MERCHANTS GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Principles of Consolidation and Basis of Presentation

The consolidated balance sheet as of March 31, 2005 and the related consolidated statements of operations, of comprehensive income, of changes in stockholders' equity and of cash flows for the three months ended March 31, 2004 and 2005, respectively, are unaudited. In the opinion of management, the interim financial statements reflect all adjustments necessary for a fair presentation of financial position and results of operations. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results for a full year.

The consolidated financial statements include the accounts of Merchants Group, Inc. (the Company), its wholly-owned subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH), and M.F.C. of New York, Inc., an inactive premium finance company which is a wholly-owned subsidiary of MNH. The accompanying consolidated financial statements should be read in conjunction with the following notes and the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) which differ in some respects from those followed in reports to insurance regulatory authorities. All significant intercompany balances and transactions have been eliminated.

2. Related Party Transactions

The Company and MNH operate and manage their business in conjunction with Merchants Mutual Insurance Company (Mutual), under a services agreement (the Services Agreement) effective January 1, 2003. At March 31, 2005 Mutual owned 12.1% of the Company's issued and outstanding common stock. The Company and MNH do not have any operating assets or employees. Under the Services Agreement, Mutual provides the Company and MNH with the facilities, management and personnel required to operate their day-to-day business. The Services Agreement covers substantially the same services previously provided under a management agreement amongst the Company, MNH and Mutual from 1986 to 2002. The Services Agreement provides for negotiated fees (subject to periodic adjustment) for administrative, underwriting, claims and investment management services.

As of January 1, 2003 MNH and Mutual entered into a reinsurance pooling agreement (the Reinsurance Pooling Agreement) that provides for the pooling, or sharing, of the insurance business traditionally written by Mutual and MNH. The Reinsurance Pooling Agreement applies to premiums earned and losses incurred on or after its effective date. The terms of these agreements are more fully described under the heading Administration in Part I, Item 1, Business, in the Company's Annual Report on Form 10-K for the year ended December 31, 2004.

Table of Contents**3. Earnings Per Share**

Basic and diluted earnings per share were computed by dividing net income by the weighted average number of shares of common stock outstanding during each period. For diluted earnings per share, the weighted average number of shares outstanding was increased by the assumed exercise of options for each period. The effect on the number of shares outstanding assumes the proceeds to the Company from exercise were used to purchase shares of the Company's common stock at its average market value per share during the period. The number of options assumed to be exercised and the incremental effect on average shares outstanding for purposes of calculating diluted earnings per share are shown below:

	Three Months Ended March 31,	
	2005	2004
Options assumed exercised	31,500	31,500
Incremental shares outstanding	4,974	4,589

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations for the Three Months Ended March 31, 2005 As Compared to the Three Months Ended March 31, 2004

The following discussion should be considered in light of the statements under the heading "Safe Harbor Statement" under the Securities Litigation Reform Act of 1995, at the end of this Item. All capitalized terms used in this Item that are not defined in this Item have the meanings given to them in Notes to Consolidated Financial Statements contained in Item 1 of this Form 10-Q, which is incorporated herein by reference.

Results of operations for the three months ended March 31, 2005 and 2004 reflect the effects of the Services Agreement and the Reinsurance Pooling Agreement among the Company and its wholly-owned insurance subsidiary, Merchants Insurance Company of New Hampshire, Inc. (MNH), and Merchants Mutual Insurance Company (Mutual), effective January 1, 2003. The Services Agreement calls for Mutual to provide underwriting, administrative, claims and investment services to the Company and MNH. The Reinsurance Pooling Agreement provides for the pooling, or sharing, of insurance business traditionally written by Mutual and MNH on or after the effective date. MNH's share of pooled (combined Mutual and MNH) premiums earned and losses and loss adjustment expenses (LAE) for 2005 in accordance with the Reinsurance Pooling Agreement is 30%. MNH's share of pooled premiums earned and losses and LAE was 35% in 2004. The Reinsurance Pooling Agreement pertains to premiums earned and incurred losses and LAE. Direct premiums written by MNH and Mutual are not pooled. MNH's share of pooled premiums earned will be 25% in 2006 and 2007, though not to exceed \$42,500,000 and \$37,500,000 in net premiums written, respectively.

Total combined Mutual and MNH or group-wide direct premiums written (DWP) for the three months ended March 31, 2005 were \$45,289,000, an increase of \$186,000 from \$45,103,000 in 2004. The Company's pro-forma share of combined direct premiums written in 2005, in accordance with the Reinsurance Pooling Agreement, was \$13,586,000 compared to \$15,786,000 in 2004. The table below shows a comparison of direct premiums written by major category in 2005 and 2004:

	Group-wide DWP			MNH Pro-forma Share		
	Three months ended March 31,		Change	Three months ended March 31,		Change
	2005	2004		2005	2004	
	(000's omitted)			(000's omitted)		
Voluntary Personal Lines	\$ 9,211	\$ 12,556	(27%)	\$ 2,763	\$ 4,395	(37%)
Voluntary Commercial Lines	30,168	26,862	12%	9,050	9,402	(4%)
Umbrella Program	5,216	4,800	9%	1,565	1,680	(7%)
Involuntary	694	885	(22%)	208	309	(33%)
Total Direct Written Premiums	\$ 45,289	\$ 45,103		\$ 13,586	\$ 15,786	(14%)

The 27% (or \$3,345,000) decrease in group-wide voluntary personal lines direct premiums written resulted from a 37% (or \$3,355,000) decrease in private passenger automobile (PPA) direct premiums written. The decrease in PPA direct premiums written is the result of the companies' decision, implemented in 2002, not to write new policies in certain jurisdictions. In addition, the approval by the New Jersey Department of

Table of Contents

Banking and Insurance of the companies request to withdraw from the New Jersey PPA market was effective in June 2003 and provided for non-renewal of New Jersey PPA policies beginning in June 2004 through May 2005. As a result, voluntary PPA policies in force at March 31, 2005 were 18,005, a decrease of 32%, from 26,438 at March 31, 2004.

The monoline commercial umbrella program (the Umbrella Program) resulted in \$5,216,000 of direct premiums written in the first quarter of 2005 compared to \$4,800,000 in the first quarter of 2004. The Umbrella Program is marketed exclusively through one independent agent and approximately 95% of the premiums related to Umbrella Program Policies are reinsured with an A+ rated national reinsurer through a quota share reinsurance treaty.

Group-wide voluntary commercial lines direct premiums written increased \$3,306,000, or 12%, to \$30,168,000 for the three months ended March 31, 2005, from \$26,862,000 for the three months ended March 31, 2004. This increase resulted from period to period increases in every group-wide commercial line of business. The average premium per group-wide, non-Umbrella Program commercial lines policy increased 6% from the year earlier period. Total non-Umbrella Program commercial lines policies in force at March 31, 2005 were 33,836, an increase of 8% from 31,309 at March 31, 2004.

The 22% decrease in group-wide involuntary direct premiums written resulted primarily from a decrease in assignments from the New York Automobile Insurance Plan (NYAIP). Direct premiums written related to policies assigned from the NYAIP decreased to \$552,000 for the three months ended March 31, 2005, compared to \$623,000 for the three months ended March 31, 2004. The NYAIP provides coverage for individuals who are unable to obtain auto insurance in the voluntary market. Assignments from the NYAIP vary depending upon a company's PPA market share and the size of the NYAIP. The Company is unable to predict the volume of future assignments from the NYAIP.

Group-wide pooled net premiums written for 2005 were \$36,869,000, a decrease of \$1,041,000, or 3% from \$37,910,000 for the three months ended March 31, 2004. This decrease in group-wide net premiums written is due to the decrease in group wide non-Umbrella Program direct premiums written and an increase in the first three months of 2005 as compared to the first three months of 2004 of reinsurance premiums ceded to third parties, primarily for premiums written related to the Umbrella Program. The Company's share of 2005 pooled net premiums written was \$6,905,000, a decrease of \$2,225,000, or 24%, from \$9,130,000 in 2004. The decrease in the Company's share of net premiums written resulted primarily from the Company's decreased percentage participation in the Reinsurance Pooling Agreement for 2005 as compared to 2004.

Total revenues for the three months ended March 31, 2005 were \$14,049,000, a decrease of \$2,617,000 or 16% from \$16,666,000 for the three months ended March 31, 2004.

The Company's share of pooled net premiums earned in accordance with the Reinsurance Pooling Agreement for the three months ended March 31, 2005 was \$11,977,000, compared to \$14,069,000 for the three months ended March 31, 2004. This \$2,092,000, or 15%, decrease in net premiums earned resulted primarily from the 5 percentage point decrease in the Company's participation in the Reinsurance Pooling Agreement.

Table of Contents

Net investment income was \$1,936,000 for the three months ended March 31, 2005, a decrease of 6% from \$2,054,000 for the three months ended March 31, 2004, primarily due to a 7% decrease in average invested assets.

Net losses and LAE were \$7,294,000 for the three months ended March 31, 2005, a decrease of \$2,795,000, or 28%, from \$10,089,000 for the three months ended March 31, 2004. The decrease in net losses and LAE was due to the 15% decrease in net premiums earned and a 10.8 percentage point decrease in the loss and LAE ratio to 60.9% for the three months ended March 31, 2005 from 71.7% for the three months ended March 31, 2004. The decrease in the loss and LAE ratio related to an improvement in the loss and LAE ratio for the 2005 accident year (losses occurring in the first three months of 2005) compared to the 2004 accident year (losses occurring in the first three months of 2004). The development of losses related to prior accident years had no impact on the loss and LAE ratio for either three month period.

The ratio of amortization of deferred policy acquisition costs and other underwriting expenses to net premiums earned increased to 43.0% for the three months ended March 31, 2005 from 38.7% for the three months ended March 31, 2004. Amortization of deferred acquisition costs decreased \$544,000 or 15% compared to the year earlier period. Other underwriting expenses as a percentage of net premiums earned increased by 4.3 percentage points due to an increase in retrospective commissions related to the Reinsurance Pooling Agreement, which provides for retrospective commission income or expense based on actual experience compared to a targeted loss and LAE ratio. The commission is owed to Mutual based on a decrease during the first quarter of 2005 in the estimated cumulative loss and LAE ratio on the pooled business since the inception of the Reinsurance Pooling Agreement. Retrospective commission expense totaled \$855,000 (7.1 percentage points of the expense ratio) for the three months ended March 31, 2005 compared to \$344,000 (2.4 percentage points of the expense ratio) for the three months ended March 31, 2004. The Company plans to reduce its reliance on its traditional business by reducing its percentage participation in the Reinsurance Pooling Agreement and by seeking alternative opportunities in which to invest its capital. To the extent that the Company does not invest in such alternative opportunities, fixed expenses will become equal to a greater percentage of net premiums earned in future periods. Commissions (other than retrospective commissions under the Reinsurance Pooling Agreement), premium taxes and other state assessments that vary directly with the Company's premium volume represented 21.2% of net premiums earned in the three month period ended March 31, 2005 compared to 18.7% of net premiums earned in the three months ended March 31, 2004.

The Company's effective income tax rate for the three months ended March 31, 2005 was 25.7%. This rate was calculated based upon the Company's estimate of its effective income tax rate for all of 2005. Non-taxable income, primarily tax-exempt income from fixed maturity investments, reduced the Company's effective income tax rate by approximately 8 percentage points.

Liquidity and Capital Resources

In developing its investment strategy the Company determines a level of cash and short-term investments which, when combined with expected cash flow, is estimated to be adequate to meet expected cash obligations. Due to declining written premiums however, the Company's operating activities have resulted

Table of Contents

in a use of cash each year since 2001. The Company's decreasing participation percentage in the pooled business over the remaining years of the Reinsurance Pooling Agreement will likely result in continued negative cash flows from operations. Net cash used in operations during the three months ended March 31, 2005 was \$3,066,000. The Company believes that careful management of the relationship between assets and liabilities will minimize the likelihood that investment portfolio sales will be necessary to fund insurance operations, and that the effect of any such sales, if any, on the Company's stockholders' equity will not be material.

The Company's objectives with respect to its investment portfolio include maximizing total return within investment guidelines while protecting policyholders' surplus and maintaining flexibility. The Company relies on premiums as a major source of cash, and therefore liquidity. Cash flows from the Company's investment portfolio, in the form of interest or principal payments as well as from the maturity of fixed income investments, are an additional source of liquidity.

The Company designates newly acquired fixed maturity investments as available for sale and carries these investments at fair value. Unrealized gains and losses related to these investments are recorded as accumulated other comprehensive income (loss) within stockholders' equity. At March 31, 2005, the Company recorded as accumulated other comprehensive loss in its Consolidated Balance Sheet \$1,929,000 of unrealized losses, net of taxes, associated with its investments.

At March 31, 2005, the Company's portfolio of fixed maturity investments represented 97.2% of invested assets. Management believes that this level of fixed maturity investments is consistent with the Company's liquidity needs because it anticipates that cash receipts from net premiums written, investment income and maturing securities will enable the Company to satisfy its cash obligations. Furthermore, a portion of the Company's fixed maturity investments are invested in mortgage-backed and other asset-backed securities which, in addition to interest income, provide monthly paydowns of bond principal.

At March 31, 2005, \$108,946,000, or 59.2%, of the Company's fixed maturity portfolio was invested in mortgage-backed and other asset-backed securities. The Company invests in a variety of collateralized mortgage obligation (CMO) products but has not invested in the derivative type of CMO products such as interest only, principal only or inverse floating rate securities. All of the Company's CMO investments have a secondary market and their effect on the Company's liquidity does not differ from that of other fixed maturity investments.

At March 31, 2005 \$4,171,000, or 2%, of the Company's investment portfolio was invested in non-investment grade securities compared to \$2,150,000, or 1%, at December 31, 2004.

The Company has arranged for a \$2,000,000 unsecured credit facility from a bank. Any borrowings under this facility are payable on demand and carry an interest rate which can be fixed or variable and is negotiated at the time of each advance. This facility is available for general working capital purposes and for repurchases of the Company's common stock. At March 31, 2005 no amount was outstanding on this loan.

Table of Contents

As a holding company, the Company is dependent on cash dividends from MNH to meet its obligations and to pay any cash dividends. MNH is subject to New Hampshire insurance laws which place certain restrictions on its ability to pay dividends without the prior approval of state regulatory authorities. These restrictions limit dividends to those that, when added to all other dividends paid within the preceding twelve months, would not exceed 10% of the insurer's statutory policyholders' surplus as of the preceding December 31st. The maximum amount of dividends that MNH could pay during any twelve month period ending in 2005 without the prior approval of the New Hampshire Insurance Commissioner is \$6,171,000. MNH paid \$1,200,000 and \$800,000 of dividends to the Company in August 2004 and February 2005, respectively. The Company paid cash dividends to its common stockholders of \$.10 per share in the first quarter of 2005 amounting to \$213,000. On May 4, 2005 the Company declared a quarterly cash dividend of \$.10 per share payable on June 3, 2005 to shareholders of record as of the close of business on May 20, 2005.

Under the Services Agreement, Mutual has provided services and facilities for MNH to conduct its insurance business. The balance in the payable to or receivable from affiliate account represents the amount owing to or owed by Mutual by or to the Company for the difference between premiums collected and payments made for losses, commissions (including retrospective commissions), employees, services and facilities by Mutual on behalf of MNH.

Regulatory guidelines suggest that the ratio of a property-casualty insurer's annual net premiums written to its statutory surplus should not exceed 3 to 1. MNH has consistently followed a business strategy that would allow it to meet this 3 to 1 regulatory guideline. For the first three months of 2005, MNH's ratio of net premiums written to statutory surplus, annualized for a full year, was .4 to 1.

Relationship with Mutual

The Company's and MNH's business and day-to-day operations are closely aligned with those of Mutual. This is the result of a combination of factors. Mutual has had a historical ownership interest in the Company and MNH. Prior to November 1986 MNH was a wholly-owned subsidiary of Mutual. Following the Company's initial public offering in November 1986 and until a secondary stock offering in July 1993 the Company was a majority-owned subsidiary of Mutual. Mutual currently owns 12.1% of the Company's common stock. Under the Services Agreement, Mutual provides the Company and MNH with all facilities and personnel to operate their business. All of the officers of the Company or MNH are employees of Mutual whose services are provided to, and paid for by, the Company and MNH through the Services Agreement. Also, the operation of MNH's insurance business, which offers substantially the same lines of insurance as Mutual through the same independent insurance agents, creates a very close relationship among the Companies.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995:

With the exception of historical information, the matters and statements discussed, made or incorporated by reference in this Quarterly Report on Form 10-Q constitute forward-looking statements and are discussed, made or incorporated by reference, as the case may be, pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, without

Table of Contents

limitation, statements relating to the Company's plans, strategies, objectives, expectations and intentions. Words such as believes, forecasts, intends, possible, expects, anticipates, estimates, or plans and similar expressions to identify forward looking statements. Such forward-looking statements involve certain assumptions, risks and uncertainties that include, but are not limited to, those associated with factors affecting the property-casualty insurance industry generally, including price competition, the Company's dependence on state insurance departments for approval of rate increases; size and frequency of claims, escalating damage awards, natural disasters, fluctuations in interest rates and general business conditions; the Company's dependence on investment income; the geographic concentration of the Company's business in the northeastern United States and in particular in New York, New Hampshire, New Jersey, Rhode Island, Pennsylvania and Massachusetts; the adequacy of the Company's loss reserves; the Company's dependence on the general reinsurance market; government regulation of the insurance industry; exposure to environmental claims; dependence of the Company on its relationship with Mutual; and the other risks and uncertainties discussed or indicated in all documents filed by the Company with the Securities and Exchange Commission.

There may be other risks and uncertainties that we have not identified that may affect whether our forward-looking statements will prove accurate. New factors may emerge from time to time that cause our business not to develop as we predict, and it is not possible for us to predict all of them. You should not place undue reliance on forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made and, except as required by law, the Company undertakes no obligation to update any forward-looking statement to reflect events or other circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

Market risk represents the potential for loss due to changes in the fair value of financial instruments. The market risk related to the Company's financial instruments primarily relates to its investment portfolio. The value of the Company's investment portfolio of \$189,167,000 at March 31, 2005 is subject to changes in interest rates and to a lesser extent on credit quality. Further, certain mortgage-backed and asset-backed securities are exposed to accelerated prepayment risk generally caused by interest rate movements. If interest rates were to decline, mortgage holders would be more likely to refinance existing mortgages at lower rates. Acceleration of future repayments could adversely affect future investment income, if reinvestment of the accelerated receipts was made in lower yielding securities.

The following table provides information related to the Company's fixed maturity investments at March 31, 2005. The table presents cash flows of principal amounts and related weighted average interest rates by expected maturity dates. The cash flows are based upon the maturity date or, in the case of mortgage-backed and asset-backed securities, expected payment patterns. Actual cash flows could differ from those shown in the table.
