TRANSCAT, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(In Thousands, Except Per Share Amounts)
(Unaudited)

NOTE 1 GENERAL

Description of Business: Transcat, Inc. (Transcat or the Company) is a leading distributor of professional grade handheld test and measurement instruments and accredited provider of calibration, repair and weighing system services primarily for pharmaceutical and FDA-regulated, industrial manufacturing, energy and utilities, chemical process, and other industries.

Basis of Presentation: Transcat's unaudited Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission (SEC). Accordingly, the Consolidated Financial Statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of the Company's management, all adjustments considered necessary for a fair presentation (consisting of normal recurring adjustments) have been included. The results for the interim periods are not necessarily indicative of the results to be expected for the fiscal year. The accompanying Consolidated Financial Statements should be read in conjunction with the audited Consolidated Financial Statements as of and for the fiscal year ended March 26, 2011 (fiscal year 2011) contained in the Company's 2011 Annual Report on Form 10-K filed with the SEC.

Fair Value of Financial Instruments: Transcat has determined the fair value of debt and other financial instruments using a valuation hierarchy. The hierarchy, which prioritizes the inputs used in measuring fair value, consists of three levels. Level 1 uses observable inputs such as quoted prices in active markets; Level 2 uses inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, which is defined as unobservable inputs in which little or no market data exists, requires the Company to develop its own assumptions. The carrying amount of debt on the Consolidated Balance Sheets approximates fair value due to variable interest rate pricing, and the carrying amounts for cash, accounts receivable and accounts payable approximate fair value due to their short-term nature.

Stock-Based Compensation: The Company measures the cost of services received in exchange for all equity awards granted, including stock options, warrants and restricted stock, based on the fair market value of the award as of the grant date. The Company records compensation cost related to unvested stock awards by recognizing, on a straight-line basis, the unamortized grant date fair value over the remaining service period of each award. Excess tax benefits from the exercise of stock awards are presented in the Consolidated Statements of Cash Flows as a financing activity. Excess tax benefits are realized benefits from tax deductions for exercised awards in excess of the deferred tax asset attributable to stock-based compensation costs for such awards. The Company did not capitalize any stock-based compensation costs as part of an asset. The Company estimates forfeiture rates based on its historical experience. During the first quarter of the fiscal year ending March 31, 2012 (fiscal year 2012) and fiscal year 2011, the Company recorded non-cash stock-based compensation cost in the amount of \$0.3 million and \$0.2 million, respectively, in the Consolidated Statements of Operations and Comprehensive Income.

Foreign Currency Translation and Transactions: The accounts of Transmation (Canada) Inc., the Company's wholly-owned subsidiary, are maintained in the local currency and have been translated to U.S. dollars. Accordingly, the amounts representing assets and liabilities, except for equity, have been translated at the period-end rates of exchange and related revenue and expense accounts have been translated at an average rate of exchange during the period. Gains and losses arising from translation of Transmation (Canada) Inc.'s balance sheets into U.S. dollars are recorded directly to the accumulated other comprehensive income component of shareholders' equity.

Transcat records foreign currency gains and losses on Canadian business transactions. The net foreign currency loss was less than \$0.1 million in the first quarter of fiscal years 2012 and 2011. The Company utilizes foreign exchange forward contracts to reduce the risk that its earnings would be adversely affected by changes in currency exchange rates. The Company does not apply hedge accounting and therefore, the change in the fair value of the contracts, which totaled less than \$0.1 million during the first quarter of fiscal years 2012 and 2011, was recognized as a

component of other expense in the Consolidated Statements of Operations and Comprehensive Income. The change in the fair value of the contracts is offset by the change in fair value on the underlying accounts receivables denominated in Canadian dollars being hedged. On June 25, 2011, the Company had a foreign exchange contract, set to mature in July 2011, outstanding in the notional amount of \$0.9 million. The Company does not use hedging arrangements for speculative purposes.

Table of Contents

Earnings Per Share: Basic earnings per share of common stock are computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share of common stock reflect the assumed conversion of stock options, warrants, and unvested restricted stock awards using the treasury stock method in periods in which they have a dilutive effect. In computing the per share effect of assumed conversion, funds which would have been received from the exercise of options, warrants, and unvested restricted stock and the related tax benefits are considered to have been used to purchase shares of common stock at the average market prices during the period, and the resulting net additional shares of common stock are included in the calculation of average shares of common stock outstanding.

The average shares outstanding used to compute basic and diluted earnings per share are as follows:

	First Quarter Ended	
	June	
	25, 2011	June 26, 2010
Average Shares Outstanding - Basic	7,277	7,287
Effect of Dilutive Common Stock Equivalents	331	240
Average Shares Outstanding - Diluted	7,608	7,527
Anti-dilutive Common Stock Equivalents	475	638

Recently Issued Accounting Pronouncements: In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05, Presentation of Comprehensive Income (ASU 2011-05). This standard eliminates the current option to report other comprehensive income and its components in the statement of changes in equity and requires an entity to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amended guidance is effective for financial periods beginning after December 15, 2011. ASU 2011-05 requires changes in presentation only and will have no financial impact on the Company's Consolidated Financial Statements.

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). This standard amends current fair value measurement and disclosure guidance to include increased transparency around valuation inputs and investment categorization. ASU 2011-04 is effective for financial periods beginning after December 15, 2011 and is to be applied prospectively. The Company is currently evaluating the impact of ASU 2011-04 on its Consolidated Financial Statements.

Subsequent Events: The Company has evaluated all events and transactions that occurred subsequent to June 25, 2011. No material subsequent events have occurred that require recognition or disclosure in the Consolidated Financial Statements.

NOTE 2 DEBT

Description: Transcat, through its credit agreement (the Credit Agreement) has a revolving credit facility in the amount of \$15.0 million (the Revolving Credit Facility). As of June 25, 2011, \$15.0 million was available under the Credit Agreement, of which \$6.5 million was outstanding and included in long-term debt on the Consolidated Balance Sheet.

Interest and Commitment Fees: Interest on the Revolving Credit Facility accrues, at Transcat's election, at either a base rate (the Base Rate), as defined in the Credit Agreement, or the London Interbank Offered Rate (LIBOR), in each case, plus a margin. Commitment fees accrue based on the average daily amount of unused credit available on the Revolving Credit Facility. Interest and commitment fees are adjusted on a quarterly basis based upon the Company's calculated leverage ratio, as defined in the Credit Agreement. The Base Rate and the LIBOR rate as of June 25, 2011 were 3.3% and 0.2%, respectively. The Company's interest rate for the first quarter of fiscal year 2012 ranged from

1.1% to 2.8%.

Covenants: The Credit Agreement has certain covenants with which the Company has to comply, including a fixed charge ratio covenant and a leverage ratio covenant. The Company was in compliance with all loan covenants and requirements throughout the first quarter of fiscal year 2012.

Other Terms: The Company has pledged all of its U.S. tangible and intangible personal property and a majority of the common stock of its wholly-owned subsidiary, Transmation (Canada) Inc., as collateral security for the loans made under the Revolving Credit Facility.

Table of Contents**NOTE 3 STOCK-BASED COMPENSATION**

The Transcat, Inc. 2003 Incentive Plan, as amended (the 2003 Plan), provides for, among other awards, grants of restricted stock and stock options to directors, officers and key employees at the fair market value at the date of grant. At June 25, 2011, the number of shares available for future grant under the 2003 Plan totaled 0.2 million.

In addition, Transcat maintains a warrant plan for directors (the Directors Warrant Plan). Under the Directors Warrant Plan, as amended, warrants have been granted to non-employee directors to purchase common stock at the fair market value at the date of grant. All warrants authorized for issuance pursuant to the Directors Warrant Plan have been granted, were fully vested as of August 2009 and expire August 2011.

Restricted Stock: During the first quarter of fiscal years 2012, 2011 and 2010, the Company granted performance-based restricted stock awards that vest after three years subject to certain cumulative diluted earnings per share growth targets over the eligible three-year period.

Compensation cost ultimately recognized for these performance-based restricted stock awards will equal the grant date fair market value of the award that coincides with the actual outcome of the performance conditions. On an interim basis, the Company records compensation cost based on an assessment of the probability of achieving the performance conditions. At June 25, 2011, the Company estimated the probability of achievement for the performance-based restricted stock awards granted in fiscal years 2012, 2011 and 2010 to be 100%, 75% and 50% of the target levels, respectively. Total expense relating to performance-based restricted stock awards, based on grant date fair value and the estimated probability of achievement, was less than \$0.1 million and \$0.1 million in the first quarters of fiscal years 2012 and 2011, respectively. Unearned compensation totaled \$0.4 million as of June 25, 2011. On April 4, 2011, the Company granted restricted stock awards, which vested immediately, to its officers and certain key employees. Total expense related to these restricted stock awards, based on grant date fair value, was \$0.1 million in the first quarter of fiscal year 2012.

Stock Options: Options generally vest over a period of up to four years, using either a graded schedule or on a straight-line basis, and expire ten years from the date of grant. The expense relating to options is recognized on a straight-line basis over the requisite service period for the entire award.

The following table summarizes the Company's options as of and for the first quarter ended June 25, 2011:

	Number of Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding as of March 26, 2011	654	\$ 5.77		
Granted				
Exercised	(4)	5.15		
Cancelled/Forfeited	(53)	6.80		
Outstanding as of June 25, 2011	597	5.75	5	\$ 2,800
Exercisable as of June 25, 2011	478	5.24	5	2,396

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the first quarter of fiscal year 2012 and the exercise price, multiplied by the number of in-the-money stock options) that would have been received by the option holders had all holders exercised their options on June 25, 2011. The amount of aggregate intrinsic value will change based on the fair market value of the Company's stock.

Total unrecognized compensation cost related to non-vested stock options as of June 25, 2011 was less than \$0.1 million, which is expected to be recognized over a weighted average period of approximately one year. The aggregate intrinsic value of stock options exercised in the first quarter of fiscal year 2012 was less than \$0.1 million. Cash received from the exercise of options in the first quarter of fiscal year 2012 was less than \$0.1 million.

Table of Contents

Warrants: The following table summarizes the Company's warrants, which are set to expire in August 2011, as of and for the first quarter ended June 25, 2011:

	Number of Shares	Weighted Average Exercise Price Per Share	Aggregate Intrinsic Value
Outstanding as of March 26, 2011	17	\$ 5.80	
Granted			
Exercised	(3)	5.80	
Cancelled/Forfeited			
Outstanding as of June 25, 2011	14	5.80	\$ 64
Exercisable as of June 25, 2011	14	5.80	64

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the first quarter of fiscal year 2012 and the exercise price, multiplied by the number of in-the-money warrants) that would have been received by the warrant holders had all holders exercised their warrants on June 25, 2011. The amount of aggregate intrinsic value will change based on the fair market value of the Company's stock. The aggregate intrinsic value of warrants exercised in the first quarter of fiscal year 2012 was less than \$0.1 million. Cash received from the exercise of warrants in the first quarter of fiscal year 2012 was less than \$0.1 million.

NOTE 4 SEGMENT INFORMATION

Transcat has two reportable segments: Distribution Products (Product) and Calibration Services (Service). The Company has no inter-segment sales. The following table presents segment information for the first quarters ended June 25, 2011 and June 26, 2010:

	First Quarter Ended	
	June 25, 2011	June 26, 2010
Net Revenue:		
Product Sales	\$ 17,182	\$ 12,975
Service Revenue	8,423	7,653
Total	25,605	20,628
Gross Profit:		
Product	4,268	3,501
Service	2,030	1,857
Total	6,298	5,358
Operating Expenses:		
Product (1)	3,447	2,875

Edgar Filing: TRANSCAT INC - Form 10-Q

Service (1)	2,281	2,032
Total	5,728	4,907
Operating Income	570	451
Unallocated Amounts:		
Total Other Expense, net	45	7
Provision for Income Taxes	200	166
Total	245	173
Net Income	\$ 325	\$ 278

(1) Operating expense allocations between segments were based on actual amounts, a percentage of revenues, headcount, and management's estimates.

Table of Contents**NOTE 5 ACQUISITIONS**

As part of its growth strategy, the Company has engaged in a number of business acquisitions. In connection with certain of these acquisitions, the Company entered into earn out agreements with the former owners of the acquired businesses. These agreements entitle the former owners to receive earn out payments subject to continued employment and certain post-closing financial targets, as defined in the agreements. During the first quarter of fiscal years 2012 and 2011, payments totaling \$0.1 million and less than \$0.1 million, respectively, were earned and recorded as compensation expense in the Consolidated Statements of Operations and Comprehensive Income. Total earn out consideration unpaid as of June 25, 2011 was \$0.2 million and is included in other current liabilities in the Consolidated Balance Sheet.

In addition, certain of these business acquisitions contain holdback provisions, as defined in the respective purchase agreements. The Company accrues contingent consideration relating to the holdback provisions based on their estimated fair value as of the date of acquisition. During the first quarter of fiscal years 2012 and 2011, the Company paid less than \$0.1 million in contingent consideration. Total contingent consideration unpaid as of June 25, 2011 was \$0.1 million and is included in other current liabilities in the Consolidated Balance Sheet.

On April 5, 2011, the Company acquired substantially all of the assets of CMC Instrument Services, Inc. (CMC), a Rochester, New York-based provider of dimensional calibration and repair services. The assets were recorded under the acquisition method of accounting at their estimated fair values as of the date of acquisition. Pro forma information as of the beginning of the period presented and the operating results of CMC since the date of acquisition have not been disclosed as the acquisition was not considered significant.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements: This report and, in particular, the Management's Discussion and Analysis of Financial Condition and Results of Operations section of this report, contains forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These include statements concerning expectations, estimates, and projections about the industry, management beliefs and assumptions of Transcat, Inc. (Transcat , we , us , or our). Words such as anticipates , expects , intends , plans , believes , seeks , estimates , and variations of such words and expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to forecast. Therefore, our actual results and outcomes may materially differ from those expressed or forecasted in any such forward-looking statements. When considering these risks, uncertainties and assumptions, you should keep in mind the cautionary statements contained elsewhere in this report and in any documents incorporated herein by reference. New risks and uncertainties arise from time to time and we cannot predict those events or how they may affect us. For a more detailed discussion of the risks and uncertainties that may affect Transcat's operating and financial results and its ability to achieve its financial objectives, interested parties should review the Risk Factors sections in Transcat's reports filed with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended March 26, 2011. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Accounts Receivable: Accounts receivable represent amounts due from customers in the ordinary course of business. These amounts are recorded net of the allowance for doubtful accounts and returns in the Consolidated Balance Sheets. The allowance for doubtful accounts is based upon the expected collectibility of accounts receivable. We apply a specific formula to our accounts receivable aging, which may be adjusted on a specific account basis where the formula may not appropriately reserve for loss exposure. After all attempts to collect a receivable have failed, the receivable is written-off against the allowance for doubtful accounts. The returns reserve is calculated based upon the historical rate of returns applied to revenues over a specific timeframe. The returns reserve will increase or decrease as a result of changes in the level of revenues and/or the historical rate of returns.

Stock-Based Compensation: We measure the cost of services received in exchange for all equity awards granted, including stock options, warrants and restricted stock, based on the fair market value of the award as of the grant date. We record compensation cost related to unvested stock awards by recognizing, on a straight-line basis, the

unamortized grant date fair value over the remaining service period of each award. Excess tax benefits from the exercise of stock awards are presented in the Consolidated Statements of Cash Flows as a financing activity. Excess tax benefits are realized benefits from tax deductions for exercised awards in excess of the deferred tax asset attributable to stock-based compensation costs for such

Table of Contents

awards. We did not capitalize any stock-based compensation costs as part of an asset. We estimate forfeiture rates based on our historical experience.

Options generally vest over a period of up to four years, using either a graded schedule or on a straight-line basis, and expire ten years from the date of grant. The expense relating to options is recognized on a straight-line basis over the requisite service period for the entire award.

During the first quarter of fiscal years 2012, 2011 and 2010, we granted performance-based restricted stock awards that vest after three years subject to certain cumulative diluted earnings per share growth targets over the eligible three-year period. Compensation cost ultimately recognized for these performance-based restricted stock awards will equal the grant-date fair market value of the award that coincides with the actual outcome of the performance conditions. On an interim basis, we record compensation cost based on an assessment of the probability of achieving the performance conditions. At June 25, 2011, we estimated the probability of achievement for the performance-based awards granted in fiscal years 2012, 2011 and 2010 to be 100%, 75% and 50% of the target levels, respectively.

Revenue Recognition: Product sales are recorded when a product's title and risk of loss transfer to the customer. We recognize the majority of our service revenue based upon when the calibration or other activity is performed and then shipped and/or delivered to the customer. Some service revenue is generated from managing customers' calibration programs in which we recognize revenue in equal amounts at fixed intervals. We generally invoice our customers for freight, shipping, and handling charges. Provisions for customer returns are provided for in the period the related revenues are recorded based upon historical data.

Table of Contents**RESULTS OF OPERATIONS**

The following table presents, for the first quarter of fiscal years 2012 and 2011, the components of our Consolidated Statements of Operations:

	(Unaudited)	
	First Quarter Ended	
	June	June 26,
	25,	2010
	2011	2010
<i>Gross Profit Percentage:</i>		
Product Gross Profit	24.8%	27.0%
Service Gross Profit	24.1%	24.3%
Total Gross Profit	24.6%	26.0%
<i>As a Percentage of Total Net Revenue:</i>		
Product Sales	67.1%	62.9%
Service Revenue	32.9%	37.1%
Total Net Revenue	100.0%	100.0%
Selling, Marketing and Warehouse Expenses	14.2%	14.8%
Administrative Expenses	8.2%	9.0%
Total Operating Expenses	22.4%	23.8%
Operating Income	2.2%	2.2%
Interest Expense	0.1%	0.1%
Total Other Expense, net	0.1%	0.0%
Total Other Expense	0.2%	0.1%
Income Before Income Taxes	2.0%	2.1%
Provision for Income Taxes	0.8%	0.8%
Net Income	1.2%	1.3%

FIRST QUARTER ENDED JUNE 25, 2011 COMPARED TO FIRST QUARTER ENDED JUNE 26, 2010

(dollars in thousands):

Revenue:

First Quarter Ended	
June	June 26,
25,	2010
2011	2010

Net Revenue:		
Product Sales	\$ 17,182	\$ 12,975
Service Revenue	8,423	7,653
Total	\$ 25,605	\$ 20,628

Net revenue increased \$5.0 million, or 24.1%, from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012.

Our product net sales accounted for 67.1% of our total net revenue in the first quarter of fiscal year 2012 and 62.9% of our total net revenue in the first quarter of fiscal year 2011. For the first quarter of fiscal year 2012, product sales increased \$4.2 million, or 32.4%, compared to the first quarter of fiscal year 2011. This growth was driven by our sales and marketing campaigns to expand our customer base and gain market share in the traditional industries we serve as well as to the wind energy industry. Our fiscal years 2012 and 2011 product sales growth in relation to prior fiscal year quarter comparisons is as follows:

Table of Contents

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Product Sales Growth	32.4%	14.5%	9.1%	12.5%	15.1%

Our average product sales per business day increased to \$268 in the first quarter of fiscal year 2012, compared with \$203 in the first quarter of fiscal year 2011. Our product sales per business day for each fiscal quarter during the fiscal years 2012 and 2011 are as follows:

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Product Sales Per Business Day	\$ 268	\$ 263	\$ 267	\$ 214	\$ 203

In the first quarter of fiscal year 2012, sales through our direct distribution channel increased \$2.9 million, or 29.7%, from the same period in the prior fiscal year. Net sales to wind energy industry customers, which represented 8.8% and 3.3% of our total product net sales in the first quarter of fiscal years 2012 and 2011, respectively, increased by \$1.1 million and were aided by our acquisition of Wind Turbine Tools Inc. and its affiliated companies, which occurred in January 2011. Sales to our reseller channel increased 41.1% from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012 due in part to several high volume product orders to some of our key customers within this channel. As a result, the mix of reseller sales, as a percent of our total product net sales, increased 160 basis points from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012. The following table presents the percent of net sales for the significant product distribution channels for each quarter during fiscal years 2012 and 2011:

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Percent of Net Sales:					
Direct	72.8%	73.5%	75.2%	73.5%	74.3%
Reseller	25.7%	24.9%	23.3%	24.9%	24.1%
Freight Billed to Customer	1.5%	1.6%	1.5%	1.6%	1.6%
	100.0%	100.0%	100.0%	100.0%	100.0%

Customer product orders include orders for instruments that we routinely stock in our inventory, customized products, and other products ordered less frequently, which we do not stock. Pending product shipments are primarily backorders, but also include products that are requested to be calibrated in our laboratories prior to shipment, orders required to be shipped complete or at a future date, and other orders awaiting final credit or management review prior to shipment. Our total pending product shipments for the first quarter of fiscal year 2012 increased by \$0.8 million, or 33.9%, from the first quarter of fiscal year 2011. This increase was primarily driven by an increase in backorders. Overall, variations in pending product shipments can be impacted by several factors, including the timing product orders are placed in relation to the end of the fiscal period, specialized product orders that are not stocked, or production issues experienced by manufacturers. The following table presents the percentage of total pending product shipments that are backorders at the end of the first quarter of fiscal year 2012 and our historical trend of total pending product shipments:

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Total Pending Product Shipments	\$ 3,002	\$ 2,784	\$ 2,976	\$ 2,347	\$ 2,242
% of Pending Product Shipments that are Backorders	67.9%	70.1%	74.6%	68.3%	67.4%

Service revenue increased \$0.8 million, or 10.1%, from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012. The growth can be attributed to expansion of our existing customer base and incremental revenue associated with recent acquisitions. Also, within any year, while we add new customers, we also have customers from the prior year whose calibrations may not repeat for any number of reasons. Among those reasons are variations in the timing of customer periodic calibrations on instruments and other services, customer capital expenditures and customer outsourcing decisions. Because the timing of calibration orders and segment expenses can vary on a quarter-to-quarter basis, we believe a trailing twelve-month trend provides a better indication of the progress of this segment. Service segment revenue for the twelve months ended June 25, 2011 were \$32.1 million, up 8.3% when compared with \$29.6 million for the twelve months ended June 26, 2010. Our fiscal years 2012 and 2011 service revenue growth in relation to prior fiscal year quarter comparisons is as follows:

Table of Contents

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Service Revenue Growth	10.1%	1.0%	10.3%	14.1%	28.8%

Within the calibration industry, there is a broad array of measurement disciplines making it costly and inefficient for any one provider to invest the needed capital for facilities, equipment and uniquely trained personnel necessary to address all measurement disciplines with in-house calibration capabilities. Our strategy has been to focus our investments in the core electrical, temperature, pressure and dimensional disciplines. Accordingly, over the long-term, we expect to outsource 15% to 20% of Service segment revenue to third party vendors for calibration beyond our chosen scope of capabilities. During any individual quarter, we could fluctuate beyond these percentages. Because of the timing of calibration orders and segment expenses can vary on a quarter-to-quarter basis, we believe a trailing twelve month trend provides a better indication of the progress of this segment. During the first quarter of fiscal year 2011, we experienced an increase in specific outsourced services provided to wind energy customers, which fall outside our current scope of capabilities. We will continue to evaluate the need for capital investments that could provide more in-house capabilities for our staff of technicians and reduce the need for third party vendors in certain instances. The following table presents the source of our Service segment revenue and the percent of Service segment revenue for each fiscal quarter during fiscal years 2012 and 2011:

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Percent of Service Revenue:					
Depot/Onsite	77.7%	78.2%	77.6%	77.9%	74.4%
Outsourced	19.8%	19.3%	20.0%	19.8%	23.3%
Freight Billed to Customers	2.5%	2.5%	2.4%	2.3%	2.3%
	100.0%	100.0%	100.0%	100.0%	100.0%

Gross Profit:

	First Quarter Ended	
	June 25, 2011	June 26, 2010
Gross Profit:		
Product	\$ 4,268	\$ 3,501
Service	2,030	1,857
Total	\$ 6,298	\$ 5,358

Total gross profit dollars in the first quarter of fiscal year 2012 increased \$0.9 million, or 17.5%, from the first quarter of fiscal year 2011. As a percentage of total net revenue, total gross profit in the first quarter of fiscal year 2012 decreased 140 basis points from the first quarter of fiscal year 2011.

We evaluate product gross profit from two perspectives. Channel gross profit includes net sales less the direct cost of inventory sold. Our total product gross profit includes channel gross profit as well as the impact of vendor rebates, cooperative advertising income, freight billed to customers, freight expenses and direct shipping costs. In general, our total product gross profit can vary based upon price discounting, the mix of sales to our reseller channel, which have lower margins than our direct customer base, and the timing of periodic vendor rebates and cooperative advertising income received from suppliers.

The channel gross profit percentage in our direct distribution channel improved 60 basis points from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012, which is a result of our continued efforts to closely monitor price discounts extended to customers. Within the reseller channel, quarter-over-quarter channel gross profit percentage declined by 140 basis points due to the volume-based pricing structure utilized within the channel. Larger orders with key reseller customers drove higher volume and gross profit, while negatively impacting the channel's gross profit percentage.

Total product gross profit improved \$0.8 million in the first quarter of fiscal year 2012 compared to the first quarter of fiscal year 2011. As a percentage of total product sales, total product gross profit in the first quarter of fiscal year 2012 was 24.8% and decreased 220 basis points when compared with 27.0% in the first quarter of fiscal year 2011. The primary driver of the gross margin decline was an increased mix of products sold through the reseller channel. Also impacting the gross margin was an increase in sales of products supplied by overseas vendors, which resulted in higher shipping, handling and customs-

Table of Contents

related costs. Many of these products are integral to customers within the wind energy industry. The following table reflects the quarterly historical trend of our product gross profit as a percent of total product sales:

		FY 2012		FY 2011		
		Q1	Q4	Q3	Q2	Q1
Channel Gross Profit %	Direct (1)	25.6%	24.7%	25.2%	25.5%	25.0%
Channel Gross Profit %	Reseller (1)	15.5%	15.3%	16.2%	16.6%	16.9%
Channel Gross Profit %	Combined (2)	23.0%	22.4%	23.1%	23.3%	23.0%
Other Items %	(3)	1.8%	2.6%	3.7%	0.5%	4.0%
Total Product Gross Profit %		24.8%	25.0%	26.8%	23.8%	27.0%

(1) Channel gross profit % is calculated as net sales less purchase costs divided by net sales.

(2) Represents aggregate gross profit % for direct and reseller channels, calculated as net sales less purchase costs divided by net sales.

(3) Includes vendor rebates, cooperative advertising income, freight billed to customers, freight expenses, and direct shipping costs.

Service segment gross profit increased \$0.2 million, or 9.3%, from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012. As a percent of Service segment revenue, Service segment gross profit decreased 20 basis points over the same time period. During the first quarter of fiscal year 2012, general inflationary increases and incremental costs associated with recent acquisitions slightly outpaced our revenue growth, resulting in a slight decline in gross margin. Service segment gross profit for the twelve months ended June 25, 2011 was \$8.1 million, up 8.5% when compared with \$7.5 million for the twelve months ended June 26, 2010. As a percent of Service segment revenue, gross profit percentage was 25.3% and 25.2%, respectively, for the twelve months ended June 25, 2011 and June 26, 2010. The following table reflects our Service segment gross profit growth in relation to prior fiscal year quarters:

	FY 2012		FY 2011		
	Q1	Q4	Q3	Q2	Q1
Service Gross Profit Dollar Growth	9.3%	2.5%	10.0%	16.4%	50.1%

Operating Expenses:

	First Quarter Ended	
	June 25, 2011	June 26, 2010
Operating Expenses:		
Selling, Marketing and Warehouse	\$ 3,626	\$ 3,049
Administrative	2,102	1,858
Total	\$ 5,728	\$ 4,907

Operating expenses increased \$0.8 million, or 16.7%, from the first quarter of fiscal year 2011 to the first quarter of fiscal year 2012. The increase reflected higher employee-based compensation, acquisition-related expenses and investments in sales and marketing initiatives. As a percentage of net revenue, operating expenses improved to 22.4%

in the first quarter of fiscal year 2012 from 23.8% in the first quarter of fiscal year 2011.

Taxes:

	First Quarter Ended	
	June	June 26,
	25,	2010
	2011	2010
Provision for Income Taxes	\$ 200	\$ 166

Our effective tax rates for the first quarter of fiscal years 2012 and 2011 were 38.1% and 37.4%, respectively. We continue to evaluate our tax provision on a quarterly basis and make adjustments, as deemed necessary, to our effective tax rate given changes in facts and circumstances expected for the entire fiscal year.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

We believe that amounts available under our current credit facility and our cash on hand are sufficient to satisfy our expected working capital and capital expenditure needs as well as our lease commitments for the foreseeable future.

Cash Flows: The following table is a summary of our Consolidated Statements of Cash Flows:

	First Quarter Ended	
	June	
	25,	June 26,
	2011	2010
Cash (Used in) Provided by:		
Operating Activities	\$ (565)	\$ (211)
Investing Activities	(735)	(215)
Financing Activities	1,308	389

Operating Activities: Net cash used in operations was \$0.6 million for the first quarter of fiscal year 2012 compared to \$0.2 million of cash used in operations in the first quarter of fiscal year 2011. Significant working capital fluctuations were as follows:

Inventory/Accounts Payable: Our inventory balance at June 25, 2011 was \$8.6 million, an increase of \$1.0 million when compared to \$7.6 million on-hand on March 26, 2011. The inventory increase was anticipated and was a result of our strategic decision to make advance purchases of specific, high demand products to ensure availability in the aftermath of the Japanese earthquake. In general, our accounts payable balance increases or decreases with inventory levels. However, this correlation may vary at a quarter-end due to the timing of vendor payments for inventory receipts and inventory shipped directly to customers, as well as the timing of product sales.

Receivables: The higher accounts receivable balance as of June 25, 2011 compared to the balance as of June 26, 2010 is reflective of a significant increase in quarterly revenues. Our quarter-end days sales outstanding increased by three days year-over-year, but still reflects strong collections at less than 40 days. The following table illustrates our days sales outstanding for the fiscal quarters ended on June 25, 2011 and June 26, 2010:

	June 25,	June 26,
	2011	2010
Net Sales, for the last two fiscal months	\$ 18,468	\$ 14,732
Accounts Receivable, net	\$ 11,983	\$ 8,738
Days Sales Outstanding	39	36

Accrued Compensation and Other Liabilities: During the first quarter of fiscal year 2012, we used \$0.5 million in cash to pay accrued compensation and other liabilities compared with \$1.0 million in the first quarter of fiscal year 2011.

Investing Activities: During the first quarter of fiscal year 2012, we invested \$0.6 million in additional service capabilities and facility improvements and \$0.1 million to acquire CMC Instrument Services, Inc. During the first quarter of fiscal year 2011, we invested \$0.2 million in improvements to our proprietary calibration software program, additional service capabilities and information technology.

Financing Activities: During the first quarter of fiscal year 2012, financing activities provided approximately \$1.3 million in cash, which was used for capital expenditures and to pay employee profit sharing and performance-based management bonuses. During the first quarter of fiscal year 2011, financing activities provided approximately \$0.4 million in cash, which was used to help reduce accounts payable and pay employee profit sharing and performance-based management bonuses.

OUTLOOK

While we have achieved significant progress over the past two years, our outlook has not changed. We remain cautious given the still-challenging macroeconomic environment and the cyclical nature of the wind energy industry. We believe we are well positioned and that our long-term growth strategy is sound. We remain focused on successfully executing on our business strategy and we are optimistic that we will continue to perform well into the future.

Table of Contents

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
INTEREST RATES**

Our exposure to changes in interest rates results from our borrowing activities. In the event interest rates were to move by 1%, our yearly interest expense would increase or decrease by less than \$0.1 million assuming our average-borrowing levels remained constant. As of June 25, 2011, \$15.0 million was available under our credit facility, of which \$6.5 million was outstanding and included in long-term debt on the Consolidated Balance Sheet. Under our credit facility, described in Note 2 of our Consolidated Financial Statements included in this report, interest is adjusted on a quarterly basis based upon our calculated leverage ratio. We mitigate our interest rate risk by electing the lower of the base rate available under the credit facility or the LIBOR plus a margin. As of June 25, 2011, the base rate and the LIBOR rate were 3.3% and 0.2%, respectively. Our interest rate for the first quarter of fiscal year 2012 ranged from 1.1% to 2.8%. On June 25, 2011, we had no hedging arrangements in place to limit our exposure to upward movements in interest rates.

FOREIGN CURRENCY

Over 90% of our net revenue for the first quarter of fiscal years 2012 and 2011 was denominated in U.S. dollars, with the remainder denominated in Canadian dollars. A 10% change in the value of the Canadian dollar to the U.S. dollar would impact our net revenue by less than 1%. We monitor the relationship between the U.S. and Canadian currencies on a continuous basis and adjust sales prices for products and services sold in Canadian dollars as we believe to be appropriate.

We utilize foreign exchange forward contracts to reduce the risk that future earnings would be adversely affected by changes in currency exchange rates. We do not apply hedge accounting and therefore, the change in the fair value of the contracts, which totaled less than \$0.1 million during the first quarter of fiscal years 2012 and 2011, was recognized as a component of other expense in the Consolidated Statements of Operations and Comprehensive Income. The change in the fair value of the contracts is offset by the change in fair value on the underlying accounts receivables denominated in Canadian dollars being hedged. On June 25, 2011, we had a foreign exchange forward contract, set to mature in July 2011, outstanding in the notional amount of \$0.9 million. We do not use hedging arrangements for speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

(a) **Conclusion Regarding the Effectiveness of Disclosure Control and Procedures:** Our principal executive officer and our principal financial officer evaluated our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report. Disclosure controls and procedures are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our principal executive officer and principal financial officer to allow timely decisions regarding required disclosure. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of such date.

(b) **Changes in Internal Control over Financial Reporting:** There has been no change in our internal control over financial reporting that occurred during the last fiscal quarter covered by this quarterly report (our first fiscal quarter) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
