REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Participants and the Employee Benefits Committee of the
Sonoco Savings Plan

We have audited the accompanying statement of net assets available for benefits of the Sonoco Savings Plan (the Plan) as of December 31, 2008, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting.

Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Sonoco Savings Plan as of December 31, 2008, and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America. Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Sonoco Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan

General

The Sonoco Savings Plan (the Plan) is a defined contribution plan covering a majority of U.S. employees of Sonoco Products Company (the Company). The Plan is primarily designed to provide a retirement savings vehicle for its participants. Sonoco Products Company is a major global manufacturer of paperboard based and other industrial and consumer packaging products. The Company was founded in 1899 and is headquartered in Hartsville, South Carolina. The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan document or the Summary Plan Description, not included herein, for a more complete description of the Plan and its provisions. The Plan is subject to the applicable provisions of the Employee Retirement Income and Security Act of 1974 (ERISA), as amended.

Participation

Most of the Company s employees are immediately eligible to participate upon reaching 30 days of service. However, at certain union locations, employees are either eligible to participate after 60 days of service or after obtaining age 21 and completing 1 year of service in which the employee worked 1,000 hours.

Contributions

Effective January 1, 2004, participants may elect to defer up to 30% of eligible gross pay through payroll deductions. Contributions may be pre-tax, after-tax or a combination thereof. The maximum annual pre-tax contribution for any participant was \$15,500 for 2008 and 2007, respectively. Participants over age 50 could contribute additional pre-tax contributions to the Plan, up to a maximum of \$5,000 for both 2008 and 2007, subject to certain catch-up rules as defined under the Internal Revenue Code. Each participant s total annual contributions, including employer matching contributions, were limited to the lesser of \$46,000 or 100% of gross pay in 2008, and the lesser of \$45,000 or 100% of gross pay in 2007. Under the Plan, participants may elect to have their account balances invested in 1% increments in any combination of eleven index funds, a Company stock fund (the Sonoco Stock Fund), and a stable value fund. Participants have the option to reinvest Sonoco Stock Fund dividends within the Plan or to receive these dividends in cash. Once a participant s total account balance has been established and certain criteria are met, the participant can also invest funds in a Self-Managed Account.

The Company provides matching contributions in Company common stock or cash in amounts determined annually by the Company s Board of Directors (the Board). For 2008 and 2007 the Company matching contributions were equal to 100% on the first 3% of employee pre-tax contributions, and 50% on the next 2% of employee pre-tax contributions. No matching contributions were made on after-tax contributions. All matching contributions were paid in cash and invested in accordance with the participants chosen investment allocations. The Company may elect to provide additional contributions at the discretion of its Board.

Participant Accounts

Each participant s account is credited with the participant s contributions, the Company s matching contributions, and an allocation of Plan earnings and losses. The allocation is based on participant earnings or account balances, as defined in the Plan. Net appreciation or depreciation of investments and investment earnings of each fund are allocated to participant accounts in proportion to each participant s account balance within each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant s vested account.

Table of Contents

Sonoco Savings Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Vesting

The majority of participants are immediately vested in both participant-funded contributions and the Company's contributions, plus actual earnings thereon. However, at certain union locations, participants vest in employer matching and discretionary contributions after completing a minimum number of years of service, ranging from two to five years, as specified by the union contract.

Payment of Benefits

The Plan provides for benefits payable upon retirement, death, total and permanent disability or termination. Benefits are distributed through lump-sum payments in cash or Company common stock, or in quarterly or annual installments of not less than \$1,000. Participants with vested balances greater than \$5,000 may elect to delay distributions from the Plan until age 70-1/2.

Participant Loans

Participants may borrow from their fund accounts an amount no greater than the lesser of 50% of the account balance, or \$50,000 minus the highest outstanding loan balance during the previous 12-month period. Loans are secured by the balances in the participant's accounts. Interest is charged at a fixed rate for the full term of the loan. The rate is based on the prime rate at the end of the fiscal quarter prior to loan origination plus 1% (3.25% and 7.25% prime rate at December 31, 2008 and December 31, 2007, respectively). Principal and interest is paid through payroll deductions over a period of no more than five years for a personal loan or twenty years for a residential loan.

Risks and Uncertainties

The Plan provides for various mutual fund investment options in stocks, bonds and fixed income securities. Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the nature of most investment securities, it is likely that changes in the values of investment securities will occur in the near term and it is reasonably possible that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Forfeitures

Forfeitures of account balances are used to reduce future employer contributions. During 2008 and 2007, approximately \$78,348 and \$158, respectively, in forfeitures were used to reduce employer contributions. At December 31, 2008 and 2007, the remaining balance in the forfeitures account totaled approximately \$110,000 and \$170,000, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would

Basis of Accounting (Continued)

receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a collective trust in the Stable Value Fund. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investments in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Contributions

Contributions from the Company are recorded in the year and in the amount authorized by the Board. The contribution receivable from the Company represents amounts authorized at year-end, but not yet received by the Plan.

Contributions from employees of the Company are recorded in the year in which the employee contributions are withheld from employee pay. All contributions from the Company are in the form of cash payments or Company common stock, as elected by the Board. All employee and employer contributions are participant directed.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair value of the Plan's interest in the master trust is based on the specific interest that each plan has in the underlying participant directed investment options. The investments held by the master trust are valued as follows:

Shares of common collective trusts are valued at the net asset value of shares held at year end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed insurance contracts (GIC) are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Individual assets of the synthetic investment contract are valued at representative quoted market prices. The fair value of the wrap contract for the synthetic GIC is determined using the market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated swap rate as of period end. Shares of common stock are valued at open market values published by the respective stock exchange markets.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Most trust and custodial expenses and investment management fees are paid by the Plan. These expenses are deducted from the investment returns in the accompanying Statements of Changes in Net Assets Available for Benefits. Certain trust and custodial expenses and investment management fees are paid by the Plan Sponsor in accordance with the plan documents.

Table of Contents**Sonoco Savings Plan****Notes to Financial Statements****Note 3. Investments**

The Sonoco Products Company Master Trust (the Master Trust) was established for the investment of assets of the Plan and one other Company-sponsored retirement plan. The assets of the Master Trust are held by StateStreet Global Advisors (SSGA). SSGA served as the trustee of the Master Trust in both 2008 and 2007. Each plan has an undivided interest in the Master Trust investment accounts in which they both participate. Investments in the Self-Managed Account and the Sonoco Stock Fund represent specific interests of the Plan, as the Plan is the sole owner of these investments. Investment options in which both plans participate include the S&P 500 Index Fund, Bond Market Index Fund, Russell 2000 Index Fund, International Stock Index Fund, Moderate Strategic Balanced Fund, S&P MidCap Fund, SSgA Retirement Income Fund, SSgA Retirement 2010 Fund, SSgA Retirement 2020 Fund, SSgA Retirement 2030 Fund, SSgA Retirement 2040 Fund, and the Stable Value Fund.

These synthetic investment contracts are credited with earnings on the underlying investments and charged for benefit withdrawals and administrative expenses. The guaranteed investment contracts are included in the financial statements of the Plan at fair value, with an adjustment to contract value as reported to the Plan by the issuers. Contract values reflect contributions made under the contract, plus earnings, less benefit withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.
