ENTRX CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

For the Three Months Ended March 31, 2004 and 2003

(Unaudited)

1. The accompanying unaudited consolidated financial statements of Entrx Corporation and its subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and the instructions to Form 10-Q. Accordingly they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America. In the opinion of management all adjustments, consisting of normal recurring items, necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2004 are not necessarily indicative of the results that may be expected for the year ending December 31, 2004. These consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K/A for the year ended December 31, 2003.

2. Certain accounts in the previous quarter s consolidated financial statements have been reclassified for comparative purposes to conform with the current quarter consolidated financial statements. The reclassifications had no effect on net loss or shareholders equity.

3. The loss per share amounts for the three months ended March 31, 2004 and March 31, 2003 were computed by dividing the net loss by the weighted average shares outstanding during the applicable period. Dilutive common equivalent shares have not been included in the computation of diluted loss per share because their inclusion would be antidilutive. Antidilutive common equivalent shares issuable based on future exercise of stock options or warrants could potentially dilute basic and diluted loss per share in subsequent periods.

All stock options and warrants were anti-dilutive as of March 31, 2004 and 2003.

4. The Company classified all equity securities, which are not cash equivalents, as available-for-sale securities. Available-for-sale securities were reported at fair value with all unrealized gains or losses included in other comprehensive income (loss). The fair value of the securities was determined by quoted market prices of the underlying security.

5. On November 4, 2002, the Company entered an agreement whereby it would lend up to \$2.5 million to Zamba Corporation (Zamba) in the form of a collateralized convertible note. The note, when fully funded, was convertible into common stock of Zamba, or at the Company s option, was payable by Zamba in shares of NextNet Wireless, Inc. (NextNet) Series A Preferred Stock owned by Zamba and which collateralized the note. The note was not repayable in cash. The agreement also gave the Company the option to acquire additional shares of NextNet Series A Preferred Stock. The Company had advanced \$1,000,000 on the note as of December 31, 2002. On January 13, 2003, the Company advanced \$100,000, and on February 17, 2003, advanced an additional \$650,000 on the note. On February 17, 2003, the Company amended its agreement with Zamba whereby the total amount the Company would lend to Zamba was reduced to \$1,750,000, the provision allowing the Company to convert the loan into Zamba s common stock was removed, and the option the Company had to purchase an additional 750,000 shares of NextNet Series A Preferred Stock from Zamba was also removed. The note matured on March 31, 2003 and the note plus interest receivable was then converted into 415,340 shares of NextNet Series A Preferred Stock. Each share of the NextNet Series A Preferred Stock was convertible into three shares of NextNet common stock.

On February 23, 2004, the Company was notified of a proposed merger between NextNet and a recently formed privately owned company (the Acquirer), to which the Company gave its consent. The Acquirer has experience in the

wireless communication industry. Under the terms of the merger, the Company will receive warrants to purchase 290,738 shares of the class A common stock of the Acquirer in exchange for the 415,340 shares of Series A Preferred Stock that it owns of NextNet. The warrants the Company will receive from the Acquirer will have an exercise price of \$4.00 per share, are immediately exercisable and have a term which terminates after the earlier of six years or upon the occurrence of certain events which gives the holders of the warrant liquidity with respect to the underlying common stock. The Company has been informed that the merger was completed on March 16, 2004. Based upon the foregoing, the Company determined that there had been an other-than-temporary decline in the fair value of its investment below the cost and recorded an impairment charge of \$1,000,000 for the year ended December 31, 2003. The Company valued the warrants received using the Black-Scholes pricing model using 113% as the volatility, 1.24% as the risk free interest rate, an expected life of six years and no expected dividends. The Company has not obtained, and will not obtain, an independent appraisal of the value of the warrants.

Table of Contents

6. In accordance with Accounting Principles Board (APB) Opinion No. 25 and related interpretations, the Company uses the intrinsic value-based method for measuring stock-based compensation cost which measures compensation cost as the excess, if any, of the quoted market price of the Company's common stock at the grant date over the amount the employee must pay for the stock. The Company's general policy is to grant stock options and warrants at fair value at the date of grant. Options and warrants issued to nonemployees are recorded at fair value, as required by SFAS No. 123 Accounting for Stock Based Compensation, using the Black-Scholes pricing model.

The Company applies APB No. 25 and related interpretations in accounting for its stock options and warrants. Accordingly, \$0 and \$87,429 compensation cost has been recognized in the accompanying consolidated statements of operations for the three months ended March 31, 2004 and 2003, respectively. Had compensation costs for the Company's stock options and warrants been determined based on the fair value at the grant dates consistent with the method of SFAS No. 123, the Company's net loss and loss per share would have been changed to the approximate pro forma amounts indicated below:

	For the Three Months Ended March 31,	
	2004	2003
	<hr/>	<hr/>
Net loss:		
As reported	\$(307,087)	\$(1,118,410)
Pro forma	(366,387)	(1,181,824)
Basic and diluted net loss per share		
As reported	\$ (0.04)	\$ (0.15)
Pro forma	(0.05)	(0.16)
Stock-based compensation		
As reported	\$	\$ 87,429
Pro forma	59,300	63,414

The following significant assumptions were utilized to calculate the fair value information for options issued during the three months ended March 31, 2004 and 2003 presented utilizing the Black-Scholes pricing model:

	For the Three Months Ended March 31,	
	2004	2003
	<hr/>	<hr/>
Risk Free interest rate	N/A	N/A
Expected life	N/A	N/A
Expected volatility	N/A	N/A
Expected dividends	N/A	N/A

7. Supplemental disclosures of cash flow information:

Cash paid for interest was \$73,833 and \$38,029 for the three months ended March 31, 2004 and 2003, respectively.

Disclosure of non-cash investing and financing activities:

Non-cash items related to a note receivable and interest receivable converted into investment in unconsolidated affiliates was \$1,756,889 for the three months ended March 31, 2003.

Non-cash items related to treasury stock and accrued expenses was \$94,119 for the three months ended March 31, 2003.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation**

All statements, other than statements of historical fact, included in this Form 10-Q, including without limitation the statements under Management's Discussion and Analysis of Financial Condition and Results of Operations are, or may be deemed to be, forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements involve assumptions, known and unknown risks, uncertainties, and other factors which may cause the actual results, performance or achievements of Entrx Corporation (the Company) to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements contained in this Form 10-Q. Such potential risks and uncertainties include, without limitation; the outcome of existing litigation; competitive pricing and other pressures from other businesses in the Company's markets; adequacy of insurance, including the adequacy of insurance to cover potential future asbestos-related injury claims; economic conditions generally and in the Company's primary markets; availability of capital; the adequacy of the Company's cash and cash equivalents; cost of labor; and other risk factors detailed herein and in other of the Company's filings with the Securities and Exchange Commission. The forward-looking statements are made as of the date of this Form 10-Q and the Company assumes no obligation to update the forward-looking statements or to update the reasons actual results could differ from those projected in such forward-looking statements. Therefore, readers are cautioned not to place undue reliance on these forward-looking statements.

References to we, us, our, the registrant and the Company in this quarterly report on form 10Q shall mean Entrx Corporation and its consolidated subsidiary, Metalclad Insulation Corporation, unless the context in which those words are used would indicate a different meaning.

Results of Operations: Three Months Ended March 31, 2004 and 2003

General. The Company provides insulation and asbestos abatement services, primarily on the West Coast. Through our wholly-owned subsidiary Metalclad Insulation Corporation, we provide these services to a wide range of industrial, commercial and public agency clients. Insulation services include the installation of high- and low-temperature insulation on pipe, ducts, furnaces, boilers, and other types of industrial equipment and commercial applications. Asbestos abatement services include removal and disposal of asbestos-containing products in similar applications. We fabricate specialty items for the insulation industry, and sell insulation material and accessories incident to our services business to our customers as well as to other contractors. A diverse list of clientele includes refineries, utilities, chemical/petrochemical plants, manufacturing facilities, commercial properties, office buildings and various governmental facilities.

Summary

Our revenues remained flat for the three months ended March 31, 2004 as compared to the three months ended March 31, 2003. The gross margin percentage increased from (1.7)% to 14.7% mainly due to unanticipated costs on certain fixed bid projects during the three months ended March 31, 2003. We anticipate that the gross margin percentage for 2004 will approximate the gross margin percentage for the three months ended March 31, 2004.

We had a net loss of \$307,000 for the three months ended March 31, 2004 as compared to a net loss of \$1,118,000 for the three months ended March 31, 2003. Included in the loss for the three months ended March 31, 2003 is \$186,000 of expense related to an increase in the allowance on an officer's receivable. While we expect an improvement in our overall operating results, we still project an operating loss for 2004.

We currently have an investment in two privately-held companies, totaling \$1,757,000, both of which are in the early stages of their business development. One of these privately held companies was part of a merger in 2003, as

discussed under the heading "Liquidity and Capital Resources", which caused us to recognize a \$1,000,000 other-than-temporary decline in the value of our investment in that company below the cost of such investment. Either or both of these investments could be further impaired in the future.

Our subsidiary, Metalclad Insulation Corporation, continues to be engaged in lawsuits involving asbestos-related injury or potential injury claims. The 337 claims made in 2003 were down from the 685 and 583 claims made in 2001 and 2002 respectively, although the average severity of each claim has slightly increased. These claims are currently defended and covered by insurance. We have projected that we have

Table of Contents

sufficient insurance to provide coverage for the next four to five years. This projection assumes that there is not a significant increase in the annual number of new claims and that the severity of each claim does not increase significantly. The projection also assumes that the insurance companies live up to what we believe their obligation to continue to cover our exposure with regards to these claims. Whether we will be able to continue in business when our insurance coverage runs out is subject to a significant number of variables, which are impossible to predict. In addition, we paid approximately \$175,000 in 2003 in legal fees to assess and monitor the asbestos-related claims, and to assess and monitor our insurance coverage and insurance company activities involving the defense and payment of these claims. We anticipate that this cost will continue.

Revenue

Revenue for the three months ended March 31, 2004, was \$3,893,000, a slight decrease as compared to \$3,902,000 for the comparable period ended March 31, 2003.

Cost of Revenue and Gross Margin

Cost of revenue was \$3,319,000 for the three months ended March 31, 2004 as compared to \$3,970,000 for the three months ended March 31, 2003, a decrease of 16.4%. The gross margin percentage was approximately 14.7% for the three months ended March 31, 2004 as compared to (1.7)% for the three months ended March 31, 2003. The negative gross margin in the three months ended March 31, 2003 and the decrease in the cost of revenues for the three months ended March 31, 2004 as compared to the three months ended March 31, 2003 was primarily due to unanticipated costs on certain fixed bid projects during the three months ended March 31, 2003.

Selling, General and Administrative

Selling, general and administrative expenses for the three months ended March 31, 2004 were \$806,000 as compared to \$857,000 for the comparable period ended March 31, 2003, a decrease of 5.9%. The decrease for the three months ended March 31, 2004 as compared to the three months ended March 31, 2003, was primarily due to a decrease in board fees, recruiting costs, and insurance expense, partially offset by an increase in legal fees. We do not anticipate any material difference in selling, general and administrative expenses in 2004 as compared with 2003.

Other Expense

For the three months ended March 31, 2003, we recorded an increase in the allowance of \$186,000 related to a non-recourse loan to a corporate officer. The Company adjusted the carrying value of the note to the market value of the 500,000 shares of our common stock and 250,000 shares of Chiral Quest, Inc. (OTCBB: CQST) held as collateral as of March 31, 2003.

In November 2003, the Board of Directors of the Company renegotiated the loan to the corporate officer discussed above. The loan is now with full recourse to the officer and as such the Company no longer adjusts the carrying value of the note to the market value of the collateral held.

Interest Income and Expense

Net interest expense for the three months ended March 31, 2004 was \$81,000 as compared to net interest income of \$7,000 for the three months ended March 31, 2003. The change was due to an increase in interest expense for the three months ended March 31, 2004 as compared to the three months ended March 31, 2003, primarily due to the outstanding convertible note payable. There was also a decrease in interest income during the three months ended March 31, 2004, primarily due to a lower interest rate on the officer's receivable as compared to the prior year.

Net Loss

We experienced a net loss of \$307,000 (or a loss of \$0.04 per share) for the three months ended March 31, 2004, as compared to a net loss of \$1,118,000 (or a loss of \$0.15 per share) for the three months ended March 31, 2003. The net loss for the three months ended March 31, 2003 includes an increase in allowance on officer's receivable of \$186,000.

Table of Contents**Liquidity and Capital Resources**

As of March 31, 2004, we had \$818,000 in cash and cash equivalents and \$297,000 in available-for-sale securities. The Company had working capital of \$1,143,000 as of March 31, 2004. Our subsidiary, Metalclad Insulation Corporation, has a line of credit with Far East National Bank, Los Angeles, California. The line of credit agreement with Far East National Bank matures on October 28, 2004, and bears interest at a floating rate based upon the bank's prime rate plus 1%. Borrowings under the agreement are limited to \$1,000,000 plus the amount of cash collateral posted, up to \$500,000, in the form of certificate of deposit at the bank. At March 31, 2004, we had a balance of \$1,000,000 outstanding on this line of credit.

Cash used in operations was \$806,000 for the three months ended March 31, 2004 compared with cash provided by operations of \$1,584,000 for the three months ended March 31, 2003. For the three months ended March 31, 2004 the negative cash flow from operations was primarily the result of funding our operating losses and an increase in accounts receivable, partially offset by an increase in accounts payable and accrued expenses. For the three months ended March 31, 2003 the positive cash flow from operations was primarily the result of previously restricted cash becoming unrestricted, an increase in accounts payable and accrued expenses and a decrease in costs and estimated earnings in excess of billings on uncompleted contracts. These sources were partially offset by uses related to funding our operating losses and an increase in accounts receivable.

Net investing activities provided \$39,000 and used \$529,000 of cash in the three months ended March 31, 2004 and 2003, respectively. In the three months ended March 31, 2004, cash was primarily provided by interest on officer's receivable and proceeds from sales of assets. For both the three months ended March 31, 2004 and 2003, we used cash for capital expenditures, primarily at our subsidiary, Metalclad Insulation Corporation. In the three months ended March 31, 2003, we converted a note receivable from Zamba Corporation into shares of Nextnet Wireless, Inc Series A Preferred Stock. We generated cash by selling available-for-sale securities in the three months ended March 31, 2003.

Cash used in financing activities totaled \$58,000 for the three months ended March 31, 2004 compared with cash provided by financing activities of \$660,000 for the comparable period in 2003. During the three months ended March 31, 2004, we used cash for payments on long-term debt, mortgage payable and our capital lease obligation. Purchases of treasury stock used \$64,000 of cash during the three months ended March 31, 2003. Payments on long-term borrowings used \$42,000 and \$31,000 of cash in the three months ended March 31, 2004 and 2003, respectively. Proceeds from long-term debt provided \$24,000 of cash during the three months ended March 31, 2003. During the three months ended March 31, 2003, we obtained a loan that provided \$750,000 of cash.

On November 4, 2002, we entered an agreement whereby we would lend up to \$2.5 million to Zamba Corporation (Zamba) in the form of a collateralized convertible note. The note, when fully funded, was convertible into common stock of Zamba, or at the Company's option, was payable by Zamba in shares of NextNet Wireless, Inc. (NextNet) Series A Preferred Stock owned by Zamba and which collateralized the note. The note was not repayable in cash. The agreement also gave us the option to acquire additional shares of NextNet Series A Preferred Stock. We had advanced \$1,000,000 on the note as of December 31, 2002. On January 13, 2003, we advanced \$100,000, and on February 17, 2003, advanced an additional \$650,000 on the note. On February 17, 2003, we amended the agreement with Zamba whereby the total amount we would lend to Zamba was reduced to \$1,750,000. In connection with this amendment, provisions allowing us to convert the loan into Zamba's common stock and our option to purchase an additional 750,000 shares of NextNet Series A Preferred Stock from Zamba were removed. The loan was not repayable in cash, but was repayable through conversion into shares of Zamba's NextNet Series A Preferred Stock. The note matured on March 31, 2003, and was then converted into 415,340 shares of NextNet Series A Preferred Stock. Each share of NextNet Series A Preferred Stock was convertible into three shares of NextNet common stock.

On February 23, 2004, we were notified of a proposed merger between NextNet and a recently formed privately owned company (the Acquirer), to which we gave our consent. The Acquirer has experience in the wireless communication industry. Under the terms of the merger, we will receive warrants to purchase 290,738 shares of the class A common stock of the Acquirer in exchange for the 415,340 shares of Series A Preferred Stock that it owns of NextNet. The warrants we will receive from the Acquirer will have an exercise price of \$4.00 per share, are immediately exercisable and have a term which terminates after the earlier of six years or upon the occurrence of certain events which gives the holders of the warrant liquidity with respect to the underlying common stock. We have been informed that the merger was completed on March 16, 2004. Based upon the foregoing, we determined that there had been an other-than-temporary decline in the fair value

Table of Contents

of its investment below the cost and recorded an impairment charge of \$1,000,000 for the year ended December 31, 2003. We valued the warrants received using the Black-Scholes pricing model using 113% as the volatility, 1.24% as the risk free interest rate, an expected life of six years and no expected dividends. We have not obtained, and will not obtain, an independent appraisal of the value of the warrants.

Prior to 1975, we were engaged in the sale and installation of asbestos related insulation materials, and has been the subject of numerous claims of personal injury allegedly related to asbestos exposure. Many of these claims are now being brought by the children and close relatives of persons who have died, allegedly as a result of the direct or indirect exposure to asbestos.

The number of asbestos related claims which have been initiated naming us (primarily Metalclad Insulation Corporation) as a defendant had increased from 254 in 1999 to 527 in 2000 and 685 in 2001. The number of claim initiated slightly decreased to 583 in 2002, and further decreased to 337 in 2003. As of December 31, 2003, there were approximately 1,212 asbestos cases pending, of which approximately 390 have been settled but not yet closed for lack of final documentation or payment. At December 31, 2000, 2001 and 2002, there were, respectively, approximately 860, 1,450 and 1,635 cases pending. It had been previously improperly reported in the Company's Forms 10K for the period ended on December 31, 2002, filed with the Securities and Exchange Commission, that there were approximately 660 cases pending at December 31, 2002, and 700 cases pending at the end of 2001. Although, the number of claims made in 2002 and 2003 reflected a downward trend from 2001, and the number of cases pending on December 31, 2003, dropped from those pending on December 31, 2002, it cannot be assumed that this trend will continue. The sympathies of juries, the aggressiveness of the plaintiff's bar, and the declining defendant base as a result of business failures, has also led to a trend of larger payments and settlements per claim.

It is difficult to determine if we have adequate insurance to cover these claims. The terms of such insurance policies are complex, and the coverage for many types of claims is limited. If the current trend of the claim occurrence and amounts is not significantly reversed, it will likely have a material adverse effect on our financial condition and business in the future. Because of our insurance coverage, we do not anticipate any adverse effect on our financial condition to develop for at least the next four to five years. Beyond that, however, the effect of those claims is uncertain.

In 2003, the United States Congress considered legislation to create a privately funded, publicly administered fund to provide the necessary resources for an asbestos injury claims resolution program. The latest draft of the legislation calls for the fund to be funded 50% by asbestos defendant companies, of which the Company is one, and 50% by insurance companies. The impact, if any, this potential legislation will have on us cannot be determined at this time.

The Company projects that its subsidiary, Metalclad Insulation Corporation, will be able to generate sufficient cash flows through operations to meet its cash requirements for at least the next twelve months. The Company currently has enough cash to meet its cash needs over the next six months, and will need to obtain additional cash to meet its needs beyond that period, either through additional debt financing or the sale of some of its investments. The Company is not certain that cash will be available from either of these sources. If the Company is required to obtain additional financing or sell any of its investments, it may not be on terms or at a price which is favorable to the Company.

Critical Accounting Policies and Estimates

Our significant accounting policies are described in Note 1 to the consolidated financial statements included in our annual report for the year ended December 31, 2003. The accounting policies used in preparing our interim 2004 consolidated condensed financial statements are the same as those described in our annual report.

Our critical accounting policies are those both having the most impact to the reporting of our financial condition and results, and requiring significant judgments and estimates. Our critical accounting policies include those related to (a) revenue recognition, (b) investments in unconsolidated affiliates and (c) allowance for uncollectible accounts receivable. Revenue recognition for fixed price insulation installation and asbestos abatement contracts are accounted for by the percentage-of-completion method, wherein costs and estimated earnings are included in revenues as the work is performed. If a loss on a fixed price contract is indicated, the entire amount of the estimated loss is accrued when known. We have made investments in privately-held companies, which can still be considered to be in the startup or development stages. The investments at less than 20% of ownership are initially recorded at cost and the carrying value is evaluated quarterly. We monitor these

Table of Contents

investments for impairment and make appropriate reductions in carrying values if we determine an impairment charge is required based primarily on the financial condition and near-term prospects of these companies. These investments are inherently risky, as the markets for the technologies or products these companies are developing are typically in the early stages and may never materialize. Accounts receivable are reduced by an allowance for amounts that may become uncollectible in the future. The estimated allowance for uncollectible amounts is based primarily on our evaluation of the financial condition of the customer. Future changes in the financial condition of a customer may require an adjustment to the allowance for uncollectible accounts receivable.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The fair value of our investments in available-for-sale securities at March 31, 2004 was approximately \$297,000. The Company's investment policy is to manage its available-for-sale securities portfolio to preserve principal and liquidity while maximizing the return on the investment portfolio. The principal available-for-sale securities are shares of Chiral Quest, Inc. stock (OTCBB CQST). Specific changes in the value of the common stock of Chiral Quest, Inc. will affect the fair value of the available-for-sale securities portfolio; however, such gains or losses would not be realized unless the investments were sold.

Our long-term debt, note payable, and mortgage payable are subject to interest rate risk since the interest rate is not a fixed rate. We do not expect any fluctuations in the interest rates to have a material effect on our consolidated financial position or results of operations.

Item 4. Controls and Procedures

We carried out an evaluation, with the participation of our chief executive and chief financial officers, of the effectiveness, as of March 31, 2004, of our disclosure controls and procedures (as defined in Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934). Based upon that evaluation, made at the end of the period, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective in alerting them on a timely basis to material information required to be disclosed in our periodic reports to the Securities and Exchange Commission, and that there has been no significant change in such internal control, or other factors which could significantly affect such controls including any corrective actions with regard to significant deficiencies or material weaknesses, since our evaluation.

Management is aware that there is a lack of segregation of duties due to the small number of employees dealing with general administrative and financial matters. However, management has determined that considering the employees involved and the control procedures in place, risks associated with such lack of segregation are insignificant and the potential benefits of adding employees to clearly segregate duties does not justify the expenses associated with such increases.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Asbestos Related Claims

Prior to 1975, we were engaged in the sale and installation of asbestos related insulation materials, and have been the subject of numerous claims of personal injury allegedly related to asbestos exposure. Many of these claims are now being brought by the children and close relatives of persons who have died, allegedly as a result of the direct or indirect exposure to asbestos.

The number of asbestos related claims which have been initiated naming us (primarily our subsidiary, Metalclad Insulation Corporation) as a defendant had increased from 254 in 1999, 527 in 2000 to 685 in 2001. The number of claims initiated slightly decreased to 583 in 2002, and further decreased to 337 in 2003. As of December 31, 2003, there were approximately 1,212 asbestos cases pending, of which approximately 390 have been settled but not yet closed for lack of final documentation or payment. At December 31, 2000, 2001 and 2002, there were, respectively, approximately 860, 1,450 and 1,635 cases pending. It had been previously improperly reported in the Company's Forms 10K for

Table of Contents

the period ended December 31, 2002, filed with the Securities and Exchange Commission, that there were approximately 660 cases pending at December 31, 2002, and 700 cases pending at the end of 2001. Although, the number of claims made in 2002 and 2003 reflected a downward trend from 2001, and the number of cases pending on December 31, 2003, dropped from those pending on December 31, 2002, it cannot be assumed that this trend will continue. The sympathies of juries, the aggressiveness of the plaintiff's bar, and the declining defendant base as a result of business failures, has also led to a trend of larger payments and settlements per claim.

In the past we believed that we had adequate insurance to cover these claims; however, the terms of such insurance policies are complex and the coverage for many types of claims is limited. If the current trend of the claim occurrence and amounts is not significantly reversed, it will likely have a material adverse effect on our financial condition and business in the future. Because of our insurance coverage, we do not anticipate any adverse effect on our financial condition to develop for at least the next four to five years. Beyond that, however, the effect of those claims is uncertain.

In 2003 the United States Congress considered legislation to create a privately funded, publicly administered fund to provide the necessary resources for an asbestos injury claims resolution program. The latest draft of the legislation called for the fund to be funded 50% by asbestos defendant companies, of which the Company is one, and 50% by insurance companies. The impact, if any, this potential legislation will have on us cannot be determined at this time.

Claim Against Former Employee, Etc.

In October 1999, we completed the sale of our operating businesses and development project located in Aguascalientes, Mexico. That sale specifically excluded those Mexican assets involved in the Company's NAFTA claim which was settled in 2001. Under the terms of the sale we received an initial cash payment of \$125,000 and recorded a receivable for \$779,000. On November 13, 2000, the Company filed a complaint in the Superior Court of California against a former employee, the U.S. parent of the buyer and its representative for breach of contract, fraud, collusion and other causes of action in connection with this sale seeking damages in the form of a monetary award. An arbitration hearing was held in September, 2002 in Mexico City, as requested by one of the defendants. This arbitration hearing was solely to determine the validity of the assignment of the purchase and sale agreement by the buyer to a company formed by the former employee defendant. The Superior Court action against the U.S. parent was stayed pending the Mexican arbitration. On April 8, 2003, the arbitrator ruled that the assignment was inexistent, due to the absence of our consent. In June 2003, the Court of Appeal for the State of California ruled that the U.S. parent was also entitled to compel a Mexican arbitration of the claims raised in our complaint. We are now prepared to pursue our claim in an arbitration proceeding for the aforementioned damages. No assurances can be given on the outcome. We have fully reserved for the \$779,000 note receivable, which was recorded at the date of sale.

In a related action, a default was entered against us in December, 2002, in favor of the same former employee referred to in the foregoing paragraph by the Mexican Federal Labor Arbitration Board, for an unspecified amount. The former employee was seeking in excess of \$9,000,000 in damages as a result of his termination as an employee. The default was obtained without the proper notice being given to us, and was set aside in the quarter ended June 30, 2003. Most of the evidentiary hearings on the merits of the former employee's claim have taken place and we are preparing for final arguments. We believe this claim is without merit and intend to vigorously defend against it.

Claim by Former Attorney

On February 5, 2003, a Notice of Involuntary Lien was filed against the Company with the County Recorder for Orange County California in the amount of \$104,046. This lien relates to a judgment against the Company for attorney fees in the Company's NAFTA settlement. The total amount of the claim including interest and collection costs is \$111,406. Subsequent to the lien being filed, \$27,050 was paid to the lien holder from a trust fund established

by the Company and a third party to pay for any judgments and defense costs related to this lawsuit. The Company agreed to pay the remaining \$84,356 of the claim in three installments. At December 31, 2003, the Company has paid the judgment in full.

The Company has been indemnified by the third party against any judgments and costs related to this lawsuit in excess of the trust fund and has contacted the third party seeking indemnification. The third party has refused to honor its indemnification obligation and the Company has therefore initiated legal proceedings against the third party. The third party has filed a cross-complaint against the Company seeking \$100,000 due to undue influence, duress, fraud, unconscionability and conspiracy related to the original indemnification agreement. The Company believes the cross-complaint is without merit.
