## INDEPENDENT AUDITORS' REPORT

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS  
COTTON STATES LIFE INSURANCE COMPANY, INC.:

We have reviewed the consolidated condensed balance sheet of Cotton States Life Insurance Company, Inc. as of September 30, 2001, and the related consolidated condensed statements of earnings and comprehensive income for the three-month and nine-month periods ended September 30, 2001 and 2000, and the consolidated condensed statements of cash flows for the nine month periods ended September 30, 2001 and 2000. These consolidated condensed financial statements are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated condensed financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of Cotton States Life Insurance Company, Inc. as of December 31, 2000, and the related consolidated statements of earnings, shareholders' equity, cash flows and comprehensive income for the year then ended (not presented herein); and in our report dated February 21, 2001, we expressed an unqualified opinion on those

consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated condensed balance sheet as of December 31, 2000, is fairly stated in all material respects, in relation to the consolidated balance sheet from which it has been derived.

COTTON STATES LIFE INSURANCE COMPANY  
NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS  
SEPTEMBER 30, 2001 AND DECEMBER 31, 2000

NOTE 1 - BASIS OF PRESENTATION

The accompanying consolidated condensed financial statements include the accounts of Cotton States Life Insurance Company and its wholly owned subsidiaries CSI Brokerage Services, Inc., and CS Marketing Resources, Inc. Significant intercompany transactions and balances are eliminated in the consolidation.

The consolidated condensed financial statements for the three months and nine months ended September 30, 2001 are unaudited and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. These consolidated condensed financial statements should be read in conjunction with the audited consolidated financial statements and footnotes included in the Company's annual report on Form 10-K for the year ended December 31, 2000.

In the opinion of management, all adjustments and reclassifications necessary to present fairly the financial position and the results of operations and cash flows for the interim periods have been made. All such adjustments are of a normal and recurring nature. The results of operations are not necessarily indicative of the results of operations that the Company may achieve for the entire year.

NOTE 2 - ACCOUNTING PRONOUNCEMENTS

Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities became effective beginning January 1, 2001. However, due to the Company's limited use of derivative financial instruments, SFAS No. 133 had no impact on the Company's consolidated financial position, results of operations or cash flows.

The FASB also issued SFAS No. 140, "Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities (a replacement of SFAS No. 125)" in September 2000. At this time, the Company does not expect this standard to have a significant impact on the Company's financial position or income.

## Edgar Filing: COTTON STATES LIFE INSURANCE CO / - Form 10-Q

The FASB recently issued SFAS No. 141, "Business Combinations," and SFAS No. 142, "Goodwill and Other Intangible Assets," in June 2001. Based on current information available, the Company does not expect these standards to have a significant impact on the Company's financial position or income.

The FASB recently issued SFAS No. 143, "Accounting for Asset Retirement Obligations", and SFAS No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets (a replacement of SFAS No. 121). Based on current information available, the Company does not expect these standards to have a significant impact on the Company's financial position or income.

6

### NOTE 3 - BUSINESS SEGMENTS

The Company's operations include the following three major segments, differentiated primarily by their respective methods of distribution and the nature of related products: individual life insurance, guaranteed and simplified issue life insurance, and brokerage operations. The Company's operations in each segment are concentrated within its southeastern state geographic market. Individual life insurance products are distributed through the Company's multi-line exclusive agents, guaranteed and simplified issue products are distributed through independent agents as well as exclusive agents, and brokerage operations all involve third party products distributed through the Company's exclusive and independent agents.

Total revenue and net income by business segment are as follows:

### NOTE 4 - CONTINGENCIES

The Company has initiated legal action to recover the proceeds of a \$900,000 reinsurance policy. The Company expects that the ultimate recovery of the full amount is very likely.

7

### ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF CONSOLIDATED CONDENSED FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### FORWARD-LOOKING STATEMENTS

Statements made in the following discussion that states the Company's or management's intentions, hopes, beliefs, expectations or predictions of the future are forward-looking statements. Without limiting the foregoing, forward-looking statements include statements which represent the Company's beliefs concerning future levels of sales and redemption of the Company's products, investment spreads and yields, or the earnings and profitability of the Company's activities.

Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond the Company's control and many of which are subject to change. These uncertainties and contingencies could cause actual results to differ materially from those expressed in any forward-looking statements made by, or on behalf of, the Company. Whether or not actual results differ materially from forward-looking statements may depend on numerous foreseeable and unforeseeable developments. Some may be national in scope, such as general economic conditions, changes in tax law and changes in interest rates. Some may be related to the insurance industry generally, such as pricing competition, regulatory developments and industry consolidation. Others may relate to the Company specifically, such as credit, volatility and other risks associated with the Company's investment portfolio. Investors are also directed to consider other risks and uncertainties discussed in Form 10-K filed by the Company with the Securities and Exchange Commission. If the Company's assumptions and estimates are incorrect or do not come to fruition, or if the Company does not achieve all of these key factors, then the Company's actual performance could vary materially from the forward-looking statements made herein. The Company disclaims any obligation to update forward-looking information.

RESULTS OF OPERATIONS  
(DOLLARS IN THOUSANDS)

	NINE MONTHS ENDED		
	2001	SEPTEMBER 30, 2000	INCREASE
	-----	-----	-----
PREMIUMS			
Guaranteed and simplified issue life insurance	\$ 7,709	5,842	32%
Individual life insurance:

Total individual life insurance	14,027	13,440	4%
	-----	-----	
TOTAL PREMIUMS	\$21,736	19,282	13%
	=====	=====	

Guaranteed and simplified issue life insurance premiums continued to show significant growth as a result of higher production by the independent agency force which increased 13% to 4,400 agents under contract at September 30, 2001 compared to 3,900 at September 30, 2000. This product is also distributed by the

8

Company's multi-line exclusive agents and is available for purchase over the Internet at the Company's home page.

Individual life insurance products are principally sold by the Company's exclusive agent producers. Individual life premiums have increased 4% for the nine month period ending September 30, 2001 compared to the same period last year. The exclusive agency force of 294 as of September 30, 2001 increased 3% compared to the same date last year.

INVESTMENT INCOME

Investment income increased 5% compared to the first nine months of 2000 reflecting growth in the average investment portfolio. The annualized average yield decreased to 6.7% compared to 6.9% for the first nine months 2000 due to lower interest rates.

BROKERAGE COMMISSIONS

Exclusive agents also sell products that the Cotton States Group does not underwrite (both life and property and casualty). Property and casualty business lines, principally non-standard auto, continue to show strong growth with commissions increasing 15% compared to the first nine months of last year.

BENEFITS AND CLAIMS

## Edgar Filing: COTTON STATES LIFE INSURANCE CO / - Form 10-Q

Life benefits and claims, including reserve increases on traditional life and guaranteed and simplified issue products are as follows:

	NINE MONTHS ENDED SEPTEMBER 30, (DOLLARS IN THOUSANDS)			
	2001 -----	% OF PREMIUM -----	2000 -----	% PRE -----

	-----		-----	
TOTAL BENEFITS AND CLAIMS	\$12,729	59%	10,066	5
	=====		=====	

Although individual life benefits were consistent with management's expectations for the quarter, they are up year to date compared to last year primarily due to high mortality experienced during the first quarter of the year.

9

### INTEREST CREDITED TO POLICYHOLDERS

Interest credited to universal life contracts increased 5% reflecting growth in universal life policy accumulations. The annual interest rate credited to universal life contract accumulations was 6.2% for both nine month periods of 2001 and 2000.

### AMORTIZATION OF POLICY ACQUISITION COSTS AND OPERATING EXPENSES

The amortization of policy acquisition costs as a percentage of premiums was 15% for the nine months ended September 2001. This is slightly higher than the Company's expected range of 12-14% due to higher lapses in the traditional lines of business which reflects increased term rate competition in the market place.

The amortization of policy acquisition costs for the third quarter of 2000 reflected a favorable adjustment from updating actuarial assumptions. This adjustment represented the slow down of amortization as a result of higher estimated future profits resulting from improvement in mortality levels on universal life products. The after tax effect on net income for the three month and nine month periods ended September 30, 2000 was \$429 thousand and \$.07 per share.

Operating expense as a percentage of premiums remained at 28% for the first nine months compared to the same period last year.

## Edgar Filing: COTTON STATES LIFE INSURANCE CO / - Form 10-Q

### INCOME TAX EXPENSE

The effective tax rate for the first nine months of 2001 was 27% compared to 31% for the same period last year. The 4 percentage point decrease is the result of the decrease in pretax income and an increase in the allowable small company deduction. The effective tax rate is based on the estimated annual rate.

10

Despite continued growth in premiums and more normal expense and mortality costs net income decreased for the quarter as third quarter 2000 results reflected a nonrecurring favorable adjustment to the amortization of policy acquisition costs.

Nine month results reflect higher first quarter mortality in comparison to the prior year as well as a nonrecurring favorable adjustment to the amortization of policy acquisition costs in 2000.

### QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

#### CREDIT RISK

Credit Risk is the risk that issuers of securities owned by the Company will default, or other parties, including reinsurers, which owe the Company money, will not pay. The Company attempts to minimize these risks by following a conservative investment strategy and by contracting with reinsuring companies that meet high standards for rating criteria and other qualifications. The

## Edgar Filing: COTTON STATES LIFE INSURANCE CO / - Form 10-Q

Company invests in government, governmental agency and high quality corporate bonds having an A rating or better. The fixed maturity portfolio had an average rating of AA- at September 30, 2001.

### INTEREST RATE RISK

The Company's fixed maturity investments are subject to interest rate risk. The Company manages the impact of interest rate fluctuation through cash flow modeling. Liabilities for interest sensitive products are carried at full account value. The fixed maturity portfolio at September 30, 2001 and December 31, 2000 had an effective duration of 4.4 years and 4.8 years, respectively.

The table below summarizes the Company's interest rate risk and shows the effect of a hypothetical 100 basis point (bp) decrease and increase in interest rates on the fair values of the fixed investment portfolio. The selection of a 100 basis point decrease and increase in interest rates should not be construed as a prediction by the Company's management of future market events, but rather, to illustrate the potential impact of such events. These calculations may not fully capture the impact of the changes in the ratio of long-term rates to short-term rates.

FIXED MATURITIES	ESTIMATED FAIR VALUE SEPTEMBER 30, 2001	(AMOUNTS IN THOUSANDS) ESTIMATED FAIR VALUE AFTER 100 BASIS POINT CHANGE IN INTEREST RATES	
Held for investment	\$ 13,036	100 bp decrease	\$ 13,237
		100 bp increase	\$ 12,840
Available for sale	\$135,827	100 bp decrease	\$142,272
		100 bp increase	\$129,464

### LIQUIDITY AND CAPITAL RESOURCES

#### CASH FLOW

Premiums and investment income are the Company's major sources of cash flow used to meet its short-term and long-term cash requirements.

Short-term obligations consist primarily of operating expenses and policyholder benefits. The Company has been able to meet these funding requirements out of operating cash flow. The Company does not anticipate that it will become necessary to sell long-term investments to meet short-term obligations.

The Company's principal long-term obligations are fixed contractual obligations incurred in the sale of its life insurance products. The premiums billed for these products are based on conservative and actuarially sound assumptions as to mortality, persistency and interest. The Company believes these assumptions will produce revenues sufficient to meet its future contractual benefit obligations and operating expenses, and provide an adequate profit margin to finance future growth without a major entry into the debt or equity markets.

#### INVESTMENTS

## Edgar Filing: COTTON STATES LIFE INSURANCE CO / - Form 10-Q

Since December 31, 2000, there has not been a material change in mix or credit quality of the Company's investment portfolio. All purchases have been fixed maturities available for sale and over 93% of the holdings at September 30, 2001 and December 31, 2000 are rated "A" or better. Due to lower interest rates the Company experienced an increase in the fair value of bonds of approximately \$6.6 million year to date.

### MORTGAGE LOANS

The Company's mortgage loan policy stipulates that the Company will loan no more than 80% of the value on residential loans and no more than 75% of the value on commercial loans. The Company grants loans only to employees (excluding officers and directors) and agents.

The geographic distribution of the loan portfolio is:

Item 1. Legal Proceedings

The Company is a defendant in various actions incidental to the conduct of its business. The Company intends to vigorously defend the litigation and while the ultimate outcome of these matters cannot be estimated with certainty, management does not believe the actions will result in any material loss to the Company.

The Company has initiated legal action to recover the proceeds of a \$900,000 reinsurance policy. The Company expects that the ultimate recovery of the full amount is very likely.
