FORWARD LOOKING STATEMENTS

This Form 10-KSB contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. For this purpose any statements contained in this Form 10-KSB that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "estimate," "continue" or comparable terminology are intended to identify forward-looking statements. These statements by their nature involve substantial risks and uncertainties, and actual results may differ materially depending on a variety of factors, many of which are not within the Company's control. These factors include but are not limited to economic conditions generally in the industries in which the Company, through the acquisition of a business opportunity, may participate; competition within the industry in which the Company may enter, including competition from much larger competitors; technological advances which could render the Company's future products or services less competitive or obsolete; failure by the Company, once it has acquired a business, to successfully develop new products or to anticipate current or prospective customers' product needs; price increase or supply limitations for components purchased by the Company for use in future products; and delays, reductions, or cancellations of orders placed with the Company if and when it acquires a business opportunity.

PART I

ITEM 1. DESCRIPTION OF BUSINESS

Basic Energy, Inc. was originally organized on June 4, 1926 in the State of Utah under the name The M.M. Lead Company. The Company was established to pursue and develop mining operations. On February 28, 1979, the Company changed its name to M.M. Lead Company and again changed its name to Basic Energy, Inc., on February 22, 1980.

The Company was unsuccessful in its pursuit of mining ventures and has been dormant. The Company has focused its efforts on seeking, investigating, and if warranted, acquiring an interest in a business opportunity. The Company does not propose to restrict its search for a business opportunity to any particular industry or geographical area and therefore, may engage in essentially any business in any industry. The Company has unrestricted discretion in seeking and participating in a business opportunity, subject to the availability of such opportunities, economic conditions and other factors.

The selection of a business opportunity in which to participate is complex and extremely risky and will be made by management in the exercise of its best judgment. There is no assurance that the Company will be able to identify and acquire any business opportunity which will ultimately prove to be beneficial to the Company and its shareholders.

The activities of the Company are subject to several significant risks which arise primarily as a result of the fact that the Company has no specific business. The risks faced by the Company are further increased as a result of its lack of resources and its inability to provide a prospective business opportunity with capital.

Sources of Opportunities

It is anticipated that business opportunities may be available to the Company from various sources, including its officers and directors, professional advisers, securities broker-dealers, venture capitalists, members of the financial community, and others who may present unsolicited proposals.

The Company will seek a potential business opportunity from all known sources, but will rely principally on personal contacts of its officers and directors as well as indirect associations among them and other businesses and professional people. Although the Company does not anticipate engaging professional firms specializing in business acquisitions or reorganizations, if management deems it in the best interest of the Company, such firms may be retained. In some instances, the Company may publish notices or advertisements seeking a potential business opportunity in financial or trade publications.

Criteria

The Company will not restrict its search to any particular business, industry or geographical location. The Company may acquire a business opportunity or enter into a business in any industry and in any stage of development. The Company may enter into a business or opportunity involving a "start up" or new company. The Company may acquire a business opportunity in various stages of its operation.

In seeking a business venture, the decision of management of the Company will not be controlled by an attempt to take advantage of an anticipated or perceived appeal of a specific industry, management group, or product or industry, but will be based upon the business objective of seeking long-term capital appreciation in the real value of the Company.

In analyzing prospective business opportunities, management will consider such matters as the available technical, financial and managerial resources; working capital and other financial requirements; the history of operations; prospects for the future; the nature of present and expected competition; the quality and experience of management services which may be available and the depth of the management; the potential for further research, development or exploration; the potential for growth and expansion; the potential for profit; the perceived public recognition or acceptance of products, services, trade or service marks, name identification; and other relevant factors.

To a large extent, a decision to participate in a specific business opportunity may be made upon management's analysis of the quality of the other firm's management and personnel, the ability to market products and numerous other factors which are difficult if not impossible to analyze through the application of any objective criteria. In many instances, it is anticipated that the results of operations of a specific firm may not necessarily be indicative of the potential for the future because of the requirement to substantially augment management, or other factors.

Generally, the Company will analyze all factors in the circumstances and make a determination based upon a composite of available facts, without reliance upon any single fact as controlling.

Methods of Participation of Acquisition

Specific business opportunities will be reviewed and, on the basis of that review, the legal structure or method of participation deemed by management to be suitable will be selected. The Company may consider structures and methods such as leases, purchase and sale agreements, licenses, joint ventures, or other contractual arrangements and may involve a reorganization, merger or consolidation transaction. The Company may act directly or indirectly through an interest in a partnership, corporation, or other form of organization.

Procedures

As part of the Company's investigation of business opportunities, officers and directors may meet personally with management and key personnel of the firm sponsoring the business opportunity, visit and inspect material facilities, obtain independent analysis or verification of certain information provided, check references of management and key personnel, and conduct other reasonable measures.

The Company will generally request that it be provided with written materials regarding the business opportunity containing such items as: a description of products, services and company history; management resumes; financial information; available projections with related assumptions upon which they are based; an explanation of proprietary products and services; present and proposed forms of compensation to management; a description of transactions between the prospective entity and its affiliates; relevant analysis of risks and competitive conditions; a financial plan of operation and estimated capital requirements; and other information deemed relevant.

Competition

The Company expects to encounter substantial competition in its efforts to acquire a business opportunity. The primary competition is from other companies, organized and funded for similar purposes, small venture capital partnerships and corporations, small business investment companies and wealthy individuals who are interested in a business opportunity. Many of these companies and groups have substantial financial and personal resources which give such companies considerable advantage over the Company.

Employees

The Company does not currently have any employees but relies upon the efforts of its officers and directors to conduct the business of the Company.

ITEM 2. DESCRIPTION OF PROPERTY

The Company leases 600 square feet of office space at 3771 South State Street, Salt Lake City, Utah. The lease terms are \$50.00 per month, renewable at the same rate every twelve months.

ITEM 3. LEGAL PROCEEDINGS

No legal proceedings are threatened or pending against the Company or any of its officers or directors. Further, none of the Company's officers or directors or affiliates of the Company are parties against the Company or have any material interests that are adverse to the Company's interests.

ITEM 4. SUBMISSION OF MATTER TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the security holders during the fourth quarter of the fiscal year ended June 30, 2002.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY
AND RELATED STOCKHOLDER MATTERS

On September 24, 2001 the NASD approved the Company for listing on the NASD Over-the-Counter Bulletin Board. The Company's shares are listed under the symbol "BEGI." There is no established trading market for the Company's shares and there is no assurance that a trading market will develop for the Company's shares, or if developed, that it can be sustained. The following table sets forth for the period of July 1, 2000 through June 30, 2002, the range of the high and low sales prices of the Company's common stock as quoted by various market makers.

July 1, 2000 to June 30, 2001:	<u>High*</u>	<u>Low*</u>
First Quarter	\$0	\$0
Second Quarter	\$0	\$0
Third Quarter	\$0	\$0
Fourth Quarter	\$0	\$0
July 1, 2001 to June 30, 2002:	<u>High*</u>	<u>Low*</u>
First Quarter	\$0	\$0
Second Quarter	\$0	\$0
Third Quarter	\$0	\$0
Fourth Quarter	\$11.00	\$1.00

* The source of the high and low closing sales price information is Big Charts and can be found at <http://bigcharts.com>.

As of October 11, 2002 the Company had 182 holders of record of its common shares. The Company has never paid, nor declared a dividend on its common shares since its inception and does not intend to declare any such dividend in the foreseeable future. The Company's ability to pay dividends is subject to limitations imposed by Utah law.

The Company does not have any equity compensation plans.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS
OR PLAN OF OPERATIONS

The Company has little cash and has experienced losses. As of June 30, 2002 the Company has \$894 of cash on hand. As of that date, the Company had \$36,698 of outstanding liabilities. The Company has no material

commitments for capital expenditures for the next twelve months.

As of the date of this Form 10-KSB, the Company has yet to generate positive cash flow. The Company has financed its operations primarily through the sale of its common stock.

The Company believes that its current cash needs can be met either through the sale of additional common stock of the Company or through loans. However, should the Company obtain a business opportunity, it may be necessary to raise additional capital. This may be accomplished by selling common stock of the Company.

Management of the Company intends to actively seek business opportunities for the Company.

Independent Auditor's Report

To the Board of Directors & Stockholders
of Basic Energy, Inc.

We have audited the accompanying balance sheets of Basic Energy, Inc., (a development stage company) as of June 30, 2002 and 2001, and the related statements of operations, stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the June 30, 2002 financial statements referred to above present fairly, in all material respects, the

financial position of Basic Energy, Inc., as of June 30, 2002 and 2001, and the results of its operations and its cash flows for the year then ended, in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note #4 to the financial statements, the Company has an accumulated deficit and a negative net worth at June 30, 2002. Those conditions raise substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters are also discussed in Note #4. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basic Energy, Inc.
(A Development Stage Company)
Notes to Financial Statements
June 30, 2001

NOTE #1 - Organization

The Company was organized on June 4, 1926 under the laws of the State of Utah, using the name of M.M. Lead Company. On February 22, 1980 a Certificate of Amendment was filed with the state of Utah changing the name to Basic Energy, Inc. The Company has been dormant for many years and is considered to be a development stage company.

NOTE #2 - Significant Accounting Policies

- A. The Company uses the accrual method of accounting.
- B. Revenues and directly related expenses are recognized in the period when the goods are shipped to the customer.
- C. The Company considers all short term, highly liquid investments that are readily convertible, within three months, to known amounts as cash equivalents. The Company currently has no cash equivalents.
- D. Primary Earnings Per Share amounts are based on the weighted average number of shares outstanding at the dates of the financial statements. Fully Diluted Earnings Per Shares shall be shown on stock options and other convertible issues that may be exercised within ten years of the financial statement dates.
- E. Estimates: The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

NOTE #3 - Stockholders' Equity

Common Stock

Upon incorporation the Company had 1,000,000 shares of common stock authorized with a par value of \$0.10 per share. On February 28, 1979 the Articles of Incorporation were changed authorizing 20,000,000 shares with a par value of \$0.10 per share.

The Company issued 600,000 shares of its common stock to acquire mining claims in 1926. In 1937, the Company wrote the claims off as having no value.

The shares issued in 1926 were assessable, and in 1937 the 600,000 shares were assessed at \$.001 per share, 423,780 shares did not pay the assessment and were canceled.

During the year ended June 30, 2002, the Company issued 792,196 shares to officers and directors for services and out of pocket expenses. The shares were issued at \$0.10 per share.

June 30, 2002

NOTE #4 - Going Concern

The Company has no assets and no operations from which it can obtain working capital. The Company recognizes that it must find a source of working capital or the Company may not be able to continue its existence. These financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classifications of liabilities that might be necessary in the event the Company cannot continue its existence. These financial statements do not include any adjustments that might result from the outcome of this uncertainty. It is the intent of the Company to find additional capital funding and/or a profitable business venture to acquire or merge.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS
ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

PART III

ITEM 9. DIRECTORS AND EXECUTIVE OFFICERS, PROMOTERS,

(1) From June 30, 2000 to June 30, 2002 there was no established trading market for the Company's shares. Therefore, an arbitrary value at \$.10 per share, which is the par value of the Company's shares, was used to determine compensation.

(2) In January 2002, Mr. Gibson was awarded 138,115 restricted common shares. In January 2001, Mr. Gibson was awarded 115,130 restricted common shares for the period of October 2000 through December 2000. In October 2000, Mr. Gibson was awarded 569,065 for the period of March 1999 to September 2000. 2002, 2001, and 2000 compensation figures are based on a monthly average of these amounts. All shares awarded were issued as compensation for services rendered and to cover out of pocket expenses incurred on behalf of the Company.

15

(3) In January 2002, Mr. Burnett was awarded 9,948 restricted common shares. In January 2001, Mr. Burnett was awarded 6,200 restricted common shares for the period of October 2000 through December 2000. In October 2000, Mr. Burnett was awarded 18,653 restricted common shares for the period of March 1999 to September 2000. 2002, 2001, and 2000 compensation figures are based on a monthly average of these amounts. All shares awarded were issued as compensation for services rendered and to cover out of pocket expenses incurred on behalf of the Company.

(4) In January 2002, Mr. Seljass was awarded 12,076 restricted common shares. In January 2001, Mr. Seljass was awarded 6,970 restricted common shares for the period of October 2000 through December 2000. In October 2000, Mr. Seljass was awarded 6,813 restricted common shares for the period of March 1999 to September 2000. 2002, 2001, and 2000 compensation figures are based on a monthly average of these amounts. All shares awarded were issued as compensation for services rendered and to cover out of pocket expenses incurred on behalf of the Company.

(5) In January 2002, Mr. Graubard was awarded 29,820 restricted common shares. In January 2001, Mr. Graubard was awarded 7,600 restricted common shares for the period of October 2000 through December 2000. In October 2000, Mr. Graubard was awarded 32,074 restricted common shares for the period of March 1999 to September 2000. 2002, 2001, and 2000 compensation figures are based on a monthly average of these amounts. All shares awarded were issued as compensation for services rendered and to cover out of pocket expenses incurred on behalf of the Company.

(6) In January 2002, Ms. Sigler was awarded 8,219 restricted common shares. In January 2001, Ms. Sigler was awarded 2,880 restricted common shares for the period of October 2000 through December 2000. In October 2000, Ms. Sigler was awarded 2,472 restricted common shares for the period of March 1999 to September 2000. 2002, 2001, and 2000 compensation figures are based on a monthly average of these amounts. All shares awarded were issued as compensation for services rendered and to cover out of pocket expenses incurred on behalf of the Company.

Compensation of Officers and Directors

Compensation of Directors, Officers, and other agents has been paid by the issuance of shares of restricted common stock of the Company, having a par value of \$.10 per share. All such stock is fully paid and non-assessable. The rate of compensation is \$40.00 per hour for labor, \$.30 per mile for miles traveled while working for the Company, and any out-of-pocket expenses are also compensated at the rate of \$.30 per share. All stock issued as compensation is approved by the Board of Directors.

Employment Contracts and Termination of Employment and Change in Control Arrangements

There are no employment contracts between the Company and any of its officers or directors.

There are no compensatory plans or arrangements, including payments to be received from the Company, with respect to any of the Company's officers or directors which would in any way result in payments to any such person because of his resignation, retirement, or other termination of such person's employment with the Company, or any change in control of the Company, or a change in the person's responsibilities following a change in control of the Company.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth as of September 20, 2002, the name and the number of shares of the Company's Common Stock, par value \$0.10 per share, beneficially owned by each person who is known by the Company to own more than 5% of the 8,131,226 outstanding shares of the Company's Common Stock, and the name and number of shares beneficially owned by each director of the Company and by each executive officer named in the Summary Compensation Table contained in "Executive Compensation," and all of the officers and directors as a group.
