ITEM 8.01. OTHER EVENTS

Edgar Filing: DIAMOND OFFSHORE DRILLING INC - Form 8-K

On August 30, 2005, Diamond Offshore Drilling, Inc. (the "Company") issued a press release announcing that the jack-up drilling rig Ocean Warwick, which had previously been listed as missing, had been located on Dauphin Island off the coast of Alabama. The press release reported that aerial photos indicate that the rig has sustained significant damage and is aground on the island, and that the Company was working to get personnel to the rig but will not be able to make a complete assessment of the condition of the unit until a crew is able to re-board the rig. Dauphin Island is approximately 66 miles northeast of the rig's work location on Main Pass Block 299 prior to passage of hurricane Katrina. The Warwick is insured for approximately \$50 million net of applicable deductibles. No personnel were on board the rig at the time of the storm.

Filed herewith is a copy of such press release.

Statements in this report that contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, may include, but are not limited to, statements concerning the location of the Company's drilling rigs, related search efforts, insurance, condition and damage assessments, securing the rigs, damages to the Company's drilling rigs and re-boarding the rigs. Forward-looking statements include, without limitation, statements which project, indicate or imply future results and may contain words like "expect," "intend," "plan," "will," "would," "estimated" and "budgeted," among others. Such statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those anticipated or projected. These factors include, among others, potential damage to or loss of equipment and resulting loss of contracted revenue due to hurricane Katrina, as well as general economic and business conditions, changes in oil and natural gas prices, casualty losses, industry fleet capacity, changes in foreign and domestic oil and gas exploration and production activity, competition, changes in foreign, political, social and economic conditions, regulatory initiatives and compliance with governmental regulations, customer preferences and various other matters, many of which are beyond the Company's control. Given these concerns, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of this report. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based. A further discussion of the risk factors that could impact these areas and the Company's overall business and financial performance can be found in the Company's reports and other filings with the Securities and Exchange Commission.
