related costs as a result of the increased headcount and an increase in stock-based compensation expense. Our general and administrative headcount increased by 11% since June 30, 2010, as we added personnel to support our growth. This increase is offset by a decrease in legal, audit, insurance and consulting expenses of \$0.5 million.

*Depreciation and Amortization Expense.* Depreciation and amortization expense for the six months ended June 30, 2011, was \$7.1 million, an increase of 41% over depreciation and amortization expense of \$5.1 million for the six months ended June 30, 2010. This was primarily due to higher depreciation from fixed asset expenditures in 2011 and 2010.

	<b>Six Months Ended June</b>			
	<b>30,</b>			
	<b>2011</b>	<b>2010</b>	<b>Change</b>	
	<b>Amount</b>	<b>Amount</b>	<b>Amount</b>	<b>Percent</b>
Interest income	\$ 216	\$ 144	\$ 72	*
Interest expense	(231)	(335)	104	-31%
Loss on interest rate derivative contract	(73)	(364)	291	(80)
Other income	44	63	(19)	(30)
Total other expense	\$ (44)	\$ (492)	\$ 448	*

\* not meaningful

*Other Income (Expense).* Interest income for the six months ended June 30, 2011, was \$0.2 million, an increase of \$0.1 million from interest income of \$0.1 million for the six months ended June 30, 2010. The increase was directly related to a higher cash balance. Interest expense for the six months ended June 30, 2011, and 2010 was relatively flat at \$0.2 million, which is driven by the balance of outstanding debt. The loss on interest rate derivative for the six months ended June 30, 2011, and 2010, was relatively flat at less than \$0.1 million. The loss on the interest rate derivative was the result of the change in the fair market value of a derivative instrument that was not designated a hedge.

*Income Tax Provision.* We recorded a provision for income taxes for the six months ended June 30, 2011, of approximately \$6.5 million compared to \$1.5 million for the six months ended June 30, 2010. The decrease in our effective tax rate was due to a decrease in the effect of our permanent differences as a percent of the overall rate.

***Comparison of the Three Months Ended June 30, 2011 and 2010***

	<b>Three Months Ended June 30,</b>		<b>Change</b>	
	<b>2011</b>	<b>2010</b>	<b>Amount</b>	<b>Percent</b>
	(in thousands)			
Business services	\$ 75,349	\$ 56,399	\$ 18,950	34%
Implementation and other	2,536	2,153	383	18%
<b>Total</b>	<b>\$ 77,885</b>	<b>\$ 58,552</b>	<b>\$ 19,333</b>	<b>33%</b>

*Revenue.* Total revenue for the three months ended June 30, 2011, was \$77.9 million, an increase of \$19.3 million, or 33%, over revenue of \$58.6 million for the three months ended June 30, 2010. This increase was due almost entirely to an increase in business services revenue.

**Table of Contents**

*Business Services Revenue.* Revenue from business services for the three months ended June 30, 2011, was \$75.3 million, an increase of \$18.9 million, or 34%, over revenue of \$56.4 million for the three months ended June 30, 2010. This increase was primarily due to the growth in the number of physicians and medical providers using our services.

	As of June 30,		Change	
	2011 Amount	2010 Amount	Amount	Percent
Physicians revenue cycle management service	20,824	17,136	3,688	22%
Active medical providers revenue cycle management service	29,482	24,782	4,700	19%
Physicians clinicals cycle management service	3,444	1,548	1,896	122%
Active medical providers clinicals cycle management service	4,848	2,256	2,592	115%
Physicians patient cycle management service	1,198	442	756	171%
Active medical providers patient cycle management service	1,936	689	1,247	181%

Also contributing to this increase was the growth in related collections on behalf of these physicians and medical providers. The amount of collections processed for the three months ended June 30, 2011, was 1.8 billion, an increase of 0.4 billion, over posted collections of 1.4 billion for the three months ended June 30, 2010.

*Implementation and Other Revenue.* Revenue from implementations and other sources was \$2.5 million for the three months ended June 30, 2011, an increase of \$0.3 million, or 18%, over revenue of \$2.2 million for the three months ended June 30, 2010. This increase was driven by new client implementations and increased professional services for our larger client base as described above. The increase in implementation and other revenue is the result of the increase in the volume of our business.

	Three Months Ended June 30,		Change	
	2011 Amount	2010 Amount	Amount	Percent
Direct operating costs	\$29,020	\$24,101	\$4,919	20%

(in thousands)

*Direct Operating Costs.* Direct operating expense for the three months ended June 30, 2011, was \$29.0 million, an increase of \$4.9 million, or 20%, over costs of \$24.1 million for the three months ended June 30, 2010. This increase was primarily due to an increase in the number of claims that we processed on behalf of our clients and the related expense of providing services, including transactions expense and employee-related costs. The total claims submitted on behalf of clients for the three months ended June 30, 2011 was 14.4 million, an increase of 3.1 million, or 27%, over total claims submitted of 11.3 million for the three months ended June 30, 2010. Direct operating employee-related costs increased \$2.1 million from the three months ended June 30, 2010 to the three months ended June 30, 2011. This increase is primarily due to the 14% increase in headcount since June 30, 2010. We increased the professional services headcount as part of a redesign of our client services organization and in order to meet the current and anticipated demand for our services as our customer base has expanded and includes larger medical groups.

*Selling and Marketing Expense.* Selling and marketing expense for the three months ended June 30, 2011, was \$18.8 million, an increase of \$6.1 million, or 48%, over costs of \$12.7 million for the three months ended June 30, 2010. This increase was primarily due to an increase in employee-related costs, stock-based compensation expense, internal sales commissions and external partner channel commission of \$3.2 million due to an increase in headcount and external channel partners. Our sales and marketing headcount

**Table of Contents**

increased by 40% since June 30, 2010, as we hired additional sales personnel to focus on adding new customers and increasing penetration within our existing markets. The increase was also due to a \$2.9 million increase in travel-related expenses, consulting and other software licenses, online marketing, offline marketing and other marketing events.

*Research and Development Expense.* Research and development expense for the three months ended June 30, 2011, was \$5.2 million, an increase of \$0.4 million, or 7%, over research and development expense of \$4.8 million for the three months ended June 30, 2010. This increase was primarily due to an increase in employee-related costs due to an increase in headcount. Our research and development headcount increased 27% since June 30, 2010, as we hired additional research and development personnel in order to upgrade and extend our service offerings and develop new technologies.

*General and Administrative Expense.* General and administrative expense for the three months ended June 30, 2011 was \$11.7 million, an increase of \$0.3 million, or 3%, over general and administrative expenses of \$11.4 million for the three months ended June 30, 2010. This increase was partially due to a \$0.3 million increase in employee-related costs due to an increase in headcount. Our general and administrative headcount increased by 11% since June 30, 2010, as we added personnel to support our growth.

*Depreciation and Amortization.* Depreciation and amortization expense for the three months ended June 30, 2011, was \$3.7 million, an increase of \$1.0 million, or 41%, over depreciation and amortization expense of \$2.7 million for the three months ended June 30, 2010. This was primarily due to higher depreciation expense from fixed asset expenditures in 2011 and 2010.

	Three Months Ended June		Change

Other income	6	33	(27)	-82%
Total other expense	\$ (77)	\$ (323)	\$ 246	*

\* not meaningful

*Other Income (Expense).* Interest income for the three months ended June 30, 2011, and 2010, was relatively flat at \$0.1 million. Interest expense for the three months ended June 30, 2011, and 2010 was relatively flat at \$0.1 million, which is driven by the balance of outstanding debt. The loss on interest rate derivative for the three months ended June 30, 2011, and 2010, was \$0.1 million and \$0.3 million, respectively. The loss on the interest rate derivative was the result of the change in the fair market value of a derivative instrument that was not designated a hedge.

*Income Tax Provision.* We recorded a provision for income taxes for the three months ended June 30, 2011, of approximately \$4.2 million compared to \$1.3 million for the three months ended June 30, 2010. The decrease in our effective tax rate was due to a decrease in the effect of our permanent differences as percent of the overall rate.

**Liquidity and Capital Resources***Sources of Liquidity*

Since our inception, we have funded our growth primarily through the private sale of equity securities, totaling approximately \$50.6 million, as well as through long-term debt, working capital, equipment-financing loans, and, in September 2007, we completed our initial public offering which provided net proceeds of approximately \$81.3 million.

As of June 30, 2011 our principal sources of liquidity consisted of cash, cash equivalents and short-term investments of \$104.4 million and available for sale long-term investments of \$20.3 million. Our cash investments consist of corporate debt securities, U.S. Treasury and government agency securities, and commercial paper. As specified in our investment policy, we place our investments in instruments that meet high credit quality standards, the policy limits the amount of our credit exposure to any one issue or issuer and seeks to manage these assets to achieve our goals of preserving principal, maintaining adequate liquidity at all times, and maximizing returns.

As of June 30, 2011, we have no outstanding indebtedness. We have an unused revolving credit facility in the amount of \$15.0 million. The credit facility may be extended by up to an additional \$15.0 million on the satisfaction of certain conditions. There was no balance outstanding on the revolving credit facility during the three and six months ended June 30, 2011, and 2010. The credit facility expires on September 30, 2011. The credit facility contains certain financial and nonfinancial covenants, including limitations on our consolidated leverage ratio and capital expenditures, defaults relating to non-payment, breach of covenants, inaccuracy of representations and warranties, default under other indebtedness (including a cross-default with our interest rate swap), bankruptcy and insolvency, inability to pay debts, attachment of assets, adverse judgments, ERISA violations, invalidity of loan and collateral

**Table of Contents**

documents, and change of control. Upon an event of default, the lenders may terminate the commitment to make loans and the obligation to extend letters of credit, declare the unpaid principal amount of all outstanding loans and interest accrued under the Credit Agreement to be immediately due and payable, require us to provide cash and deposit account collateral for our letter of credit obligations, and exercise their security interests and other rights under the Credit Agreement. As of June 30, 2011, we were in compliance with all financial and non financial covenants under this agreement.

We believe our sources of liquidity will be sufficient to sustain operations, to finance our strategic initiatives, make payments on our contractual obligations, and our purchases of property and equipment for at least the next twelve months. Our analysis is supported by the growth in our new customer base and a high rate of renewal rates with our existing customers and the corresponding increase in billings and collections. We may pursue acquisitions or investments in complementary businesses or technologies, in which case we may need to raise additional funds sooner than expected. There can be no assurance that we will continue to generate cash flows at or above current levels or that we will be able to maintain our ability to borrow under our existing credit facility or obtain additional financing.

***Commitments***

We enter into various purchase commitments with vendors in the normal course of business. We believe that our existing sources of liquidity will be adequate to fund these purchases during the year 2011. In the normal course of business, we make representations and warranties that guarantee the performance of services under service arrangements with clients. Historically, there has been no material losses related to such guarantees.

***Operating Cash Flow Activities***

	For the Six Months Ended June 30,	
	2011	2010
Net Income	\$ 8,437	\$ 1,575
Non-cash adjustments to net income	10,478	12,835
Cash provided in changes in operating assets and liabilities	1,254	830
Net cash provided by operating activities	\$ 20,169	\$ 15,240

Cash flow from operations increased approximately \$5 million to \$20.2 million for the six months ended June 30, 2011, as compared to \$15.2 million for the six months ended June 30, 2010. The increase is mainly attributable to increases in net income. The increase in net income is primarily due to the growth in our customer base, stability in renewal rates with our existing customer base and increased adoption of our services. This increase is partially offset by an increase in operating expenses that require cash outlays such as salaries, higher commissions, direct operating expenses, and selling and marketing expenses. The increase in add-backs of non-cash expenses during the six months ended June 30, 2011 and 2010 are primarily due to increases in depreciation and amortization, stock-based compensation expense, and our provision for uncollectible accounts. This is off-set by an increase in excess tax benefits from stock-based awards. The increase in depreciation and amortization was primarily attributed to capital expenditures, including capitalized software development costs of \$18.3 million during the twelve months ended June 30, 2011. The increase in stock-based compensation expense is primarily due to the increase in the volume and the value of stock-based awards granted during 2011 over grants in 2010. The increase to cash provided by in changes in operating assets and liabilities during the six months ended June 30, 2011, was due in large part to the increase in our deferred revenue offset by an increase in accounts receivable and a decrease in deferred rent. Accounts receivable increased to \$43.9 million at June 30, 2011 as compared to \$36.9 million as of December 31, 2010. The increase can be attributed to the overall increase in revenue and the timing of current billings and subsequent payment of those billings as of June 30, 2011 as compared to the same period and timing as of December 31, 2010. The decrease in deferred rent is related to the repayment of rental incentive loans in the amount of \$2.1 million.

***Investing Cash Flow Activities***

The cash used by investing activities decreased by \$13.3 million to \$7.4 million from cash used by investing activities of \$20.7 million for the six months ended June 30, 2011, and 2010, respectively. Cash flows used in investing activities consist primarily of purchases of property and equipment, payment for the acquisition of a conference center and training facility, capitalized software development costs and our investment activities. We make investments in property and equipment and in software development on an ongoing basis. Our investment in equipment consists primarily of purchases of technology infrastructure to provide service stability and additional capacity to support our expanding client base. We purchased \$6.8 million of property and equipment, including \$1.1 million related to a purchase option under our capital lease obligations which were terminated during the six months ended June 30, 2011. Our investment in software development consists of company managed-design, development, and testing of new application functionality with our less mature service offerings, which primarily include our athenaClinicals and athenaCommunicator service offerings. Our capitalized software development amounted to \$3.1 million for the six months ended June 30, 2011. Net cash paid for acquisition was approximately \$7.0 million relating to our acquisition of a conference center and training facility. Restricted cash decreased by \$2.9 million due to payments made for contingent consideration relating to acquisitions completed in 2008 and 2009.

**Table of Contents****Financing Cash Flow Activities**

The cash used in financing activities was \$1.3 million for the six months ended June 30, 2011, compared to cash provided by financing activities \$2.9 million for the six months ended June 30, 2010. The change is attributable to payments on debt and to payment of contingent consideration accrued at acquisition date relating to the Anodyne acquisition. We elected to repay all of our outstanding debt balances under our equipment line of credit and term loan, as well as terminate our related interest rate derivative. This is offset by the proceeds from the exercise of stock options and the increase in the excess tax benefit from stock-based awards. We recorded a reduction in income tax liability of \$6.4 million related to excess tax deductions received from employee stock option exercises. The benefit was recorded as additional paid in capital.

**Contractual Obligations**

We have contractual obligations under our operating leases for properties. The following table summarizes our long-term contractual obligations and commitments as of June 30, 2011:

	Total	Payments Due by Period				After 5 years	Other
		Less than 1 Year	2 - 3 Years	4 - 5 Years			
Operating lease obligations	\$ 22,445	\$ 5,344	\$ 10,393	\$ 6,008	\$ 700	\$	
Other	1,610					1,610	
Total	\$ 24,055	\$ 5,344	\$ 10,393	\$ 6,008	\$ 700	\$ 1,610	

The commitments under our operating leases shown above consist primarily of lease payments for our Watertown, Massachusetts, headquarters; our Rome, Georgia, offices; our Alpharetta, Georgia, offices; and our Chennai, India, offices.

Other amount consists of uncertain tax benefits. We have not utilized these uncertain tax benefits, nor do we have an expectation of when these uncertain tax benefits would be challenged. As of June 30, 2011, we cannot reasonably estimate when any future cash outlays would occur related to these uncertain tax positions.

**Off-Balance Sheet Arrangements**

As of June 30, 2011 and 2010, and December 31, 2010, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. Other than our operating leases for office space, we do not engage in off-balance sheet financing arrangements.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

**Foreign Currency Exchange Risk.** Our results of operations and cash flows are subject to fluctuations due to changes in the Indian rupee. None of our consolidated revenues are generated outside the United States. None of our vendor relationships, including our contracts with our offshore service providers International Business Machines Corporation and Vision Business Process Solutions, Inc., a subsidiary of Dell, Inc. (formerly Perot Systems Corporation), for work performed in India and the Philippines, is denominated in any currency other than the U.S. dollar. For the six months ended June 30, 2011, less than 1% of our expenses occurred in our direct subsidiary in Chennai, India, and was incurred in Indian rupees. We therefore believe that the risk of a significant impact on our operating income from foreign currency fluctuations is not substantial.

**Interest Rate Sensitivity.** We had unrestricted cash, cash equivalents and available for sale investments totaling \$124.7 million at June 30, 2011. These amounts are held for working capital purposes and were invested primarily in deposits, money market funds, and short-term, interest-bearing, investment-grade securities. Due to the short and expected term of these investments, we believe that we do not have any material exposure to changes in the fair value

of our investment portfolio as a result of changes in interest rates. The value of these securities, however, will be subject to interest rate risk and could fall in value if interest rates rise.

*Interest Rate Risk.* As of June 30, 2011, we had no outstanding long-term debt and capital lease obligations and there were no amounts outstanding under the revolving credit facility. We have the ability to draw up to \$15.0 million under our line of credit at any time.

**Table of Contents****Item 4. Controls and Procedures.****Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Securities and Exchange Act of 1934 (1) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. As of June 30, 2011 (the Evaluation Date), our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934). Our management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Our Chief Executive Officer and Chief Financial Officer have concluded based upon the evaluation described above that, as of the Evaluation Date, our disclosure controls and procedures were effective at the reasonable assurance level.

**Changes in Internal Control**

There were no changes in our internal control over financial reporting for the quarter ended June 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION****Item 1. Legal Proceedings.**

On March 2, 2010, a complaint was filed by Prompt Medical Systems, L.P. naming the Company and several other defendants in a patent infringement case (*Prompt Medical Systems, L.P. v. AllscriptsMisys Healthcare Solutions, Inc. et al.*, Civil Action No. 6:2010cv00071, United States District Court for the Eastern District of Texas). The complaint alleges that the Company has infringed U.S. Patent No. 5,483,443 with a listed issue date of January 9, 1996, entitled

Method for Computing Current Procedural Terminology Codes from Physician Generated Documentation. The complaint seeks an injunction enjoining infringement, damages, and pre- and post-judgment costs and interest. The Company and several other defendants filed motions to dismiss the complaint. On February 11, 2011, the Court issued an Order granting-in-part and denying-in-part the motions to dismiss. The Court ordered the plaintiff to replead certain claims within fourteen days of the Order.

On February 23, 2011, the plaintiff filed its amended complaint in response to the Court's February 11, 2011, order. The Company filed its answer to the amended complaint on March 9, 2011, asserting a number of defenses and counterclaiming for a declaration of non-infringement, invalidity, and unenforceability. The Company also filed a joint motion with other defendants seeking sanctions for the plaintiff's spoliation of evidence, which is now fully briefed.

On November 24, 2010, several defendants filed (i) a motion for summary judgment of invalidity against the patent-in-suit on the basis that it claims only non-patentable subject matter and (ii) a motion to stay all proceedings pending the resolution of the motion for summary judgment. The Company filed a motion to join in the motion to stay the proceedings. The motions are fully briefed and awaiting a decision by the Court. On May 18, 2011, the defendants provided notice that they wish to continue to urge the pending motion for summary judgment as to the first amended complaint.

The case is currently in the discovery phase. A claim construction hearing is scheduled for November 11, 2011. Trial is scheduled for June 11, 2012. On June 17, 2011, the defendants filed a notice of their disclosure of preliminary proposed claim constructions and extrinsic evidence.

The Company is being indemnified in this lawsuit from and against any liability and reasonable costs, including attorneys fees, incurred by the Company in its defense, pursuant to a license agreement with its vendor.

The Company believes that it has meritorious defenses to the lawsuit and continues to contest it vigorously.

On March 19, 2010, a putative shareholder class action complaint was filed in the United States District Court for the District of Massachusetts against the Company and certain of its current and former officers entitled *Casula v. athenahealth, Inc. et al.*, Civil Action No. 1:10-cv-10477. On June 3, 2010, the court appointed Waterford Township General Employees Retirement System as the lead plaintiff. On August 2, 2010, the lead plaintiff filed an amended

complaint. The amended complaint alleges that the defendants violated the federal securities laws by disseminating false and misleading statements through press releases, statements by senior management, and SEC filings. The alleged false and misleading statements concern, among other things, the amortization period for deferred implementation revenues. The amended complaint seeks unspecified damages, costs, and expenses. The defendants filed a motion to dismiss the amended complaint on October 1, 2010, and a reply brief in further support of the motion to dismiss the amended complaint on December 30, 2010. The Company believes that it has meritorious defenses to the amended complaint and will contest the claims vigorously.

On March 17, 2011, a complaint was filed by PPS Data, LLC naming the Company and several other defendants in a patent infringement case (*PPS Data, LLC v. Allscripts Healthcare Solutions, Inc. et al.*, Civil Action No. 3:11-CU-273-J-99MMH-TEM, United States District Court for the Middle District of Florida). The complaint alleges that the Company has infringed U.S. Patent No. 6,343,271 with a listed issue date of January 29, 2002, entitled Electronic Creation, Submission, Adjudication, and Payment of Health Insurance Claims. The complaint seeks an injunction enjoining infringement, damages, pre- and post-judgment costs and interest, and attorneys' fees. On April 14, 2011, the Company filed a motion to dismiss, or, in the alternative, a motion for summary judgment. On May 5, 2011, the Company filed a motion to sever and transfer the case. Both the April 14 and May 5, 2011, motions were fully briefed and the Court heard oral argument on July 12, 2011. The Court has not yet ruled on either of these motions. The Company believes that it has meritorious defenses to the complaint and will continue to contest the claims vigorously.

On May 25, 2011, a complaint was filed by Medsquire, LLC naming the Company and several other defendants in a patent infringement case (*Medsquire, LLC v. Spring Medical Systems, Inc. et al.*, Civil Action No. 2:11-CV-04504-DSF-AGR, United States District Court for the Central District of California). The complaint alleges that the

Company has infringed U.S. Patent No. 5,682,526 with a listed issue date of October 28, 1997, entitled Method and System for Flexibly Organizing, Recording, and Displaying Medical Patient Care Information Using Fields in a Flowsheet. The complaint seeks damages, pre-judgment interest, and attorneys' fees. On July 18, 2011, several of the defendants, including the Company, filed a partial motion to dismiss. The Company believes that it has meritorious defenses to the complaint and will contest the claims vigorously.

On July 18, 2011, the Company filed a complaint against AdvancedMD Software, Inc. in the United States District Court for the District of Massachusetts. The complaint alleges that AdvancedMD Software, Inc. has infringed two of the Company's U.S. Patents: No. 7,617,116, which was issued on November 10, 2009, for Practice Management and Billing Automation System and No. 7,720,701, which was issued on May 18, 2010, for Automated Configuration of Medical Practice Management Systems. The Company is seeking permanent injunctive relief, damages, pre- and post-judgment costs and interest, and attorneys' fees.

On or about July 18, 2011, a complaint was filed in the Superior Court for Waldo County, Maine, against the Company entitled *Cordjia, LLC v. athenahealth, Inc.* The complaint alleges that the Company entered into a partnership with the plaintiff to purchase property in Maine, that the parties entered into a mutual non-disclosure agreement governing the sharing of confidential information between them, and that the Company subsequently terminated the partnership and purchased the property itself, using the confidential information obtained from the plaintiff to do so. The complaint purports to state claims for common-law fraud, negligent misrepresentation, breach of fiduciary duty, unjust enrichment, *quantum meruit*, promissory estoppel, breach of contract, and violation of the Maine Uniform Trade Secrets Act. The complaint seeks unspecified damages, fees and costs, and injunctive relief enjoining the Company from making further use of the plaintiff's confidential information and requiring the Company to return all confidential information in its possession to the plaintiff. The Company believes that it has meritorious defenses to the complaint and intends to contest the claims vigorously.

In addition, from time to time the Company may be subject to other legal proceedings, claims, and litigation arising in the ordinary course of business. The Company does not, however, currently expect that the ultimate costs to resolve any pending matter will have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

**Item 1A. Risk Factors.**
