LETTER FROM THE CEO

Dear Shareholders,

[Photo of Robert J. Manning]

Dear Shareholders,

As a professional investor for more than 20 years, I've often been asked to

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

name the single most important factor in investment success. My answer is always the same: diversification. At MFS we talk about applying a disciplined diversification(SM) strategy to a portfolio as a three step process: allocate among the major asset classes; diversify within each asset class; and rebalance regularly to avoid unnecessary risk.

Individual investors sometimes assume that the amount they're putting away is too small to allow for diversification. My response would be that a good investment plan, developed with the help of an investment professional, should provide a way to properly diversify your contributions.

Remember that the purpose of diversification is to own investments that historically have not moved in sync with each other - in the hope that, in any given period, underperforming holdings will be somewhat counteracted by other outperforming holdings. If none of your asset classes did badly in the past year or so, you're probably not properly diversified.

Americans today have more of their wealth tied up in the markets than in any previous period of our history, but we are not yet making the most of our opportunities. While neither asset allocation nor diversification can guarantee a profit or protect against a loss, I would voice the opinion that, to a large extent, a failure to have a plan, diversify contributions, and rebalance a portfolio annually has been behind many U.S. investors' failure to reach their long-term financial goals.

For more information on how to apply a disciplined diversification(SM) strategy to your portfolio, I would urge you to contact your own investment professional. You may also want to refer to information on the subject on our Website, MFS.COM.

Respectfully,

/s/ Robert J. Manning

Robert J. Manning
Chief Executive Officer and Chief Investment Officer
MFS Investment Management (R)

July 15, 2005

The opinions expressed in this letter are those of MFS, and no forecasts can be guaranteed.

MFS ORIGINAL RESEARCH (R)

A DISCIPLINED INVESTMENT PROCESS

Since 1932 we have built our firm on the philosophy that fundamental, bottom-up Original Research(SM) is the most effective process to take advantage of investment opportunities in capital markets across all asset classes around the world.

From start to finish, here is how the investment process at MFS(R) works:

- o ANALYZE: Our analysts uncover investments one opportunity at a time by developing in-depth, firsthand knowledge of companies.
- o COLLABORATE: Constant communication enables our analysts and portfolio managers to exchange opinions and challenge ideas in a spirit of collaboration.

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

- o RECOMMEND: The analysts give "buy" ratings to the securities they believe offer the greatest long-term opportunities.
- o INVEST: Our portfolio managers construct diversified portfolios by taking the analysts' recommendations, drawing on their own experience, and using that combined knowledge to select securities that they believe match their portfolios' investment discipline.
- o ASSESS RISK: MFS' quantitative teams help the managers in their efforts to ensure that the risk levels they assume are appropriate for their portfolios' objectives.
- o MONITOR: The analysts and portfolio managers continue to review the fundamentals of every security in a portfolio in their efforts to ensure it remains a right fit for that particular portfolio.

FOCUSED ON YOUR GOALS

We believe that bottom-up research is the best way to uncover the factors that drive security prices over the long term and the best way to help investors pursue their long-term financial goals.

* For purposes of this graphical presentation, the bond component includes both accrued interest amounts and the equivalent exposure from any derivative holdings, if applicable.

** Each security is assigned a rating from Moody's Investors Service. If not rated by Moody's, the rating will be that assigned by Standard & Poor's. Likewise, if not assigned a rating by Standard & Poor's, it will be based on the rating assigned by Fitch, Inc. For those portfolios that hold a security which is not rated by any of the three agencies, the security is considered Not Rated. Holdings in U.S. Treasuries and government agency mortgage-backed securities, if any, are included in a "AAA"-rating category. Percentages are based on the total market value of investments as of 5/31/05.

*** The average maturity shown is calculated using the final stated maturity

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

on the portfolio's holdings without taking into account any holdings which have been pre-refunded to an earlier date or which have a mandatory put date prior to the stated maturity. The average life shown takes into account these earlier dates.

**** The Portfolio Average Credit Quality rating is based upon a market weighted average of portfolio holdings.

Percentages are based on net assets as of 5/31/05, unless otherwise noted.

The portfolio is actively managed, and current holdings may be different.

MANAGEMENT REVIEW

SUMMARY OF RESULTS

To gauge performance of this portfolio, we use a variety of benchmarks reflecting the varying results of the different markets in which we invest. For the six months ended May 31, 2005, the MFS Charter Income Trust's performance at net asset value surpassed four of the six benchmarks, outperforming the Lehman Brothers Aggregate Bond, Lehman Brothers High Yield, Lehman Brothers Government/Mortgage, and the Lehman Brothers Credit indices, while underperforming the J.P. Morgan Emerging Markets Bond Index (EMBI) Global and the Citigroup World Government Bond Non-Dollar Hedged indices.

The trust's investment objective is to maximize current income through investments in fixed income securities. The investment policy is to allocate portfolio assets among various categories of fixed income securities and to reallocate assets in response to actual and anticipated market changes.

MARKET ENVIRONMENT

The U.S. fixed income market experienced a flattening of the yield curve during the six-month period. (A yield curve for bonds shows the relationship between yield and time to maturity.) The U.S. Federal Reserve Board raised its target federal funds rate four times, continuing its steady drumbeat of quarter-point rate hikes that had begun on June 30, 2004. But while the Fed seemed committed to a course of gradually raising short-term rates, several factors caused long-term rates to stagnate or retreat.

Job growth, which had shot up in the spring of 2004, ebbed and flowed during the period; uncertainty about the employment situation helped to push down yields on longer-dated bonds. Another factor that held long-term rates down was overseas demand for U.S. Treasuries, especially from foreign central banks. However, moderate GDP growth and inflation concerns kept shorter-term interest rates moving up. For the period as a whole, the net effect was a substantial flattening of the yield curve as short-term rates rose significantly while long-term rates were generally flat to down.

TRUST POSITIONING

MFS Charter Income Trust, a closed-end trust, maintains a portfolio consisting of various fixed income securities both domestic and global.

The portfolio was invested in U.S. government, corporate, and high yield securities. Additional allocations were made in global sovereign bonds and emerging market debt. Our foreign holdings were allocated across Europe and Asian nations. We emphasized government bonds in Europe where growth has been sluggish, while avoiding Japan, where interest rates have been extremely low and the economy has been improving. Alternatively, we invested in Australia, New Zealand and the U.K. where official rates have already been relatively high.

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

CONTRIBUTORS TO PERFORMANCE

The trust's portfolio is allocated to U.S., European, and Pacific Rim securities. The trust's yield curve exposure aided relative results. At the sector level, the trust's positioning in longer-term agencies and mortgages and our security selection within the corporate bond sector, specifically industrial, banking, and financials, boosted results.

Our holdings of sovereign and emerging market debt also added to performance. Although our underweighting in the more speculative areas of the high-yield market overall benefited the trust as spreads widened over the period, the negative impact of overweighting the "BBB" and "BB" quality sectors offset some of those gains.

DETRACTORS FROM PERFORMANCE

Over the period, the dollar appreciated against the euro, British Pound, Yen, and other Pacific Rim currencies. Additionally, the trust's positioning in TIPS (treasury inflation protection securities) and supranational debt also held back results.

Respectfully,

/s/ Richard O. Hawkins

Richard O. Hawkins
Portfolio Manager

Note to Shareholders: Effective May 31, 2005, the Lehman Brothers Credit Index, and the Lehman Brothers Government/Mortgage Index were added as benchmarks for the MFS Charter Income Trust. Additionally, the Lehman Brothers Aggregate Bond Index was removed as a benchmark, however, we will continue to provide comparative returns for that index in the next two shareholder reports, including this semiannual report.

The views expressed in this report are those of the portfolio manager only through the end of the period of the report, as stated on the cover, and do not necessarily reflect the views of MFS or any other person in the MFS organization. These views are subject to change at any time based on market and other conditions, and MFS disclaims any responsibility to update such views. These views may not be relied upon as investment advice or as an indication of trading intent on behalf of any MFS fund. References to specific securities are not recommendations of such securities and may not be representative of any MFS fund's current or future investments.

The portfolio is actively managed, and current holdings may be different.

PERFORMANCE SUMMARY FOR THE SIX MONTHS ENDED 5/31/05

All results are historical. Investment return and principal value will fluctuate, and shares, when sold, may be worth more or less than their original cost. More recent returns may be more or less than those shown. Past performance is no guarantee of future results.

** Includes reinvestment of dividends and capital distributions.

INDEX DEFINITIONS

Lehman Brothers Credit Index - measures publicly issued, SEC-registered, U.S. corporate and specified foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements.

Lehman Brothers Government/Mortgage Index - measures debt issued by the U.S. Government as well as mortgage-backed pass-through securities of Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Citigroup World Government Bond Non-Dollar Hedged Index - is a market capitalization weighted index that tracks the currency-hedged performance of the major government bond markets, excluding the United States. Country eligibility is determined based upon market capitalization and investability criteria.

J.P. Morgan Emerging Markets Bond Index Global (the EMBI Global) - tracks total returns for dollar-denominated Brady Bonds, Eurobonds, traded loans and local market debt instruments issued by sovereign and quasi-sovereign entities of emerging markets countries.

Lehman Brothers Aggregate Bond Index - measures the U.S. investment grade, fixed rate bond market, with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities.

Lehman Brothers High Yield Index - measures the universe of non-investment grade, fixed rate debt. Eurobonds, and debt issues from countries designated as emerging markets (e.g., Argentina, Brazil, Venezuela, etc.) are excluded.

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

It is not possible to invest directly in an index.

NOTES TO PERFORMANCE SUMMARY

The trust's shares may trade at a discount to net asset value. Shareholders do not have the right to cause the trust to repurchase their shares at net asset value. The trust's shares also may trade at a premium to net asset value.

When trust shares trade at a premium, buyers pay more than the asset value underlying trust shares, and shares purchased at a premium would receive less than the amount paid for them in the event of the trust's liquidation. As a result, the total return that is calculated based on the net asset value and New York Stock Exchange price can be different.

The trust's monthly distributions may include a return of capital to shareholders. Distributions that are treated for federal income tax purposes as a return of capital will reduce each shareholder's basis in his or her shares and, to the extent the return of capital exceeds such basis, will be treated as gain to the shareholder from a sale of shares. Returns of shareholder capital have the effect of reducing the trust's assets and increasing the trust's expense ratio.

KEY RISK CONSIDERATIONS

Because the portfolio invests in interest bearing securities, its value will be affected by changes in interest rates.

The portfolio may invest in foreign and/or emerging markets securities, which are more susceptible to interest rates, currency exchange rates, economic, and political risks.

The portfolio may invest in derivative securities, which may include futures and options. These types of instruments can increase share price fluctuation.

The portfolio invests in government-guaranteed securities. These guarantees apply to the underlying securities only and not to the prices and yields of the portfolio.

The portfolio invests in high yield or lower-rated securities, which may provide greater returns but are subject to greater-than-average risk.

The portfolio can invest a relatively high percentage of its assets in one or more issuers, thereby making it more susceptible to any single economic, political or regulatory occurrence.

These risks may increase share price volatility.

PORTFOLIO MANAGER'S PROFILE

Richard O. Hawkins, CFA, is Senior Vice President of MFS Investment Management (R) (MFS(R)); an investment grade fixed income research analyst; and a portfolio manager of MFS(R) Charter Income Trust.

Prior to joining the firm in 1988, he spent two years as an International Bond Analyst for Fidelity Management & Research Company; and five years as an International Lending Officer for Manufacturers Hanover Trust Company. He was named portfolio manager of MFS Charter Income Trust at MFS in 2004.

Richard earned a bachelor's degree from Brown University and a Master's of Business Administration from the University of Pennsylvania. He is a member of the Association for Investment Management and Research (AIMR) and holds the

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

Chartered Financial Analyst (CFA) designation.

All portfolio managers at MFS are supported by an investment staff of over 160 professionals utilizing MFS Original Research(R), a global, company-oriented, bottom-up process of selecting securities.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The trust offers a Dividend Reinvestment and Cash Purchase Plan that allows you to reinvest either all of the distributions paid by the trust or only the long-term capital gains. Purchases are made at the market price unless that price exceeds the net asset value (the shares are trading at a premium). If the shares are trading at a premium, purchases will be made at a discounted price of either the net asset value or 95% of the market price, whichever is greater. Twice each year you can also buy shares. Investments may be made in any amount over \$100 in January and July on the 15th of the month or shortly thereafter.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the plan on your behalf. If the nominee does not offer the plan, you may wish to request that your shares be re-registered in your own name so that you can participate.

There is no service charge to reinvest distributions, nor are there brokerage charges for shares issued directly by the trust. However, when shares are bought on the New York Stock Exchange or otherwise on the open market, each participant pays a pro rata share of the commissions. The automatic reinvestment of distributions does not relieve you of any income tax that may be payable (or required to be withheld) on the distributions.

To enroll in or withdraw from the plan, or if you have any questions, call 1-800-637-2304 any business day from 8 a.m. to 8 p.m. Eastern time. Please have available the name of the trust and your account and Social Security numbers. For certain types of registrations, such as corporate accounts, instructions must be submitted in writing. Please call for additional details. When you withdraw from the plan, you can receive the value of the reinvested shares in one of two ways: a check for the value of the full and fractional shares, or a certificate for the full shares and a check for the fractional shares.

PORTFOLIO OF INVESTMENTS (unaudited) - 5/31/05

Ratios do not reflect expense reductions from fees paid indirectly.

^ The reimbursement impact per share amount and the ratios were less than \$0.01 and 0.01%, respectively.

SEE NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS (unaudited)

(1) BUSINESS AND ORGANIZATION

MFS Charter Income Trust (the trust) is a non-diversified trust that is organized as a Massachusetts business trust and is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company.

(2) SIGNIFICANT ACCOUNTING POLICIES

GENERAL - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The trust can invest in foreign securities. Investments in foreign securities are vulnerable to the effects of changes in the relative values of the local currency and the U.S. dollar and to the effects of changes in each country's legal, political, and economic environment.

INVESTMENT VALUATIONS - Bonds and other fixed income securities (other than short-term obligations) in the trust's portfolio are valued at an evaluated bid price as reported by an independent pricing service, or to the extent a valuation is not reported by a pricing service, such securities are valued on the basis of quotes from brokers and dealers. Prices obtained from pricing services utilize both dealer-supplied valuations and electronic data processing techniques which take into account appropriate factors such as institutional-size trading in similar groups of securities, yield, quality, coupon rate, maturity, type of issue, trading characteristics and other market data without exclusive reliance upon quoted prices or exchange or over-the-counter prices, since such valuations are believed to reflect more accurately the fair value of such securities. Equity securities in the trust's portfolio for which market quotations are available are valued at the last sale or official closing price as reported by an independent pricing service on the primary market or exchange on which they are primarily traded, or at the last quoted bid price for securities in which there were no sales during the day. Equity securities traded over the counter are valued at the last sales price traded each day as reported by an independent pricing service, or to the extent there are no sales reported, such securities are valued on the basis of quotations obtained from brokers and dealers. Futures contracts are valued at the settlement price as reported by an independent pricing service on the

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

primary exchange on which they are traded. Forward foreign currency contracts are valued using spot rates and forward points as reported by an independent pricing source. Short-term obligations with a remaining maturity in excess of 60 days will be valued upon dealer-supplied valuations. All other short-term obligations in the trust's portfolio are valued at amortized cost, which approximates market value as determined by the Board of Trustees. Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. When pricing service information or market quotations are not readily available, securities are priced at fair value as determined under the direction of the Board of Trustees.

REPURCHASE AGREEMENTS - The trust may enter into repurchase agreements with institutions that the trust's investment adviser has determined are creditworthy. Each repurchase agreement is recorded at cost. The trust requires that the securities collateral in a repurchase transaction be transferred to the custodian in a manner sufficient to enable the trust to obtain those securities in the event of a default under the repurchase agreement. The trust monitors, on a daily basis, the value of the collateral to ensure that its value, including accrued interest, is greater than amounts owed to the trust under each such repurchase agreement. The trust, along with other affiliated entities of Massachusetts Financial Services Company (MFS), may utilize a joint trading account for the purpose of entering into one or more repurchase agreements.

FOREIGN CURRENCY TRANSLATION - Purchases and sales of foreign investments, income, and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Gains and losses attributable to foreign currency exchange rates on sales of securities are recorded for financial statement purposes as net realized gains and losses on investments. Gains and losses attributable to foreign exchange rate movements on income and expenses are recorded for financial statement purposes as foreign currency transaction gains and losses. That portion of both realized and unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

DEFERRED TRUSTEE COMPENSATION - Under a Deferred Compensation Plan (the Plan) independent Trustees may elect to defer receipt of all or a portion of their annual compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of the trust or other MFS funds selected by the Trustee. Deferred amounts represent an unsecured obligation of the trust until distributed in accordance with the Plan. Included in other assets, and accrued expenses and other liabilities, is \$12,721 of Deferred Trustees' Compensation.

FUTURES CONTRACTS - The trust may enter into futures contracts for the delayed delivery of securities or currency, or contracts based on financial indices at a fixed price on a future date. In entering such contracts, the trust is required to deposit with the broker, either in cash or securities, an amount equal to a certain percentage of the contract amount. Subsequent payments are made or received by the trust each day, depending on the daily fluctuations in the value of the contract, and are recorded for financial statement purposes as unrealized gains or losses by the trust. The trust's investment in futures contracts is designed to hedge against anticipated future changes in interest or exchange rates or securities prices. Investments in interest rate futures for purposes other than hedging may be made to modify the duration of the portfolio without incurring the additional transaction costs involved in buying and selling the underlying securities. Investments in currency futures for purposes other than hedging may be made to change the trust's relative position in one or more currencies without buying and selling portfolio assets. Investments in index contracts or contracts on related options for purposes other than hedging, may be made when the trust has cash on hand and

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

wishes to participate in anticipated market appreciation while the cash is being invested. Should interest or exchange rates or securities prices move unexpectedly, the trust may not achieve the anticipated benefits of the futures contracts and may realize a loss.

SECURITY LOANS - State Street Bank and Trust Company ("State Street"), as lending agent, may loan the securities of the trust to certain qualified institutions (the "Borrowers") approved by the trust. The loans are collateralized at all times by cash and/or U.S. Treasury securities in an amount at least equal to the market value of the securities loaned. State Street provides the trust with indemnification against Borrower default. The trust bears the risk of loss with respect to the investment of cash collateral. On loans collateralized by cash, the cash collateral is invested in a money market fund or short-term securities. A portion of the income generated upon investment of the collateral is remitted to the Borrowers, and the remainder is allocated between the trust and the lending agent. On loans collateralized by U.S. Treasury securities, a fee is received from the Borrower, and is allocated between the trust and the lending agent. Income from securities lending is included in interest income on the Statement of Operations. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. At May 31, 2005, there were no securities on loan.

FORWARD FOREIGN CURRENCY EXCHANGE CONTRACTS - The trust may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The trust may enter into forward foreign currency exchange contracts for hedging purposes as well as for non-hedging purposes. For hedging purposes, the trust may enter into contracts to deliver or receive foreign currency it will receive from or require for its normal investment activities. The trust may also use contracts in a manner intended to protect foreign currency-denominated securities from declines in value due to unfavorable exchange rate movements. For non-hedging purposes, the trust may enter into contracts with the intent of changing the relative exposure of the trust's portfolio of securities to different currencies to take advantage of anticipated changes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded as unrealized until the contract settlement date. On contract settlement date, the gains or losses are recorded as realized gains or losses on foreign currency transactions.

DOLLAR ROLL TRANSACTIONS - The trust enters into dollar roll transactions, with respect to mortgage backed securities issued by Ginnie Mae, Fannie Mae, and Freddie Mac, in which the trust sells mortgage backed securities to financial institutions and simultaneously agrees to accept substantially similar (same type, coupon, and maturity) securities at a later date at an agreed-upon price. During the period between the sale and repurchase in a dollar roll transaction the trust will not be entitled to receive interest and principal payments on the securities sold but is compensated by interest earned on the proceeds of the initial sale and by a lower purchase price on the securities to be repurchased which enhances the trust's total return. The trust accounts for dollar roll transactions as purchases and sales. If certain criteria are met these dollar roll transactions may be considered a financing transaction whereby the difference in the sales price and the future purchase price is recorded as an adjustment to interest income.

INVESTMENT TRANSACTIONS AND INCOME - Investment transactions are recorded on the trade date. Some securities may be purchased on a "when-issued" or "forward delivery" basis, which means that the securities will be delivered to the trust at a future date, usually beyond customary settlement time. Interest

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

income is recorded on the accrual basis. All premium and discount is amortized or accreted for financial statement purposes in accordance with U.S. generally accepted accounting principles. All discount is accreted for tax reporting purposes as required by federal income tax regulations. Dividends received in cash are recorded on the ex-dividend date. Dividend and interest payments received in additional securities are recorded on the ex-dividend or ex-interest date in an amount equal to the value of the security on such date.

The trust may receive proceeds from litigation settlements involving its portfolio holdings. Any proceeds received are reflected in realized gain/loss in the Statement of Operations, or in unrealized gain/loss if the security is still held by the trust.

The trust may enter into "TBA" (to be announced) purchase commitments to purchase securities for a fixed unit price at a future date. Although the unit price has been established, the principal value has not been finalized. However, the principal amount of the commitments will not fluctuate more than 0.01%. The trust holds, and maintains until settlement date, cash or high-grade debt obligations in an amount sufficient to meet the purchase price, or the trust may enter into offsetting contracts for the forward sale of other securities it owns. Income on the securities will not be earned until settlement date. TBA purchase commitments may be considered securities in themselves, and involve a risk of loss if the value of the security to be purchased declines prior to settlement date, which is in addition to the risk of decline in the value of the trust's other assets. Unsettled TBA purchase commitments are valued at the current market value of the underlying securities. The trust may enter into "TBA" (to be announced) sale commitments to hedge its portfolio positions or to sell mortgage-backed securities it owns under delayed delivery arrangements. Proceeds of TBA sale commitments are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment deliverable on or before the sale commitment date, are held as "cover" for the transaction.

FEES PAID INDIRECTLY - The trust's custody fee is reduced according to an arrangement that measures the value of cash deposited with the custodian by the trust. This amount, for the six months ended May 31, 2005, is shown as a reduction of total expenses on the Statement of Operations.

TAX MATTERS AND DISTRIBUTIONS - The trust's policy is to comply with the provisions of the Internal Revenue Code (the Code) applicable to regulated investment companies and to distribute to shareholders all of its net taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is provided.

Distributions to shareholders are recorded on the ex-dividend date. The trust distinguishes between distributions on a tax basis and a financial reporting basis and only distributions in excess of tax basis earnings and profits are reported in the financial statements as distributions from paid-in capital. Differences in the recognition or classification of income between the financial statements and tax earnings and profits, which result in temporary over-distributions for financial statement purposes, are classified as distributions in excess of net investment income or net realized gains. Common types of book and tax differences that could occur include differences in accounting for foreign currency transactions, straddle loss deferrals, derivatives, defaulted bonds, and amortization and accretion on debt securities.

The tax character of distributions declared for the years ended November 30, 2004 and November 30, 2003, was as follows:

11/30/04

11/30/03

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

Distributions declared from:

Ordinary income	\$31,836,028	\$31,796,703
-----------------	--------------	--------------

As of November 30, 2004, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

Undistributed ordinary income	\$862,961
Capital loss carryforward	(47,072,742)
Unrealized appreciation (depreciation)	11,572,675
Other temporary differences	(11,393,626)

For federal income tax purposes, the capital loss carryforward may be applied against any net taxable realized gains of each succeeding year until the earlier of its utilization or expiration as follows:

EXPIRATION DATE

November 30, 2008	\$ (1,375,921)
November 30, 2009	(21,791,609)
November 30, 2010	(23,905,212)
Total	
	\$ (47,072,742)

(3) TRANSACTIONS WITH AFFILIATES

INVESTMENT ADVISER - The trust has an investment advisory agreement with MFS to provide overall investment advisory and administrative services, and general office facilities. The management fee is computed daily and paid monthly at an annual rate of 0.32% of the trust's average daily net assets and 4.57% of gross investment income. Management fees, from net assets and gross investment income, incurred for the six months ended May 31, 2005 were at an effective rate of 0.59% of average daily net assets on an annualized basis.

The trust pays compensation to its Independent Trustees in the form of a retainer, attendance fees, and additional compensation to Board and Committee chairpersons, and pays no compensation directly to its Trustees who are officers of the investment adviser, or to officers of the trust, all of whom receive remuneration for their services to the trust from MFS. Certain officers and Trustees of the trust are officers or directors of MFS and MFS Service Center, Inc. (MFSC). The trust has an unfunded, defined benefit plan for retired Independent Trustees and an unfunded retirement benefit deferral plan for current Independent Trustees. Included in Trustees' compensation is \$1,984 as a result of the change in the trust's unfunded retirement benefit deferral plan for certain current Independent Trustees and a pension expense of \$25,253 for retired Independent Trustees for the six months ended May 31, 2005.

This trust and certain other MFS funds (the "funds") have entered into a services agreement (the "Agreement") which provides for payment of fees by the funds to Tarantino LLC in return for the provision of services of an Independent Chief Compliance Officer (ICCO) for the funds. The ICCO is an officer of the funds and the sole member of Tarantino LLC. MFS has agreed to reimburse each of the funds for a proportional share of substantially all of the payments made by the funds to Tarantino LLC and also to provide office space and other administrative support and supplies to the ICCO. The funds can terminate the Agreement with Tarantino LLC at any time under the terms of the Agreement.

ADMINISTRATOR - MFS provides certain financial, legal, shareholder communications, compliance, and other administrative services to certain funds

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

for which MFS acts as investment adviser. Under an administrative services agreement between the funds and MFS, MFS is entitled to partial reimbursement of the costs MFS incurs to provide these services, subject to review and approval by the Board of Trustees. Each fund is allocated a portion of these administrative costs based on its size and relative average net assets. The trust paid MFS an administrative fee up to the following annual percentage rates of the trust's average daily net assets:

EFFECTIVE DATE	BEGINNING OF PERIOD	
	THROUGH 2/28/05	3/01/05
First \$2 billion	0.01120%	0.01626%
Next \$2.5 billion	0.00832%	0.01206%
Next \$2.5 billion	0.00032%	0.00056%
In excess of \$7 billion	0.00000%	0.00000%

For the six months ended May 31, 2005, the trust paid MFS \$32,728, equivalent to 0.0118% of average daily net assets, to partially reimburse MFS for the costs of providing administrative services.

TRANSFER AGENT - Included in transfer agent and dividend disbursing costs is a fee paid to MFSC, a wholly owned subsidiary of MFS, for its services as registrar and dividend disbursing agent for the trust. The agreement provides that the trust will pay MFSC an account maintenance fee of no more than \$9.00 and a dividend services fee of \$0.75 per reinvestment. These fees amounted to \$42,951 for the six months ended May 31, 2005. Also included in transfer agent and dividend disbursing costs are out-of-pocket expenses, paid to MFSC, which amounted to \$37,251 for the six months ended May 31, 2005, as well as other expenses paid to unaffiliated vendors.

(4) PORTFOLIO SECURITIES

Purchases and sales of investments, other than purchased option transactions and short-term obligations, were as follows:

	PURCHASES	SALES
U.S. government securities	\$77,662,781	\$70,269,969
Investments (non-U.S. government securities)	\$165,113,722	\$172,840,722

The cost and unrealized appreciation and depreciation in the value of the investments owned by the trust, as computed on a federal income tax basis, are as follows:

Aggregate cost	\$554,063,154
Gross unrealized appreciation	\$12,554,777
Gross unrealized depreciation	(10,749,442)
Net unrealized appreciation (depreciation)	\$1,805,335

(5) SHARES OF BENEFICIAL INTEREST

The trust's Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional shares of beneficial interest. The Trustees have authorized the repurchase by the trust of up to 10% annually of its own shares of beneficial interest. The trust repurchased and retired 635,500 shares of beneficial interest during the six months ended May 31, 2005, at an average price per share of \$8.69 and a weighted average discount of 10.19% per share. The trust repurchased and retired 1,134,600 shares of beneficial interest

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

during the year ended November 30, 2004 at an average price per share of \$8.66 and a weighted average discount of 9.74% per share. Transactions in trust shares were as follows:

	Period ended 5/31/05		Year ended 11/30/04	
	SHARES	AMOUNT	SHARES	AMOUNT
Treasury shares reacquired	(635,500)	\$(5,523,232)	(1,134,600)	\$(9,821,953)

(6) LINE OF CREDIT

The trust and other affiliated funds participate in a \$1 billion unsecured line of credit provided by a syndication of banks under a credit agreement. Borrowings may be made for temporary financing needs. Interest is charged to each fund, based on its borrowings, at a rate equal to the Federal Reserve funds rate plus 0.35%. In addition, a commitment fee, based on the average daily, unused portion of the line of credit, is allocated among the participating funds at the end of each calendar quarter. The commitment fee allocated to the trust for the six months ended May 31, 2005 was \$2,015, and is included in miscellaneous expense. The trust had no significant borrowings during the six months ended May 31, 2005.

(7) FINANCIAL INSTRUMENTS

The trust trades financial instruments with off-balance-sheet risk in the normal course of its investing activities in order to manage exposure to market risks such as interest rates and foreign currency exchange rates. These financial instruments include forward foreign currency exchange contracts and futures contracts. The notional or contractual amounts of these instruments represent the investment the trust has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered.

At May 31, 2005, the trust had sufficient cash and/or securities to cover any margin requirements under these contracts.

(9) RESTRICTED SECURITIES

At May 31, 2005, the trust owned the following restricted securities which are subject to legal or contractual restrictions on resale, excluding securities issued under Rule 144A, constituting 0.1% of net assets which may not be publicly sold without registration under the Securities Act of 1933. The trust does not have the right to demand that such securities be registered. The value of these securities is determined by valuations furnished by dealers or by a pricing service, or if not available, in good faith at the direction of the Trustees.

(10) LEGAL PROCEEDINGS

On March 31, 2004, MFS settled an administrative proceeding with the Securities and Exchange Commission ("SEC") regarding disclosure of brokerage allocation practices in connection with MFS fund sales (the term "MFS funds" means the open-end registered management investment companies sponsored by MFS). Under the terms of the settlement, in which MFS neither admitted nor denied any wrongdoing, MFS agreed to pay (one dollar) \$1.00 in disgorgement and \$50 million in penalty to certain MFS funds, pursuant to a plan developed by an independent distribution consultant. The brokerage allocation practices which were the subject of this proceeding were discontinued by MFS in November 2003. The agreement with the SEC is reflected in an order of the SEC. The SEC settlement order states that MFS failed to adequately disclose to the Boards of Trustees and to shareholders of the MFS funds the specifics of its preferred arrangements with certain brokerage firms selling MFS fund shares. The SEC settlement order states that MFS had in place policies designed to obtain best execution of all MFS fund trades. As part of the settlement, MFS retained an independent compliance consultant to review the completeness of its current policies and practices regarding disclosure to MFS fund trustees and to MFS fund shareholders of strategic alliances between MFS or its affiliates and broker-dealers and other financial intermediaries who support the sale of MFS fund shares. Pursuant to the SEC order, on July 28, 2004, MFS

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

transferred these settlement amounts to the SEC, and those MFS funds entitled to these settlement amounts accrued an estimate of their pro rata portion of these amounts. The final distribution plan was approved by the SEC on January 21, 2005, and the affected MFS funds received the payment on February 16, 2005.

In addition, in February 2004, MFS reached agreement with the SEC, the New York Attorney General ("NYAG") and the Bureau of Securities Regulation of the State of New Hampshire ("NH") to settle administrative proceedings alleging false and misleading information in certain MFS open-end retail fund ("MFS retail funds") prospectuses regarding market timing and related matters (the "February Settlements"). These regulators alleged that prospectus language for certain MFS retail funds was false and misleading because, although the prospectuses for those funds in the regulators' view indicated that they prohibited market timing, MFS did not limit trading activity in 11 domestic large cap stock, high grade bond and money market retail funds. MFS' former Chief Executive Officer and former President also reached agreement with the SEC in which they agreed to, among other terms, monetary fines and temporary suspensions from association with any investment adviser or registered investment company. These individuals have resigned their positions with, and will not be returning to, MFS and the MFS funds. Under the terms of the February Settlements, MFS and the executives neither admit nor deny wrongdoing.

Under the terms of the February Settlements, a \$225 million pool has been established for distribution to shareholders in certain MFS retail funds, which has been funded by MFS and of which \$50 million is characterized as a penalty. This pool will be distributed in accordance with a methodology developed by an independent distribution consultant in consultation with MFS and the Board of Trustees of the MFS retail funds, and acceptable to the SEC. MFS has further agreed with NYAG to reduce its management fees in the aggregate amount of approximately \$25 million annually over the next five years, and not to increase certain management fees during this period. MFS has also paid an administrative fine to NH in the amount of \$1 million, which will be used for investor education purposes (NH retained \$250,000 and \$750,000 was contributed to the North American Securities Administrators Association's Investor Protection Trust). In addition, under the terms of the February Settlements, MFS is in the process of adopting certain governance changes and reviewing its policies and procedures.

Since December 2003, MFS, MFS Fund Distributors, Inc., MFS Service Center, Inc., MFS Corporation Retirement Committee, Sun Life Financial Inc., various MFS funds, certain current and/or former Trustees of these MFS funds, and certain officers of MFS have been named as defendants in multiple lawsuits filed in federal and state courts. The lawsuits variously have been commenced as class actions or individual actions on behalf of investors who purchased, held or redeemed shares of the MFS funds during specified periods, as ERISA actions by participants in certain retirement plan accounts on behalf of those accounts, or as derivative actions on behalf of the MFS funds. The lawsuits relating to market timing and related matters have been transferred to, and consolidated before, the United States District Court for the District of Maryland, as part of a multi-district litigation of market timing and related claims involving several other fund complexes (In re Mutual Funds Investment Litigation (Alger, Columbia, Janus, MFS, One Group, Putnam, Allianz Dresdner), No. 1:04-md-15863 (transfer began March 19, 2004)). The market timing cases related to the MFS complex are Riggs v. MFS et al., Case No. 04-cv-01162-JFM (direct), Hammerslough v. MFS et al., Case No. 04-md-01620 (derivative) and Anita Walker v. MFS et al., Case No. 1:04-CV-01758 (ERISA). The plaintiffs in these consolidated lawsuits generally seek injunctive relief including removal of the named Trustees, adviser and distributor, rescission of contracts and 12b-1 Plans, disgorgement of fees and profits, monetary damages, punitive damages, attorney's fees and costs and other equitable and declaratory relief.

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

Two lawsuits alleging improper brokerage allocation practices and excessive compensation are pending in the United States District Court for the District of Massachusetts (Forsythe v. Sun Life Financial Inc., et al., No. 04cv10584 (GAO) (a consolidated action) and Marcus Dumond, et al. v. Massachusetts Financial Servs. Co., et al., No. 04cv11458 (GAO)). The plaintiffs in these lawsuits generally seek compensatory damages, punitive damages, recovery of fees, rescission of contracts, an accounting, restitution, declaratory relief, equitable and/or injunctive relief and attorney's fees and costs. The various lawsuits generally allege that some or all of the defendants (i) permitted or acquiesced in market timing and/or late trading in some of the MFS funds, inadequately disclosed MFS' internal policies concerning market timing and such matters (ii) received excessive compensation as fiduciaries to the MFS funds, or (iii) permitted or acquiesced in the improper use of fund assets by MFS to support the distribution of MFS fund shares and inadequately disclosed MFS' use of fund assets in this manner. The actions assert that some or all of the defendants violated the federal securities laws, including the Securities Act of 1933 and the Securities Exchange Act of 1934, the Investment Company Act of 1940 and the Investment Advisers Act of 1940, the Employee Retirement Income Security Act of 1974, as well as fiduciary duties and other violations of common law. Insofar as any of the actions is appropriately brought derivatively on behalf of any of the MFS funds, any recovery will inure to the benefit of the MFS funds. In February, March, and April 2005, the defendants filed separate motions to dismiss all claims of the various lawsuits. The parties continue to brief the issues for the courts and various hearing dates have been scheduled. Additional lawsuits based on similar allegations may be filed in the future.

Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against MFS, the MFS funds, or any other named defendant. As noted above, as part of the regulatory settlements, MFS has established a restitution pool in the amount of \$225 million to compensate certain shareholders of certain MFS retail funds for damages that they allegedly sustained as a result of market timing or late trading in certain of the MFS retail funds, and distributed \$50 million to affected MFS funds to compensate those funds based upon the amount of brokerage commissions allocated in recognition of MFS fund sales. It is not clear whether these amounts will be sufficient to compensate shareholders for all of the damage they allegedly sustained, whether certain shareholders or putative class members may have additional claims to compensation, or whether the damages that may be awarded in any of the actions will exceed these amounts. In the event the MFS funds incur any losses, costs or expenses in connection with such lawsuits, the Boards of Trustees of the affected MFS funds may pursue claims on behalf of such funds against any party that may have liability to the funds in respect thereof.

Review of these matters by the independent Trustees of the MFS funds and their counsel is continuing. There can be no assurance that these regulatory actions and lawsuits, or the adverse publicity associated with these developments, will not result in increased fund redemptions, reduced sales of fund shares, or other adverse consequences to the MFS funds.

While these developments relate to MFS and the MFS' open-end funds, there can be no assurance that these developments, or the adverse publicity associated with these developments, will not result in an increase to the market discount of the MFS closed-end fund shares or other adverse consequences.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustees and Shareholders of the MFS Charter Income Trust:

We have reviewed the accompanying statement of assets and liabilities of

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

MFS Charter Income Trust (the Trust), including the portfolio of investments, as of May 31, 2005, and the related statements of operations, changes in net assets, and financial highlights for the six-month period ended May 31, 2005. These interim financial statements are the responsibility of the Trust's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended November 30, 2004, and financial highlights for each of the five years in the period ended November 30, 2004, and in our report dated January 14, 2005, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.

/s/ ERNST & YOUNG LLP

Boston, Massachusetts
July 12, 2005

RESULTS OF SHAREHOLDER MEETING (unaudited) - 5/31/05

At a special meeting of shareholders of MFS Charter Income Trust, which was held on March 23, 2005, the following actions were taken:

ITEM 1. To elect a Board of Trustees:

NOMINEE	NUMBER OF SHARES	
	AFFIRMATIVE	WITHHOLD AUTHORITY
Lawrence H. Cohn, M.D.	50,136,139.256	1,293,785.742
David H. Gunning	50,236,249.256	1,193,675.742
William R. Gutow	50,198,321.256	1,231,603.742
Michael Hegarty	50,145,125.784	1,284,799.214
J. Atwood Ives	50,143,690.256	1,286,234.742
Amy B. Lane	50,204,641.213	1,225,283.785
Robert J. Manning	50,201,185.255	1,228,739.743
Lawrence T. Perera	50,147,987.806	1,281,937.192
Robert C. Pozen	50,184,238.781	1,245,686.217

-------	---------	--------	---------

Note: The Board of Trustees approves procedures to repurchase shares annually. The notification to shareholders of the program is part of the semi-annual and annual reports sent to shareholders. These annual programs begin on March 1st of each year. The programs conform to the conditions of Rule 10b-18 of the securities Exchange Act of 1934 and limit the aggregate number of shares that may be purchased in each annual period (March 1 through the following February 28) to 10% of the Registrant's outstanding shares as of the first day of the plan year (March 1). The aggregate number of shares available for purchase for the March 1, 2005 plan year are 5,729,124.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There were no material changes to the procedures by which shareholders may send recommendations to the Board for nominees to the Registrant's Board since the Registrant last provided disclosure as to such procedures in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) Based upon their evaluation of the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act) as conducted within 90 days of the filing date of this Form N-CSR, the registrant's principal financial officer and principal executive officer have concluded that those disclosure controls and procedures provide reasonable assurance that the material information required to be disclosed by the registrant on this report is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.
- (b) There were no changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the second fiscal quarter covered by the report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

(a) File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Code of Ethics attached hereto.

(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Act (17 CFR 270.30a-2): Attached hereto. (3) Any written solicitation to purchase securities under Rule 23c-1 under the Act sent or given during the period covered by the report by or on behalf of the Registrant to 10 or more persons. Not applicable.

(b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the Act (17 CFR 270.30a-2(b)), Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)) and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for the

Edgar Filing: MFS CHARTER INCOME TRUST - Form N-CSRS

purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: Attached hereto.
