ITEM 1.D. Notes to Consolidated Financial Statements (Unaudited)

1. The Company and Basis of Presentation

Organization - Bright Horizons Family Solutions, Inc. (the Company) was incorporated under the laws of the state of Delaware on April 27, 1998 and commenced substantive operations upon the completion of the merger by and between Bright Horizons, Inc. (BRHZ) and CorporateFamily Solutions, Inc. (CFAM) on July 24, 1998 (the Merger). The Company provides workplace services for employers and families including childcare, early education and strategic work/life consulting throughout the United States, Canada, Guam, Ireland and the United Kingdom.

The Company operates its child care and early education centers under various types of arrangements, which generally can be classified in two forms: (i) the sponsor model, where the Company operates a center on the premises of a sponsor and gives priority enrollment to the sponsor's employees or affiliates, and (ii) the management model, where the Company manages a work-site center under a cost-plus arrangement, typically for a single employer.

Basis of Presentation - The accompanying financial statements have been prepared by the Company in accordance with the accounting policies described in the Company's audited financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002, and should be read in conjunction with the notes thereto.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

In the opinion of the Company's management, the accompanying unaudited consolidated financial statements contain all adjustments which are necessary to present fairly its financial position as of June 30, 2003, and the results of its operations for the three and six month periods ended June 30, 2003 and 2002, and its cash flows for the six month periods ended June 30, 2003 and 2002, and are of a normal and recurring nature. The results of operations for interim periods are not necessarily indicative of the operating results to be expected for the full year.

Segment Information - As of June 30, 2003, the Company operates solely in one segment, providing workplace services to employers and families including childcare, early education and work/life consulting and generates in excess of 90% of revenue and operating profit domestically.

Stock-Based Compensation - SFAS No. 123, Accounting for Stock-Based Compensation, encourages, but does not require, companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for employee stock-based compensation using the intrinsic value method as prescribed in Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related

Table of Contents

interpretations. Under APB Opinion No. 25, no compensation cost related to employee stock options has been recognized as options are granted with exercise prices equal to or greater than the fair market value at the date of grant. The Company accounts for options granted to non-employees and certain options issued in connection with acquisitions using the fair value method, in accordance with the provisions of SFAS No. 123. Had compensation cost for the stock option plans been determined based on the fair value at the grant date consistent with the provisions of SFAS No. 123, the Company's net income and earnings per share would have been reduced to the following pro forma amounts for periods ended June 30, 2003 and 2002.

	<u>June 30, 2003</u>	<u>June 30, 2002</u>
Period Ended:		
Net income:		
As reported	\$9,655,000	\$7,677,000
Pro forma	\$7,855,000	\$5,344,000
Earnings per share Basic:		
As reported	\$ 0.77	\$ 0.62
Pro forma	\$ 0.63	\$ 0.43
Earnings per share Diluted:		
As reported	\$ 0.74	\$ 0.59
Pro forma	\$ 0.61	\$ 0.42

The fair value of each option on its date of grant has been estimated for pro forma purposes using the Black-Scholes option pricing model using the following weighted average assumptions:

	<u>2003</u>	<u>2002</u>
Expected dividend yield	0.0%	0.0%
Expected stock price volatility	49.1%	51.6%
Risk free interest rate	1.99%	3.20%
Expected life of options	7.3 years	7.3 years
Weighted-average fair value per share of options granted during the year	\$ 14.41	\$ 16.42

Comprehensive Income - Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources.

The only components of comprehensive income reported by the Company are net income and foreign currency translation adjustments.

Recently Issued Accounting Pronouncements

In November 2002, the EITF issued EITF No. 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. EITF No. 00-21 addresses certain aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. EITF No. 00-21 establishes three principles: revenue arrangements with multiple deliverables should be divided into separate units of accounting, arrangement consideration should be allocated among the separate units of accounting based on their relative fair values, and revenue recognition criteria should be considered separately for separate units of accounting. EITF No. 00-21 is effective for all revenue arrangements entered into in fiscal periods beginning after June 15, 2003, with early adoption permitted. The Company does not expect this standard to have an impact on its revenue recognition policies.

2. Notes Payable

The Company entered into an agreement with a client to develop an early education center, which will be funded by proceeds from a note payable of approximately \$2.6 million. The note will bear interest at 5.75% and will be payable over a term of 54 months, commencing August 2003, and is secured by the Company's leasehold interest in the center. Through June 30, 2003, the Company has borrowed approximately \$1.9 million of the amount available.

3. Earnings Per Share

Earnings per share has been calculated and presented in accordance with SFAS No. 128 Earnings per Share. The computation of net earnings per share is based on the weighted average number of common shares and common equivalent shares outstanding during the period.

Table of Contents

The following tables present information necessary to calculate earnings per share:

The weighted average number of shares excluded from the above calculations for the three and six months ended June 30, 2003 were approximately 11,000 and 158,000, respectively, and approximately 9,000 and 5,000 for the three and six months ended June 30, 2002, respectively, as their effect would be anti-dilutive. For the three and

Table of Contents

six month periods ended June 30, 2003 and 2002, the Company had no warrants or preferred stock outstanding

4. Commitments and Contingencies

The Company self-insures a portion of its workers compensation and medical insurance plans. While management believes that the amounts accrued for these obligations is sufficient, any significant increase in the number of claims and costs associated with claims made under these plans could have a material adverse effect on the Company's financial position or results of operations.

The Company is a defendant in certain legal matters in the ordinary course of business. Management believes the resolution of such legal matters will not have a material effect on the Company's financial condition or results of operations.

The Company is guarantor on a lease for a childcare center that was transitioned to another provider. The lease guarantee expires in June 2006. Management estimates that its current obligations associated with this lease, including real estate taxes and related expenses to be approximately \$680,000.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Form 10-Q contains certain forward-looking statements regarding, among other things, the anticipated financial and operating results of the Company. Investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly release any modifications or revisions to these forward-looking statements to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. In connection with the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, the Company cautions investors that future financial and operating results may differ materially from those projected in forward-looking statements made by, or on behalf of, the Company. Such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. See Risk Factors included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002 and incorporated herein by reference for a description of a number of risks and uncertainties, which could affect actual results.

General

The Company provides workplace services for employers and families, including child care, early education and strategic work/life consulting, operating 481 child care and early education centers at June 30, 2003. During the three-month period ending June 30, 2003, the Company added 9 new centers, and closed 4 centers, adding the ability to serve 700 children to its total capacity. The Company now has the capacity to serve approximately 56,000 children in 37 states, the District of Columbia, Canada, Guam, Ireland and the United Kingdom and has partnerships with many leading employers, including 84 *Fortune 500* companies. *Working Mother's* 2002 list of the 100 Best Companies for Working Mothers includes 54 clients of the Company. Historical revenue growth has primarily resulted from the addition of child care and early education centers as well as increased enrollment at existing child care and early education centers. The Company reports its operating results on a calendar year basis.

The Company's business is subject to seasonal and quarterly fluctuations. Demand for child care and early education services has historically decreased during the summer months. During this season, families are often on vacation or have alternative child care arrangements. Demand for the Company's services generally increases in September upon the beginning of the new school year and remains relatively stable throughout the remainder of the school year. Results of operations may also fluctuate from quarter to quarter as a result of, among other things, the performance of existing centers including enrollment levels and staffing fluctuations, the number and timing of new center openings and/or acquisitions, the length of time required for new centers to achieve profitability, center closings, refurbishment or relocation, the model mix (sponsor vs. management) of new and existing centers, competitive factors and general economic conditions.

Table of Contents**Results of Operations**

The following table sets forth certain statement of operations data as a percentage of revenue for the three and six month periods ended June 30, 2003 and 2002:

Net income	4.4%	4.0%	4.2%	3.9%

Three and Six Months Ended June 30, 2003 Compared to the Three and Six Months Ended June 30, 2002

Revenue. Revenue increased \$17.0 million, or 17.1%, to \$117.0 million for the three months ended June 30, 2003 from \$100.0 million for the three months ended June 30, 2002. Revenue increased \$35.1 million, or 18.0%, to \$229.5 million for the six months ended June 30, 2003 from \$194.4 million for the six months ended June 30, 2002. The growth in revenues is primarily attributable to the net addition of 25 centers since June 30, 2002, which correlates to a 7% increase in overall capacity, modest growth in the existing base of centers, and average tuition increases of 4% at existing centers.

Gross Profit. Cost of services consists of center operating expenses, including payroll and benefits for center personnel, facilities costs, which include depreciation, supplies and other expenses incurred at the child care and early education center level. Gross profit increased \$3.0 million, or 20.5%, to \$18.0 million for the three month period ended June 30, 2003 from \$15.0 million for the three months ended June 30, 2002. As a percentage of revenue, gross profit increased to 15.4% for the three months ended June 30, 2003 compared to 15.0% for the three months ended June 30, 2002. Gross profit increased \$6.0 million, or 20.6%, to \$35.1 million for the six months ended June 30, 2003 from \$29.1 million for the six months ended June 30, 2002. As a percentage of net revenues, gross profit increased to 15.3% for the six months ended June 30, 2003, compared to 15.0% for the same period in 2002.

The increase in gross profit margins for the three and six month periods ended June 30, 2003 compared to the same periods in 2002 resulted from enrollment gains at the Company's centers that are ramping to mature operating levels, the ability to maintain price increases and the controlled management of personnel costs at the Company's domestic centers. The Company expects gross margins for the full year in 2003 to approximate 14.8% to 15.1% due to the seasonal effects of the business during the summer months.

Table of Contents

Selling, General and Administrative Expenses. Selling, general and administrative expenses (SGA) consist of regional and district management personnel, corporate management and administrative functions, and business development expenses. Selling, general and administrative expenses increased \$1.1 million, or 13.3%, to \$9.2 million for the three months ended June 30, 2003 from \$8.1 million for the three months ended June 30, 2002. As a percentage of revenue, SGA expenses decreased to 7.9% for the three months ended June 30, 2003 from 8.1% for the same period in 2002. SGA expenses increased \$2.7 million, or 16.9%, to \$18.5 million for the six months ended June 30, 2003 from \$15.8 million for the six months ended June 30, 2002. As a percentage of net revenues, SGA expenses decreased to 8.0% for the six months ended June 30, 2003 from 8.1% for the six months ended June 30, 2002.

The dollar increase in SGA expenses is primarily attributable to investments in regional and divisional management as well as general corporate and administrative personnel necessary to support long-term growth, primarily related to expansion and integration of the Company's European operations. Selling, general and administrative expenses, as a percentage of revenue, decreased during the three and six months ended June 30, 2003 as compared to the three and six months ended June 30, 2002 as a result of a larger revenue base and increased leveraging of overhead costs. In total, the Company projects SGA expenses, as a percentage of revenue, to approximate 7.9% to 8.1% of revenue for 2003.

Amortization. Amortization expense on intangible assets other than goodwill totaled \$88,000 for the three months ended June 30, 2003, as compared to \$74,000 in the same period for 2002. For the six month period ended June 30, 2003, amortization expense totaled \$215,000 compared to \$183,000 in the period ended June 30, 2002.

Income from Operations. Income from operations totaled \$8.7 million for the three months ended June 30, 2003, an increase of \$2.0 million, or 29.0%, from \$6.7 million in the same period for 2002. For the six months ended June 30, 2003, income from operations increased \$3.3 million, or 25.1%, to \$16.5 million from \$13.2 million in the same period for 2002. These increases are primarily the result of the revenue and gross margin improvements indicated above.

Net Interest Income. Net interest income was approximately \$77,000 for the three months ended June 30, 2003 as compared with \$12,000 for the three months ended June 30, 2002. For the six months ended June 30, 2003 the Company had net interest income of \$115,000 as compared to net interest income of \$35,000 for the six months ended June 30, 2002. The net interest income in 2003 arises from higher average levels of invested cash, offset by lower average investment yields in 2003 compared to 2002.

Income Tax Provision. The Company's effective income tax rate was approximately 41.6% for the three-month period ended June 30, 2003 and 41.4% for the three-month period ended June 30, 2002. For the six months ended June 30, 2003 and 2002, the tax rate was approximately 41.8%, which approximates the projected rate for the full year in 2003.

Liquidity and Capital Resources

The Company's primary cash requirements are the ongoing operations of its existing centers and the addition of new centers through development or acquisition. The Company's primary sources of liquidity have been existing cash balances and cash flow from operations. The Company had working capital of \$372,000 as of June 30, 2003 and a working capital deficit of \$8.7 million at December 31, 2002.

Cash provided from operations totaled \$15.7 million for the six months ended June 30, 2003 and \$23.0 million for the six months ended June 30, 2002. The decrease is primarily the result of the timing and collections of accounts receivable and a smaller increase in deferred revenue in 2003 as compared to 2002, both of which were offset by a \$2.0 million increase in net income.

Cash used in investing activities decreased to \$10.3 million for the six months ended June 30, 2003 from \$26.3 million for the six months ended June 30, 2002. The decrease was primarily the result of payments of \$17.4 million for acquisitions made in 2002. The decrease in cash used in investing activities was slightly offset by an increase in fixed asset spending of approximately \$1.7 million in the six month period ended June 30, 2003 as compared to the same period in 2002. Fixed assets additions in 2003 totaled \$10.6 million of which approximately \$6.9 million relates to new centers, with the remaining balance being primarily utilized for the refurbishment of existing centers. Management expects the current level of center related fixed asset spending to remain the same or increase slightly over the remainder of 2003.

Cash provided by financing activities totaled \$4.8 million for the six months ended June 30, 2003 as compared to \$1.6 million for the six months ended June 30, 2002. The Company received \$3.1 million for stock option exercises in the six months ended June 30, 2003, as compared to \$1.9 million in the same period in 2002. The Company also received approximately \$1.9 million in proceeds from a note payable to fund the construction of a client-sponsored center. The Company has not borrowed from its line of credit in 2003.

Management believes that funds provided by operations and the Company's existing cash and cash equivalent balances and borrowings available under its line of credit will be adequate to meet planned operating and capital expenditure needs for at least the next 12 months. However, if the Company were to make any significant acquisition(s) or investments in the purchase of facilities for new or existing child care and early education centers, it may be necessary for the Company to obtain additional debt or equity financing. There can be no assurance that the Company would be able to obtain such financing on reasonable terms, if at all.

Recently Issued Accounting Pronouncements

In November 2002, the EITF issued EITF No. 00-21, Accounting for Revenue Arrangements with Multiple Deliverables. EITF No. 00-21 addresses certain aspects of the accounting by a vendor for arrangements under which it will perform multiple revenue-generating activities. EITF No. 00-21 establishes three principles: revenue arrangements with multiple deliverables should be divided into separate units of accounting, arrangement consideration should be allocated among the separate units of accounting based on their relative fair values, and revenue recognition criteria should be considered separately for separate units of accounting. EITF No. 00-21 is effective for all revenue arrangements entered into in fiscal periods beginning after June 15, 2003, with early adoption permitted. The Company does not expect this standard to have an impact on its revenue recognition policies.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Risk

There have been no material changes in the Company's investment strategies, types of financial instruments held or the risks associated with such instruments which would materially alter the market risk disclosures made in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

Foreign Currency Exchange Rate Risk

The Company's exposure to fluctuations in foreign currency exchange rates is primarily the result of foreign subsidiaries domiciled in the United Kingdom and Ireland. The Company does not currently use financial derivative instruments to hedge foreign currency exchange rate risks associated with its foreign subsidiaries.

The assets and liabilities of the Company's Canada, Ireland, and United Kingdom subsidiaries are translated into U.S. dollars at exchange rates in effect at the balance sheet date. Income and expense items are translated at the average exchange rates prevailing during the period. The cumulative translation effects for the subsidiaries are included in cumulative translation adjustment in stockholders' equity.

There have been no changes in the Company's foreign operations that would materially alter the disclosures on foreign currency exchange risk made in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

ITEM 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of our senior management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures
