PART I

ITEM 1. BUSINESS

The Company

Century Bancorp, Inc. (together with its bank subsidiary, unless the context otherwise requires, the Company) is a Massachusetts state chartered bank holding company headquartered in Medford, Massachusetts. The Company is a Massachusetts corporation formed in 1972 and has one banking subsidiary (the Bank): Century Bank and Trust Company, formed in 1969. The Company had total assets of approximately \$1.7 billion on December 31, 2007. The Company presently operates 21 banking offices in 16 cities and towns in Massachusetts ranging from Braintree in the south to Beverly in the north. The Bank s customers consist primarily of small and medium-sized businesses and retail customers in these communities and surrounding areas, as well as local governments and institutions throughout Massachusetts.

The Company s results of operations are largely dependent on net interest income, which is the difference between the interest earned on loans and securities and interest paid on deposits and borrowings. The results of operations are also affected by the level of income/fees from loans, deposits, as well as operating expenses, the provision for loan losses, the impact of federal and state income taxes and the relative levels of interest rates and economic activity.

The Company offers a wide range of services to commercial enterprises, state and local governments and agencies, non-profit organizations and individuals. It emphasizes service to small and medium-sized businesses and retail customers in its market area. The Company makes commercial loans, real estate and construction loans, consumer loans, and accepts savings, time and demand deposits. In addition, the Company offers to its corporate and institutional customers automated lockbox collection services, cash management services and account reconciliation services, and actively promotes the marketing of these services to the municipal market. Also, the Company provides full service securities brokerage services through a program called Investment Services at Century Bank supported by Linsco/Private Ledger Corp., a full service securities brokerage business.

The Company is also a provider of financial services, including cash management, transaction processing and short term financing, to municipalities in Massachusetts and Rhode Island. The Company has deposit relationships with approximately 39% of the 351 cities and towns in Massachusetts.

During the fourth quarter of 2007, the Company sold the assets associated with the Sherman Union branch located on Commonwealth Avenue in Boston, Massachusetts as well as Automated Teller Machines (ATM) located at or near Boston University. The buyer assumed the leases for the branch and ATMs. The deposits associated with the Sherman Union branch were transferred to Century s Hotel Commonwealth branch located at 512 Commonwealth Avenue in Boston, Massachusetts. This resulted in a gain of \$115,000.

During 2007, the Company entered into a lease agreement to open a branch located on Riverside Avenue in Medford, Massachusetts. The branch is scheduled to open during the second quarter of 2008.

On August 17, 2007, the Company sold the building which houses one of its branches located at 55 High Street, Medford, Massachusetts for \$1.5 million at market terms. The Bank is relocating this branch to 1 Salem Street (formerly 3 Salem Street), Medford, Massachusetts. This resulted in a gain of \$1,321,000.

On February 7, 2006 the Company announced that it had renewed its contract with NOVA Information Systems, a wholly owned subsidiary of U.S. Bancorp, and had also sold its rights to future royalty payments for a portion of its Merchant Credit Card customer base for \$600,000, which the Bank has included as other income.

Availability of Company Filings

Under the Securities Exchange Act of 1934, Sections 13 and 15(d), periodic and current reports must be filed with the Securities and Exchange Commission (the SEC). The public may read and copy any materials filed with the SEC at the SEC s Public Reference Room at 100 F Street, NE, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0030. The Company electronically files with the SEC its periodic and current reports, as well as other filings it makes with the SEC from

1

Table of Contents

time to time. The SEC maintains an Internet site that contains reports and other information regarding issuers, including the Company, that file electronically with the SEC, at www.sec.gov, in which all forms filed electronically may be accessed. Additionally, our annual report on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and additional shareholder information are available free of charge on the Company s website: www.century-bank.com.

Employees

As of December 31, 2007, the Company had 278 full-time and 95 part-time employees. The Company s employees are not represented by any collective bargaining unit. The Company believes that its employee relations are good.

Financial Services Modernization

On November 12, 1999, President Clinton signed into law The Gramm-Leach-Bliley Act (Gramm-Leach) which significantly altered banking laws in the United States. Gramm Leach enables combinations among banks, securities firms and insurance companies beginning March 11, 2000. As a result of Gramm Leach, many of the depression-era laws that restricted these affiliations and other activities that may be engaged in by banks and bank holding companies were repealed. Under Gramm-Leach, bank holding companies are permitted to offer their customers virtually any type of financial service that is financial in nature or incidental thereto, including banking, securities underwriting, insurance (both underwriting and agency) and merchant banking.

In order to engage in these financial activities, a bank holding company must qualify and register with the Federal Reserve Board as a financial holding company by demonstrating that each of its bank subsidiaries is well capitalized, well managed, and has at least a satisfactory rating under the Community Reinvestment Act of 1977 (the CRA). The Company has not elected to become a financial holding company under Gramm-Leach.

These new financial activities authorized by Gramm-Leach may also be engaged in by a financial subsidiary of a national or state bank, except for insurance or annuity underwriting, insurance company portfolio investments, real estate investment and development and merchant banking, which must be conducted in a financial holding company. In order for the new financial activities to be engaged in by a financial subsidiary of a national or state bank, Gramm-Leach requires each of the parent bank (and any bank affiliates) to be well capitalized and well managed; the aggregate consolidated assets of all of that bank s financial subsidiaries may not exceed the lesser of 45% of its consolidated total assets or \$50 billion; the bank must have at least a satisfactory CRA rating; and, if the bank is one of the 100 largest banks, it must meet certain financial rating or other comparable requirements.

Gramm-Leach establishes a system of functional regulation, under which the federal banking agencies will regulate the banking activities of financial holding companies and banks financial subsidiaries, the SEC will regulate their securities activities, and state insurance regulators will regulate their insurance activities. Gramm-Leach also provides new protections against the transfer and use by financial institutions of consumers nonpublic, personal information.

Holding Company Regulation

The Company is a bank holding company as defined by the Bank Holding Company Act of 1956, as amended (the Holding Company Act), and is registered as such with the Board of Governors of the Federal Reserve Bank (the FRB), which is responsible for administration of the Holding Company Act. Although the Company may meet the qualifications for electing to become a financial holding company under Gramm-Leach, the Company has elected to retain its pre-Gramm-Leach status for the present time under the Holding Company Act. As required by the Holding Company Act, the Company files with the FRB an annual report regarding its financial condition and operations, management and intercompany relationships of the Company and the Bank. It is also subject to examination by the

FRB and must obtain FRB approval before (i) acquiring direct or indirect ownership or control of more than 5% of the voting stock of any bank, unless it already owns or controls a majority of the voting stock of that bank, (ii) acquiring all or substantially all of the assets of a bank, except through a subsidiary which is a bank, or (iii) merging or consolidating with any other bank holding company. A bank holding company must also give the FRB prior written notice before purchasing or redeeming its equity securities, if the gross consideration for the

2

Table of Contents

purchase or redemption, when aggregated with the net consideration paid by the company for all such purchases or redemptions during the preceding 12 months, is equal to 10% or more of the Company s consolidated net worth.

The Holding Company Act prohibits a bank holding company, with certain exceptions, from (i) acquiring direct or indirect ownership or control of more than 5% of any class of voting shares of any company which is not a bank or a bank holding company, or (ii) engaging in any activity other than managing or controlling banks, or furnishing services to or performing services for its subsidiaries. A bank holding company may own, however, shares of a company engaged in activities which the FRB has determined are so closely related to banking or managing or controlling banks as to be a proper incident thereto.

The Company and its subsidiaries are examined by federal and state regulators. The FRB has responsibility for holding company activities and performed a review of the Company and its subsidiaries as of November 2006.

Federal Deposit Insurance Corporation Improvement Act of 1991

On December 19, 1991, the FDIC Improvement Act of 1991 (the 1991 Act) was enacted. This legislation provides for, among other things: enhanced federal supervision of depository institutions, including greater authority for the appointment of a conservator or receiver for undercapitalized institutions; the establishment of risk-based deposit insurance premiums; a requirement that the federal banking agencies amend their risk-based capital requirements to include components for interest-rate risk, concentration of credit risk, and the risk of nontraditional activities; expanded authority for cross-industry mergers and acquisitions; mandated consumer protection disclosures with respect to deposit accounts; and imposed restrictions on the activities of state-chartered banks, including the Bank.

Provisions of the 1991 Act relating to the activities of state-chartered banks significantly impact the way the Company conducts its business. In this regard, the 1991 Act provides that insured state banks, such as the Bank, may not engage as principal in any activity that is not permissible for a national bank, unless the FDIC has determined that the activity would pose no significant risk to the Bank Insurance Fund (BIF) and the state bank is in compliance with applicable capital standards. Activities of subsidiaries of insured state banks are similarly restricted to those activities permissible for subsidiaries of national banks, unless the FDIC has determined that the activity would pose no significant risk to the BIF and the state bank is in compliance with applicable capital standards.

Interstate Banking

The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994, as amended (the Interstate Banking Act), generally permits bank holding companies to acquire banks in any state and preempts all state laws restricting the ownership by a bank holding company of banks in more than one state. The Interstate Banking Act also permits a bank to merge with an out-of-state bank and convert any offices into branches of the resulting bank if both states have not opted out of interstate branching; permits a bank to acquire branches from an out-of-state bank if the law of the state where the branches are located permits the interstate branch acquisition; and operated de novo interstate branches whenever the host state opts-in to de novo branching. Bank holding companies and banks seeking to engage in transactions authorized by the Interstate Banking Act must be adequately capitalized and managed.

USA PATRIOT Act

Under Title III of the USA PATRIOT Act, also known as the International Money Laundering Abatement and Anti-Terrorism Act of 2001 , all financial institutions are required in general to identify their customers, adopt formal and comprehensive anti-money laundering programs, scrutinize or prohibit altogether certain transactions of special concern, and be prepared to respond to inquiries from U.S. law enforcement agencies concerning their customers and their transactions. Additional information-sharing among financial institutions, regulators, and law enforcement

authorities is encouraged by the presence of an exemption from the privacy provisions of the Gramm-Leach Act for financial institutions that comply with this provision and the authorization of the Secretary of the Treasurer to adopt rules to further encourage cooperation and information-sharing. The effectiveness of a financial

3

Table of Contents

institution in combating money laundering activities is a factor to be considered in any application submitted by the financial institution under the Bank Merger Act.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act, signed into law July 30, 2002, addresses, among other issues, corporate governance, auditor independence and accounting standards, executive compensation, insider loans, whistleblower protection and enhanced and timely disclosure of corporate information. The SEC has adopted a substantial number of implementing rules and the Financial Industry Regulatory Authority(FINRA) has adopted corporate governance rules that have been approved by the SEC and are applicable to the Company. The changes are intended to allow stockholders to monitor more effectively the performance of companies and management. As directed by Section 302(a) of the Sarbanes-Oxley Act, the Company s Co-Chief Executive Officers and Chief Financial Officer are each required to certify that the Company s quarterly and annual reports do not contain any untrue statement of a material fact. This requirement has several parts, including certification that these officers are responsible for establishing, maintaining and regularly evaluating the effectiveness of the Company s disclosure controls and procedures and internal controls over financial reporting; that they have made certain disclosures to the Company s auditors and the Board of Directors about the Company s disclosure controls and procedures and internal control over financial reporting, and that they have included information in the Company s quarterly and annual reports about their evaluation of the Company s disclosure controls and procedures and internal control over financial reporting, and whether there have been significant changes in the Company s internal disclosure controls and procedures or in other factors that could significantly affect such controls and procedures subsequent to the evaluation and whether there have been any significant changes in the Company s internal control over financial reporting that have materially affected or reasonably likely to materially affect the Company s internal control over financial reporting, and compliance with certain other disclosure objectives. Section 906 of the Sarbanes-Oxley Act requires an additional certification that each periodic report containing financial statements fully complies with the requirements of Section 13(a) and 15(d) of the Securities Exchange Act of 1934 and that the information in the report fairly presents, in all material respects, the financial conditions and results of operations of the Company.

Deposit Insurance Premiums

Effective January 1, 2007, the FDIC approved new deposit insurance assessment rates that were determined based upon a contribution of financial ratios and supervisory factors. There are four established risk categories under the new assessment rules. The Bank s Risk Category I assessment rate is 5.4 basis points of the deposit assessment base, as defined by the FDIC. The Federal Deposit Insurance Reform Act of 2005 allows eligible insured depository institutions to share in a one-time assessment credit pool of approximately \$4.7 billion, effectively reducing the amount these institutions will be required to submit as an overall assessment. The Bank s one-time assessment credit was \$848,301. At December 31, 2007, the credit balance was \$365,161.

Competition

The Company experiences substantial competition in attracting deposits and making loans from commercial banks, thrift institutions and other enterprises such as insurance companies and mutual funds. These competitors include several major commercial banks whose greater resources may afford them a competitive advantage by enabling them to maintain numerous branch offices and mount extensive advertising campaigns. A number of these competitors are not subject to the regulatory oversight that the Company is subject to, which increases these competitors flexibility.

Forward-Looking Statements

Certain statements contained herein are not based on historical facts and are forward-looking statements within the meaning of Section 21A of the Securities Exchange Act of 1934. Forward-looking statements, which are based on various assumptions (some of which are beyond the Company s control), may be identified by a reference to a future period or periods, or by the use of forward-looking terminology, such as may, will, believe, expect, estimate, anticipate continue or similar terms or variations on those terms, or the negative of these terms. Actual results could differ materially from those set forth in forward-looking statements due to a variety of

4

Table of Contents

factors, including, but not limited to, those related to the economic environment, particularly in the market areas in which the Company operates, competitive products and pricing, fiscal and monetary policies of the U.S. Government, changes in government regulations affecting financial institutions, including regulatory fees and capital requirements, changes in prevailing interest rates, acquisitions and the integration of acquired businesses, credit risk management, asset/liability management, the financial and securities market and the availability of and costs associated with sources of liquidity.

The Company does not undertake, and specifically disclaims any obligation, to publicly release the result of any revisions which may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

ITEM 1A. RISK FACTORS

The risk factors that may affect the Company s performance and results of operations include the following:

- (i) the Company s business is dependent upon general economic conditions in Massachusetts;
- (ii) the Company s earnings depend to a great extent upon the level of net interest income generated by the Company, and therefore the Company s results of operations may be adversely affected by increases or decreases in interest rates or by the shape of the yield curve;
- (iii) the banking business is highly competitive and the profitability of the Company depends upon the Company s ability to attract loans and deposits in Massachusetts, where the Company competes with a variety of traditional banking companies, some of which have vastly greater resources, and nontraditional institutions such as credit unions and finance companies;
- (iv) at December 31, 2007, approximately 57.5% of the Company s loan portfolio was comprised of commercial and commercial real estate loans, exposing the Company to the risks inherent in financings based upon analyses of credit risk, the value of underlying collateral, including real estate, and other more intangible factors, which are considered in making commercial loans;
- (v) at December 31, 2007, approximately 31.0% of the Company s loan portfolio was comprised of residential real estate loans, exposing the Company to the risks inherent in financings based upon analyses of credit risk and the value of underlying collateral. Accordingly, the Company profitability may be negatively impacted by errors in risk analyses, by loan defaults and the ability of certain borrowers to repay such loans may be adversely affected by any downturn in general economic conditions;
- (vi) acts or threats of terrorism and actions taken by the United States or other governments as a result of such acts or threats, including possible military action, could further adversely affect business and economic conditions in the United States of America generally and in the Company s markets, which could adversely affect the Company s financial performance and that of the Company s borrowers and on the financial markets and the price of the Company s Class A common stock;
- (vii) changes in the extensive laws, regulations and policies governing bank holding companies and their subsidiaries could alter the Company s business environment or affect the Company s operations; and
- (viii) the potential need to adapt to industry changes in information technology systems, on which the Company is highly dependent to secure bank and customer financial information, could present operational issues, require significant capital spending or impact the Company s reputation.

These factors, as well as general economic and market conditions in the United States of America, may materially and adversely affect the Company s performance, results of operations and the market price of shares of the Company s Class A common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

No written comments received by the Company from the SEC regarding the Company s periodic or current reports remain unresolved.

5

Table of Contents

ITEM 2. PROPERTIES

The Company owns its main banking office, headquarters, and operations center in Medford, Massachusetts, which were expanded in 2004, and 11 of the 20 other facilities in which its branch offices are located. The remaining offices are occupied under leases expiring on various dates from 2008 to 2026. The Company believes that its banking offices are in good condition.

During 2007, the Company entered into a lease agreement to open a branch located on Riverside Avenue in Medford, Massachusetts. The branch is scheduled to open during the second quarter of 2008.

On August 17, 2007, the Company sold the building which houses one of its branches located at 55 High Street, Medford, Massachusetts for \$1.5 million at market terms. The Bank is relocating this branch to 1 Salem Street (formerly 3 Salem Street), Medford, Massachusetts. This resulted in a gain of \$1,321,000.

ITEM 3. LEGAL PROCEEDINGS

The Company and its subsidiaries are parties to various claims and lawsuits arising in the course of their normal business activities. Although the ultimate outcome of these suits cannot be ascertained at this time, it is the opinion of management that none of these matters, even if it resolved adversely to the Company, will have a material adverse effect on the Company s consolidated financial position.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the Company s Stockholders during the fourth quarter of the fiscal year ended December 31, 2007.

6

Table of Contents

PART II

ITEM 5. MARKET FOR REGISTRANT S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

(a) The Class A Common Stock of the Company is traded on the NASDAQ National Global Market under the symbol CNBKA. The price range of the Company s Class A common stock since January 1, 2006 is shown on page 9. The Company s Class B Common Stock is not traded on any national securities exchange or other public trading market. The Company did not repurchase any stock during 2007.

The shares of Class A Common Stock are generally not entitled to vote on any matter, including in the election of Company Directors, but, in limited circumstances, may be entitled to vote as a class on certain extraordinary transactions, including any merger or consolidation (other than one in which the Company is the surviving corporation or one which by law may be approved by the directors without any stockholder vote) or the sale, lease, or exchange of all or substantially all of the property and assets of the Company. Since the vote of a majority of the shares of the Company s Class B Common Stock, voting as a separate class, is required to approve certain extraordinary corporate transactions, the holders of Class B Common Stock have the power to prevent any takeover of the Company not approved by them.

(b) Approximate number of equity security holders as of December 31, 2007:

Title of Class	Approximate Numbe of Record Holders
Class A Common Stock	1,300
Class B Common Stock	100

(c) Under the Company s Articles of Organization, the holders of Class A Common Stock are entitled to receive dividends per share equal to at least 200% of dividends paid, if any, from time to time, on each share of Class B Common Stock.

The following table shows the dividends paid by the Company on the Class A and Class B Common Stock for the periods indicated.

		ends per hare		
	Class A	Class B		
2006				
First quarter	\$.12	\$.06		
Second quarter	.12	.06		
Third quarter	.12	.06		
Fourth quarter 2007	.12	.06		

First quarter	\$.12	\$.06
Second quarter	.12	.06
Third quarter	.12	.06
Fourth quarter	.12	.06

As a bank holding company, the Company s ability to pay dividends is dependent in part upon the receipt of dividends from the Bank, which is subject to certain restrictions on the payment of dividends. A Massachusetts trust company may pay dividends out of net profits from time to time, provided that either (i) the trust company s capital stock and surplus account equal an aggregate of at least 10% of its deposit liabilities, or (ii) the amount of its surplus account is equal to at least the amount of its capital account.

7

Table of Contents

(d) The following schedule provides information with respect to the Company s equity compensation plans under which shares of Class A Common Stock are authorized for issuance as of December 31, 2007:

Plan Category	Number of Shares to be Issued Upon Exercise of Outstanding Options (a)	Exe	ghted-Average rcise Price of outstanding Options (b)	Number of Shares Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Shares Reflected in Column (a)) (c)
Equity compensation plans approved by security holders Equity compensation plans not approved by security holders	97,487	\$	27.66	176,759
Total	97,487	\$	27.66	176,759

⁽e) The performance graph information required herein is shown on page 10.

ITEM 6. SELECTED FINANCIAL DATA

The information required herein is shown on pages 9 and 10.

ITEM 7. MANAGEMENT S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The information required herein is shown on pages 11 through 29.

ITEM 7a. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The information required herein is shown on pages 26 and 27.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The information required herein is shown on pages 30 through 60.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

The Company s principal executive officers and principal financial officer have evaluated the Company s disclosure controls and procedures as of December 31, 2007. Based on this evaluation, the principal executive officers and principal financial officer have concluded that the Company s disclosure controls and procedures effectively ensure that information required to be disclosed in the Company s filings and submissions with the Securities and Exchange Commission under the Exchange Act is accumulated and reported to Company management (including the principal executive officer and principal financial officer) and is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission. In addition, the Company has reviewed its internal control over financial reporting and there have been no significant changes in its internal control over financial reporting. Management s report on internal control over financial reporting is shown on page 63. The audit report of the registered public accounting firm is shown on page 62.

Table of Contents

The stock performance graph below compares the cumulative total shareholder return of the Company s Common Stock from December 31, 2002 to December 31, 2007 with the cumulative total return of the NASDAQ Market Index (U.S. Companies) and the NASDAQ Bank Stock index. The lines in the table below represent monthly index levels derived from compounded daily returns that include all dividends. If the monthly interval, based on the fiscal year-end, was not a trading day, the preceding trading day was used.

Management s Discussion and Analysis of Results of Operations and Financial Condition

FORWARD-LOOKING STATEMENTS

Certain statements contained herein are not based on historical facts and are forward-looking statements within the meaning of Section 21A of the Securities Exchange Act of 1934. Forward-looking statements, which are based on various assumptions (some of which are beyond the Company s control), may be identified by reference to a future period or periods, or by the use of forward-looking terminology, such as may, will, believe, expect, estimate, anticipate, continue or similar terms or variations on those terms, or the negative of these terms. Actual results could differ materially from those set forth in forward-looking statements due to a variety of factors, including, but not limited to, those related to the economic environment, particularly in the market areas in which the Company operates, competitive products and pricing, fiscal and monetary polices of the U.S. Government, changes in government regulations affecting financial institutions, including regulatory fees and capital requirements, changes in prevailing interest rates, acquisitions and the integration of acquired businesses, credit risk management, asset/liability management, the financial and securities markets and the availability of and costs associated with sources of liquidity.

The Company does not undertake, and specifically disclaims any obligation, to publicly release the result of any revisions which may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

OVERVIEW

Century Bancorp, Inc. (together with its bank subsidiary, unless the context otherwise requires, the Company) is a Massachusetts state chartered bank holding company headquartered in Medford, Massachusetts. The Company is a Massachusetts corporation formed in 1972 and has one banking subsidiary (the Bank): Century Bank and Trust Company formed in 1969. The Company had total assets of \$1.7 billion at December 31, 2007. The Company presently operates 21 banking offices in 16 cities and towns in Massachusetts ranging from Braintree in the south to Beverly in the north. The Bank s customers consist primarily of small and medium-sized businesses and retail customers in these communities and surrounding areas, as well as local governments and institutions throughout Massachusetts.

The Company s results of operations are largely dependent on net interest income, which is the difference between the interest earned on loans and securities and interest paid on deposits and borrowings. The results of operations are also affected by the level of income/fees from loans, deposits, as well as operating expenses, the provision for loan losses, the impact of federal and state income taxes and the relative levels of interest rates and economic activity.

The Company offers a wide range of services to commercial enterprises, state and local governments and agencies, non-profit organizations and individuals. It emphasizes service to small and medium-sized businesses and retail customers in its market area. The Company makes commercial loans, real estate and construction loans, and consumer loans, and accepts savings, time and demand deposits. In addition, the Company offers to its corporate and institutional customers automated lockbox collection services, cash management services and account reconciliation services, and actively promotes the marketing of these services to the municipal market. Also, the Company provides full service securities brokerage services through a program called Investment Services at Century Bank supported by Linsco/Private Ledger Corp., a full service securities brokerage business.

The Company is also a provider of financial services including cash management, transaction processing and short-term financing, to municipalities in Massachusetts and Rhode Island. The Company has deposit relationships with approximately 39% of the 351 cities and towns in Massachusetts.

The Company had net income of \$7,864,000 for the year ended December 31, 2007, compared with net income of \$4,688,000 for the year ended December 31, 2006 and net income of \$6,880,000 for the year ended December 31, 2005. Basic earnings per share were \$1.42 in 2007, compared to \$0.85 in 2006 and \$1.24 in 2005. Diluted earnings per share were \$1.42 in 2007, compared to \$0.84 in 2006 and \$1.24 in 2005. Included in income for 2007 is \$1,321,000 pre-tax gain on the sale of the building that houses the Company s Medford Square branch. Included in

11

Table of Contents

income for 2006 is a pre-tax gain of \$600,000 from the sale of the Company s rights to future royalty payments for a portion of its Merchant Credit Card customer base.

Throughout 2007, the Company has seen improvement in its net interest margin as illustrated in the graph below:

Net Interest Margin

The primary factors accounting for the increase in net interest margin are:

A continuing decline in the cost of funds as a result of increased pricing discipline related to deposits,

An increase in the loan yield due to an increase in prepayment fees, particularly in the second quarter of 2007, and

The maturity of lower-yielding investment securities.

While management will continue its efforts to improve the net interest margin, there can be no assurance that certain factors beyond its control, such as prepayments of loans and changes in market interest rates, will continue to positively impact the net interest margin.

In addition, a great deal of emphasis has been placed on cost control during 2007 as demonstrated by the increase of 0.1% in operating expenses for the year ended December 31, 2007.

12

Table of Contents

Historical U.S. Treasury Yield Curve

A yield curve is a line that typically plots the interest rates of U.S. Treasury Debt, which have different maturity dates, but the same credit quality, at a specific point in time. The three main types of yield curve shapes are normal, inverted and flat. During 2005 and 2006, the U.S. economy experienced a flattening and subsequent inversion of the yield curve, which means that the spread between the long-term and short-term yields has decreased or inverted. During 2007, rates have fallen and the yield curve has steepened somewhat. This has positively impacted the net interest margin. During 2006 the Company s earnings were negatively impacted primarily by a decrease in net interest income. This decrease was primarily due to the inverted yield curve during 2006 as well as increased funding costs.

Total assets were \$1,680,281,000 at December 31, 2007, an increase of 2.2% from total assets of \$1,644,290,000 on December 31, 2006.

On December 31, 2007, stockholders equity totaled \$118,806,000, compared with \$106,818,000 on December 31, 2006. Book value per share increased to \$21.43 at December 31, 2007 from \$19.28 on December 31, 2006.

During the fourth quarter of 2007, the Company sold the assets associated with the Sherman Union branch located on Commonwealth Avenue in Boston, Massachusetts as well as Automated Teller Machines (ATMs) located at or near Boston University. The buyer assumed the leases for the branch and ATMs. The deposits associated with the Sherman Union branch were transferred to Century s Hotel Commonwealth branch located at 512 Commonwealth Avenue in Boston, Massachusetts. This resulted in a gain of \$115,000.

During 2007, the Company entered into a lease agreement to open a branch located on Riverside Avenue in Medford, Massachusetts. The branch is scheduled to open during the second quarter of 2008.

On August 17, 2007, the Company sold the building which houses one of its branches located at 55 High Street, Medford, Massachusetts for \$1.5 million at market terms. The Bank is relocating this branch to 1 Salem Street (formerly 3 Salem Street), Medford, Massachusetts. This sale resulted in a gain of \$1,321,000.

On February 7, 2006, the Company announced that it had renewed its contract with NOVA Information Systems, a wholly owned subsidiary of U.S. Bancorp, and had also sold its rights to future royalty payments for a portion of its Merchant Credit Card customer base for \$600,000, which the Bank has included as other income.

CRITICAL ACCOUNTING POLICIES

Accounting policies involving significant judgments and assumptions by management, which have, or could have, a material impact on the carrying value of certain assets and impact income, are considered critical accounting policies.

13

Table of Contents

The Company considers the following to be its critical accounting policies: allowance for loan losses and impairment of investment securities. There have been no significant changes in the methods or assumptions used in the accounting policies that require material estimates and assumptions.

Allowance for Loan Losses

Arriving at an appropriate level of allowance for loan losses necessarily involves a high degree of judgment. Management maintains an allowance for loan losses to absorb losses inherent in the loan portfolio. The allowance is based on assessments of the probable estimated losses inherent in the loan portfolio. Management s methodology for assessing the appropriateness of the allowance consists of several key elements, which include the formula allowance and specific allowances for identified problem loans.

The formula allowance evaluates groups of loans to determine the allocation appropriate within each portfolio segment. Individual loans within the commercial and industrial, commercial real estate and real estate construction loan portfolio segments are assigned internal risk ratings to group them with other loans possessing similar risk characteristics. Changes in risk grades affect the amount of the formula allowance. Risk grades are determined by reviewing current collateral value, financial information, cash flow, payment history and other relevant facts surrounding the particular credit. Provisions for losses on the remaining commercial and commercial real estate loans are based on pools of similar loans using a combination of historical loss experience and qualitative adjustments. For the residential real estate and consumer loan portfolios, the reserves are calculated by applying historical charge-off and recovery experience and qualitative adjustments to the current outstanding balance in each loan category. Loss factors are based on the Company s historical loss experience, as well as regulatory guidelines.

Specific allowances for loan losses entails the assignment of allowance amounts to individual loans on the basis of loan impairment. Certain loans are evaluated individually and are judged to be impaired when management believes it is probable that the Company will not collect all the contractual interest and principle payments as scheduled in the loan agreement. Under this method, loans are selected for evaluation based upon a change in internal risk rating, occurrence of delinquency, loan classification or non-accrual status. A specific allowance amount is allocated to an individual loan when such loan has been deemed impaired and when the amount of a probable loss is able to be estimated on the basis of: (a.) present value of anticipated future cash flows, (b.) the loan s observable fair market price or (c.) fair value of collateral, if the loan is collateral dependent.

The formula allowance and specific allowances also include management s evaluation of various conditions, including business and economic conditions, delinquency trends, charge-off experience and other quality factors.

Management has identified certain risk factors, which could impact the degree of loss sustained within the portfolio. These include: (a.) market risk factors, such as the effects of economic variability on the entire portfolio, and (b.) unique portfolio risk factors that are inherent characteristics of the Company s loan portfolio. Market risk factors may consist of changes to general economic and business conditions that may impact the Company s loan portfolio customer base in terms of ability to repay and that may result in changes in value of underlying collateral. Unique portfolio risk factors may include industry concentrations and geographic concentrations or trends that may exacerbate losses resulting from economic events which the Company may not be able to fully diversify out of its portfolio.

Management believes that the allowance for loan losses is adequate. In addition, various regulatory agencies, as part of the examination process, periodically review the Company s allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance based on their judgments about information available to them at the time of their examination.

Impaired Investment Securities

If a decline in fair value below the amortized cost basis of an investment security is judged to be other-than-temporary, the cost basis of the investment is written down to fair value. The amount of the write-down is included as a charge to earnings. An other-than-temporary impairment exists for debt securities if it is probable that the Company will be unable to collect all amounts due according to contractual terms of the security. Some factors considered for other-than-temporary impairment related to a debt security include an

14

Table of Contents

analysis of yield which results in a decrease in expected cash flows, whether an unrealized loss is issuer specific, whether the issuer has defaulted on scheduled interest and principal payments, whether the issuer s current financial condition hinder its ability to make future scheduled interest and principal payments on a timely basis or whether there was downgrade in ratings by rating agencies.

The Company has the ability and intent to hold all securities with an unrealized loss until recovery of fair value, which may be maturity.

FINANCIAL CONDITION

Investment Securities

The Company s securities portfolio consists of securities available-for-sale and securities held-to-maturity.

Securities available-for-sale consist of certain U.S. Treasury and U.S. Government Sponsored Enterprises, mortgage-backed securities, state, county, municipal securities, foreign debt securities, other marketable equities and Federal Home Loan Bank (FHLB) stock.

These securities are carried at fair value and unrealized gains and losses, net of applicable income taxes, are recognized as a separate component of stockholders—equity. The fair value of securities available-for-sale at December 31, 2007 totaled \$403,635,000 and include gross unrealized gains of \$1,728,000 and gross unrealized losses of \$2,077,000. A year earlier, securities available-for-sale were \$415,481,000 including gross unrealized gains of \$221,000 and unrealized losses of \$8,447,000. In 2007, the Company recognized gross gains of \$153,000 on the sale of one stock. In 2006, the Company recognized no net gains or losses on the sale of available-for-sale securities.

Securities which management intends to hold until maturity consist of U.S. Government Sponsored Enterprises and mortgage-backed securities. Securities held-to-maturity as of December 31, 2007 are carried at their amortized cost of \$183,710,000 and exclude gross unrealized gains of \$131,000 and gross unrealized losses of \$2,137,000. A year earlier, securities held-to-maturity totaled \$265,712,000 excluding gross unrealized gains of \$76,000 and gross unrealized losses of \$7,368,000.

The following table sets forth the fair value and percentage distribution of securities available-for-sale at the dates indicated.

Fair Value of Securities Available-for-Sale

		200	7	200	6		200	5

At December 31, 2007 and 2006, the Bank had no investments in obligations of individual states, counties, municipalities or nongovernment corporate entities which exceeded 10% of stockholders equity. In addition, there were no sales of state, county or municipal securities in 2007 or 2006. One equity security was sold during 2007 with gross proceeds of \$336,000 resulting in a gain of \$153,000.

Loans

The Company s lending activities are conducted principally in Massachusetts. The Company grants single and multi-family residential loans, commercial and commercial real estate loans, and a variety of consumer loans. To a lesser extent, the Company grants loans for the construction of residential homes, multi-family properties, commercial real estate properties, and land development. Most loans granted by the Company are secured by real estate collateral. The ability and willingness of commercial real estate, commercial, construction, residential and consumer loan borrowers to honor their repayment commitments is generally dependent on the health of the real estate market in the borrowers geographic areas and the general economy.

The following summary shows the composition of the loan portfolio at the dates indicated.

At December 31, 2007, 2006, 2005, 2004 and 2003 loans were carried net of discounts of \$3,000, \$3,000, \$4,000, \$20,000 and \$138,000, respectively. Net deferred loan fees of \$38,000, \$183,000, \$482,000, \$485,000 and \$389,000 were carried in 2007, 2006, 2005, 2004 and 2003, respectively.

17

Table of Contents

The following table summarizes the remaining maturity distribution of certain components of the Company s loan portfolio on December 31, 2007. The table excludes loans secured by 1-4 family residential real estate and loans for household and family personal expenditures. Maturities are presented as if scheduled principal amortization payments are due on the last contractual payment date.

Remaining Maturities of Selected Loans at December 31, 2007

	One Year or Less			Over Five Years thousands)		Total	
Construction and land development	\$ 41,025	\$	14,865	\$	6,522	\$	62,412
Commercial and industrial	67,572		40,194		9,566		117,332

Total	\$ 139,070	\$	173,167	\$	167,427	\$	479,664

The following table indicates the rate variability of the above loans due after one year.

December 31, 2007	One to Five Years (Do		 Over ive Years s in thousar	Total		
Predetermined interest rates	\$	94,598	\$ 30,294	\$	124,892	
Floating or adjustable interest rates		78,569	137,133		215,702	
Total	\$	173,167	\$ 167,427	\$	340,594	

The Company s commercial and industrial (C&I) loan customers represent various small and middle market established businesses involved in manufacturing, distribution, retailing and services. Most clients are privately owned with markets that range from local to national in scope. Many of the loans to this segment are secured by liens on corporate assets and the personal guarantees of the principals. The regional economic strength or weakness impacts the relative risks in this loan category. There is little concentration to any one business sector and loan risks are generally diversified among many borrowers.

Commercial real estate loans are extended to finance various manufacturing, warehouse, light industrial, office, retail and residential properties in the Bank s market area, which generally includes Eastern Massachusetts and Southern New Hampshire. Loans are normally extended in amounts up to a maximum of 80% of appraised value and normally for terms between three to five years. Amortization schedules are long-term and thus a balloon payment is due at maturity. Under most circumstances, the Bank will offer to re-write or otherwise extend the loan at prevailing interest rates. During recent years, the Bank has emphasized non-residential type owner-occupied properties. This complements our C&I emphasis placed on the operating business entities and will continue. The regional economic environment affects the risk of both non-residential and residential mortgages.

Residential real estate (1-4 family) includes two categories of loans. Included in residential real estate are approximately \$9,503,000 of C&I type loans secured by 1-4 family real estate. Primarily, these are small businesses with modest capital or shorter operating histories where the collateral mitigates some risk. This category of loans shares similar risk characteristics with the C&I loans, notwithstanding the collateral position.

The other category of residential real estate loans are mostly 1-4 family residential properties located in the Bank s market area. General underwriting criteria are largely the same as those used by Federal National Mortgage Association (Fannie Mae) but normally only one or three year adjustable interest rates are used. The Bank utilizes mortgage insurance to provide lower down payment products and has provided a First Time Homebuyer product to encourage new home ownership. Residential real estate loan volume has increased and remains a core consumer product. The economic environment impacts the risks associated with this category.

Home equity loans are extended as both first and second mortgages on owner-occupied residential properties in the Bank s market area. Loans are underwritten to a maximum loan to property value of 75%.

18

Table of Contents

The Bank intends to maintain a market for construction loans, principally for smaller local residential projects or an owner-occupied commercial project. Individual consumer residential home construction loans are also extended on a similar basis.

Bank officers evaluate the feasibility of construction projects, based on independent appraisals of the project, architects or engineers evaluations of the cost of construction, and other relevant data. As of December 31, 2007, the Company was obligated to advance a total of \$27,294,000 to complete projects under construction.

The composition of nonperforming assets is as follows:

December 31,	2007	2006 (Dolla	2005 ars in thousa	2004 ands)	2003
Total nonperforming loans/loans on non-accrual Other real estate owned	\$ 1,312 452	\$ 135	\$ 949	\$ 628	\$ 1,175
Total nonperforming assets	\$ 1,764	\$ 135	\$ 949	\$ 628	\$ 1,175
Restructured loans Loans past due 90 and still accruing Nonperforming loans as a percent of gross loans	\$ 122 0.18%	\$ 789 0.02%	\$ 0.14%	\$ 160 0.11%	\$ 0.23%
Nonperforming assets as a percent of total assets	0.10%	0.01%	0.05%	0.03%	0.07%

The composition of impaired loans at December 31, is as follows:

	2007	2006	2005	2004	2003
Residential real estate, multi-family Construction and land development	\$	\$	\$ 675	\$ 512	\$ 541
Commercial and industrial	196	16	211	452	1,077
Total impaired loans	\$ 196	\$ 16	\$ 886	\$ 964	\$ 1,618

At December 31, 2007, impaired loans of \$75,000 had specific reserves of \$75,000. There were no impaired loans with specific reserves from December 31, 2003 through December 31, 2006.

The Company was servicing mortgage loans sold to others without recourse of approximately \$559,000, \$798,000, \$1,078,000, \$1,538,000 and \$2,397,000 at December 31, 2007, 2006, 2005, 2004 and 2003, respectively. Additionally, the Company services mortgage loans sold to others with limited recourse. The outstanding balance of these loans with limited recourse was approximately \$65,000, \$72,000, \$80,000, \$86,000 and \$183,000 at December 31, 2007, 2006, 2005, 2004 and 2003, respectively.

Directors and officers of the Company and their associates are customers of, and have other transactions with, the Company in the normal course of business. All loans and commitments included in such transactions were made on

substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and do not involve more than normal risk of collection or present other unfavorable features.

Loans are placed on non-accrual status when any payment of principal and/or interest is 90 days or more past due, unless the collateral is sufficient to cover both principal and interest and the loan is in the process of collection. The Company monitors closely the performance of its loan portfolio. In addition to internal loan review, the Company has contracted with an independent organization to review the Company s commercial and commercial real estate loan portfolios. This independent review was performed in each of the past five years. The status of delinquent loans, as well as situations identified as potential problems, are reviewed on a regular basis by senior management and monthly by the Board of Directors of the Bank.

Non-accrual loans increased from 2006 to 2007 primarily as a result of three consumer mortgages totaling \$938,000. The relatively low level of nonperforming assets of \$135,000 in 2006 and \$949,000 in 2005 resulted from fewer additions to nonperforming assets during the year combined with an improvement in the resolution of nonperforming assets including payments on nonperforming loans.

19

Table of Contents

In addition to the above, the Company continues to monitor closely \$14,117,000 and \$20,779,000 at December 31, 2007 and 2006, respectively, of potential problem loans for which management has concerns regarding the ability of the borrowers to perform. The majority of the loans are secured by real estate and are considered to have adequate collateral value to cover the loan balances at December 31, 2007, although such values can fluctuate with changes in the economy and the real estate market.

Allowance for Loan Losses

The Company maintains an allowance for loan losses in an amount determined by management on the basis of the character of the loans, loan performance, the financial condition of borrowers, the value of collateral securing loans and other relevant factors. The following table summarizes the changes in the Company s allowance for loan losses for the years indicated.

Year Ended December 31,	2007 2006 2005 (Dollars in thousands)							2004	2003
Year-end loans outstanding (net of unearned discount and deferred loan fees)	\$	726,251	\$	736,773	\$	689,645	\$	580,003	\$ 512,314
Average loans outstanding (net of unearned discount and deferred loan fees)	\$	725,903	\$	723,825	\$	641,103	\$	546,147	\$ 500,723
Balance of allowance for loan losses at the beginning of year	\$	9,713	\$	9,340	\$	9,001	\$	8,769	\$ 8,506
Loans charged-off: Commercial Residential real estate		1,828		386		366		1 194	240
Consumer		311		322		324		113	125
Total loans charged-off		2,139		708		690		308	365
Recovery of loans previously charged-off:									
Commercial		268		96		75		117	127
Real estate		149		49		235		103	29
Consumer		142		112		119		20	22
Total recoveries of loans previously									
charged-off:		559		256		429		240	178
Net loan charge-offs Additions to allowance charged to		1,580		452		261		68	187
operating expense		1,500		825		600		300	450
Balance at end of year	\$	9,633	\$	9,713	\$	9,340	\$	9,001	\$ 8,769

Ratio of net charge-offs during the year to average loans outstanding	0.22%	0.06%	0.04%	0.01%	0.04%
Ratio of allowance for loan losses to loans outstanding	1.33%	1.32%	1.35%	1.55%	1.71%

These provisions are the result of management s evaluation of the quality of the loan portfolio considering such factors as loan status, collateral values, financial condition of the borrower, the state of the economy and other relevant information. The pace of the charge-offs depends on many factors including the national and regional economy. Cyclical lagging factors may result in charge-offs being higher than historical levels. Charge-offs increased during 2007 due to an increase in commercial loan charge-offs.

20

Table of Contents

The allowance for loan losses is an estimate of the amount needed for an adequate reserve to absorb losses in the existing loan portfolio. This amount is determined by an evaluation of the loan portfolio including input from an independent organization engaged to review selected larger loans, a review of loan experience and current economic conditions. Although the allowance is allocated between categories the entire allowance is available to absorb losses attributable to all loan categories. At December 31, of each year listed below, the allowance was comprised of the following:

		20	007		20	06		20	05	2004			2003		
	A	20 mount	Percent of Loans in Each Category to Total Loans	A	20 mount	Percent of Loans in Each Category to Total Loans		Amount	Percent of Loans in Each Category to Total Loans	A	20 mount	Percent of Loans in Each Category to Total Loans	A	20 mount	Percent of Loans in Each Category to Total Loans
						(D	ollars in	thousands)						
Construction and land development	\$	592	8.6%	\$	849	6.8%		\$ 1,014	8.5%	\$	806	9.0%	\$	563	6.7%
Commercial and industrial Commercial		4,714	16.2		1,916	15.9		1,575	13.7		1,232	12.4		895	7.8
real estate Residential		2,457	39.0		4,460	43.9		4,131	43.8		3,626	44.6		4,182	57.3
real estate Consumer		647	23.2		512	22.8		778	21.2		628	20.4		551	16.9
and other Home equity Unallocated		1,006 217	5.0 8.0		220 176 1,580	2.0 8.6		173 600 1,069	1.7 11.1		144 546 2,019	1.6 12.0		130 385 2,063	1.7 9.6
Total	\$	9,633	100.0%	\$	9,713	100.0%		\$ 9,340	100.0%	\$	9,001	100.0%	\$	8,769	100.0%

The shift in the allocations of the allowance for loan losses in 2007 is the result of the implementation of guidance issued by the FDIC. The current allocation is based on historical charge-off rates with additional allocations based on risk factors for each category and general economic factors. In prior years, the allowance related to general economic factors was included solely in the unallocated category.

Deposits

The Company offers savings accounts, NOW accounts, demand deposits, time deposits and money market accounts. The Company offers cash management accounts which provide either automatic transfer of funds above a specified level from the customer s checking account to a money market account or short-term borrowings. Also, an account reconciliation service is offered whereby the Company provides a computerized report balancing the customer s checking account.

Interest rates on deposits are set bi-monthly by the Bank s rate-setting committee, based on factors including loan demand, maturities and a review of competing interest rates offered. Interest rate policies are reviewed periodically by the Executive Management Committee.

The following table sets forth the average balances of the Bank s deposits for the periods indicated.

		2007			2006	•	2005			
	Amount		Percent	Percent Amount Percent Amount (Dollars in thousands)

Borrowings

The Bank s borrowings consisted primarily of FHLB borrowings collateralized by a blanket pledge agreement on the Bank s FHLB stock, certain qualified investment securities, deposits at the FHLB and residential mortgages held in the Bank s portfolios. The Bank s borrowing from the FHLB totaled \$289,250,000, an increase of \$167,500,000 from the prior year. The Bank s remaining term borrowing capacity at the FHLB at December 31, 2007 was approximately \$31,452,000. In addition, the Bank has a \$14,500,000 line of credit with the FHLB. See note 10 Other Borrowed Funds and Subordinated Debentures for a schedule, their interest rates and other information.

Subordinated Debentures

In May 1998, the Company consummated the sale of a trust preferred securities offering, in which it issued \$29,639,000 of subordinated debt securities due 2029 to its newly formed unconsolidated subsidiary, Century Bancorp Capital Trust.

Century Bancorp Capital Trust then issued 2,875,000 shares of Cumulative Trust Preferred Securities with a liquidation value of \$10 per share. These securities pay dividends at an annualized rate of 8.30%. The Company redeemed through its subsidiary, Century Bancorp Capital Trust, its 8.30% Trust Preferred Securities, January 10, 2005.

In December 2004, the Company consummated the sale of a trust preferred securities offering, in which it issued \$36,083,000 of subordinated debt securities due 2034 to its newly formed unconsolidated subsidiary, Century Bancorp Capital Trust II.

Century Bancorp Capital Trust II then issued 35,000 shares of Cumulative Trust Preferred Securities with a liquidation value of \$1,000 per share. These securities pay dividends at an annualized rate of 6.65% for the first ten years and then convert to the three-month LIBOR rate plus 1.87% for the remaining twenty years. The Company is using the proceeds primarily for general business purposes.

Securities Sold Under Agreements to Repurchase

The Bank s remaining borrowings consist primarily of securities sold under agreements to repurchase. Securities sold under agreements to repurchase totaled \$85,990,000, a decrease of \$970,000 from the prior year. See note 9 Securities Sold Under Agreements to Repurchase for a schedule, including their interest rates and other information.

RESULTS OF OPERATIONS

Net Interest Income

The Company s operating results depend primarily on net interest income and fees received for providing services. Net interest income increased 6.6% in 2007 to \$39,203,000, compared with \$36,763,000 in 2006. The increase in net interest income for 2007 was mainly due to a 10.4% or a twenty-five basis point increase in the net interest margin. The level of interest rates, the ability of the Company s earning assets and liabilities to adjust to changes in interest rates and the mix of the Company s earning assets and liabilities affect net interest income. The

22

Table of Contents

net interest margin on a fully taxable equivalent basis increased to 2.65% in 2007 from 2.40% in 2006, which had decreased from 2.58% in 2005.

The following table sets forth the distribution of the Company s average assets, liabilities and stockholders equity, and average rates earned or paid on a fully taxable equivalent basis for each of the years indicated.

The following table summarizes the year to year changes in the Company s net interest income resulting from fluctuations in interest rates and volume changes in earning assets and interest-bearing liabilities. Changes due to rate are computed by multiplying the change in rate by the prior year s volume. Changes due to volume are computed by multiplying the change in volume by the prior year s rate. Changes in volume and rate that cannot be separately identified have been allocated in proportion to the relationship of the absolute dollar amounts of each change.

Average earning assets were \$1,479,349,000 in 2007, a decrease of \$55,568,000 or 3.6% from the average in 2006, which was 1.0% lower than the average in 2005. Total average securities, including securities available-for-sale and securities held-to-maturity, were \$621,546,000, a decrease of 19.6% from the average in 2006. The decrease in

securities volume was mainly attributable to an increase in pricing discipline relating to deposits that resulted in a smaller average balance sheet. A decrease in securities balances resulted in lower securities income, which decreased 13.8% to \$23,548,000. Total average loans increased 0.3% to \$725,903,000 after increasing \$82,722,000 in 2006. The primary reason for the increase in loans was due in large part to an increase in small business lending. The increase in loan volume and increases in loan rates resulted in higher loan income, which increased by 2.8% or \$1,436,000 to \$52,902,000. Total loan income was \$41,274,000 in 2005.

The Company s sources of funds include deposits and borrowed funds. On average, deposits showed a decrease of 4.3% or \$53,898,000 in 2007 after increasing by 2.6% or \$31,760,000 in 2006. Deposits decreased in 2007 primarily as a result of decreases in money market accounts, which decreased by 15.2% or \$49,721,000 and time deposits, which decreased by 6.4% or \$23,073,000. Borrowed funds and subordinated debentures decreased by

24

Table of Contents

12.3% in 2007 following a decrease of 14.8% in 2006. The majority of the Company s borrowed funds are borrowings from the FHLB and retail repurchase agreements. Borrowings from the FHLB decreased by approximately \$22,801,000 and retail repurchase agreements increased by \$18,953,000. Interest expense totaled \$43,805,000 in 2007, a slight decrease of \$139,000 or 0.3% from 2006 when interest expense increased 33.9% from 2005. The decrease in interest expense is primarily due to deposit pricing discipline.

Provision for Loan Loss

The provision for loan losses was \$1,500,000 in 2007, compared with \$825,000 in 2006 and \$600,000 in 2005. These provisions are the result of management s evaluation of the amounts and quality of the loan portfolio considering such factors as loan status, collateral values, financial condition of the borrower, the state of the economy and other relevant information. The provision increased during 2007 primarily as a result of an increase in net charge-offs during the year.

The allowance for loan losses was \$9,633,000 at December 31, 2007, compared with \$9,713,000 at December 31, 2006. Expressed as a percentage of outstanding loans at year-end, the allowance was 1.33% in 2007 and 1.32% in 2006. This ratio increased mainly as a result of a small decrease in the loan portfolio.

Nonperforming loans, which include all non-accruing loans, totaled \$1,312,000 on December 31, 2007, compared with \$135,000 on December 31, 2006. Nonperforming loans increased primarily as a result of three consumer mortgages totaling \$938,000.

Other Operating Income

During 2007, the Company continued to experience positive results in its fee-based services including fees derived from traditional banking activities such as deposit related services, its automated lockbox collection system and full service securities brokerage offered through Linsco/Private Ledger Corp. (LPL), an unaffiliated registered securities broker-dealer and investment advisor. The brokerage service was previously offered through IFMG, also an unaffiliated registered securities broker-dealer and investment advisor.

Under the lockbox program, which is not tied to extensions of credit by the Company, the Company s customers arrange for payments of their accounts receivable to be made directly to the Company. The Company records the amounts paid to its customers, deposits the funds to the customer s account and provides automated records of the transactions to customers. Typical customers for the lockbox service are municipalities who use it to automate tax collections, cable TV companies and other commercial enterprises.

Through a program called Investment Services at Century Bank, the Bank provides full service securities brokerage services supported by LPL, a full service securities brokerage business. Registered representatives employed by LPL offer limited investment advice, execute transactions and assist customers in financial and retirement planning. LPL provides research to and supervises its representatives. The Bank receives a share in the commission revenues.

Total other operating income in 2007 was \$13,948,000, an increase of \$2,583,000 or 22.7% compared to 2006. This increase followed an increase of \$392,000 or 3.6% in 2006, compared to 2005. Included in 2007 is the \$1,321,000 pre-tax gain on the sale of the building that houses the Company s Medford Square branch. Service charge income, which continues to be a major area of other operating income totaling \$7,579,000 in 2007, increased \$877,000 compared to 2006. This followed an increase of \$856,000 compared to 2005. Service charges on deposit accounts increased mainly because of increases in fees and an increase in overdraft charges. Lockbox revenues totaled \$2,956,000, up \$184,000 in 2007 following a decrease of \$35,000 in 2006. This increase was mainly attributable to an increase in the customer base. Other income totaled \$1,687,000, down \$55,000 in 2007 following a decrease of

\$116,000 in 2006. The decrease in 2007 was mainly attributable to an increase of \$217,000 in foreign ATM surcharges and an increase of \$183,000 in the growth of cash surrender values on life insurance policies that was attributable to higher returns on life insurance policies offset by a pre-tax gain of \$600,000 from the sale of rights to future royalty payments for a portion of the Company s Merchant Credit Card customer base during 2006. Foreign ATM surcharges increased because of an increase in rates charged and the addition of ATM machines. The decrease in 2006 was mainly attributable to a decrease in the growth of cash surrender values by \$697,000 due to a

25

Table of Contents

decline in the policy returns offset by a pre-tax gain of \$600,000 from the sale of rights to future royalty payments for a portion of the Company s Merchant Credit Card customer base.

Operating Expenses

Total operating expenses were \$40,255,000 in 2007, compared to \$40,196,000 in 2006 and \$40,318,000 in 2005.

Salaries and employee benefits expenses increased by \$728,000 or 3.1% in 2007, after decreasing by 1.6% in 2006. The increase in 2007 was mainly attributable to an increase in staff levels, merit increases in salaries and increases in health insurance costs. The decrease in 2006 was mainly attributable to the retirement of the former Chief Executive Officer offset somewhat by an increase in pension expense and health insurance costs.

Occupancy expense decreased by \$55,000 or 1.4% in 2007, following an increase of \$109,000 or 2.9% in 2006. The decrease in 2007 was primarily attributable to an increase in rental income. The increase in 2006 was primarily attributable to an increase in utility rates. Equipment expense decreased by \$86,000 or 2.8% in 2007, following an increase of \$56,000 or 1.9% in 2006. The decrease in 2007 was primarily attributable to a decrease in depreciation expense. The increase in 2006 was primarily attributable to depreciation associated with the addition of capital expenditures. Other operating expenses decreased by \$528,000 in 2007, which followed a \$95,000 increase in 2006. The decrease in 2007 was primarily attributable to a decrease in bank processing charges and legal expense. The increase in 2006 was primarily attributable to an increase in contributions.

Provision for Income Taxes

Income tax expense was \$3,532,000 in 2007, \$2,419,000 in 2006 and \$3,166,000 in 2005. The effective tax rate was 31.0% in 2007, 34.0% in 2006 and 31.5% in 2005. The decrease in the effective tax rate for 2007 was mainly attributable to a higher level of non-taxable income. The increase in the effective tax rate for 2006 was primarily the result of a decrease in non-taxable income. The federal tax rate was 34% in 2007, 2006 and 2005.

Market Risk and Asset Liability Management

Market risk is the risk of loss from adverse changes in market prices and rates. The Company s market risk arises primarily from interest rate risk inherent in its lending and deposit taking activities, and to that end, management actively monitors and manages its interest rate risk exposure.

The Company s profitability is affected by fluctuations in interest rates. A sudden and substantial change in interest rates may adversely impact the Company s earnings to the extent that the interest rates borne by assets and liabilities do not change at the same speed, to the same extent, or on the same basis. The Company monitors the impact of changes in interest rates on its net interest income using several tools. One measure of the Company s exposures to differential changes in interest rates between assets and liabilities is an interest rate risk management test.

This test measures the impact on net interest income of an immediate change in interest rates in 100 basis point increments as set forth in the following table:

Change in Interest Rates (in Basis Points)

Percentage Change in Net Interest Income(1)

+300 +200 (0.2)% (0.4)%

+100	(0.7)%
-100	(2.5)%
-200	(3.8)%
-300	(4.9)%

(1) The percentage change in this column represents net interest income for 12 months in various rate scenarios versus the net interest income in a stable interest rate environment.

26

Table of Contents

The Company s primary objective in managing interest rate risk is to minimize the adverse impact of changes in interest rates on the Company s net interest income and capital, while structuring the Company s asset-liability structure to obtain the maximum yield-cost spread on that structure. The Company relies primarily on its asset-liability structure to control interest rate risk.

Liquidity and Capital Resources

Liquidity is provided by maintaining an adequate level of liquid assets that include cash and due from banks, federal funds sold and other temporary investments. Liquid assets totaled \$299,901,000 on December 31, 2007, compared with \$159,668,000 on December 31, 2006. In each of these two years, deposit and borrowing activity has generally been adequate to support asset activity.

The source of funds for dividends paid by the Company is dividends received from the Bank. The Company and the Bank are regulated enterprises and their abilities to pay dividends are subject to regulatory review and restriction. Certain regulatory and statutory restrictions exist regarding dividends, loans and advances from the Bank to the Company. Generally, the Bank has the ability to pay dividends to the Company subject to minimum regulatory capital requirements.

Capital Adequacy

Total stockholders equity was \$118,806,000 at December 31, 2007, compared with \$106,818,000 at December 31, 2006. The increase in 2007 was primarily the result of earnings and a decrease in accumulated other comprehensive loss less dividends paid. The decrease in accumulated other comprehensive loss was mainly attributable to an improvement of \$4,900,000 in the net unrealized loss on the Company s available-for-sale portfolio, and an improvement of \$1,346,000 in the additional pension liability, net of taxes.

Federal banking regulators have issued risk-based capital guidelines, which assign risk factors to asset categories and off-balance sheet items. The current guidelines require a Tier 1 capital-to-risk assets ratio of at least 4.00% and a total capital-to-risk assets ratio of at least 8.00%. The Company and the Bank exceeded these requirements with a Tier 1 capital-to-risk assets ratio of 16.46% and 13.02%, respectively, and total capital-to-risk assets ratio of 17.51% and 14.08%, respectively, at December 31, 2007. Additionally, federal banking regulators have issued leverage ratio guidelines, which supplement the risk-based capital guidelines. The minimum leverage ratio requirement applicable to the Company is 4.00% and at December 31, 2007, the Company and the Bank exceeded this requirement with leverage ratios of 9.56% and 7.56%, respectively.

Contractual Obligations, Commitments, and Contingencies

The Company has entered into contractual obligations and commitments. The following tables summarize the Company s contractual cash obligations and other commitments at December 31, 2007.

Contractual Obligations and Commitments by Maturity

Financial Instruments with Off-Balance Sheet Risk

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments primarily include commitments to originate and sell loans, standby letters of credit, unused lines of credit and unadvanced portions of construction loans. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheet. The contract or notational amounts of those instruments reflect the extent of involvement the Company has in these particular classes of financial instruments.

The Company s exposure to credit loss in the event of non-performance by the other party to the financial instrument for loan commitments, standby letters of credit and unadvanced portions of construction loans is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. Financial instruments with off-balance sheet risk at December 31, are as follows:

Contract or Notational Amount	2007 Dollars in	thou	2006 (sands)
Financial instruments whose contract amount represents credit risk:			
Commitments to originate 1-4 family mortgages	\$ 2,442	\$	2,305
Standby and commercial letters of credit	13,498		10,397
Unused lines of credit	155,378		168,290
Unadvanced portions of construction loans	27,294		16,793
Unadvanced portions of other loans	8,746		5,975

Commitments to originate loans, unadvanced portions of construction loans and unused letters of credit are generally agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management s credit evaluation of the borrower.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Recent Accounting Developments

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS 157, Fair Value Measurements, which among other things, requires enhanced disclosures about financial instruments carried at fair value. SFAS 157 is effective for fiscal years beginning after November 15, 2007. SFAS 157 establishes a hierarchal disclosure framework associated with the level of pricing observability utilized in measuring financial instruments at fair value. The three broad levels defined by the SFAS 157 hierarchy are as follows:

Level I Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The type of financial instruments included in Level I are highly liquid cash instruments with quoted prices such as

28

Table of Contents

G-7 government, agency securities, listed equities and money market securities, as well as listed derivative instruments.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these financial instruments includes cash instruments for which quoted prices are available but traded less frequently, derivative instruments whose fair values have been derived using a model where inputs to the model are directly observable in the market, or can be derived principally from or corroborated by observable market data, and instruments that are fair valued using other financial instruments, the parameters of which can be directly observed. Instruments which are generally included in the category are corporate bonds and loans, mortgage whole loans, municipal bonds and OTC derivatives.

Level III Instruments that have little to no pricing observability as of the reported date. These financial instruments do not have two-way markets and are measured using management s best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation. Instruments that are included in this category generally include commercial mortgage loans, certain private equity investments, distressed debt, non-investment grade residual interests in securitizations, as well as certain highly structured OTC derivative contracts.

The Company is currently evaluating the impact SFAS 157 will have upon disclosures upon adoption.

In February 2007, the FASB issued Statement of Financial Accounting Standard No. 159 (SFAS 159), The Fair Value Option for Financial Assets and Financial Liabilities, which gives entities the option to measure eligible financial assets, and financial liabilities at fair value on an instrument by instrument basis, that are otherwise not permitted to be accounted for at fair value under other accounting standards. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability. Subsequent changes in fair value must be recorded in earnings. This statement is effective as of the beginning of a company s first fiscal year after November 15, 2007. The Company adopted SFAS 159 on January 1, 2008 and did not elect to apply the fair value to any existing financial instruments.

In March 2007, the FASB ratified the consensus reached by the Emerging Issues Task Force (EITF) on EITF 06-10, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements. EITF 06-10 will require employers to recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement if the employer remains subject to the risks or rewards associated with the underlying insurance contract (in the postretirement period) that collateralizes the employer s asset. Additionally, an employer should recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement by assessing what future cash flows the employer is entitled to, if any, as well as the employer s obligation and ability to repay the employer. The employer s asset should be limited to the amount of the cash surrender value of the insurance policy, unless the arrangement requires the employee (or retiree) to repay the employer irrespective of the amount of the cash surrender value of the insurance policy (and assuming the employee (or retiree) is an adequate credit risk), in which case the employer should recognize the value of the loan including accrued interest, if applicable. EITF 06-10 is effective for fiscal years beginning after December 15, 2007, earlier application permitted. Entities should recognize the effects of applying EITF 06-10 through either a change in accounting principle through a cumulative-effect adjustment to retained earnings in the statement of financial position as of the beginning of the year of adoption or through a change in accounting principle through retrospective application to all prior periods. The Company anticipates the impact of EITF 06-10 to be immaterial to the Company s consolidated financial statements.

In December 2007, the FASB issued SFAS 141R, Business Combinations. SFAS 141R replaces FASB Statement No. 141, Business Combinations, but retains the fundamental requirements in Statement 141 that the acquisition

method of accounting (which Statement 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. It also retains the guidance in Statement 141 for identifying and recognizing intangible assets separately from goodwill. However, SFAS 141R s scope is broader than that of Statement 141. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. For any business combinations entered into by the Company subsequent to January 1, 2009, the Company will be required to apply the guidance in SFAS 141R.

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

BASIS OF FINANCIAL STATEMENT PRESENTATION

The consolidated financial statements include the accounts of Century Bancorp, Inc. (the Company) and its wholly-owned subsidiary, Century Bank and Trust Company (the Bank). The consolidated financial statements also include the accounts of the Bank s wholly-owned subsidiaries, Century Subsidiary Investments, Inc. (CSII), Century Subsidiary Investments, Inc. III (CSII III), Century Subsidiary Investments, Inc. III (CSII III) and Century Financial Services Inc. (CFSI). CSII, CSII II, CSII III are engaged in buying, selling and holding investment securities. CFSI has the power to engage in financial agency, securities brokerage and investment and financial advisory services and related securities credit.

The Company also owns 100% of Century Bancorp Capital Trust II (CBCT II). The entity is an unconsolidated subsidiary of the Company.

All significant intercompany accounts and transactions have been eliminated in consolidation. The Company provides a full range of banking services to individual, business and municipal customers in Massachusetts. As a bank holding company, the Company is subject to the regulation and supervision of the Federal Reserve Board. The Bank, a state chartered financial institution, is subject to supervision and regulation by applicable state and federal banking agencies, including the Federal Reserve Board, the Federal Deposit Insurance Corporation (the FDIC) and the Commonwealth of Massachusetts Commissioner of Banks. The Bank is also subject to various requirements and restrictions under federal and state law, including requirements to maintain reserves against deposits, restrictions on the types and amounts of loans that may be granted and the interest that may be charged thereon, and limitations on the types of investments that may be made and the types of services that may be offered. Various consumer laws and regulations also affect the operations of the Bank. In addition to the impact of regulation, commercial banks are affected significantly by the actions of the Federal Reserve Board as it attempts to control the money supply and credit availability in order to influence the economy. All aspects of the Company s business are highly competitive. The Company faces aggressive competition from other lending institutions and from numerous other providers of financial services. The Company has one reportable operating segment.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America and general practices within the banking industry. In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ from those estimates.

Material estimates that are susceptible to change in the near-term relate to the allowance for loan losses. Management believes that the allowance for loan losses is adequate based on independent appraisals and review of other factors associated with the loans. While management uses available information to recognize loan losses, future additions to the allowance for loan losses may be necessary based on changes in economic conditions. In addition, regulatory agencies periodically review the Company s allowance for loan losses. Such agencies may require the Company to recognize additions to the allowance for loan losses based on their judgments about information available to them at the time of their examination.

Certain reclassifications are made to prior year amounts whenever necessary to conform with the current year presentation.

INVESTMENT SECURITIES

Debt securities that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity and reported at amortized cost; debt and equity securities that are bought and held principally for the purpose of selling are classified as trading and reported at fair value, with unrealized gains and losses included in earnings; and debt and equity securities not classified as either held-to-maturity or trading are classified as

34

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

available-for-sale and reported at fair value, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders equity, net of estimated related income taxes. The Company has no securities held for trading.

Premiums and discounts on investment securities are amortized or accreted into income by use of the level-yield method. If a decline in fair value below the amortized cost basis of an investment is judged to be other-than-temporary, the cost basis of the investment is written down to fair value. The amount of the write-down is included as a charge to earnings. Gains and losses on the sale of investment securities are recognized on the trade date on a specific identification basis.

LOANS

Interest on loans is recognized based on the daily principal amount outstanding. Accrual of interest is discontinued when loans become 90 days delinquent unless the collateral is sufficient to cover both principal and interest and the loan is in the process of collection. Loans, including impaired loans, on which the accrual of interest has been discontinued are designated non-accrual loans. When a loan is placed on non-accrual, all income which has been accrued but remains unpaid is reversed against current period income and all amortization of deferred loan costs and fees is discontinued. Non-accrual loans may be returned to an accrual status when principal and interest payments are not delinquent or the risk characteristics of the loan have improved to the extent that there no longer exists a concern as to the collectibility of principal and income. Income received on non-accrual loans is either recorded in income or applied to the principal balance of the loan depending on management sevaluation as to the collectibility of principal.

Loan origination fees and related direct loan origination costs are offset and the resulting net amount is deferred and amortized over the life of the related loans using the level-yield method.

The Bank accounts for impaired loans, except those loans that are accounted for at fair value or at lower of cost or fair value, by either the present value of the expected future cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateral dependent. This method applies to all loans, uncollateralized, as well as collateralized, except large groups of smaller-balance homogeneous loans such as residential real estate and consumer loans that are collectively evaluated for impairment and loans that are measured at fair value. Management considers the payment status, net worth and earnings potential of the borrower, and the value and cash flow of the collateral as factors to determine if a loan will be paid in accordance with its contractual terms. Management does not set any minimum delay of payments as a factor in reviewing for impaired classification. Loans are charged-off when management believes that the collectibility of the loan's principal is not probable. In addition, criteria for classification of a loan as in-substance foreclosure has been modified so that such classification need be made only when a lender is in possession of the collateral. The Bank measures the impairment of troubled debt restructurings using the pre-modification rate of interest.

ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses is based on management s evaluation of the quality of the loan portfolio and is used to provide for losses resulting from loans which ultimately prove uncollectible. In determining the level of the allowance, periodic evaluations are made of the loan portfolio which take into account such factors as the character of the loans, loan status, financial posture of the borrowers, value of collateral securing the loans and other relevant

information sufficient to reach an informed judgment. The allowance is increased by provisions charged to income and reduced by loan charge-offs, net of recoveries. Management maintains an allowance for loan losses to absorb losses inherent in the loan portfolio. The allowance is based on assessments of the probable estimated losses inherent in the loan portfolio. Management s methodology for assessing the appropriateness of the allowance consists of several key elements, which include the formula allowance, specific allowances, if appropriate, for identified problem loans and the unallocated allowance.

35

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

While management uses available information in establishing the allowance for loan losses, future adjustments to the allowance may be necessary if economic conditions differ substantially from the assumptions used in making the evaluations. Loans are charged-off in whole or in part when, in management s opinion, collectibility is not probable.

BANK PREMISES AND EQUIPMENT

Bank premises and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets or the terms of leases, if shorter. It is general practice to charge the cost of maintenance and repairs to operations when incurred; major expenditures for improvements are capitalized and depreciated.

STOCK OPTION ACCOUNTING

Prior to January 1, 2006, the Company accounted for its stock-based plans under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB 25), and related Interpretations, as permitted by SFAS No. 123, Accounting for Stock-Based Compensation (SFAS 123). No compensation cost was recognized for stock options in the Consolidated Statement of Income for the periods ended on or prior to December 31, 2005, as options granted under those plans had an exercise price equal to or greater than the market value of the underlying common stock on the date of the grant.

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS 123R for all share-based payments, using the modified-prospective transition method. In accordance with the modified-prospective transition method, the Company s Consolidated Financial Statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123R. Upon adoption of SFAS 123R, the Company elected to retain its method of valuation for share-based awards granted using the Black-Scholes option-pricing model which was also previously used for the Company s pro forma information required under SFAS 123. The Company will recognize compensation expense for its awards on a straight-line basis over the requisite service period for the entire award (straight-line attribution method), ensuring that the amount of compensation cost recognized at any date at least equals the portion of the grant-date fair value of the award that is vested at that time.

During 2000 and 2004, common stockholders of the Company approved stock option plans (the Option Plans) that provide for granting of options to purchase up to 150,000 shares of Class A common stock per plan. Under the Option Plans, all officers and key employees of the Company are eligible to receive non-qualified or incentive stock options to purchase shares of Class A common stock. The Option Plans are administered by the Compensation Committee of the Board of Directors, whose members are ineligible to participate in the Option Plans. Based on management s recommendations, the Committee submits its recommendations to the Board of Directors as to persons to whom options are to be granted, the number of shares granted to each, the option price (which may not be less than 85% of the fair market value for non-qualified stock options, or the fair market value for incentive stock options, of the shares on the date of grant) and the time period over which the options are exercisable (not more than ten years from the date of grant). There were options to purchase an aggregate of 94,787 shares of Class A common stock exercisable at December 31, 2007.

On December 30, 2005, the Board of Directors approved the acceleration and immediate vesting of all unvested options with an exercise price of \$31.60 or greater per share. As a consequence, options to purchase 23,950 shares of

Class A common stock became exercisable immediately. The average of the high and low price at which the Class A common stock traded on December 30, 2005, the date of the acceleration and vesting, was \$29.28 per share. In connection with this acceleration the Board of Directors approved a technical amendment to each of the Option Plans to eliminate the possibility that the terms of any outstanding or future stock option would require a cash settlement on the occurrence of any circumstance outside the control of the Company. Effective as of January 1, 2006, the Company adopted SFAS 123R for all share-based payments. The Company estimates that, as a result of

36

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

this accelerated vesting, approximately \$190,000 of 2006 non-cash compensation expense was eliminated that would otherwise have been recognized in the Company s earnings.

The Company decided to accelerate the vesting of certain stock options primarily to reduce the non-cash compensation expense that would otherwise be expected to be recorded in conjunction with the Company s required adoption of SFAS 123R in 2006. There was no earnings impact for 2006 due to the Company s adoption of SFAS 123R.

Had compensation cost for the Company s stock option plans been determined based on the fair value at the grant date, the Company s net income and earnings per share for the year ended December 31, 2005 would have been reduced to the pro forma amounts indicated in the following table:

Net income:

As reported	\$ 6,880
Less:	
Pro forma stock based compensation cost (net of tax):	282
Pro forma net income	\$ 6,598
Basic earning per share.	
As reported	\$ 1.24
Pro forma	\$ 1.19
Diluted earnings per share.	
As reported	\$ 1.24
Pro forma	\$ 1.19

In determining the pro forma amounts, the fair value of each option grant was estimated as of the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions:

Dividend yield	1.59%
Expected life in years	9
Expected volatility	28%
Risk-free interest rate	3.95%

The Company uses the fair value method to account for stock options. All of the Company s stock options are vested and there were no options granted during 2007.

INCOME TAXES

The Company uses the asset and liability method in accounting for income taxes. Under the asset and liability method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which

temporary differences are expected to be recovered or settled. Under this method, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

In July 2006, the Financial Accounting Standards Board (FASB) issued Financial Accounting Standards Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise s financial statements in accordance with FASB Statement No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attributable for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim

37

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

periods, disclosures and transitions. The Company adopted FIN 48 on January 1, 2007. The adoption of FIN 48 did not have a material impact on the Company s results of operation or its financial position.

The Company classifies interest resulting from underpayment of income taxes as income tax expense in the first period the interest would begin accruing according to the provisions of the relevant tax law.

The Company classifies penalties resulting from underpayment of income taxes as income tax expense in the period for which the Company claims or expects to claim an uncertain tax position or in the period in which the Company s judgment changes regarding an uncertain tax position.

TREASURY STOCK

Effective July 1, 2004, companies incorporated in Massachusetts became subject to Chapter 156D of the Massachusetts Business Corporation Act, provisions of which eliminate the concept of treasury stock and provide that shares reacquired by a company are to be treated as authorized but unissued shares.

PENSION

The Company provides pension benefits to its employees under a noncontributory, defined benefit plan which is funded on a current basis in compliance with the requirements at the Employee Retirement Income Security Act of 1974 (ERISA) and recognizes costs over the estimated employee service period.

The Company also has a Supplemental Executive Insurance/Retirement Plan (the Supplemental Plan) which is limited to certain officers and employees of the Company. The Supplemental Plan is accrued on a current basis and recognizes costs over the estimated employee service period.

Executive officers of the Company or its subsidiaries who have at least one year of service may participate in the Supplemental Plan. The Supplemental Plan is voluntary and participants are required to contribute to its cost. Individual life insurance policies, which are owned by the Company, are purchased covering the lives of each participant.

Effective December 31, 2006, the Company adopted SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans An Amendment of FASB Statements No. 87, 88, 106, and 132(R), which requires the Company to recognize the overfunded or underfunded status of a single employer defined benefit pension or postretirement plan as an asset or liability on its balance sheet and to recognize changes in the funded status in comprehensive income in the year in which the change occurred. However, gains or losses, prior service costs or credits, and transition assets or obligations that have not yet been included in net periodic benefit cost as of the end of 2006, the fiscal year in which the Statement is initially applied, are to be recognized as components of the ending balance of accumulated other comprehensive income, net of tax. The Company recorded an additional \$2,158,000 pension liability adjustment, net of tax, through stockholders equity, as a result of the adoption of SFAS 158. SFAS 158 also requires the Company to measure plan assets and benefit obligations as of the date of the Company s fiscal year-end effective for fiscal years ending after December 15, 2008.

RECENT ACCOUNTING DEVELOPMENTS

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS 157, Fair Value Measurements, which among other things, requires enhanced disclosures about financial instruments carried at fair value. SFAS 157 is effective for fiscal years beginning after November 15, 2007. SFAS 157 establishes a hierarchal disclosure framework associated with the level of pricing observability utilized in measuring financial instruments at fair value. The three broad levels defined by the SFAS 157 hierarchy are as follows:

Level I Quoted prices are available in active markets for identical assets or liabilities as of the reported date. The type of financial instruments included in Level I are highly liquid cash instruments with quoted prices such as

38

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

G-7 government, agency securities, listed equities and money market securities, as well as listed derivative instruments.

Level II Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these financial instruments includes cash instruments for which quoted prices are available but traded less frequently, derivative instruments whose fair values have been derived using a model where inputs to the model are directly observable in the market, or can be derived principally from or corroborated by observable market data, and instruments that are fair valued using other financial instruments, the parameters of which can be directly observed. Instruments which are generally included in the category are corporate bonds and loans, mortgage whole loans, municipal bonds and OTC derivatives.

Level III Instruments that have little to no pricing observability as of the reported date. These financial instruments do not have two-way markets and are measured using management s best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation. Instruments that are included in this category generally include commercial mortgage loans, certain private equity investments, distressed debt, non-investment grade residual interests in securitizations, as well as certain highly structured OTC derivative contracts.

The Company is currently evaluating the impact SFAS 157 will have upon disclosures upon adoption.

In February 2007, the FASB issued Statement of Financial Accounting Standard No. 159 (SFAS 159), The Fair Value Option for Financial Assets and Financial Liabilities, which gives entities the option to measure eligible financial assets, and financial liabilities at fair value on an instrument by instrument basis, that are otherwise not permitted to be accounted for at fair value under other accounting standards. The election to use the fair value option is available when an entity first recognizes a financial asset or financial liability. Subsequent changes in fair value must be recorded in earnings. This statement is effective as of the beginning of a company s first fiscal year after November 15, 2007. The Company adopted SFAS 159 on January 1, 2008 and did not elect to apply the fair value to any existing financial instruments.

In March 2007, the FASB ratified the consensus reached by the Emerging Issues Task Force (EITF) on EITF 06-10, Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements. EITF 06-10 will require employers to recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement if the employer remains subject to the risks or rewards associated with the underlying insurance contract (in the postretirement period) that collateralizes the employer s asset. Additionally, an employer should recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement by assessing what future cash flows the employer is entitled to, if any, as well as the employer s obligation and ability to repay the employer. The employer s asset should be limited to the amount of the cash surrender value of the insurance policy, unless the arrangement requires the employee (or retiree) to repay the employer irrespective of the amount of the cash surrender value of the insurance policy (and assuming the employee (or retiree) is an adequate credit risk), in which case the employer should recognize the value of the loan including accrued interest, if applicable. EITF 06-10 is effective for fiscal years beginning after December 15, 2007, earlier application permitted. Entities should recognize the effects of applying EITF 06-10 through either a change in accounting principle through a cumulative-effect adjustment to retained earnings in the statement of financial position as of the beginning of the year of adoption or through a change in

accounting principle through retrospective application to all prior periods. The Company anticipates the impact of EITF 06-10 to be immaterial to the Company s consolidated financial statements.

In December 2007, the FASB issued SFAS 141R, Business Combinations. SFAS 141R replaces FASB Statement No. 141, Business Combinations, but retains the fundamental requirements in Statement 141 that the acquisition method of accounting (which Statement 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. It also retains the guidance in

39

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

Statement 141 for identifying and recognizing intangible assets separately from goodwill. However, SFAS 141R s scope is broader than that of Statement 141. SFAS 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. For any business combinations entered into by the Company subsequent to January 1, 2009, the Company will be required to apply the guidance in SFAS 141R.

2. Cash and Due from Banks

The Company is required to maintain a portion of its cash and due from banks as a reserve balance under the Federal Reserve Act. Such reserve is calculated based upon deposit levels and amounted to \$1,909,000 at December 31, 2007 and \$805,000 at December 31, 2006.

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

The weighted average remaining life of investment securities available-for-sale at December 31, 2007 and 2006 was 2.2 and 2.1 years, respectively. Included in the weighted average remaining life calculation at December 31, 2007 and 2006 were \$113,160,000 and \$10,000,000, respectively, of U.S. Government Sponsored Enterprises obligations that are callable at the discretion of the issuer. These call dates were not utilized in computing the weighted average remaining life. The actual maturities, which were used in the table above, of mortgage-backed securities will differ from the contractual maturities, due to the ability of the issuers to prepay underlying obligations.

The following table shows the temporarily impaired securities of the Company's available-for-sale portfolio at December 31, 2007. This table shows the unrealized market loss of securities that have been in a continuous unrealized loss position for 12 months or less and a continuous loss position for 12 months and longer. There are 5 and 63 securities that are temporarily impaired for less than 12 months and for 12 months or longer, respectively, out of a total of 174 holdings at December 31, 2007. The Company believes that the investments are temporarily impaired.

5. Loans

The majority of the Bank s lending activities are conducted in the Commonwealth of Massachusetts. The Bank originates construction, commercial and residential real estate loans, commercial and industrial loans, consumer, home equity and other loans for its portfolio.

The following summary shows the composition of the loan portfolio at the dates indicated.

December 31, 2007 2006 (Dollars in thousands)

Edgar Filing: CENTURY BANCORP INC - Form 10-K

Construction and land development	\$ 62,412	\$ 49,709
Commercial and industrial	117,332	117,497
Commercial real estate	299,920	327,040
Residential real estate	168,204	167,946
Consumer	20,149	9,881
Home equity	56,795	63,380
Overdrafts	1,439	1,320
Total	\$ 726,251	\$ 736,773

Net deferred fees included in loans at December 31, 2007 and December 31, 2006 were \$38,000 and \$183,000, respectively.

The Company was servicing mortgage loans sold to others without recourse of approximately \$559,000 and \$798,000 at December 31, 2007 and December 31, 2006, respectively. Additionally, the Company was servicing

43

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

mortgage loans sold to others with limited recourse. The outstanding balance of these loans with limited recourse was approximately \$65,000 and \$72,000 at December 31, 2007 and at December 31, 2006, respectively.

As of December 31, 2007 and 2006, the Bank recorded investment in impaired loans was \$196,000 and \$16,000, respectively.

At December 31, 2007, there were \$75,000 of impaired loans with a specific reserve of \$75,000. There were no impaired loans with specific reserves December 31, 2006.

The composition of non-accrual loans and impaired loans is as follows:

	December 31,					
	2007		20	006	2	005
		(Dolla	ırs in	thous	ands)
Loans on non-accrual	\$	1,312	\$	135	\$	949
Impaired loans on non-accrual included above		196		16		886
Total recorded investment in impaired loans		196		16		886
Average recorded value of impaired loans		332		278		1,384
Interest income on non-accrual loans according to their original terms		52		3		77
Interest income on non-accrual loans actually recorded						
Interest income recognized on impaired loans						

Directors and officers of the Company and their associates are customers of, and have other transactions with, the Company in the normal course of business. All loans and commitments included in such transactions were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons and do not involve more than normal risk of collection or present other unfavorable features.

The following table shows the aggregate amount of loans to directors and officers of the Company and their associates during 2007.

Balance at December 31, 2006	Additions	Repayments and Deletions	Balance at December 31, 2007
·	(Dollars in	thousands)	·
\$ 1,943	\$ 1,298	\$ 1,085	\$ 2,156

6. Allowance for Loan Losses

The Company maintains an allowance for loan losses in an amount determined by management on the basis of the character of the loans, loan performance, the financial condition of borrowers, the value of collateral securing loans

and other relevant factors. The following table summarizes the changes in the Company s allowance for loan losses for the years indicated.

44

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

An analysis of the total allowances for loan losses for each of the three years ending December 31, 2007, 2006 and 2005 are as follows:

	2007 (Dolla	2006 ars in thousai	2005 ands)	
Allowance for loan losses, beginning of year Loans charged-off Recoveries on loans previously charged-off	\$ 9,713 (2,139) 559	\$ 9,340 (708) 256	\$ 9,001 (690) 429

	50,191	49,058				
Accumulated depreciation and amortization	(28,206)	(26,103)				
Total	\$ 21,985	\$ 22,955				

During 2007, the Company sold the building which houses one of its branches located at 55 High Street, Medford, Massachusetts for \$1,500,000 at market terms. This property was sold to an entity affiliated with a director of the Company. The Bank financed \$1,000,000 of this purchase at market terms. This sale resulted in a pre-tax gain of \$1,321,000.

The Bank is relocating this branch to 1 Salem Street (formerly 3 Salem Street), Medford, Massachusetts. This property will be leased from an entity affiliated with Marshall M. Sloane, Chairman of the Board of the Company. The lease is for a period of fifteen years. The annual base rent amount will be \$28,500 with annual increases based on the consumer price index. The Company is also required to pay 25% of all real estate taxes and operating costs. The

lease contains options to extend the lease for three additional five-year periods. The lease was effective on September 1, 2007. The terms of the lease were based on an independent appraisal of the property and are considered to be market terms.

Until such time as 1 Salem Street is opened as a branch, 55 High Street has been leased to the Bank as a tenant-at-will at market terms. It is anticipated that the new branch will be opened during the second or third quarter of 2008.

The Company and its subsidiaries are obligated under a number of noncancelable operating leases for premises and equipment expiring in various years through 2026. Total lease expense approximated \$1,349,000, \$1,113,000 and \$1,076,000 for the years ended December 31, 2007, 2006 and 2005, respectively. Rental income approximated \$351,000, \$69,000 and \$61,000 in 2007, 2006 and 2005, respectively.

45

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

Future minimum rental commitments for noncancelable operating leases with initial or remaining terms of one year or more at December 31, 2007 were as follows:

Year	Amount (Dollars in thou	sands)
2008	\$	1,311
2009		1,177
2010		921
2011		687

SUBORDINATED DEBENTURES

Subordinated debentures totaled \$36,083,000 at December 31, 2007 and 2006. In May 1998, the Company consummated the sale of a trust preferred securities offering, in which it issued \$29,639,000 of subordinated debt securities due 2029 to its newly formed unconsolidated subsidiary Century Bancorp Capital Trust.

Century Bancorp Capital Trust then issued 2,875,000 shares of Cumulative Trust Preferred Securities with a liquidation value of \$10 per share. These securities pay dividends at an annualized rate of 8.30%. The Company redeemed through its subsidiary, Century Bancorp Capital Trust, its 8.30% Trust Preferred Securities, January 10, 2005.

In December 2004, the Company consummated the sale of a trust preferred securities offering, in which it issued \$36,083,000 of subordinated debt securities due 2034 to its newly formed unconsolidated subsidiary Century Bancorp Capital Trust II.

Century Bancorp Capital Trust II then issued 35,000 shares of Cumulative Trust Preferred Securities with a liquidation value of \$1,000 per share. These securities pay dividends at an annualized rate of 6.65% for the first ten years and then convert to the three-month LIBOR rate plus 1.87% for the remaining twenty years.

47

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

OTHER BORROWED FUNDS

The Bank had \$270,000 of overnight federal funds purchased on December 31, 2006. The borrowings carried an interest rate of 5.00% for 2006. There were no such borrowings at December 31, 2007.

The Bank serves as a Treasury Tax and Loan depository under a note option with the Federal Reserve Bank of Boston. This open-ended interest-bearing borrowing carries an interest rate equal to the daily Federal funds rate less 0.25%. This amount totaled \$489,000 and \$856,000 at December 31, 2007 and 2006, respectively.

The Bank also has an outstanding loan in the amount of \$146,000 and \$147,000 at December 31, 2007 and 2006, respectively, borrowed against the cash value of a whole life insurance policy for a key executive of the Bank.

11. Stockholders Equity

DIVIDENDS

Holders of the Class A common stock may not vote in the election of directors, but may vote as a class to approve certain extraordinary corporate transactions. Holders of Class B common stock may vote in the election of directors. Class A common stockholders are entitled to receive dividends per share equal to at least 200% per share of that paid, if any, on each share of Class B common stock. Class A common stock is publicly traded. Class B common stock is not publicly traded, however, it can be converted on a share for share basis to Class A common stock at any time at the option of the holder. Dividend payments by the Company are dependent in part on the dividends it receives from the Bank, which are subject to certain regulatory restrictions.

EARNINGS PER SHARE (EPS)

Diluted EPS includes the dilutive effect of common stock equivalents; basic EPS excludes all common stock equivalents. The only common stock equivalents for the Company are the stock options discussed below. The dilutive effect of these stock options for 2007, 2006 and 2005 was an increase of 4,246, 9,756 and 17,807 shares, respectively.

STOCK OPTION PLAN

During 2000 and 2004, common stockholders of the Company approved stock option plans (the Option Plans) that provides for granting of options for not more than 150,000 shares of Class A common stock per plan. Under the Option Plans, all officers and key employees of the Company are eligible to receive non-qualified and incentive stock options to purchase shares of Class A common stock. The Option Plans are administered by the Compensation Committee of the Board of Directors, whose members are ineligible to participate in the Option Plans. Based on management s recommendations, the Committee submits its recommendations to the Board of Directors as to persons to whom options are to be granted, the number of shares granted to each, the option price (which may not be less than 85% of the fair market value for non-qualified stock options, or the fair market value for incentive stock options, of the shares on the date of grant) and the time period over which the options are exercisable (not more than ten years from the date of grant). There were 94,787 options exercisable at December 31, 2007.

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

Stock option activity under the plan is as follows:

	Decembe	W A E	2007 eighted verage xercise Price	Weighted Average Exercise			Decembe Amount	ber 31, 2005 Weighted Average Exercise Price		
Shares under option: Outstanding at beginning										
of year Granted	122,737	\$	27.20	130,133	\$	26.74	131,787	\$	26.65	
Forfeitured Exercised	(25,334) (2,616)		26.32 19.20	(1,650) (5,746)		28.05 16.54	(300) (1,354)		28.56 16.82	
Outstanding at end of year	94,787	\$	27.66	122,737	\$	27.20	130,133	\$	26.74	
Exercisable at end of year	94,787	\$	27.66	122,737	\$	27.20	130,133	\$	26.74	
Available to be granted at end of year	176,759			151,425			149,775			

At December 31, 2007, 2006 and 2005, the options outstanding have exercise prices between \$15.063 and \$35.010, and a weighted average remaining contractual life of four years for 2007, five years for 2006 and six years for 2005. The weighted average intrinsic value of options exercised for the period ended December 31, 2007, 2006 and 2005 was \$4.90, \$10.76 and \$12.45 per share with an aggregate value of \$12,808, \$61,805 and \$16,857, respectively. The average intrinsic value of options exercisable at December 31, 2007, 2006 and 2005 had an aggregate value of \$54,805, \$271,511 and \$487,075, respectively.

The Bank and the Company are subject to various regulatory requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank and Company s financial statements. Under capital adequacy guidelines and regulatory framework for prompt corrective action, the Bank and Company must meet specific capital guidelines that involve quantitative measures of the Bank and Company s assets and liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank and Company s capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank and the Company to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulation) to risk-weighted assets (as defined), and Tier 1 capital (as defined) to average assets (as defined). Management believes, as of December 31, 2007, that the Bank and the Company meets all capital adequacy

requirements to which it is subject.

As of December 31, 2007, the most recent notification from the FDIC categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier risk-based, and Tier 1 leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes would cause a change in the Bank s categorization.

12. Income Taxes

The current and deferred components of income tax expense for the years ended December 31 are as follows:

	2007 (Dol	2007 2006 (Dollars in thousand			
Current expense: Federal State	\$ 3,137 284	\$ 2,968 164	\$ 2,842 196		
Total current expense	3,421	3,132	3,038		
Deferred expense (benefit): Federal State	50 61	(592) (121)	117 11		
Total deferred expense (benefit)	111	(713)	128		
Provision for income taxes	\$ 3,532	\$ 2,419	\$ 3,166		

Included in income tax expense for the year ended December 31, 2007, 2006, and 2005 is interest of \$0, \$24,000 and \$0, respectively. There were no penalties during these periods.

50

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

Income tax accounts included in other assets at December 31 are as follows:

	2	•	2006 ollars in usands)		
Currently receivable	\$	589	\$	67	
Deferred income tax asset, net		8,465		12,487	
Total	\$	9,054	\$	12,554	

Differences between income tax expense at the statutory federal income tax rate and total income tax expense are summarized as follows:

	2007	2006	2005				
	(Dollars in thousands)						
Federal income tax expense at statutory rates	\$ 3,875	\$ 2,417	\$ 3,516				
State income tax, net of federal income tax benefit	225	108	135				
Insurance income	(210)	(109)	(356)				
Effect of tax-exempt interest	(105)	(4)	(8)				
Other	(253)	7	(121)				
Total	\$ 3,532	\$ 2,419	\$ 3,166				
Effective tax rate	31.0%	34.0%	31.5%				

The following table sets forth the Company s gross deferred income tax assets and gross deferred income tax liabilities at December 31:

	2007 (Dollars i		2006 a thousands)	
Deferred income tax assets:				
Allowance for loan losses	\$	3,943	\$	3,975
Deferred compensation		4,132		4,141
Unrealized loss on securities available-for-sale		137		3,115
Pension and SERP liability		2,514		3,447
Acquisition premium		515		502
Investments write-down		27		27

Deferred gain	112	132
Other	2	33
Gross deferred income tax asset	11,382	15,372
Deferred income tax liabilities:		
Depreciation	(360)	(733)
Limited partnerships	(2,415)	(2,048)
Other	(142)	(104)
Gross deferred income tax liability	(2,917)	(2,885)
Deferred income tax asset net	\$ 8,465	\$ 12,487

Based on the Company s historical and current pre-tax earnings, management believes it is more likely than not that the Company will realize the deferred income tax asset existing at December 31, 2007. Management believes that existing net deductible temporary differences which give rise to the deferred tax asset will reverse during periods in which the Company generates net taxable income. In addition, gross deductible temporary

51

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

differences are expected to reverse in periods during which offsetting gross taxable temporary differences are expected to reverse. Factors beyond management s control, such as the general state of the economy and real estate values, can affect future levels of taxable income, and no assurance can be given that sufficient taxable income will be generated to fully absorb gross deductible temporary differences.

The Company and its subsidiaries file a consolidated federal tax return and separate state income tax return. For years before 2004 the Company is no longer subject to federal or state income tax examinations.

13. Employee Benefits

The Company has a Qualified Defined Benefit Pension Plan (the Plan), which had been offered to all employees reaching minimum age and service requirements. In 2006, the Bank became a member of the Savings Bank Employees Retirement Association (SBERA) within which it then began maintaining the Qualified Defined Benefit Pension Plan. SBERA offers a common and collective trust as the underlying investment structure for pension plans participating in SBERA. The Trustees of SBERA, through SBERA is Investment Committee, select investment managers for the common and collective trust portfolio. A professional advisory firm is retained by the Investment Committee to provide allocation analysis, performance measurement and to assist with manager searches. The overall investment objective is to diversify equity investments across a spectrum of investment types (e.g., small cap, large cap, international, etc.) and styles (e.g., growth, value, etc.). The Company closed the plan to employees hired after March 31, 2006.

The measurement date for the Plan is September 30 for each year. The benefits expected to be paid in each year from 2008-2012 are \$604,000, \$693,000, \$727,000, \$780,000 and \$925,000. The aggregate benefits expected to be paid in the five years from 2013-2017 are \$5,720,000. The Company plans to contribute \$1,387,000 to the Plan in 2008.

The weighted-average asset allocation of pension benefit assets at September 30 were:

Asset Category	2007	2006
Fixed income	38%	36%
Domestic equity	46%	49%
International equity	16%	15%
Total	100%	100%

The Company has a Supplemental Executive Insurance/Retirement Plan (the Supplemental Plan), which is limited to certain officers and employees of the Company. The Supplemental Plan is voluntary and participants are required to contribute to its cost. Under the Supplemental Plan, each participant will receive a retirement benefit based on compensation and length of service. Individual life insurance policies, which are owned by the Company, are purchased covering the lives of each participant. An increase in recognized net losses resulted in an increase in the cost of the Supplemental Plan in 2006. Effective December 31, 2006, the Company adopted SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans An Amendment of FASB

Statements No. 87, 88, 106 and 132(R). The Company recorded an additional \$2,158,000 net pension liability adjustment, through stockholders—equity, as a result of this adoption.

The measurement date for the Supplemental Plan is September 30 for each year. The benefits expected to be paid in each year from 2008-2012 are \$1,033,000, \$1,029,000, \$1,029,000, \$1,041,000 and \$1,043,000. The aggregate benefits expected to be paid in the five years from 2013-2017 are \$5,843,000.

Total	\$ (3,035)	\$	(3,110)	\$	(6,145)	\$ (5,059)	\$	(3,366)	\$	(8,425)

The following table summarizes the amounts included in Accumulated Other Comprehensive Income (loss) at December 31, 2007 expected to be recognized as components of net periodic benefit cost in the next year:

	Plan	Supplemental Plan
Amortization of prior service cost to be recognized in 2008	\$ (116)	\$ 64
Amortization of loss to be recognized in 2008	211	53

Assumptions for the expected return on plan assets and discount rates in the Company s Plan and Supplemental Plan are periodically reviewed. As part of the review, management in consultation with independent consulting actuaries performs an analysis of expected returns based on the plan s asset allocation. This forecast reflects the Company s and actuarial firm s expected return on plan assets for each significant asset class or economic indicator. The range of returns developed relies on forecasts and on broad market historical benchmarks for expected return, correlation, and volatility for each asset class. Also, as a part of the review, the Company s management in consultation with independent consulting actuaries performs an analysis of discount rates based on expected returns of high grade fixed income debt securities.

The Company offers a 401(k) defined contribution plan for all employees reaching minimum age and service requirements. The plan is voluntary and employee contributions are matched by the Company at a rate of 33.3% for the first 6% of compensation contributed by each employee. The Company s match totaled \$229,000 for 2007, \$210,000 for 2006 and \$217,000 for 2005. Administrative costs associated with the plan are absorbed by the Company.

The Company does not offer any postretirement programs other than pensions.

14. Commitments and Contingencies

A number of legal claims against the Company arising in the normal course of business were outstanding at December 31, 2007. Management, after reviewing these claims with legal counsel, is of the opinion that their resolution will not have a material adverse effect on the Company s consolidated financial position or results of operation.

15. Financial Instruments with Off-Balance Sheet Risk

The Company is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments primarily include commitments to originate and sell loans, standby letters of credit, unused lines of credit and unadvanced portions of construction loans. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheet. The contract or notational amounts of those instruments reflect the extent of involvement the Company has in these particular classes of financial instruments.

The Company s exposure to credit loss in the event of nonperformance by the other party to the financial instrument for loan commitments, standby letters of credit and unadvanced portions of construction loans is represented by the contractual amount of those instruments. The Company uses the same credit policies in making

54

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

commitments and conditional obligations as it does for on-balance sheet instruments. Financial instruments with off-balance sheet risk at December 31 are as follows:

Contract or Notational Amount

	2007 Dollars in	thou	2006 (sands)
Financial instruments whose contract amount represents credit risk:			
Commitments to originate 1-4 family mortgages	\$ 2,442	\$	2,305
Standby and commercial letters of credit	13,498		10,397
Unused lines of credit	155,378		168,290
Unadvanced portions of construction loans	27,294		16,793
Unadvanced portions of other loans	8,746		5,975

Commitments to originate loans, unadvanced portions of construction loans and unused letters of credit are generally agreements to lend to a customer provided there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer s creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management s credit evaluation of the borrower.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance by a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers.

Notes to Consolidated Financial Statements (Continued)

17. Fair Values of Financial Instruments

The following methods and assumptions were used by the Company in estimating fair values of its financial instruments.

Excluded from this disclosure are all nonfinancial instruments. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

CASH AND CASH EQUIVALENTS

The carrying amounts reported in the balance sheet for cash and cash equivalents approximate the fair values of these assets because of the short-term nature of these financial instruments.

SECURITIES HELD-TO-MATURITY AND SECURITIES AVAILABLE-FOR-SALE

The fair value of these securities, excluding certain state and municipal securities whose fair value is estimated at book value because they are not readily marketable, is estimated based on prices published in financial newspapers or received from pricing services, or bid quotations received from securities dealers.

LOANS

For variable-rate loans, that reprice frequently and with no significant change in credit risk, fair values are based on carrying amounts. The fair value of other loans is estimated using discounted cash flow analysis, based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Incremental credit risk for nonperforming loans has been considered.

ACCRUED INTEREST RECEIVABLE AND PAYABLE

The carrying amounts for accrued interest receivable and payable approximate fair values because of the short-term nature of these financial instruments.

DEPOSITS

The fair value of deposits, with no stated maturity, is equal to the carrying amount. The fair value of time deposits is based on the discounted value of contractual cash flows, applying interest rates currently being offered on the deposit products of similar maturities. The fair value estimates for deposits do not include the benefit that results from the low-cost funding provided by the deposit liabilities compared to the cost of alternative forms of funding (deposit base intangibles).

REPURCHASE AGREEMENTS AND OTHER BORROWED FUNDS

The fair value of repurchase agreements and other borrowed funds is based on the discounted value of contractual cash flows. The discount rate used is estimated based on the rates currently offered for other borrowed funds of similar remaining maturities.

SUBORDINATED DEBENTURES

The fair value of subordinated debentures is based on the discounted value of contractual cash flows. The discount rate used is estimated based on the rates currently offered for other subordinated debentures of similar remaining maturities.

56

CENTURY BANCORP, INC.

Notes to Consolidated Financial Statements (Continued)

OFF-BALANCE SHEET INSTRUMENTS

The fair values of the Company s unused lines of credit and unadvanced portions of construction loans, commitments to originate and sell loans and standby letters of credit are estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties credit standing.

The carrying amounts and fair values of the Company s financial instruments at December 31 are as follows:

	20	007	20	006
	Carrying		Carrying	
	Amounts	Fair Value	Amounts	Fair Value
		(Dollars in	thousands)

LIMITATIONS

Fair value estimates are made at a specific point in time, based on relevant market information and information about the type of financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Bank s entire holdings of a particular financial instrument. Because no active market exists for some of the Bank s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, cash flows, current economic conditions, risk characteristics and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions and changes in the loan, debt and interest rate markets could significantly affect the estimates. Further, the income tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on the fair value estimates and have not been considered.

Report of Independent Registered Public Accounting Firm

KPMG LLP

Independent Registered Public Accounting Firm 99 High Street Boston, Massachusetts 02110

The Board of Directors and Stockholders Century Bancorp, Inc.:

We have audited the accompanying consolidated balance sheets of Century Bancorp, Inc. and subsidiary as of December 31, 2007 and 2006, and the related consolidated statements of income, stockholders equity, and cash flows for each of the years in the three-year period ended December 31, 2007. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Century Bancorp, Inc. and subsidiary as of December 31, 2007 and 2006, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Century Bancorp, Inc. s internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 26, 2008 expressed an unqualified opinion on the effectiveness of the Company s internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

KPMG LLP

Independent Registered Public Accounting Firm 99 High Street
Boston, Massachusetts 02110

The Board of Directors and Stockholders Century Bancorp, Inc.:

We have audited Century Bancorp, Inc. s internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Century Bancorp, Inc. s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management s Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company s internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company s internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company s assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Century Bancorp, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2007, based on criteria established in *Internal Control Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Century Bancorp, Inc. as of December 31, 2007 and 2006, and the related consolidated statements of income, stockholders equity, and cash flows for each of the years in the three-year period ended December 31, 2007, and our report dated February 26, 2008 expressed an unqualified opinion on those

consolidated financial statements.

Boston, Massachusetts February 26, 2008

Table of Contents

Management s Report on Internal Control Over Financial Reporting

CENTURY BANCORP, INC.

400 Mystic Avenue Medford, Massachusetts 02155

We, together with the other members of Century Bancorp, Inc. and subsidiary (the Company), are responsible for establishing and maintaining adequate internal control over financial reporting. The Company s internal control system was designed to provide reasonable assurance to the Company s management and board of directors regarding the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company s management assessed the effectiveness of the Company s internal control over financial reporting as of December 31, 2007. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control Integrated Framework*. Based on our assessment we believe that, as of December 31, 2007, the Company s internal control over financial reporting is effective based on those criteria.

The Company s independent registered public accounting firm has issued an audit report on the effectiveness of the Company s internal control over financial reporting. Their report appears on page 62.

	1999.

The Audit Committee

The Audit Committee meets with KPMG LLP, the Company s independent registered public accounting firm, in connection with the annual audit and quarterly reviews of the Company s financial statements. The Audit Committee is composed of four directors, Joseph J. Senna, Chair, George R. Baldwin, Stephanie Sonnabend, and Jon Westling, each of whom the Board of Directors has determined is independent under current FINRA listing standards. The Board of Directors has determined that Mr. Senna qualifies as an audit committee financial expert , as that term is defined in Item 401(h) of Regulation S-K promulgated by the SEC. The Audit Committee reviews the findings and recommendations of the FRB, FDIC, and Massachusetts Bank Commissioner s staff in connection with their examinations and the internal audit reports and procedures for the Company and its subsidiaries. The Audit Committee met five times during 2007.

Audit Committee Report

The Audit Committee of the Company s Board of Directors is responsible for providing independent, objective oversight of the Company s accounting functions and internal controls. The Audit Committee operates under a written charter first adopted and approved by the Board of Directors in 2000. The Audit Committee has reviewed and reassessed its Charter. A copy of the Audit Committee Charter was last published in the 10-K for the period ending December 31, 2006.

Management is responsible for the Company s internal controls and financial reporting process. The independent registered public accounting firm is responsible for performing an independent audit of the Company s consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States) and to issue their reports thereon. The Audit Committee s responsibility is to monitor and oversee these processes.

66

Table of Contents

The Audit Committee has reviewed and discussed the audited financial statements with management and the independent registered public accounting firm. The Audit Committee has also discussed with KPMG LLP, the independent registered public accounting firm for the Company, the matters required to be discussed by Codification of Statements on Auditing Standards No. 114 (The Auditor's Communication With Those Charged With Governance). The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). Additionally, the Audit Committee has discussed with KPMG LLP the firm's independence.

Based on the review and discussions referred to in the paragraph above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company s Annual Report on Form 10-K for the last fiscal year for filing with the Securities and Exchange Commission.

/s/ Joseph J. Senna, Chair

/s/ George R. Baldwin

/s/ Stephanie Sonnabend

/s/ Jon Westling

Nominating Committee

The Company s Nominating Committee has three director members, Marshall I. Goldman, Stephanie Sonnabend and Jon Westling, each of whom the Board of Directors has determined to be independent under the NASDAQ current listing standards. The Nominating Committee operates pursuant to a written policy. The Committee has developed criteria for the selection of new directors to the Board, including but not limited to, diversity, age, skills, experience, time availability (including the number of other boards a director candidate sits on), NASDAQ listing standards, applicable federal and state laws and regulations, Board and Company needs and such other criteria as the Committee shall determine to be relevant.

Code of Ethics

The Company has adopted a Code of Ethics that applies to its principal executive officers, principal financial officer, principal accounting officer or persons performing similar functions. A copy of the Company s Code of Ethics may be obtained upon written request to Investor Relations, Century Bancorp, Inc., 400 Mystic Avenue, Medford, Massachusetts 02155.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on a review of the copies of Forms 3, 4 and 5 and amendments thereto, if any, and any written representations furnished to the Company, none of the Company s officers, Directors or beneficial owners of more than 10% of the Company s Class A Common Stock failed to file on a timely basis reports required by Section 16 of the Securities Exchange Act of 1934 during the fiscal year ended December 31, 2007, or in prior fiscal years.

ITEM 11. EXECUTIVE COMPENSATION

Report of the Compensation Committee

Composition and Responsibilities of the Compensation Committee

The Compensation Committee is a committee of the Board of Directors composed of Jon Westling as Chairman, Fraser Lemley and Roger S. Berkowitz, each of whom the Board has determined is independent as defined by the FINRA current listing standards.

The Compensation Committee oversees compensation programs applicable to employees at all levels of the Company and makes decisions regarding executive compensation that is intended to align total compensation with business objectives and enable the Company to attract, retain and reward individuals who are contributing to the Company s success.

The Compensation Committee reviews the Company s cash incentive, stock incentive, retirement, and benefit plans and makes its recommendations to the Board with respect to these areas.

All decisions with respect to executive and director compensation are approved by the Compensation Committee and recommended to the full Board for ratification.

The Company s Executive Compensation Conclusion

Based upon review, the Compensation Committee and the Board of Directors found the Company s Co-Chief Executive Officers , the Chief Financial Officer s and the other Named Executive Officers total compensation to be reasonable. In addition to the other factors noted, the Committee and the Board considered that the Company does not currently maintain severance contracts, maintains only one change of control provision and did not award cash or stock incentive awards for fiscal year 2007. It should be noted that when the Committee and the Board considers any component of executive compensation, the mix and aggregate amounts of all components are taken into consideration.

Compensation Discussion and Analysis

Philosophy and Objectives of Company

The Company s executive compensation philosophy is based on the following principles:

Compensation programs should be designed to attract and retain executives, to motivate them to achieve and to reward them appropriately for their performance.

Compensation should be competitive and equitable in light of the executive s responsibilities, experience, and performance and take into consideration the following:

Provide annual compensation that takes into account the Company s performance with respect to its financial and strategic objectives, the performance of functions and business areas under the executive s management and the results of established goals;

68

Table of Contents

Align the financial interests of the executive with those of shareholders by providing both short-term and long-term incentives;

Offer a total compensation program for each executive based on (i) the level of responsibility of the executive s position, (ii) the experience and skills necessary relative to the other senior management positions, (iii) comparison of compensation to similarly positioned executives of peer financial institutions; and

Evaluate the overall compensation of our executives in light of general economic and specific company, industry and competitive considerations.

Compensation Process

The Company maintains governance practices to ensure that it can reach its compensation-related decisions in an informed and appropriate manner.

Base salaries, which are the Company s major element of compensation, are reviewed for executive officers and employees at the regularly scheduled fall meeting of the Compensation Committee. At this meeting the Committee also reviews and adopts, as appropriate, proposals for the cash incentive plan for the new fiscal year, stock option grants, additions, amendments, modifications or terminations of retirement and benefit programs.

The Compensation Committee s process incorporates the following:

The Committee operates under a written charter which is periodically reviewed.

The Committee meets with representatives of management to review and discuss prepared materials and issues.

The Committee considers recommendations from the Co-Chief Executive Officers with respect to the compensation of the Company s Named Executive Officers.

Our independent compensation consultant attends Committee meetings as requested.

The Committee meets and deliberates privately without management present. Our consultant participates in these sessions as requested.

The Committee may consult with the non-management and independent directors regarding decisions affecting Executive compensation.

The Committee reports the Committee s major actions to the entire Board at the Board of Director s meeting in January.

The Committee recommends for approval to the Board of Directors the fees for our Board and Board Committees.

The Board of Directors then considers the report of the Compensation Committee and accepts or amends and approves or ratifies all matters presented for consideration.

To the extent permitted by applicable law, the Committee or the Board may delegate to management certain of its duties and responsibilities, including with respect to the adoption, amendment, modification or termination of benefit plans and with respect to the awards of stock options under certain stock plans.

Compensation Consultant

When making determinations regarding the compensation paid to our executives the Compensation Committee and the Board of Directors rely, in part, on the expertise of our independent compensation consultant, Thomas Warren & Associates, to conduct an assessment of our executive compensation. In addition to conferring with certain executives, the consultant works with internal company support staff to obtain compensation and market data. Thomas Warren identifies a group of peer companies in consideration of such factors as asset size, geography, type of financial services offered and the complexity and scope of operations and makes use of executive compensation comparisons, published surveys and peer analyses.

Table of Contents

The Compensation Committee and the Board of Directors took his recommendations into consideration when setting base salaries for fiscal 2007.

Compensation Components

With respect to Executive compensation, the Company reviews the mix of base salary, cash and stock based incentive plans and benefits for our individual executives, however, there is no specific formula for allocating between cash and non-cash compensation. The competitiveness of total compensation potential for our executives is reviewed against industry practices and the Company s peers as identified by our independent compensation consultant. The major elements of the Company s executive compensation package (i.e., base salary, cash and stock based incentive plans) are similar to those found in many companies.

Base Salary Compensation:

When evaluating executive base salary compensation, the Company takes into consideration such factors as:

The attainment of business and strategic goals and the financial performance of the Company;

The importance, complexity, and level of responsibility of the executive s position within the organizational structure;

The performance of the executive s business area s goals and the accomplishment of objectives for the previous year;

The difficulty of achieving desired results;

The value of the executive s unique skills, abilities and general management capabilities to support the long-term performance of the Company;

The executive s contribution as a member of the Executive Management Team.

While the Company reviews numerous quantitative and qualitative factors noted above when determining executive base salary compensation, the performance of the Company s stock is not generally considered a factor in this determination as the price of the Company s common stock is subject to various factors beyond the Company s control. The Company believes that the price of the stock in the long-term will reflect the Company s operating performance and how well our executives manage the Company.

Ultimately, the Compensation Committee and the Board of Directors have the authority to use discretion when making executive compensation determinations after review of all the information that they deem relevant.

Cash Incentive Plan:

The Company has a cash incentive plan that is designed to reward our executives and officers for the achievement of annual financial performance goals of the Company as well as business line, department and individual performance. The plan supports the philosophy that management be measured for their performance as a team in the attainment of these goals.

Recipients of incentive compensation are selected by the Compensation Committee and approved by the Board of Directors, upon the recommendation of management, as eligible to participate in the plan.

Awards are based upon the attainment of established objectives including profitability, expense control, sales volumes and overall job performance. Awards are generally not granted unless the Company achieves certain financial targets.

Upon recommendation of the Compensation Committee, the Board of Directors determines the amounts, if any, to be awarded. In recognition of the Company s improving performance, a select number of discretionary awards were granted for fiscal 2007. Those for the Co-Chief executive Officers and the other Named Executive Officers are noted on the Summary Compensation Table.

Table of Contents

Stock Option Plans:

During 2000 and 2004, common stockholders of the Company approved stock option plans (the Option Plans) to encourage ownership of Class A common stock of the Company by directors, officers and employees of the Company and its Affiliates and to provide additional incentives for them to promote the success of the Company's business through awards of or relating to shares of the Company's Class A common stock. Under the Option Plans, all officers and key employees of the Company are eligible to receive non-qualified and incentive stock options to purchase shares of Class A common stock. The Option Plans are administered by the Compensation Committee of the Board of Directors, whose members are ineligible to participate in the Option Plans. Based on management is recommendations, the Committee submits its recommendations to the Board of Directors as to persons to whom options are to be granted, the number of shares granted to each, the option price (which may not be less than 85% of the stocks trading value for non-qualified stock options, or the fair market value for incentive stock options, of the shares on the date of grant) and the time period over which the options are exercisable (not more than ten years from the date of the grant).

The Compensation Committee has complete discretion to make or select the manner of making all necessary determinations with respect to each option to be granted by the committee under the Option Plans including the director, employee, or officer to receive an Option. However, in determining the long-term incentive component (stock incentive plan) of executive compensation, the Committee does consider the Company s performance and relative shareholder return, the value of similar incentives awards at peer companies and the awards given in past years. The Committee may take into account the nature of the services provided by the respective officers, employees, and directors, their present and potential contributions to the success of the Company, and any other factors that the Compensation Committee, in its discretion, determines are relevant.

Option grants were not awarded in 2007.

Post-Employment Compensation

Defined Benefit Pension Plan:

The Company had a qualified Defined Benefit Pension Plan which had been offered to all employees reaching a minimum age and service requirement. In 2006 the Bank became a member of the Savings Bank Employee Retirement Association (SBERA) within which it maintains the qualified Defined Benefit Pension Plan. SBERA offers a common and collective trust as the underlying investment structure for pension plans participating in SBERA. The Trustee of SBERA, through SBERA is Investment Committee, selects investment managers for the common and collective trust portfolio. A professional advisory firm is retained by the Investment Committee to provide allocation analysis, performance measurement and to assist with manager searches. The overall investment objective is to diversify equity investments across a spectrum of investment types. (e.g. small cap, large cap, international, etc) and styles (e.g. growth, value, etc.). The Company has closed the plan to employees hired after March 31, 2006.

Benefits under the plan are based upon an employee s years of service and career average compensation. The 2007 increase in the actuarial present value of each Named Executive Officer s accumulated benefit under the plan is set forth in the Summary Compensation Table which appears below and the actuarial present value of each Named Executive Officer is set forth in the Pension Benefits Table which appears below.

401(k) Plan:

Our executives are eligible to participate in the Company s 401(k) contributory defined contribution plan. The Company contributes a matching contribution equal to 33.33% on the first 6% of the participant s compensation that has been contributed to the plan. One Co-Chief Executive Officer and four of the Named Executive Officers

participated in the 401(k) plan during fiscal 2007 and received matching contributions up to a maximum of \$4,500.

In fiscal 2007, the Company transferred administration of its 401(k) plan to SBERA who also operates the Company s Defined Benefit Pension Plan as noted above.

71

Table of Contents

Supplemental Executive Insurance/Retirement Income Plan:

The Company has a Supplemental Executive Insurance/Retirement Plan (the Supplemental Plan) which is limited to certain officers and employees of the Company.

Executive officers of the Company or its subsidiaries who have at least one year of service may participate in the Supplemental Plan. The Supplemental Plan is voluntary and participants are required to contribute to its cost. Under the Supplemental Plan, each participant will receive a retirement benefit based on compensation and length of service. Individual life insurance policies, which are owned by the Company, are purchased covering the lives of each participant.

Benefits under the plan are based upon an employee s years of service and highest three year average compensation. The 2007 increase in the actuarial present value of each Named Executive Officer s accumulated benefit under the plan is set forth in the Summary Compensation Table which appears below and the actuarial present value of each Named Executive Officer is set forth in the Supplemental Executive Insurance/Retirement Benefits Table which appears below.

The Company has entered into an agreement with Mr. Marshall Sloane to freeze his Supplemental Executive/Insurance Retirement Income Plan benefit. The frozen benefit is \$2,925,000 of pre-retirement death benefit and \$455,034 of annual retirement income. In consideration of this frozen benefit, the Company has acquired a life insurance policy providing a death benefit of \$25,000,000 upon the death of the survivor of Mr. Sloane or Mrs. Sloane.

Co-Chief Executive Officers Compensation

In recognition that the Co-Chief Executive Officers had foregone base salary increases in 2006, the company granted the Co-Chief Executive Officers a 3% increase in 2007. Based on the Company s improved performance, the Company determined that a \$15,000 cash bonus would also be payable to these officers. Total compensation granted to the Co-Chief Executive Officers during 2007 is described in the Summary Compensation Table in this statement.

Executive Officer Compensation

The Company also determined base salary increases for the Named Executive Officers other than that of the Co-Chief Executive Officers. Mr. David Woonton was awarded a 3.25% increase in base salary. In recognition of additional responsibilities assumed by Mr. Paul Evangelista, the Company determined that the compensation for his position should be comparable to that of Mr. David Woonton. Mr. Paul Evangelista was awarded a 17.3% increase paid between January and July. Mr. Brian Feeney has received a 3.25% increase in base salary. In April 2007, the Company hired William P. Hornby as Treasurer at an annual salary of \$160,000. In recognition of the Company s improving performance in 2007, cash bonuses were awarded to the above Named Executive Officers as noted in the Summary Compensation Table.

The Company based its determinations on its subjective analysis of each individual s performance and contribution to the corporation s goals and objectives and considered the quantitative and qualitative factors referenced above.

Executive Benefits

We limit additional executive benefits that we make available to our executive officers. Where such benefits are provided, they are intended to support other business purposes including facilitating business development efforts.

Consulting Services Agreements

Marshall M. Sloane

In May 2007, the Company renewed its consulting agreement with Marshall M. Sloane to provide the Company advice on strategic planning and operational management, assist with business development efforts and

72

Table of Contents

clients, participate in public relations and community outreach efforts and provide other services as may be requested by the Board of Directors. The Company agreed to pay Mr. Sloane an annual contract fee of \$275,000 per year with provisions to reimburse Mr. Sloane for all related business expenses and the expense of obtaining health insurance comparable to that which the Company provided while he was Chief Executive Officer.

Paul V. Cusick, Jr.

Upon the appointment of William P. Hornby, the Company entered into a consultancy agreement with Mr. Cusick. The Company has agreed to pay Mr. Cusick an annual consulting fee of \$85,000 until August 1, 2009.

Employment Agreement

The Company has entered into an employment agreement with Mr. David Woonton. The agreement grants two years of service payable upon a change of control of the Company.

Report of the Compensation Committee

The Compensation Committee has reviewed and discussed the foregoing Report of the Compensation Committee with management. In reliance on the reviews and discussions referred to above, the Compensation Committee recommended to the Board, and the Board has approved, that the CD&A be included in the proxy statement for the year ended December 31, 2007 for filing with the SEC.
