To the Administrative Committee

**FEDERAL SIGNAL CORPORATION 401(K) RETIREMENT PLAN**

We have audited the accompanying statements of net assets available for benefits of the Federal Signal Corporation 401(k) Retirement Plan (the Plan ) as of December 31, 2004 and 2003, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**FEDERAL SIGNAL CORPORATION 401(K) RETIREMENT PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**(1) Description of plan**

The following description of the Federal Signal Corporation 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan covering a majority of the employees of Federal Signal Corporation (the Company). Employees are eligible on the first day of the calendar quarter after completing three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). On January 1, 2002, the Plan sponsor adopted the Vanguard Qualified Retirement Plan and Trust Defined Contribution Basic Plan Document 01 (the Prototype Plan). The Plan is sponsored by the Company.

**Contributions** - Participants at most divisions can contribute up to 40% of pretax annual compensation, as defined in the Plan, and after-tax contributions of up to 6%. Participants may also transfer amounts representing distributions from other qualified defined benefit or contribution plans. Company contributions are based on a percentage of employee contributions or as a discretionary amount based on eligible employee compensation and/or hours/months worked.

Effective January 1, 2004, the Company lifted the suspension of the Company contributions for the ClappDico division employees. These contributions had been suspended since April 1, 2003. Effective July 1, 2004, the Plan was amended to add catch-up contributions. No matching contributions will be made in connection with any catch-up contributions.

The Plan provides for an employee stock ownership feature wherein all employer contributions are invested in Company stock. However, the participants are allowed to transfer their funds out of Company stock at any time. The Plan also provides for the participants to have the option of receiving Company stock dividends in cash instead of having the dividends automatically reinvested in the Plan.

**Participant accounts** - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings and is charged with an allocation of investment management fees and, for terminated employees, administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used either to reduce future Company contributions or to pay plan expenses depending on the division. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary pension contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service, except for the participants from the Emergency One and Victor Products divisions, who are immediately vested in the Company's discretionary pension contribution. Participants are immediately vested in the dividends from Company stock that were paid to the Plan and reinvested in Company stock at the participant's election.

**NOTES TO FINANCIAL STATEMENTS**

**(1) Description of plan (continued)**

**Investment options** - Upon enrollment in the Plan, a participant may direct employee contributions in 5% increments in a variety of investment choices at Vanguard Fiduciary Trust Company ( Vanguard ) including the Company s common stock. Participants may change their investment by calling Vanguard. All Company contributions are invested in Company stock. The participants have the option of transferring balances from Company stock to other investment choices without restriction.

**Participant loans** - Participants may borrow from their own contributions a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance (excluding employer contributions). Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loans are required to be repaid within five years, with the exception that a loan which is used to acquire a principal residence may be repaid within ten years. The loans are secured by the balance in the participant s account and bear interest at a rate of prime plus one percent. Principal and interest are paid ratably through payroll deductions.

**Payment of benefits** - Participants are eligible to receive the vested portion of their plan account upon retirement, termination of employment, or total and permanent disability. Payment will generally be made in a lump sum.

**Forfeited accounts** - As of December 31, 2004 and 2003, forfeited nonvested accounts totaled \$29,991 and \$51,201, respectively. These accounts are used to reduce future employer contributions and/or to pay plan expenses. Also, during the years ended December 31, 2004 and 2003, employer contributions were reduced by \$51,201 and \$34,601, respectively, from forfeited nonvested accounts.

**(2) Summary of significant accounting policies**

**Basis of accounting** - The financial statements of the Plan are prepared under the accrual method of accounting.

**Estimates** - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

**Investment valuation and income recognition** - Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Values for the Company s common stock are based on the December 31, 2004 and 2003, closing prices. Participants loans receivable are stated at cost, which approximates fair value.

**Accounting method** - Security transactions are accounted for on the date securities are purchased or sold (trade date). Dividend income is recorded on the ex-dividend date. Interest income is recognized when earned. Net realized and unrealized appreciation is recorded in the accompanying financial statements as net realized and unrealized gains (losses) in fair value of investments. Contributions are recognized based on payroll dates and accrued if applicable.
