Report of Independent Registered Public Accounting Firm

The 401(k) Committee of
Rockland Trust Company
Employee Savings and Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of Rockland Trust Company Employee Savings and Profit Sharing Plan (the Plan) as of December 31, 2004 and 2003 and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements and the schedule referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003 and the changes in its net assets available for benefits for the year ended December 31, 2004 in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**ROCKLAND TRUST COMPANY
EMPLOYEE SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

December 31, 2004 and 2003

(1) Description of the Plan

The following description of the Rockland Trust Company (Company) Employee Savings and Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan that is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was created on September 9, 1971 and restated effective January 1, 1989. Effective January 1, 1994, the Plan was amended to include provisions of the Internal Revenue Code (IRC) Section 401(k) and the Tax Reform Act of 1986. Other subsequent amendments have also been made to the Plan. The Plan covers employees of the Company who meet specified eligibility requirements. Scudder Investments is the custodian and trustee of the Plan. A new plan document was also adopted effective August 1, 1999.

(b) Eligibility

An employee becomes a participant in the Plan upon date of employment. However, completion of one year of service (1,000 or more hours of service during the plan year) is needed before eligibility to share in the Company's contribution to the Plan. In order to share in the Company's contribution to the Plan for any year, a participant must:

1. Have worked 1,000 or more hours during the year.
2. Be employed by the Company on the last business day of the year. However, those participants whose employment terminated during the year because of retirement under the Company's retirement plan or because of disability, death or for any reason after the attainment of age 65 shall share in the Company's contribution.

(c) Contributions

Each year, employees who participate in the Plan may contribute up to 15% of their salary (6% as a basic elective deferral and 9% as a supplementary elective deferral), on a pretax basis, and up to an additional 10% of their salary on an after-tax basis. For the year 2004, IRS contribution limit was \$13,000 with a \$3,000 catch-up provision for participants age 55 or above. Effective May 6, 2004, the Company amended the Plan to not match pre-tax contributions of a participant's basic elective deferral. Effective January 1, 2005, the Company amended the plan again to reinstate the Company's match of pre-tax contributions equal to 25% of a participant's basic elective deferral. The Company may also make discretionary profit sharing contributions. No such discretionary contributions were made in 2004 and 2003.

A discretionary contribution of \$250,000 in total was made on January 27, 2005 to employees who met the eligibility requirements for the Company's contribution to the plan for the 2004 plan year.

(d) Benefits and Vesting

Participants are immediately 100% vested in all contributions plus actual earnings thereon upon eligibility.

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's interest in his or her account. The form of payment is a lump-sum distribution (rollover treatment, if eligible), a stream of payments to be paid in monthly installments over a 10- to 15-year period, or installment payments in a fixed amount.

(e) Participant's Accounts

Each participant's account is credited with the participant's contribution and allocations of (i) the Company's contribution and (ii) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Investment Options

Participants are offered 13 investment portfolios into which they can direct their contributions.

Employer matching contributions are allocated among options in the same percentages as the employee contributions. A description of each investment option is provided below:

(c) *Use of Estimates*

Actual results could differ from those estimates.

(d) *Investment Valuation and Income Recognition*

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.
