SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2006

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-32168

GLOBAL SIGNAL INC.

DELAWARE
(State or other jurisdiction of
incorporation or organization)

65-0652634
(I.R.S. Employer
Identification No.)

301 North Cattlemen Road, Suite 300, Sarasota, Florida 34232-6427
(Address of principal executive offices)

Telephone: (941) 364-8886
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):
Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

At August 1, 2006, Registrant had outstanding 70,219,342 shares of \$0.01 par value common stock.

Table of Contents

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Business

The accompanying unaudited condensed consolidated financial statements reflect the financial position, results of operations and cash flows of Global Signal Inc. and its wholly owned subsidiaries. Global Signal Inc. owns, leases and manages communications towers and other communications sites and leases space on them to providers of communications and broadcast services, such as wireless telephony, paging, mobile radio, wireless data transmission, radio and television broadcasting, and to operators of private networks such as federal, state and local government agencies. For the three and six months ended June 30, 2006, Sprint Corporation comprised 38.3% and 38.4%, respectively, and Cingular Wireless comprised 15.7% and 15.6%, respectively, of our site revenues.

As used herein, unless the context otherwise requires, “we,” “us,” “our,” “Company,” or “Global Signal” refers to Global Inc. and its wholly owned consolidated subsidiaries. All significant intercompany balances and transactions have been eliminated. “Fortress” refers to Fortress Investment Holdings LLC and certain of its affiliates, “Greenhill” refers to Greenhill Capital Partners, L.P. and affiliated investment funds, and “Abrams” refers to Abrams Capital, LLC and certain of its affiliates. Since November 1, 2002, Fortress has been our largest stockholder, Greenhill has been our

second largest stockholder and Abrams has been our third largest stockholder.

On May 11, 2004, we completed our formation of an UPREIT structure whereby we own substantially all of our assets and conduct our operations through an operating partnership, Global Signal Operating Partnership, L.P. (“Global Signal OP”). Global Signal Inc. is the special limited partner of Global Signal OP. Global Signal GP LLC, our wholly owned subsidiary, is the managing general partner and, as such, has the power to manage and conduct the business of Global Signal OP. Global Signal Inc. holds 99% of the partnership interests and Global Signal GP LLC holds 1% of the partnership interests in Global Signal OP. The partnership agreement of Global Signal OP provides that it shall distribute cash flows from its operations to its limited partners and the managing general partner in accordance with their relative percentage interests. The distributions that we receive from Global Signal OP are, among other things, used to make dividend distributions to our stockholders.

Results of operations for any interim period are not necessarily indicative of results of any other periods or for the year. The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States for interim financial statements and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and notes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for fair presentation have been included. Certain amounts from the prior year period have been reclassified for consistency with current presentation. These reclassifications were not material to the condensed consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Global Signal’s audited consolidated financial statements and notes thereto for the year ended December 31, 2005, included in Global Signal’s Annual Report on Form 10-K for the year ended December 31, 2005, filed with the Securities and Exchange Commission on March 16, 2006.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles. The principal accounting policies are set forth below:

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and accompanying notes. Actual results may differ from those estimates and such differences could be material.

6

Table of Contents

Stock-Based Compensation

Effective January 1, 2006, we adopted Statement of Financial Accounting Standard (“SFAS”) No. 123(R) Share-Based-Payments, using the modified prospective transition method to account for our employee stock options. Under that transition method, compensation costs for the portion of awards for which the requisite service had not yet been rendered, and that were outstanding as of the adoption date, will be recognized as the service is rendered based on the grant date fair value of those awards calculated under SFAS No. 123. Prior period results are not restated. The adoption of SFAS No. 123(R) had no impact on net income or earnings per share. In connection with the adoption of

SFAS No. 123(R), we reclassified \$1.1 million of deferred stock-based compensation expense, which relates entirely to unvested restricted stock, to additional paid-in capital as of January 1, 2006. See Note 7 for disclosures related to stock-based compensation.

New Accounting Pronouncements

Effective January 1, 2006, we adopted Financial Accounting Standards Board (“FASB”) Interpretation No. 47 (“FIN 47”), Accounting for Conditional Asset Retirement Obligations. This interpretation clarifies that the term “conditional asset retirement obligation” as used in SFAS No. 143, Accounting for Asset Retirement Obligations, refers to a legal obligation to perform an asset retirement activity in which the timing and (or) method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation is unconditional even though uncertainty exists about the timing and (or) method of settlement. Our asset retirement obligations are within our control as to timing and method as they relate to the removal of our communications towers from leased land; therefore the adoption of this interpretation did not impact our financial statements.

Effective January 1, 2006, we adopted FASB Staff Position 13-1, Accounting for Rental Costs Incurred during a Construction Period. This staff position concludes that rental costs associated with ground or building operating leases that are incurred during a construction period should be recognized as rental expense. We had already accounted for such rental costs in the manner prescribed by the staff position, so this staff position did not impact our financial statements.

In June 2006, the FASB issued Interpretation No. 48 (“FIN 48”), Accounting for Uncertainty in Income Taxes. This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This standard must be adopted as of January 1, 2007. We anticipate that this standard will have an immaterial effect on our financial statements due to the fact that as a REIT our income taxes are immaterial.

Reclassifications and Revisions

For the first half of 2006, we have separately disclosed the operating, investing and financing portions of the cash flows attributed to discontinued operations, which in the prior period were not separately reported. Certain amounts from the prior year have been reclassified for consistency with current year presentation. All other reclassifications relate to discontinued operations. These reclassifications and revisions were not material to the consolidated financial statements.

3. Discontinued Operations

As a part of our ongoing operational reviews, we make decisions to divest under-performing towers or other communications sites, including three and 22 tower sites in the three and six months ended June 30, 2006, and 42 tower sites in the three and six months ended June 30, 2005. At June 30, 2006, we had 113 tower sites that are being marketed for sale. Of these 113 sites, 108 are included in continuing operations and classified as held for use, and five are included in discontinued operations and classified as held for sale, respectively.

Edgar Filing: GLOBAL SIGNAL INC - Form 10-Q

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, we classified the operating results of the five sites held for sale in discontinued operations and other previously terminated sites as discontinued operations in the accompanying condensed consolidated financial statements as of June 30, 2006 and all prior periods have been reclassified to conform to the current quarter's presentation with respect to these sites.

Assets held for sale of \$0.1 million and \$0.8 million are included in fixed assets, net in the condensed consolidated balance sheets as of June 30, 2006 and December 31, 2005, respectively.

Results of operations for these discontinued sites for the three and six months ended June 30, 2006 and 2005 are as follows (in thousands):

	Three Months Ended June		Six Months Ended June	
	30,	30,	30,	30,

Table of Contents

As noted in the table above, the February 2004 mortgage loan, the bridge loan and the \$200.0 million acquisition credit facility were repaid in full with a portion of the net proceeds from the February 2006 mortgage loan described below. In accordance with SFAS No. 6 Classification of Short-Term Obligations Expected to be Refinanced, we reclassified the current portion of debt at December 31, 2005 under these three loans to long-term.

The following table shows the maturities of long-term debt for the five twelve month periods after June 30, 2006 (in thousands):

For the twelve months ending June 30,	
2007	\$ 496
2008	140

2009	18
2010	293,844
2011	1,550,000
	\$ 1,844,498

The February 2006 Mortgage Loan

On February 28, 2006, three of our wholly owned special purpose entities, Global Signal Acquisitions II LLC, Global Signal Acquisitions LLC and Pinnacle Towers LLC (and its 13 subsidiaries), borrowed a total of \$1.55 billion under a mortgage loan made payable to a newly formed trust, Global Signal Trust III (“February 2006 mortgage loan”), that issued \$1.55 billion in fixed-rate commercial mortgage pass-through certificates to provide fixed-rate financing for the assets leased in May 2005 from Sprint Corporation (the “Sprint Towers”), the communications sites originally financed with the February 2004 mortgage loan, and for other communications sites acquired from April 2005 to January 2006. We have continued to consolidate our subsidiaries, but have not consolidated Global Signal Trust III in our financial statements. The proceeds of the February 2006 mortgage loan were used to repay the \$850.0 million bridge loan, to repay \$402.7 million (the total then-outstanding borrowings under the February 2004 mortgage loan), to repay \$151.8 million (the total then-outstanding borrowings under the acquisition credit facility) and to provide \$145.5 million of funds for working capital and general corporate purposes, including payment of fees and expenses of the offering and potential future acquisitions. The borrowers and their direct parent, Global Signal Holdings V LLC, are separate legal entities from Global Signal Inc., with their own assets, which are not available to satisfy the debts and other obligations of Global Signal Inc. or any of its other affiliates.

The principal amount of the February 2006 mortgage loan is divided into seven tranches, each having a different level of seniority. Interest accrues on the February 2006 mortgage loan at a weighted average interest rate of approximately 5.7%. The effective interest rate on the February 2006 mortgage loan, including the benefit from terminating the 2005 interest rate swaps which qualified for hedge accounting and the amortization of deferred debt issuance costs, is approximately 5.5%. The February 2006 mortgage loan requires monthly payments of interest until its repayment date in February 2011. The February 2006 mortgage loan is secured by, among other things, (1) mortgage liens on the borrowers’ interests (fee, leasehold or easement) in over 80% of their communications sites, (2) a security interest in substantially all of the borrowers’ personal property and fixtures and (3) a pledge of the capital stock (or equivalent equity interests) of each of the borrowers (including a pledge of the capital stock of Pinnacle Towers LLC, Global Signal Acquisitions LLC and Global Signal Acquisitions II LLC from its direct parent, Global Signal Holdings V LLC).

On a monthly basis, the excess cash flows from the securitized entities, after the payment of principal, interest, reserves and expenses, are distributed to us. If the debt service coverage ratio (“DSCR”), defined in the February 2006 mortgage loan as the net cash flow for the sites for the immediately preceding twelve calendar month period divided by the amount of interest that we will be required to pay over the succeeding twelve months on the February 2006 mortgage loan, as of the end of any calendar quarter falls to 1.35 times or lower, then all excess cash flow will be deposited into a reserve account instead of being released to us. The funds in the reserve account will not be released to us until the DSCR exceeds 1.35 times for two consecutive calendar quarters. If the DSCR falls below 1.20 times as of the end of any

calendar quarter, then all funds on deposit in the reserve account along with future excess cash flows will be applied to prepay the February 2006 mortgage loan with applicable prepayment penalties.

We may not prepay the February 2006 mortgage loan in whole or in part at any time prior to February 28, 2008, the second anniversary of the closing date, except in limited circumstances (such as the occurrence of certain casualty and condemnation events relating to the communications sites securing the February 2006 mortgage loan). Thereafter, prepayment is permitted provided it is accompanied by any applicable prepayment consideration. If the prepayment occurs within three months of the February 2011 monthly payment date, no prepayment consideration is due.

The February 2006 mortgage loan documents include covenants customary for mortgage loans subject to rated securitizations. Among other things, the borrowers are prohibited from incurring additional indebtedness or further encumbering their assets.

The December 2004 Mortgage Loan

On December 7, 2004, our subsidiary Pinnacle Towers Acquisition Holdings LLC and five of its direct and indirect subsidiaries issued a \$293.8 million mortgage loan to a newly formed trust, Global Signal Trust II (the "December 2004 mortgage loan"). Global Signal Trust II ("Trust II") then issued an identical amount of commercial mortgage pass-through certificates in a private transaction. We have continued to consolidate our subsidiaries, but have not consolidated Trust II in our financial statements. The net proceeds of the December 2004 mortgage loan were used primarily to repay the \$181.7 million of then-outstanding borrowings under our credit facility and to partially fund a \$120.7 million site acquisition reserve account which was used to acquire additional qualifying wireless communications sites over the six-month period following the December 2004 closing. The borrowers and their direct parent, Global Signal Holdings III LLC, are separate legal entities from Global Signal Inc., with their own assets, which are not available to satisfy the debts and other obligations of Global Signal Inc. or any of its other affiliates.

The principal amount of the December 2004 mortgage loan is divided into seven tranches, each having a different level of seniority. Interest accrues on each tranche at a fixed rate per annum. The weighted average interest rate on the various tranches is approximately 4.7%. The December 2004 mortgage loan requires monthly payments of interest until its maturity in December 2009 when the unpaid principal balance will be due. The December 2004 mortgage loan is secured by, among other things, (1) mortgage liens on the borrowers' interests (fee, leasehold or easement) in substantially all of their wireless communications sites, (2) a security interest in substantially all of the borrowers' personal property and fixtures and (3) a pledge of the capital stock (or equivalent equity interests) of each of the borrowers (including a pledge of the capital stock of Pinnacle Towers Acquisition Holdings LLC from its direct parent, Global Signal Holdings III LLC).

On a monthly basis, the excess cash flows from the securitized entities, after the payment of principal, interest, reserves and expenses, are distributed to us. If the debt service coverage ratio ("DSCR"), defined in the December 2004 mortgage loan as the net cash flow for the sites for the immediately preceding twelve calendar month period divided by the amount of principal and interest that we will be required to pay over the succeeding twelve months on the December 2004 mortgage loan, as of the end of any calendar quarter falls to 1.30 times or lower, then all excess cash flow will be deposited into a reserve account instead of being released to us. The funds in the reserve account will not be released to us until the DSCR exceeds 1.30 times for two consecutive calendar quarters. If the DSCR falls below 1.15 times as of the end of any calendar quarter, then all funds on deposit in the reserve account along with future excess cash flows will be applied to prepay the December 2004 mortgage loan.

We may not prepay the December 2004 mortgage loan in whole or in part at any time prior to December 7, 2006, the second anniversary of the closing date, except in limited circumstances (such as the occurrence of certain casualty and condemnation events relating to the communications sites securing the December 2004 mortgage loan). Thereafter, prepayment is permitted provided it is accompanied by any applicable prepayment consideration. If the prepayment occurs within three months of the December 2009 monthly payment date, no prepayment consideration is due.

Table of Contents

The December 2004 mortgage loan documents include covenants customary for mortgage loans subject to rated securitizations. Among other things, the borrowers are prohibited from incurring additional indebtedness or further encumbering their assets.

The February 2004 Mortgage Loan

On February 5, 2004, one of our subsidiaries, Pinnacle Towers LLC and thirteen of its direct and indirect subsidiaries, issued a \$418.0 million mortgage loan to a newly formed trust, Global Signal Trust I (“February 2004 mortgage loan”). On February 28, 2006, a portion of the net proceeds from the February 2006 mortgage loan was used to repay the February 2004 mortgage loan in full. A prepayment penalty of \$7.0 million was paid and recognized in the first quarter of 2006 as loss on early extinguishment of debt. In addition, unamortized deferred debt issuance costs of \$9.5 million and accumulated other comprehensive loss of \$3.4 million related to the elimination of the portion for interest rate swaps related to the February 2004 mortgage loan (see Note 5), respectively, were expensed in the first quarter of 2006 as loss on early extinguishment of debt.

Sprint Bridge Financing

At the closing of the Sprint Transaction in May 2005, we executed the \$850.0 million bridge loan financing with Morgan Stanley Asset Funding Inc. and Bank of America, N.A. The borrower was a newly created entity, Global Signal Acquisitions II LLC, under our indirect control, which owned 100% of our interest in the Sprint Towers. On February 28, 2006, a portion of the net proceeds from the February 2006 mortgage loan was used to repay the Sprint bridge loan in full. Unamortized deferred debt issuance costs of \$1.0 million related to the Sprint bridge loan were expensed in the first quarter of 2006 as loss on early extinguishment of debt.

Acquisition Credit Facility

On April 25, 2005, our wholly owned subsidiary, GSA, entered into a 364-day \$200.0 million credit facility, which we refer to as the acquisition credit facility, with Morgan Stanley Asset Funding Inc. and Bank of America, N.A. to provide funding for the acquisition of additional communications sites. On February 28, 2006, a portion of the net proceeds from the February 2006 mortgage loan was used to repay in full and terminate the acquisition credit facility. Unamortized deferred debt issuance costs of \$0.2 million related to the acquisition credit facility were expensed in the first quarter of 2006 as loss on early extinguishment of debt.

Revolving Credit Agreement

On December 1, 2005, Global Signal OP entered into a 364-day \$15.0 million revolving credit facility pursuant to a revolving credit agreement, which we refer to as the revolving credit agreement, with Morgan Stanley Asset Funding Inc. and Bank of America, N.A. to provide funding for working capital and other corporate purposes.

At June 30, 2006 and December 31, 2005, there were no balances outstanding under the revolving credit facility. Interest on the \$15.0 million revolving credit facility is payable, at Global Signal OP’s option, at either LIBOR plus 3.0% or the bank’s base rate plus 2.0%. Interest is payable at the end of the interest period or at the time of principal repayments. Principal on the revolving credit facility may be paid, in whole or in part, at any time and must be repaid by the loan maturity date, December 1, 2006.

The revolving credit agreement and the related ancillary documentation contain covenants and restrictions customary for a facility of this type, including a limitation on our consolidated indebtedness at approximately \$1.875 billion and a requirement to limit our ratio of consolidated indebtedness to consolidated EBITDA, as defined in the loan document, to a ratio of 7.65 to 1.0. The revolving credit agreement is guaranteed by us, Global Signal GP, LLC and certain subsidiaries of Global Signal OP. It is secured by a pledge of Global Signal OP's assets, including a pledge of 65% of its interest in our United Kingdom subsidiary, 100% of its interest in certain other domestic subsidiaries, a pledge by us and Global Signal GP, LLC of our interests in Global Signal OP, and a pledge by us of 65% of our interest in our Canadian subsidiary.

Table of Contents

5. Interest Rate Swap Agreements

2005 Interest Rate Swaps

On January 11, 2005, in anticipation of the issuance of interim bridge financing and later a third mortgage loan to finance the acquisition of additional communications sites we expected to acquire during 2005, we entered into six forward-starting interest rate swap agreements with Morgan Stanley as counterparty to hedge the variability of future interest rates on our anticipated mortgage financing. Concurrent with the pricing of our February 2006 mortgage loan, we terminated our six interest rate swaps and received a payment, excluding accrued interest, of \$8.1 million, of which \$4.3 million was recorded as accumulated other comprehensive income and is being amortized as a reduction of interest expense on the February 2006 mortgage loan using the effective interest method over five years, the life of the February 2006 mortgage loan.

On February 2, 2005 and March 21, 2005, in connection with the Sprint Transaction, we entered into ten forward-starting interest rate swap agreements with Bank of America, N.A. as counterparty, in anticipation of securing \$850.0 million of bridge financing, which was expected to be replaced by a mortgage loan, for a total notional value of \$850.0 million. Concurrent with the pricing of our February 2006 mortgage loan, we terminated our ten interest rate swaps and received a payment, excluding accrued interest, of \$25.8 million, which was recorded as accumulated other comprehensive income and which is being amortized as a reduction of interest expense on the February 2006 mortgage loan using the effective interest method over five years, the life of the February 2006 mortgage loan.

The effective interest rate on the February 2006 mortgage loan including the effect of terminating the swaps and the amortization of deferred debt issuance costs is approximately 5.5%. For the three and six months ended June 30, 2006, amortization of accumulated other comprehensive income of \$1.7 million and \$2.3 million, respectively, was recorded as an offset to interest expense.

2004 Interest Rate Swaps

On March 26, 2004, in anticipation of a future financing, we entered into four forward-starting interest rate swaps with Morgan Stanley as counterparty to hedge the variability of future interest rates on the financing. On August 27, 2004, in anticipation of a future financing, we entered into two additional forward-starting interest rate swaps with Morgan Stanley as counterparty to hedge the variability of future interest rates on the financing.

Concurrent with the pricing of the December 2004 mortgage loan, we terminated our six interest rate swaps and received a net payment of \$2.0 million which was recorded as part of accumulated other comprehensive income and is being amortized as a reduction of interest expense using the effective interest method over five years, the life of the December 2004 mortgage loan. The effective interest rate on the December 2004 mortgage loan, including the

proceeds from terminating the interest rate swaps and the amortization of deferred debt issuance costs, is approximately 5.0%. For the three and six months ended June 30, 2006, amortization of accumulated other comprehensive income of \$0.1 million and \$0.2 million, respectively, was recorded as an offset to interest expense. For the three and six months ended June 30, 2005, amortization of accumulated other comprehensive income of \$0.1 million and \$0.2 million, respectively, was recorded as an offset to interest expense.

2003 Interest Rate Swap

On December 11, 2003, in anticipation of the issuance of the February 2004 mortgage loan, we entered into a forward-starting interest rate swap agreement (the "December 2003 swap") with Morgan Stanley as the counterparty to hedge the variability of future interest payments under the anticipated February 2004 mortgage loan. The December 2003 swap was terminated in connection with the issuance of the February 2004 mortgage loan on February 5, 2004 at a cost of \$6.2 million which was recorded as part of accumulated other comprehensive loss and was being amortized as interest expense using the effective interest method over five years, the expected life of the February 2004 mortgage loan. The effective interest rate on the February 2004 mortgage loan, including the cost of terminating the interest

13

Table of Contents

rate swap and the amortization of deferred debt issuance costs, was approximately 6.0%. For the six months ended June 2006 and 2005, amortization of accumulated other comprehensive loss of \$0.2 million and \$0.7 million, respectively, was recorded as interest expense. For the three months ended June 30, 2005, amortization of accumulated other comprehensive income of \$0.3 million, was recorded as interest expense. On February 28, 2006, the February 2004 mortgage loan was repaid in full from a portion of the net proceeds from the February 2006 mortgage loan (see Note 4), and the remaining \$3.4 million of unamortized accumulated other comprehensive loss related to the 2003 interest rate swap was recorded in the first quarter of 2006 as loss on early extinguishment of debt.

6. Commitments and Contingencies

Purchase Commitments

As of June 30, 2006, we signed master services agreements with Stratos VSAT, Inc. and Hark Tower Systems, Inc. which require us to purchase approximately \$6.5 million in satellite data monitoring equipment. As of June 30, 2006, we purchased \$4.9 million of equipment under these commitments. As of June 30, 2006, we signed an agreement with Intuit, Inc. to purchase and install lease and asset management software. The amount of the purchase commitment is \$1.2 million of which \$0.2 million has been paid. As of June 30, 2006, we also had outstanding purchase agreements to acquire three communications sites from various sellers for a total estimated purchase price of \$4.2 million, including estimated fees and expenses, and 139 land parcels for \$22.2 million, including estimated fees and expenses. As of June 30, 2006, we also had letters of intent to purchase seven additional communications sites for approximately \$7.7 million, including estimated fees and expenses. Subsequent to June 30, 2006, we completed the acquisition of one communication site.

Earn Outs

A number of our asset purchase agreements provide for additional monies to be paid to the sellers based on future lease commencements during a limited period after the acquisition is completed, generally one year or less. The aggregate amount of these contingent purchase prices is not expected to be material for the acquisitions we have

closed through June 30, 2006. As of June 30, 2006, we had no accruals for any such additional acquisition payments. The maximum additional contingent payments on closed acquisitions were approximately \$0.9 million at June 30, 2006.

Legal Matters

We are involved in litigation incidental to the conduct of our business. We believe that none of such pending litigation, or unasserted claims of which we have knowledge, will have a material adverse effect on our business, financial condition, results of operations or liquidity.

7. Stockholders' Equity

Dividends

On March 15, 2006, our board of directors declared a dividend of \$0.525 per share of our common stock for the three months ended March 31, 2006, which was paid on April 20, 2006, to stockholders of record as of April 6, 2006. The entire dividend of \$36.7 million was a reduction of additional paid-in capital. On June 15, 2006, our board of directors declared a dividend of \$0.525 per share of our common stock for the three months ended June 30, 2006, which was paid on July 20, 2006, to stockholders of record as of July 6, 2006. The entire dividend of \$36.9 million was a reduction of additional paid-in capital.

Stock-Based Compensation

Prior to our January 1, 2006 adoption of SFAS No. 123(R), we accounted for stock option and restricted stock grants to employees and stock grants to directors using the intrinsic value method under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees. Under

14

Table of Contents

APB No. 25, no compensation costs were recognized relating to the stock option grants to employees if the exercise price of the options awarded was equal to or greater than the fair value of the common stock on the dates of grant. We used and will continue to use under SFAS No. 123(R) the accelerated method to recognize compensation expense of our equity-based awards with graded vesting. For restricted stock grants under APB No. 25, the unamortized portion of the related compensation expense was recorded as deferred stock compensation expense, a contra account within stockholders' equity. In connection with the adoption of SFAS No. 123(R), we reclassified \$1.1 million of deferred stock-based compensation expense, which relates entirely to unvested restricted stock, to additional paid-in capital as of January 1, 2006. Prior to adopting SFAS No. 123(R) as part of a restructuring of compensation, we amended a former officer's option agreement to cancel options relating to 35,875 shares with an exercise price of \$8.53 per share and options relating to 107,625 shares with an exercise price of \$18.00 per share, and accelerated vesting of options relating to 46,125 shares with an exercise price of \$8.53 per share and options relating to 138,375 shares with an exercise price of \$18.00 per share.

Had compensation costs for employee stock option activity been determined based on the fair value at the dates of grant for the periods prior to 2006, our net loss for the three and six months ended June 30, 2005, would have increased to the pro forma amounts indicated below (in thousands, except per share data):

Edgar Filing: GLOBAL SIGNAL INC - Form 10-Q

Pro forma net loss per share	\$ (0.16)	\$ (0.11)

Stock Incentive Plan

The Global Signal Inc. Omnibus Stock Incentive Plan (the “Plan”) became effective November 1, 2002, and was amended on December 21, 2005. The Plan provides for awards consisting of stock options, restricted stock grants or deferred stock awards (“Awards”) to employees, non-employee directors, and other persons who perform services for us. The Plan is administered by the board of directors or, at the board of directors’ sole discretion, by a committee consisting solely of persons who are non-employee directors and outside directors (the “Committee”).

On February 11, 2004, the stockholders approved an increase of 2,000,000 shares in the shares available under the Plan and as of January 1, 2005, subsequent annual increases of the lesser of 1,000,000 shares or 2% of the then-outstanding number of shares of common stock on the last day of the immediately preceding fiscal year. The maximum number of shares of common stock that may be made subject to awards granted under the Plan was 7,715,000 at December 31, 2005. On January 1, 2006, the number of shares available increased by 1,000,000 pursuant to the annual increases provision discussed above. In the event of any change in our capitalization, an equitable substitution or proportionate

15

Table of Contents

adjustment shall be made in the aggregate number and/or kind of shares of common stock reserved for issuance under the Plan and the kind, number and/or option price at the sole discretion of the Committee. In addition, if any Award expires or terminates without having been exercised, the shares of common stock subject to the Award again become available for grant under the Plan.

The Committee is authorized to grant to eligible persons incentive stock options (“ISO”) or nonqualified stock options (“NSO”). The term of an ISO cannot exceed 10 years, and the exercise price of any ISO must be equal to or greater than the fair market value of the shares of common stock on the date of the grant. Any ISO granted to a holder of 10% or more of the combined voting power of our capital stock must have an exercise price equal to or greater than 110% of

the fair market value of the common stock on the date of grant and may not have a term exceeding five years from the grant date. The Committee shall determine the exercise price and the term of an NSO on the date that the NSO is granted.

Options shall become exercisable in whole or in part on the date or dates specified by the Committee. The Committee, in its sole discretion, may accelerate the date or dates on which an option becomes exercisable. Each option shall expire on such date or dates as the Committee shall determine at the time the option is granted. Upon termination of an optionee's employment for retirement, death or disability, options granted to the employee will expire one year from the date of termination. Upon termination of an optionee's employment for involuntary termination other than for cause, options granted to the employee will expire ninety days plus the number of days the employee is prohibited from trading in Global Signal's shares because of insider trading rules or other arrangements, after the date of termination. Upon termination of an optionee's employment for any other reasons, options granted to the employee will expire on the expiration date specified in the agreement. If an optionee's employment is terminated for cause (as defined in the Plan), all of such person's options shall immediately terminate.

The Committee may also grant to an eligible person an award of common stock subject to future service and such other restrictions and conditions as the Committee may determine, which may be either restricted stock, wherein the recipient receives the benefits of ownership (such as voting and the receipt of dividends) prior to the vesting of the stock (other than the right to sell or transfer the stock), or deferred stock, wherein the recipient does not have any benefits of ownership prior to the vesting of the stock (as applicable, the "Restricted Stock" or the "Deferred Stock"). The Committee will determine the terms of such Restricted Stock and/or Deferred Stock, including the price, if any, to be paid by the recipient for the stock, the restrictions placed on the shares and the time or times when the restrictions will lapse, at the time of the granting thereof.

A summary of our stock option activity under the Plan for the six months ended June 30, 2006, is presented in the table below. Net proceeds from the exercise of stock options for the six months ended June 30, 2006, were \$4.7 million which was recorded in common stock and additional paid-in capital. The fair value at the time of issuance of the options that vested during the six months ended June 30, 2006, was \$2.1 million. The intrinsic value at the time of exercise of the stock options exercised during the six months ended June 30, 2006, was \$47.9 million.

	Number of Shares Subject to Option	Exercise Price Range	Weighted Average Exercise Price
Under option, December 31, 2005	1,317,134	\$4.26-\$18.00	\$ 9.41
Granted	—	N/A	N/A
Forfeited	—	N/A	N/A
Exercised	(1,317,134)	\$4.26-\$18.00	\$ 9.41
Under option, June 30, 2006	—	N/A	N/A

All shares that were issued upon option exercises were newly issued shares.

Edgar Filing: GLOBAL SIGNAL INC - Form 10-Q

The following table discloses the number of shares subject to option that are unvested and the weighted average fair value of these shares at the date of grant as of June 30, 2006 and December 31, 2005:

	Number of Shares Subject to Option	Weighted Average Fair Value at Date of Grant
Unvested balance at December 31, 2005	459,208	\$ 4.57
Vested	(459,208)	\$ 4.57
Unvested balance at June 30, 2006	—	N/A

Other Stock Options

In connection with the initial public offering and to compensate Fortress and Greenhill for their successful efforts in raising capital in the offering, in March 2004 we granted options to Fortress and Greenhill, or their respective affiliates, to purchase the number of shares of our common stock equal to an aggregate of 10% of the number of shares issued in the initial public offering in the following amounts (1) for Fortress (or its affiliates), the right to acquire the number of shares equal to 8% of the number of shares issued in the initial public offering, including the over-allotment and (2) for Greenhill (or its affiliate), the right to acquire the number of shares equal to 2% of the number of shares issued in the initial public offering, including the over-allotment, all at an exercise price per share equal to the initial offering price per share. Upon consummation of the offering, the number of shares and exercise price were thereby fixed at 805,000 shares at \$18.00 per share, respectively. All of the options were immediately vested upon the initial public offering and are exercisable for ten years from June 8, 2004. We recognized the fair value of these options using the Black-Scholes method on the offering date as a cost of the offering of \$1.9 million by netting it against the net proceeds of the offering. These options were granted outside of the Plan, and therefore are excluded from the Plan activity shown above. Greenhill exercised 128,800 of its options in March 2006. At June 30, 2006, 644,000 of the Fortress options remain outstanding.

Common Stock Grants

In the first quarter of 2006, we issued 28,488 shares of restricted stock to certain employees. The grants vest 33.3%, 33.3% and 33.4% on December 31, 2008, 2009 and 2010, respectively. We valued the restricted stock awards at \$1.3 million on the dates of grant using the current market price. This amount will be amortized as non-cash stock-based compensation expense over the vesting period using the accelerated method, over a weighted average period of approximately three years. Also, 58,540 restricted shares issued in 2004 and 2006 were forfeited in the first half of 2006. Prior to the adoption of SFAS No. 123(R), we accounted for forfeitures at the time they occurred. Under SFAS No. 123(R), we estimate forfeitures each quarter.

In April 2006, our new Chief Financial Officer was granted 120,000 shares of restricted stock of which 20% vested immediately and 20% vests on December 31, 2007, 2008, 2009 and 2010, respectively. In May 2006, our new Chief Executive Officer was granted 200,000 shares of restricted stock, of which 20% vested immediately and 20% vests on December 31, 2007, 2008, 2009 and 2010, respectively.

In June 2006, six executives were granted a total of 65,000 shares of restricted stock which vest 20% on December 31, 2006, 2007, 2008, 2009 and 2010, respectively.

In July 2006, one executive was issued 12,500 shares of restricted stock which vest 20% on December 31, 2006, 2007, 2008, 2009 and 2010, respectively.

Table of Contents

The following table discloses the number of unvested shares of restricted stock and the weighted average fair value of these shares at date of grant:

	Restricted Stock	Weighted Average Fair Value at Date of Grant
Unvested balance at December 31, 2005	54,917	\$ 26.02
Granted	413,488	\$ 48.09
Vested	(64,000)	\$ 49.15
Forfeited	(58,540)	\$ 28.86
Unvested balance at June 30, 2006	345,865	\$ 47.64

As of June 30, 2006, total unearned compensation on stock-based awards was \$15.4 million and the weighted average vesting period is 2.9 years.

Deferred Shares

On January 3, 2006, we entered into Deferred Shares Award Agreements with certain employees. The number of shares that will be granted in December 2006 will be determined by the amount of our fourth quarter 2006 dividend. These employees were awarded an aggregate base grant of 5,233 shares, but the actual number of shares to be issued will vary between 0% and 150% of the base grant. These shares, if granted, will vest 33.3%, 33.3% and 33.4% on December 31, 2008, 2009 and 2010, respectively. As of June 30, 2006, 2,326 of the deferred shares have been forfeited.

In December 2005, we awarded two officers an aggregate base grant of 124,698 deferred shares. These officers have resigned and their deferred shares were forfeited.

Warrants

In connection with our 2002 bankruptcy plan, 1,229,850 common stock warrants were issued to our convertible note holders and our common stockholders. The warrants have a current exercise price of \$8.53 and expire on October 31, 2007. In the first half of 2006, warrants were exercised resulting in the issuance of 21,676 shares. As of June 30, 2006, there were 423,830 warrants outstanding to acquire common stock.

Treasury Stock

In the first quarter of 2006, 29,327 shares of outstanding common stock were returned to us to pay for the exercise price of certain stock options. The value of this returned stock was \$1.5 million and was recorded as treasury stock.

8. Earnings Per Share

Edgar Filing: GLOBAL SIGNAL INC - Form 10-Q

The following table sets forth the reconciliation of basic and diluted average shares outstanding (in thousands) used in the computation of income (loss) per share of common stock:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2006	2005	2006	2005
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Denominator for basic income per share – adjusted weighted average	69,809	59,762	69,595	55,914
Effect of dilutive securities	—	—	—	—
Denominator for diluted income per share – adjusted weighted average	69,809	59,762	69,595	55,914

Approximately 0.7 million shares of common stock issuable pursuant to warrants have been excluded from the calculation of diluted earnings per share for the three and six months ended June 30, 2006 as

18

Table of Contents

their effect would have been antidilutive. Approximately 1.9 million shares of common stock issuable pursuant to outstanding stock options and warrants have been excluded from the calculations of diluted earnings per share for the three and six months ended June 30, 2005 as their effect would have been antidilutive.

9. Comprehensive Income (Loss)

Comprehensive income (loss) for the three and six months ended June 30, 2006 and 2005 is comprised of the following (in thousands):

	Three Months Ended June		Six Months Ended June 30,	
	30,		2005	
	2006	2005	2006	2005
	(unaudited)	(unaudited)	(unaudited)	(unaudited)
Net loss	\$ (16,970)	\$ (9,424)	\$ (52,056)	\$ (5,528)
Change in fair value of derivative financial instruments, net of applicable income taxes	—	(23,892)	8,450	(12,189)
Derivative amounts amortized to interest expense	(1,801)	231	(2,258)	463
Write-off derivative amounts to loss on early extinguishment of debt due to refinancing	—	—	3,408	—
Foreign currency translation adjustment	312	(298)	430	(520)
Other comprehensive income	(1,489)	(23,959)	10,030	(12,246)
Comprehensive income (loss)	\$ (18,459)	\$ (33,383)	\$ (42,026)	\$ (17,774)

Edgar Filing: GLOBAL SIGNAL INC - Form 10-Q

The components of accumulated other comprehensive income at June 30, 2006 and December 31, 2005 are as follows (in thousands):

	June 30, 2006 (unaudited)	December 31, 2005
Foreign currency translation adjustments	\$ 1,563	\$ 1,133
Changes in fair value of derivatives	29,267	19,667
Accumulated other comprehensive income	\$ 30,830	\$ 20,800

10. Subsequent Event

As part of the Sprint Agreement, Sprint agreed to refund us a portion of the upfront rental payment if an agreed-upon portion of the Sprint Towers did not qualify as financeable sites, within one year of the closing of the Sprint Transaction. We agreed to use commercially reasonable efforts to convert Sprint Towers which did not qualify as financeable sites into financeable sites by May 26, 2006. As of May 26, 2006, less than the agreed-upon allocated purchase price value for the Sprint Towers qualified as financeable sites and we received an upfront rental payment refund of \$3.1 million in July 2006.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

SAFE HARBOR STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain items in this Quarterly Report on Form 10-Q, and other information we provide from time to time, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and are subject to various risks and uncertainties, including, but not necessarily limited to, statements relating to our ability to deploy capital, close accretive acquisitions, close dispositions of under-performing sites, close acquisitions under letters of intent and purchase agreements, anticipate, manage and address industry trends and their effect on our business, the rate and timing of the deployment of new wireless communications systems and equipment by our customers, whether we successfully address future technological changes in the wireless industry, the rate at which our customers terminate, or elect not to renew, leases as the result of consolidations or technological changes, pay or grow dividends, generate growth organically or through acquisitions, secure financing, and increase revenues, Adjusted EBITDA and/or Adjusted Funds From Operations, and add telephony tenants and statements relating to the integration of and final costs of the Sprint Transaction, the incremental costs of operating the Sprint sites, and how the proceeds of future financings will be used. Forward-looking statements are generally identifiable by use of forward-looking terminology such as "may," "will," "should," "potential," "intend," "expect," "endeavor," "seek," "a," "overestimate," "underestimate," "believe," "could," "would," "project," "predict," "continue" or other similar words. Forward-looking statements are based on certain assumptions or estimates, discuss future expectations, describe future plans and strategies, contain projections of results of operations or of financial condition or state other forward-looking information. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, actual results and performance could differ materially from those set forth in the

forward-looking statements. Factors which could have a material adverse effect on our operations and future prospects or which could cause events or circumstances to differ from the forward-looking statements include, but are not limited to, difficulties in acquiring towers at attractive prices or integrating acquisitions with our operations, the reduced likelihood of closing a transaction which is at a letter of intent stage as opposed to one which is subject to a purchase agreement, a decrease in the demand for our communications sites and our ability to attract additional tenants, the economies, real estate markets and communications industries in the regions where our sites are located, consolidation in the wireless industry, termination or non-renewal of tenant leases, changes to the regulations governing wireless services, the creditworthiness of our tenants, customer concentration and the loss of one or more of our major customers, integration of new software systems, replacement of existing software systems, our ability to compete, competing technologies, equipment and software developments relating to wireless telephony, our ability to modify our towers, our ability to obtain credit facilities or mortgage loans on favorable terms, our failure to comply with federal, state and local laws and regulations and changes in the law, our failure to comply with environmental laws, our ability to conduct our business effectively, secure financing and generate revenues, the termination of site management agreements, disasters and other unforeseen events, the demonstrated or perceived negative health effects from our towers or other tenants equipment on our towers, our ability to qualify as a REIT, REIT distribution requirements and the stock ownership limit imposed by the Internal Revenue Code for REITs. When considering forward-looking statements, you should keep in mind the risk factors and other cautionary statements detailed from time to time in this Quarterly Report on Form 10-Q and in Global Signal's other filings with the Securities and Exchange Commission, including our most recent Annual Report on Form 10-K for the year ending December 31, 2005, filed on March 16, 2006, and our most recent Registration Statement on Form S-3, filed on April 7, 2006. Readers are cautioned not to place undue reliance on any of these forward-looking statements, which reflect our management's views as of the date of this report. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ significantly from those contained in any forward-looking statement. Such forward-looking statements speak only as of the date of this Quarterly Report on Form 10-Q and Global Signal expressly disclaims any obligation to release publicly any updates

20

Table of Contents

or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.

Executive Overview

Global Signal Inc. is one of the largest wireless communications tower operators in the United States. As of June 30, 2006, we owned, leased or managed a total of 10,951 wireless communications sites. Our growth strategy is to grow (1) organically by adding additional tenants to our towers, (2) by acquiring towers with existing telephony tenants in locations where we believe there are opportunities for organic growth, (3) by acquiring the land underneath our towers and (4) by financing these newly acquired towers, on a long-term basis, using equity issuances combined with low-cost fixed-rate debt obtained through the issuance of mortgage-backed securities. Through this strategy, we will seek to increase our dividend per share over time.

We are organized and conduct our operations to qualify as a REIT for federal income tax purposes. As such, we will generally not be subject to federal income tax on that portion of our income that is distributed to our stockholders if we distribute at least 90% of our REIT taxable income to our stockholders and comply with various other requirements. We also have certain subsidiaries that are not qualified REIT subsidiaries and therefore their operations

will be subject to federal income tax.

Our customers include a wide variety of wireless service providers, government agencies, operators of private networks and broadcasters. These customers operate networks from our communications sites and provide wireless telephony, mobile radio, paging, broadcast and data services. As of June 30, 2006, we had an aggregate of more than 26,000 tenant leases on our communications sites with over 2,000 customers. Our site revenues from wireless telephony tenants have increased to 79.7% and 79.7%, respectively, of site revenues for the three and six months ended June 30, 2006, from 67.2% and 61.1%, respectively, of site revenues for the three months and six months ended June 30, 2005.

New wireless technologies, devices and applications have become more advanced and broadly utilized by wireless subscribers. As new technologies, devices and applications have developed, new networks have been deployed to support the more advanced applications and the growth in the number of wireless subscribers while more mature technologies, such as paging and mobile radio, have experienced shrinking subscriber bases and network contraction. Some of the key indicators that we regularly monitor to evaluate growth trends affecting wireless technology usage are the growth or contraction of a particular technology's wireless subscribers and the usage as measured in minutes of use.

The material opportunities, challenges and risks of our business have changed significantly over the past several years. More recently, concurrent with an increased focus on improving network quality, many of our wireless telephony customers have experienced a general improvement in their overall financial condition. This has resulted in an increase in these customers' abilities to invest in their networks and a related increase in our telephony tenant base. Our growth will be primarily affected by the future demand for communications sites by wireless telephony service providers, paging service providers, users of mobile radio services and government agencies. In recent years, we have experienced significant demand from our wireless telephony customers as they expand their networks, while our paging and mobile radio customers have contracted their networks. The demand for communications site space by wireless telephony service providers is expected to be driven by growth in the number of their subscribers and their utilization of wireless telephony services, including utilization of their networks for data services.

Demand could be adversely affected by carrier consolidation, because consolidation can result in duplicative coverage and excess network capacity. Several carriers have announced plans to eliminate cell sites as a result of consolidation. These carriers may seek early termination of leases where permitted (upon payment of a penalty up to one year of rent), or elect not to renew leases at the end of their terms. As a result of these mergers, network consolidations by these tenants could adversely impact tenant lease revenues at some of our sites.

In October 2004, Cingular merged with AT&T Wireless and subsequently announced plans to eliminate approximately 7,000 of its cell sites as part of the integration of the two networks. As of June 30, 2006, 312 of our sites are occupied by both Cingular and AT&T Wireless and the combined site

21

Table of Contents

revenues from Cingular and AT&T Wireless on these sites were approximately \$3.1 million and \$6.6 million for the three months and six months ended June 30, 2006, respectively. During the first half of 2006 we received notices of lease termination or non-renewal from Cingular and AT&T Wireless, which have effective dates from 2006 through 2016, and which represent over that 10 year period total monthly lease revenues of approximately \$400,000. We expect to receive additional notices of termination or non-renewal during the remainder of 2006 as Cingular and

AT&T Wireless continue their network rationalization. In many cases, lease termination requires Cingular to pay us a penalty. We also continue to lease additional space on our towers to Cingular and new lease revenues from Cingular continue to exceed the amount of lease terminations that will be effective during 2006.

Sprint merged with Nextel Communications and other affiliates in August 2005. As of June 30, 2006, 1,382 of our sites are occupied by both Sprint and Nextel and the combined site revenues from Sprint and Nextel on these sites were approximately \$14.1 million and \$28.1 million for the three and six months ended June 30, 2006, respectively. We have not experienced any significant churn from Sprint-Nextel during 2006, but Sprint-Nextel has publicly discussed possible network rationalization in the future, which could result in a reduction of our revenues. In August 2005, Alltel completed its purchase of Western Wireless. As of June 30, 2006, none of our sites are occupied by both Alltel and Western Wireless. In November 2004, Arch Wireless merged with Metrocall Holdings, Inc. to form USA Mobility, our largest paging customer. Both customers offer paging services throughout the United States and consequently have duplicate coverage in most markets. Our revenue from USA Mobility has declined substantially and we expect it will continue to decline. Under our master lease with USA Mobility entered into in July 2005, the fixed monthly fee for transmitters located on our sites decreases periodically over time from approximately \$1.35 million for July 2006 to approximately \$1.0 million per month in 2008.

The demand for communications site space by government entities will be driven by the agencies' demand for new digital networks to communicate with other government agencies as well as their ability to gain funding for such networks.

Our growth opportunities are primarily organic growth on our existing towers and acquiring additional towers on which our wireless customers may seek to locate their equipment, thereby growing our overall tenant base. Since November 2002, our number of wireless communication sites has grown from approximately 3,300 to approximately 11,000 at June 30, 2006, primarily as a result of our acquisition strategy. See "Acquisitions and Dispositions of Communications Sites" below. A key component of our growth strategy is our capital management strategy, which supports the financing of our tower acquisition strategy. Our capital management strategy is to finance newly acquired assets, on a long-term basis, using additional equity issuances combined with low-cost fixed-rate debt obtained through the periodic issuance of mortgage-backed securities. For example, in February 2006, we issued \$1.55 billion in mortgage loans to provide fixed rate financing for the Sprint Transaction (as defined below) and other tower acquisitions completed since April 2005, and to refinance our February 2004 mortgage loan. Prior to financing newly acquired towers using mortgage-backed securities, our current strategy is to finance communications sites we acquire on a short-term basis through cash on hand, cash remaining from the February 2006 mortgage loan, or short term acquisition credit facilities.

Our current growth strategy, which is in part based on a new site acquisition strategy, reflects (1) our strategy to finance our new tower acquisitions using a capital structure which uses low-cost fixed-rate debt obtained through the issuance of mortgage-backed securities combined with proceeds from equity offerings, (2) our strategy to buy tower assets with in-place telephony, government or investment grade tenants where we believe there is a high likelihood of multiple lease renewals, (3) our underwriting process which is generally designed to allow us to evaluate and price acquisitions based on their current yield and on the asset and tenant attributes and location of the asset and (4) our focus on integrating, maintaining and operating the assets we acquire efficiently and effectively.

The primary factors affecting our determination of the value of a communications site are the cash flows of the site, its location, competitive structures in the immediate area, tenant base, tenant credit quality and zoning restrictions. While we also have communications sites located in Canada and the United Kingdom, our communications sites are primarily located in the United States. The locations of our sites are diverse and include sites along active transportation corridors, in dense urban centers and in

Table of Contents

growing suburban communities. We also have a diverse tenant base, which includes large and small wireless service providers, government agencies, and operators of private communication networks. The credit quality of our tenants varies greatly from investment grade credits to significantly lesser credits, including small independent operators.

Acquisitions and Dispositions of Communications Sites

Our financial results are impacted by the timing, size and number of acquisitions and dispositions we complete in a period. For the first half of 2006, we acquired 18 communication sites for \$7.1 million, including fees and expenses. In addition, we routinely review and dispose of under-performing sites which are not compatible with our strategy. As of June 30, 2006, we had 113 sites held for sale.

On May 26, 2005, we, Sprint Corporation (“Sprint”) and certain Sprint subsidiaries (the “Sprint Contributors”), closed on an agreement to contribute, lease and sublease (the “Agreement to Lease”). Under the Agreement to Lease, we will lease or operate, for a period of 32 years approximately 6,553 communications tower sites and the related towers and assets (collectively, the “Sprint Towers”) from newly formed special purpose entities of Sprint (collectively, “Sprint TowerCo”), under six master leases for which we paid an upfront rental payment of approximately \$1.2 billion as prepaid rent (the “Upfront Rental Payment”) (the “Sprint Transaction”). In connection with the Sprint Transaction, certain Sprint entities agreed to lease space on approximately 6,342 of the Sprint Towers. The Sprint Towers had over 5,600 collocation leases with other wireless tenants as of May 26, 2005, and substantially all of the revenues from the Sprint Towers are derived from wireless telephony tenants. We accounted for this transaction as a capital lease reflecting the substance similar to an acquisition.

We have experienced a substantial reduction in our communications sites acquisition activity since the third quarter of 2005. We have not acquired large portfolios recently primarily because the asking prices of available portfolios have risen substantially in the past twelve months and the anticipated yields on the potential acquisitions have fallen below our underwriting standards.

For the first half of 2006, we invested an additional \$38.1 million, including fees and expenses, to acquire a fee interest or permanent or long-term easement under 271 communications towers where we previously had a leasehold interest in the land. As of June 30, 2006, we have executed definitive agreements and non-binding letters of intent with other parties to acquire an additional 10 communications sites and 139 fee interest or long-term easements, for an aggregate purchase price of approximately \$34.1 million, including estimated fees and expenses. We are in the process of performing due diligence on the communications sites under non-binding letters of intent and negotiating definitive agreements. Subsequent to June 30, 2006, we completed the acquisition of one communication site.

Revenues

We generate substantially all of our revenues from leasing space on communications sites to various tenants including wireless service providers, government agencies, operators of private networks, and broadcasters. Factors affecting our revenues include the rate at which our customers deploy capital to enhance and expand their networks, the rate at which customers rationalize their networks, the renewal rates of our tenants and fixed-price annual escalation clauses in our contracts that allow us to increase our tenants’ rental rates over time.

Typically, our tenant lease agreements are specific to a site, are for terms of one to ten years and are renewable for multiple pre-determined periods at the option of the tenant. Rents under tenant leases are generally due to us on a monthly basis, and revenues from each agreement are recognized monthly. These agreements typically contain

fixed-price annual escalation clauses. Rental revenues are recognized in our financial statements on a straight-line basis over the contractual term of the agreements without consideration of customer renewal options.

23

Table of Contents

Our tenants are responsible for the installation and maintenance of their equipment at our sites. These tenants transmit from our sites utilizing a wide variety of technologies including personal communication services (PCS), cellular, enhanced specialized mobile radio (ESMR), mobile radio, paging, radio and television broadcast and wireless data. For the three months ended June 30, 2006 and 2005, our revenue mix for the primary technology categories was as follows:

Tenant Technology Type	Percent of Revenues			
	Three Months Ended June		Six Months Ended June	
	30,	30,	30,	30,
	2006	2005	2006	2005
Telephony (PCS, Cellular, ESMR)	79.7%	67.2%	79.7%	61.1%
Mobile radio	9.0%	14.6%	9.1%	17.0%
Paging	5.9%	11.4%	5.9%	13.8%
Broadcast	3.4%	4.5%	3.4%	5.3%
Wireless data and other	2.0%	2.3%	1.9%	2.8%
Total	100.0%	100.0%	100.0%	100.0%

Direct Site Operating Expenses and Other Expenses

Direct site operating expenses consist of ground rents (if we do not own the land or have a fully prepaid interest in the land at the site), utilities, property and ad valorem taxes, insurance and site maintenance costs. Many of our ground lease agreements contain escalation clauses which are typically based on either a fixed percentage rate or the change in the Consumer Price Index. For ground leases with escalation clauses based on a fixed percentage rate, ground rental expenses are recognized in our financial statements on a straight-line basis over the shorter of (i) the contractual term of the lease agreement assuming we exercise all of the renewal options or (ii) the time period through the first renewal option period ending after the later of (a) the maximum lease term including renewals of our tenant leases which were in place or which we anticipated being in place at the date we entered into the ground lease or acquired the communications site or (b) the end of the depreciable life of the assets located on the leased property.

Costs such as property management, site operations and contract administration are included in selling, general and administrative expenses as described below. The costs of operating an owned site generally do not increase significantly as we add additional tenants unless we need to acquire additional land underneath a tower to accommodate a new tenant or share a portion of tenant revenue with the landlord. The loss of any tenant on an owned site does not significantly reduce the costs associated with operating that site; and as a result, the lost lease revenues will reduce cash flows and gross margin from that site. Fluctuations in our gross margins on owned sites are directly related to changes in our tenant lease revenues and any costs of acquiring additional land underneath a tower. For managed sites, we typically pay the site owner either a fixed fee, a percentage of revenues or a combination of a fixed fee plus a percentage of revenues. In instances where we pay the landlord a percentage of revenues, changes in revenues result in an increase or decrease, as applicable, in our communications site operating expenses.

Selling, general and administrative expenses consist of five major components: (1) sales, marketing and tower leasing; (2) property management and site operations; (3) contracts administration; (4) business development including acquisitions and new builds and (5) administrative support, including legal, human resources, finance, accounting, and information technology.

24

Table of Contents

Results of Operations

Comparison of the three months ended June 30, 2006 to the three months ended June 30, 2005

The following table sets forth, for the periods indicated, each statement of operations item and such item as a percentage of revenues. The results of operations for any particular period are not necessarily indicative of results for any future period. The following data should be read in conjunction with our unaudited consolidated financial statements included elsewhere herein and our consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2005, filed with the Securities and Exchange Commission on March 16, 2006.

	2006		Three Months Ended June 30, 2005		Change	
	\$	% of Revenue	\$	% of Revenue	\$	%
Revenues	\$ 122,467	100.0%	\$ 77,557	100.0%	\$ 44,910	57.9%

Net income (loss)	\$ (16,970)	(13.9%)	\$ (9,424)	(12.2%)	\$ (7,546)	(80.1%)

Revenues

Our revenues increased \$44.9 million, or 57.9%, for the quarter ended June 30, 2006 as compared to the prior year quarter, primarily as a result of the Sprint Transaction and the acquisition of other communications sites since April 1, 2005. During the three months ended June 30, 2006 and 2005, \$63.3 million and \$22.1 million, respectively, of our revenue was generated from the Sprint Towers. We

25

Table of Contents

also experienced growth in our revenues generated from telephony customers which was in part offset by a decline in our revenues generated by our non-telephony tenants. Our mix of revenues from wireless telephony customers as a percentage of total site revenues increased to 79.7% for the three months ended June 30, 2006, from 67.2% for the three months ended June 30, 2005, primarily as a result of acquisitions and organic growth in our telephony revenues. Revenues from Sprint and Cingular Wireless comprised 38.3% and 15.7%, respectively, of our revenues for the quarter ended June 30, 2006.

Expenses

Direct site operating expenses (excluding depreciation, amortization and accretion expense)

Our direct site operating expenses increased \$26.7 million primarily due to direct site operating expenses associated with the Sprint Towers along with other communication sites we have acquired since April 1, 2005. These increases were partially offset by decreased rent expense associated with our purchase of land under our towers, which we had previously leased. As a percentage of revenues, our direct site operating expenses increased to 46.5% of revenues for the three months ended June 30, 2006, from 38.9% of revenues for the three months ended June 30, 2005, primarily due to the Sprint Towers, which have lower tenant revenues per tower and higher ground rent expense as a percentage of revenue.

Selling, general and administrative

Our selling, general and administrative expenses increase of \$7.4 million was primarily attributable to (i) increases in personnel related expenses along with occupancy and other costs associated with the increase in our corporate staff necessary to manage our growth primarily related to the addition of the Sprint Towers, (ii) an increase in non-cash stock-based compensation expense from stock grants to executives in the second quarter of 2006 and (iii) increased professional fees related to a significant number of IT system remediation and improvement projects. As a percentage of revenues, our selling, general and administrative expenses increased to 13.7% of revenues for the three months

ended June 30, 2006, from 12.1% of revenues for the three months ended June 30, 2005 primarily due to the increase in non-cash stock-based compensation discussed above.

Sprint integration costs

For the three months ended June 30, 2006, \$0.2 million of costs were incurred in relation to the integration of the Sprint Towers into our operations versus \$3.2 million during the three months ended June 30, 2005. The integration was completed in the second quarter of 2006.

Depreciation, amortization and accretion

The increase in depreciation, amortization and accretion expenses of \$14.3 million for the three months ended June 30, 2006 compared to the three months ended June 30, 2005, was primarily due to the Sprint Towers and other communication sites we have acquired since April 1, 2005.

Interest expense, net

Our net interest expense increase of \$6.9 million is related to debt to finance the Sprint Towers and other communication sites we have acquired since April 1, 2005. Interest expense in the second quarter of 2006 is net of interest income earned and three months of amortization of derivative settlement gains recorded in accumulated other comprehensive income and deferred debt costs related to the February 2006 mortgage loan.

Revenues

Our revenues increased \$111.9 million, or 85.0%, for the six months ended June 30, 2006 as compared to the prior year six month period, primarily as a result of the Sprint Transaction and the acquisition of other communications sites since April 1, 2005. During the six months ended June 30, 2006 and 2005, \$125.5 million and \$22.1 million, respectively, of our revenue was generated from the Sprint Towers. We also experienced growth in our revenues generated from telephony customers which was in part offset by a decline in our revenues generated by our non-telephony tenants. Our mix of revenues from wireless telephony customers as a percentage of total site revenues increased to 79.7% for the six months ended June 30, 2006, from 61.1% for the six months ended June 30, 2005, primarily as a result of acquisitions and organic growth in our telephony revenues. Revenues from Sprint and Cingular Wireless comprised 38.4% and 15.6%, respectively, of our revenues for the six months ended June 30, 2006.

27

Table of Contents

Expenses

Direct site operating expenses (excluding depreciation, amortization and accretion expense)

Our direct site operating expenses increased \$64.0 million primarily due to direct site operating expenses associated with the Sprint Towers along with other communication sites we have acquired since April 1, 2005. These increases were partially offset by decreased rent expense associated with our purchase of various interests in parcels of land in fee simple or other long-term easements, which we had previously leased. As a percentage of revenues, our direct site operating expenses increased to 45.3% of revenues for the six months ended June 30, 2006, from 35.1% of revenues for the six months ended June 30, 2005, primarily due to the Sprint Towers, which have lower tenant revenues per tower and higher ground rent expense as a percentage of revenue.

Selling, general and administrative

Our selling, general and administrative expenses increase of \$11.8 million was primarily attributable to (i) increases in personnel-related expenses along with occupancy and other costs associated with the increase in our corporate staff necessary to manage our growth primarily related to the addition of the Sprint Towers, (ii) an increase in non-cash stock-based compensation expense from stock grants to executives in the second quarter of 2006 and (iii) increased professional fees related to a significant number of IT system remediation and improvement projects. As a percentage of revenues, our selling, general and administrative expenses declined to 11.5% of revenues for the six months ended June 30, 2006, from 12.2% of revenues for the six months ended June 30, 2005.

Sprint integration costs

For the six months ended June 30, 2006, \$0.4 million of costs were incurred in relation to the integration of the Sprint Towers into our operations versus \$3.2 million during the six months ended June 30, 2005. The integration was completed in the second quarter of 2006.

Depreciation, amortization and accretion

The increase in depreciation, amortization and accretion expenses of \$41.1 million for the six months ended June 30, 2006 compared to the six months ended June 30, 2005, was primarily due to the Sprint Towers and other communication sites we have acquired since April 1, 2005.

Interest expense, net

Our net interest expense increase of \$21.3 million is related to debt to finance the Sprint Towers and other communication sites we have acquired since April 1, 2005. Interest expense in the first half of 2006 is net of interest income earned and four months of amortization of derivative settlement gains recorded in accumulated other comprehensive income and deferred debt costs related to the February 2006 mortgage loan.

Loss on early extinguishment of debt

Our loss on early extinguishment of debt of \$21.1 million for the first half of 2006 results from the payoff of the February 2004 mortgage loan, the Sprint bridge loan and the \$200.0 million acquisition credit facility with a portion of the proceeds from our February 2006 mortgage loan. The loss was comprised of a \$7.0 million prepayment penalty relating to the February 2004 mortgage loan, \$10.7 million of deferred debt costs relating to all three loans and a \$3.4 million write-off of accumulated other comprehensive loss relating to the 2003 interest rate swaps that were used to hedge the February 2004 mortgage loan.

Liquidity and Capital Resources

Our liquidity needs arise from working capital requirements, debt service, tower acquisitions, ground acquisitions, construction costs for occasional new tower builds and tower augmentations, other capital expenditures and dividend payments. We expect to meet our cash requirements for the next twelve

28

Table of Contents

months by using cash on hand, cash generated from operating activities and the \$114.5 million of net proceeds from our February 2006 mortgage loan.

February 2006 Mortgage Loan

On February 28, 2006, three of our wholly owned special purpose entities, Global Signal Acquisitions II LLC, Global Signal Acquisitions LLC and Pinnacle Towers LLC (and its 13 subsidiaries), borrowed \$1.55 billion under three mortgage loans made payable to Global Signal Trust III that issued \$1.55 billion in commercial mortgage pass-through certificates, to provide fixed-rate financing for the Sprint Towers and communications sites we acquired since April 2005, and to refinance the February 2004 mortgage loan. The borrowers and their direct parent, Global Signal Holdings V LLC, are separate legal entities from Global Signal Inc. with their own assets, which are not available to satisfy the debts and other obligations of Global Signal Inc. or any of its affiliates. We have continued to consolidate our subsidiaries, but have not consolidated Global Signal Trust III into our financial statements. Interest accrues on the mortgage loan at a weighted average fixed rate per annum of approximately 5.7%. The February 2006 mortgage loan requires monthly payments of interest until its contractual repayment date in February 2011. The February 2006 mortgage loan is secured by, among other things, (1) mortgage liens on the borrowers' interests (fee, leasehold or easement) in over 80% of their communications sites, (2) a security interest in substantially all of the borrowers' personal property and fixtures and (3) a pledge of the capital stock (or equivalent equity interests) of each of the borrowers (including a pledge of the capital stock of Pinnacle Towers LLC, Global Signal Acquisitions LLC and Global Signal Acquisitions II LLC from its direct parent, Global Signal Holdings V LLC).

On a monthly basis, the excess cash flows from the securitized entities, after the payment of principal, interest, reserves and expenses, are distributed to us. If the DSCR, defined in the February 2006 mortgage loan as the net cash flow for the sites for the immediately preceding twelve calendar month period divided by the amount of interest that we will be required to pay over the succeeding twelve months on the February 2006 mortgage loan, as of the end of any calendar quarter falls to 1.35 times or lower, then all excess cash flow will be deposited into a reserve account instead of being released to us. The funds in the reserve account will not be released to us until the DSCR exceeds 1.35 times for two consecutive calendar quarters. If the DSCR falls below 1.20 times as of the end of any calendar quarter, then all funds on deposit in the reserve account along with future excess cash flows will be applied to prepay the February 2006 mortgage loan with applicable prepayment consideration.

The borrowers may not prepay the February 2006 mortgage loan in whole or in part at any time prior to February 28, 2008, except in limited circumstances (such as the occurrence of certain casualty and condemnation events relating to the communications sites securing the February 2006 mortgage loan). Thereafter, prepayment is permitted provided it is accompanied by any applicable prepayment consideration. If the prepayment occurs within three months of the February 2011 monthly payment date, no prepayment consideration is due.

The February 2006 mortgage loan documents include covenants customary for mortgage loans subject to rated securitizations. Among other things, the borrowers are prohibited from incurring additional indebtedness or further encumbering their assets. The effective interest rate on the February 2006 mortgage loan including the benefit from terminating the 2005 interest rate swaps which qualified for hedge accounting and the amortization of deferred debt issuance costs is approximately 5.5%.

We used the proceeds as follows:

- \$850.0 million to repay the debt outstanding under our \$850.0 million bridge loan that was incurred in connection with the Sprint Transaction. As a result of this repayment, we wrote off as a loss on early extinguishment of debt unamortized deferred financing cost of approximately \$1.0 million;
- \$402.7 million to repay debt on the then-outstanding borrowings under the February 2004 mortgage loan. In the first quarter of 2006 we wrote off as a loss on early extinguishment of debt unamortized deferred financing cost of approximately \$9.5 million, approximately \$3.4 million of accumulated other comprehensive loss related to the 2003 interest rate swaps and a pre-payment penalty of \$7.0 million;

Table of Contents

- \$151.8 million to repay the debt outstanding under the acquisition credit facility. Upon repayment, we also terminated our ability to make future draws under the acquisition credit facility. As a result, we wrote off as a loss on early extinguishment of debt unamortized deferred financing cost of approximately \$0.2 million; and
- \$145.5 million to pay estimated expenses of approximately \$14.0 million, to fund increased impositions and reserves related to the February 2006 mortgage loan of approximately \$10.0 million, to pay the \$7.0 million prepayment penalty related to the February 2004 mortgage loan refinancing, to provide funds of approximately \$114.5 million to acquire additional communications sites and additional fee interests or long-term easements for the ground under our communications sites, and to provide working capital.

The December 2004 Mortgage Loan

On December 7, 2004, our special purpose entities, Pinnacle Towers Acquisitions Holdings LLC, and five of its direct and indirect subsidiaries, issued a \$293.8 million mortgage loan to Global Signal Trust II. Global Signal Trust II then issued an identical amount of commercial mortgage pass-through certificates in a private transaction. The borrowers and their direct parent, Global Signal Holdings III LLC, are separate legal entities from Global Signal Inc., with their own assets, which are not available to satisfy the debts and obligations of Global Signal Inc. or any of its affiliates. We have continued to consolidate our subsidiaries, but have not consolidated Global Signal Trust II in our financial statements. The net proceeds of the December 2004 mortgage loan were used primarily to repay the \$181.7 million of then-outstanding borrowings under our credit facility and to partially fund a \$120.7 million site acquisition reserve account which was used to acquire additional qualifying communications sites over the six-month period following the December 2004 closing.

The principal amount of the December 2004 mortgage loan is divided into seven tranches, each having a different level of seniority. Interest accrues on each tranche at a fixed rate per annum. The weighted average interest rate on the various tranches is approximately 4.7%. The December 2004 mortgage loan requires monthly payments of interest until its maturity in December 2009 when the unpaid principal balance will be due. The December 2004 mortgage loan is secured by, among other things, (1) mortgage liens on the borrowers' interests (fee, leasehold or easement) in substantially all of their communications sites, (2) a security interest in substantially all of the borrowers' personal property and fixtures and (3) a pledge of the capital stock (or equivalent equity interests) of each of the borrowers (including a pledge of the capital stock of Pinnacle Towers Acquisition Holdings LLC from its direct parent, Global Signal Holdings III LLC).

On a monthly basis, the excess cash flows from the securitized entities, after the payment of principal, interest, reserves and expenses, are distributed to us. If the DSCR, defined in the December 2004 mortgage loan as the net cash flow for the sites for the immediately preceding twelve calendar month period divided by the amount of interest that we will be required to pay over the succeeding twelve months on the December 2004 mortgage loan, as of the end of any calendar quarter falls to 1.30 times or lower, then all excess cash flow will be deposited into a reserve account instead of being released to us. The funds in the reserve account will not be released to us until the DSCR exceeds 1.30 times for two consecutive calendar quarters. If the DSCR falls below 1.15 times as of the end of any calendar quarter, then all funds on deposit in the reserve account along with future excess cash flows will be applied to prepay the December 2004 mortgage loan.

We may not prepay the December 2004 mortgage loan in whole or in part at any time prior to December 7, 2006,

except in limited circumstances (such as the occurrence of certain casualty and condemnation events relating to the communications sites securing the December 2004 mortgage loan). Thereafter, prepayment is permitted provided it is accompanied by any applicable prepayment consideration. If the prepayment occurs within three months of the December 2009 monthly payment date, no prepayment consideration is due.

The December 2004 mortgage loan documents include covenants customary for mortgage loans subject to rated securitizations. Among other things, the borrowers are prohibited from incurring additional indebtedness or further encumbering their assets.

30

Table of Contents

Revolving Credit Agreement

On December 1, 2005, Global Signal OP entered into a 364-day \$15.0 million revolving credit facility pursuant to a revolving credit agreement with Morgan Stanley Asset Funding Inc. and Bank of America, N.A. to provide funding for working capital and other corporate purposes.

At June 30, 2006 and December 31, 2005, there were no balances outstanding under the revolving credit facility. Interest on the \$15.0 million revolving credit facility is payable, at Global Signal OP's option, at either LIBOR plus 3.0% or the bank's base rate plus 2.0%. Interest is payable at the end of the interest period or at the time of principal repayments. Principal on the revolving credit facility may be paid, in whole or in part, at any time and must be repaid by the loan maturity date, December 1, 2006.

The revolving credit agreement, and the related ancillary documentation contain covenants and restrictions customary for a facility of this type including a limitation on our consolidated indebtedness at approximately \$1.875 billion and a requirement to limit our ratio of consolidated indebtedness to consolidated EBITDA, as defined in the loan document, to a ratio of 7.65 to 1.0. The Revolving Credit Agreement is guaranteed by us, Global Signal GP, LLC and certain subsidiaries of Global Signal OP. It is secured by a pledge of Global Signal OP's assets, including a pledge of 65% of its interest in our United Kingdom subsidiary, 100% of its interest in certain other domestic subsidiaries, a pledge by us and Global Signal GP, LLC of our interests in Global Signal OP, and a pledge by us of 65% of our interest in our Canadian subsidiary.

Internal Control over Financial Reporting

As of December 31, 2005, we had two material weaknesses in our internal controls over financial reporting. To remediate these material weaknesses, we will spend an estimated \$12 million during 2006 and 2007 which will either be expensed as additional selling, general and administrative expense or capitalized as fixed assets, including costs related to (i) computer system enhancements, and the replacement of our lease administration system, (ii) data revalidation and (iii) redesigning processes and controls.

Cash Flows

Net cash flows provided by operating activities were \$61.3 million for the six months ended June 30, 2006, compared to \$38.8 million for the six months ended June 30, 2005. The increase of \$22.5 million of net cash provided by operating activities is primarily the result of cash flow from the communication sites acquired since April 1, 2005.

Net cash flows used in investing activities were \$63.7 million for the six months ended June 30, 2006 compared to \$1.29 billion for the six months ended June 30, 2005. Investing activities for the six months ended June 30, 2006 consists of the acquisition of 18 communications sites for \$7.1 million, including fees and expenses. Also, during the six months ended June 30, 2006, we acquired 271 parcels of land, in fee simple title or under long-term easements, which we had previously leased from the sellers, for a total purchase price of \$38.1 million, including fees and expenses. Restricted cash increased \$8.5 million as a result of the February 2006 mortgage loan requirements.

Investing activities for the six months ended June 30, 2005 consisted primarily of (1) the acquisition of 6,553 communications sites from Sprint for approximately \$1.2 billion, including fees and expenses, and (2) the acquisition of 450 communication sites in unrelated transactions for \$134.3 million, including fees and expenses, which were funded from the acquisition line of credit, the Sprint bridge loan, our equity issuance and cash in our site acquisition reserve account established with a portion of the net proceeds from our December 2004 mortgage loan. During the six months ended June 30, 2005, we also acquired 31 parcels of land, in fee simple title and ten under long-term easements, which we had previously leased from the sellers, for a total purchase price of \$3.9 million, including fees and expenses. Additionally, \$54.6 million was provided by restricted cash to fund the Sprint Transaction deposit and used to fund certain communications site acquisitions during the six months ended June 30, 2005.

Capital expenditures were \$10.2 million for the six months ended June 30, 2006, compared to \$5.6 million for the six months ended June 30, 2005. The capital expenditures for these two periods

31

Table of Contents

primarily consisted of the purchase of tower-related equipment and tower augmentations and improvements. The increase year-over-year is due to the acquisition of the Sprint Towers.

Net cash flows provided by financing activities were \$97.1 million for the six months ended June 30, 2006 and consisted of (1) \$1.55 billion borrowing under the February 2006 mortgage loan, (2) \$33.8 million payment received from the termination of the 2005 interest rate swaps and (3) \$3.4 million from the issuance of common stock. This was in part offset by (1) \$850.0 million to repay the debt outstanding under our bridge loan that was incurred in connection with the Sprint Transaction, (2) \$404.1 million to repay debt under the February 2004 mortgage loan, (3) \$151.8 million to repay the debt outstanding under the acquisition credit facility, and (4) payment of \$71.4 million in ordinary dividends.

Net cash flows provided by financing activities were \$1.3 billion for the six months ended June 30, 2005 and consisted of (1) \$850.0 million in borrowings under the Sprint bridge financing, (2) \$74.8 million borrowed under our acquisition credit facility, and (3) \$437.3 million in proceeds from the issuance of our common stock. These were partially offset by \$41.8 million in ordinary dividends paid.

Contractual Commitments

As of June 30, 2006, we signed master services agreements with Stratos VSAT, Inc. and Hark Tower Systems, Inc. which require us to purchase approximately \$6.5 million in satellite data monitoring equipment. As of June 30, 2006, we purchased \$4.9 million of equipment under these commitments. As of June 30, 2006, we signed an agreement with Intuit, Inc. to purchase and install lease and asset management software. The amount of the purchase commitment is \$1.2 million of which \$0.2 million has been paid. As of June 30, 2006, we also had outstanding purchase agreements to acquire three communications sites from various sellers for a total estimated purchase price of \$4.2 million,

including estimated fees and expenses, and 139 land parcels for \$22.2 million, including estimated fees and expenses. As of June 30, 2006, we also had letters of intent to purchase seven additional communications sites for approximately \$7.7 million, including estimated fees and expenses. Subsequent to June 30, 2006, we completed the acquisition of one communication site.

Sprint Purchase Price Adjustment

As part of the Sprint Agreement, Sprint agreed to refund us a portion of the upfront rental payment if an agreed-upon portion of the Sprint Towers did not qualify as financeable sites, within one year of the closing of the Sprint Transaction. We agreed to use commercially reasonable efforts to convert Sprint Towers which did not qualify as financeable sites into financeable sites by May 26, 2006. As of May 26, 2006, less than the agreed-upon allocated purchase price value for the Sprint Towers qualified as financeable sites and we received an upfront rental payment refund of \$3.1 million in July 2006.

Critical Accounting Policies and Estimates

New Accounting Pronouncements

Effective January 1, 2006, we adopted SFAS No. 123(R) Share-Based-Payments, on a modified prospective transition method to account for our employee stock options. Under that transition method, compensation costs for the portion of awards for which the requisite service had not yet been rendered, and that were outstanding as of the adoption date, will be recognized as the service is rendered based on the grant date fair value of those awards calculated under SFAS No. 123(R). Prior period results are not restated. In connection with the adoption of SFAS No. 123(R), we reclassified \$1.1 million of deferred compensation expense, which relates entirely to unvested restricted stock, to additional paid-in capital as of January 1, 2006. There was no impact to earnings from adopting SFAS No. 123(R). Prior to adopting SFAS No. 123(R) as part of a restructuring of compensation, we amended a former officer's option agreement to cancel options relating to 35,875 shares with an exercise price of \$8.53 per share and options relating to 107,625 shares with an exercise price of \$18.00 per share, and accelerated vesting of options relating to 46,125 shares with an exercise price of \$8.53 per share and options relating to 138,375 shares with an exercise price of \$18.00 per share. As of June 30, 2006, total unearned compensation on stock-based awards was \$15.4 million and the weighted average vesting period is 2.9 years.

32

Table of Contents

Effective January 1, 2006, the Company adopted FIN 47 Accounting for Conditional Asset Retirement Obligations. This interpretation clarifies that the term "conditional asset retirement obligation" as used in SFAS No. 143, Accounting for Asset Retirement Obligations, refers to a legal obligation to perform an asset retirement activity in which the timing and (or) method of settlement are conditional on a future event that may or may not be within the control of the entity. The obligation is unconditional even though uncertainty exists about the timing and (or) method of settlement. Our asset retirement obligations are within our control as to timing and method as they relate to the removal of our communications towers from leased land; therefore the adoption of this interpretation did not impact our financial statements.

Effective January 1, 2006, the Company adopted FASB Staff Position 13-1 Accounting for Rental Costs Incurred during a Construction Period. This staff position concludes that rental costs associated with ground or building operating leases that are incurred during a construction period should be recognized as rental expense. We had already

accounted for such rental costs in the manner prescribed by the staff position, so this staff position did not impact our financial statements.

In June 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes. This interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. This standard must be adopted as of January 1, 2007. We anticipate that this standard will have an immaterial effect on our financial statements due to the fact that as a REIT our income taxes are immaterial.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

We are not exposed to market risks from changes in interest rates charged on our outstanding debt as the interest rates on our debt are fixed. We had no outstanding variable rate debt under our Revolving Credit Agreement at June 30, 2006.

The following table presents the future principal payment obligations and weighted-average interest rates at June 30, 2006 associated with our existing debt instruments using our actual level of indebtedness of \$0.7 million under capital leases to finance computer software and \$1.84 billion under our mortgage loans issued on February 28, 2006 and December 7, 2004.

	Weighted Average Interest Rate	Total	Future Principal Payment Obligations — Twelve Months Ended June 30,					
			2007	2008	2009	2010	2011	
			(\$ in thousands)					
Fixed rate:								
February 2006 mortgage loan	5.7	\$1,550,000	\$ —	\$ —	\$ —	\$ —	\$1,550,000	
December 2004 mortgage loan	4.7	293,825	—	—	—	293,825	—	
Capital lease obligations	9.5	673	496	140	18	19	—	
Total fixed rate debt		1,844,498	\$496	\$140	\$18	\$293,844	\$1,550,000	

Foreign Currency Exchange Risk

Our exposure to adverse movements in foreign currency exchange rates is primarily related to our foreign subsidiaries' (United Kingdom and Canada) operating expenses, denominated in the respective local currency. A hypothetical change of 10% in foreign currency exchange rates would not have a material impact on our consolidated financial statements or results of operations.

Item 4. Controls and Procedures

a) Controls and Procedures.

Our disclosure controls and procedures are designed to provide reasonable assurance that information is recorded, processed, summarized and reported accurately and on a timely basis. Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, (the “Exchange Act”)) as of the end of the period covered by this report. Our Chief Executive Officer and our Chief Financial Officer, based on their evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report, have concluded that our disclosure controls and procedures were not effective to provide reasonable assurance that the foregoing objectives were achieved, in light of the material weaknesses described in our Annual Report on Form 10-K for the year ended December 31, 2005.

b) Internal Control Over Financial Reporting.

Other than as set forth below, there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Management believes the material weaknesses identified and reported for the year ended December 31, 2005, described in our Annual Report on Form 10-K, were primarily a result of the implementation of a new lease administration system, the effort required to effectively integrate and account for the Sprint Transaction and other acquisitions, and the tenure of our financial accounting and reporting staff. We have begun implementing changes to our processes to improve our internal control over financial reporting. The following are among the steps we have taken, or intend to take, to remediate the material weaknesses identified as of December 31, 2005:

- Improving processes and controls to re-validate key data in the lease administration system, and subsequent changes thereto
- Establishing processes and controls to revise and test detail calculations in the lease administration system and subsequent changes thereto, with respect to straight-line and other amortization or accretion
- Developing exception reports to allow accounting personnel to more effectively monitor and detect errors in certain account balances
- Reorganizing certain accounting functions and increasing the number of financial accounting personnel and management
- Undertaking a project to replace the Company’s current lease administration system
- Hiring an experienced Chief Information Officer to help oversee the system enhancements required to remediate the control weaknesses.

Although we have already taken some of the steps above to remediate these material weaknesses, further action is required to remediate the material weaknesses including further additions to the accounting staff, enhancements to our existing lease administration system, and the development and implementation of enhanced processes and controls. We hired a new Chief Information Officer who began work in April 2006. Our management and Audit Committee continue to monitor closely the continuing progress under our remediation plan. The effectiveness of the steps we have taken to date and the steps we are still in the process of completing are subject to continued management review,

as well as Audit Committee oversight, and we may make additional changes to our internal control over financial reporting. To address the internal control weaknesses in 2006, the Company performed other procedures to prepare the unaudited quarterly consolidated financial statements in accordance with generally accepted accounting principles.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in litigation incidental to the conduct of our business. We believe that none of such pending litigation or unasserted claims of which we have knowledge will have a material adverse effect on our business, financial condition, results of operations or liquidity.

Item 1A. Risk Factors

Our Annual Report on Form 10-K for the year ended December 31, 2005, filed with the SEC on March 16, 2006, includes a description of our risk factors. The information set forth below updates those risk factors and should be read in conjunction with the risk factors and other information set forth in that Annual Report on Form 10-K.

Chairman of the Board, Chief Executive Officer and President.

Effective May 10, 2006, our former Chief Executive Officer, President and Chairman of the Board of Directors, Wesley R. Edens, resigned from his positions as our Chief Executive Officer and President in connection with Jerry V. Elliott joining Global Signal and being appointed Chief Executive Officer and President, and a director of the company. Mr. Edens remains Chairman of the Board.

We had previously disclosed as a risk factor that because of his positions with several companies, including being Chairman of the Management Committee of Fortress, Mr. Edens, as our CEO and President, may not have been able to devote sufficient time to the management of our business operations. This is no longer a risk factor, as Mr. Edens no longer serves as our CEO and President.

We have experienced high employee turnover.

In our Form 10-K for the year ended December 31, 2005, we listed as a risk factor the fact that we have experienced high employee turnover during 2005, including substantial turnover in our management. Since the filing of that Form 10-K, our former Chief Financial Officer and former Chief Operating Officer each resigned. Since April 2006, we have hired a new Chief Executive Officer and President, a new Chief Financial Officer, a new Chief Information Officer and a new Executive Vice President, Operations. If we fail to attract and retain additional qualified and skilled personnel or fail to retain these persons, our ability to conduct our business operations effectively, remediate weaknesses in internal controls and our overall operating results could be harmed.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) None

(b) None

(c) Purchases of Equity Securities by the Issuer and Affiliated Purchasers

No shares of Global Signal common stock are deemed to have been repurchased during the quarter. During the three months ended June 30, 2006, 32,045 shares of restricted stock were forfeited to us by employees.

- (i) The Revolving Credit Agreement restricts the ability of Global Signal OP to make distributions except: (i) distributions in cash or other property to the extent required to satisfy the REIT Distribution Requirement (as defined in the Revolving Credit Agreement), and (ii) so long as no event of default then exists or would result, (1) equity distributions as consideration for a merger, so long as no event of default then exists or will result, of Global Signal OP, or one of its subsidiaries, into Global Signal Inc. or a subsidiary of Global Signal Inc., (2) in addition to and without duplication of dividends paid under clause (i) above, ordinary quarterly dividends to the holders of capital stock of the Global Signal OP in an amount reasonably comparable to ordinary quarterly dividends customarily declared (including increases in such dividends consistent, in terms of the percentage of such increase, with past practices) by the board of directors of Global Signal Inc., and (3) distributions of cash to the extent necessary to pay the ordinary operating expenses of Global Signal Inc., provided that the aggregate amount of such distributions from December 3, 2004 shall not exceed \$2.0 million.

Table of Contents

- (ii) Our mortgage loans may indirectly restrict the payment of dividends, as decreases below certain levels in our Debt Service Coverage Ratio would require excess cash flows, that could be used to pay dividends, be used to repay outstanding principal due under the mortgage loans.

Item 3. Defaults Upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of Shareholders held on May 18, 2006, the shareholders of Global Signal Inc. elected two Class I directors for a term expiring in 2009. The votes cast “For” and “Against/Withheld” on this matter were as follows:

	Votes Cast For	Votes Cast Against/Withheld
Election of Directors		
David Abrams	67,605,883	333,968
Howard Rubin	67,477,997	461,854

The terms of office of the following directors continued after the annual meeting: Messrs. Edens, Elliott, Niehaus, Gidel, Jacobs and Whiting.
