REPORT OF INDEPENDENT REGISTERED CERTIFIED PUBLIC ACCOUNTING FIRM

To the Participants and Administrator of
Ryder System, Inc. 401(k) Savings Plan:

In our opinion, the accompanying statement of net assets available for plan benefits and the related statement of changes in net assets available for plan benefits present fairly, in all material respects, the net assets available for plan benefits of Ryder System, Inc. 401(k) Savings Plan (the Plan) at December 31, 2006, and the changes in net assets available for plan benefits for the year ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held at End of Year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The Participants and Administrator

Ryder System, Inc. 401(k) Savings Plan:

We have audited the accompanying statement of net assets available for plan benefits of Ryder System, Inc. 401(k) Savings Plan (the Plan), as of December 31, 2005 and the related statement of changes in net assets available for plan benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2005, and the changes in net assets available for plan benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

RYDER SYSTEM, INC. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Ryder System, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General. The Plan, established January 1, 1993, is a defined contribution plan and, as such, is subject to some, but not all, of the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). It is excluded from coverage under Title IV of ERISA, which generally provides for guaranty and insurance of retirement benefits; and it is not subject to the funding requirements of Title I of ERISA. The Plan is, however, subject to those provisions of Title I and II of ERISA which, among other things, require that each participant be furnished with an annual financial report and a comprehensive description of the participant's rights under the Plan, set minimum standards of responsibility applicable to fiduciaries of the Plan, and establish minimum standards for participation and vesting. The Plan Administrator is Ryder System, Inc.'s Vice President of Compensation and Benefits. The Plan's trustee and recordkeeper are Fidelity Management Trust Co. and Fidelity Investments Institutional Operations Company, respectively.

Eligibility. Participation in the Plan is voluntary. In general, any salaried or non-salaried employee of Ryder System, Inc. (the Company) and participating affiliates, as well as field hourly employees of Ryder Integrated Logistics, are immediately eligible to participate in the Plan. However, an employee who is in a unit of employees represented by a collective bargaining agent is excluded from participation in the Plan unless the unit has negotiated coverage under the Plan. In addition, employees eligible to participate under another Company sponsored qualified savings plan, will be excluded from participation in the Plan.

Contributions. Participants may elect to contribute pre-tax dollars to the Plan by having their compensation reduced by a maximum of the lesser of a) 50% of compensation, depending on an individual's annual salary level, b) IRS limit of \$15,000 for 2006 and \$14,000 for 2005 or c) such other amount as shall be determined by the Company's Retirement Committee from time to time. Additionally, participants may elect to make after-tax contributions to the Plan.

Participants who reach age 50 during the calendar year may be eligible to make catch-up contributions up to \$5,000 in addition to the IRS limit of \$15,000 for the year ended December 31, 2006 and \$4,000 in addition to the IRS limit of \$14,000 for the year ended December 31, 2005. Participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or savings plan into the Plan. Participants may elect to contribute to any of sixteen investment options and may transfer among funds on a daily basis.

If a participant meets certain requirements related to employment date, age, and service hours, the Company may contribute to the participant's account. Company contributions are invested in the investment funds in the same allocation percentages as each participant's deferred contributions.

The Company may make a variable contribution for salaried and non-salaried employees, other than field hourly employees of Ryder Integrated Logistics, a wholly-owned subsidiary of the Company. This variable contribution is based on the Company's attainment of specified performance goals. Company contributions will be for the benefit of those participants who meet eligibility requirements as defined by the Company's Retirement Committee.

Table of Contents

RYDER SYSTEM, INC. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

For field hourly employees of Ryder Integrated Logistics who meet certain requirements related to employment date, age, and service hours, the Company will make a basic contribution of \$400 prorated on an annual basis, whether or not the employee contributes to the Plan. If the employee contributes to the Plan, in addition to the basic contribution, the Company will match the first \$300 at 100% and match the next \$800 at 50%.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balance. Earnings are currently allocated on a daily basis. The benefit for a participant is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. In 2006 and 2005, employer contributions were reduced by \$411,639 and \$435,176 respectively, from forfeited nonvested accounts. At December 31, 2006, forfeited nonvested accounts available to reduce future employer contributions totaled \$24,067.

Vesting. Participants are immediately vested in their contributions plus earnings thereon. Upon completion of two years of service, participants vest 25% in the Company contributions and the earnings attributable to such contributions and 25% upon completion of each year thereafter until they are fully vested. At retirement age, (the earlier of age 65 or the date in which a participant has both attained age 55 and completed at least 10 years of service), a participant becomes fully vested in the Company contributions and the earnings attributable to such contributions. Ryder Integrated Logistics field hourly employees' basic company contributions and the match on the first \$300 of participant contributions are immediately fully vested.

Participant Loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and accrue interest at a rate, which is comparable to those of most major lending institutions. Interest rates vary depending on the current prime interest rate. Principal and interest is paid ratably through payroll deductions. All principal and interest payments are allocated to the Plan's investment funds based on the participant's investment elections at the time of payment. Loans which are granted and repaid in compliance with the Plan provisions will not be considered distributions to the participant for tax purposes.

Distributions. Effective January 1, 2006, on termination of service, if a participant's account balance is greater than \$1,000, a participant's account is distributed to the participant in the form of a single lump-sum payment upon receipt of participant's consent. Terminated participants whose account balance is less than \$1,000 receive automatic distributions. Prior to January 1, 2006, the threshold for receiving automatic distributions was \$5,000. As of December 31, 2006 and 2005, amounts allocated to accounts of terminated persons who have not yet been paid their automatic distributions totaled \$17,371 and \$432,053, respectively. Participants may request a withdrawal of all or a portion of their elective contribution account balance if they can demonstrate financial hardship. The Plan Administrator approves the request, and the amount withdrawn cannot be subsequently repaid to the Plan. Such amounts will be considered distributions to the participant for income tax purposes.

2. Rescission Offer

In May 2006, the Company initiated a registered offer to rescind up to 243,700 shares of Ryder System, Inc. common stock purchased by participants pursuant to the Plan from June 1, 2005 through May 12, 2006 (purchase period). The Company made the registered rescission offer since these shares were not properly registered with the Securities and Exchange Commission due to an inadvertent administrative error. Pursuant to the registered rescission offer, which expired on July 6, 2006, the Company offered to repurchase any shares purchased by Plan participants during the purchase period at the price the participant paid for such shares, plus interest; provided that the amount the participant paid for the shares, plus interest, was more than the market value of the shares on July 6, 2006. Based on the market value of shares, the Company was not required to repurchase any shares from participants. Additionally, the Company offered to reimburse those participants who had bought and sold shares for a loss during that time for the amount of the loss realized upon such sale, plus interest. The amount reimbursed to Plan participants for losses incurred during the purchase period totaled \$11,888.

3. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

As described in the Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were able to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. The FSP was adopted as of December 31, 2006.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investments. Short-term money market instruments are stated at cost, which approximates fair value. Investments in synthetic guaranteed investment contracts (GICs) are also stated at fair value. The fair value of GICs is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. A synthetic GIC is comprised of two components, an underlying asset and a wrapper contract. Wrapper contracts generally change the investment characteristics of underlying securities (such as corporate debt or U.S. government securities) to those of guaranteed investment contracts. The wrapper contracts provide that benefit-responsive distributions for specific underlying securities may be withdrawn at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal or account of a

NOTES TO FINANCIAL STATEMENTS (Continued)

participant's retirement, disability or death, or participant-directed transfers, in accordance with the terms of the Plan. The Ryder System, Inc. Common Stock Fund (RCS Fund) is offered as an investment option to participants in the Plan. The RCS Fund invests primarily in Ryder System, Inc. common stock, which is traded on the New York Stock Exchange under the ticker symbol (R) and is valued at quoted market price. A small portion of the fund is invested in short-term money market investments. The money market portion of RCS Fund provides liquidity, which enables the Plan participants to transfer money daily among all investment choices.

Mutual funds are valued at quoted market prices, which represent the net asset value of the securities held in such funds. Participant loans bear interest at market rates and are stated at the outstanding principal balance plus accrued interest, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. The Plan presents in the Statements of Changes in Net Assets Available for Plan Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the related gains or losses and the unrealized appreciation (depreciation) on those investments. Dividends on Ryder System, Inc. common stock and mutual funds are recorded on the record date. Interest income is recorded on the accrual basis.

Payment of Benefits. Benefits are recorded when paid.

Risk and Uncertainties. The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statements of Changes in Net Assets Available for Plan Benefits.

4. Investments

The Plan held the following individual investments whose aggregate fair value equaled or exceeded 5% of the Plan's net assets at either December 31, 2006 or 2005:

	2006	2005
Ryder System, Inc. Common Stock Fund	\$ 94,468,765	\$ 84,231,729
Fidelity Equity Income Fund	76,326,154	65,413,367
Putnam Voyager Fund A		68,712,913
Fidelity Contrafund	89,451,989	82,649,511
Fidelity Diversified International Fund	74,428,930	55,555,877
Fidelity Growth Company Fund	110,598,217	43,074,833

During 2006 and 2005, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2006	2005
Mutual Funds	\$ 30,160,244	\$ 25,946,516
Ryder System, Inc. Common Stock Fund	21,643,056	(14,286,774)
	\$ 51,803,300	\$ 11,659,742

5. Investment Contracts with Insurance Companies

The Managed Interest Income Fund, one of the Plan's investment funds, may be invested in short-term money market instruments through the Fidelity Short-Term Interest Fund and in fully benefit-responsive synthetic guaranteed investment contracts with various insurance companies, banks, and financial institutions. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 3, because the guaranteed investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for the benefits attributable to the guaranteed investment contract. Contract value as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) any substantive modification to the Plan or administration of the Plan that is not consented to by the contract issuer (including complete or partial plan termination or merger with another plan), (2) establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) plan sponsor events, such as divestitures, spin-offs or early retirement programs that cause a significant withdrawal from the Plan, (4) transfer of assets from the fund directly to a competing option (5) the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code. The Plan administrator does not believe that the occurrence of any of these events, which would limit the Plan's ability to transact at contract value with participants, is probable.

Average Yields	2006	2005
Based on actual earnings	4.5%	4.3%
Based on interest rate credited to participants	4.4%	4.1%

6. Concentration of Credit Risk

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across seventeen participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of the Ryder Stock Fund, which invests in a single security. The Plan's exposure to credit risk on the wrapper contracts is limited to the fair value of the contracts with each company.

RYDER SYSTEM, INC. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS (Continued)

7. Plan Transfers

There were no transfers into or out of the Plan during 2006 or 2005.

8. Related Party Transactions

The Plan holds shares of Ryder System, Inc. common stock (1,826,365 and 2,035,212 shares at December 31, 2006 and 2005, respectively) and recorded dividend income, net realized gains on sale and net unrealized appreciation/(depreciation) in value of these securities. Accordingly, these shares qualify as party-in-interest. Certain Plan investments are shares of mutual funds managed by Fidelity Management Company, which is affiliated with the Plan's current trustee and, therefore, these transactions qualify as party-in-interest. Fees incurred by the Plan to Fidelity Management Company for investment management and recordkeeping services amounted to \$249,844 and \$265,814 for the years ended December 31, 2006 and 2005, respectively.

9. Plan Termination

While it has not expressed any intention to do so, the Company may amend or terminate the Plan at any time. In the event of termination, Plan assets are payable to each participant in a lump sum equal to the balance in the participant's account.

10. Tax Status of the Plan

The Plan qualifies as a profit sharing plan under Section 401(a) of the Internal Revenue Code of 1986, as amended, (the Code) and also qualifies as a cash or deferred arrangement under Section 401(k) of the Code and, therefore, is exempt from federal income taxes under Section 501(a) of the Code. A favorable tax determination letter dated June 4, 2002 has been obtained from the Internal Revenue Service. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Under a plan qualified pursuant to Sections 401(a) and (k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59^{1/2}, then certain special tax rules may be applicable.
