NEWS RELEASE

For Immediate Release

WEYERHAEUSER REITERATES \$55 OFFER TO WILLAMETTE BOARD

FEDERAL WAY, Wash., January 2, 2002 - Weyerhaeuser Company (NYSE: WY) today sent a letter to the board of directors of Willamette Industries, Inc. (NYSE: WLL). The full text of the letter follows:

January 2, 2002

Board of Directors  
Willamette Industries, Inc.  
1300 Southwest Fifth Avenue  
Portland, Oregon 97201

Dear Board Members:

## Edgar Filing: WILLAMETTE INDUSTRIES INC - Form SC TO-T/A

Since December 18, 2001, our respective financial advisors have had a number of discussions regarding the Willamette business and possible synergies that may be achieved by combining Willamette and Weyerhaeuser. We carefully reviewed the information and the synergy estimates provided by Willamette's advisors to determine whether we had overlooked or inappropriately estimated any synergy items in our prior work. While we found areas where we agree, in other areas much of the synergy opportunities presented by Willamette's advisors have already been realized by Weyerhaeuser through operational changes and acquisitions since mid-1998 and are essentially the same synergies Willamette has been using publicly over the past year. Our review of this information has confirmed our previous estimate that a combination of Weyerhaeuser and Willamette now would result in approximately \$300 million in synergies.

We have provided Willamette's financial advisor with a detailed review of why we believe Willamette's synergy estimate is not achievable. Among other things, Willamette's estimated wood products savings incorporate additional synergies in distribution that we think are not attainable because: the end customer for many of our products is different; Weyerhaeuser does not have excess capacity in its systems; and the estimates do not incorporate the associated capital or ongoing

costs to achieve the synergies. Furthermore, Willamette's proposed savings in containerboard do not account for the significant changes Weyerhaeuser has made to its own operations since the acquisition of MacMillan Bloedel in 1999. As previously disclosed, Weyerhaeuser has generated over \$200 million in savings from that transaction, which limits the potential savings achievable with Willamette. In addition, the Willamette estimates incorporate savings for facilities Weyerhaeuser has already closed. Finally, for the white paper business, it is inappropriate to include savings from Port Wentworth because Weyerhaeuser has already incorporated the benefits of this project and Willamette's other previously announced value-enhancing initiatives in our offer.

Based on a thorough analysis of everything Willamette has provided, \$55 per share represents the highest price we are prepared to pay for Willamette. This is a premium offer that gives Willamette shareholders full and fair value for their investment in Willamette, including potential synergies of the proposed combination. While we are disappointed that you have not authorized Willamette's advisors to negotiate a definitive merger agreement, we are prepared to meet immediately to do so. That would permit our \$55 cash offer to be received promptly by Willamette shareholders.

Sincerely yours,

/s/ Steven R. Rogel  
Steven R. Rogel  
Chairman, President and Chief Executive Officer
