UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2003

COMMISSION FILE NUMBER 333-12707

MARINER ENERGY, INC.
(Exact name of registrant as specified in its charter)

DELAWARE
(STATE OR OTHER JURISDICTION OF
INCORPORATION OR ORGANIZATION)

86-0460233
(I.R.S. EMPLOYER
IDENTIFICATION NUMBER)

2101 CITYWEST BLVD., SUITE 1900
HOUSTON, TEXAS 77042-3020
(Address of principal executive offices including Zip Code)

(713) 954-5500
(Registrant's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirement for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is an accelerated filer (as defined by Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

Note: The Company is not subject to the filing requirements of the Securities Exchange Act of 1934. This quarterly report is filed pursuant to contractual obligations imposed on the Company by an Indenture, dated as of August 1, 1996, under which the Company is the issuer of certain debt.

As of May 10, 2003, there were 1,380 shares of the registrant's common stock outstanding.

MARINER ENERGY, INC. NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

The condensed financial statements of Mariner Energy, Inc. (the "Company" or "Mariner") included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Accordingly, they reflect all adjustments (consisting only of normal, recurring accruals) which are, in the opinion of management, necessary for a fair presentation of the financial results for the interim periods. Certain information and notes normally included in condensed financial statements

Edgar Filing: MARINER ENERGY INC - Form 10-Q

prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. These condensed financial statements should be read in conjunction with the financial statements and notes thereto included in the Company's Form 10-K for the year ended December 31, 2002. The results of operations and cash flows for the three months ended March 31, 2003 are not necessarily indicative of the results for the full year.

2. OIL AND GAS PROPERTIES

Under the full cost method of accounting for oil and gas properties, the net carrying value of proved oil and gas properties is limited to an estimate of the future net revenues, plus the lower of cost or estimated fair value of unproved properties discounted at 10%, from proved oil and gas reserves based on period-end prices and costs.

Statement of Financial Accounting Standards (SFAS) No. 143, "Accounting for Asset Retirement Obligations," addresses accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 was adopted on January 1, 2003. SFAS No. 143 requires that the fair value of a liability for an asset's retirement obligation be recorded in the period in which it is incurred and the corresponding cost capitalized by increasing the carrying amount of the related long-lived asset. The liability is accreted to its then present value each period, and the capitalized cost is depreciated over the useful life of the related asset. If the liability is settled for an amount other than the recorded amount, a gain or loss is recognized.

The adoption of SFAS 143 resulted in a January 1, 2003 cumulative effect adjustment to record (i) an \$11.3 million increase in the carrying values of proved properties, and (ii) a \$4.5 million increase in current abandonment liabilities. The net impact of these items was to record a gain of \$3.0 million as a cumulative effect adjustment of a change in accounting principle in our statements of operations upon adoption on January 1, 2003. The amount of amortization charged to depreciation, depletion and amortization expense in the quarter ended March 31, 2003 was approximately \$411,000. In connection with the recording of the initial adjustment for the impact of implementing FAS 143, we revised our calculations from those disclosed in our 2002 Form 10-K. The revised computation increased our initial adjustment to the carrying values of proved properties by \$9.2 million, increased our current abandonment liability by \$2.9 million and decreased our gain as a cumulative effect by \$6.5 million.

The following rollforward is provided as a reconciliation of the beginning and ending aggregate carrying amounts of the asset retirement obligation.

Claims settled	(.7)
Accretion Expense	.4
	=====

Edgar Filing: MARINER ENERGY INC - Form 10-Q

Abandonment Liability as of March 31, 2003

\$ 15.4

On March 19, 2003, with bids totaling \$3.9 million net to us, we were the apparent high bidder solely or with industry partners, on 11 out of 11 blocks on which we and our partners submitted bids in the Central Gulf of Mexico Oil and Gas Lease Sale 185 held on that date. Each of the blocks is in water depths ranging from approximately 20 feet to 1,500 feet. Mariner has a 100% working interest in five of the blocks and a 50% working interest in six blocks.

In January 2003 we made a deepwater Gulf of Mexico Discovery at "Harrier", East Breaks 759, and a shelf Gulf of Mexico discovery at Vermillion 144. Harrier was drilled in 4,100 feet of water to a total measured depth of 9,510 feet and encountered 315 net feet of gas pay. Mariner had a 25% working interest in Harrier. Vermillion 144 was drilled in 87 feet of water to a total measured depth of 16,522 feet and encountered 90 net feet of pay. Mariner is operator of Vermillion 144 with a 42% working interest and first production is expected in June 2003.

In March 2003, we sold our remaining 25% working interest in our Falcon and Harrier discoveries and surrounding blocks, located in East Breaks area in the western Gulf of Mexico, for \$121.6 million, subject to closing adjustments. We retained a 4 1/4 percent overriding royalty interest on seven non-producing blocks. As of March 31, 2003 the net proceeds of \$113.1 million were held in escrow pending the receipt of a No Objection Letter to be obtained from Enron's unsecured creditors committee. The terms and approval to the sale had been previously agreed by all parties and the No Objection Letter being received on April 1, 2003 thereby releasing the proceeds from escrow. The proceeds from the sale are expected to be used for debt reduction, capital expenditures, and other corporate purposes. At the time of the sale the Falcon and Harrier projects had approximately 46 Bcfe assigned as proved oil and gas reserves to our interest.

3. RELATED PARTY TRANSACTIONS

5

ENRON BANKRUPTCY - Commencing on December 2, 2001, Enron Corp. ("Enron") and certain of its affiliates, including Enron North America Corp. ("ENA"), filed voluntary petitions for bankruptcy protection. We have been informed that of our various direct or indirect owners, only Enron and ENA are debtors in the bankruptcy. We do not know at this time if any other owners will seek bankruptcy protection or what effect, if any, this may have on the ownership of Mariner Energy LLC which owns 100% of Mariner Holdings, Inc. (our direct parent) or on Joint Energy Development Investments Limited Partnership ("JEDI"), which owns approximately 96% of the issued and outstanding equity of Mariner Energy LLC. Enron is the parent of ENA, and an affiliate of ENA is the general partner of JEDI. JEDI is 100% owned by Enron and affiliates of ENA. Accordingly, Enron may be deemed to control JEDI, Mariner Energy LLC, Mariner Holdings and us. Additionally, five of the Company's directors are representatives of Enron or affiliates of Enron. Three of the five Enron representative directors are no longer employed by Enron or its affiliates however remain on Mariner's Board. Because of these various potentially conflicting interests, ENA, the Company, JEDI and the minority shareholders of Mariner Energy LLC have entered into an agreement that is intended to make clear that Enron and its affiliates have no duty to make business opportunities available to the Company.

Mariner Energy LLC's only asset is 100% of the common stock of Mariner Holdings, Inc., our direct parent. The only asset of Mariner Holdings is 100% of

Edgar Filing: MARINER ENERGY INC - Form 10-Q

the common shares of Mariner.

Management cannot predict with certainty what impact Enron's bankruptcy may have on us. However, we do not believe that our assets and liabilities will become part of the Enron estate in bankruptcy. Although JEDI owns 96% of Mariner Energy LLC's common shares, we, as a separate corporation own or lease the assets used in its business and our management, separate from Enron, is responsible for our day-to-day operations. Contractual provisions restrict Enron access to our assets. We maintain our own accounting system as well as separate debt ratings. We maintain our own separate and complete cash management system and finance our operations separately from Enron, on both a short-term and long-term basis. We file a consolidated tax return with Mariner Energy LLC.

Notwithstanding the above, we may have potential exposure to certain liabilities and asset impairments as a result of Enron's bankruptcy. Portions of the following Enron-related disclosures are based on discussions with Enron's legal advisors and management, including members of our Board of Directors. Although our management has implemented with Enron's legal advisor and management a systematic method of identifying Enron matters which may have a material impact on us, management cannot provide any assurance as to the completeness or accuracy of the information provided by or on behalf of Enron.

ORGANIZATION AND OWNERSHIP OF THE COMPANY - Through March 31, 1996, Hardy Oil & Gas USA Inc. (the "Predecessor Company") was a wholly-owned subsidiary of Hardy Holdings Inc., which is a wholly-owned subsidiary of Hardy Oil & Gas Plc ("Hardy Plc"), a company incorporated in the United Kingdom. Pursuant to a stock purchase agreement dated April 1, 1996, JEDI and ENA, together with members of management of the Predecessor Company, formed Mariner Holdings, Inc. ("Mariner Holdings"). Mariner Holdings then purchased from Hardy Holdings Inc. all of the issued and outstanding stock of the Predecessor Company for a purchase price of approximately \$185.5 million (the "Acquisition"). After the Acquisition, the name of the Predecessor Company was changed to Mariner Energy, Inc. In October 1998, JEDI and other shareholders exchanged all of their common shares of Mariner Holdings, the Company's direct parent, for an equivalent ownership percentage in common shares of Mariner Energy LLC. Mariner Energy LLC owns 100% of Mariner Holdings.

6

Subsequent to the Acquisition, Mariner Energy LLC, Mariner Holdings and Mariner have each entered into various financing and operating transactions with affiliates. In addition, the Company may have from time to time engaged in various commercial transactions and have various commercial relationships with Enron and certain affiliates of Enron, such as holding and exploring, exploiting and developing joint working interests in particular prospects and properties and entering into other oil and gas related or financial transactions. Certain of the Company's third-party debt instruments and arrangements restrict the Company's ability to engage in transactions with its affiliates, but those restrictions are subject to significant exceptions. The Company believes that its current agreements with Enron and its affiliates are, and anticipates that any future agreements with Enron and its affiliates will be, on terms no less favorable to the Company than would be obtained in an agreement with a third party. Below is a summary of key transactions between the Company and affiliate entities.

MARINER ENERGY LLC

ENA Affiliate Term Loan - In March 2000, Mariner Energy LLC established an unsecured term loan with ENA to repay amounts outstanding under various

Edgar Filing: MARINER ENERGY INC - Form 10-Q

affiliate credit facilities at Mariner Energy LLC and Mariner and to provide additional working capital. The additional working capital of \$55 million was contributed to Mariner in 2000. The loan bears interest at 15%, which interest accrues and is added to the loan principal. Repayment of the balance of loan principal and accrued interest, which was approximately \$172.6 million as of March 31, 2003, is due March 20, 2004. In conjunction with the loan agreement, two five-year warrants were issued to ENA providing the right to purchase up to 900,000 of common shares of Mariner Energy LLC for \$0.01 per share.

Covenants in Mariner's Senior Subordinated Notes restrict the funds of Mariner that can be distributed to Mariner Energy LLC. Accordingly, Mariner Energy LLC is restricted in its ability to repay the unsecured Term Loan or to distribute earnings to its shareholders. In the event Mariner Energy LLC is unable to restructure or extend the maturity of its obligations prior to March 2004 it would either default under the Term Loan or be forced to sell its interest in Mariner or cause Mariner to sell a substantial portion of its assets to repay any outstanding Senior Subordinated Notes so that it could distribute any remaining cash proceeds to Mariner Energy LLC to be used to repay the Term Loan.

We have been informed by Enron's legal advisors and management that the Term Loan and warrants were transferred from ENA to an ENA affiliate, which affiliate is part of a finance structure formed by ENA. Because debt obligations of the finance structure are in default and ENA therefore does not have complete control over decisions made by the ENA affiliate, it may be difficult for Mariner Energy LLC to obtain any consents, waivers or amendments needed from the ENA affiliate in connection with the Term Loan or the warrants.

MARINER HOLDINGS, INC.

1998 Equity Investment - In June 1998, Mariner Holdings issued additional equity to its existing shareholders, including JEDI, for approximately \$14.58 per share, for a net investment of \$28.8 million, all of which was contributed to Mariner. Mariner Holdings paid approximately \$1.2 million as a structuring fee, on a pro rata basis, to existing shareholders participating in this transaction. Approximately \$1 million of this fee was paid to ECT Securities Limited Partnership.

7

MARINER ENERGY, INC.

Oil and Gas Production Sales to ENA or Affiliates - During the three years ending December 31, 2002, 2001 and 2000, sales of oil and gas production to ENA or affiliates were \$56.4million, \$50.2 million and \$73.4 million, respectively. These sales were generally made on 1 to 3 month contracts. At the time ENA filed its petition for bankruptcy protection, the Company immediately ceased selling its physical production to ENA, however, we continued to sell our production to Bridgeline in which ENA owned a minority interest. All amounts sold to this entity have been collected. As of March 31, 2003, we had an outstanding receivable for \$3 million from ENA. This amount was not paid as scheduled and is still outstanding. Mariner has submitted a proof of claim to the bankruptcy court for amounts owed to it by ENA. The Company has estimated 100% of this balance is uncollectible and has recorded a full allowance and related expense.

Management Activities - We engage in price risk management activities from time to time. These activities are intended to manage our exposure to fluctuations in commodity prices for natural gas and crude oil. We primarily

Edgar Filing: MARINER ENERGY INC - Form 10-Q

utilize price swaps and costless collars as a means to manage such risk. Historically, all of our hedging contracts were with ENA. As a result of ENA's bankruptcy, the contracts are currently in default. The November 2001 through April 30, 2002 settlements for oil and gas have not been collected. In addition, on May 14, 2002, we elected under our Master Service Agreement with ENA to terminate all open contracts. The effect of this termination is to fix the nominal value on all remaining contracts on May 14, 2002. Subsequent to this termination, the value of all oil and natural gas unpaid hedge contracts was \$7.7 million. We have estimated 100% of this balance is uncollectible and have recorded a full allowance. We have submitted a proof of claims to the bankruptcy court for amounts owed under this agreement. In accordance with Statement of Financial Accounting Standards ("SFAS") No. 133 "Accounting for Derivative Instruments and Hedging Activities," as amended by SFAS No. 137 and No. 138, we have de-designated our contracts effective December 2, 2001 and are recognizing all market value changes subsequent to such de-designation in our earnings. The value recorded up to the time of de-designation and included in Accumulated Other Comprehensive Income ("AOCI"), will reverse out of AOCI and into earnings as the original corresponding production, as hedged by the contracts, is produced. As of March 31, 2003, \$2.1 million remained in AOCI to be reversed out to earnings.

The following table sets forth the results of hedging transactions during the periods indicated that were made with ENA (all amounts shown are non-cash items):

	THREE MONTH ENDING MARCH 31	
	2003	2002
Natural gas quantity hedged (Mmbtu).....	900	4,415
Increase (decrease) in natural gas sales (thousands).....	\$488	\$(10,630)
Crude oil quantity hedged (MBbls).....	--	--
Increase (decrease) in crude oil sales (thousands).....	--	--

As a result of the Enron and ENA bankruptcies, among other implications, we may not be able to obtain credit from banks or trade vendors or enter into hedging arrangements on acceptable terms. To date, our operations have not been materially affected by the bankruptcies; however, our ability to enter into certain transactions including purchase or sale arrangements and to conduct significant capital programs may be affected in the future. Oil and gas sales and the related accounts receivable for the three month period ending March 31, 2003 relate to sales made to a minority owned affiliate of Enron.

9

CONTROLLED GROUP LIABILITY

On November 12, 2002, Enron's legal advisors and management informed us that we may be an Enron Corp. Controlled Group Member as defined under the Employee Retirement Income Security Act of 1974 ("ERISA") due to Enron's indirect ownership interest in Mariner Energy LLC. Enron management has not made a final determination if we are in fact a Controlled Group Member. Because of numerous ownership issues within the Enron Group, we are unable to make our own determination as to whether we agree or disagree that we are a Controlled Group Member. In the event we are a Controlled Group Member, we may have potential liability for certain employee benefit plan obligations of Enron discussed below.

Pension Plans - Applicable federal law authorizes the Pension Benefit Guaranty Corporation ("PBGC") to institute proceedings in federal district court for the termination of a pension plan if it determines the plan has failed to comply with minimum funding standards, the plan is or will be unable to pay benefits when due, or the failure to terminate the plan may reasonably be expected to unreasonably increase the possible long-run loss to the PBGC. Federal law also authorizes the sponsor of a pension plan to terminate the plan

Edgar Filing: MARINER ENERGY INC - Form 10-Q

at a time when the plan is underfunded, subject to PBGC or court approval.

Based on discussions with Enron management, it is our management's understanding that, as of December 31, 2002 the assets of Enron's pension plan (the "Enron Plan") were less than the present value of all accrued benefits by approximately \$52 million on a SFAS No. 87 basis and approximately \$182 million on a plan termination basis. Further, Enron's management has informed Mariner management that the PBGC has filed claims in the Enron bankruptcy cases. The claims are duplicative in nature, representing unliquidated claims for PBGC insurance premiums (the "Premium Claims") and unliquidated claims for due but unpaid minimum funding contributions (the "Contribution Claims") under the Internal Revenue Code of 1986, as amended (the "Tax Code") 29 U.S.C.ss.ss. 412(a) and 1082 and claims for unfunded benefit liabilities (the "UBL" Claims"). Enron and the relevant sponsors of the defined benefit plans are current on their PBGC premiums and their contributions to the pension plans. Therefore, Enron has valued the Premium Claims and the Contribution Claims at \$0. The total amount of the UBL Claims is \$305.5 million (including \$271 million for the Enron Plan). In addition Enron Management has informed Mariner Management that the PBGC has informally alleged in pleadings filed with the bankruptcy court that the UBL Claim related to the Enron Plan could increase by as much as 100%. PBGC has provided no support (statutory or otherwise) for this assertion and Enron Management disputes the validity of any such claim. Because the Enron Plan is under funded and Enron is in bankruptcy, in certain circumstances the Enron Plan may be terminated and taken control of by the PBGC upon approval of a Federal District Court.

10

Mariner's employees have not been participants in the Enron Plan. However, upon termination of a pension plan, all of the members of the controlled group of the plan sponsor become jointly and severally liable for the plan are under funding. The PBGC can demand payment from one or more of the members of the controlled group. If payment is not made, a lien in favor of the PBGC automatically arises against all of the assets of that member of the Controlled Group. The amount of the lien is equal to the lesser of the underfunding or 30% of the aggregate net worth of all of the controlled group members. In addition, if the sponsor of a pension plan does not timely satisfy its minimum funding obligation to the pension plan, once the aggregate missed amounts exceed \$1 million, a lien in favor of the plan in the amount of the missed funding automatically arises against the assets of every member of the controlled group. In either case, the PBGC may file to perfect the lien and attempt to enforce it against the assets of members of the Enron Controlled Group. Enron has informed Mariner that Enron's management believes that the lien would be subordinate to prior perfected liens on the assets of the member of the controlled group. Based on discussions with Enron's management, Mariner's management understands that Enron has made all required contributions to date through April 15, 2003. Enron's management has advised Mariner that it intends to make its next contribution due on July 15, 2003.

Management cannot predict the outcome of the above matters or estimate any potential loss. In addition, if the PBGC did look solely to Mariner to pay any amount with respect to the Enron Plan, Mariner would exercise all legal rights available to it to defend against such a demand and to recover any contributions from the other solvent members of the Controlled Group. Mariner has established no reserves for any amounts related to this issue.

Mariner has also been informed by Enron management that Enron has contacted the PBGC as well as Unsecured Creditors Committee regarding their intention to terminate the Enron Plan, subject to approval by such parties, the

Edgar Filing: MARINER ENERGY INC - Form 10-Q

bankruptcy court and authorization to fully fund the Enron Plan in accordance with its terms. If approved Enron would fully fund the Enron Plan in accordance with its terms, and the plan could be terminated without any liability to Mariner. Enron has also stated that it believes it has the necessary funds to consummate such a termination. In addition, to the extent that entities in the Controlled Group are sold prior to termination of the Plan, proceeds of the sale of such entities may be available to satisfy this liability. Enron management has also informed Mariner that the proceeds from such sale of Enron Control Group entities would exceed any plan obligations.

Retiree Health Benefits - Under COBRA, if certain retirees of Enron lose coverage under Enron's group health plan due to Enron's bankruptcy proceedings, they would be entitled to elect continuation of their health coverage in a group plan maintained by Enron or a member of its Controlled Group. Mariner's employees have not participated in this plan. Mariner management understands, based on discussions with Enron management, that Enron had provided a plan for retiree health insurance and that the actuarial liability for such coverage was approximately \$112 million as of December 31, 2002. Management further understands that to meet its obligation, Enron, at December 31, 2002, had set aside approximately \$31 million of assets in a VEBA trust, which may be protected under ERISA from Enron's creditors, leaving an unfunded liability of approximately \$86 million.

In the event that Enron terminates its retiree group health plan, the retirees must be provided the opportunity to purchase continuing coverage from Enron's group health plan, if any, or the most appropriate existing group health plan of another member of the Enron Controlled Group. Retirees electing to purchase COBRA coverage would be provided the same coverage that is provided to similarly situated retirees under the appropriate existing plan. Retirees electing to purchase COBRA coverage would be required to pay for the coverage, up to an amount not to exceed 102% of the cost of coverage for similarly situated beneficiaries. Retirees are not required to purchase coverage under COBRA. Retirees may, instead, shop for coverage from third party sources and determine which is the least expensive coverage.

11

Management cannot predict the outcome of the above matter or estimate any potential loss. However, management believes that in the event Enron terminates coverage, any liability to Mariner associated with the number of retirees that choose to remain under Enron's retiree health plan will not be material. Mariner has established no reserves related to this issue.

SALE OF ENRON INTEREST IN MARINER

On May 3, 2002, Enron presented to its Unsecured Creditors' Committee a proposal under which certain of Enron's core energy assets, including JEDI's ownership of Mariner Energy LLC, would be separated from Enron's bankruptcy estate and operated prospectively as a new integrated power and pipeline company.

On August 27, 2002, Enron announced that it had commenced a formal sales process for its interests in certain major assets, including JEDI's ownership of Mariner Energy LLC. In its announcement, Enron indicated that it was extending invitations to visit electronic data rooms containing information on 12 of its most valuable businesses, including Mariner, to a broad universe of potential bidders with whom Enron had executed confidentiality agreements.

Enron has announced its intent to move forward with the sale of

Edgar Filing: MARINER ENERGY INC - Form 10-Q

four companies, however, it continues to evaluate its alternatives with regard to Mariner. Management is unable to give assurances that the Company will be or not be sold in the near future and there can be no assurance as to whether JEDI's ownership of Mariner Energy LLC will be sold in the future.

3. LIQUIDITY

As of March 31, 2003, we had working capital of approximately \$104.5 million, of which \$121.1 million is restricted, compared to a working capital deficit of \$9.2 million at December 31, 2002. On April 1, 2003, \$113.1 million of the restricted cash was released from its restricted status. The improvement in the working capital was primarily a result of the sale of the Company's remaining working interest in its Falcon and Harrier Projects for approximately \$121.6 prior to adjustment and \$113.1 post adjustments. We expect our 2003 capital expenditures, excluding capitalized indirect costs and proceeds from property conveyances to be approximately \$103.0 million, which would exceed cash flow from operations. However, we believe that cash on hand together with expected cash flow from operations will permit us to fund our remaining planned activities in 2003. There can be no assurance that our access to capital will be sufficient to meet our needs for capital. Accordingly, we may be required to reduce our planned capital expenditures and forego planned exploratory drilling.

12

The Company's Revolving Credit Facility matured in October 2002. We have begun discussions with other third party banks to provide a new revolving credit facility. There is no assurance that a new credit facility will be obtained. In addition, our parent, Mariner Energy LLC, is currently obligated under an unsecured term loan with an ENA affiliate. Mariner Energy LLC negotiated an extension of the ENA Affiliate Term Loan to March 20, 2004. In the event Mariner Energy LLC is unable to refinance or restructure its obligations prior to March 2004, Mariner Energy LLC would either default or be forced to sell its interest in the Company, or cause the Company to sell a substantial portion of its assets to repay its outstanding Senior Subordinated Notes so that it could distribute cash to Mariner Energy LLC to be used to repay the term loan. In the event of either a merger or consolidation of Mariner Energy LLC or the Company resulting in a change of control or a sale of all or substantially all of the Company's assets, holders of the Senior Subordinated Notes would have the right to require the Company to repurchase the Senior Subordinated Notes held by them at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest. Any such transaction would also trigger a mandatory prepayment of all amounts outstanding under the ENA Affiliate Term Loan. The Company's ability to pay dividends and make other distributions of cash to Mariner Energy LLC are generally restricted under the indenture governing the Senior Subordinated Notes. As a result, following any change of control transaction or sale of all or substantially all of its assets, the Company would most likely be required to repurchase any Senior Subordinated Notes tendered to it under the indenture and redeem the balance of the Senior Subordinated Notes outstanding as permitted under the indenture before it could distribute cash to Mariner Energy LLC to repay the ENA Affiliate Term Loan.

4. CURRENT HEDGING ACTIVITY

In June 2002 the Company commenced price risk activities with a third party. These activities are intended to manage the Company's exposure to fluctuations in commodity prices for natural gas and crude. As of March 31, 2003 the Company had the following fixed price swaps outstanding.

Edgar Filing: MARINER ENERGY INC - Form 10-Q

	TIME PERIOD -----	NOTIONAL QUANTITIES	FIXED PRICE
CRUDE OIL (MBBL)			
	April 1, 2003 - December 31, 2003		
	Fixed Price Swap Purchase	413	\$23.69
	April 1, 2003 - December 31, 2003		
	Fixed Price Swap Purchase	138	\$24.51
NATURAL GAS (MMBTU)			
	April 1, 2003 - December 31, 2003		
	Fixed Price Swap Purchase	5,500	\$3.55
	Fixed Price Swap Purchase	5,500	\$3.61
	Fixed Price Swap Purchase	(8,560)	\$5.32

13

The following table sets forth the results of hedging transactions during the periods indicated that were made with non-Enron related parties.

	MARCH 31, 2003	2002
	-----	-----
NATURAL GAS	1,240	--
Quantity hedged (Mmbtu)		
Increase (Decrease) in Natural Gas Sales (in thousands)	\$(6,989)	--
CRUDE OIL		
Quantity hedged (MBbls)	180	--
Increase (Decrease) in Crude Oil Sales (in thousands)	\$(1,550)	--

As a result of these swaps and other hedging transactions the Company will have approximately 22% of the remainder of 2003 production. Mark to market value changes approximately \$2.3 million for every 10% overall change in commodity prices.

The Company has reviewed the financial strength of its counterparty to these hedge transactions and believes credit risk to be minimal. As of March 31, 2003 the Company had on deposit, classified as restricted cash, \$8.0 million with the third party for collateral.

5. COMMITMENTS AND CONTINGENCIES

MMS APPEAL - Mariner operates numerous properties in the Gulf of Mexico. Three of such properties were leased from the Mineral Management Service subject to the 1996 Royalty Relief Act. This Act relieved the obligation to pay royalties on certain predetermined leases until a designated volume is produced. These three leases contained language that limited royalty relief if commodity

Edgar Filing: MARINER ENERGY INC - Form 10-Q

prices exceeded predetermined levels. Beginning in January 2000 commodity prices exceeded the predetermined levels. Management believes the MMS did not have the authority to set pricing limits and the Company filed an administrative appeal with the MMS and has withheld royalties regarding this matter. The Company has recorded a liability for 100% of the exposure on this matter which on March 31, 2003 was \$7.4 million.

LITIGATION - The Company, in the ordinary course of business, is a claimant and/or a defendant in various legal proceedings, including proceedings as to which the Company has insurance coverage. The Company does not consider its exposure in these proceedings, individually and in the aggregate, to be material.

14

6. OTHER COMPREHENSIVE INCOME

Other Comprehensive Income includes net income and certain items recorded directly to Stockholder's Equity and classified as Other Comprehensive Income. The following table illustrates the calculation of Other Comprehensive Income:

	TH

	COMPREHENSIV
	INCOME

Accumulated other comprehensive income - January 1, 2003.....	
Net income.....	\$23,882
Other comprehensive loss	
Reclassification adjustment for price risk management settled contracts....	8,051
Change in fair value of non-ENA outstanding hedge positions.....	(15,445)

Other comprehensive income.....	(7,394)

Comprehensive income.....	\$16,488
	=====
Other comprehensive income.....	

There were no items in Other Comprehensive Income other than the Company's hedging activity.

7. NEW ACCOUNTING PRONOUNCEMENTS

In November 2002, the FASB issued Interpretation No. 45 (FIN 45), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others," which addresses the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under guarantees. FIN 45 also requires the recognition of a

Edgar Filing: MARINER ENERGY INC - Form 10-Q

liability by a guarantor at the inception of certain guarantees that are entered into or modified after December 31, 2002.

The Company has adopted the disclosure requirements of FIN 45 (see Note 2 "Related-Party Transactions") and will apply the recognition and measurement provisions for all material guarantees entered into or modified in periods beginning January 1, 2003. The impact of FIN 45 on the Company's future Financial Statements will depend upon whether the company enters into or modifies any material guarantee arrangements.

15

INDEPENDENT ACCOUNTANTS' REPORT

Board of Directors and Stockholder
Mariner Energy, Inc.
Houston, Texas

We have reviewed the accompanying condensed balance sheet of Mariner Energy, Inc. as of March 31, 2003 and the related condensed statements of operations and cash flow for the three-month periods end March 31, 2003 and 2002. These condensed financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists primarily of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet as of December 31, 2002, and the related statements of operations, stockholder's equity, and cash flows for the year ended December 31, 2001 (not presented herein), and in our report dated April 14, 2003, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of December 31, 2002 is fairly stated, in all material respects, in relation to the balance sheet from which it has been derived.

As described in Note 3 and 5, the Company has various related-party transactions and certain control relationships with Enron Corp. The Company may have potential exposure to certain liabilities and asset impairments as a result of the Enron Corp. bankruptcy.

As discussed in Note 2 to the financial statements, effective January 1, 2003, the Company changed its method of accounting for asset retirement obligations upon adoption of Statement of Financial Accounting Standards No. 143, "Accounting for Asset Retirement Obligations."

16

PART I, ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following review of operations for the three-month period ended March 31, 2003 should be read in conjunction with the condensed financial statements of the Company and Notes thereto included elsewhere in this Form 10-Q and with the Financial Statements, Notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002, filed with the Securities and Exchange Commission on April 16, 2003.

INFORMATION REGARDING FORWARD LOOKING STATEMENTS

All statements other than statements of historical fact included in this quarterly report on Form 10-Q, including, without limitation, statements contained in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy, plans and objectives of management of the Company for future operations, and industry conditions, are forward-looking statements. Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct, and actual results could differ materially from the Company's expectations. Factors that could influence these results include, but are not limited to, Enron-related matters, oil and gas price volatility, results of future drilling, availability of drilling rigs, future production and costs, capital resources, liquidity and other factors described in the Company's annual report on Form 10-K for the year ended December 31, 2002, filed with the Securities and Exchange Commission on April 16, 2003.

In addition to other factors and matters discussed elsewhere in this report, some important factors that could cause actual results or outcomes for the Company to differ materially from those disclosed in the forward looking statements include matters related to Enron and certain of its subsidiaries' filings to initiate bankruptcy proceedings under Chapter 11 of the Federal Bankruptcy Code (Mariner is not included in the filing) and events related to Enron's bankruptcy proceedings.

17

RESULTS OF OPERATIONS

The following table sets forth certain information regarding results of operations for the periods shown:

Edgar Filing: MARINER ENERGY INC - Form 10-Q

	THREE-MONTHS ENDED MARCH 31,	
	2003	2002
TOTAL REVENUE, \$MM	\$ 45.2	\$ 27.9
NET INCOME, \$MM	\$ 23.9	\$ 1.9
PRODUCTION:		
Oil and condensate (Mbbbls)	282	531
Natural gas (Mmcfe)	6,708	4,635
Natural gas equivalents (Mmcfe)	8,396	7,821
AVERAGE REALIZED SALES PRICES:		
Oil and condensate (\$/Bbl)	\$ 25.17	\$ 20.35
Natural gas (\$/Mcf)	5.68	3.68
Natural gas equivalents (\$/Mcf)	5.38	3.56
CASH MARGIN(1) PER MCFE:		
Revenue (pre-hedge)	\$ 6.33	\$ 2.72
Hedging impact	(0.95)	0.84
Lease operating expenses	(0.79)	(0.50)
Transportation	(0.18)	(0.24)
Gross G&A costs	(0.46)	(0.48)
Cash margin	\$ 3.95	\$ 2.34
CAPITAL EXPENDITURES, \$MM:		
Exploration:		
Leasehold and G&G costs	\$ 1.5	\$ 6.8

Development & other	15.0	23.4
Capitalized G&A and interest costs	2.0	1.8
Total Capital	27.5	33.5
Less property conveyances	(121.6)	--
TOTAL NET CAPITAL	\$ (94.1)	\$ 33.5

- (1) - Cash margin measures the net cash generated by a company's operations during a given period, without regard to the period such cash is physically received or spent by the company.

RESULTS OF OPERATIONS FOR THE FIRST QUARTER OF 2003

NET PRODUCTION was 8.4 billion cubic feet of natural gas equivalent (Bcfe) as compared to 7.8 Bcfe in the same period of 2002. The increase of production was due to a full quarter of production on our King Kong and Yosemite projects located in Garden Banks 472 and 516, respectively.

Edgar Filing: MARINER ENERGY INC - Form 10-Q

HEDGING ACTIVITIES for the first quarter of 2003 decreased our average realized natural gas sales price \$.97 per Mcf and revenues by \$6.5 million and realized oil prices by \$5.50 per Bbl and revenues by \$1.6 million during the first quarter of 2003. Hedging activities for the first quarter 2002 increased our average realized natural gas and crude oil prices by \$1.20 per Mcf and resulting in reductions in revenue of \$6.6 million.

OIL AND GAS REVENUES increased to \$45.2 million for the first quarter of 2003 from \$27.9 million for the first quarter of 2002 due to the decrease in production mentioned above and an increase in realized prices to \$5.38 per Mcfe for the first quarter from \$3.56 per Mcfe in the same period of 2002.

LEASE OPERATING EXPENSES increased to \$6.7 million for the first quarter of 2003 from \$3.9 million for the first quarter of 2002 due to the addition of two wells mentioned above.

TRANSPORTATION EXPENSES decreased to \$1.5 million for the first quarter of 2003 from \$1.9 million for the same period of 2002. This decrease was primarily attributable to the reduced production from our Black Widow and Pluto Projects.

DEPRECIATION, DEPLETION, AND AMORTIZATION EXPENSE (DD&A) decreased to \$11.6 million for the first quarter of 2003 from \$14.1 million for the first quarter of 2002 as a result of the sale of our Falcon Project offset by an increase in equivalent volumes produced in the unit-of-production DD&A rate to \$1.38 per Mcfe from \$1.81 per Mcfe.

GENERAL AND ADMINISTRATIVE EXPENSES, which are net of overhead reimbursements received from other working interest owners increased \$2.1 million for the first quarter of 2003 from \$1.9 for the same period of 2002 due to lower recovery from other working interest owners.

NET INTEREST EXPENSE for the first quarter of 2003 decreased to \$2.5 million from \$2.9 million in the first quarter of 2002 due to a reduction in borrowings under our Revolving Credit Facility.

NET INCOME increased to \$23.9 million for the first quarter of 2003 from \$1.9 million for the comparable period last year, as a result of the aforementioned factors.

LIQUIDITY, CAPITAL EXPENDITURES AND CAPITAL RESOURCES

As of March 31, 2003, we had working capital of approximately \$104.5 million, of which \$121.1 million is restricted, compared to a working capital deficit of \$9.2 million at December 31, 2002. On April 1, 2003, \$113.1 million of the restricted cash was released from its restricted status. The improvement in the working capital was primarily a result of the sale of the Company's remaining working interest in its Falcon and Harrier Projects for approximately \$121.6 prior to adjustment and \$113.1 post adjustments. We expect our 2003 capital expenditures, excluding capitalized indirect costs and proceeds from property conveyances to be approximately \$103.0 million, which would exceed cash flow from operations. However, we believe that cash on hand together with expected cash flow from operations will permit us to fund our remaining planned activities in 2003. There can be no assurance that our access to capital will be sufficient to meet our needs for capital. Accordingly, we may be required to reduce our planned capital expenditures and forego planned exploratory drilling.

Edgar Filing: MARINER ENERGY INC - Form 10-Q

The Company's Revolving Credit Facility matured in October 2002. We have begun discussions with other third party banks to provide a new revolving credit facility. There is no assurance that a new credit facility will be obtained. In addition, our parent, Mariner Energy LLC, is currently obligated under an unsecured term loan with an ENA affiliate. Mariner Energy LLC negotiated an extension of the ENA Affiliate Term Loan to March 20, 2004. In the event Mariner Energy LLC is unable to refinance or restructure its obligations prior to March 2004, Mariner Energy LLC would either default or be forced to sell its interest in the Company, or cause the Company to sell a substantial portion of its assets to repay its outstanding Senior Subordinated Notes so that it could distribute cash to Mariner Energy LLC to be used to repay the term loan. In the event of either a merger or consolidation of Mariner Energy LLC or the Company resulting in a change of control or a sale of all or substantially all of the Company's assets, holders of the Senior Subordinated Notes would have the right to require the Company to repurchase the Senior Subordinated Notes held by them at a purchase price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest. Any such transaction would also trigger a mandatory prepayment of all amounts outstanding under the ENA Affiliate Term Loan. The Company's ability to pay dividends and make other distributions of cash to Mariner Energy LLC are generally restricted under the indenture governing the Senior Subordinated Notes. As a result, following any change of control transaction or sale of all or substantially all of its assets, the Company would most likely be required to repurchase any Senior Subordinated Notes tendered to it under the indenture and redeem the balance of the Senior Subordinated Notes outstanding as permitted under the indenture before it could distribute cash to Mariner Energy LLC to repay the ENA Affiliate Term Loan.

Net cash inflow from operating activities was \$23.3 million in the first quarter of 2003, a increase of \$27.1 million from the same period of 2002. A period to period increase of approximately \$24.7 million in operating cash flow before changes in operating assets and liabilities was due primarily to higher production and higher commodity prices. An increase of \$5.4 million in net cash used by changes in working capital was caused by reductions in joint interest receivables and the timing of payments made on accounts payable.

Net cash outflows from investing activities in the first three months of 2003 decreased to \$19.0 million from a cash outflow of \$33.5 million for the same period in 2002 due primarily to proceeds from property conveyances of \$121.6 million offset by \$113.1 million held in escrow in the first quarter of 2003.

Cash flow in financing activities was \$0 for the first three months of 2003 compared to cash inflow of \$25.5 million for the same period in 2002.

Capital expenditures excluding proceeds from property conveyance for the first three months of 2003 were \$28.4 million including \$2.0 million of capitalized general, administrative and interest costs. Net capital expenditures included \$10.5 million for exploration activities and \$17.9 million for development and other activities.

During the remainder of 2003, we expect to conduct drilling operations on eight to twelve exploratory wells, making additions to our seismic and leasehold positions. The development budget includes funds for completing the Roaring Fork project as well as funds for the Swordfish Project due to commence production in 2004.

Long-term debt outstanding as of March 31, 2003 was approximately \$99.8 million for our senior subordinated notes.

We believe there will be adequate cash flow in order for us to fund our remaining planned activities in 2003. Our capital resources still may not be

Edgar Filing: MARINER ENERGY INC - Form 10-Q

sufficient to meet our anticipated future requirements for working capital, capital expenditures and scheduled payments of principal and interest on our indebtedness. There can be no assurance that anticipated growth will be realized, that our business will generate sufficient cash flow from operations or that future borrowings or equity

20

capital will be available in an amount sufficient to enable us to service our indebtedness or make necessary capital expenditures. In addition, depending on the levels of our cash flow and capital expenditures (the latter of which are, to a large extent, discretionary), we may need to refinance a portion of the principal amount of our senior subordinated debt at or prior to maturity. However, there can be no assurance that we would be able to obtain financing on acceptable terms to complete a refinancing.

RELATED PARTY TRANSACTIONS

ENRON BANKRUPTCY - Commencing on December 2, 2001, Enron Corp. ("Enron") and certain of its affiliates, including Enron North America Corp. ("ENA"), filed voluntary petitions for bankruptcy protection. We have been informed that of our various direct or indirect owners, only Enron and ENA are debtors in the bankruptcy. We do not know at this time if any other owners will seek bankruptcy protection or what effect, if any, this may have on the ownership of Mariner Energy LLC which owns 100% of Mariner Holdings, Inc. (our direct parent) or on Joint Energy Development Investments Limited Partnership ("JEDI"), which owns approximately 96% of the issued and outstanding equity of Mariner Energy LLC. Enron is the parent of ENA, and an affiliate of ENA is the general partner of JEDI. JEDI is 100% owned by Enron and affiliates of ENA. Accordingly, Enron may be deemed to control JEDI, Mariner Energy LLC, Mariner Holdings and us. Additionally, five of the Company's directors are representatives of Enron or affiliates of Enron. Three of the five Enron representative directors are no longer employed by Enron or its affiliates however remain on Mariner's Board. Because of these various potentially conflicting interests, ENA, the Company, JEDI and the minority shareholders of Mariner Energy LLC have entered into an agreement that is intended to make clear that Enron and its affiliates have no duty to make business opportunities available to the Company.

Mariner Energy LLC's only asset is 100% of the common stock of Mariner Holdings, Inc., our direct parent. The only asset of Mariner Holdings is 100% of the common shares of Mariner.

Management cannot predict with certainty what impact Enron's bankruptcy may have on us. However, we do not believe that our assets and liabilities will become part of the Enron estate in bankruptcy. Although JEDI owns 96% of Mariner Energy LLC's common shares, we, as a separate corporation own or lease the assets used in its business and our management, separate from Enron, is responsible for our day-to-day operations. Contractual provisions restrict Enron access to our assets. We maintain our own accounting system as well as separate debt ratings. We maintain our own separate and complete cash management system and finance our operations separately from Enron, on both a short-term and long-term basis. We file a consolidated tax return with Mariner Energy LLC.

Notwithstanding the above, we may have potential exposure to certain liabilities and asset impairments as a result of Enron's bankruptcy. Portions of the following Enron-related disclosures are based on discussions with Enron's legal advisors and management, including members of our Board of Directors.

Edgar Filing: MARINER ENERGY INC - Form 10-Q

Although our management has implemented with Enron's legal advisor and management a systematic method of identifying Enron matters which may have a material impact on us, management cannot provide any assurance as to the completeness or accuracy of the information provided by or on behalf of Enron.

21

ORGANIZATION AND OWNERSHIP OF THE COMPANY - Through March 31, 1996, Hardy Oil & Gas USA Inc. (the "Predecessor Company") was a wholly-owned subsidiary of Hardy Holdings Inc., which is a wholly-owned subsidiary of Hardy Oil & Gas Plc ("Hardy Plc"), a company incorporated in the United Kingdom. Pursuant to a stock purchase agreement dated April 1, 1996, JEDI and ENA, together with members of management of the Predecessor Company, formed Mariner Holdings, Inc. ("Mariner Holdings"). Mariner Holdings then purchased from Hardy Holdings Inc. all of the issued and outstanding stock of the Predecessor Company for a purchase price of approximately \$185.5 million (the "Acquisition"). After the Acquisition, the name of the Predecessor Company was changed to Mariner Energy, Inc. In October 1998, JEDI and other shareholders exchanged all of their common shares of Mariner Holdings, the Company's direct parent, for an equivalent ownership percentage in common shares of Mariner Energy LLC. Mariner Energy LLC owns 100% of Mariner Holdings.

22

Subsequent to the Acquisition, Mariner Energy LLC, Mariner Holdings and Mariner have each entered into various financing and operating transactions with affiliates. In addition, the Company may have from time to time engaged in various commercial transactions and have various commercial relationships with Enron and certain affiliates of Enron, such as holding and exploring, exploiting and developing joint working interests in particular prospects and properties and entering into other oil and gas related or financial transactions. Certain of the Company's third-party debt instruments and arrangements restrict the Company's ability to engage in transactions with its affiliates, but those restrictions are subject to significant exceptions. The Company believes that its current agreements with Enron and its affiliates are, and anticipates that any future agreements with Enron and its affiliates will be, on terms no less favorable to the Company than would be obtained in an agreement with a third party. Below is a summary of key transactions between the Company and affiliate entities.

MARINER ENERGY LLC

ENA Affiliate Term Loan - In March 2000, Mariner Energy LLC established an unsecured term loan with ENA to repay amounts outstanding under various affiliate credit facilities at Mariner Energy LLC and Mariner and to provide additional working capital. The additional working capital of \$55 million was contributed to Mariner in 2000. The loan bears interest at 15%, which interest accrues and is added to the loan principal. Repayment of the balance of loan principal and accrued interest, which was approximately \$172.6 million as of March 31, 2003, is due March 20, 2004. In conjunction with the loan agreement, two five-year warrants were issued to ENA providing the right to purchase up to 900,000 of common shares of Mariner Energy LLC for \$0.01 per share.

Covenants in Mariner's Senior Subordinated Notes restrict the funds of Mariner that can be distributed to Mariner Energy LLC. Accordingly, Mariner Energy LLC is restricted in its ability to repay the unsecured Term Loan or to

Edgar Filing: MARINER ENERGY INC - Form 10-Q

distribute earnings to its shareholders. In the event Mariner Energy LLC is unable to restructure or extend the maturity of its obligations prior to March 2004 it would either default under the Term Loan or be forced to sell its interest in Mariner or cause Mariner to sell a substantial portion of its assets to repay any outstanding Senior Subordinated Notes so that it could distribute any remaining cash proceeds to Mariner Energy LLC to be used to repay the Term Loan.

We have been informed by Enron's legal advisors and management that the Term Loan and warrants were transferred from ENA to an ENA affiliate, which affiliate is part of a finance structure formed by ENA. Because debt obligations of the finance structure are in default and ENA therefore does not have complete control over decisions made by the ENA affiliate, it may be difficult for Mariner Energy LLC to obtain any consents, waivers or amendments needed from the ENA affiliate in connection with the Term Loan or the warrants.

MARINER HOLDINGS, INC.

1998 Equity Investment - In June 1998, Mariner Holdings issued additional equity to its existing shareholders, including JEDI, for approximately \$14.58 per share, for a net investment of \$28.8 million, all of which was contributed to Mariner. Mariner Holdings paid approximately \$1.2 million as a structuring fee, on a pro rata basis, to existing shareholders participating in this transaction. Approximately \$1 million of this fee was paid to ECT Securities Limited Partnership.

23

MARINER ENERGY, INC.

Oil and Gas Production Sales to ENA or Affiliates - During the three years ending December 31, 2002, 2001 and 2000, sales of oil and gas production to ENA or affiliates were \$56.4million, \$50.2 million and \$73.4 million, respectively. These sales were generally made on 1 to 3 month contracts. At the time ENA filed its petition for bankruptcy protection, the Company immediately ceased selling its physical production to ENA, however, we continued to sell our production to Bridgeline in which ENA owned a minority interest. All amounts sold to this entity have been collected. As of March 31, 2003, we had an outstanding receivable for \$3 million from ENA. This amount was not paid as scheduled and is still outstanding. Mariner has submitted a proof of claim to the bankruptcy court for amounts owed to it by ENA. The Company has estimated 100% of this balance is uncollectible and has recorded a full allowance and related expense.

Management Activities - We engage in price risk management activities from time to time. These activities are intended to manage our exposure to fluctuations in commodity prices for natural gas and crude oil. We primarily utilize price swaps and costless collars as a means to manage such risk. Historically, all of our hedging contracts were with ENA. As a result of ENA's bankruptcy, the contracts are currently in default. The November 2001 through April 30, 2002 settlements for oil and gas have not been collected. In addition, on May 14, 2002, we elected under our Master Service Agreement with ENA to terminate all open contracts. The effect of this termination is to fix the nominal value on all remaining contracts on May 14, 2002. Subsequent to this termination, the value of all oil and natural gas unpaid hedge contracts was \$7.7 million. We have estimated 100% of this balance is uncollectible and have recorded a full allowance. We have submitted a proof of claims to the bankruptcy court for amounts owed under this agreement. In accordance with Statement of Financial Accounting Standards ("SFAS") No. 133 "Accounting for Derivative

Edgar Filing: MARINER ENERGY INC - Form 10-Q

Instruments and Hedging Activities," as amended by SFAS No. 137 and No. 138, we have de-designated our contracts effective December 2, 2001 and are recognizing all market value changes subsequent to such de-designation in our earnings. The value recorded up to the time of de-designation and included in Accumulated Other Comprehensive Income ("AOCI"), will reverse out of AOCI and into earnings as the original corresponding production, as hedged by the contracts, is produced. As of March 31, 2003, \$2.1 million remained in AOCI to be reversed out to earnings.

The following table sets forth the results of hedging transactions during the periods indicated that were made with ENA (all amounts shown are non-cash items):

	THREE MONTH ENDING	
	2003	2002
Natural gas quantity hedged (Mmbtu).....	900	4
Increase (decrease) in natural gas sales (thousands).....	\$ 488	\$ (10)
Crude oil quantity hedged (MBbls).....	--	--
Increase (decrease) in crude oil sales (thousands).....	--	--

As a result of the Enron and ENA bankruptcies, among other implications, we may not be able to obtain credit from banks or trade vendors or enter into hedging arrangements on acceptable terms. To date, our operations have not been materially affected by the bankruptcies; however, our ability to enter into certain transactions including purchase or sale arrangements and to conduct significant capital programs may be affected in the future. Oil and gas sales and the related accounts receivable for the three month period ending March 31, 2003 relate to sales made to a minority owned affiliate of Enron.

25

CONTROLLED GROUP LIABILITY

On November 12, 2002, Enron's legal advisors and management informed us that we may be an Enron Corp. Controlled Group Member as defined under the Employee Retirement Income Security Act of 1974 ("ERISA") due to Enron's indirect ownership interest in Mariner Energy LLC. Enron management has not made a final determination if we are in fact a Controlled Group Member. Because of numerous ownership issues within the Enron Group, we are unable to make our own determination as to whether we agree or disagree that we are a Controlled Group Member. In the event we are a Controlled Group Member, we may have potential liability for certain employee benefit plan obligations of Enron discussed below.

Pension Plans - Applicable federal law authorizes the Pension Benefit Guaranty Corporation ("PBGC") to institute proceedings in federal district court for the termination of a pension plan if it determines the plan has failed to comply with minimum funding standards, the plan is or will be unable to pay benefits when due, or the failure to terminate the plan may reasonably be expected to unreasonably increase the possible long-run loss to the PBGC. Federal law also authorizes the sponsor of a pension plan to terminate the plan at a time when the plan is underfunded, subject to PBGC or court approval.

Based on discussions with Enron management, it is our management's understanding that, as of December 31, 2002 the assets of Enron's pension plan (the "Enron Plan") were less than the present value of all accrued benefits by approximately \$52 million on a SFAS No. 87 basis and approximately \$182 million on a plan termination basis. Further, Enron's management has informed Mariner management that the PBGC has filed claims in the Enron bankruptcy cases. The claims are duplicative in nature, representing unliquidated claims for PBGC insurance premiums (the "Premium Claims") and unliquidated claims for due but unpaid minimum funding contributions (the "Contribution Claims") under the Internal Revenue Code of 1986, as amended (the "Tax Code") 29 U.S.C. ss. 412(a) and 1082 and claims for unfunded benefit liabilities (the "UBL" Claims).

Edgar Filing: MARINER ENERGY INC - Form 10-Q

Enron and the relevant sponsors of the defined benefit plans are current on their PBGC premiums and their contributions to the pension plans. Therefore, Enron has valued the Premium Claims and the Contribution Claims at \$0. The total amount of the UBL Claims is \$305.5 million (including \$271 million for the Enron Plan). In addition Enron Management has informed Mariner Management that the PBGC has informally alleged in pleadings filed with the bankruptcy court that the UBL Claim related to the Enron Plan could increase by as much as 100%. PBGC has provided no support (statutory or otherwise) for this assertion and Enron Management disputes the validity of any such claim. Because the Enron Plan is under funded and Enron is in bankruptcy, in certain circumstances the Enron Plan may be terminated and taken control of by the PBGC upon approval of a Federal District Court.

Mariner's employees have not been participants in the Enron Plan. However, upon termination of a pension plan, all of the members of the controlled group of the plan sponsor become jointly and severally liable for the plan are under funding. The PBGC can demand payment from one or more of the members of the controlled group. If payment is not made, a lien in favor of the PBGC automatically arises against all of the assets of that member of the Controlled Group. The amount of the lien is equal to the lesser of the underfunding or 30% of the aggregate net worth of all of the controlled group members. In addition, if the sponsor of a pension plan does not timely satisfy its minimum funding obligation to the pension plan, once the aggregate missed amounts exceed \$1 million, a lien in favor of the plan in the amount of the missed funding automatically arises against the assets of every member of the controlled group. In either case, the PBGC may file to perfect the lien and attempt to enforce it against the assets of members of the Enron Controlled Group. Enron has informed Mariner that Enron's management believes that the lien would be subordinate to prior perfected liens on the assets of the member of the controlled group. Based on discussions with Enron's management, Mariner's management understands that Enron has made all required contributions to date through April 15, 2003. Enron's management has advised Mariner that it intends to make its next contribution due on July 15, 2003.

26

Management cannot predict the outcome of the above matters or estimate any potential loss. In addition, if the PBGC did look solely to Mariner to pay any amount with respect to the Enron Plan, Mariner would exercise all legal rights available to it to defend against such a demand and to recover any contributions from the other solvent members of the Controlled Group. Mariner has established no reserves for any amounts related to this issue.

Mariner has also been informed by Enron management that Enron has contacted the PBGC as well as Unsecured Creditors Committee regarding their intention to terminate the Enron Plan, subject to approval by such parties, the bankruptcy court and authorization to fully fund the Enron Plan in accordance with its terms. If approved Enron would fully fund the Enron Plan in accordance with its terms, and the plan could be terminated without any liability to Mariner. Enron has also stated that it believes it has the necessary funds to consummate such a termination. In addition, to the extent that entities in the Controlled Group are sold prior to termination of the Plan, proceeds of the sale of such entities may be available to satisfy this liability. Enron management has also informed Mariner that the proceeds from such sale of Enron Control Group entities would exceed any plan obligations.

Retiree Health Benefits - Under COBRA, if certain retirees of Enron lose coverage under Enron's group health plan due to Enron's bankruptcy proceedings, they would be entitled to elect continuation of their health

Edgar Filing: MARINER ENERGY INC - Form 10-Q

coverage in a group plan maintained by Enron or a member of its Controlled Group. Mariner's employees have not participated in this plan. Mariner management understands, based on discussions with Enron management, that Enron had provided a plan for retiree health insurance and that the actuarial liability for such coverage was approximately \$112 million as of December 31, 2002. Management further understands that to meet its obligation, Enron, at December 31, 2002, had set aside approximately \$31 million of assets in a VEBA trust, which may be protected under ERISA from Enron's creditors, leaving an unfunded liability of approximately \$86 million.

In the event that Enron terminates its retiree group health plan, the retirees must be provided the opportunity to purchase continuing coverage from Enron's group health plan, if any, or the most appropriate existing group health plan of another member of the Enron Controlled Group. Retirees electing to purchase COBRA coverage would be provided the same coverage that is provided to similarly situated retirees under the appropriate existing plan. Retirees electing to purchase COBRA coverage would be required to pay for the coverage, up to an amount not to exceed 102% of the cost of coverage for similarly situated beneficiaries. Retirees are not required to purchase coverage under COBRA. Retirees may, instead, shop for coverage from third party sources and determine which is the least expensive coverage.

Management cannot predict the outcome of the above matter or estimate any potential loss. However, management believes that in the event Enron terminates coverage, any liability to Mariner associated with the number of retirees that choose to remain under Enron's retiree health plan will not be material. Mariner has established no reserves related to this issue.

SALE OF ENRON INTEREST IN MARINER

On May 3, 2002, Enron presented to its Unsecured Creditors' Committee a proposal under which certain of Enron's core energy assets, including JEDI's ownership of Mariner Energy LLC, would be separated from Enron's bankruptcy estate and operated prospectively as a new integrated power and pipeline company.

On August 27, 2002, Enron announced that it had commenced a formal sales process for its interests in certain major assets, including JEDI's ownership of Mariner Energy LLC. In its announcement, Enron indicated that it was extending invitations to visit electronic data rooms containing information on 12 of its most valuable businesses, including Mariner, to a broad universe of potential bidders with whom Enron had executed confidentiality agreements.

27

Enron has announced its intent to move forward with the sale of four companies, however, it continues to evaluate its alternatives with regard to Mariner. Management is unable to give assurances that the Company will be or not be sold in the near future and there can be no assurance as to whether JEDI's ownership of Mariner Energy LLC will be sold in the future.

Edgar Filing: MARINER ENERGY INC - Form 10-Q

See Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations".

PART 1, ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures. The Company's Chief Executive Officer and Vice President of Finance & Administration have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-14(c) and 15d-14(c) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"). Based on such evaluation, such officers have concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures are effective in alerting them on a timely basis to material information relating to the Company required to be included in the Company's reports filed or submitted under the Exchange Act. Although the Company's Chief Executive Officer and Vice President - Finance & Administration have concluded that the disclosure controls and procedures are effective, disclosures relating to Enron and the effects of its bankruptcy on Mariner were provided by Enron's management and its legal advisors. The Chief Executive Officer and Vice President - Finance & Administration rely on the information they provide for disclosure purposes.

(b) Changes in Internal Controls. Since the Evaluation Date, there have not been any significant changes in the Company's internal controls or in other factors that could significantly affect such controls

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.

29

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) The following exhibits are filed herewith.

- 99.1 Certificate of Chairman of Board and Chief Executive Officer
- 99.2 Certificate of Vice President of Finance and Administration

Edgar Filing: MARINER ENERGY INC - Form 10-Q

(b) The Company filed no Current Reports on Form 8-K during the quarter ended March 31, 2003.

30

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

MARINER ENERGY, INC.

CERTIFICATION OF CHAIRMAN OF THE BOARD / CEO

I, Scott D. Josey, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Mariner Energy, Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;

Edgar Filing: MARINER ENERGY INC - Form 10-Q

- b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this annual report (the "Evaluation Date"); and
- c) presented in this annual report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date.;

5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):

- a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
- b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and

6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
